That in consideration of the sums of money so received by him and of the promises to him made, the said Thomas McGreevy furnished to Larkin, Connolly & Co. a great deal of information, strove to procure and did procure to be made by the department and the Hon. Minister of Public Works, in the plans of the Graving Dock, and in the execution of the said alterations which increased large sums of money to the public treasury.

That he himself took steps to induce certain members of the Parliament of Canada to assist him, the said Thomas McGreevy, in his efforts in concert with Larkin, Connolly & Co. to obtain alterations and additional works for which large sums of money were offered to him by the members of the firm.

That on his suggestion members of the Parliament of Canada were approached by members of the firm of Larkin, Connolly & Co.

That certain members of the said firm have declared that the said members of the Canadian Parliament on being approached had asked for a certain sum of money for exerting their influence in favor of Larkin, Connolly & Co. with the Minister of Public Works, and that Larkin, Connolly & Co. had agreed to give them money for that purpose.

That Thomas McGreevy, acting in concert with Larkin, Connolly & Co., did at their request corruptly endeavor to procure the dismissal from office of certain public officers employed in connection with the works of the Graving Dock at Equimalt in order to have them replaced by others who would suit Larkin, Connolly & Co., the former having for a time incurred the ill-will of Larkin, Connolly & Co because they then compelled them to carry out the works in conformity with the specifications and contract, and prepared their estimates according to the terms of the said contract.

That during the winter of 1886-87 the said Thomas McGreevy proposed to and made with the firm of Larkin, Connolly & Co. through certain members of the said firm, an arrangement whereby the said firm undertook to pay him the sum of $25,000 on account to assist Mr. Perley of having been connected with any of the charges made or having been guilty of any misconduct, and that as far as the member for Quebec West was concerned he was in the House and could speak for himself.

Newfoundland Legislature Adopts a Wise and Honorable Course.

NEW YORK, May 11.—A dispatch from St. John's Nfld., says: After a conference between the two houses of the Legislature and prolonged sittings in private, both branches decided to indorse the action of the delegates to England, and to carry into effect the proposals made by them to the British Parliament and Government. There was much opposition at first, but reflection showed this to be the wisest and most honorable course. A bill will be submitted enforcing the modus vivendi.

The Coercion Bill Passed.

LONDON, May 11.—In the House of Lords to-day Lord Knutsford's Coercion bill relating to Newfoundland, passed its third reading.

A Fat Woman's Toboggan.

PORTSMOUTH, N.H., May 11.—Mrs. Letherly, in jail here, got out of an attic window yesterday, slid 25 feet down a lightning rod, then dropped 15 feet to the ground, scaled a nine-foot fence and got away. She weighs 180 pounds.

Her Diet Was Tacks.

SYRACUSE, N.Y., May 11.—Pearl Arnold, known on the stage as "Pearl Arundel," is at the Onondaga County Penitentiary suffering from the effects of her career as a museum freak. The woman can retain no solid food on her stomach. She has vomited many nails and tacks that she swallowed before career in the museum.

Suicide at 110.

HAZELTON, May 11.—Mrs. Donnelly, aged 110, committed suicide to-day by setting fire to her bed. She had of late been infirm, and the neighbors, who have kept her for the past 20 years, decide to send her to the almshouse where she would receive good care. She suspected this, and rather than suffer what she considered an indignity burned herself to death.

Had a White Wife, But Took a Red One

BRANTFORD, May 11.—A white man named William Teeple was arrested on the Indian reserve on Saturday on a charge of bigamy. Teeple, it seems, came from Michigan and settled on the reserve, where he married an Indian girl named Bradley.

Killed By a Mad Cat's Bite

LITTLE ROCK, Ark., May 11.—A cat belonging to J. R. Vanzandt, who lives near Rogers, was attacked with hydrophobia and bit one of Vanzandt's children, a boy of nine years. The doctors say he cannot recover.

Wanted a Shave on the Scaffold.

MARSHALL, Mo., May 10.—"Sheriff, I ought to have had a shave!" exclaimed William Price, the black felonious assailant of Miss Alice Ninans, while the official pulled the black cap over his face before executing him upon the gallows here at 11.40 a.m. today. He went to his death with a laugh.

Abandoned Her Babe on the Roadside.

FERGUS, Ont., May 11.—Two men driving along the road near the village noticed a basket on the side of the road. One of the men got out of the conveyance to get the basket, when he was surprised to find that it contained an infant. The child is being cared for by a Fergus lady, and the police are looking for its mother.

The Committee's Action Approved.

PARIS, May 11.—The Senate has approved of the report made to it by the committee on the Newfoundland arbitration question.

Don't Feel Well.

And yet you are not sick enough to consult a doctor, or you refrain from so doing for fear you will alarm yourself and friends—we will tell you just what you need. It is Hood's Sarsaparilla, which will lift you out of that unsettled, uncomfortable, dangerous condition, into a state of good health, confidence and cheerfulness. You've no idea how potent this peculiar medicine is in cases like yours.

Children Cry for Pitcher's Castoria.

IN THE RED RIVER'S DEPTHS.

How a Parkhill Man Lost His Life at Winnipeg Last Night.

WINNIPEG, May 11.—Harry Williams, a young man who arrived from Parkhill, Ont., only a few days ago, was drowned while rowing in the Red River to-night. He attempted to change places with his comrade, George Elliott, also of Parkhill, and in doing so lost his balance, fell overboard and was drowned.

FORTUNE TELLERS TO THE RESCUE.

"Clues" to the Heslop Murder Which Failed to Pan Out.

HAMILTON, May 11.—The Heslop murder is scarcely ever mentioned now except by those interested in the case. Detective Greer will resume work on the case in a few days. Chief McKinnon has occasional visitors who have pointers for him about the murder. Two of these, both women, called last week. The first was a woman who had a dream in which it was revealed to her who the murderer was. The chief, who found it to be a mix-up of various clues that had been suggested, fully investigated and abandoned. The other woman was from Brant County. She had been to see an American fortune-teller about some family affairs and the fortune-teller talked about the murder and gave a description of the murderer. The woman put so much confidence in the fortune-teller that she proceeded to hunt up the chief at once. She was not a little disappointed and annoyed when the chief showed her that the woman of hidden ways didn't know what she was talking about.

SIXTY DAY'S GRACE.

The Portuguese Government Grant a Delay in the Payment of All Obligations.

LISBON, May 11.—Owing to the alarming state of the financial situation here the Government has issued a decree granting a delay of 60 days in the payment of all obligations. It is estimated that silver to the value of $1,250,000 was withdrawn from Lisbon banks on Friday and Saturday. A nobleman drew $12,500, the whole of which was given to him in silver coin, to the amusement of the onlookers. Troops kept order at the doors.

The crisis is due to the bad political and financial situation of the Government, causing distrust.

A McCarthyite Convention.

LONDON, May 11.—A conference here today of the McCarthyite members of Parliament resolved to call a convention in Ireland. The resolution adopted was to the effect that since Parnell has refused to comply with all suggestions as to releasing the Paris funds his colleagues are led to believe he is opposed to applying these funds to the relief of the evicted tenants. Therefore, in view of the extreme urgency of the case and of the approach of a general election, it has been resolved to appeal to Ireland in behalf of the evicted tenants.

BELIEVED SHE WAS A PAUPER.

Starved Rather Than Buy Food, But Expended $300 For a Monument.

ST. CATHARINES, May 11.—Winnifred Gavin, or "Old Winnie" as she was more familiarly known, has been charitably cared for by neighbors, having represented that she had not a shilling to bless herself with. Last night she died and a few hours before the end sent for a lawyer and handed over securities amounting to $300, of which sum she ordered $300 to be expended for a monument and the balance to be given to the Roman Catholic church.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355 92
Increase over previous year	3,421,372 84
New Applications received in 1890	6,371 599 13
Increase over 1889	2 268 888 60
Cash income for year ending 31st December, 1890	889,078 87
Increase over 1889	325 938 35
Assets at 31st December, 1890	2,473 514 19
Increase over 1889	647 691 47
Reserve for Security for Policy Holders	2,109 222 68
Increase over 1889	567 732 71
Surplus over all Liabilities and Capital Stock	232,175 69
Increase over 1889	75 649 05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec.,	1881, (five years)	$84,824 07
" " "	1886, "	89,452 97
" " "	1890, (four years)	232,175 69

TUESDAY, MAY 12, 1891.

THE BRITISH POLITICAL SITUATION.

It was thought that the Parnell exposure had rung the death-knell of the Home Rule movement, and given Mr. Gladstone a rebuff from which, at his time of life, it was extremely improbable he would ever recover. But a decided reaction has followed what was only a seeming crisis. The latest advices from London assert that there will be no dissolution after all. A short two weeks of time has settled to snow the futility of Mr. Goschen's baldly indecent offer of the bribe of free schools. It sounded so smart at first blush that people overlooked its naked dishonesty to speculate upon its probable results, and the politicians of both parties thought it was going vitally to alter the existing situation. But this turns out to have been only another of many cases in which the politicians overlooked the most important element in the whole affair, namely, the moral sense of the electorate. That Mr. Goschen, having stumped the country against free education, should calmly turn around and announce that he was going to devote $10,000,000 to the purpose, moved clever to the partisan managers. Enough figures are at hand to show that it has seemed simple rascality to the ordinary English voter. Three representative agricultural constituencies have voted this week, and the result is the most crushing knock-down series of blows the Ministry has sustained since its formation. The Tories carried all three in 1886 by majorities ranging from 543 to 1,138, the total majorities amounting to 2 672. In each case the result was principally due to Liberal abstentions Now, the Liberals carry two seats by an aggregate majority of 7 031, and lose the third by only 40 votes. This result surpasses anything achieved before the Parnell apostacy, when the flowing tide was admittedly with the Opposition. Of course this puts an effectual quietus on all the plans of springing dissolution upon the country. The Tories and Unionists will cling grimly to their offices and salaries now to the bitter end. That the bitterness is not to be withheld till the end is already manifest. The London *Times* and *Standard*, from different points of view both attack their own Ministers, and it is apparent that the long pent up jealousies and hatred in the hybrid party are on the point of basking violently forth.

THE *Globe* says:—Water-ways have received a rude shock from railroads, but their usefulness is by no means gone. The water route is now carrying wheat from Chicago to New York, a distance of 1,600 by water, for five cents per bushel or $1 66, 2 3 per ton—the lowest rate ever known." The *Globe* if it were not infected with Toronto's indifference, if not hostility, to any project that does not centre in that selfish city, might have added that the facts it adduces, are argumentsin favour of theconstruction of the Trent Valley Canal, the great future connecting traffic link between the seaboard and the immense wheat fields of the North-west.

Nickel Steel Armor Plate.

Favourable Result of the Recent American Experiments.

(*Globe's Washington Correspondent*)

WASHINGTON, May 10.—It will be of interest to Canadians who are engaged in the mining and manufacture of nickel to know that the Navy Department is advised that the new experiments in nickel steel armor plate which have just been conducted at the Annapolis proving ground have again demonstrated the great value of nickel. The results are even more important than those of the foreign plate trials of last September. This time the test was of American material and embraced the various types of armor recommended by previous trials. There were five plates, all from the Carnegie works, of the following description:—One all steel plate, untreated; one nickel steel plate, a copy of the triumphant creusot plate; another nickel steel plate of higher carbon; one all steel plate, treated by the Harvey process, and one nickel steel plate treated by that process. The plates were smaller than those used in the September trials, being eight feet long, six feet wide and three inches thick. The idea of the department was to secure in the least possible thickness of plate compatible with protection, and it was planned to begin with the small sized plate first. The results of the present trial, however, have demodstrated the value of nickel steel, and the experimental stage may be said to have been passed. The test was made severe by the discharge of the six-pounder Hotchkiss rapid-firing gun in sufficiently close proximity to the face of the plates to give the projectiles a striking velocity of 1,800 feet per second, or 150 feet per second more than enough to perforate a plate of ordinary steel.

The effects of this result are far-reaching. It presents a condition of armor entirely new to the ordnance experts. It will virtually revolutionize naval construction if the present superiority of armor over the projectiles can be maintained. It is estimated that eight inches of nickel steel, Harvey-treated, are equal to ten inches of all steel. This means the possibility of lessening the thickness of armor and devoting the weight so gained to other as formidable uses. Thus the 20 per cent. decrease in the weight of the armor belt of a battleship may be used to increase the efficiency of the armament, or to add to the ammunition supplies, without, at the same time lessening the protection of the vessel. The latest results are not likely to be disturbed, for in reality the most recent trial is the fourth given to steel treated by the Harvey process.

The process was developed by the Naval Ordnance Bureau and treats metal by superficial carbonization. It is an invention of H. A. Harvey, of Newark, N.J. The two firms with whom the Navy Department has armor plate contracts will be encouraged to establish plants at their works for the treatment of metal by this process, and in the order for ten and a half inch plates soon to be given to Carnegie, Phipps & Co., and the Bethlehem iron works, the Harvey process will be adopted. Nickel steel, already demonstrated as the successful armor-plate material, is, as the name implies, a combination of steel with a percentage in the neighborhood of five per cent. of nickel.

The Navy department by experiments has secured the two most valuable elements of modern armour. It is prepared by contracts with the manufacturers of steel, the inventor of the Harvey process and the holders of nickel ore to proceed with the preparation of armor plates for the new navy.

Not many physicians make great therapeutic discoveries. For the most part they content themselves with administering judiciously what is prescribed in the books. To Dr. J. C. Ayer, however, is due the credit of discovering that greatest of blood purifiers—Ayer's Sarsaparilla.

It Steadily Improves.

The energy and ability which characterize the present management of the *Dominion Illustrated* are more and more apparent each succeeding week and month. Lumbering in Canada, the great Caignecto Ship Railway, the formal opening of the Dominion Parliament, are among the subjects that have been taken up recently and exhaustively illustrated. Both from the literary and artistic point view this journal is a pronounced success, and in the fullest sense deserving of its steadily growing popularity. The great prize competition is still open to new subscribers. The publishers of the *Dominion Illustrated* are the Sabiston Litho. and Pub. Co., Montreal.

Children Cry for Pitcher's Castoria.

They poulticed her feet and poulticed her head,
And blistered her back till 'twas smarting and red,
Tried tonics, elixirs, pain-killers and salves,
(Though grandma declared it was nothing but "nerves.")
And the poor woman thought she must certainly die,
Till "Favorite Prescription" she happened to try.
No wonder its praises so loudly they speak;
She grew better at once and was well in a week.

The torturing pains and distressing nervousness which accompany, at times, certain forms of "female weakness," yield like magic to Dr. Pierce's *Favorite Prescription*. It is purely vegetable, perfectly harmless, and adapted to the delicate organization of woman. It allays and subdues the nervous symptoms and relieves the pain accompanying functional and organic troubles.

Dr. Pierce's Favorite Prescription contains no alcohol to inebriate, no syrup or sugar to ferment in the stomach and cause distress; is as peculiar in its curative effects, in the diseases that afflict womankind, as in its composition. It's a legitimate medicine—an invigorating, restorative tonic, a soothing and strengthening nervine, and a positive remedy for "female weaknesses" and ailments. All functional disturbances, irregularities, and derangements are cured by it. *There's nothing like it* in the way it acts—there's nothing like it in the way it's sold. It's *guaranteed* to give satisfaction in every case, or the money paid for it is promptly refunded.

Read the guarantee on the wrapper. *You lose nothing if it doesn't help you*—but it will.

The system is invigorated, the blood enriched, digestion improved, melancholy and nervousness dispelled. It's a legitimate medicine, the only *one* that's *guaranteed* to give satisfaction in the cure of all "female complaints."

Taken away
—sick headache, bilious headache, dizziness, constipation, indigestion, bilious attacks and all derangements of the liver, stomach and bowels. It's a large contract, but the smallest things in the world do the business—Dr. Pierce's Pleasant Pellets. They're the smallest, but the most effective. They go to work in the right way. They're the *cheapest* pill you can buy, because they're *guaranteed* to give satisfaction, or your money is returned.

You only pay for the *good* you get. That's the *peculiar* plan all Dr. Pierce's medicines are sold on, through druggists.

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. *Druggists* sell it at 50c. and $1 a package. dw

A True Bill.

Wm. Gillespie, Wolfe Island, Ont., says: I had indigestion and stomach cough for three years. Was treated by best physicians and used numerous patent medicines without success, when two bottles of Miller's Emulsion of Cod Liver Oil cured me. I have great pleasure in recommending it. For sale by all druggists. dw

Overworked, broken down, permaturely aged men or those suffering from excesses or indescretions will find a certain cure in Dr. Williams' Pink Pills. They supply the material necessary to enrich the blood, build up the nerves and restore the shattered system. Never fail. Sold by all dealers, or sent on receipt of price—50c. per box, or five boxes for $2—by addressing The Dr. Williams Med. Co., Brockville, Ont. 6d110w

From the Pacific Coast.

We quote from a letter recently received from Miss Eleanor Pope, Port Haney, B.C.: "For sore throat, coughs, croup, bruises, &c., Hagyard's Yellow Oil is the best thing I have ever used." 2w20 1

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure blood, removing all foul humors, from a common pimple to the worst scrofulous sore. 2w20.1

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 6d92

Everybody Admires Soft White Hands.

And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W.A. Dyer & Co., Montreal. 6d92

The Safest

AND most powerful alterative is **Ayer's Sarsaparilla.** Young and old are alike benefited by its use. For the eruptive diseases peculiar to children nothing else is so effective as this medicine, while its agreeable flavor makes it easy to administer.

"My little boy had large scrofulous ulcers on his neck and throat from which he suffered terribly. Two physicians attended him, but he grew continually worse under their care, and everybody expected he would die. I had heard of the remarkable cures effected by Ayer's Sarsaparilla, and decided to have my boy try it. Shortly after he began to take this medicine, the ulcers commenced healing, and, after using several bottles, he was entirely cured. He is now as healthy and strong as any boy of his age."—William F. Dougherty, Hampton, Va.

"In May last, my youngest child, fourteen months old, began to have sores gather on its head and body. We applied various simple remedies without avail. The sores increased in number and discharged copiously. A physician was called, but the sores continued to multiply until in a few months they nearly covered the child's head and body. At last we began the use of Ayer's Sarsaparilla. In a few days a marked change for the better was manifest. The sores assumed a more healthy condition, the discharges were gradually diminished, and finally ceased altogether. The child is livelier, its skin is fresher, and its appetite better than we have observed for months."—Frank M. Griffin, Long Point, Texas.

"The formula of Ayer's Sarsaparilla presents, for chronic diseases of almost every kind, the best remedy known to the medical world."—D. M. Wilson, M. D., Wiggs, Arkansas.

Ayer's Sarsaparilla,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Price $1; six bottles, $5. Worth $5 a bottle.

VALUABLE HOUSEHOLD

Property For Sale

BY TENDER.

TENDERS WILL BE RECEIVED for the purchase of the following properties:

Being Parts of Lot No. 2, North of Simcoe Street, and East of Water Street, in the Town of Peterborough.

At $——— per foot frontage, en bloc, or separately, to the **Twentieth Day of May,** instant, At noon, addressed to the undersigned and marked "Tenders re Albert Hall Estate."

Parcel No. 1.

Part of said lot, containing 2,247 square feet, more or less, and more particularly described as follows: Commencing where a post has been planted 119½ feet east from the south west angle of town lot, No. 1, east of Water street, and north of Simcoe street, thence east 28 feet on Simcoe street, thence north 80 feet, thence west 28 feet to a Lane 19½ feet wide, thence 80 feet to the place of beginning. This property is a corner lot in the centre of the town, and a very desirable property for a residence. There is situated on it a story-and-a-half plaster house. It is immediately opposite the residence of George Dunsford, Esq.

Parcel No. 2,

Containing 3323 square feet, more or less, and having a frontage of 15 feet on Queen street, with a depth of 85 feet to said Lane. On this property is a two story double brick house, and being Nos. 15 and 17 Queen street, with rooms over brick kitchens, good cellars, hard and soft water and outbuildings. This street is opposite front of St. John's church.

Parcel No. 3.

Immediately south of and adjoining Parcel No. 2, having a frontage of 40 feet on Queen Street, by a depth of 85 feet to the said lane. On this property is a very desirable brick dwelling, two storeys, and brick kitchen, good cellar under the whole house, woodshed, hard and soft water, etc. There is also thereon one Brick Bake Shop, with cellar and loe house, with access thereto from the lane. From their proximity to the centre of the town these properties are always in demand.

TERMS.—The Vendors will prepare conveyances at their own expense, and will produce only the title deeds and evidences of title in their possession. Ten per cent. to be paid when notice given that tender is accepted. Balance within thirty days, without interest. Fifty per cent. of amount may remain secured on property at six per cent.

The highest or any tender not necessarily accepted. For further particulars apply to Messrs. A. COMSTOCK or H. LONG, Trustees, Or to

CHANGE IN BUSINESS.

I beg to announce to my late customers that I have sold out my business to Messrs. Hilliard & Peplow, and I would bespeak for them the same support as has been accorded me.

C. N. BROWN.

ANNOUNCEMENT.

For some time past we have thought a strictly cash business in Flour, Feed and Provisions could be successfully carried on in Peterborough, and to test this question, we have purchased the above business from Mr. C. N. Brown who will still continue as manager in Flavelle's old stand, Simcoe street.

In order to be successful we intend to make it the interest of everyone to pay cash with order by selling at wholesale prices.

We will positively give no credits and cash customers will not have to keep up the losses made by others on the credit system.

We will keep a full supply of the very best quality of Flour, Feed, Chop, etc., and our customers need not fear that the quality of the goods will be lowered to make up for the reduction in prices. We are simply giving them the benefit of the margin necessary to cover losses and interest charges incurred on the credit system.

Goods delivered to any part of the town or Ashburnham.

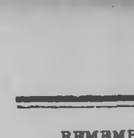
BRITAIN HOLDS THE KEY

OF THE AMERICAN CONTINENT IN HER NAVAL STATIONS.

A Chain of Sea Fortresses—Halifax the Best Defended City on This Continent Britain Not More Than 300 Miles Away from the United States.



THE statement has often been made by naval and military men in the service of the United states that if the Americans who are opposed to building ships and fortifications could have their eyes opened to what foreign nations are doing they would become earnest advocates of a strong navy and efficient harbor defences. The New York Herald says it has on many occasions pointed out the defenceless condition of our seaboard cities. It has dwelt on the fact that in case of war a practically unresisted bombardment of any of these cities would be avoided only by the payment of an enormous ransom.

The great majority of intelligent and well informed people admit the necessity of placing the country in a condition to carry on a defensive war, but even they have very vague ideas of just what they mean. The first thought of any kind seems to the average American a very remote contingency and yet it was only two years ago that the whole country was aroused by a question of supremacy in the Samoan Islands, four thousand miles from the nearest point of the United States.

WHAT ENGLAND IS DOING

Certainly England with her enormous commerce is of all nations most interested in acting only on the defensive. But England knows that it is always safer, in a maritime war, to strike first, blow upon blow, if possible before the enemy can gather together his resources.

In Nelson's days it was only a question of fresh water and salt pork how long a ship could keep the sea, and both of these commodities were, under ordinary circumstances, easily obtained. A squadron could therefore operate at a long distance from any base of supplies. In these days of military masts and high power guns, ships cannot be sent far from coal piles and magazines.

On account of her position England is the nation that we have most reason to fear. That we are now at peace with her, that her commercial interests are bound up in ours, and that a war between the two countries would be the height of folly, are facts that have nothing to do with the case. Americans are as likely to give way to the passions of the moment as any people in the world, and any day some question may arise which will plunge the countries into war. Sentiments to the contrary would probably be the principal cause of operations against us.

Just as the United states has of late been building up its navy, so England has been strengthening herself in the West Indies. The troops that were stationed through the islands are now to be concentrated at Port Royal, Jamaica, and on the little islands of Saint Lucia, a few miles south of Martinique. Both of these places are being thoroughly fortified and it is very doubtful whether the United States will for many years be able, in case of war, to assemble a sufficiently large fleet to warrant an attack on them.

MADE ALMOST IMPREGNABLE

These stations then Halifax, Bermuda, Port Royal and Saint Lucia form a chain of fortresses along our coast from which naval and military operations could be carried out against us. The distances between them are such that an enemy's fleet attacking one of them would be further removed from its base of operations than from the neighboring English stronghold.

A great deal of money has been spent lately on the defences of Port Royal. The entrance to the harbor is very narrow, and batteries have been built controlling the approaches. Every precaution has been taken to keep secret the exact position of the guns, and no visitors are allowed to get a glimpse of the extensive works now in process of construction. From what can be learned the guns now being mounted are 10 inch high power rifles, throwing a projectile of 500 pounds, with a muzzle velocity of 2,000 feet a second. The guns on the Port Royal peninsula are mounted on disappearing carriages, and as the land is very low and the earthworks of the batteries scarcely to be distinguished from the rest of the beach, it will be very hard to find anything to aim at from the deck of a ship. On the opposite side of the channel the land rises boldly from the water's edge, and a battery has been mounted at an elevation which will give a plunging fire on the decks of any ship bold enough to try issues at close quarters. Altogether there is no doubt that Port Royal has been made very strong. As it is only 600 miles from Greytown, it may almost be said to command the entrance of the projected canal; and it is undoubtedly for this reason that the English government is spending so much money on the defences.

THE KEY OF THE CARIBBEAN SEA.

Saint Lucia, the last link in the chain, is a small island lying south of Martinique. On account of the ease with which the harbor can be defended it has lately been selected by England as an additional naval station. A good deal of labor has been expended in preparing barracks for the troops, which are to be moved from Barbadoes, and in building the emplacements for the heavy guns which are soon to be mounted. It is probable that within two years Saint Lucia will be one of the most important naval and military stations of England. The harbor possesses great natural advantages for defence and the water will admit of four or five ironclads being coaled simultaneously alongside the wharf built on the coral reef. The climate is not good, and the fer de lance, the most poisonous of all snakes, is an almost intolerable pest; but the strategical position is excellent, and, by stationing the troops on high land and looking out carefully for their health and comfort, it is probable that no serious trouble will be encountered.

As at Port Royal, the greatest secrecy is observed with regard to the exact location of the batteries and the size of the guns. It is understood, however, that the guns will be of 10-inch calibre, similar to those now being mounted at Port Royal. A dry dock is to be built there and the place is to be thoroughly equipped in all respects as a first class naval station.—New York Herald

THROUGH A TRESTLE.

Serious Wreck on the Canadian Pacific—Colonist Trains in a Creek—One Killed Five Injured.

SUDBURY, Ont., May 10.—The Pacific express which left Montreal Friday night last met with an accident near Straight Lake, 50 miles west of here. Bush fires had partially destroyed a trestle-bridge over a creek and the train was too close when the fire was discovered to permit the engineer to stop. The engine, baggage and mail cars and two colonist cars went into the creek. A man named McAlpin from Quincy, Mass., was killed and five passengers injured, only one seriously. Two of the cars took fire from the debris of the bridge and were destroyed. The first-class, sleeping and dining cars did not leave the rails and none of the occupants were injured.

The Ocean Mails

OTTAWA, May 10.—The announcement that the Allan and Dominion Lines had refused to carry the mails to Great Britain by their fast steamers Parisian and Vancouver at the same rates as are paid to New York vessels, 50 cents per pound, is quickly followed by the intimation that the two companies have reconsidered their decision. The Postmaster-General has received a communication from the two companies to the effect that their refusal in the first instance was the result of misapprehension. This means that for the present Canada will have fortnightly a direct service.

Live Stock Cremated.

MONTREAL, May 10. A serious fire broke out in the dairy farm of Evans, Mason & Trenholm in the Lachine road, whereby [illegible] were consumed. The [illegible]

Mamma (to her little boy). "Now, Bennie, if you will be good and go to sleep, mamma 'll give you one of Dr. Ayer's nice sugar-coated Cathartic Pills, next time you need medicine." Bennie, smiling sweetly, dropped off to sleep at once.

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2e20d

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She received to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS. KENNEDY, Hamilton, Ont. 2e20d

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2e20d

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Ahead of Koch's Lymph.

Charles Campion, Kingston, Ont., says:—Gained 7 lbs. with one bottle of Miller's Emulsion of Cod Liver Oil. Cured bad Bronchial Cough with a few doses and made me feel like a new man, I strongly recommend it. All druggists keep it. dw

The Lacrosse Club's "24th."

The lacrosse club intends to celebrate the 24th by a grand match game on the P. A. A. grounds on the 25th of May. There will also be some exciting sporting events in addition to the match. The boys promise a big days sport for the public on the 25th of May.

A Relic of old Sewerage.

While the workmen were sinking a trench to lay a sewer pipe from the shop occupied by Mr. Adam Hall to the George street sewer they came exactly upon an old wooden pipe drain that had served a former generation. The boards, which were about eight or ten feet under ground, were in quite a sound condition.

Ashburnham Sanitary Work

Dr. Clarke, Medical Health Officer, and Sanitary Inspector Craig were around inspecting the village yesterday afternoon. There are no infectious diseases, but several nuisances occupied their attention, and if these are not done away with at once, action will be taken. A rigid enforcement of the Health Act during the summer prevents a great deal of sickness in the fall.

A Coming Concert.

Dr. Davies, organist of St. John's, has secured the opera house for a grand concert to be given on Thursday evening, May 27th. An excellent programme of instrumental selections and vocal music will be presented by Dr. Davies' pianforte and voice pupils. Dr. Davies will present nothing on a programme under his supervision that will not be of high order and well worth hearing.

A Monumental Work.

The firm of Coughlin Bro., the well known granite dealers of Belleville and Peterborough, have lately put up several handsome monuments. One of them is a large cottage monument of Peterhead Scotch granite, polished and erected in the burial lot of Mr. F. J. Bell in the Lakefield cemetery. The base is 3 ft. 6 in. x 3 ft. 6 in., and the monument stands 14 feet high, the total weight being about four tons. This shows the excellent work being done by this firm.

The Foot Guards' Church Parade.

It has been arranged that the Governor-General's Foot Guards, which will spend Sunday, 24th and Monday, 25th in town, will, in company with the local corps, parade for church at St. John's church on Sunday afternoon at 3 o'clock, when a special service of a special character will be held. The Chaplain of the Guards, Rev. Archdeacon Lauder, will accompany them, and assist in the special services. It is expected that the volunteers will nearly fill the seating capacity of the church, leaving little, if any, room for the general public.

The First Excursion.

The Sons of England societies are first in the field this year with an announcement of a grand excursion to Toronto via Grand Trunk Railway. The date fixed for the excursion is the late King George's birthday, June 4th. The lodges taking part in the excursion are Peterborough Lodge, Peterborough; Westminster Lodge, Lindsay; Exeter Lodge, Lakefield, and Devonshire Lodge, Campbellford. Tickets good to return on the following day will be issued at the very low rates—from Peterborough and return $1.85 Peterborough excursionists may leave either by the lake shore train at 6.40 or the Lindsay line at 7 a.m. or 8.20 a.m.

Personal.

Dr. M. G. McPhinney, of Ottawa, is in town to-day.

The many friends of Mr. E. B. Loucks, manager of Muckleston & Co's hardware establishment, will be pleased to see him back again in town able to be in his place and nearly completely recovered from the recent severe attack of illness which compelled him to go home.

News Nuggets.

—The firm of Wojch & Munro, photographers, has failed.

—There will be a meeting of the School Board to-night—at least a meeting is called.

—Every tissue of the body, every bone, muscle and organ, is made stronger and more healthful by the use of Hood's Sarsaparilla.

Children Cry for Pitcher's Castoria.

St. John's Congregational Reception.

The Invariable Semi-Annual Success—A Very Pleasant Evening's Entertainment—Good Meats Liberally Supplied.

The semi-annual congregational reception of St. John's, held in the school house last night was a very pleasant success. There was a very large attendance of the adult members of the congregation, the south ward being especially well represented.

For the occasion the school room had been converted by the deft hands of the ladies into a cosy and elegant drawing room—the windows daintily draped with curtains; tables scattered here and there, burdened with blooming flowers and provided with illustrated papers; sofas, chairs, etc., placed at convenient intervals and the front platform a bank of blooming flowers. The Rector and his sister, an indefatigable assistant to him in his labours, received the guests as they entered, and exerted themselves diligently during the entire evening to make every person present feel at home. They were assisted by Rev. Mr. Kenrick and Mr. Loucks were also present to give guests a welcome greeting. From eight o'clock till half past nine the hum of conversation and the sound of hearty greetings, creating a delightful little babel of voices interrupted occasionally, by some of the excellent musical selections which were admirably presented from time to time, denoted the social enjoyment which prevaded the drawing room. At about 9.30 the refreshment corner became a point of attraction, and excellent viands, sandwiches, cake, refreshing lemonade and capital coffee were served by the ladies.

At intervals, as hinted, there was excellent music provided. The Orchestra was present and they showed a praiseworthy and highly appreciated liberality in the performance of very excellent selections which taken as a whole in one sense were the life of the evening. In addition there was vocal solos and part songs instrumental duets etc. The Misses Lech gave a very brilliant rendering of Suppe's "Poet and Peasant," piano. This was followed by a delightful part song, Barnby's "Tell me Ye sat" very well sung by a company of lady and gentlemen singers, under the conducting of Dr. Davies. The company was so well pleased that a repetition was demanded. Miss Snowden sang in excellent manner "The Soldier's Good-bye." Miss Davidson gave an effective presentation of Kjerulf's "Good Night," and was compelled to respond to a vigorous recall, giving "Daddy" in a very nearly manner. The company separated about 10:30, all very well pleased with the evening of enjoyment that had been provided. Rev. Mr. Davidson, at the close of the evening, thanked the orchestra for not only its assistance that evening, but he heartily acknowledged the obligations the orchestra had previously placed St. John's under. He also thanked those ladies who had worked so hard to make the reception a success. To one lady especially was a very large share of the credit due. The company separated after singing "God Save the Queen."

Peterborough's Grand Lodge Guests.

Meeting of the Good Templars Grand Lodge Here on June 23rd.

The *Good Templars Gazette*, the official organ of the Grand Lodge of Good Templars, whose first number appeared on May first gives the following particulars of the coming Grand Lodge Session which will be of interest to the temperance sympathisers of the town:

"Notice is hereby given that the thirty-eighth annual session of the Grand Lodge of Canada will be held at the town of Peterborough on the 23rd and following days of June next, and all Subordinate Lodges, District Lodges and Juvenile Temples, are requested to elect and send to the session such representatives as they are respectively entitled to have present at it.

The session will commence promptly at 10 o'clock in the forenoon of the 23rd, and will probably be held in the Foresters hall, Simcoe street.

It is important that there shall be a full representation present from every lodge, as business, including probably some radical changes in our methods of work, affecting the interests and welfare of the Order throughout the jurisdiction, will be brought forward. This is the one opportunity during the year presented to all lodges to submit their views and propose legislation upon such matters as the rate of taxation, the missionary system and propagation work, the district lodge system, and a number of similar questions, and it should be largely taken advantage of. The question of the publication of an official organ by the Grand Lodge will also be brought forward by the Executive in compliance with the order of the Grand lodge last year, and it is desirable that this matter should receive careful consideration. Members should come prepared to discuss the business thoroughly and to remain until it is properly completed even if it takes a whole week.

THE RAILWAY ARRANGEMENTS.

Peterborough is a railway centre, which can be reached directly from any part of Canada by either Grand Trunk or Canadian Pacific Railway. Arrangements have been made with these companies for reduced fares, as follows:

Reduced rates will be granted to members attending the session at the rate of one first-class fare and one-third for round trip if fifty or more attend, and at one first class fare and two-thirds if less than fifty attend.

Members must purchase first class full rate one way tickets while travelling to the meeting, and obtain a receipt on standard certificate for purchase of tickets from agent at starting point within three days of date of meeting. (Sundays not included). At the session the Grand Secretary will fill in the opposite side of the form, and certify to the number attending the meeting who have paid one way first class full tariff railway fares when travelling to it, and hold standard certificates receipted therefor, and the ticket for the return portion of trip will be issued at rates in accordance with above, and on the conditions of certificate, which must be surrendered to ticket agent at place where meeting is held, or nearest junction, at least ten minutes prior to time train is due to leave. The return trip to be made by the same route as going trip.

A standard certificate receipt will be supplied free by the agent from whom the ticket for the going journey is purchased. No other form of certificate will be recognized. Certificates procured from the agent at the starting point more than three (3) days prior to commencement of meeting, and certificates presented more than three (3) days after close of meeting will not be honored for tickets for return trip.

No refund of fare will be made on any account whatever, because of the failure of the delegates to obtain certificates, or to observe the requirements of same.

Certificates are not transferable, and the signature affixed at the starting point, compared with the signature to the receipt for ticket, will enable the ticket agent to detect any attempted transfer.

Peterborough is fairly well supplied with hotel accommodation, at rates ranging from $1 per day upward, and there need be no difficulty in finding room for all who may attend."

If the *Good Templar Gazette* employs the term, "fairly well supplied with hotel accommodation," in the last paragraph of the foregoing extract, as an example of official non-committalism, all right; but it might be remarked that Peterborough is considered to be exceedingly well supplied with hotel accommodation, both in the matter of number, as well as character of the accommodation provided. There need be no fear that becoming hospitality will not be extended our guests on June 23rd and following days. If the hotel accommodation should prove inadequate for housing and feeding the delegates to the Grand Lodge, it is certain that the temperance households of the town will willingly make good any possible deficiency.

Police Court.

TUESDAY, May 12th.

This was an off day at the Police Court this morning. A charge of assault laid the day before, having been settled out of court was allowed to be withdrawn, and a liquor case was enlarged till Thursday.

The Royal Rheumatic Remedy, taken internally, strikes directly at the foundation of the disease. At once relieves pain by removing the cause of disease. The cause removed, a cure is effected. For sale by W. R. Greatrex, druggist, Peterborough. dw

Ashburnham and Annexation.

A Villager Unbosoms Himself on the Subject.

To the Editor of the Examiner:

MR. EDITOR,—Would you allow me space in the columns of your paper to throw out a few hints concerning the annexation of Ashburnham to Peterborough? A short time ago I saw a notice in the EXAMINER stating that the West Peterborough license district had taken in Ashburnham, so that parties could not cross the bridge and get a double portion of the "critter" and go home and beat their wives and children, after being defeated in getting the stuff in Peterborough. We think that is all right so far as it goes—a good protection to the drunkards wife and family. But what about Ashburnham's protection? You will remember a few days ago several young men came over to our town and broke open a house, smashing the doors and windows in broad daylight and causing a general commotion and a good deal of hard language. Where was our protection? We have none. Had it been done in Peterborough the police would of been on their track, and in less time than it takes me to write this note they would have been behind the iron bars. I ask is it a right state of affairs for a place like this? An officer in Peterborough was heard to say, we have done our duty in trying to break up all disreputable houses and we know of half a dozen that have been watched and looked after so sharp here that they thought it was time to get other quarters so they slipped across the bridge and took up residence in Ashburnham where there is no one to watch. Would not annexation be a benefit in that one special point? I would like to throw out a few hints about the way some of the youths and some of the older ones desecrate the Sabbath. There is scarcely a Sabbath afternoon, and even in the fore-part of the day, a number of boys congregate together on what is known as Crowley's Commons and play ball, occasionally a few rounds are fought to settle a dispute, with loud words and terrible oaths. These things have been going on two years to my knowledge and no one has interfered. If such work was carried on in China or Japan, the ladies would be going the rounds to collect funds to convert the poor heathen. Where was our protection? We have none. I have often seen boys here breaking in colts and driving backward and forward on the streets, and have heard church-goers say such work is indulged in on on Sunday only in Ashburnham. Some parties blame our officer, but we cannot blame him. His salary is so small that if he took a walk around our principle streets once a day, he would come out in debt in the end of the year for the boots he wore out. What we want is annexation and why should it not be? The majority is in favour of it. What about our fire protection? Of course there are a couple of tanks in the centre of the town to supply water for north and south, if the fire brigade has a mile of hose to stretch along our streets in case some of the distant houses should have a conflagration. Our insurance is higher because the risk is greater. Our sons and daughters have not the privilege of attending the high school, without extra payment, any more than the boys and girls at the farthest end of the county. And still we can hear the sound of the school bell—only a small stream between us. We often hear parties say our taxes would be much higher. We pay just as many mills on the dollar, if not more, than Peterborough. Our valuation may not be as high nor never will long as things stay as they are now. How many chances we have missed in the manufactures passing through and establishing in Peterborough or elsewhere. We have as good locations for factories as Peterborough has. We have heard it said that the Edison Works would have been here if we had been annexed, a big loss for this part of the town. We hope the time is not far distant when the manufacturers will be looking for sites to start some new industry on this side of the river and all under the name of Peterborough, the retired farmer will buy homesteads and fill up our vacant lots and then things will have a different appearance. The old rookery fences will then be torn down, our streets will be watered and cleaned our sons can be a branch of the fire brigade and our daughter can have the same privilege of attending the high school that our neighbors now have and we will be under the same government that Peterborough is as we should be. Mr. Editor there are other points I would like to touch on but my time is limited and and I fear I am trespassing on your good nature to write as long a letter to start with. I hope some of our able men and those that are better posted in the state of things than I am will keep the ball a rolling and never let it stop until it rolls into Peterborough and then we will have protection.

I remain yours, etc,

A RATEPAYER.

Ashburnham, May 12th 1891.

Dairying.

To the Editor of the Examiner:

SIR,—In studying any special work on the breed of cows suitable for dairy purposes, we find that there are very marked differences of opinion as to what is the best kind of stock, system of feeding and mode of delivery. It is reasonable to admit there is room for improvement in regard to this particular line in our progressive town, in order to keep abreast of other places probably of less importance. It is necessary to have a practical experimental knowledge of stock to be able to make a choice of the best, and to know what are the requisites of a first-class dairy cow. Then there are the diseases of cattle, and the diseased portion of the body tends to disarrange and affect the whole system. For instance the temper of a vicious cow will affect the quality of the milk. The cow is the product of a natural Providence, and all animals were created for some purpose. The field of thought in the animal creation is broad and deep and our perception of its usefulness is very limited; it is a subject that requires much study and practical knowledge in all its various exercises. Our country has very great resources for stock raising and dairying. Secure cows of a good strain that will stand on their own merit. The Galloway, Arberdeen, Angus, Poll and Herford are generally good for beef. The Holstein is hard to surpass for quantity of milk; Durhams are healthy stock fair for milk; Ayrshires are well proportioned in the good qualities of milk; Devons are generally noted for sweet-tasted milk, but the Jersey (excelsior) takes the lead for cream.

We want to make a special study of quality and quantity of milk for the dairy and creamery. Good milk is one of the necessaries of life. Our progress and experiments are in advance of the past, but we are desirous to have milk of that quality that will raise it up to the highest standard. In submitting to our readers the idea of the different qualities, we would suggest here that each kind has a special purpose and it is a matter of some importance to adopt a proper system of feeding. Children are the hope of a nation; therefore it is wise to give them healthy food for the sustenance of the body as well as education and moral training for the development of the mind. Milk is often used in the preparation of food and is very susceptible to taint; also partakes largely of the nature of the kind of food that is fed. Proper cow feed is the best for cow life, maintains the animal system, and produces the best milk. The position of roots in dairying is an important one. Butter from mixed food is generally good. In the winter months give cows out-door exercise, also be very gentle and kind in feeding and tending stock.

Thou hast taught, Silent Cheer,
Many a lesson deep and long;
Thou hast been a generous giver,
I can give thee but a song.

In this inventive age there are varieties of opinions and differences of tastes, methods of delivery, etc. Better to have milk fresh as possible, and one of the leading essential points is to give attention to cleanliness in all the departments of the work in connection with dairying. Passing through too many systems takes away from the nutriment. A party in selling a horse said he had worked in the lumber shanty eight winters, drew so many standard logs at a load and other work, but the purchaser refused to buy on the ground that he must be nearly worn out. Among the good things of life dairying is a special Providence, and after dispensing with some unnecessary Sunday work, we take much pleasure and interest in bringing it up to that perfection as will place it alongside of any other business enterprise.

Yours,

B. WHITE.

May 12th, 1891.

Apology and Explanation.

A Ranger's Race With a Railway Train—He Wins in a Canter.

NORTH DOURO, 11th May, 1891.

To the Editor of the Examiner:

DEAR SIR.—Will you kindly allow me, an old subscriber, a small space in your valuable paper, as I wish at once to convey to the officers and members of Court Little John my sincere thanks for accepting my apology for taking such a hurried departure last Wednesday evening.

This is the sequel. I was anxious to "catch the train" for Lakefield at Ashburnham, and it had already started from Peterborough station. I was advised to hurry up, so I proceeded at the undignified gait (for a D.D.H.C.R.) of a run. Something of the old war horse was aroused within me, and sooner than I expected, I found myself going up hill. It was quite dark, and in my blind haste I fancied I must have crossed the iron bridge without knowing it. Suddenly I stumbled upon some earthworks crossing the road, and felt myself all at once lost. Turning to the right and proceeding onwards, by the faint existing light I saw the glister of the river and a picket fence immediately in front of me, and I now felt more than lost, and quite made up my mind for a long dreary walk home. Passing a house I came upon a young lady unaware standing by an open door. I think at first she mistook me for an angel, as she retired rather hastily, but a moment afterwards, hearing a voice and seeing it was only a man, she came forward and answered my question. First turn to the left, she said, and when at the end of the street, turn left again and then keep quite straight. At the first turn I came upon a sidewalk with a gentle downward slope—there was another spurt from the old war horse, and very soon afterwards any idea I myself might have entertained about being an angel, was completely dispelled. Wings were sadly wanted, and I had none. There was no doubt in my own mind that I had followed that young lady's instructions and got to the end of that road. However, I lit upon my feet, and though somewhat confused, I was encouraged to proceed by some young gentlemen (I wish I could privately ascertain his name) racing in the same direction. Finally, I was in good time and felt quite refreshed from my unusual exertion.

Hoping I have not trespassed to much upon your good nature, I am,

Yours respectfully,

R. Q. D.,

Court Lakefield, C.O.F. No. 43.

The Tower Will Be Built.

The Money All Subscribed—A Most Successful Tea Meeting.

The Tower Committee of the George street Methodist church can congratulate itself upon the success of the crowning coup which brought to a focus the determined effort began some time ago by the congregation to raise funds for the purpose of rearing a tower upon the noble edifice in which they worship, and which is such a credit to both the denomination and the town. The tea-meeting Monday night attained gratifying results. The necessary amount, $2,500, has been obtained, and the work of erecting the tower will proceed without delay. It is expected that August first, at the latest will see work begun on the structure, the time in the meanwhile being spent in getting the stone and other material ready. The work of construction will occupy a few weeks only. During the winter months have been engaged preparing the stone, but their work is not yet finished. Already several hundred dollars have been expended in this way, but the remainder of the amount required has been guaranteed, so there will be nothing in the way of the speedy completion of the tower.

There is an effort in which citizens and Methodists in general as well as members of the congregation can take an interest. The erection of the tower will add completeness and magnificence to the fine church building, which will be more than ever an ornament to the town.

The tea-meeting Monday night was the means of bringing matters to a focus. The committee had advertised the event well, and several hundred people came and had tea at the church. In the basement six tables were spread with an abundance of delicacies and viands which were provided by the bounteous generosity of the ladies, and it is safe to say the guests never had a better supper in their lives.

Previous to the after-meeting, the organist and choir upstairs rendered several anthems for the entertainment of those who had their tea and were waiting in the auditorium for what was to follow. Shortly after eight o'clock Rev. J. H. Locke called the meeting to order, and after he had offered up prayer, the choir sang another anthem.

Then the chairman, Mr. Jas. Kendry, called upon Rev. Mr. Roberts, who addressed the meeting, going at once into the subject he had to handle, namely, the soliciting of subscriptions to the tower fund. Ever since the project was first mooted the tower committee have been getting subscriptions to this purpose, and these formerly obtained, together with the subscriptions volunteered Monday night, make a total of $2,441. This amount is exclusive of the proceeds of the tea, about $100, or of any moneys previously expended. It will thus be seen that the tower is an assured fact, and its construction will add nothing to the debt of the church. Among the subscribers to the tower fund were twelve gentlemen at a hundred dollars each, several of these promising an additional hundred, ten at fifty dollars, fifteen at twenty-five, and so on down the list. A number of gentlemen, not members of the church contributed their quota to aid the enterprise. The gift of $100 by Mr. A. L. Davis, on behalf of the Charlotte street Methodist church, was gracefully indicative of the harmony and good feeling which exists between the two Methodist bodies of the town. The subscriptions came in rapidly, and the amount subscribed was got together in a short time. The proceedings were brought to a close about ten o'clock by the singing of the doxology.

Two Pictures.

BEFORE!

A gentleman of middle age, occupying a government position in the City of Ottawa, and who is well known in social circles, came through a serious illness some months ago. Before using the great remedy which restored him, (Paine's Celery Compound), he was very nervous and extremely weak; his appetite had failed so much, that his wife became very anxious. Brandy and water for some time seemed to sustain life, and altogether, his condition was serious and doubtful. Nervous debility had reduced him to a skeleton. Two of his friends urged strongly the use Paine's Celery Compound, which his dear wife consented to try.

AFTER!

After using the Compound for a few days, happy results were observed. There were evident signs of increasing strength and appetite, and less prostration. In two weeks the nervous symptoms had abated, and the patient was able to converse freely and without fatigue. In seven weeks after the continued use of Paine's Celery Compound, the gentleman was able to be out and visit his office. To-day he is one of the strongest and most robust men of the Capital, and takes pleasure in speaking of the great Compound that restored him to life and health.

One hundred sets of croquet, 6 and 4 ball sets, just received at the Peterborough Bookstore to be sold CHEAP. First-class sets and prices away down. At the Peterborough Bookstore. dw

Cheap Croquet.

A Spring Medicine.

There are few who do not at this season feel the need of a spring medicine, and to all such we recommend Lane's Family Medicine as the best. This is a pleasant herb drink made by pouring boiling water on the dried roots and herbs. Druggists sell the packages at 50c. and $1. It is the best as well as the pleasantest cure for constipation and headache. dw

The celebrated BARM YEAST will rise as quickly as compressed. For sale at ALEX. ELLIOTT'S.

Young Women's Reception.

In response to the invitation issued in the local paper last week, a goodly number of fair maidens gathered in "Y" Hall on Saturday evening.

An hour was wiled away in gay social chat, and in the enjoyment of various parlor games, after which a short programme was rendered consisting of vocal solos by Mrs Seward and Miss Batcher, with instrumental duet by Misses Hall and Nethercott.

A number of ladies had joined with the members of the Association in providing refreshments which were served at the close of the programme.

During the evening the Secretary announced that from present date the rooms would be open as a resort for young women, and that, until further notice, the following programme will be carried out:—

Monday evening.—General Recreation.
Tuesday evening.—Bible Reading.
Wednesday evening.—Open Reading Room
Thursday evening.—Shorthand class for members.
Friday evening.—Class in plain and fancy Needlework.
Saturday evening.—Musical and social Entertainment.

A cordial invitation is extended to all young women to made free use of the rooms and their privileges.

Miss Code, Secretary of the Head Bros Home, will conduct the Bible reading this evening.

Worthy of Confidence.

Those who have used it praise it! Mrs. George Ward writes from Josephine, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2e20d

BIRTH.

CAMERON.—At 210 McDonel street, Peterborough, on Saturday, 9th of May, 1891, the wife of Mr. John A. Cameron, of a daughter.

Makes the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes

That Tired Feeling

creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength.

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an excellent appetite." ED. JENKINS, Mt. Savage, Md.

Fagged Out

"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." R. C. BEGOLE, Editor Enterprise, Belleville, Mich.

Worn Out

"Hood's Sarsaparilla restored me to good health. Indeed, I might say truthfully it saved my life. To one feeling tired and worn out I would earnestly recommend a trial of Hood's Sarsaparilla." Miss. DORE MOSHER, 90 Brooks Street, East Boston, Mass.

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy anything else instead. Insist upon having

On Fire with Eczema

Terrible Sufferings of Little Baby—Seven Doctors and Two Hospitals Fail—Cured by Cuticura.

My baby boy, 5 months old, broke out with eczema. The itching and burning was intense; the eczema spread to his limbs, breast, face and head, until he was nearly covered. The torturing sensation were pitiable to behold; he had no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $5 per week for medicines, and was entirely discouraged. I purchased CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, his sufferings were ceased, rest and sleep permitted. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and is as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON, 36 W. Brookline street, Boston.

Cuticura Remedies.

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of eczema and psoriasis, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

Clothiers and Furnishers,

Peterborough.

SORRY, TOO LATE.

I had several properties which I have been pressing upon the public during the past two or three months, at what I called low prices. A great many buyers examined them, and a few thought they would buy after a time, but while they were considering, with their money in the bank at four per cent., that very quiet and shrewd capitalist from Norwood, P. W. Reynolds, Esq., came along and bought the whole, and now those who were going to buy are sorry for losing such bargains. Mr. Reynolds is now the owner of FOURTEEN houses in town, all tenanted, and paying from seven to twelve per cent. interest on his investments. He has also a number of vacant lots, which he could readily resell at a big profit. Nine months ago I sold him his first purchase.

I have a few acres of land, for sub-division, near the Edison Works, which any intelligent man can make big money out of. Call for particulars.

I am the home-seeker's true friend. If you want a home come to me and I will guide you right.

VOL. XII. NO. 112. PETERBOROUGH, WEDNESDAY, MAY 13, 1891. PRICE TWO CENTS.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable losses attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on these terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

THE WORLD OF LONDON.

CHRONICLED AND CRITICISED BY MR. EDMUND YATES.

The Queen and the Drawing-Room—Emperor William's Coming Visit—King Leopold and Mr. Stanley—Lord Fowis—Lord Randolph's Voyage—The Outlook For Dissolution.

LONDON, May 12.—The Queen, on account of the prevalence of influenza, decided not to come up to London this week for the drawing-room. The Princess of Wales, in consequence of the near approach of the confinement of the Duchess of Fife, will not leave town for Whitsuntide. The Duchess is as well as can be, but there is some anxiety on her account, and the Princess of Wales drives down to Sheen every day to see her.

A paragraph appeared in these columns last week respecting the Prince of Wales's alleged financial embarrassments and proposed liquidation. I am assured on the highest possible authority that there is not the slightest foundation for the current rumors on which the paragraph was based, and I unhesitatingly express great regret that it should have appeared.

The Belgium rooms in Buckingham Palace are to be to a considerable extent redecorated and refurnished during the next month in anticipation of the visit of the German Emperor, who is to occupy the suite during his stay in London. The Emperor proposes to visit the Dutch and Belgian courts when on the way to England. According to present arrangements, he will leave Berlin on Monday, June 29, for the Hague, where he will stay three days, one of which will be devoted to a visit to Amsterdam. The Emperor will proceed to Brussels on Friday, July 3, and is to stay there until Monday, July 6, when he comes to England.

There is great annoyance at the Court of Vienna in consequence of the failure of the attempt to arrange a marriage between the Archduke Francis Ferdinand and the Princess Elizabeth of Bavaria, granddaughter of the Emperor Francis Joseph. The Archduke declared that he found it impossible to fall in love with the Princess, and unless he can make a marriage of affection he will remain single.

The King of Belgians will spend a fortnight in England at the end of the month, for the purpose of still further discussing certain questions which have arisen in connection with the Congo. He is specially anxious to confer with Mr. Stanley who, with Mrs. Stanley, will be very shortly the King's guests either in Brussels or Ostend.

In that illustrious old bachelor, Lord Powis, Whitehall loses one of its few remaining links between the present and the past. Standing in the historical bow-window in an old-fashioned coat, collar and cravat, Lord Powis seemed but yesterday to be a magnificent relic of the olden time, and there are now men living who remember the desperate attempts made season after season by enterprising mothers to capture Powis Castle and its wealthy owner. The house in Berkeley-square, where Lord Powis died, was almost as quaint as its occupant, who, like Lord Warwick, in the stable-yard in St. James' street, always insisted on retaining on the door a brass plate bearing his name. Lord Powis had no sympathy with modern fashions and entertained a strong opinion that ladies should always appear at evening parties in full court costume. His nephew, Mr. George Herbert, now Lord Powis, is in the almost the double of his cousin, Lord Lucas Lucas.

A projected marriage is announced between Lady Constance Campbell, the youngest daughter of the Duke of Argyll, and Mr. Charles Emmott, son of a wealthy Lancashire cotton spinner, who is familiarly known in the Oldham District as "Broad-basket." This sobriquet has been attached to Mr. Emmott, sr., who, by the way is a Quaker, ever since a strike during which he is stated to have declared that the men would very soon resume work when the breadbasket was empty.

Letters from Madeira give a picturesque account of the voyage of the Grantully Castle so far. The journey across the bay was very rough, and even the invincible Lord Randolph was seen to turn pale, as well as the majority of his fellow-passengers.

Influenza seems determined not to be satisfied only with distinguished victims. Lady Salisbury, Lady Maud Wilmer, Mr. Chamberlain, Lady Burton, Lady Wantrell and Mr. Gardner, and Mr. Gerald Lodge are only a few of its latest captures, and every day one hears of dinner parties collapsing on every side in consequence of sudden seizures, while the cold weather increases. Mr. Leslie Stephen has been suffering from an attack of pneumonia which at one time caused considerable anxiety to his friends. He has been ordered to give up work for the time and has left London to recruit in Surrey.

There never was any ground for the dissolution scare, and all fear of a sudden appeal to the country has disappeared. The results of the by-elections, though not constituting serious disaster, are not encouraging, and the younger men of the Tory party, who favored immediate dissolution now take a more sober view. Unless something very unexpected occurs the present Parliament will not be prematurely sent about its business. Spring, next year, is the earliest period that a general election need be looked for, and autumn, 1892, is a very probable date.

SUICIDE WAS THE RESULT.

An Inventor Who Wanted to Grind With the Water That Had Passed.

PENNVILLE, Pa., May 12.—Christian Snigerof this place, an inventor of several valuable mechanical appliances, had been for a year or more studying and experimenting on the principle of a patent water wheel, which is intended should utilize the water by sending it back by reaction to use its power over and over. It was virtually a wheel that would permit a mill to grind with the water that was past. The machine he had nearly perfected, but constant study over it unbalanced his mind and yesterday he hanged himself in Lefever's

The World's Championship to be Contested for in Australia in July.

SYDNEY, N.S.W., May 12.—A match has been fixed between McLean and Stanbury, the oarsmen, for the championship and £200 a side, the contest to take place on the Parramatta River, July 7.

As expected the hungry Australians will not let the world's sculling championship leave their soil. If Stanbury should win this race he will find some excuse for postponing American visit and race with O'Connor. Should McLean win then Stanbury's patriotism will not be violated by a trip to this continent.

ATTACKED BY A JAP.

THE CZAREWITCH OF RUSSIA SERIOUSLY WOUNDED.

A Fanatic, Armed With a Short Sword Succeeds in Badly Cutting the Young Romanoff Prince Before He is Beaten Off.

LONDON, May 12.—A despatch received here from Japan officially confirms the report that an attempt has been made upon the life of the Czarewitch and that he had been wounded in the head by a fanatic. The despatch says the attack upon the heir to the Russian throne was made yesterday and that the scene of the attempted assassination was at Otsu, on Lake Biwa, 12 miles from Kioto, now officially called Sackio, or Western Capital, the former capital of Japan, on the Island on Honun, 25 miles by rail northeast of Ozako and 250 miles southwest of Tokyo. The Czarewitch, who has been travelling in India and China for some time past, recently returned to Hong Kong from Canton and started for Foo Chow and Hankow. After leaving China the Czarewitch started for Japan.

Particulars of the Assault.

SHANGHAI, May 12.—The Czarewitch had gone to a picturesque resort known as Otsu on Lake Biwanmi, six miles from Kioto, Japan. There a native policeman, Tsuda Zunzi struck the Czarewitch on the head with a sword with intent to murder him, but owing to the toughness and thickness of the Czarewitch's sun helmet the wound inflicted by the sword was not serious. The injury is described as a sword cut on the side of the forehead. The Czarewitch and party immediately returned to Kioto and there obtained surgical assistance. It is believed the culprit is insane, or that brooding over fancied wrongs he was tempted to commit the deed by the presence of the illustrious guest. The Emperor and his ministers hurried to Kioto to express their concern.

ST. PETERSBURG, May 12.—The official account confirms the despatch from Shanghai about the attack on the Czarewitch, and adds that as the assailant raised his weapon for a second blow Prince George of Greece floored him with his walking stick. The Czarewitch himself telegraphed his father that his injury was not serious enough to change his program.

YOKOHAMA, May 12.—According to advices received here the wounds inflicted on the Czarewitch are more serious than reported or than at first appears. Further particulars of the affair are anxiously expected here. The utmost regret at the occurrence is expressed in Government diplomatic circles.

FRANCE AND NEWFOUNDLAND.

The French Senate Adopts the Commission's Report of Arbitration.

PARIS, May 12. The Senate has approved of the report made by the committee on the Newfoundland arbitration convention. Before the adoption of the report the Marquis de Beauvoir said there was no use to add to the number of treaties existing, remarking: "We are at home on the French shore and can make our own police regulations. The British have no right to know whether we fish for lobsters or not. They have no right to come there. Treaties often savor of drawing-room diplomacy. The Minister of Marine ought to strengthen the resolution of his colleagues. Ironclads are not meant for mere naval promenades."

Senator Lemon argued that France ran no risk in referring the matter to arbitration, as our rights do not form part of the reference to the arbitrators."

M. Ribot, Minister of Foreign Affairs, said that both Governments were obliged to proceed on parallel lines in order to place themselves in accord with their respective Legislatures. There was no doubt that the English convention bill would pass.

A LISBON EXPLOSION.

In the Office of the Minister of the Interior.

LISBON, May 12.—In the midst of the alarm caused here by the fire and panic, a terrific explosion was caused to-day by a bomb. The explosion, supposed to be the work of the Republican party, which took place in the Ministry of the Interior. The authorities are keeping the facts from the public, but it is known that the explosion was caused by a dynamite bomb, which caused a tremendous report and did considerable damage.

Chat From Over the Sea.

All Jews are being expelled from beyond the Caspian.

Thirty-five hundred weavers have struck at Ghent.

Joseph Chamberlain and Lord Carrington are down with influenza.

There was a panicky feeling in the London Stock Exchange yesterday. Berlin and Paris Bourses were depressed.

The House of Commons yesterday expelled Capt. Verney. De Cobain will also be expelled in a day or two.

The South Wales miners' conference, by a vote of 87 to 27, has resolved to continue the agitation for a working day of eight hours.

The Belgian Government has threatened to expel Don Boulinger from the country unless he is silent on political matters.

For Counterfeiting.

SANDWICH, May 12.—John Simson and his son William were placed on trial here to-day for having in their possession tools used in the manufacture of bogus American silver dollars. The prisoners have a farm in Rochester Township, Essex County, and had, at the time of their arrest in January last, a restaurant in Detroit. The prisoners were arrested on the farm and the tools on which the charge is based were found on it. Detectives Mulhall and Turnbull were the principal witnesses examined to-day. The former testified that the prisoners made counterfeit money in his presence and sold it to him, thinking he belonged to the crooked fraternity.

Telegraphic Tips.

Mrs. J. Johnnie Miller died in New York yesterday from trichinosis. The trichinæ had penetrated the entire system and muscles of the body.

The schooner W. C. Kimball of Northport, Mich., with all on board, was lost in the gale Friday night. There were four persons on board, Captain James Stevens, two sailors and one passenger, W. E. Wolf, a newspaper correspondent.

M. P. Mills of Detroit, who was president of the late International League, has abandoned baseball and become a jolly yachtsman, he having recently been elected Commodore of the Michigan Yacht Club.

DOMINION PARLIAMENT.

PRINCE EDWARD'S ISLAND DAY IN THE COMMONS.

Annual Grumbling From the Kicking Little Province in the Gulf—Free Petroleum for Fuel—Labor Legislation—Several Motions.

OTTAWA, May 12.—This was Prince Edward Island's day in the Commons so far as any debating was concerned, and the House was treated to a small dose of annual grumble from the kicking little province in the Gulf. The debate was not long or important, but marked by the manner in which the Postmaster-General "hit back" when the postal service on the Island was attacked.

The debate arose over a motion of Perry for returns relative to service performed by the steamer Stanley and spread as usual over the somewhat threadbare subject of winter communication with the island, including an effort on the part of Davies to get an expression of opinion from the Minister of Marine on the tunnel scheme and a complaint about the mail service. Messrs. Perry and Davies did the talking, the former pointing out that there was a lack of proper winter service and the latter admitting that the Stanley had proved an efficient boat, but complained that a responsible officer of the Marine Department was wanted on the island.

Mr. Tupper moved an amendment that the return include a report from the Deputy Minister of Marine on the Stanley, which he said would show that the delay of three days at opening of season was caused by circumstances over which the department had no control.

Then Mr. Haggart had a whack at the matter and said that the debate had assumed a wider range than the motion indicated, and if he had supposed that the postal service would have been attacked he would have prepared some statistics about the postal service in Prince Edward Island. He would, however, remind the hon. gentleman that the postal receipts of the Island last year were $22,000, from which commissions had to be deducted, leaving less than $19,000. The cost of ordinary transportation was $13,000 and $17,000 for transportation by railway, and this without cost of supplies or carrying of the mails by boat. The postal receipts in Prince Edward Island were the smallest in proportion to the population of any part of the Dominion. In fact the postoffice department spent more than double the receipts for the purpose of accommodating the Island.

A number of private bills were introduced to-day, including one by Col. Denison, respecting the London & Canadian Loan & Agency Company, and one by Dr. Montague respecting the Canada & Michigan Tunnel Company, and another respecting the River St. Clair Bridge & Tunnel Company. Col. Denison also introduced a bill to amend the act incorporating the Empire Printing and Publishing Company.

In introducing his bill for codification of the criminal law, Sir John Thompson said that as its title implied it was for the codification of the criminal laws, but it would also embrace some new legislation based on the English code.

George Taylor, M.P., to-day introduced to the Minister of Finance Chillian Jones and William Byers, a deputation of manufacturers from Genanoque, who presented a petition that petroleum for fuel purposes be admitted free when imported by manufacturers. The petition sets forth many manufacturers have put in expensive machinery for using petroleum mixed with air as fuel. Petroleum then cost $1 per barrel, now it costs $1.30, owing to Canadian supply giving out, and unless they are allowed to import it free they will have to take out their machinery and revert to use of coal.

Dr. Dawson of the Geological Survey has been elected a member of the Royal Society of Great Britain. This is the highest honor a scientist can attain and only enjoyed by three Canadians.

Messrs. Ingram and Lepine, the representatives of labor in the House, have arranged with the Government for an interview on Monday next with a deputation of the Executive of the Dominion Trades and Labor Council, who will present the views of the council as to what legislation is desired by labor bodies.

The annual meeting of the Press Gallery was held this morning and the following officers were elected: President, L. P. Kribs, Toronto Empire; vice-president, T. P. Gorman, Ottawa Free Press; secretary, Horace Wallis, Toronto Mail; executive committee, L. A. Phillips, London Free Press; W. A. Harkin, Montreal Star; Fred Cook, Toronto Empire; A. J. Maguru, Toronto Globe. A resolution was passed cordially endorsing the proposal of the Canadian Press Association to hold their annual meeting for 1892 at Ottawa during session of Parliament and promising to do everything possible to make the visit a pleasant one. The gallery will pay its annual visit to the Speaker in the morning.

The state ball is in progress at Rideau Hall to-night and is largely attended by a number of members of Parliament and their wives and daughters.

Mr. Barron will ask on Thursday whether the Trent Valley Canal Commission has reported in favor of the completion of the scheme and also does the Government intend to ask Parliament this session for a grant for the purpose.

Mr. McMullen will on Thursday next ask what was the amount on deposit in each postoffice and Dominion Savings Bank on May 1.

Mr. Lister gives notice that he will ask for copies of correspondence between the workmen's associations of Canada and the Minister of Agriculture with reference to the establishment of the bureau of labor statistics for the Dominion.

Hyman will ask on Thursday whether it is the intention of the Government to make a free issue of rifles to the first regiment of cavalry in Canada that condemned by the board of officers appointed for the purpose of examining the same.

Jamieson gives notice that he will move on Thursday next: "That in the opinion of this house the time has arrived when it is expedient to prohibit the manufacture, importation and sale of intoxicating liquors for beverage purposes."

Thompson announced in the House to-day that proclamation would be issued declaring Monday, 25th May, the date for celebrating Queen's birthday.

Young Woman Fatally Burned.

WINNIPEG, May 12.—The 18 year-old daughter of James Sebastian of Gladstone was so badly burned that she will die in consequence of her dress being ignited from a rush light.

MURDER OF CHARLES III.

Commits Suicide at Buenos Ayres Under the Wheels of a Train.

LISBON, May 11.—Many there are who will remember the commotion that was caused when the news was spread in March, 1878, that Charles III. of the Duchy of Parma, in Italy, had been stabbed to death in an assassin. All the police authorities in Europe were long in search of the murderer, but they failed to find him and the foul deed has long passed to be spoken about. But a man known as Louis Barda lately committed suicide at Buenos Ayres by throwing himself down before a railway train. He has left behind him documents which, as it is now made known, perfectly satisfy the Italian police that the self-murderer was none other than Cara, the assassin of Charles III.

Printing Office Burned.

MILLBROOK, May 12.—About 10 o'clock on Monday night The Millbrook Reporter printing office was destroyed by fire. The printing plant, owned by T. B. Collins & Co., was a total loss. The plant was insured in the Norwich Union for $1500, the building in the Western for $300.

Children Cry for Pitcher's Castoria.

HIS LOVE WAS ABIDING.

An English Crank's Message to His Lady Love.

LONDON, May 12.—At the Brighton Police Court to-day Frederick Muspratt, aged 24, was charged with writing letters to Miss Ethel Guest of No. 12 Walpole-terrace, containing threats of murder. Muspratt is of good family and is an undergraduate of Cambridge University, studying for holy orders. Miss Guest is a pretty girl of 17 and belongs to a much-respected family in Brighton, moving in the best society. The pair had been engaged to each other for some time, but the letters written by Muspratt to Miss Guest were of such an inflammatory and passionate nature that the young lady's mother took alarm and induced her daughter to break off the engagement.

After the rupture the prisoner had followed Miss Guest from place to place, and eventually the particular letter complained of was received. The prisoner, it seems, had purchased a large army revolver, bought a copy of Shakespeare's plays and sent a bullet through the pages of the tragedy of "Othello" and then sent the book all smeared with blood to the young girl, but by mistake had put it into a wrong envelope. Miss Guest now went in fear of her life and prayed the court for protection.

The Rev. Alfred Waller, curate at Tunbridge Wells, stated that he had been at Queen's College, Cambridge, during the time the prisoner was there, and knew him. He had received a telegram from the prisoner asking him to do all he could to aid him, as he (Muspratt) was utterly desperate. He afterwards saw the prisoner in Brighton, when the latter told him that he had planned to carry off Miss Guest and had arranged all the details, but had failed in his efforts because one of the men who had promised to assist him had disappointed him, fearing the punishment of penal servitude if they should be caught. The prisoner gave him the particulars of the scheme and produced a pair of handcuffs and a dagger which, he said, he intended to use upon himself if the abduction failed. Evidence as to the purchase of the revolver by the prisoner was also given. Muspratt was committed for trial.

TORONTO TOPICS.

TORONTO, May 12.—Mr. J. Herbert, the contractor, died suddenly at noon yesterday at his residence, 181 Ontario-street. He had been unwell for about two weeks, but nothing serious was anticipated. Yesterday he expressed himself as feeling much better and intimated his intention of entering upon his usual duties to-day. About 10 minutes before his demise he was talking with his partner, Mr. W. Murphy, about tendering for a certain large job. He was born in Ireland about 50 years ago and came to this city when about 20 years of age.

His Excellency the Governor-General will be present at the Ontario Jockey Club races that open at Woodbine Park next week. Yesterday the committee received the information that Lord Stanley and party would attend on the first two days.

The will of the late J. M. Williams of Hamilton was filed for probate in that city yesterday. The estate amounts to $11,385 all told, $5000 of which is represented by bank stock and $5000 in real estate. By the will the widow of the testator is to receive $1300 per annum; the three children, James Miller, Henry Royal and Melinda R., $1500 each; Mary Ann Jackson of Toronto, sister-in-law of the testator, $1000, payable on the death of the deceased's widow and $400 payable during her life, as she may desire. A provision is entered that should the income from the estate be not sufficiently large to make up the $1300 annuity for the widow sufficient of the principal shall be devoted to that use. It is whispered that some legal complications will arise over the estate, indeed its affairs are said to have already reached the courts.

COMMITTED FOR TRIAL.

The "Philosopher's Stone" Fraud and His Dupes.

LONDON, May 10.—Edward Pinter, alias "Sheeny Al," also said to be known in New York under the name of Southam, the American swindler who has been reaping gold in Europe by pretending to be possessed of the Philosopher's Stone, was again under examination to-day at the Marlborough-street Police Court charged with attempting to obtain $40,000 by false pretences from Edwin Streeter, a Baudareet jeweler. Pinter, who was arrested on May 4, had previously induced Streeter to go to his (Pinter's) bedroom at Storey's hotel, where, so as to test the American's claim, Streeter handed Pinter a sovereign, which the latter threw into a crucible covered with some kind of a powder, and after appearing to melt it pulled out a lump of gold equal in weight to three sovereigns. "Sheeny Al" then suggested that Streeter should furnish him with 10,000 sovereigns, which he would transform by the use of the Philosopher's Stone into gold weighing 24,000 sovereigns, or equal to £120,000. Streeter appeared to agree to this and asked that Pinter should go to his jewelry works to further test the power of the Philosopher's Stone. Pinter consented and appeared there on May 4, placed two sovereigns in a crucible, covered them with the powder and placed the crucible and its contents in a heated furnace. Streeter, however, had become suspicious and when the gold was simmering he gave a signal which brought two Scotland Yard detectives from concealment in the workshop and Pinter was arrested.

When arraigned to-day Pinter insisted he could increase the weight of gold and asked if it was just that he should be compelled to divulge his secret in court. Thereupon Streeter called attention to the fact that Pinter, while claiming to increase the weight of gold, refused to make the increase with gold bars and kept everybody away from the crucible while the "experiment" was being conducted, claiming the fumes of the acid he used would kill anybody who approached it without being thoroughly prepared for and guarded against the fumes.

Messrs. Avery & Pollard appeared as counsel for the Public Prosecutor under instructions from the Treasury Department. Mr. Avery said the game the prisoner played was of the most simple nature possible. He made it a condition of his "experiments" that the sovereigns were to remain in the acid or composition which he used for a certain time. The prisoner would then use materials which produced such a horrible stench that everybody present at the "experiment" was glad to rush away. When they returned to ascertain the result of the American's work they found the prisoner and the sovereigns gone. Several years ago Pinter played this trick with success in Liverpool. He then managed to get 500 sovereigns and vanished. The hearing was then adjourned.

Among the people said to have been victimized by Pinter's Philosopher's Stone is a member of the Rothschild family and a member of the firm of Baring Bros.

Held Up by Train Robbers.

GUTHRIE, O.T., May 10.—The southbound passenger train on the Santa Fe road was held up last night by five masked men. The gang is supposed to have been the notorious Dalton boys. They boarded the train at Wharton and detached the engine and express car and then proceeded two miles south and robbed the express car of all the money it contained. The passengers were not molested.

A Suicide at Swift Current.

WINNIPEG, May 8.—Ex-Mounted Policeman Jamieson, who has been drinking heavily for some time, suicided yesterday at Swift Current.

Stand Your Ground.

When you make up your mind to take Hood's Sarsaparilla, do not be induced to buy some other preparation instead. Clerks may claim that "ours is as good as Hood's" and all that, but the peculiar merit of Hood's Sarsaparilla cannot be equalled. Therefore have nothing to do with substitutes and insist upon having Hood's Sarsaparilla, the best blood purifier and building-up medicine.

TURNBULL'S

They are constantly opening out new goods. To-day we are showing a large lot of Wool and Union Carpets just turned out of the loom, all new patterns. House keepers will do well to remember us; 36 in. Union Carpet at 35c, the old price was 50c. Heavier grades at 45c, 50c, and 60c. The all-wools range from 75c up to $1.00.

Lace Curtains, Cream and White ranging in price from 60c. a pair up to $5.00. Curtains were never so cheap and handsome as they are this season. You will be surprised to see what we can give you at $1.25 a pair.

Art Muslins in single and double widths at 10c up to 20c a yard.

Double Fold Reversible Cretonnes for portieres, at 75c a yard.

Floor Oil Cloths, 36 in. wide at 30, 40, 50c. a yard.

Floor Oil Cloths, 72 in. wide at 60 and 75c. a yard.

In our Mantle Department we show a choice range of Wool Mantle Cloths, Plain and Brocaded suitable for elderly Ladies' Wraps.

Also handsome Laces for trimmings.

Our Pue-de-Soie Silk we warrant not to cut. Price $1.25 and $1.50 a yd.

We show Jet Capes and Visites from $2 to $5, either all jet or jet and lace, also some very handsome ones for mourning. We have such quantities we can suit any size or style of make.

All-over Jet Lace at the surprising low figure of 75c.

Fish Nets at 60c.; we believe you will pay twice these figures elsewhere for these goods.

Quantities of Millinery to select from, pretty as a picture.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355 92
Increase over previous year	3,421,372 84
New Applications received in 1890	6,371 599 15
Increase over 1889	2 268 888 60
Cash income for year ending 31st December, 1890	889,678 87
Increase over 1889	325 938 35
Assets at 31st December, 1890	2,473 514 19
Increase over 1889	687,691 47
Reserve for Security for Policy-Holders	2,109 222 68
Increase over 1889	567,732 71
Surplus over all Liabilities and Capital Stock	232,175.69
Increase over 1889	75,649 05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$64,824 07
" " " " 1886, "	89,452 97
" " " " 1890, (four years)	232,175 69

Daily Examiner.

WEDNESDAY, MAY 13, 1891.

Mr. Wood of Brockville, a Conservative, has introduced in the House of Commons a bill to prevent Canadians who have become citizens of the United States from voting at elections for the House of Commons. In taking this step Mr. Wood concedes that the exodus of population from Canada to the United States under Tory rule is much greater than the organs of the federal government acknowledge, and he also admits that non-residence should disqualify a man from voting. It is only three years says the Ottawa *Free Press*, since the electoral lists were revised, and yet Mr. Wood tells us that so many Canadians, whose names are still on the lists have gone to the United States and become American citizens since the last revision that it is necessary to pass a special act to prevent these men from coming back at election times and swamping the votes of those Canadians who still brave the evils of Tory misrule and cling to their native soil. But if Mr. Wood is afraid of the absentee vote let him vote for the repeal of the Dominion Franchise act. Under the provincial franchise law we have manhood suffrage and one man one vote; and no man can vote at a provincial election, even if his name is on the list, unless he is a *bona fide* resident on polling day of the polling division in which he attempts to vote. Hence, the repeal of the Dominion Franchise Act and the adoption of the provincial voters' lists for Dominion elections would accomplish all that Mr. Wood seeks to achieve by his bill, and would also give us manhood suffrage for Dominion elections in Ontario, and effect an enormous saving of public money. Mr. Wood's bill purposes to interfere with the rule which says, "Once a British subject, always a British subject," because he proposes to deprive Canadians who become citizens of the United States, but who may subsequently return to Canada, of rights which they enjoyed before their departure. Why place any obstruction in the way of repatriating those Canadians who may desire to return to their own country from the United States?

IN the present House of Commons there are only thirteen members who sat in the first parliament after Confederation, and twenty-six who were returned on the following election in 1872. The present members who were elected in 1867 are Messrs. Bourassa, Bowell, Bowman, Cameron (Huron), Cartwright, Costigan, Daoust, Geoffrion, Sir H. Langevin, Sir John Macdonald, Mackenzie, McGreevy and Mills of Bothwell.

Norland.

(From an Occasional Correspondent.)

The last business meeting in connection with the conference year ending May 20th, 1891, for Norland Mission, was held in the Norland Methodist church on Saturday, May 9th, at 3 p. m. All the members of the Quarterly Board were present. The receipts and reports from the four appointments were all that could be desired. Spiritually, the mission is truly enjoying much of that peace and love which casteth out all fear. God has especially blessed His people here during the past year, and enabled His servant the pastor (Rev. Harvey A. Strike) to labor in our midst with great zeal, and to accomplish a grand work for his Blessed Master. Financially, the various appointments have not only paid the amounts levied but even more, also our pastor was presented with the sum of $30. A new organ was paid for during the year, and throughout the mission is in good shape. During the year some seven families, all members or adherents of the Methodist church, have moved from this vicinity. Notwithstanding this loss and the cry of hard times, we have been very fortunate, and have great reason to be thankful. At our business meeting it was moved by Bro. Wakelin, Sr., who has been a hero in the service of his master, a class leader and superintendant of Sabbath school for upwards of quarter a century—that our most sincere thanks be tendered to Bro. Strike, our esteemed pastor, for his indefatigable efforts and practically eloquent addresses in the cause of his divine master and Lord during his pleasant and profitable stay among us, and praying that the conference will allow him to remain with us for another year. This motion was seconded by several of the members and carried unanimously, and here permit me to say this is not only the wish of all the members of the Board but the great desire of all on the mission. Knowing he is on the side of right, Bro. Strike therefore discourses in a fearless manner, yet gentle and persuasive. We unitedly pray that God in his infinite wisdom will continue to bless and prosper him and may his, as well as all true followers of Christ, chief desire be a longing for the divine glory of our heavenly master.

G. W. ALLEN,
Recording Steward.

May 11th, 1891.

Lakehurst.

(From Our Own Correspondent.)

The farmers of this vicinity are now pretty well advanced with their spring work.

A base ball club has been established, consisting of the old and young men of the neighborhood.

The machinery is being placed in the Cedardale factory by Mr. W. Redpath, of Omemee. We hope to see it in running order next week.

Mr. Dempster, a student of McGill College, Kingston, is conducting the summer services in the Presbyterian church here.

We regret to relate the very sudden illness of Mrs. Andrew Stevenson. Her many friends anxiously hope for her recovery.

Your correspondent has pleasure in announcing two important social events: One is the establishment of a new home implied in the union in marriage of Mr. David Montgomery and Miss Elizabeth Freeborn; and the other the arrival of a new citizen, Mr. and Mrs. John Smith, jr., rejoicing in the addition of a daughter to their household.

Springville.

Foresters' Installation of Officers—A Pleasant Evening's Entertainment.

(From Our Own Correspondent.)

Tuesday night the Foresters of Springville had open house—an open installation of officers. There was a large number of the friends of the members present, as well as of the general public. The installation ceremonies were conducted by Bro. R. Q. Dench, D.D.H.C.R., Lakefield, assisted by Bro. C. R. Courtney, Mount Pleasant, and D.D.H.C.R. for Durham, and Bro. H. Nesbitt, Peterborough, D.D.H.C.R. The following is the list of officers as installed:

J. McIntosh	P.C.R.
J. L. Walton	C.R.
Jas. Baptie	V.C.R.
Alex. Lang	Chap
A. Sanderson	Rec. Sec
J. Heslip	Fin. Sec
Fred Wilson	Treas
Geo. Gibson	S.W.
David Sophs	J.W.
J. Walsh	S.B.
D. Battler	J.B.

After the installation ceremonies a choice programme of music, readings, recitations and addresses were presented in a very pleasing manner, and a decidedly pleasant evening was spent by the Foresters and their friends.

Omemee.

(From Our Own Correspondent.)

Seeding about completed and never any more satisfactory. Fall wheat looking well and farmers appear hopeful, but would like to get a little more for their eggs and other produce.

George Kincaid, manager of the Riverside planing mill, Peterborough, visited his old native place after a (cug absence). There were many inquiries from him regarding the chances of employment during the ensuing season in Peterborough. He said there was always openings for good men, but too many were looking for "snaps" who are far off competent to fill good trustworthy positions.

The hand boys are making active preparations for a big time on Monday May the 25th. All kinds of sports both on land and water followed by a grand concert, at night in aid of the Band, free admittance to all sports, very handsome prizes offered in cash and it is to be hoped some of the Peterborough experts will participate. Competitors are expected from other neighboring towns and villages.

Many of our citizens will spend the 24th and 25th May at Peterborough who used to go to Toronto and other cities at such set times.

Not many physicians make great therapeutic discoveries. For the most part they content themselves with administering judiciously what is prescribed in the books. To Dr. J. C. Ayer, however, is due the credit of discovering that greatest of blood purifiers—Ayer's Sarsaparilla.

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and $1 a package. dw

A True Bill.

Wm. Gillespie, Wolfe Island, Ont., says: I had indigestion and stomach cough for three years. Was treated by best physicians and used numerous patent medicines without success, when two bottles of Miller's Emulsion of Cod Liver Oil cured me. I have great pleasure in recommending it. For sale by all druggists. dw

Overworked, broken down, permaturely aged men or those suffering from excesses or indescretions will find a certain cure in Dr. Williams' Pink Pills. They supply the material necessary to enrich the blood, build up the nerves and restore the shattered system. Never fail. Sold by all dealers, or sent on receipt of price—50c. per box, or five boxes for $2—by addressing The Dr. Williams Med. Co., Brockville, Ont. 6l110w

From the Pacific Coast.

We quote from a letter recently received from Miss Eleanor Pope, Port Haney, B.C.: "For sore throat, coughs, croup, bruises, &c., Hagyard's Yellow Oil is the best thing I have ever used." 2w20

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure blood, *removing* all foul humors, *from* a common pimple to the worst scrofulous sore. 2w20d

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 6d92

The Royal Rheumatic Remedy, taken internally, strikes directly at the foundation of the disease. At once relieves pain by removing the cause of disease. The cause removed, a cure is effected. For sale by W. R. Greatrex, druggist, Peterborough. dw

Everybody Admires Soft White Hands.

And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W. A. Dyer & Co., Montreal. 6d92

Have You Tried

Will be found an excellent remedy for sick headache Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

STUBBORN CHILDREN readily take Dr. Low's Worm Syrup. It pleases the child and destroys the worms. dw

The Safest

AND most powerful alterative is Ayer's Sarsaparilla. Young and old are alike benefited by its use. For the eruptive diseases peculiar to children nothing else is so effective as this medicine, while its agreeable flavor makes it easy to administer.

"My little boy had large scrofulous ulcers on his neck and throat from which he suffered terribly. Two physicians attended him, but he grew continually worse under their care, and everybody expected he would die. I had heard of the remarkable cures effected by Ayer's Sarsaparilla, and decided to have my boy try it. Shortly after he began to take this medicine, the ulcers commenced healing, and, after using several bottles, he was entirely cured. He is now as healthy and strong as any boy of his age."—William F. Dougherty, Hampton, Va.

"In May last, my youngest child, fourteen months old, began to have sores gather on its head and body. We applied various simple remedies without avail. The sores increased in number and discharged copiously. A physician was called, but the sores continued to multiply until in a few months they nearly covered the child's head and body. At last we began the use of Ayer's Sarsaparilla. In a few days a marked change for the better was manifest. The sores assumed a more healthy condition, the discharges were gradually diminished, and finally ceased altogether. The child is livelier, its skin is fresher, and its appetite better than we have observed for months."—Frank M. Griffin, Long Point, Texas.

"The formula of Ayer's Sarsaparilla presents, for chronic diseases of almost every kind, the best remedy known to the medical world."—D. M. Wilson, M. D., Wiggs, Arkansas.

B. B. B.

CURES DYSPEPSIA.

DEAR SIRS,—About a year ago I had a very bad attack of dyspepsia. For nearly four months I never ate a meal without suffering pain after. I kept getting worse and worse until I was obliged to give up my duties as a teacher. I had got so weak I could scarcely walk, when one day I saw an advertisement for B.B.B., and thought I would try a bottle; I did so, and before I had finished it I was able to teach again. Four bottles cured me completely. Miss JANET STUART, Muskoka Falls, Ont.

In 19 Cases Out of 20

B. B. B.

CURES BILIOUSNESS.

DEAR SIRS,—I was troubled for about 35 years with Bilious complaint, and after using about three bottles of your Burdock Blood Bitters, I feel entirely relieved, and have not had an attack for the last two years. JOSIAH GAMEY, Maxwell, Ont.

In 49 Cases Out of 50

B. B. B.

CURES BAD BLOOD.

GENTLEMEN,—Last fall I had boils very bad, and a friend advised me to try B.B.B., and so I got a bottle, *the effect was wonderful*, the boils began to disappear, and before the bottle was done I was totally cured. As an effectual and rapid cure for impure blood, Burdock Blood Bitters cannot be excelled. JESSE JOHNSON, Rockwood, Ont.

In 99 Cases Out of 100

B. B. B.

CURES CONSTIPATION.

DEAR SIRS,—I was troubled by costiveness and sick headache, and in fact felt very miserable until I tried B.B.B. I used seven bottles with Burdock Pills also, and they made me as well as ever I was. This was about two years ago and I still enjoy the best of health. MRS. A. MCCULLOUGH, Digby, N. S.

Even in the Worst Cases

B. B. B.

CURES SCROFULA.

SIRS,—Two years ago I was troubled with an ulcer on my ankle; having used B. B. B. for bad blood I procured a bottle, and a box of Burdock Healing Ointment; after using three bottles and three boxes I was completely cured, and can recommend it everywhere. Yours truly, MRS. WM. V. BOYD, Brantford, Ont.

B. B. B.—$1 per Bottle, 6 for $5, or less than 1 Cent a Dose.

VALUABLE HOUSEHOLD

Property For Sale

BY TENDER.

TENDERS WILL BE RECEIVED for the purchase of the following properties:

Being Parts of Lot No. 2, North of Simcoe Street, and East of Water Street, in the Town of Peterborough.

At $—— per foot frontage, en bloc, or separately, to the Twentieth Day of May, instant, At noon, addressed to the undersigned and marked "Tenders re Albert Hall Estate."

Parcel No. 1.

Part of said lot, containing 2,247 square feet, more or less, and more particularly described as follows: Commencing where a post has been planted 119½ feet east from the south west angle of town lot, No. 1, east of Water street, and north of Simcoe street, thence east 28 feet on Simcoe street, thence north 80 feet, thence west 28 feet to a Lane 124 feet wide, thence 80 feet to the place of beginning. This property is a corner lot in the centre of the town, and a very desirable property for a residence. There is situated on it a story-and-a-half plaster house. It is immediately opposite the residence of George Dunsford, Esq.

Parcel No. 2.

Containing 3323 square feet, more or less, and having a frontage of 15 feet on Queen street, with a depth of 85 feet to said Lane. On this property is a two story double brick house, and being Nos. 15 and 17 Queen street, with rooms over brick kitchens, good cellars, hard and soft water and outbuildings. This street is opposite front of St. John's church.

Parcel No. 3.

Immediately south of and adjoining Parcel No. 2, having a frontage of 50 feet on Queen Street, by a depth of 85 feet to the said lane. On this property is a very desirable brick dwelling, two storeys, and brick kitchen, good cellar under the whole house, woodshed, hard and soft water, etc. There is also thereon one Brick Bake Shop, with cellar and ice house, with access thereto from the lane. From their proximity to the centre of the town these properties are always in demand.

TERMS.—The Vendors will prepare conveyances at their own expense, and will produce only the title deeds and evidences of title in their possession. Ten per cent. to be paid when no lie given that tender is accepted. Balance within thirty days, without interest. Fifty per cent. of amount may remain secured on property at six per cent.

The highest or any tender not necessarily accepted. For further particulars apply to Messrs. A. COMSTOCK or H. LONG, Trustees, Or to

TALK OF THE DAY.

PICTURES OF LIFE AS IT IS IN BLACK AND WHITE.

The Idiosyncrasies of All Sorts of People Under the Brushes and the Pens of Artists and Humorists—The Latest Paragraphs of the Newspaper Wits.

"It is more blessed to give than to receive."

The crow's epitaph: Removed for cause.

A court of inquiry—popping the question.

Italy has a fruit standing army of about 50,000 men.

Tiddledy winks soda is out. The accent is on the wink.

One of the greatest of home comforts is the shirt which isn't made at home.

"If it wasn't for Whisky," remarked the cork, "I would not be here in the jug."

When you can get close enough to a frog to poke him with a stick that's a sign of spring.

"I sigh for you, my love," he said. But these were the ciphers he meant, instead $1,000,000.

An English publisher announces a new work entitled, "He Always Pleases His Wife." It is fiction.

"He can trace his ancestor back to the flood." "Oh, pshaw. That's nothing. Everybody was in the swim then."

"Your husband is one of the loveliest men I ever saw. Do you give him his own way all the time?" "He thinks I do."

The man who is proud because his name is not Brown, Smith or Jones usually has nothing else in the world to be proud of.

If you have anything to give, give it to the "hail fellow, well met." If you have anything to lend, lend it to somebody else.

"What do you say—Is lunch ready? or Is luncheon ready?" "Neither. I usually say, What the deuce is the matter with the grub?"

He gazing at the stars: "I wonder which are the evil stars?" She: "The ones that wink. Certainly such conduct is very reprehensible."

He: "That is a beautiful pug you have. I suppose your motto is 'Love me, love my dog.'" She: "Not always. You are permitted to love my dog."

"Where are you going, my pretty maid?" "I'm ready am gone, kind sir," she said.

"I also am gone, my pretty maid."

"Well, ask my papa, kind sir," she said.

"I have tried many ways of getting ahead," writes a subscriber. "Can you give me some advice?" "Why, don't you try mixing your drinks?"

"That boy's going to be a policeman when he grows up." "How do you know?" "He's never to be found when wanted and it takes an hour to wake him up."

Putting on Airs: John Bull: Here, what makes you so stuck up? Uncle Sam: "Why, my dear fellow, I have risen to the dignity of a war scare."

When winter lingers in the lap of spring
'Tis shocking to narrate,
He's very apt—the horrid thing—
To linger there quite late.

On Drill Sergeant: "When you put the gun to your shoulder to shoot, you must stand as still that a guide post beside you would look like a drunken civilian."

He called her little "Sweetie,"
When the arrow pierced his heart;
But, saw, when he had married her,
She was a little tart.

Lady of the House: "You say you haven't had anything to eat to-day?" Tramp: "Lady, if you believe me, the only thing I've swallowed to-day is insults."

Customer: "Why did you take Tommy away from school?" Grocer: "They were running him. Why, they were trying to teach him that sixteen ounces make a pound!"

Taking No Risks: Mrs. Gadsby: "Is it true, as I've been told, that your husband proposed by telephone?" Mrs. De Style: "Why, no; that's a silly story. He only asked papa's consent that way."

"Well, says Wooden, "I don't see why they keep discussing this question of marriage; it's simple enough. If a fellow's poor he can't afford to get married, and if he is rich he doesn't need to."

He facetiously: "So you are going abroad. Do you expect to marry a count or a baron?" She seriously: "It depends on their relative values. Papa has limited me to a certain sum, you know."

Flashing Belles.

Mr. St. John says your complexion always reminds him of the White in the Roses.

Did he? How much he puts things.

Yes, doesn't he? You know the Red drove the White entirely from the field.

ST CATHARINES, May 11.—A deranged young man named George Gregory jumped from the upper window of his father's residence in Haynes-avenue, on Saturday a distance of about 20 feet, during the temporary absence of his step-mother, who had been watching him. He alighted on his head, receiving injuries which resulted in his death this morning.

Women Clean the Streets

CINCINNATI, May 11.—Petitions having been in vain, Walnut-street women all turned out on that thoroughfare in this city to-day and proceeded themselves to clean the street which city officials had ignored for a year. For squares women and children with brooms, rakes and hoes not only dug till they cleaned the paving stones, but also cleared out the sewer inlets.

A Sprightly Craft Weighs Anchor

QUEBEC, May 11. A sprightly young woman of Levis, who was married six years ago to an old widower, has just weighed anchor with her paramour, a young man whom she introduced as her cousin, for parts unknown. She carries as a souvenir of the old fellow the wallet that used to be in the old chest of drawers and which contains the old man's savings of many years, $2,400.

Children Cry for Pitcher's Castoria.

A FIERY HELL OF DEATH

TRAIN HANDS DASH INTO A FOREST OF FLAMES.

About a Dozen Persons Slowly Roast to Death Pinned Beneath the Wreck and Unable to Help Themselves Owing to Partial Suffocation from Smoke.

CONDERSPORT, Pa., May 11.—To-night the pretty little lumber-farming towns of Austin, Costello, Galeton and Moore's Run in Potter County are threatened with annihilation from forest fires which have been raging for days. At Moore's Run on the Susquehanna Valley Railroad a train load of 75 men sent out from Austin Sunday night had been fighting the fire by building trenches, etc., but were forced to retreat. The men hastily boarded the train and started to make a run to another point, when it was found that they were hemmed in by the forest fires on one side and a huge skidway of logs on the other. It was finally decided to dash past the burning skidways, and the engineer and firemen with faces covered with dampened cloths and their hands and arms wrapped in wool mounted the little engine and pulled out through the wall of fire. The 75 exhausted men gathered in groups on the flats for protection or lay on their faces on the floor. As the blazing furnace of logs was approached the heat became unbearable and the smoke was so blinding and stifling that the men were obliged to cover their mouths with cloths. Just opposite the millions of feet of burning logs there was a lurch, an ominous heaving and a shriek of despair as the train toppled over into the hell of fire beneath. Every survivor will bear to his grave a mark of that awful moment. The cars caught fire like so many paper playthings and the men within, half blinded and scarcely realizing anything except that they were being roasted to death, struggled fearfully to regain the track, where safety lay for a time at least.

Superintendent Badger of the Susquehanna Valley road was in charge of the relief train. He was found jammed in the wreck, where he had evidently slowly burned to death. It is known that six others also miserably perished at one time or another soon after and 20 others of the party were badly burned, many probably fatally.

Seven others of the party are missing. They are thought to be in the charred wood of the logs or the train.

SHEPHERD, Mich., May 11.—Last night an extra freight collided with 13 log cars, which ran down the grade from mile south, where the rest of the train was being loaded with logs, crashing into the cars standing there with frightful effect. The killed were: Z. Bigelow, Clark E. Struble and Sherwood Clark. All lived at Shepherd. Thirteen were injured.

Simcoe's Market House Destroyed

SIMCOE, May 11.—Early this morning fire broke out in the market buildings and entirely consumed them. The fire was the work of an incendiary. Insurance $1000.

FELL FROM THE TRESTLE.

Nine Year Old Willie Goodfellow Fatally Hurt en Route to School.

GALT, May 11. While en route to school this morning Willie, the 9-year-old son of Benjamin Goodfellow, painter, fell from the C.P.R. bridge, which he was crossing, and alighted on the ground 60 feet below. Two of his limbs were broken and his skull so badly fractured as to expose the brain by his head striking upon a stone. He will die.

Mamma (to her little boy). "Now, Bennie, if you will be good and go to sleep, mamma 'll give you one of Dr. Ayer's nice sugar-coated Cathartic Pills, next time you need medicine." Bennie, smiling sweetly, dropped off to sleep at once.

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2s 20d

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She resolved to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS. KENNEDY, Hamilton, Ont. 2s 20d

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2s 20d

When Baby was sick, we gave her Castoria
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria

Ahead of Koch's Lymph.

Charles Campion, Kingston, Ont., says:—Gained 7 lbs. with one bottle of Miller's Emulsion of Cod Liver Oil. Cured bad Bronchial Cough with a few doses and made me feel like a new man. I strongly recommend it. All druggists keep it. dw

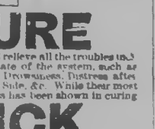
Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

THE RED COLOR of the blood is caused by the iron it contains. Supply the iron when lacking by using Milburn's B.e.f, Iron and Wine. dw

SOME SYMPTOMS OF WORMS are:—Fever, colic, variable appetite, restlessness, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

"MANY MEN, MANY MINDS" but all men and all minds agree as to the merits of Burdock Pills, small and sugar coated. dw

CARTER'S LITTLE LIVER PILLS.



CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents. Five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VESTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. odw

Not Sold.

Yesterday the advertised auction sale of Mr. George Elliott's elegant white brick residence, 335 Rubidge street, was not effected. The highest bid made was $3,100, somewhat short of the upset price, and too little money for what a local contractor, who attended the sale, described as the best built and completest house in town.

A Modern Milo.

Louis Cyr, the Canadian Samson whose performances have earned for him the title of champion strong man of the world, has been engaged by the Peterborough Cricket club for an exhibition of his marvellous muscular strength in about a fortnight's time, and the public will then have a chance of seeing this wonderful man. Cyr is a French Canadian, and has, lifting without harness, beaten the world's record for lifting with harness by several hundred pounds. He is about 5 ft. 10 inches high, weighs 318 pounds in condition and has a chest measurement of 58½ inches. His appearance here will be watched for with interest.

Another Important Announcement.

For the second time in the season J. J. Sheehy comes forward with the announcement that his stock of lace curtains is not to be equaled not only in Peterborough but in Central Ontario. Mr. Sheehy has just returned from the wholesale markets after completing another purchase of the above mentioned goods and every good housekeeper should examine his stock before the most desirable goods are gone. Now that the house cleaning is well advanced the defects in the old curtains become all the more noticeable and it would certainly be folly to hang old ones when such new and handsome goods can be had at such low figures. Just imagine lace curtains 3 yds. long at 49c. per pair, not trash but handsome serviceable stock. Space does not permit of our giving a schedule of prices but suffice it to say that our stock comprises a selection of over 300 prs. all prices and the very newest designs. 1dlw

No June Camp.

It is a settled fact that there will be no June camp of military instruction this year, and the extent of the annual training in September will be dependent altogether upon the manner in which the matter is viewed by Parliament. Already several military members of the House have approached the Government with a view to urging that the entire force be drilled this year. There are, however, other members of Parliament opposed to one dollar more being spent on the militia, and there is yet another class, for whom Mr. Charlton is spokesman, who desire the militia expenditure cut down, if not entirely abolished. Major-General Herbert coincides in the view put forward by Col. Denison, Col. Tyrwhitt and other members, that if Canada is to have a militia force at all it must be effective. To drill the entire force means an additional expenditure of $150,000, and the question therefore requires thoughtful consideration.

Children Cry for Pitcher's Castoria.

Christian Alliance Convention.

This year there will be held in Canada four Christian Alliance Conventions. Of these, one will be held in in Peterborough, and the others in Hamilton, June 2nd 4th; Toronto, June 5th-7th; Ottawa, 12th to 14th. The date of the Peterborough Convention is June 9th, 10th and 11th, of which fuller details will be furnished later. All these Conventions, including the local one, will be attended by Rev. A. B. Simpson, President of the Alliance, and Dr. Wilson, of St. George's (Anglican) church, New York, and Mrs. Whittmore, engaged in rescue work for fallen women, New York, and others. Rev. Mr. Simpson is pastor of the Gospel Tabernacle, New York. He was educated in Knox College Toronto, was pastor of a church in Hamilton whose pastorate he resigned to accept that of a church in New York at a salary of $5,000 a year. Rev. Dr. Wilson who, by the way was born in Peterborough, was formerly pastor of a church in Kingston which he left on account of the feeling that his warm espousal of Salvation Army methods, aroused.

Spring Sale of Horses.

Dr. Stevenson, V.S., having noticed that there is a good demand both in this country and the United States for horses of a certain class, has decided to inaugurate a sale stable, at which the horses will be disposed of by auction to the highest bidder. This will present an excellent opportunity for those having suitable horses to dispose of to secure profitable sale for them. It is Mr. Stevenson's proposal to thoroughly advertise his spring sale of horses throughout the Dominion and the United States. He is bound to make his opening sale a success, and will spare no pains to bring the best buyers of Canada and the United States face to face with the best horses the district can produce. In this matter he must have the co-operation of those having horses for sale. The latter are requested to make their entries of the horses they have for sale with Dr. Stevenson, Peterborough, and as promptly as possible, as it usually takes some time to thoroughly advertise the sale in Canada and the United States, and it must be thoroughly advertised, for Dr. Stevenson is bound to make this sale a success.

Epworth League of Christian Endeavor.

The regular meeting of the Epworth League of Charlotte street Methodist church was held on Monday evening last. There was a large attendance and a number of new names were added to the membership roll. The President of the League, Mr. O. C. Rowse, occupied the chair. After devotional exercises, there was a discussion on the subject "The Christian Race," which proved very interesting and instructive. About twenty five of the members took an active part in the Bible reading, and every meeting indicates the development of an increasing interest in the work of the League in every department. Miss Dawe ably presided at the organ. It has been decided to hold a business meeting on the first Monday evening in every month, so that in future the evening will be devoted entirely to the programme. The subject for next Monday evening will be "Money, its use and Abuse." This promises to be a very interesting evening. Mrs. A M. Price was appointed by the League to prepare an article on "Foreign Missions," and present it at the St. Andrew's next Tuesday evening, when the Epworth League and Christian Endeavor Societies meet in convention.

Mason's Flower Business.

Flowers and Plants at "Helendale," and at the Down Town Emporium—Increasing Facilities to Supply Increasing Demand.

Within the past eight or ten years the public fondness and taste for flowers has grown at an astonishing rate. Ten years ago the popular supply of plants for potting, as well as bedding, was largely derived from the products of the cultivation of nail kegs and oyster cans filled with soil. Now, we have two of the largest and most complete green and propagating houses in the town, and these are at times pushed to desperation to supply the demand. A few years ago Mr. Frank Mason, the proprietor of the extensive "Helendale" greenhouses, had a modest little green house on the river bank, near Water street. Now he has thousands of square feet under glass and in cold frames, and the demand for his fine plants and flowers is oftentimes ahead of the supply. At present he is fully ready for the spring trade that has begun, but will soon quicken into a rush. Mr. Mason has made no very great and important additions to facilities at "Helendale," except the addition of a large number of cold frames to receive advanced plants from the propagating house so that they will gradually become acclimatised and fitted for their position in the flower plot or vegetable garden, and here it may be remarked that there is a markedly increased demand for vegetable plants. Farmers and gardeners are discovering that it pays them better to get cabbage, tomato and other plants from the green house than to take the trouble to grow them themselves. Besides the plants are much more advanced and more thrifty, and if carefully planted much valuable time is gained.

Mr. Mason's greenhouses at "Helendale" contain an immense stock of every kind of flowering plants, for either house culture or for bedding. From this stock, as it matures, is supplied the stock, large, varied and in excellent growth, to be found at his downtown green house. This is a great convenience to the public; the readily accessible greenhouse admits of their visiting them personally and making their selections, under the most favourable circumstances. The stock is of almost infinite variety. The southern end of this green house is devoted to roses, which grow beautifully to the sail with its southern exposure. Roses form a very important part of Mr. Mason's business. The increase in taste and wealth is shown by the growing demand for cut flowers for winter use. About the Christmas holidays there is a very brisk demand for cut flowers, and Mr. Mason has found his supply at times quite inadequate to the demand.

To meet the increasing demand, Mr. Mason proposes erecting a house especially for roses. The glass for this house has been ordered from England and is already on the way. This rose house will be 23x52 feet in area, and built and equipped with special reference to its special use. When it is completed, which will be early in the summer, there will be no difficulty in the public having their longing for the buds and bloom of the queen of flowers promptly and fully supplied.

An important appendage to Mr. Mason's down-town green-houses is his seed store, where seeds of every possible variety, both flower and vegetable, and all sorts of gardening supplies are kep on hand. Mr. Mason meets the demand of the present season with a complete equipment and large and excellent stock of every kind of flower or vegetable seed or plant that can reasonably be demanded.

Personal.

Mrs. W. A. Ellis, of Marshalltown, Iowa, and two children, is in town for the summer, the guest of her father, Mr. Jos. Butler.

Rev. E. F. Torrance is attending the meeting of the Synod of Toronto and Kingston, which is being held at Lindsay this week.

Mr. and Mrs. R. G. Kingan returned today from Irondale, where they were attending the wedding of Mrs. Kingan's sister, Miss Anna Pusey, to Mr. Lucian B. Holland. The marriage took place yesterday afternoon at five o'clock.

Cavan.

FAIRMOUNT METHODIST CHURCH.—Rev. B Greatrix, pastor. The services on Sabbath the 17th of May, at 2:30, will be taken by Mr. James Sutherland.

If you decide, from what you have heard or read, that you will take Hood's Sarsaparilla, do not be induced to buy any substitute instead.

Piano Tuning.

Mr. G. Gumpricht is in town. Orders may be left at Messrs. Taylor & Macdonald's or at the Peterborough Bookstore. d

The Morgan House

is now the headquarters of F. J. O'Brien, the hackman. Telephone orders promptly attended to. Good, well-broke team, elegant hack and courteous attendance.

SCHOOL ACCOMMODATION.

Essential to the Efficiency of the School System.

The Question of Building a New School to be Faced at Once—Shall it be a High or Public School?—Teachers Salaries not to be Increased for the Present—Other School Matters.

At eight o'clock last night a bare quorum of the School Board had assembled, but the meeting was begun and other members dropped in later. There were present the chairman, Mr. Wrighton, Messrs. Barthaw, McKee, Deane, Bradburn, Ferguson, Hamilton, Rutherford, Corkery, McBain and Dumble.

A communication was received from Mr. John Miller, Deputy Minister of Education, stating that the suggestion of the Board re the appointment of a town councillor as a member of the Board, would receive the minister's consideration.

The Boiler Inspection and Insurance Co., of Canada, with head quarters at Toronto, sent in a prospectus to the Board, soliciting patronage.

The fees received for April were reported to be:—

Collegiate Institute	$ 200 00
Public schools	20 00
Kindergarten	2 40
Total	$ 343 60

The reports of attendance at the schools during April were put in as follows:—

	on roll.	ave. att.
Collegiate Institute	195	171
Central School	515	423
North Ward	157	121
South Ward	342	276

These accounts were referred to the Finance Committee.

J. W. Crosby, rent of piano	$ 14 00
Jackson & Co	77 95
H. S. Macdonald	225 00
R. W. Krett, piano	7 70
Light and Power Co	3 75
W. H. Charlton, insurance	

ACCOUNTS PAID.

Dr. Burnham, chairman of the Finance Committee, read the following report:—

Your Finance Committee recommend payment of the following accounts:—

Dennistoun & Stevenson	$ 10 00
D H Kerneghan	6 00
Geo McWilliams	3 00
J R Donel	5 36
Review Printing Co	16 16
Cox & Davis	45 00
Peterborough Water Co	6 75
H Gibbs	9 00
Stephen Nicholls	58 00
J K Stanton	166 71

Your Committee recommend that Miss Agnes be paid $10 00 and J. Baller $2.50 in full of their accounts.

The report was adopted.

NO INCREASE FOR TEACHERS.

Mr. Dumble read this report:—

The Committee on Appointments beg to report in reference to the several applications made by teachers for an increase of salary, that they do not feel justified in recommending any increase of teachers' salaries at the present time.

The Committee recommend that after the midsummer vacation teachers of the 3rd grade be uniform $360 a year.

Your Committee recommend that Drill Sergeant-Major Rundle's salary be raised to $400 a year, to be reckoned from January 1st, 1891. At this salary Sergeant-Major Rundle will be expected to act as truant officer when required.

Your committee recommend that the salary of John Locheur, Janitor of the South Ward School, be $250 a year from January 1st, 1891, Mr. Locheur to keep the grounds in order, make all repairs he is able to do, and obey the instructions of the chairman of the Property Committee.

As to the janitor of the North Ward School, your Committee recommend that his salary be $150 a year from January 1st, 1891, his duties to be the same as Mr. Locheur's.

All of which is respectfully submitted.

D. W. DUMBLE, Chairman.

The report was adopted.

SCHOOL ACCOMMODATION.

Mr. DUMBLE also read the following:—

The Committee on Appointments beg to report that they have considered the report of Inspector Seath.

As to many minor matters therein referred to, the Principal of the Institute has directed his attention to them and will act upon the suggestions of the Inspector.

Your Committee congratulate the Board upon the marked improvement in the Institute reported by the Inspector and feel confident that his anticipation that this school will, as to the staff, shortly take its place as one of the best in the Province, will be realized.

Your Committee have given much anxious thought to that part of the Inspector's report which points out the inadequacy of the school building and appointments for High School purposes. Your Committee lament the necessity for using a basement storey for a class room, as, besides being low and ill-ventilated, it is unhealthy and wholly unfit for teaching purposes, for which it was never intended.

The time has come when the present crowded state of the schools can no longer be tolerated, but your committee can only suggest that new buildings must be erected somewhere, but whether public schools or a proper institute building, is a matter deserving much consideration, and your committee without assuming to decide, leave the matter in the hands of the Board.

D. W. DUMBLE, Chairman.

The report was adopted.

THE WEST WARD SCHOOL.

Mr. HAMILTON read this report:

The Property Committee beg leave to report that they have examined the North Ward school and grounds, and found the water in the well all right and only requiring pumping out.

We found the West Ward school almost deserted in consequence of diphtheria and scarlet fever in the neighborhood. The closets are in a very filthy condition. They are deep, and we are informed that it is impossible to empty them so long as J. Whyte's & Co's dam is kept filled. We would recommend that the present closets be filled up and that earth closets be substituted therefor.

We also beg leave to recommend the purchase of the piano from R. W. Krett. We consider it good value. The one at present in use in Miss Warner's room is very poor, and we are paying for it rent at the rate of three dollars per month.

J. STEVENSON, Chairman.

The report was adopted.

ELECTING A CHAIRMAN.

Mr. Dumble moved a resolution, which he had presented at a former meeting as a notice of motion, making the election of a chairman of the Board by a majority of the whole Board at the initial meeting thereof, Dr. Burnham moved an amendment that the chairman be elected by a majority of those present at the meeting, instead of making a majority of the whole Board necessary.

The original motion was carried,

IT MUST BE DEALT WITH.

The question of school accommodation referred to in the report of the Committee on Appointments, was then taken up. Mr Dumble said that the Board must now decide whether they ask the town at once to provide money for a new building, for either High or Public school purposes as was thought best, or arrange a makeshift for the present and engage some convenient rooms to relieve the pressure.

Mr. Deane favoured, asking the council at once for $40 000.

Mr. DUMBLE said he thought a fine building could be put up for about $25,000. Napanee had a good one for $21,000. It was only just to the Collegiate Institute staff that they be given every opportunity in the way of accommodation to bring the Institute up to a proper standard.

Mr. BRADBURN thought if the council was asked now for the money it would only arouse opposition.

Mr. DUMBLE also thought it better to act slowly, gain the confidence of the council, and get the townspeople to talk over the matter first and lead them to see the importance and necessity of a new school building. There would be no trouble to make accommodation for the time being, by moving some of the Public School classes from the Central School to new quarters.

A desultory discussion followed, and, among other things, the necessity of enlarged accommodation in the South Ward pointed out. Various plans for relieving the congestion were mooted. Finally it was moved by Mr. Ferguson, and seconded by Mr. McKee,—That the town council be invited to meet the School Board and confer with them in the matter of increased school accommodation.

It was understood that Mayor Stevenson would be asked to call a special meeting of the council for this purpose.

It was then moved by Mr. Ferguson, seconded by Mr. Bradburn, that the Supervision Committee make the necessary arrangements to provide accommodation for two rooms of the Public School.

After authorizing the chairman to make necessary repairs to the school buildings, the Board adjourned.

Woman—A Problem.

To the Editor:

It is difficult to understand why so many women suffer in silence from those diseases peculiar to their sex, when they have at their command a remedy guaranteed to put an end to their suffering and restore them to perfect health. Dr. Williams' Pink Pills never fail in cases of functional derangement, irregularities, suppressions, bearing-down pains, weakness, and the many other complaints with which womankind is afflicted. They restore the system, enrich the blood and bring the red and rosy glow of health to pale and sallow cheeks. They are equally efficacious from girlhood to old age, and are a boon and a blessing to suffering women:

Mrs. S. Devine, Petawawa, Ont., writes:—My daughter has been ill for the last two years. She is pale, weak, short of breath, with ringing noises in the head, cold hands and feet, and not RIGHT. Doctoring all the time and of no benefit. The doctor says her blood has turned to water, and that she is run down very low. After taking four boxes of Pink Pills she again writes:—I enclose balance due on Pills. I am well satisfied with them, and I must say that I have got every satisfaction that any person could ask. I can recommend your Pink Pills to anyone that is out of health. The change in my daughter's health and appearance is so wonderful that a great many persons are continually asking me for some of the medicine that cured her, so I wish to take an agency for the sale of your pills in this place.

Mrs. M—— M——, Brockville, Ont., says:—Gentlemen,—My daughter S——, was sick for about a year, crying all the time with the pains of her head and eyes. In the morning her eyes and face were all swelled. She was pale and short of breath, with great jumpings of her heart whenever she tried to do anything or walk. Appetite bad or else entirely gone, with a dirty tongue and a bad stomach. She was never properly regular. She took two boxes of Dr. Williams' Pink Pills and they cured her. She became regular within a month, and she remained so since, and is in the best of health. I can heartily recommend these Pills to all sufferers who are in the miserable condition my daughter was.

These pills are for sale by all dealers, or will be sent post paid, in sealed package, on receipt of price (50 cents a box), by addressing the Dr. Williams' Medical Co., Brockville, Ont. 2ds-1w20

Butter Versus Cheese.

The butter industry is still in a somewhat languishing condition in Ontario, and indeed in all Canada. Notwithstanding that the Government of the Province has made a liberal grant to the Ontario Creameries Association, that body has not yet been able to arouse the farmer to the necessity of making improvements in his methods of conducting this exceedingly important branch of the farming industry. The reasons for this are not so easily apparent as one might suppose at first thought. The cheese industry has made great strides in this country since the introduction of the *factory system*, as in many neighborhoods the farmers do not now attempt to produce anything else for the market. On the other hand, the creameries are increasing very slowly. The people of Canada are apparently apathetic in this matter; while Michigan Wisconsin, and Minnesota farmers are receiving a goodly revenue from this source, ours are content with a revenue not more than two-thirds of what it might be, and what it would be, could they be induced to make better butter.

One of the strongest reasons assigned by the farmer for standing aloof from the creameries is, that larger returns are obtained from the cheese factories. This statement is to be accepted with some measure of reserve. It is true that the Bureau of Industries gives 14.27 cents as the average return per day from each cow from the creameries for the season of 1889. The same authority gives the average return per day per cow from cheese factories as 16 cents. For the seven years ending with 1889 the comparison gives 12 85 cents per day as the average from the creameries, and 16 cents as that from the cheese factories. There is thus an apparent advantage in 1889 of 1.73 cents in favour of the cow whose milk is sent to the cheese factory. This difference is only apparent, for it would certainly be more than counterbalanced by the increased value of skim milk as compared with whey. This advantage in favour of the creameries will be still further increased when the market for creamery butter becomes more fully established. There is the further consideration of the relative bearing of these systems upon fertility. If butter making renders it easily possible for the farmer to produce animals for fattening in the form of beef or pork, he will add fertility rather than remove it, as he will probably be a purchaser of food to some extent, in the shape of bran or in some other form, for his cows.—*From the Canadian Live Stock and Farm Journal of May.*

Selwyn.

(From Our Own Correspondent.)

The farmers are now finished seeding and think the prospects of a bountiful harvest are very good. The protracted drought was causing quite a deal of anxiety, but our recent refreshing shower has brightened their gloomy prospects.

On the evening of Monday, May 18th, the Demorest Medal Contest will be given in the Temperance Hall, Selwyn, under the auspices of school sections Nos. 7 and 9, Smith. Eight candidates will recite in the presence of the audience and a handsome silver medal will be awarded to that contestant who has rendered his selection the most correctly, the medal to be awarded according to the decision of three competent judges. Suitable musical selections will be rendered by by talented vocalists. All lovers of elocution and interested temperance workers are warmly invited to attend. A very pleasant and profitable evening is anticipated. No admission fee will be charged. A silver collection will be taken up and the proceeds will be used in circulating temperance literature.

Smith.

School Report for S.S. No. 9.

Grace Young, teacher.

Number of marks obtainable, 400. Separate examination papers are set each class.

Fourth class—Annie Elliott 273, Ernest McIlmoyl 206, Millie McIlmoyl 107, Essie Branch 101, Joe McIlmoyl 77, Mary Branch 69, Edward Robbins 60. Third class—Lorne Braden 132, Emma Blaker 100, Harry Bell 73. Second class—Frank Record 268, Alex. Elliott 261, Clemena McConkey 237, Lewis McIlmoyl 211, Frank Lowther 185, Karena Braden 165, Albert Lang 160, Maria Branch 128, Gerty Clifford 92, Fleda Pattyson 13. First class—Colman Davis 309, Ida Cummings 287, Lillie Lang 234, Eva Cummings 216, Bills McConkey 211, Harry McIlmoyl 80, Nelson McIlmoyl 70, B. A. Nicholls 55, Sarah Nichols 41, Maggie Nichols 40 Etta Elliott 40, Ida McConkey 36, Albert McConkey 10, Mary A. Cummings 10.

Of the senior class the following deserve special mention, having taken over 75 per cent. in the subjects mentioned: Joe McIlmoyle, literature; Ernest McIlmoyl, arithmetic; Annie Eliott, grammar; Frank Record, grammar; Alex. Elliott, arithmetic; Frank Lowther, grammar; Maria Branch, grammar; Clemena McConkey, literature and grammar. Of the first classes, the following deserve special mention for regular attendance during the month:—Colman Davis, Ida Cummings, Lillie Lang, Eva Cummings.

The "Reporter" Burned Out.

A Disastrous Blaze at Millbrook—The Newspaper Office Destroyed.

Monday night about ten o'clock the office of the *Reporter*, Millbrook, was totally destroyed by fire. The newspaper plant was situated in an isolated building, and no other property was destroyed. When the alarm the fire brigade turned out with the steam engine, but the fire had gained irresistible head way in the rough-cast structure and it burned rapidly to the ground. Mr. Whalley, proprietor of the *Reporter*, lost everything in the building, and while trying to save his papers had his moustache and eyebrows singed by the flames. He estimates his loss at about $3,000, and was insured for $1,500 in the Norwich Union. Besides all the plant, he lost his subscription lists and other books and papers.

The building was owned by T. B. Collins & Co., and carried an insurance of $200.

Mr. Whalley will be deeply sympathized with in his misfortune. His friends in Millbrook and vicinity are lending him encouragement and assistance, and he expects to be able to revive the "*Reporter*" in a short time. In the meantime he takes orders for printing as usual.

A Spring Medicine.

There are few who do not at this season feel the need of a spring medicine, and to all such we recommend Lane's Family Medicine as the best. This is a pleasant herb drink made by pouring boiling water on the dried roots and herbs. Druggists sell the packages at 50c. and $1. It is the best as well as the pleasantest cure for constipation and headache. dw

Worthy of Confidence.

Those who have used it praise it! Mrs. George Ward writes from Josephine, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2w20d

The well known strengthening properties of Iron, combined with other tonics and a most perfect nervine, are found in Carter's Iron Pills, which strengthen the nerves and body, and improve the blood and complexion, dw

SMITH.—In Harvey, on April 24th, 1891, the wife of John Smith, jr., of a daughter.

MARRIED.

MONTGOMERY—FREEBORN.—On Wednesday, the 6th May, 1891, at Lakefield, David Montgomery, to Miss Elizabeth Freeborn, all of Harvey.

King of Medicines

A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 6 years. In that time ten or eleven sores appeared and broke, causing me great pain and suffering. I feared I never should get well.

"Early in 1886 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Walling Mfg. Co., and since then

HAVE NOT LOST A SINGLE DAY

on account of sickness. I believe the disease is expelled from my system, I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEHR, 9 N. Railroad St., Kendallville, Ind.

On Fire with Eczema

Terrible Sufferings of Little Baby—Seven Doctors and Two Hospitals Fail—Cured by Cuticura.

My baby boy, 6 months old, broke out with eczema. The itching and burning was intense; the eczema spread to his limbs, breast, face and head, until he was nearly covered. His tortures and agonies were pitiable to behold; he had no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $3 per week for medicines, and was entirely discouraged. I purchased CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, blessings were sensed, and rest and sleep permitted. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and is as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON, 88 W. Brookline street, Boston.

Cuticura Remedies.

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of eczema and psoriasis, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

Sold everywhere. Price, CUTICURA, 75c. SOAP, 35c.; RESOLVENT, $1.00. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

SORRY, TOO LATE.

I had several properties which I have been pressing upon the public during the past two or three months, at what I called low prices. A great many buyers examined them, and a few thought they would buy after a time, but while they were considering, with their money in the bank at four per cent., that very quiet and shrewd capitalist from Norwood, P. W. Reynolds, Esq., came along and bought the whole, and now those who were going to buy are sorry for losing such bargains. Mr. Reynolds is now the owner of FOURTEEN houses in town, all tenanted, and paying from seven to twelve per cent. interest on his investments. He has also a number of vacant lots, which he could readily resell at a big profit. Nine months ago I sold him his first purchase.

I have a few acres of land, for sub-division, near the Edison Works, which any intelligent man can make big money out of. Call for particulars.

I am the home-seeker's true friend. If you want a home come to me and I will guide you right.

VOL. XII. NO. 113. PETERBOROUGH, THURSDAY, MAY 14, 1891. PRICE TWO CE[illegible]

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable ones attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on these terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics'. Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

As old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

DOMINION PARLIAMENT.

MR. M'CARTHY INTRODUCES HIS RESOLUTION IN THE HOUSE.

He Moves for One Language and One Set of Schools—Sir John and Hon Mr. Laurier Both Indisposed Help for Alliston Village.

OTTAWA, May 13.—Two hours of mingled work and talk sufficed to clear the order paper to-day of all the business which was ready, with the exception of three notices of motion, namely, that the House go into committee of supply to consider resolutions that binding twine, sugar and corn be placed on the free list.

The work consisted of answering a few questions, passing a few motions for papers, in reading pro forma for the second time to private bills and referring them to their several committees.

The only bill introduced to-day was Mr. C'Alton McCarthy's to amend the North-west Territories Act. In moving for leave to introduce it he said that many members of the House would remember the long discussion which took place on a similar bill last year. The object of the bill was to repeal the clause establishing dual language in the Northwest Territories. He thought the use of two languages tended to perpetuate race distinction and it should be abolished. It should be remembered that the bill referred only to the Northwest Territories and not to other parts of the Dominion. It would be remembered that dual language in the Northwest was not a right guaranteed by treaty to French-Canadians and that it originated in the British North America Act. He thought that there was nothing more likely to prevent a common nationality than the existence of two languages, and while he did not wish to prevent any one from using any language he pleased he did not wish that more than one language should receive official recognition. There was another clause in the bill, which provided for the abolition of separate schools, which he did not think necessary in the Northwest. In Ontario and Quebec, owing to peculiar circumstances, there may be some reason for separate schools, but there was none elsewhere. He therefore proposed to relieve the people of the Northwest of them. The bill was somewhat different from the one introduced last year inasmuch as the presumption was omitted, as some of his friends objected to that last year. He had therefore left it out.

Mr. Choquette: We'll leave it all out.

The bill was then introduced.

In answer to Mr. McLennan, Sir Hector Langevin stated that an Order in Council was passed on 5th Feb., 1891, authorizing the construction of a canal on the north side of the River St. Lawrence, in the county of Soulanges, the estimated cost of which is $4,800,000. The cost of survey was $38,151.90, and it is the intention of the Government to proceed with the construction at an early date.

Dr. Landerkin wanted to know whether the High Commissioner had received for the year ending June 30, 1890, the sums amounting to $20,970.04, which appeared in the Auditor-General's report, embracing 39 articles, varying from his own salary of $10,000 down to $4.80 for dusters and including salaries, rent, office expenses, etc. He also wanted to know whether he held the office of High Commissioner during the time he acted as electioneering agent for the Government at the recent elections. If not who held the office? Was any salary or traveling allowance granted him during the time he was engaged in the election either as High Commissioner or as election agent? If so, how much? Was it by the direction of the Government that he canvassed the county of Essex in conjunction with Mr. Solomon White, an avowed annexationist? Mr. Foster answered that the High Commissioner had not received the amount referred to, that Sir Charles Tupper had held the office of High Commissioner continually since his last appointment to the position, and that as the other portions of the motion contained statements of alleged facts he declined to answer.

In answer to a question by Dr. Landerkin, Mr. Chaplean stated that two recounts had taken place after the return of the members had been gazetted, these were in North Bruce and East Grey. In neither case had the recount altered the result. The clerk of the crown in chancery had published the returns as soon as he received them. Whether a re-gazetting was necessary was a question of law, but it must be remembered that the announcement in The Canada Gazette was merely that the members had been elected, which was correct, as the recounts had not changed the result.

Mr. Foster stated in reply to Sir Richard Cartwright that he expected to bring down the estimates Friday, but if not then they would be down on Monday. When asked if he intended to make his budget speech then he merely admired the electrolier in the roof of the chamber, looked wise and said nothing.

Mr. Mulock took the opportunity of urging the claim of Allston for a grant on account of the recent fire and instanced the cases of St. John, N.B., and Hull, P.Q., where, when similar catastrophes occurred, the Government had contributed handsomely.

He hoped a sum would be placed in the estimates.

Col. Tyrwhitt ironically thanked the member for North York for taking so much interest in his (Mr. Tyrwhitt's) constituency. He had, however, attended to the matter himself, for early on Monday morning he had seen the Minister of Public Works and received an assurance from him that the matter would be laid before council. He had also received a memorial from the Mayor of Allston, which he would present to the House to-morrow.

A rumor got about the lobbies to-night that Sir John Macdonald was very ill, but I am happy to say that the statement is incorrect. Sir John was not very well yesterday and was not at the hall last night, but to-day he attended the council meeting but did not come into the House. To-night I learn that he was suffering from a little over exertion but expected to be all right by to-morrow. Mr. Laurier is still confined to his room at his hotel and is said to be suffering from a bronchial attack.

Mr. McMullen gives notice of a bill to amend the act respecting the Senate and House of Commons.

An extra of The Canada Gazette, issued to-night, contains proclamation of Her Majesty that Monday, May 25, be a public holiday for celebrating her birthday.

The Fisheries Bounties.

Mr. Flint, who is a good speaker and an active member, on a motion for a return in connection with the distribution of the fishery bounty checks to the fishermen of Nova Scotia, pointed out that although the Government had been in previous years urged to pay out the checks during the winter while the fishermen were fitting out for sea, it had never been done, and the delay had been a hardship to the fishermen. This year, however, the Department of Marine had been extraordinarily active, and a few days before the election the $150,000 to which the bounties amount were sent to the Government's agents for distribution. This, Mr Flint said had been done in his constituency, and he presumed in others as well. Members from the Maritime Provinces gave affirmative "hears, hears." He was not finding fault with an early distribution; it was what the fishermen had been unable to get until the last election. The activity of the Hon. Minister and his subordinates, Mr. Flint added, must have gratified all lovers of good government and prompt administration of affairs. [Sarcastic "hear, hears."] This was one of the election methods of the department. And we find, he went on, a subordinate of the Hon. Minister resigning his office down there, after conference with his chief, and running in the election as a candidate. And we find shortly thereafter $9000 to $10,000 of bounty checks coming to that candidate for distribution. (Opposition "hear, hears.") His office remained unoccupied for several weeks, and the defeated candidate was reinstated in his office. In concluding his clever speech the member for Yarmouth expressed the hope that the energy which had characterized the department this year would be sustained, and in future the checks would be distributed not later than the middle of March.

Mr. Tupper's explanation that the early distribution and the elections coming in the same year was a coincidence was greeted with laughter from the opposition. Referring to the resignation of the fishery overseer and his reinstatement he protested himself with saying that no harm had been done. He promised that the checks will be distributed every year in future before the 1st of March.

Mr. Perry added his testimony to the superactivity of the Marine Department in this bounty matter this year. Some of the Conservative fishermen at Tignish, P. E. I., had received their check in February, while some of the Liberal fishermen have not yet received theirs. There were two regulations in the Marine Department, he said, one for Conservatives and the other for Liberals. Mr. Perry said futhermore that he knew every man within 30 miles of Tignish, whether he was entitled to a bounty or not, and he could prove that there were checks given to men who had no right to them.

Pitched Battle on a Staircase

LONDON, May 13.—Parnell to-day addressed a meeting at Limehouse, a suburb of London. The building where the meeting was held was invaded by anti-Parnellites and there was a fierce conflict on a staircase, which the police were called on to suppress. Many broken heads resulted from the disturbance.

Lord Wolseley a Home Ruler.

DUBLIN, May 13.—The National Press announces that since his arrival in Ireland, after being appointed Commander-in-Chief of the military forces in that country, Lord Wolseley has become a Home Ruler and says he does not see danger from a military point of view in granting Home Rule to Ireland.

No Long Sermons.

BERLIN, May 13. The Kaiser has given offence to the orthodox community by ordering the court chapains to curtail the length of their sermons, which in future must not exceed 10 minutes whatever may be the occasion.

Carrier Pigeons Used by Strikers

BRUSSELS, May 13. The striking workmen of France and Belgium are communicating by means of carrier pigeons. This is done to prevent the opening of letters by the Government of either country.

No Sacrament for Parnellites

DUBLIN, May 13.—A priest of Dunmore has refused to administer the sacrament to Parnellites.

Speculation, Ruination, Suicide.

ATHENS, May 13. There was a sharp fall in prices on the Bourse to-day. A speculator in stocks, unnerved by the decline, committed suicide.

Chat from Over the Sea.

There was a sharp recovery on the London Stock Exchange yesterday in all international securities.

During a fierce storm yesterday at Mascoath a barracks containing a number of soldiers suddenly collapsed, killing six of the men outright and injuring 10 seriously.

Mrs. Batchellor, wife of the United States Minister at Lisbon, was seriously injured yesterday in a carriage accident while returning from the Queen's palace.

Not a Murderer, Said to be a Horsethief.

OTTAWA, May 13. Judge MacMahon at the Assizes to-day granted the application of Dalton McCarthy for the release of George Goodwin, held on a coroner's warrant for the murder of Richard Langford at Carp, Ont. The prisoner was allowed to go on his own recognizances. He was at once re-arrested for horse-stealing. The murder trial should have been heard this term, but the crown declined to proceed until the fall owing to lack of evidence.

Burglars at Tavistock.

TAVISTOCK, Ont., May 13.—About 2 o'clock this morning burglars entered the jewelry store of E. Bourquin, blew open the safe and took several hundred dollars worth of watches and jewelry. The force of the explosion broke nearly all the glass in the windows. Mrs. Falk, who lives over the store, raised her window and was greeted with a pistol shot, which took effect close by in the woodwork.

Saved a Wholesale Massacre

NEW ORLEANS, May 13.—Senor Corte, the Italian Consul, to-day asserted that he had by his influence prevented the Italians of the city from killing Mayor Shakespeare and Messrs Patterson and Wickliffe and other leaders of the citizens movement. After the lynching Senor Corte set to work to get a statement of certain of his countrymen with the mayor and others was almost uncontrollable.

BRITISH AND FOREIGN.

WARSHIPS ORDERED TO CORFU BY BRITAIN.

Further Murders Reported in the Hebrew Quarter—The Attempted Assassination of the Czar's Son — Dynamitards at Work in Ireland.

CORFU, May 13.—The anti-Hebrew excitement, which caused an outbreak about April 27, is becoming more venomous. Yesterday rioting was renewed. Two Hebrews were killed and a number were injured. Troops dispersed the rioters and now surround the Hebrew quarter. Hebrews are forbidden to pass outside the cordon of troops and all stores kept by Hebrews are closed. The prefect of Corfu has been summoned to Athens to explain the situation to the Government. Troops have been sent here from Athens to restore order.

Corfu is the capital of the nomarchy of the same name in the kingdom of Greece. It has a population of 15,452, and consists of two parts, the town and citadel, and has several suburbs. It was the capital of the Ionian Republic.

Gunboats for Corfu.

LONDON, May 13.—England and France have sent gunboats to Corfu to protect their subjects.

Racial Riot in China.

SHANGHAI, May 13.—An anti-European riot has taken place at Woo Hoo. The natives attacked and burned the Catholic mission and a number of other European dwellings. The Europeans have taken refuge upon the hulks anchored in the river. Her Majesty's ship Inconstant has been ordered to proceed immediately to the scene of the riots to protect the lives and property of the European residents. Woo Hoo is a treaty port in the province of Ngan-Hoei, on the Yangtse-Kiang, 50 miles from Nanking.

A Revolt in Dutch Guiana.

LONDON, May 13.—A South American despatch says the people of the lower orders have revolted against the authorities in Dutch Guiana. Several serious conflicts with the insurgents have occurred in which many persons were wounded and the situation is constantly becoming more alarming.

"HE IS DEAD!"

How the News Was Received by the Czarina—The Assailant a Fanatic.

LONDON, May 13.—All accounts of the attempt to take the life of the Czarewitch at Otsu, Japan, agree in expressing the belief that the act was due to religious fanaticism so that it was either a Buddhist protest against the increase of Russian missions or that the Czarewitch omitted observance on customary rules of etiquet whilst visiting the temple.

ST. PETERSBURG, May 13.—When the news of the murderous attack on the Czarewitch was conveyed to the Czarina she exclaimed, "He is dead. You are hiding the truth from me," and then fell into a faint. When the reports of the affair reached here thousands of persons assembled about the Atchineff Palace to learn the latest particulars.

EXPELLED FROM FRANCE.

A Scotch Member of Parliament Ordered Out of the Country.

CALAIS, May 13.—Mr. R. Cunninghame Graham, Gladstonian Liberal member of the British Parliament for Northwest Lanarkshire, Scotland, who is prominent as a sympathizer with advanced thinkers, has been expelled from France by the authorities. After attending a Socialist meeting in Paris on Sunday night, on going to his hotel Mr. Graham was informed that Police Commissioner Brasseur wished to see him in an adjoining room. On entering the apartment M. Brasseur, after reading the warrant of his expulsion, took his arm and informed him that he must proceed at once to Calais in order to catch the boat leaving for Dover at 1.30 this morning. Mr. Graham was not allowed to return to his room to obtain his luggage or to say good-by to his friends.

DYNAMITE IN IRELAND.

A Magazine Blown Up in County Down Occasioning Great Damage.

DUBLIN, May 13.—A magazine exploded to-day at Donaghadee, county Down, near Belfast. The shock shook the whole town and broke many windows. It is supposed the explosion was the work of a dynamiter. The police are hunting for an American suspected of having committed the crime.

CHARITY COVERS THE SIN.

The Paris Mutuel System to be Allowed Under Government Control.

PARIS, May 13.—The Chamber of Deputies to-day by a vote of 312 to 160 adopted the bill allowing the Paris mutuel system of betting under a tax, the proceeds of the tax going to the different charitable institutions, and placing the whole regulation of the racecourses under Government control.

Poor Portugal's Plight.

MADRID, May 13.—Advices from Lisbon state that a severe censorship has been placed over telegrams sent from or into that city. Even news telegrams destined for the official journal have been stopped. The well-known political economist Castlo has written a letter in which he says Portugal has a colossal deficit and ruinous loans contracted upon humiliating terms, and she is confronted by monetary, industrial and political crises of the most threatening kind.

England and Portugal Agree.

LISBON, May 13.—It is stated that negotiations between England and Portugal for an agreement relative to South Africa have been concluded and the draft of the agreement will arrive here Friday.

The Prince Has the Grip.

LONDON, May 13.—The Prince of Wales is suffering from a slight attack of influenza and indisposition which prevented him from attending the drawing-room held at Buckingham Palace to-day by the Princess of Wales, and the Queen has ordered the Duke of Connaught to hold the levee to-morrow instead of the Prince. Mr. Gladstone is progressing towards recovery. Baron Brassey's brother Henry has died from pneumonia following influenza.

Charge Annulled.

LONDON, May 13.—The court to-day annulled the charge of perjury against Mr. Samuel Storey, M.P. for Sunderland, but allowed the costs to stand against him. The alleged perjury was said to have been committed on the hearing of the charge of assault preferred by Mr. Storey against Superintendent Burrell during the Silksworth colliery strike.

BERLIN, May 13.—A serious accident occurred at the G T R. station last night. While Gotaried Niederhausen, aged 60, was about to leave the train he slipped from the platform and the wheel passed over his foot. The foot was crushed to such an extent that doctors were obliged to amputate the leg just above the ankle joint.

No Women Need Apply.

MONTREAL, May 13.—The Montreal general hospital has decided not to admit women students to the privileges of the hospital.

Shot by Her Brother.

MELVERTON, Ont., May 13.—Miss Wittis was accidentally shot by her brother yesterday. The contents of the gun struck her foot, tearing off the shoe, while many grains lodged in the flesh.

Children Cry for Pitcher's Castoria.

THE CANADIAN PACIFIC.

Annual Meeting At Montreal Yesterday.

MONTREAL, May 13.—At the tenth annual meeting of the shareholders of the Canadian Pacific Railway, which was held here this afternoon, the old board of directors was re-appointed and there were no changes made in the personnel of the staff. The most important business was the presentation of the annual report, which was submitted and adopted. The report shows: Gross earnings, $16,522,336.98; working expenses, $10,252,-988.47; net earnings, $6,269,700.51. Deducting fixed charges accruing $4,246,815, leaving $2,053,082.51 surplus, deduct two supplementary dividends of 1 per cent. of $1,200,000 and there is carried forward $753,-282.51, to which add former surplus of $1,-306,250.33, and $2,059,532.83 is the total surplus. Working expenses for year 61.94 per cent of the gross earnings; net earnings, 38.06 per cent. In 1889 these were 60.04 and 39.96 per cent. respectively.

There were expended in additions and improvements on main line and branches $1,552,737.81, and among other items $98,-912.87 for telegraphs, extensions and additions and $3,375,659.41 for three China and Japan steamships. The traffic was affected in the early part of the year by the light crops of 1889, and traffic exchanged with the Southwestern railways was also similarly affected. The expectations for the coming year are good and only an average crop is required to ensure handsome results.

At a meeting of the directors of the railway held this afternoon W. C. Van Horne was unanimously re-elected president of the company. The board is composed as follows: W. C. Van Horne, Sir George Stephen, R. B. Angus, Hon. J. J. Abbott, Montreal; E. B. Osler, Q.C., and W. D. Mathews, Toronto; Sandford Fleming, Ottawa; G. A. Kirkpatrick, Kingston; G. R. Harris, Boston; R. I. Cross, New York; W. I. Scott, Erie, Penn.; Hon. J. McInnes, Hamilton; Thomas Skinner, London, and G. S. James, New York.

THE GANG CONVICTED.

John Stinson, His Two Sons, the Hired Man and the Housekeeper.

SANDWICH, May 13.—At the Assizes to-day John Stinson of Rochester township, his sons William and James, their hired man Thomas Stodhart and their housekeeper Mrs. Dandelet were found guilty of counterfeiting American silver. Owing to extenuating circumstances Stodhart was allowed to go on suspended sentence. The others were remanded for sentence.

HE WANTS TO DIE.

The Cobourg Would-Be Murderer Makes Rope to Hang Himself.

COBOURG, May 13.—Andrew McGuire, convicted at the assizes here of attempting to commit murder, and who was for that crime sentenced to imprisonment for life in the provincial penitentiary, was taken to Kingston to-day by Sheriff Proctor and Chief Constable Rankin. Since the prisoner's bold attempt on Saturday last to escape he has been closely watched, but during Monday night he fashioned a rope from one of his bed blankets with which he had intended to hang himself. The rope was found by the jailer and removed from his cell.

GAUDAUR CHALLENGED.

Teemer Is After the Orillia Man with Sundry Offers.

ST. LOUIS, May 13.—John Teemer, formerly of McKeesport, but now of St. Joe, Mo., has challenged Jacob Gaudaur, formerly of St. Louis, but now of Canada, to row him three races for $200 a side, the best two out of three, winner to take entire amount and a fair proportion of the gate receipts. If Gaudau is not suited with this Teemer will row a race of three miles on any body of water in the United States for $1000 or any amount Gaudaur wants to put up.

THE BROOKLYN HANDICAP.

Final Trial of the Cracks at Gravesend —Tenny Does the Distance in 2.07.

NEW YORK, May 13.—The horses who are to run for the $20,000 stake at the Brooklyn Jockey Club on Friday were given their final trials to-day. The following are the names and the times in which they covered the mile and a quarter, the handicap distance:

Tenny finished strong in 2.07, Teatray 2.08¼, Russell and Terrifier 2.09¼, Castaway, Cassius and Once Again 2.14¼. Loantaka finished strong in 2.08¼. Uncle Bob finished four lengths in front of Terra Cotta in 2.09¼. Senorita ran well within herself in 2.12¼, Carrol in 2.11, Leighton 2.12¼. Judge Morrow and Reilly went the distance in 2.13¾. Both pulled up. Burlington was not pushed and did it in 2.13. Cousin Jeems ran good and strong and finished in 2.09¾. Chaos went the distance in 2.15 and pulled up very lame. Banquet was sent the handicap distance, but all the watches were left on the time. Saunterer went in 2.13. Los Angeles and Santiago were sent a mile, which they finished in 1.48. Prince Royal and Eon did a mile in 1.45½. Lavinia Belle galloped the distance in 2.17. There will be no important runs to-morrow and most of the horses will be given a rest until the big race is run.

Thought His Dead Mother Slept.

MONTCLAIR, N.J., May 13.—Mrs. Ellen Johnson had not been seen by her neighbors for a week, and her little son told them that his mother was asleep. The boy said his mother had been lying still in her bed for several days and that "she looked funny." An investigation was made, when the body of Mrs. Johnson, much decomposed, was found lying on the bed. The boy said he last spoke to his mother on the night of May 3. She then shook violently, and afterward lay very still. He supposed that she was asleep and he did not attempt to awaken her. For several mornings he got up from the bed and left his mother lying in the same position. Her eyes were closed and he thought she was having a good long sleep.

Playing "Burying" with Fatal Results.

WICHITA, Kan., May 13.—In Kiowa County yesterday Johnnie Reuner, aged 6, and his 8-year-old-sister were playing at "burying." A hole dug, Johnnie sat down in it and the girl piled up the earth until it reached the boy's chin and he was tightly imbedded. At this juncture an old sow and her brood appeared and savagely attacked the girl and drove her away. The sow then turned on the unprotected head of the boy in the ground and sank her teeth in the face and skull several times. By this time the screams of the children had been heard and assistance arrived, but the boy died before he could be released.

M. Mercier Created a Count.

MONTREAL, May 2.—A report has been received here that Premier Mercier of Quebec has been created a count of the Holy Roman Empire by the Pope.

Crawford Coates of Belmont has obtained the coveted honor of securing the first century of the season. His score of 142 was compiled in about three hours and a half, and was a masterly exhibition of batting.

Cornwall will take advantage of Montreal's absence in Toronto and play an exhibition game with the Shamrocks in Montreal on May 25.

The Shamrocks will decide at their next meeting whether to join Montreal and Toronto or stay in the newly formed scab league.

A contest of great importance will be that of the Kentucky Derby at Louisville on Wednesday. Kingman is the favorite. He won the Hotel Stakes at Lexington on Saturday, beating one of his best competitors, Belgerian. His other clever rival will be Georgetown.

Stand Your Ground.

When you make up your mind to take Hood's Sarsaparilla, do not be induced to buy some other preparation instead. Clerks may claim that "ours is as good as Hood's" and all that, but the peculiar merit of Hood's Sarsaparilla cannot be equalled. Therefore have nothing to do with substitutes and insist upon having Hood's Sarsaparilla, the best blood purifier and building-up medicine.

J. C. Turnbull.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355 92
Increase over previous year	3,421,372 84
New Applications received in 1890	6,371,599 15
Increase over 1889	2,268,888 60
Cash income for year ending 31st December, 1890	889,078 87
Increase over 1889	325,938 35
Assets at 31st December, 1890	2,473,514 19
Increase over 1889	687,691 47
Reserve for Security for Policy-Holders	2,169,222 68
Increase over 1889	567,732 71
Surplus over all Liabilities and Capital Stock	232,175 69
Increase over 1889	75,649 05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$54,824 07
" " " " 1886, "	89,452 97
" " " " 1890, (four years)	232,175 69

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and RECONSTRUCTOR, as their supply is a condensed form the substances actually needed to enrich the blood, curing all diseases coming from POOR and WATERY BLOOD, or from VITIATED HUMORS in the BLOOD, and also invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail sickness when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing

THE DR. WILLIAMS MED. CO.

The Daily Examiner is delivered to any part of the Town for 10c. a week, 35c. a month, $2.00 for six months.

Daily Examiner.

THURSDAY, MAY 14, 1891.

OUR NEGLECTED VOLUNTEERS.

THE Kingston *News* (Ministerialist) is guilty according to *Empire* ethics of "insulting our brave volunteers." It says it is about time the country seriously reflected on the large amount spent every year for militia purposes. "We spend about a million and a quarter dollars annually on this branch of the public service, and the result is not, we confess, eminently satisfactory. If the object of the expenditure is to foster the military spirit and to develop soldierly habits among the volunteers it cannot be said to have succeeded in its object." The *News* is not alone remarks the *Globe* in thinking that very little value is got for the money. The volunteers do their best under adverse circumstances to make themselves proficient, but outside of the large centres the force appears to be suffering from dry-rot. Rightly or wrongly the men in this part of the country blame Sir Aldolphe. They say a great deal of money is wasted on the staff and on gimcrackery in general, whilst the rank and file which constitutes the real strength of the force is treated shabbily. Perhaps Mr. Kirkpatrick will move in the matter. He is the only militia officer on that side of the House who has the courage to beard the Minister of War. The Denisons and that ilk have promised to do all manner of things for the volunteers, but they do not care to give offence to the Government by pressing for reform. Some of them would probably remain dumb if the force were reduced by Sir Aldolphe's bungling to the condition of the army of his Royal Transparency of Pumpernickel, who used to parade ninety men and ten drummers as his embattled host and tell them that they should soon have ships because he had just sown flax. The EXAMINER might add that the gallant "Rangers" of our own town, are a standing example of the government's persistent neglect of the rank and file. The personal equipment is most shamefully deficient—there can hardly be a consistent uniform because some of the volunteers have to parade in mixed garments of civilian and military cut. The drill shed is a most fitting monument to the unfitness of Sir Adolphe Caron for the position he utterly fails to fill, except in a purely ornamental manner. The force is not to be drilled this year, because it will cost $150,000 to do it. Yet we maintain the Senate, a collection of political fossils, mainly dug up from the heap of adverse ballots the elections bury back politicians under at elections—those whom the people reject are honored with places in the Senate. The rank and file of the volunteer force are shamefully neglected. They have to bear the brunt of the battle when trouble comes, and they have never been found remiss in their duty. If a volunteer force is maintained it should be kept in an efficient condition; the staff officers should not be harnessed in gold lace, while the rank and file are kept in the condition of the privates of Falstaff's ragged regiment. Money spent in so niggardly a manner as to produce anything inferior to a well equipped, well drilled, and efficient volunteer force, is wasted.

Norwood.

(From an Occasional Correspondent.)

Last Sunday the Presbyterians resumed worship in their church. The interior now presents an almost new appearance. The walls have been calcimined, the woodwork varnished, and many other improvements made. In the evening the beauty of the place was better brought out by the radiance of two electric arc lights. The congregation owe their thanks to the ladies of the Home Circle, to whose untiring energy the renovation is due.

Electric lights are this week being introduced into the Methodist church. A number of the stores are really brilliant at night. Lights have been placed in the doorways in some cases and the effect will repay the cost. Finlay's Hub and Wheel Factory keeps abreast with the times, having had the buildings illuminated by 2 arc and 11 incandescent lights.

A fine specimen of the bear family took a walk down the railway track on Tuesday forenoon last. He appears to have had no evil intension in taking this outing, but some of our citizens no doubt were filled with all kinds of angry threatenings against him when they set out in pursuit. There was only one gun in the crowd and every time its owner took aim, some excited individual would get in the way. The chase continued over all kinds of obstacles, the Oase, in this case, being very small, till brute lost himself in the jungles about two mile out of town.

Burtch's show "Uncle Tom's Cabin," is in town to-day, Wednesday, and an entertainment is to be given in their tent in the park to-night. The band in connection with the show appears to be first class.

Mr. John Thompson has purchased the livery stable, recently owned by Mr. O. Brennan. We wish the genial proprietor every success.

Rev. Jas. Carmichael and W. E. Roxburgh are attending the Presbyterian synod in Lindsay.

Baillieboro.

(From Our Own Correspondent.)

The officers of Court Baillieboro C.O.F. No. 233 were installed Tuesday night by Bro. R. Q Danch D.D.H.C.R. assisted by Bros. Albert Sanderson and Fred Wilson, Springville, and Bro. Fred Foote, Peterborough. This lodged is in a flourishing condition and has secured excellent new lodge rooms—the old English church building. The list of officers will be given next week.

Every Lady Uses It.

Dyer's Jelly of Cucumber and Roses for her chapped hands and lips, as it effectually cures in every instance. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. d63

Children Cry for Pitcher's Castoria.

Peterborough Markets.

(Supplied by W. H. Wrighton, Grain and Produce Dealer & General Grocer, George St.)

WEDNESDAY, May 13th, 1891.

The grain market is very dull, hardly anything offering except a little wheat and oats. Fall wheat brings $1.05 and Spring the same; oats brings 50c. and peas are quoted at 75c. Nothing doing in other commodities; prices as per quotations:

Fall Wheat	$ 1.05 to	$ 1.05
Spring Wheat	1.05 to	1.05
Bran, per ton	19.00 to	20.00
Shorts, "	20.00 to	21.00
Barley, per bush		nominal.
Peas, "	0.74 to	0.75
Oats "	0.50 to	0.50
Rye, "	0.55 to	0.56
Beef, hind quarter	5.50 to	6.50
Beef, fore "	3.50 to	5.50
Mutton, per lb	0.07 to	0.08
Lamb, per lb	0.08 to	0.09
Hogs, per 100 lbs	5.50 to	5.75
Butter, roll, per lb	0.18 to	0.20
Eggs, per doz	0.09 to	0.10
Potatoes, per bag	0.90 to	1.00
Apples, per bag	1.00 to	1.25
Apples, per bbl	2.50 to	3.00
Turkeys	0.60 to	1.25
Geese	0.50 to	0.70
Ducks, per pair	0.65 to	0.75
Chickens, per pair	0.35 to	0.50
Hay, per ton (new and old)	9.00 to	10.00
Straw, per load	4.00 to	4.00
Beef Hides	0.03 to	0.04
Calf Skins	0.05 to	0.06
Sheep skins	0.25 to	0.75
Lamb skins	0.25 to	0.75
Deakins	0.25 to	0.35
Pelts	0.00 to	0.00
Wool	0.18 to	0.20
Tallow	0.05 to	0.05
Tallow rough	0.02 to	0.02½

Toronto Markets.

Wheat, fall, per bush	$ 1.13 to	$ 1.14
Wheat, red, per bush	1.13 to	1.13
Wheat, spring, per bush	1.04 to	1.05
Wheat, goose, per bush	0.94 to	0 96
Barley, per bush	0.56 to	0.57
Oats, per bush	0 52 to	0.54
Dressed hogs, per cwt	6 50 to	6 75
Chickens, per pair	0.75 to	1.00
Butter, per lb rolls	0 22 to	0 25

Butter	0.18 to	0.19
Eggs	0.09 to	0.10
Hay	6.00 to	7.00

Live Stock Market.

TORONTO, May 12.—The arrival of 36 loads of stuff at the Western Cattle Yards this morning was not at all more than sufficient for the requirements of the market. We had a very active local demand; there was also purchasing for Ottawa, Kingston and Montreal. The export business was also tolerably brisk, and some fine lots of cattle were purchased for the British markets. There was a marked improvement in the quality of the offerings this morning, and especially in the cattle. Sheep and yearlings were in very small supply, and were being enquired for, though not in active demand. There was a good amount of business being done in springers and milk cows, and both were wanted. Hogs were in larger supply than has occurred before this season, and prices were somewhat weaker. Altogether the market was a very good one, prices were in all cases well sustained, and in many instances higher. The outlook for the remainder of the week may be considered as generally very favourable.

A True Bill.

Wm. Gillespie, Wolfe Island, Ont., says: I had indigestion and stomach cough for three years. Was treated by best physicians and used numerous patent medicines without success, when two bottles of Miller's Emulsion of Cod Liver Oil cured me. I have great pleasure in recommending it. For sale by all druggists. dw

Overworked, broken down, permaturely aged men or those suffering from excesses or indescretions will find a certain cure in Dr. Williams' Pink Pills. They supply the material necessary to enrich the blood, build up the nerves and restore the shattered system. Never fail. Sold by all dealers, or sent on receipt of price—50c. per box, or five boxes for $2—by addressing The Dr. Williams Med. Co., Brockville, Ont. 6d110w

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal. 6d92

Worthy of Confidence.

Those who have used it praise it! Mrs. George Ward writes from Josephine, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2w20d

From the Pacific Coast.

We quote from a letter recently received from Miss Eleanor Pope, Port Haney, B.C.: "For sore throat, coughs, croup, bruises, &c., Hagyard's Yellow Oil is the best thing I have ever used." 2w20d

Everybody Admires Soft White Hands.

And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W. A. Dyer & Co., Montreal. 6d92

Have You Tried

Imperial Cream Tartar Baking Powder. It is the purest of the pure. All grocers sell it. t th s-w

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

THE RED COLOR of the blood is caused by the Iron it contains. Supply the iron when lacking by using Milburn's Beef, Iron and Wine. dw

Sufferers

FROM Stomach and Liver derangements—Dyspepsia, Biliousness, Sick-Headache, and Constipation—find a safe and certain relief in **Ayer's Pills.** In all cases where a cathartic is needed, these Pills are recommended by leading physicians.

Dr. T. E. Hastings, of Baltimore, says: "Ayer's Pills are the best cathartic and aperient within the reach of my profession."

Dr. John W. Brown, of Oceana, W. Va., writes: "I have prescribed Ayer's Pills in my practice, and find them excellent. I urge their general use in families."

"For a number of years I was afflicted with biliousness which almost destroyed my health. I tried various remedies, but nothing afforded me any relief until I began to take Ayer's Pills."—G. S. Wanderlich, Scranton, Pa.

"I have used Ayer's Pills for the past thirty years, and am satisfied I should not be alive to-day if it had not been for them. They cured me of dyspepsia when all other remedies failed, and their occasional use has kept me in a healthy condition ever since."—T. P. Brown, Chester, Pa.

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills, and deem it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years past I have taken one of these Pills every night before retiring. I would not willingly be without them."—G. W. Bowman, 26 East Main st., Carlisle, Pa.

"Ayer's Pills have been used in my family upwards of twenty years, and have completely verified all that is claimed for them. In attacks of piles, from which I suffered many years, they afforded me greater relief than any medicine I ever tried."—Thomas F. Adams, Holly Springs, Texas.

FLAX-SEED EMULSION COMPOUND

BRONCHITIS

136 Lexington Ave., New York City, Sept. 19, 1889.

I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results. JAMES K. CROOK, M.D.

CONSUMPTION

Brooklyn, N.Y., Feb. 14th, 1889.

I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where patient could not use Cod Liver Oil in any form. J. H. DROGE, M. D.

NERVOUS PROSTRATION

Brooklyn, N.Y., Dec. 20th, 1888.

I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility. JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N.Y., Oct. 10th, 1888.

I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use. D. A. GORTON, M. D.

WASTING DISEASES

137 West 34th St., New York, Aug. 6, 1888.

I have used your Flax-Seed Emulsion Compound in a severe case of Mal-nutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large. M. H. GILBERT, M.D.

RHEUMATISM

THE "FUSSY" MECHANIC.

HE IS NOT THE ONE THAT WORKS MOST EFFECTIVELY.

Necessity of Forming Right Habits of Work. Only One Right Way of Doing a Thing, Which is Always the Best Way. Deliberate Methods.

Don't be so fussy about everything you do, I heard one man say to another not long since. The expression had a world of meaning in it too. There is a vast difference in being particular about every thing you do and being "fussy." One brings everything out true and right; the other will always keep the work stirred up and it never comes out right. It is a fine maxim that "what is worth doing at all is worth doing well." This should be a golden rule for every man to work by. The difference in the two ways of doing things should be noted, and the right way taken and utilized and the other left.

We should form a habit, which will go with us as a part of our lives and really become a part of ourselves, to do everything in the best, easiest and most convenient way. I knew a man once who was always fussing about his tool chest. Every once in a while he would have some different place for his tools. The consequence was he never knew where any of his tools were. He had always just overhauled his "chist" and really had forgotten just where anything was that he wanted. It often took him longer to find a tool he wanted than the tool was worth.

Quite to the other extreme was an old acquaintance of mine who made a cabinet containing 21,375 pieces, and for which he refused the snug little sum of $5,000. Every tool, every piece of wood, every square plan and drawing for this cabinet was in its place. There was no hunting up anything. There was a rigid system and prearranged plan for every part of the work, which, after they were matured, were strictly adhered to. It is true he was quite a long time in arranging all the details of the cabinet, but when once arranged each had its particular place and there was never any fussing and rearranging.

The same plan was followed in making a tool chest with some 10,000 pieces and a reproduction of an Italian centre table, with a large amount of beautiful inlaid work in the top.

We do not always get the right way to do a piece of work at the first trial, but to an intelligent worker the first mistake will soon be corrected by a second and improved way, and soon the way is perfected and should be followed without experimenting and fussing with a thousand and one different ways of doing work.

You say there is only one right way of doing a thing, which is true; but a great many go fussing around trying to find every way but the right one and never accomplish anything in the end. I saw a man the other day with a full set of solid six-cutter bits. He was grinding each one on an emery wheel. The try square was tried as they were ground till every bit was tried up by the square. Some three-quarters of an hour was spent in just grinding, and then the bend must be set up afterward. Now, that is what I call fussing. A few minutes with the file, the bits never taken out of the head, were just as good as that hour spent in taking out every bit and grinding to fit a try square. Then several chances to one the work would not come square after all, and the bits would have to be retouched with a file before they were right, for reasons which every practical operator knows. In my opinion 20 minutes of that hour were thrown away in fussing. Does anybody wonder that men in business do not succeed if they have even half a shop full of such men as that?

This fussing shows a lack of confidence in yourself very plainly, for if you had that confidence you would act on the principle that what you do is right and did not need to be rearranged or refitted or anything about it. You believe in your own capability of doing things and doing them right.

You will note here the great difference between egotism and confidence in one's self. Egotism is the child of ignorance, while confidence is the result of being educated up to a full and complete knowledge of the business in which you are engaged. Just here is where "knowledge is power" comes in with great force, and entirely does away with any tendency to fussiness, which is so often found in persons who only half know how to do their work.

But this fussing comes in everywhere to the injury of any kind of business which it touches. The man who has it on his brain should have one corner away by himself so he can change his tools over every day, or can change his way of doing things as often as he chooses, or he can alter all his plans for doing any piece of work as many times as he chooses, only he ought to work by himself all the time, for just as soon as he strikes any steady-going business it soon will upset it as sure as fate.

A little specimen of one coming under my observation will show you. In the best line at one time it would be all fuss, and before long it would be Blake's belt and it was and then it was all steel hooks, after a while everything would be scarfed and riveted. Then history would repeat itself and the different ways of fastening would be repeated in filing saws, sometimes it would be a six-tooth, sometimes a set tooth and all through the different kinds of work there was constant changing the way of doing it. It got to be a common question to ask, "Well, which way are you going to do it to-day boss?" The question was so often repeated that after a while it had a saving influence on him, and he gradually worked out of that fussing style and became a true convert to finding a good way of doing things, and stuck to it.

Perhaps he had heard that song. Which no doubt many of your readers will remember was sung almost everywhere quite a long time ago: "When you get a good thing keep it." A great many ought to sit up late nights to commit that song to memory, and run it over once in a while to keep them right in principle.

It is all right enough for a person to change his style of doing things after a proper study and deliberation. But you want to give thought enough to it to be assured that the change will be a benefit by dispensing with a part of your labor and reducing the expense of doing the work, whatever it may be. No change should be made without the thing being thoroughly studied and approved by your very best judgment.

It is often reported that our first thoughts are best, and with many it is so, but the majority need to deliberate before deciding. But when once the decision is made there is no more fussing or any re-arranging, as the decision is final for better or for worse. With many it becomes a confirmed habit, and those who come in contact with these cranks are not long in finding out that fussiness, when once it becomes chronic, is one of the worst diseases that a mechanic can become heir to.

Beware of fussy men.—J. T. Lungmin, in the Wood-Worker.

Children Cry for Pitcher's Castoria.

CONSIDERABLE OBJECTION.

What of Harmony in the Camp of Legislative Prohibitionists.

OTTAWA, May 12.—At a conference of Senators and members of Parliament interested in prohibition held in the tower room this morning, the action of the Alliance Committee on Legislation at their meeting last week was endorsed and it was decided to introduce the immediate prohibition resolution agreed upon at the earliest practicable moment. There were some differences of opinion on matters of detail. The meeting was rather stormy at the outset, as the result of the announcement made by the chairman, Mr. Jamieson, that he intended to move the resolution adopted by the Alliance Committee, thus shutting off any alteration which this meeting might propose. A number of members opposed to immediate prohibition objected to the resolution and held that the present meeting was altogether useless if they were not to be allowed to declare what shape the Parliamentary action should take. Amongst those strongly objecting were Messrs. Taylor and Trow, the chief whips of the Government and Opposition respectively. They declared that many members favorably disposed to the principle of prohibition would be compelled to vote against the proposed immediate enforcement. Finally the dissidents left the room and the members remaining endorsed the resolution as above stated.

Who'll Capture the Brooklyn?

NEW YORK, May 12.—The eyes of the American racing world are turned on the Brooklyn race track, where on the coming Friday the great Brooklyn Handicap will be run. The books are full on Carroll, Cousin Jeems and Teuton, while Banquet, Burlington, Demuth, Eon, Prince Royal, Tea Tray, Riley and Tenny are being backed down to almost even money.

A special from Chicago says that Ed. Corrigan, the owner of Riley, has staked every dollar of the money he has on Riley's winning the event, and is so confident of his losing so that he has advised his friends to do likewise.

The brothers Tea Tray and Banquet are also looked upon as winners, inasmuch as Lakeland, who owned Exile, and Mike Dwyer, who owns Banquet, are never seen with a scrub in such a contest.

The event is worth $10,000 to the winner. This year it closed with 95 nominations, and of this number the following are likely to start: Banquet 108, Burlington 120, Carroll 97, Cassius 115, Castaway II. 115, Chaos 110, Cousin Jeems 100, Demuth 118, Eon 108, Judge Morrow 118, Kenwood 108, King Thomas 95, Potomac 107, Prince Royal 117, Riley 120, Senorita 114, Loantaka 112, Tea Tray 115, Tenny 128, Russell 105, Uncle Bob 100.

Smothered at Birth.

HAMILTON, May 12.—In a roughcast house, 54 Catharine-street south, a child was found dead under suspicious circumstances yesterday. Mrs. Mary Coleman, a colored woman, the mother, lives with her aunt, Mrs. Harvey Hallah. Mrs. Coleman did not notify the woman that she was ill until after the child was born. When they entered the room it was dead and was lying on its face beside the mother. Until an autopsy is made it will not be known if the child was smothered or died from neglect.

A Bartender Knifed

HAMILTON, May 12.—Pat Wolfe, a bartender at the St. Nicholas Hotel, was stabbed several times with a knife by one Richard Hutchinson in a row yesterday afternoon. The wounds are not serious.

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2w20d

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She resolved to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS KENNEDY, Hamilton, Ont. 2w20d

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2w20d

When Baby was sick, we gave her Castoria
When she was a Child, she cried for Castoria
When she became Miss, she clung to Castoria
When she had Children, she gave them Castoria

Ahead of Koch's Lymph.

Charles Campion, Kingston, Ont., says:—Gained 7 lbs. with one bottle of Miller's Emulsion of Cod Liver Oil. Cured bad Bronchial Cough with a few doses and made me feel like a new man. I strongly recommend it. All druggists keep it. dw

The Royal Rheumatic Remedy, taken internally, strikes directly at the foundation of the disease. At once relieves pain by removing the cause of disease. The cause removed, a cure is effected. For sale by W. R. Greatrex, druggist, Peterborough. dw

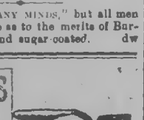
Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

SOME SYMPTOMS OF WORMS are:—Fever, colic, variable appetite, restlessness, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

STUBBORN CHILDREN readily take Dr. Low's Worm Syrup. It pleases the child and destroys the worms. dw

"MANY MEN, MANY MINDS," but all men and all minds agree as to the merits of Burdock Pills, small and sugar-coated. dw

CARTER'S LITTLE LIVER PILLS.



CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents five for $1. Sold everywhere, or sent by mail.

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND

ELECTRIC BELT

And Attachments.

HEAD OFFICE—168 Yonge St., Toronto.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the youngest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eod-w

Charlotte Street Methodists.

At a meeting of the Quarterly Board of the Charlotte street Methodist church last night, a resolution was passed urging the Trustee Board to proceed at once with the erection of the new school room, for which tenders will probably be let within a few days. Mr. J. L. Hughes was appointed a delegate to the district meeting at Millbrook.

Court of Revision.

The Court of Revision on the Assessment Roll of the Town of Peterborough for the year 1891, will be held on Tuesday evening, May 26th. Up to the time of going to press, the Clerk had received forty-three appeals, many less than the usual number. Those who desire to appeal must send in their notices before twelve o'clock to-night.

The Trent Narrows Bridge.

The Campbellford *Herald* says that people residing about the Narrows, and many other residents of Belmont and Seymour, have been subject to much inconvenience since the bridge of the north channel of the Trent was swept away. The members of Seymour Council met at the bridge on Monday last to examine the bridge and see if it cannot be repaired so as to be safe for travel.

The celebrated BARM YEAST will rise as quickly as compressed. For sale at Alex. Elliott's.

Prospecting for Summer Pleasure.

To-day a party of citizens, owners of island cottages in Stony Lake, chartered a bus to take them to Lakefield, where they embarked on the steamer Mary Kilen for a cruise over the lakes to visit their respective cottages, and to take a general view of the situation, and to gather information and secure quotations as to fish stories the coming summer. The party consists of Messrs. John McClelland, E. H. D. Hall, K. G. Loch, J. D. Collins, F. E. Bradburn, J. W. Batcheh, F. Brownscombe, H. Grundy, Wm. Hamilton, F. J. A. Hall and J. Fairbairn.

Children Cry for Pitcher's Castoria.

Home Pertinent Advice.

Look out for swindlers, the country abounds with them, and they resort to all sorts of methods to gull the guileless. Do not expect to get a huge bargain from a stranger, and do not attach your signature to any document whatever for him. If you want anything in dry goods, groceries, boots and shoes, hardware, or in any other line, purchase from them who deal in them in your nearest town. They intend to remain, and it is to their best interest to deal with you honestly, and it helps to build up your town, and eventually to advance the value of your real estate.

Synod Meeting in Peterborough.

Whatever points of doctrinal difference some of the people of Peterborough may have with the Presbyterians, yet all will agree that the Toronto and Kingston synod has shown good taste and good judgment in selecting Peterborough as the next place of meeting of the synod—the second Tuesday of May, 1892 The porcine proclivities of Toronto in seeking to be made, the permanent meeting place of the synod were unsuccessful. Ten years ago the synod met in Peterborough and the members of the synod have very pleasant recollections of that occasion.

Cricket.

The local club is a little behind other places in beginning the practice of the game, but that won't prevent them from being ahead when the record of matches won and lost is made up next fall. The season, so far as the weather goes, is very early this year, and practice, and even, matches have been going on with other clubs already. The Asshburnham grounds are in good shape for play, and it is expected that next Saturday will see a pile of pads on the green and white flannel to the fore.

The Campbellford cricket club has made arrangements for two matches—both to be played in that town—one with Peterborough on the 5th of June, and another with East Toronto on the 2nd of July. They are also trying to arrange a match with a foreign team for the forenoon of the 25th.

A Precocious Criminal.

The Campbellford *Herald* says that on Friday last, Albert Brown, of Campbellford, the little boy who was placed behind the prison bars in the Cobourg jail for breaking into and stealing goods from the railway freight house here some weeks ago, was tried at the assizes and sentenced to confinement in the boys' reformatory for five years. The little fellow exhibited his wicked propensities at the jail, and it is said that there never was his equal inside its walls. Although reproved and oftentimes severely punished by his father and mother, he persisted in wrong doing, and seemingly he appreciated kindness in the same way that he would a kick. While being taken from the court room to the jail he was securely handcuffed with Andrew McGuire, and when the sheriff's escort had proceeded with them about two-thirds of the way, McGuire picked the handcuff, jumped from the conveyance and tried to make his escape.

Queen's Birthday Sports.

In addition to the visit of the Governor-General's Foot Guards on May 25th, the Queen's Birthday will be celebrated in Peterborough by athletic sports of a most interesting character. The committee of the P. A. A. A. have made arrangements for a lacrosse match on their grounds between Peterborough and Toronto clubs. The visiting team is one of the very best in the city, and the match will be close and exciting. Following the lacrosse game there will be a series of foot races, for which medals will be offered. The races are 100 yds., mile and half mile. These events should draw a large attendance. Lacrosse has always been the favorite game in Peterborough, and the match on the 25th will be one of the best ever seen here.

At the Driving Park there will be horse races, under the management of Mr. Chadborne, the lessee of the park. A fine programme of events has been prepared and it is expected the races will be first class. Some of the best horses in the district will be entered. Posters are out announcing full particulars.

Transpontine Temperance Topics.

Mr. Dowd, of Ottawa, the Dominion organizer of the Independent Order of Good Templars left town yesterday after a visit of some four or five weeks in this county. During his stay he has organized two flourishing lodges, with a large and live membership—one at Westwood and one at Mather's Corners, Otonabee. He also visited Ashburnham and paved the way for the establishment of a lodge in Ashburnham. Ten out of the fifteen charter names have been secured. Mr. Dowd will return about next Wednesday when it is confidently expected that a lodge will be organized. Sanguine are some of those interested that our young lady who is a enthusiast in temperance matters and of some what romantic turn of mind besides, has already suggested a name for the new lodge. The name proposed is "Ashburnia" and a very pretty and euphonious title it is. It is to be hoped that the project of establishing a temperance organization in Ashburnham will be successful. It is held that there is sufficient material in our suburban sister village to work upon. The only draw back is lack of operators. The temperance people of Ashburnham must be alive, so they will get organization effected and be able to elect representatives to the grand lodge which meets here next month.

Farley Family Affairs.

The domestic affairs of the Farley mansion in Ashburnham, came to a focus last night and to-day, and the melodious brawls that have for months saddened the air of the vicinity of their abode will cease—at least for six months. This morning Constable Craig arrested James Farley, popularly known as "Jimmy," on a charge of wife-beating. At one o'clock this afternoon Mr. Farley was arraigned before County Police Magistrate Edmison. Mrs. Farley gave testimony as to the assault, and her evidence was strikingly corroborated by the confirmatory bruises and blemishes that adorned her countenance in consequence of the attentions she had received at, or, rather, from, the hands of her husband. A neighbour also testified to having entered the house, attracted by the piercing screams of the pounded spouse, and to finding the wife prostrate on the floor and "Jimmy" standing at her side glowering over his work. Jimmy did not deny that he might have done the deed. After quitting work yesterday evening he procured a pint bottle of whisky, and after drinking it at a brief sitting he was well primed for his connubial chicas. The wife having expressed a strong desire that her husband should leave the village and town and the husband having a similar desire, the only point in which they were ever known to agree, the magistrate gave Mr. Farley the option of spending six months in jail or of leaving the town and village for a like period. Jimmy elected to deprive the community of the light of his presence for the stipulated period of time and was given till Monday to arrange his affairs with reference to his prolonged and little lamented absence.

Personal

Mr. John Hosey, of Napanee, is spending a few days in town.

Mrs. J. B. Ormond, of North Bay, is visiting with Mrs. J. R. Stratton.

Mrs McClure and Miss Sadler, of Lindsay, are spending a few days at Mr. Macfarlane Wilson's, McDonel street.

Mr. F. W. Gladman of Messrs. Dumble & Leonard's office, leaves to-morrow for Toronto, where he will enter the law office of Mr. John Akers.

Mrs. (Hon.) Robt. Hamilton and Miss Daisy Hamilton left town Tuesday night for Hamilton city, and after spending a few weeks there they will start for England. Mrs Hamilton and daughter contemplate remaining two years in Europe.

Mr. J. A. McClellan, of the Ontario bank, left this morning for Bowmanville, where he takes the position of teller in the local office. "Mac" was one of the most popular young men in town, in social circles especially, and scores of bright eyes and warm hearts have grown sad over his departure. Before leaving town Mr. McClellan was presented with a handsome gold locket and a few other gifts by a company of his young friends.

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure blood, removing all foul humors, from a common pimple to the worst scrofulous sore. 2w20d dw

Marmora Mining Notes.

The Mining Boom in Hastings County.

In these days when the caves of the earth are studded with silver stalactites, that like the ripe pear in a tree may be had for the plucking, a few notes respecting mining operations in the adjoining county will be read with interest. A correspondent of the Belleville *Ontario* gives the following paragraphs respecting mining interests in Marmora:—

Great interest in mining seems to prevail in this part of the country. A great many are trying to purchase timber lots but it is not timber they are so anxious about, it is that little vein of quartz, that carries gold and makes their eyes bulge. M. H. Powell has struck a vein or several veins forming a junction on lot 24 in the 5th con. of Marmora and says he can pan out $100 per day out of the decomposed ore or quartz and has a great quantity of it. We have every proof and reason to believe that Mr. Powell has one of the richest mines in the world. Free gold can be washed out of the sand near these veins and the quartz is speckled with free gold. This is no hearsay, your reporter has been on the lot several times and has been shown any quantity of free gold. This lot was formerly owned by Emery Demaree, Sr.

I understand that a large crusher is under way at Malone and mining will be pushed vigorously in that place.

Marmora village is to have a railroad if the townships of Marmora and Lake and Belmont will give a bonus. The road is to branch from Central Ontario Junction, run north through Marmora village thence to Ladyard from mines on lot 19 in 1st con. of Belmont.

The Steamer "Sunbeam."

The Trial Trip—Her Summer Schedule.

Messrs. Hilliard & Elen, the proprietors of the beautiful new steamer "Sunbeam," gave her a trial trip on Tuesday, with a few citizens on board, making the run to Young's Point and return. Capt. Elen had charge of the craft and Mr. Hilliard filled, and will fill, the position of purser and guardian of all she wants and comforts of passengers. The "Sunbeam" behaved beautifully on her trial voyage. She is exceedingly steady and answers her helm with promptness. Her machinery is at present a little stiff, but that will wear off in a few days when she enters upon her regular route, which will be something like this;—She will connect in the afternoon at 4 p.m. with the Lakefield train which connects with the G. T. R. express leaving Peterborough at 1.15 and reaching Lakefield at 3.45. Thus passengers from Toronto, other places or town, can leave Toronto in the morning or Peterborough at 1:45, and reach the lakes the same evening, a new arrangement which will be highly appreciated. On leaving Lakefield the Sunbeam will pass through Stony Lake, calling at Juniper, Julian's and Burleigh Falls, and will voyage to Chemong, proceeding to Chemong Park, where she will lie over night. She will thus be available for moonlight and evening excursions, for residents of the park or for parties who may come from town for such purposes. In the morning she will, connecting with the morning Chemong Valley express, leave at nine o'clock, and steam through the chain of lakes, calling at the several important points on the route to Lakefield.

Still Blustering.

Sir Charles Tupper is still beating the air with charges against Sir Henry Tyler, president of the Grand Trunk Railway directorate. It is well that the *Times* has space for such contentions, for Canadian papers would have killed it weeks ago. Sir Charles, like a garrulous woman, is bound to have the last word. But financial papers have sized him up, and the London *Economist*, the leading financial journal of the world, thus reviews the situation:—

"We now have a long statement by Sir Charles Tupper in reply to Sir Henry Tyler's speech at the half yearly meeting of the Grand Trunk Company, and it would be difficult to conceive of anything more inconclusive and unsatisfactory. The greater part of it is taken up with the question of how far the Grand Trunk influence was used against the government in the late elections. On this point we may be sure of one thing, at least, that if it had been employed in the service of the present government we should have heard nothing of the charges which Sir Charles Tupper has recently brought against the company. And we must, again, say that it is as discreditable for the Dominion Government to seek to buy votes by holding out hopes of public favour, as it is unwise for a great public undertaking such as the Grand Trunk to become in any way involved in politics. Sir Charles Tupper was asked to justify his charge of 'extravagance, jobbery and corruption,' which he made against the Grand Trunk management and he does so by saying that he, of course, referred to the 'original construction' of the Grand Trunk. Language, a cynic said, was given us to conceal our thoughts, and this seems to be a case in point. If Sir Charles Tupper referred to the large sums wasted on the construction of the Grand Trunk, it is a pity he did not say so, for certainly by using the word management he has utterly misled the public. But if we accept this new version, we would still ask why the Canadian government only now awakes to the iniquity which characterized the construction of the Grand Trunk? How is it that when the lines were built, for some of which subsidies were given, the Government took no action whatever against the extravagant expenditure, and only now stirs when action of any kind is entirely out of the question? This is certainly not creditable to the Government and some explanation of their business is called for."

The Montreal *Herald* points out that the tone of his late letters serve to remind people very forcibly of the time when he edited a Tory sheet called the *Colonist* in Halifax, N. S., in pre-confederation days. His violent and abusive language then led the late Judge McCully to give him the title of "poison bag." The only difference is that his venomed darts now are a little more polished than they were then; but the superficial polish acquired in London society and the habitimeate of rank and title with which he has been clothed, do not conceal the fact that it is the same old egotistical, reckless and venomous Tupper of 1857 to 1867 that attacks Englishmen of nigh character, who have invested millions of pounds in a great railway system that has contributed greatly towards developing and building up this Canada of ours.

How much longer asks the Kingston *Whig*, and every respectable citizen echoes the inquiry, is Canada to be disgraced by the retention of such a man in a high office as her representative in London? No Englishman of character and repute occupying a high semi diplomatic position would venture to degrade and disgrace his office by descending to the level of a wire-pulling political agent in an election contest as Sir Charles Tupper has done. By his conduct since his return to England he is doing serious injury to Canada and Canadian institutions. We cannot afford to have English statesmen and the English people measure and judge Canada and the Canadians by what they see and hear of Sir Charles Tupper. His retention any longer in the position of high commissioner will be a crime committed against Canadian interests.

News Nuggets.

—A runaway on Simcoe street this morning caused some excitement. No one was hurt, and very little damage was done.

—At a meeting of the West Riding License Commissioners to-day a wine and beer license was granted to R. R. Hamilton of the C.P.R. restaurant.

—If you decide, from what you have heard or read, that you will take Hood's Sarsaparilla, do not be induced to buy any substitute instead.

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and $1 a package. dw

A Spring Medicine.

There are few who do not at this season feel the need of a spring medicine, and to all such we recommend Lane's Family Medicine as the best. This is a pleasant herb drink made by pouring boiling water on the dried roots and herbs. Druggists sell the packages at 50c. and $1. It is the best as well as the pleasantest cure for constipation and headache. dw

A LAWYER AND HIS WIFE.

RICHES DID NOT BRING HAPPINESS TO THIS COUPLE.

Marriage a Failure In the Case of a Toronto Barrister Named Smith—Worth a Quarter of a Million, Yet He Failed To Provide For His Spouse.

TORONTO, May 14.—After 30 years of married life more or less harmonious, Frederick J. D. Smith, barrister, of Newton-Brook (North Toronto), and his wife Eliza E. Smith are in the courts in a suit for alimony and separation for all time. Mr. Smith is one of the wealthiest men in the county, being worth fully $300,000 and owner of some valuable properties in the city. Eight children have been the fruits of his marriage, four of them of age and holding good positions. Mrs. Smith is suing for alimony, and says that for the first 10 years of their married life they lived happily together, but in 1871 his conduct changed. He began to drink and from that time forward took every opportunity to make her life miserable. In consequence of the treatment she was compelled to endure she was seized with a paralytic stroke in 1883 and would have left him then had it not been for her children. Among other items of complaint she alleges, notwithstanding his wealth, he refused to hire help, or even necessary medical attendance except at rare intervals. His language, she says, was most revolting, imputing to her unchaste conduct and the worst crimes possible. He refused her her proper position in the family circle and did not provide sufficient clothing. She claims he kicked her out of bed, turned her out of the house, pulled her round the rooms by the hair of the head and blackened her eyes. He beat her with a rawhide and a stick, shot at her with a revolver, read the prayers for the dead over her frequently, and prayed to be speedily delivered from such "a vile old hag."

In addition to all this the wife charges him with tampering with her medicine with a view of preventing her recovery. Finally the course of treatment she suffered rendered her mentally and physically weak, but now she has parted from him she is slowly recovering. On leaving him she sent him the following letter:

If the wife's allegations are bad the husband's are still worse. He goes on to say that his wife before the marriage was a domestic in his father's house, and many years older than himself. During that period they became too friendly, with the result that he married her afterwards without the consent or knowledge of his people. Prior to the marriage ceremony a child was born, and he afterwards discovered that a person with whom the plaintiff had formerly lived in service had furnished her with considerable sums of money. When he taxed her with this she became abusive and made his life miserable.

SIR JOHN THOMPSON ARRAIGNED.

Ottawa Equal Rights Association Arraign the Justice Department.

OTTAWA, May 13.—A special meeting of the executive of the Equal Rights Association was held last evening, when the action of the Government in deciding to defray the expenses of testing the Manitoba School Act was severely criticized, after which the following resolution was unanimously adopted: "Resolved, that inasmuch as the Dominion Government have decided to defray the expense of testing the constitutionality of the Manitoba School Act and have refused the like privilege in the case of the Jesuit Incorporation and Estates Acts of Quebec when such acts were challenged by high legal authority, thereby permitting the said acts to go into operation unquestioned; therefore the conduct of the Government in the latter case in declining the ordeal of a judicial investigation into the grave questions involved when requested so to do is a manifestly unfair and unjust discrimination in favor of the Jesuit Society, and lays the Department of Justice, hitherto above reproach or suspicion, open to the charge of gross partiality in its dealings between different classes of Her Majesty's subjects, and we hope steps will be taken during the present session of Parliament to vindicate the rights of all citizens to equal access to courts of law and a condemnation of the policy of granting special favors to one class and refusing like facilities to another class of Canadian citizens."

GO UP STAIRS.

The Distinguished Canadian Given Command of an Anglo-Belgian Expedition.

HALIFAX, N.S., May 13.—The Anglo-Belgian expedition to the head waters of the River Congo, Central Africa, promoted by the King of Belgium, has left for the scene of its work. The command has been given to Capt. W. G. Stairs of Halifax, formerly of the Emin Relief Expedition, headed by Stanley. The European members of the party sailed from London yesterday for Zanzibar, thence to march inland for seven months to Katanga. It is expected that the work of this expedition will take two years to complete.

Poisoned by a Squirrel's Bite.

NEW YORK, May 13.—Miss Ella Thomas, matron at the Jamesburg, N.J., State Reform School, is dangerously ill from injuries received a little over a week ago while petting a tame gray squirrel. Miss Thomas was caressing the squirrel, when it suddenly turned and bit her on the forefinger of the right hand. The wound grew rapidly worse, and has resulted in such a serious case of blood poisoning that death is expected.

A New Combine.

The Canadian farmer, already handicapped by a restricted market for his produce and enormous duties on everything he has to buy, is now threatened with a combine in reapers and mowers, which if consummated will greatly add to his burdens. It has been ascertained that Massey, of Toronto, and Harris, of Brantford, proprietors of the largest agricultural implements works in Canada, are going to unite their forces. The programme is to force Patterson, of Woodstock, and Frost & Wood, of Smith's Falls, into the syndicate, and to crowd to the wall all the other concerns. Then the farmer can be made to pay fancy prices, for the Customs duty of 35 per cent. *ad valorem* will keep out foreign competitions. Commenting on this new outcome of Clark Wallace's Anti Combine Bill, which does not prevent Combines, the Hamilton *Times* says:—

There is only one way to defeat this line of action, and that way should have been taken advantage of two months ago. Farmers, who had not been making a good living for years, farmers who have seen their homesteads passing under mortgage and their neighbors moving out of the country voted for the Old Flag and the Old Man. They had the sublime satisfaction of whipping the Grits in the elections, and now they will pay for their victory to the Implement Combine. Had the Tories been defeated, there would have been Reciprocity with the United States in the implement business, or if that could not have been arranged, there would have been a lowering of the Canadian duties on both raw material and finished product, and cheapness would have resulted.

The more the farmer has to pay for his implements, the less he has left for himself. An addition of $100 to the cost of the year's supply of farm tools does not add 100 cents to the prices received by the farmer for grain, animals, fruit and vegetables. The endeavor to give him better prices by the "home market" scheme has failed, and any farmer with sense ought to know by this time that the only way to increase farmers' profits is to reduce the cost of what farmers have to buy. That is what tariff reform or free trade will do. Can shouting for the Old Flag do it? Will the Old Man do it?

A dozen years ago the promise was that the N.P. would set up tall chimneys in the towns and villages. It has worked the other way. The useful little factories in such places as Ayr, Beamsville and Dundas have been closed, one after the other, and manufacturing is centralized in the large cities. The present movement in the agricultural implement business is on the same line. What a fine opportunity to help themselves the farmers threw away on March 5th. They will be in still greater need of relief by next election day.

The well known strengthening properties of Iron, combined with other tonics and a most perfect nervine, are found in Carter's Iron Pills, which strengthen the nerves and body, and improve the blood and complexion. dw

There is a Demand for Hygienic Knowledge.

As people become more educated and intelligent, the demand for an exact science for preventing disease increases. The educated men and women of the world who have the good of humanity at heart, should at all times show their less favored brothers and sisters how the best growths mental and physical, may be obtained. The people require to be taught in plain every-day language to which they are accustomed. A writer very wisely says: "Doctors who talk Latin to the patients and use big sounding names and phrases will not satisfy the hunger for knowledge which seems contemporaneous throughout the world."

Until Hygienic knowledge and perfect Sanitation is thoroughly understood and practised, and its benefits fully appreciated in all our large towns and cities where disease is continually lurking, and laying its deadly hand upon thousands of men, women and children; Paine's Celery Compound should have a place in every household. Physicians should impress upon families the necessity of its use, as a means of avoiding disease from malarian, sewer gases and noxious vapors. The weak and all predisposed to sickness and disease should use this great builder of nerve and brain every day, until health and strength is assured. The Spring time carries off thousands of all ages. This death rate can be vastly lowered if Paine's Celery Compound is used. Canadians are beginning to realize this important fact, as the demand for this king of remedies has increased tremendously.

Free to Ladies.

Every lady reader of this paper sending at once her address on a postal card will receive a free copy of the *Ladies'* (Pictorial) *Newspaper*, containing full particulars of their old fashioned English prize competition. Over $6,000.00 in prizes will be given away between now and June 1st, with special daily prizes of value for each locality. The *Ladies' Newspaper* is one of the largest and most profusely illustrated publications in Canada, and the competition offered by them is to be conducted in a strictly honourable manner, without partiality to persons or locality. Anyone can secure a good prize by a little work. No cheap presents will be given. It costs you nothing for full information and a sample copy, if you send at once. Address: The *Ladies Newspaper Co.*, Canada Life Building, Toronto, Ontario. d73t-w14

MARRIED.

LILLICO—McKEE—At the residence of the bride's father, North Monaghan, on Wednesday, May 13th, 1891, by Rev. S. J. Shorey, Mr. Thomas A. Lillico to Miss Emma McKee, both of North Monaghan.

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla. It had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

Intense Suffering 8 Years

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

VALUABLE HOUSEHOLD

Property For Sale

BY TENDER.

TENDERS WILL BE RECEIVED for the purchase of the following properties:

Being Parts of Lot No. 2, North of Simcoe Street, and East of Water Street, in the Town of Peterborough.

At $—— per foot frontage, en bloc, or separately, to the **Twentieth Day of May**, instant, At noon, addressed to the undersigned and marked "Tenders re Albert Hall Estate."

Parcel No. 1.

Part of said lot, containing 2,347 square feet, more or less, and more particularly described as follows: Commencing where a post has been planted 119½ feet east from the south west angle of town lot, No. 1, east of Water street, and north of Simcoe street, thence east 26 feet on Simcoe street, thence north 80 feet, thence west 26 feet to a Lane 19½ feet wide, thence 80 feet to the place of beginning. This property is a corner lot in the centre of the town, and a very desirable property for a residence. There is situated on it a story and a half plaster house. It is immediately opposite the residence of George Dunsford, Esq.

Parcel No. 2.

Containing 3823 square feet, more or less, and having a frontage of 45 feet on Queen street, with a depth of 85 feet to said Lane. On this property is a two story double brick house, and being Nos. 15 and 17 Queen street, with rooms over brick kitchens, good cellars, hard and soft water and outbuildings. This street is opposite front of St. John's church.

Parcel No. 3.

Immediately south of and adjoining Parcel No. 2, having a frontage of 50 feet on Queen Street, by a depth of 85 feet to the said lane. On this property is a very desirable brick dwelling, two storeys, and brick kitchen, good cellar under the whole house, wood-shed, hard and soft water, etc. There is also thereon one Brick Bake Shop, with cellar and ice house, with access thereto from the lane. From their proximity to the centre of the town these properties are always in demand.

TERMS.—The Vendors will prepare conveyances at their own expense, and will produce only the title deeds and evidences of title in their possession Ten per cent. to be paid when notice given that tender is accepted. Balance within thirty days, without interest. Fifty per cent. of amount may remain secured on property at six per cent.

The highest or any tender not necessarily accepted. For further particulars apply to Messrs. A. COMSTOCK or H. LONG, Trustees, Or to

HATTON & WOOD, Solicitors for Executor A. Hall Estate.

Dated at Peterborough, this 5th day of May, 1891. 1004106-7w19

SORRY, TOO LATE.

I had several properties which I have been pressing upon the public during the past two or three months, at what I called low prices. A great many buyers examined them, and a few thought they would buy after a time, but while they were considering, with their money in the bank at four per cent., that very quiet and shrewd capitalist from Norwood, P. W. Reynolds, Esq., came along and bought the whole, and now those who were going to buy are sorry for losing such bargains. Mr. Reynolds is now the owner of FOURTEEN houses in town, all tenanted, and paying from seven to twelve per cent. interest on his investments. He has also a number of vacant lots, which he could readily resell at a big profit. Nine months ago I sold him his first purchase.

I have a few acres of land, for sub-division, near the Edison Works, which any intelligent man can make big money out of. Call for particulars.

I am the home-seeker's true friend. If you want a home come to me and I will guide you right.

VOL. XII. NO. 114. PETERBOROUGH, FRIDAY, MAY 15, 1891. PRICE TWO CENTS.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable cases attendant upon a credit business, which accrue from mount of time spent in keeping accounts, ollecting, bad debts, interest account, and numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on these terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics'. Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

ALL READY FOR WAR.

RUSSIA PILING UP GOLD AT ST. PETERSBURG.

Concentrating Her Troops on the Frontier and Building Strategetic Railways—The Continent, it is Believed, Will Soon Echo With the Noise of the Battle

BERLIN, May 14.—Bismarck once said that the first battles of the next European war would be fought out on the Bourses. The events of the past fortnight and the menaces of the next few weeks to come suggest the possibility that this great conflict may be already upon us.

No less than eight Russian loans have been advertised in England during the past two years, and after the floating in January of a loan of £15,000,000, which was the last of four conversion loans, amounting in all to £106,000,000, brought out by the Rothschilds during that time, Russia had the means of withdrawing fully £20,000,000 from the markets of the world.

Last summer about £5,000,000 were on deposit with the Messrs. Baring, and the withdrawal of half this sum was one of the causes of that firm's downfall.

Money at Disposal.

A telegram from St. Petersburg last evening gave a semi-official statement of the outstanding Russian credits on May 8 as over forty millions, of which twenty-three millions were ear-marked for the purpose of redemption as loans, 1859, 1860, and services of public debt loans, while of the balance eleven millions are entirely unappropriated and at the Government's disposal.

Piling Up Gold at St Petersburg.

During the last 10 weeks Russia has withdrawn £7,000,000, of which about one fifth ately came out of the Bank of England; five from New York, and one was either from Amsterdam or was brought in London as it arrived from other parts of the world.

Five millions have already arrived in St. Petersburg, and they showed in the last return of the Imperial Bank, and the remaining £2,000,000 have since arrived or are on the way thither. In detail, this large amount was withdrawn principally from Amsterdam and Berlin, the latter place being reimbursed by purchases of gold bars in the London market and by shipments from New York made to some extent against sales of American railway shares.

Rumors as to Russia's Intentions

At the beginning of the present week the Russian deposits had been reduced to £2,500,000 at the Bank of England and £12,000,000 at the Rothschilds, plus about £4,500,000 in Berlin, Paris and Amsterdam—in all £16,000,000.

Another loan of £20,000,000, partly for conversion purposes, had also been arranged for and still another was talked of. Minister rumors began floating about as to Russia's intentions, and upon the heels of these came the news that the Paris Rothschilds had withdrawn from the syndicate and refused to go on with the loan, although the contract had already been signed by them.

The ostensible reason credited to the nervous state of the Paris Bourse indicated that the present was an inopportune time. This, of course imposed upon no one.

Divided Between Two Ideas

Europe is divided between two explanations. One is that the Rothschilds withdrew as a protest against the new and savage outbreak of Jewish persecution in Russia, so that they got an inkling of a Russian intention to precipitate a war within the next few months. I do not pretend to choose between the two.

I am informed that the Rothschilds have already been drawn upon for three millions, and have in turn ordered gold shipments from New York during the week and as far ahead as Wednesday next.

It is this which induced the Bank of England to advance the discount rate and raise its buying price of gold coin a half penny an ounce.

The United States Must Pay Out the Gold.

The notion is that Russia having failed to float the loan has resolved to draw in all her available balances regardless of the consequences. This will be bad for Europe, but the United States have an even greater financial concern.

England and America are the only free markets for gold, and as England is not in a position to ship any more the brunt of the Russian demand must fall on America and gold be exported without regard to whether it pays as an exchange operation or not.

As has been said opinions differ as to the sudden passion of the Russian Imperial Bank for piling up metal in its vaults. There is one theory that Vesbnegradsky has been frightened by the Baring panic, and prefers gold safely at home where it can be used to put the rouble on a metallic basis.

Hastily Preparing for War

A more intelligible idea is that Russia is hastily preparing for war. She has completed a heavy concentration of troops along the western frontier; she has finished a number of small strategic railways, and has built a lot of modern grain elevators.

True, her distribution of the new magazine rifles is not perfected, but the old guns will serve to arm the reserves of peasants too ignorant to be instructed with the new and complicated weapons. At all events, the next few weeks will be the most anxious time Europe has seen since the great war scare of 1887.

Italy Sees Universal Peace.

ROME, May 14.—The Marquis di Rudini in the Chamber of Deputies to-day discussing the New Orleans affair, said it was simply a legal question. The departure of Baron Fava from Washington had been ordered as a protest against the action of the United States in rejecting responsibility for the affair. European sympathy, the Premier added, was with Italy, and he hoped for a friendly solution of the question involved.

In regard to the triple alliance the Marquis said Italy would maintain that agreement between the powers as a guarantee of universal peace.

Was Not Drunk.

HAMILTON, May 14.—Before the police commissioners this morning Big Jim Mackenzie, the well-known detective, was charged with getting a jag on, so to speak, during the forenoon on April 2, and that while in that state he visited the house of J. E. Berryman and insulted the Queen, Sir John A. Macdonald, Berryman and his wife. It was brought out by the evidence of Chief McKinnon, Dr. Wallace and others that the offender was dazed with quinine and much liquor, and the case was allowed to drop.

BRITISH AND FOREIGN.

MYSTERIOUS MURDER OF A WIFE IN NORTH WALES.

The Pope in His Labor Encyclical Says the Solution of All Troubles Is To Be Found In the Gospel—Further Rioting At Woo Hoo.

ROME, May 14.—The Latin text of the Pope's encyclical on the labor question refutes the Socialist theories, intending to abolish private property and upholds the principles of the church as the first and main element in the solution of social questions. The true solution, the Pope says, can be found in the Gospel and if rightly studied would teach employers and the employed to become united while fulfilling their respective duties. The Church has always sought to promote the application of the principles stated in the Gospel and to give moral and material help as inculcated by Christ's doctrines. The state should intervene to regulate disputes in regard to private property in order to ensure the public peace and the moral and material welfare of the working people. His Holiness comments on the necessity of Sunday rest and deals at length with the questions of strikes, wages and hours of labor for workmen, women and children. The Pope dilates on the subject of workingmen's associations, including mutual aid and insurances societies, sick funds, classes for technical education, and mixed syndicates of employers and employees. The state he holds ought to intervene in all such institutions as are calculated to improve the existing social conditions. The Pope praises the work those institutions have already achieved and calls upon all Catholics to assist in the reformation urging that all should be animated with a Christian spirit.

A BRIDE LURED TO DEATH.

A Washington Man Batters Out His Wife's Brains with a Stone

CHESTER, Eng., May 14.—R. C. Duncan of Washington, U.S., arrived three weeks ago at the Boar View Hotel at Bettwsycoed accompanied by a young foreign lady, whom he introduced as his wife. Duncan was already known at the hotel where he stayed last summer with two other Americans. He was then unmarried. Tuesday Duncan and his wife left the hotel ostensibly with the purpose of going to Llyn-y-cil, but having left their luggage at the railway station they returned to the hotel.

They started at midday apparently on friendly terms to take a walk. At 6 o'clock in the evening a farmer passing through a plantation in a secluded spot in the fertile valley under the Snowdon saw Duncan leaning over a woman who was lying on the ground. Duncan stated that the woman was his wife who had fallen and hit her head on a rock. The woman who was in a serious state was removed to a farm house. The doctors who heard Duncan's story were unable to reconcile the nature of the woman's injury with his story. Her skull was fractured over the right ear obviously from a blow.

The operation of trepanning was performed. Duncan, who was arrested, confessed on being informed that his wife was still alive that he had battered her head, and the police gave chase and overtook him with blood and hair near the spot where the woman had been. Duncan on being taken before a magistrate made no explanation of the affair and was remanded. Duncan is 27 years old, is short, slight and fair-haired and wears spectacles. He is a noted linguist. He has been in Washington occupy a good social position. It is said that he met his wife in Stockholm and her father is a cigar manufacturer at Ybs, in England. Mrs. Duncan is still unconscious and there is only the smallest hopes of her recovery. Duncan's motive for the crime has not been explained.

Escapes Disguised as a Chinese

SHANGHAI, May 14.—Further particulars from Woo Hoo show that Chinese who burned the Catholic mission and other European buildings also burned and looted the Custom House and the British consul. The wife of the British Consul disguised as a Chinese woman escaped from the residence to the bank of the Yangtsekiang, where she took refuge on the hulks moored in the stream. The British Consul was wounded while on his way from the consulate to the hulks. The Europeans of Woo Hoo are anxiously waiting the arrival of Her Majesty's ship Leander.

More Murders at Corfu.

LONDON, May 14.—Dispatches received here say two more Jews have been murdered at Corfu and the bodies of several Jews who died from starvation are unburied. Troops continue to keep a cordon about the Hebrew quarter.

An attack was made upon the Ghetto quarter of Corfu yesterday. The Jews houses were burned, and nine persons were killed and many injured. A state of siege has been declared.

Desertion of Prominent Supporters from the Parnell Wing of the Irish Party.

DUBLIN, May 14.—The two Harringtons, Timothy and Edward, have decided to give in their adhesion to the Nationalist party. The two brothers have been the most formidable of Parnell's friends, because they controlled the machinery of the old National League.

E. Dwyer Gray, formerly M.P. for Dublin and holder of half of the stock of The Freeman's Journal, has seceded from the Parnellite party.

Redmond's Salary Stopped.

DUBLIN, May 14.—The electors of North Wexford have resolved to stop payment of the salary of John E. Redmond, their member, and to devote the money thus saved to the relief of evicted tenants.

Chat From Over the Sea

In Russian Poland cholera has decimated the population of many villages.

Eighty-four members of the House of Commons are suffering from influenza.

There was renewed rioting at Brussels last evening and the police charged the crowd with drawn swords.

The steamer City of Paris, Capt. Watkins, sailed from Liverpool for New York yesterday. She touched at Queenstown and proceeded for her destination.

A collision occurred during a dense fog yesterday between the British steamer Montana and the German steamer Frederick Krupp off Quesant Island. The Montana was sunk. No lives were lost.

DOMINION PARLIAMENT.

THE ALIEN LABOR BILL WITHDRAWN YESTERDAY.

Proposed Analysis of All the Liquors on Sale in Canada—Ministers Under Fire—The House Adjourns After a Two Hours' Session—Capital Chat.

OTTAWA, May 14.—Another two-hour session to-day sufficed to get through the business on the order paper which was ready to go on with, and the House adjourned at 5 o'clock.

The most noticeable feature of the proceedings was the application of Mr. McMullen a return showing the amount deposited in each postoffice and Dominion Savings Bank in the Dominion on May 1. Mr. Haggart replied that this return would employ the entire staff of the savings bank branch for eight or nine months and cost six or seven thousand dollars. There were over 400,000 depositors in the Postoffice Savings Bank alone, and every account would have to be examined. They were not kept by cities or postoffices, but each was a separate account and it would involve rearranging the entire system to give the information in the way it was asked for. Of course the total amount could be given that was published in The Canada Gazette, but it would take a very long time to find out what was the balance at each place.

Messrs. Flint and Lavergne both introduced bills to amend the Canada Temperance Act. The amendments are on the line of enlarging the powers of justices of the peace to act as magistrates and regulating the sale of spirits in counties where the act has been adopted.

Ministers Under Fire.

Mr. Costigan stated in answer to Mr. Gauthier that the Government had no intention of abolishing the fees for inspecting weights and measures, as a large portion of that expense was already borne by the Government.

Mr. Hyman wanted to know whether new saddlery would be issued to the 1st Regiment of Cavalry in lieu of that condemned by the board of officers. Sir Adolphe Caron in reply said that a contract for saddlery had been entered into and when the contract was filled it would be decided whether a new issue would be made to the 1st Regiment of Cavalry.

Trent Valley Canal.

For Mr. Barron Mr. Burdett asked whether the Trent Valley Canal Commission had reported in favor of the completion of the scheme; if so, does the Government intend to ask Parliament this session for a grant for that scheme?

In the absence of the First Minister Sir Hector Langevin replied: "The commission has reported. I am not in a position to state the contents of the report, which will speak for itself. With regard to the second question the Government has come to no decision."

Mr. Burdett was not satisfied with this reply. He told Sir Hector no answer had been given whether the report was favorable, and Sir Hector's reply was: "I have given the reply of the Government."

Mr. Davies protested that his was a simple question. The Government surely could not refuse to answer the questions of members.

The Speaker interfered to say that any discussion was out of order, and the member for Queen's replied that he would move the adjournment of the House but he would have an answer from the Hon. Minister.

Sir Richard Cartwright acting as leader of the Opposition, moved the adjournment, and after this motion was put to the House Mr. Davies resumed his protest against the discourtesy of the Government. He said he understood that the contract with the line of steamers which last year performed the service had expired at the close of the year and another line was this year doing the work. He wanted to know if this service was going on the same terms as last service. He did not want voluminous papers and by a notice of motion to have to wait weeks for them. The information he asked for was simple and easily obtainable by the minister. It was information which the public had a right to expect, and the hon. minister was not treating the House right in obstructing the obtaining of it. (Opposition applause.)

Mr. Foster assure the member for Queen's and the House that he had had no intention to be disrespectful nor to keep back information. If the question were addressed to a motion which the hon. member had on the paper for documents of a similar character he would promise to have the information asked for before the House before 24 hours. A considerable amount of work was entailed by them, and that had been the reason for his suggestion that the questions stand as a motion. The explanation of the Minister of Finance was accepted and the motion to adjourn was withdrawn. Subsequently, when Mr. Davies' motion was reached, it was adopted with the questions added.

Before the Foster episode was dropped, however, Mr. Burdett again called the attention of the House to the Government's refusal to answer his question. The excuse of the Minister of Finance, he declared, would not lie in the mouth of the hon. Minister of Public Works. It was well known to the country that the Trent Valley Canal had been dangled before the counties interested for half a century, and that it was always resurrected before an election. The simple question of the member for North Victoria was whether the report of the commission was favorable or not. If the Minister of Public Works knew, why did he not answer, and if he did not know why he did not say so? It might be said, Mr. Pickett preceded, that he could read the report for himself. That was not the point. What the country wanted to know was whether the Government considered it favorable or not.

Sir Hector explained that in the absence of the Minister of Railways and Canals he had made the reply he did to him to make.

Alien Labor

Mr. Taylor, in rising to move the second reading of the bill to prohibit the importation and migration of foreigners and aliens under contract or agreement to perform labor in Canada, said that he understood that there had been some correspondence between the Dominion and United States governments on the question of alien labor, and if the question was one of them to be discussed at the conference next October at Washington he thought it would be better to withdraw the bill.

Sir John Thompson said that there had been some correspondence. He thought it would be unwise to proceed with the bill at present, as practically all questions in dispute between the United States and Canada might be discussed in October. Of course he was not in a position to say whether this was one of the questions to be discussed in Washington, but it would be advisable not to proceed with the act at present. The bill was then withdrawn.

Analyzing Our Gro

A number of returns for papers were passed, amongst them one, on motion of Curran, for all petitions addressed to the Government praying for the analysis of intoxicating liquor manufactured or offered for sale in the Dominion.

Mr. Curran spoke of the injurious effects arising from the adulteration of liquor, which had caused great increase in delirium tremens and other diseases which were almost unknown in Canada some years ago when pure liquor was sold. He believed the inspection at the distilleries was very good, but the trouble was with the retailers.

Mr. Costigan said there was no objection to the motion. There was already provision in the Adulteration of Foods Act for analyzing liquors, and the officers of the Inland Revenue department had made a number of analyses.

The Senate.

The death of Senator Leonard at London at the advanced age of 77 removes another of the Confederation members from that chamber and another of the few remaining Liberals. There now remain in the Senate 73 members appointed at Confederation, of whom four are Liberals. The Senate as it now stands contains only 17 Liberals all told.

Notes.

Sir John Macdonald was at the council today, but did not come to the House.

The first parliamentary dinner of the session was held at Rideau Hall to-night.

All the standing committees will meet to-morrow morning for organization and election of chairmen. Mr. Girouard has been chairman of Privileges and Elections several years and will be re-elected if he will take it, but I am told to-night he may decline.

Montreal & Ottawa Railway.

OTTAWA, May 14.—Judge Foster of Montreal, who is here, says that he and Mr. Charlebois, the contractor for the Montreal & Ottawa Railway, while in England recently completed the financial arrangements for completion of the road, that the steel rails have been purchased and construction will be pushed.

Chinese Lepers.

OTTAWA, May 14.—Owing to the presence of leprosy amongst the Chinese in British Columbia, the Government will send Dr. Smith of the Tracadie Lazaretto to make an examination with a view to their segregation. The corporation of Victoria has purchased Darcy Island, some distance from the city, for the purpose of placing an establishment there if necessary.

The Purity of Girls.

OTTAWA, May 14.—Amongst the petitions presented to-day was one from Cardinal Taschereau asking that in the codification of the criminal law the age of consent be raised.

Struck With a Snowball.

OTTAWA, May 14.—Le Canada states to-night that K. F. Burns, member for Gloucester, N.B., has gone home mad because snowball was called to the Senate and will not return this session.

TORONTO TOPICS.

The troubles between Frederick D. Smith and his wife have reached the Police Court. Mr. Smith took out a warrant against his eighteen-year-old son Herbert W. D. Smith on a charge of abduction, and he was arrested last night. It is charged that Herbert forcibly conveyed his youngest brother Charles to his mother's residence in Egliuton.

The following gentlemen have passed the recent examinations for certificate of fitness and call. The examinations were held on Tuesday and Wednesday of this week.

For certificate:

1 T. M. Higgins, 2 W. J. Fleury, 3 E. F. Blake, 4 T. A. Gibson, 5 H. W. Rowell and W. H. Murray, 7 H. C. Boultbee and R. McKay, 9 J. A. Taylor, 10 H. Armstrong and G. Waldron, 12 F. Pardee and E. G. Fitzgerald, 14 D. Fenton, 15 A. Bridgeman, 16 N. Mackenzie, 17 A. Crow, 18 S. King, W. F. Hull and J. E. Jones, 21 W. H. Garvey, 23 R. B. Henderson, 25 G. Wilkie, 24 W. C. Smith, 25 P. A. Malcolmson, 26 D. Mackenzie, 27 F. W. Scandrett, 28 J. A. McMullen, 29 J. F. Orde without an oral, and H. Langford, E. L. Middleton, R. A. Montgomery, W. F. Muir and J. B. Fisher with an oral.

For call:

1 T. M. Higgins, 2 R. McKay, 3 W. J. Fleury, 4 W. H. Murray, 5 J. F. Orde and George Wilkie, 7 J. A. Ferguson, 8 H. C. Boultbee, 9 S. King, 10 J. E. Jones, 11 H. Chatelain, 12 R. B. Henderson, 13 N. Mackenzie and F. A. Gibson, 15 Alexander McKay, 16 J. A. Taylor, 17 F. F. Blake, 18 E. G. Fitzgerald without an oral, and F. Pardee, H. Langford, F. S. Mearns, W. C. Smith, R. A. Montgomery, D. Fenton, G. Waldron, J. A. McMullen, H. Macdonell, D. Mackenzie, F. A. Malcolmson, W. H. Garvey, M. Wilkins, P. H. Haiffa and H. Furley.

JACK THE RIPPER.

The Son of Ali, Alias Frenchy, Found Guilty of Murder.

NEW YORK, May 14.—The jury in the Carry Brown inquest rendered a verdict that the woman came to her death by strangulation at the hands of Ameer Ben Ali, alias "Frenchy Number 1."

Police Captain Richard O'Connor of the Oak-street station testified that he found drops of blood in the hallway leading from room 31, where the woman was murdered, to room 33, where "Frenchy Number 1" slept that night; also blood on the panel of the door of the room 33, also on the handle of the door. On the inside of the door there was a small spot of blood. He also referred to the other blood spots found on the bed and in room 33. He then identified the shirt that "Frenchy Number 1" had on when arrested. The blood marks on the shirt had been carefully cutout by the district attorney.

Dr. Cyrus Edson exhibited several envelopes containing pieces of skin, dirt from beneath "Frenchy's" nails and nail paper from the East River Hotel stained with blood.

The Essex Coiners Sentenced to Long Terms in the Penitentiary

WINDSOR, May 14.—The counterfeiters were sentenced this morning. John Stinson, the old man, will serve 10 years in Kingston Penitentiary and William and James, his sons, three years each. Stoddard, charged with making instruments for the counterfeiters, was released. Stoddard gave a bond for a thousand dollars to appear when called upon. The Dooley woman was also found guilty and will stop at the jail for two weeks. John Stinson when sentenced called the detectives all the vile names he could muster, but was quickly removed from the court.

Badgered to Death.

CLEVELAND, May 14.—Michael Shanley, an aged farmer near Wooster, who was robbed of a large sum of money last August, was found dead with a bullet through his head yesterday. The preliminary trial of Henry and Daniel Binkley and Harry Webb, neighbors, charged with the robbery, was started Tuesday. The old man was on and all day, being subjected to a rigid examination. This it is supposed shattered his nerves and drove him to suicide. His wife was killed at the time of the robbery, and persons were arrested through changing a stolen $1000 bill at a Canadian bank.

Had His Eye Shot Out.

LINDSAY, May 14.—Alexander Ross was practising with an air gun with a number of other lads and received a shot in the eye, which totally destroyed the sight.

Waterworks for Essex Centre.

ESSEX CENTRE, May 14.—A vote for the construction of the Hobby system of waterworks was carried [illegible]

Convicted of Murder.

WINNIPEG, May 12.—At the Criminal Court, which opened at Battleford yesterday Fletcher, a Montanacowboy, was tried and found guilty of the murder of a half-breed named Dakotat, last February.

Another Big Blaze at Gravenhurst.

GRAVENHURST, May 14.—About 9.30 to-night the following buildings were burned: Brock's dwelling house and a large barn in which the fire originated; Albion Hotel, barns and sheds with a number of outbuildings; J. T. Harvie's stables and office; Dr. Cornell's vacant store.

The buildings were all wooden situated in the centre of the town.

Killed His Mother With a Hoe.

BENTON, Ark., May 14.—Tom Page, aged 12, struck his mother on the head with a hoe here to-day, killing her instantly. Mrs. Page was attempting to chastise the boy.

The Spring Medicine.

The popularity which Hood's Sarsaparilla has gained as a spring medicine is wonderful. It possesses just those elements of healthgiving, blood-purifying and appetite-restoring which everybody seems to need at this season. Do not continue in a dull, tired, unsatisfactory condition when you may be so much benefitted by Hood's Sarsaparilla. It purifies the blood and makes the weak strong.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,739,355 92
Increase over previous year	3 421,372 84
New Applications received in 1890	6,371 599 15
Increase over 1889	2 268 888 60
Cash income for year ending 31st December, 1890	889,678 87
Increase over 1889	325 928 35
Assets at 31st December, 1890	2,473 514 19
Increase over 1889	687,691 47
Reserve for Security for Policy-Holders	2,109 222 68
Increase over 1889	567 732 71
Surplus over all Liabilities and Capital Stock	232.175.69
Increase over 1889	75.649.05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$64 824 07
" " " " 1886, "	89 452 97
" " " " 1890, (four years)	232,175 69

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, Tonic and RESTORATIVE, as they supply in a condensed form the substances actually needed to enrich the Blood, curing all diseases coming from Poor and Watery Blood, or from VITIATED HUMORS in the BLOOD, and also Invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail disease when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing

The Daily Examiner is delivered to any part of the Town for 10c a week. 35c. a month, $2.00 for six months.

Daily Examiner.

FRIDAY, MAY 15, 1891.

THE latest great investment of English syndicate capital in Canada is the purchase by the Anglo-Columbian Canning Company of seven of the salmon canneries on the Fraser river and two on the Skeena, in British Columbia. The aggregate price paid was $375,000, and the company will have a capital of $1,000,000. All the canners, except two firms which sold outright, retain one third interest, and will continue to manage their respective canneries.

THE Government railways in the Maritime Provinces have a mileage of 1,217 miles, that of the Intercolonial being 594. The net result of the operations for the year ending June 30 last was that the running expenses exceeded the receipts by $642,000, the loss on the Intercolonial being $553,000. The capital account of the Intercolonial now amounts to $46,900,000—it has cost the country that sum apart from the working deficits. At three per cent. we are paying $1,400 000 for that sum, so that, all told, the loss sustained on account of the road is about $2,000,000 a year.

THE committee on Privileges and Elections, to which the Langevin-McGreevy charges have been referred, will probably meet to-day for organization. Mr. Girouard has filled the position of chairman for some years and it is likely that he will be re-elected. The committee is composed of twenty-four Ministerialists and eighteen Opposition men, including the leading lawyers on both sides. Mr. Barron, M.P., North Victoria, is a member of the committee, and if the Opposition members of it are up to his standard, Sir Hector and McGreevy will be well watched.

SIR CHARLES TUPPER is by no means a cheap luxury. In spite of the fact that he spent several months in Canada this year, managing the corruption fund of the Tory party in the general elections and shamefully interfering with and bulldozing the electors in their choice of representatives, it seems that his trifling salary went gayly on. On Wednesday in the House of Commons Mr. Foster said in answer to a question that Sir Charles Tupper had received from the people of Canada for the fiscal year ended June 30, 1890, sums amounting to $25,970. He had held the office of High Commissioner continually from the time of his last appointment, shortly after his resignation of the Finance Ministership. In regard to whether the salary was paid the High Commissioner while was engaged in the recent campaign and as to whether the Government had directed him to canvass Essex with Mr. Sol White, M.P., an avowed Annexationist, Mr. Foster said that while these questions partly asked for information, they contained allegations in fact, and he would therefore not answer them. In spite of Mr. Foster's refusal to answer the latter questions the people will have a very shrewd idea of their own on the subject.

THE Dominion Government sees its way clear to building a little one-horse canal in Soulanges county, Quebec. In the House of Commons on Wednesday, the Minister of Public Works in reply to a question stated that an order in canal had been made authorizing the construction of a canal on the north side of the St. Lawrence river, in the county of Soulanges, Quebec. There had been already expended for surveys and other work in connection with the undertaking $28,151 90. The probable cost of the canal was $4,800,000. It was the intention of the Government, the minister said, to proceed with the work of construction at an early date. A simple order in council without consulting parliament is sufficient to begin the construction of a canal to cost nearly five million, about the cost of the Trent Valley Canal. Yet we have the Government requiring to be prodded up with deputations year after year only to be told that a sum may be placed in the estimates for a little more work on the Trent Valley Canal, "if Parliament can be persuaded to consent to it." We shall see what answer will be made to Mr. Barron's interpellation on the Trent Valley Canal to-day.

LORD SALISBURY has decided against an early dissolution of Parliament. The Liberals, however, sanguine of success at the polls, will in view of the Irish muddle, hardly quarrel at this. In some respects the English people are well satisfied with Lord Salisbury's administration. He is, the Montreal *Witness* thinks, the most successful Foreign Secretary they have had for a long time. Although in the Newfoundland matter we have had occasion to differ with them, his Government has, in the Behring Sea matter, in the case of Egypt, in regard to South Africa and East Africa, in regard to Burmah, and to India, in regard to the Triple Alliance and Continental affairs, has proved at once firm in upholding the rights of the Empire and conciliatory towards foreign powers. Lord Salisbury is not only an able foreign minister, but he has, as a Tory premier opposed by a reasonable leader of the Opposition, whom he has, according to English custom, consulted in regard to the main trend of his foreign policy, had a much freer hand than a Liberal foreign minister opposed by a large section of his own Cabinet and party, would have had. Until the Parnell fight and a good many foreign questions have been settled, moderate Liberals will not feel that the time is altogether wasted while the Tory Government remains in power.

Children Cry for Pitcher's Castoria.

Note Circulation of Canada.

The paper money in circulation in Canada, says *Money and Trade*, continues to increase. During March the banks increased their note circulation by $1,100,000, while the Government circulation shows a small decrease. The present circulation is larger than at any corresponding date, and the comparison with that of March 31st last year is as follows:

	March 31, 1891.	March 31, 1890
Dominion Notes	$16,158,485	$15,223,790
Less amount held by banks	10,546,380	9,741,408
In circulation	$ 5 610,105	$ 5,487,378
Bank notes	33,020,661	31,704,281
Total circulation	$38,630,766	$37,191,659

Will History Repeat Itself.

It was rumored around the House of Commons Wednesday afternoon says the Ottawa *Free Press* that His Excellency the Governor-General had asked for specific explanations from Sir Hector Langevin and the government in regard to the charges preferred against the minister of public works by Mr. Tarte on Monday. If His Excellency has adopted such a course he is simply following the example of Lord Dufferin, who, when the Pacific Scandal charges were first broached, asked for explanations, and received from his ministers assurances which subsequently turned out to be false and worthless. In a communication to the Colonial Secretary written after the charges made by Mr. Huntington had been clearly established, Lord Dufferin complained that he had been grossly deceived and misled by the assurances of innocence given him by his ministers. For the credit of Canada it is to be hoped that Lord Stanley of Preston is not to suffer an experience similar to that to which Lord Dufferin was compelled to submit. Are Sir Hector Langevin's assurances of innocence any more reliable now, when he is charged with conniving at frauds and speculations, by which he is said to have profited, than were similar assurances given when he was charged with receiving $32 000 of the Pacific Scandal fund?

Free to Ladies.

Every lady reader of this paper sending at once her address on a postal card will receive a free copy of the *Ladies'* (Pictorial) *Newspaper*, containing full particulars of their old-fashioned English prize competition. Over $6,000.00 in prizes will be given away between now and June 1st, with special daily prizes of value for each locality. The *Ladies' Newspaper* is one of the largest and most profusely illustrated publications in Canada, and the competition offered by them is to be conducted in a strictly honourable manner, without partiality to persons or locality. Anyone can secure a good prize by a little work. No cheap presents will be given. It costs you nothing for full information and a sample copy, if you send at once. Address: The *Ladies Newspaper Co.*, Canada Life Building, Toronto, Ontario. d73-w14

A Spring Medicine.

There are few who do not at this season feel the need of a spring medicine, and to all such we recommend Lane's Family Medicine as the best. This is a pleasant herb drink made by pouring boiling water on the dried roots and herbs. Druggists sell the packages at 50c. and $1. It is the best as well as the pleasantest cure for constipation and headache. dw

A True Bill.

Wm. Gillespie, Wolfe Island, Ont., says: I had indigestion and stomach cough for three years. Was treated by best physicians and used numerous patent medicines without success, when two bottles of Miller's Emulsion of Cod Liver Oil cured me. I have great pleasure in recommending it. For sale by all druggists. dw

Overworked, broken down, prematurely aged men or those suffering from excesses or indescretions will find a certain cure in Dr. Williams' Pink Pills. They supply the material necessary to enrich the blood, build up the nerves and restore the shattered system. Never fail. Sold by all dealers, or sent on receipt of price—50c. per box, or five boxes for $2—by addressing The Dr. Williams Med. Co., Brockville, Ont. 6d110w

Once Used Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 6d92

Worthy of Confidence.

Those who have used it praise it! Mrs. George Ward writes from Josephine, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2w203

From the Pacific Coast.

We quote from a letter recently received from Miss Eleanor Pope, Port Haney, B.C.: "For sore throat, coughs, croup, bruises, &c., Hagyard's Yellow Oil is the best thing I have ever used." 2w203

The Royal Rheumatic Remedy, taken internally, strikes directly at the foundation of the disease. At once relieves pain by removing the cause of disease. The cause removed, a cure is effected. For sale by W. R. Greatrex, druggist, Peterborough. dw

Everybody Admires Soft White Hands.

And every lady ought to use Dyer's Jelly of Cucumber and Roses, as it makes the skin soft and smooth. Druggists keep it. W.A. Dyer & Co., Montreal. 6d92

Sufferers

FROM Stomach and Liver derangements—Dyspepsia, Biliousness, Sick-Headache, and Constipation—find a safe and certain relief in **Ayer's Pills.** In all cases where a cathartic is needed, these Pills are recommended by leading physicians.

Dr. T. E. Hastings, of Baltimore, says: "Ayer's Pills are the best cathartic and aperient within the reach of my profession."

Dr. John W. Brown, of Oceana, W. Va., writes: "I have prescribed Ayer's Pills in my practice, and find them excellent. I urge their general use in families."

"For a number of years I was afflicted with biliousness which almost destroyed my health. I tried various remedies, but nothing afforded me any relief until I began to take Ayer's Pills."—G. S. Wanderlich, Scranton, Pa.

"I have used Ayer's Pills for the past thirty years, and am satisfied I should not be alive to-day if it had not been for them. They cured me of dyspepsia when all other remedies failed, and their occasional use has kept me in a healthy condition ever since."—T. P. Brown, Chester, Pa.

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills, and deem it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years past I have taken one of these Pills every night before retiring. I would not willingly be without them."—G. W. Bowman, 26 East Main st., Carlisle, Pa.

"Ayer's Pills have been used in my family upwards of twenty years, and have completely verified all that is claimed for them. In attacks of piles, from which I suffered many years, they afforded me greater relief than any medicine I ever tried."—Thomas F. Adams, Holly Springs, Texas.

HOW TO BREED HORSES.

WITH REMARKS UPON THEIR PROPER TRAINING BY AN EXPERT.

The Care of Brood Mares, Colts Best Thrive When Left to Get Up Themselves—The Best Food for the Mother and Her Young.

Having been asked by a breeder if I would breed and train a two year old filly as I have recommended doing with a three year old, it will be necessary for me to go back to that point. I advocate working the yearlings moderately during the summer and driving them during the winter, and in the spring, when two years old, breeding all the fillies. I am aware that many breeders do not advocate breeding fillies of this age, but it is practiced by me and I think well of the results. I believe they develop faster, and so far as size is concerned, the two year olds of to day are as large as three year olds were a few years ago. Arriving at the question asked by the breeder, I would say that what would apply to a three year old is certainly true of a two year old. I would recommend breeding and training them; also trotting them races and obtaining as low a record as the length of the season would permit. Keep driving the mare until she foals. That don't mean until you think she will foal. Drive her every forenoon, and should she have a colt in the afternoon, all the better. My experience, although limited, with young foals, may be of some benefit to the young breeder and perhaps be the means of saving some valuable colt. The mare should be kept in a large, light, warm, airy box stall and should be carefully watched day and night. At foaling time would advise keeping out of her stall unless you are needed, and should it become necessary to assist in any way I would advise those having no experience in this line to employ a competent veterinarian. After the colt is foaled, don't think he must be on his feet in a few minutes and receive nourishment or starved to death. Many young breeders are too anxious to see the colt up, and in assisting him too soon in so doing are only injuring the youngster. Let him help himself and if he is on his feet within two hours it is soon enough. After he is up let him learn to receive nutriment himself if possible, but should he not be able to do this within an hour or so it will then be well to assist him. Many young mares are very nervous and uneasy and will not stand still, and again their bags become feverish and sore and it often becomes necessary to tie them up and many times hold up a forward foot while the colt is sucking to prevent the mare from kicking or otherwise injuring him. When the colt is six or eight hours old inject with a large syringe a pint of warm soap suds into his rectum, and should he not have a passage within half an hour repeat the operation and continue so to do until the danger from this cause is past. Thousands of colts die every season from this cause alone, and the only safe thing to do is to give this injection about as soon as the colt is on his feet, in fact I have often done so before he stood up. It cannot injure them, and it saves many a future record breaker. They should be watched very closely for three or four days, and should any symptoms of the kind appear keep using the warm water and soap until all danger from this cause is past. If this mare is to be kept for breeding purposes in the future I should continue to work her, but if to raise but this one colt it no doubt would be as well to turn her in the pasture until the colt was weaned. If to be kept as a brood mare I would recommend after the colt is three or four days old to commence driving her again. Of course, the only advantage in driving her, and that may be imaginary on my part, would be the effect on her future foals.

By this time the reader can readily see that I believe in keeping brood mares in trotting condition as much as possible, hoping by so doing to keep the trotting instinct alive at all times, believing that where such is the case the foals must surely inherit more of that quality. Would drive the mare but three or four miles per day to start with, always leaving the colt in the barn. Great care should be taken not to heat her up, as the effect on the foal, yet so young, might be detrimental. After coming in from the drive all the milk should be drawn from the bag and the colt kept away for say an hour, or until she is perfectly cool. The mare should be cooled out as would a trotter, being walked under blankets until you are sure she is in condition to have the colt turned with her. Of course it will not be necessary to put on bandages, etc., while only being driven moderately on the road. Would increase the distance driven from day to day until it had reached about ten miles. The mare should be tried again when colt is about nine or ten days old, at which time mares are more apt to get in foal than at any time thereafter. The mare should be fed very liberally on milk producing food, such as oats, bran, carrots, etc., and as grass comes, turn mare and colt out in some paddock by themselves nights, and take them up in the morning. After being fed the mare should be driven as early in the morning as possible, in order that she may get back and become cooled out before the warmer part of the day. Place a feed box where the colt can reach it, and three times per day feed him with oats, corn, bran, carrots, etc., he will eat, but be sure he eats all you give him within say half an hour. After being fed, if any feed should remain in the box after that time, remove it by all means. You will find it necessary to tie the mare up when you feed the colt, to prevent her from monopolizing the box and consuming the feed. Nice, fresh grass should be cut and given mare and colt at least three times per day, and they should also have all the bright, tame hay they will eat. The colt should be given cows' milk as soon as he will drink it, which will be very early in life, where a little patience is exercised in teaching him. About two quarts of water to one of milk will be about right to start with, to this should be added a small amount of sugar. Keep decreasing amount of water and increasing amount of milk until you are giving him the clear milk. You can gradually work him from new milk to milk that has been skimmed, when he should consume from 15 to 20 quarts per day. Were a colt kept in the barn, and fed as I recommend, he would soon become worthless, but with sufficient exercise, such as he will get running out all night, he cannot be made to eat too much. Proper food, with exercise, produce bone and muscle, and early maturity. A colt, when a year old, should weigh at least 700 pounds, and in conformation, be more like a horse than a colt; by that I mean he should look like a small horse. We will now go back to his dam, who has been jogged on the road for four or five weeks since having the colt, and who is again hard and strong. It will now be about the season of the year to commence track work, and she should again be worked. Imagine what the breeder will say: "If we are to work all the broodmares, all their colts, and also their sires for speed each year, how many colts do you think we can raise?" I am aware that it would make it necessary for some of us to cut down the number of mares bred each year considerably, but if by raising only half as many, we can produce much faster ones, and make more money by it, why is it not better? I am supposing that the system I am advocating will do what I believe it will, but what I am unable to prove; still my faith is strong in what I advocate, if the reader is not. Last summer I gave several mares records of 2.30 and better for the first time who had colts in the spring, and each one also carried another colt during the time they were worked. The results in every case were good; the colts did well, also the mares. All I think is necessary is to be very careful in cooling out the mare and not allow the colt to be turned with her until thoroughly cooled out. This will require some two or three hours in warm weather when mare is given track work, but it is not necessary to take her to the track oftener than once or twice a week. The balance of the time give her road work. This mare should be worked along carefully until fall when she should be able to reduce her three year old record of about 2.25 considerably. I would work this mare year after year as I have recommended, starting her two or three times each fall so long as she continued to reduce her record, which eventually should be, if she keeps sound, as fast as 2.16 or better. You would then have not only a very highbred brood mare, but one with as fast a record as any owned by the best farms of the country and each colt raised by this mare with a fast record will bring more than three by the same horse and out of a mare equally as well bred without a record. By this the young breeder will see that he will be paid well for all the trouble and expense necessary to have given her the record. In fact should this mare raise, say 10 colts by a first class horse, the 10 would sell for at least $25,000 more on account of being out of a mare with a fast record, than were they are out of some mare with no record. Should the mare's produce not trot faster on account of work received by her while carrying them, the breeder has been paid a very large profit for developing her, making, as I have said, her colt worth two or three times as much on account of the fast record of the dam. But, reader, do not decide for a certainty, until you have given the system a thorough trial, that the youngsters will not be much faster, also for having been carried by this mare while in training.

I will now go back to the colt, who, when two or three weeks old, should be halter broken, which in most cases there will be no difficulty in doing; but should the youngster prove to be stubborn, have some one go behind him with a long whip, and after reviving a few sharp cuts he will usually lead all right. The lesson should be given but each day until thoroughly broken. It will be well at this time to teach the colt not to fear you, and to teach him to allow you to take up his feet, in fact, handle him all over. Do this in a quiet way and he will soon become as quiet as an old horse. At this point I wish to warn the beginner not to make a pet of the colt, only handle him enough to make him quiet. To go further than this will make him stubborn and hard to handle ever after. It is much easier to break a two year old colt that has never had a hand on him than one that has been the family pet, and the former will always be best and safest broken and worth the most money. The colt should be weaned when about five months old, and if he has been fed grain and milk as liberally as I have recommended he will continue to grow as well, if not better, after being weaned as before. I do not think much of the idea of taking a week or ten days to wean a colt, letting him suck two or three times per day during this time. When you get ready to wean him, the quicker it can be done the better. Simply take him away and don't let him go back and in two or three days he will forget all about his dam. She could be milked occasionally, day and night, until thoroughly dried up.—C. W. Williams, in the Canadian Sportsman.

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2w201

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She resolved to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS. KENNEDY, Hamilton, Ont. 2w201

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2w201

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Ahead of Koch's Lymph.

Charles Campion, Kingston, Ont., says:—Gained 7 lbs. with one bottle of Miller's Emulsion of Cod Liver Oil. Cured bad Bronchial Cough with a few doses and made me feel like a new man. I strongly recommend it. All druggists keep it. dw

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

SOME SYMPTOMS OF WORMS are:—Fever, colic, variable appetite, restlessness, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

THE RED COLOR of the blood is caused by the Iron it contains. Supply the iron when looking by using Milburn's Beef, Iron and Wine. dw

"MANY MEN, MANY MINDS," but all men and all minds agree as to the merits of Burdock Pills, small and sugar coated. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—193 Yonge St., Toronto.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not confuse this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eod-w

FRIDAY, MAY 15, 1891.

A WORTHY OBJECT DEMANDS LIBERALITY.

A letter, which is printed in another column of to-day's issue written by Mr T. S. Cole, Travelling Secretary of the Young Men's Christian Association is one to which we very much regret to give space. Not on account of the merit of the cause whose interests call forth the letter but because the facts adduced place the Christian enterprise and Christian liberality of the town in a, by no means, desirable light. There should certainly be found in the town some citizen who is willing to start the ball rolling, by giving a subscription that will be both an example and an inspiration to others. The proposed new building of the Young Men's Christian Association is worthy of assistance on several grounds—for the great moral influence for good it exerts in the church, the community, the home, the workshop and the counting-room; for the young men it saves from the temptations which imperil the honesty of employees and the interests of employers, for the material beautification of the town which will result from a beautiful building, worthy of our beautiful chief business street, and dominating one of our handsome parks; for the good name of the town, whose half dozen fine churches stand as monuments of Christian liberality, and whose work will be aided in almost every case by the influence of the Young Men's Christian Association. There are certainly several citizens whom God has prospered in worldly matters, to whom a subscription of $1,000 would represent less sacrifice and pinching than the scores of $10 subscriptions which men and women of limited incomes will readily give. Let but one such name be given to start with and it will not long remain a solitary monument of generous giving. It would be, as the letter referred to says, "a reproach" if the progressive town of Peterborough should fail to supply the $7,000 needed to erect a $22,000 building for so deserving an institution as the Young Men's Christian Association.

Principal Grant's Lecture.

Remember the lecture to be delivered by Rev. Principal Grant, D.D., of Kingston, at St. Paul's church, on Monday evening, the 18th inst, at 8 p.m. Subject "National Unity." Two solos will be rendered by Master Arlidge, and special anthems by the choir. Tickets 25c. 5d112-1w

A New Trade Journal.

The EXAMINER has received the first number of a new class journal, *Money and Trade*, published at the intellectual, financial and commercial metropolis of Ontario, Toronto. It announces itself as a "business paper, pure and simple, discarding politics and party prejudices in the discussion of trade subjects."

Accident.

A machinist, named C. Clemence, employed in the Wm. Hamilton Works, nearly lost his right hand this morning. While slipping off a belt the hand was caught in the gearing and extricated with some difficulty. Dr. Clarke dressed the wounds and states, that although badly lacerated no bones were broken. Mr. Clemence had come here lately from Port Perry.

Cheap Croquets.

Rev. Principal Grant, D.D.

The *Canadian Churchman* says of Rev. Principal Grant, D.D., who is to preach at St. Paul's Anniversary services next Sabbath and to lecture in the same place on the following Monday evening. "President Grant of Queen's University is a man of whom Canada may well feel proud. He has a brain of the highest and strongest intellectual calibre but he also comes down into the popular arena as a participator in national and other questions with wise counsel and eloquent voice. No one can listen to him without both pleasure and benefit."

The Late James McIntyre.

The funeral of the late James McIntyre of Asburn, took place yesterday afternoon. A procession of True Blues numbering about seventy-five persons and a carriage containing prominent officers followed the remains to the cemetery, showing to what high respect deceased was held. At the meeting of the Asburn Mission Band last night the following resolution was adopted:—

TO OUR BROS. AND SISTER MCINTYRE:

DEAR BROS. AND SISTER,—Having heard of the sad and sudden death of your beloved father, we, the members of the Band of Hope of Asburn, hereby extend to you our heartfelt sympathy with you in your affliction, and an expression of regret at the lamentable loss you have sustained, and would say, put your trust in Him who doeth all things well, for in the midst of life we are in death.

MAGGIE PRATT, Secretary.

Peterborough, May 14th, 1891.

Ashburnham Epworth League.

On Thursday night, May 14th, the Epworth League in connection with the Mark street Methodist church, Ashburnham, held a very enjoyable public meeting. The President, Mr. W. A. Smith, occupied the chair. With him on the platform were Rev. Mr. Shorey, of Charlotte street church, and Rev. Mr. Wilson, pastor of the Mark street church. The principal part of the programme was an address by Rev. S. J. Shorey. He urged upon all, but especially upon the young, the duty of cultivating the spirit of thoughtfulness, and of becoming all that God has intended them to be. The speaker urged upon the young the formation of a habit of reading, and gave wise counsel as to the kind of books to read. The address was listened to with close attention, and the earnest words spoken will live in the hearts of those who were privileged to hear them. A number of musical selections—choruses, a duet, and solos—were rendered by members of the choir, and a recitation, "The Church and the World," was given by Miss Minnie Hamilton. Altogether the evening was spent very pleasantly, and it is to be hoped very profitably also. The meetings of the league will close next week for the season.

Going to Rochester.

An Auburn Young Man Remembered by His Friends Before Leaving the Country.

The Auburn Mission Band is losing one of its most active and valuable members in Mr. Frank Peck, who is leaving for Rochester, N. Y. Since the organization of the Band two years ago, Mr. Peck has been a faithful and exemplary member, and endeared himself to a large circle of friends. Last night the members of the Band made him a farewell presentation. In the presence of a number of his friends, Mr. Alf. Gaskins read the following address:

MR. FRANK PECK:

DEAR BROTHER,—The members of the Auburn Band of Hope having learned of your intention to leave here to accept a position in the city of Rochester, U.S., we the undersigned committee on behalf of the Band, while we regret very much to part with your society, have much pleasure in asking you to accept this manicure, brush and comb set as a small token of the esteem in which you are held and as a memento of the friendship and good wishes of your associates in this society. We also wish to express our deep and earnest wish for your future welfare; and may God continue His great goodness towards you. During your membership with us we have been pleased to notice your very cheerful manner in helping along our cause, and at all times you have shown a good example of kindness and cheerfulness in seeing others happy. That God may bless and prosper you in your new undertaking and keep you in the paths of temperance, truth and virtue, is the prayer of your associates.

Signed on behalf of the band.

MRS. MOORE, M. PRATT,
A. GASKINS, L. PRATT,
C. KEARNS, S. SPENCELY.
MRS. BROWN,

The address was accompanied by a very handsome oxidized silver manicure and brush and comb set, in a plush case, which was presented by Miss Sarah Spencely.

Mr. Peck replied briefly and suitably. He leaves for Rochester bearing with him the best wishes of a large number of friends for future prosperity and happiness.

Royal Templar Hospitality.

A Delightful Evening Spent in Their Hall.

The Royal Templars in Peterborough seem to be the most aggressive, progressive and successful temperance organization in the town, and they seem to have pre-eminent success in their little social gatherings and entertainments. Last night they scored another bright success at their "At Home." The attendance was good, about two hundred persons having been present. The hall was very tastefully decorated with flowers and bric-a-brac, and games and other aids to keeping the conversational ball rolling were provided. During the evening refreshments were served. Man is essentially an animal and if his stomach is neglected he is liable to develop into that genus of animal called the boar. But the *menu* provided by the culinary caterers amongst the Royal Templar sisterhood destroys the possibility or such an unsightly metamorphosis, and put everybody into good humor for the programme, a copy of which is printed below. In fact every taste was deferred to; there were flowers, trifles and gossip galore for the ladies, fodder for the "lords of creation;" and for the more æsthetic, who were too ethereal to enjoy sandwiches, or too too to associate with Mrs. Grundy, there was provided the intellectual enjoyment which this programme presented, Dr. Goldsmith occupying the chair and introducing the numbers:

Vocal solo	Miss E. Owens
Reading	Mr. A. Clegg
Violin and piano duet	Misses Moyse and Pritchard
Reading	Mr. J. C. Brown
Vocal solo	Miss Owens
Vocal solo	Mrs. Seward
Reading	Mr. A. Clegg
Instrumental duets	Misses Hall and Patterson
Reading	Mr. J. C. Brown

Personal.

Rev. Orr Patterson has returned from his winter's sojourn in the Old Country. He spent the greater part of his time at Edinburgh, but the last month of his visit was occupied in journeying on the continent. Rev. Mr. Bennett leaves to-morrow for London Ont. He is now awaiting an appointment to some charge.

Bicycles.

A good new Safety for $65. Terms, half down, and $10 a month—at 161 George street. fm

A Good Beginning Wanted.

To the Editor of the Examiner:

DEAR SIR,—A few weeks since the writer was in the city of Kingston helping the Young Men's Christian Association to raise $20,000 for a new building. In that city there was no liberal bequest to begin upon, but simply to ask citizens directly for the money. The circumstances in Kingston are these: Two new Presbyterian churches had just been built, and one of these was getting a new organ in whilst we were there. Queen Street Methodist Church, a new building, had recently been burned down and re-built and there had been next to no insurance. Sydenham Street Methodist Church virtually re-built and a new organ put in. The citizens of Kingston had given $70,000 to Queen's College. So that within this little while not less than $200,000 have been spent on churches and college in Kingston. The conditions were not, under these circumstances, hopeful to begin with, and yet the first person called upon, a lady, having heard of the intention of the Association to build, had without solicitation, obtained from her banker five hundred dollars in gold pieces, which she handed to the gentleman who called upon her. Two business men of the town gave $1,250.00 apiece cash subscriptions. One of these had within three years built a church at his own cost, and the other had just given a large sum to his own church. Several persons gave $500, $300, $250, and thirty-three men had given $100 a piece when the writer left. About $17,000 was readily obtained, and the $20,000 needed will be on hand by the time set for building. Now, in Peterborough, with $15,000 to start with, it seems impossible to obtain a starting subscription. The building needed here will cost $22,000. Only $7,000 of this is asked from the citizens, and although we have during these few days past called upon wealthy men, we have had no encouragement. Two sums of $100 each, and one sum of $50 is all we have so far been promised. Is is a pity that Mrs Nicholls' munificent bequest for the young men should have so paralyzed the citizens that $7,000 is too much for them to raise for what is a felt needed in our town and for what will virtually be a public building. The writer has had years of experience in work of this kind, but has never before met with such utter want of public spirit, and his surprise is unbounded, when he sees the growth and general air of prosperity reigning in this aggressive, soon to be, city. Will not some of the readers of this paper wake up to redeem their town from what will certainly be a reproach to it should this building have to be erected with the money available under Mrs. Nichols will. Here is an opportunity for a public spirited man to start the subscription. This must be done within a few days or the effort to meet the need and erect a suitable building will be abandoned and the Association will preforce take just what it can get to the everlasting disgrace of Peterborough.

Yours truly,
THOS. S. COLE

Peterborough, May 15th 1891.

Ontario Canoe Factory.

World-wide Demand for Their Canoes—Canoes for War and Canoes for Peace—Orders Received From India's Coral Strand to British Columbia—The Factory at the Full Hum of Industry.

The factory of the Ontario Canoe Company Ashburnham, presents as busy a scene as a bee-hive in clover time. A staff of thirty hands is kept busy filling the orders for the canoes made by this company, and, even at this rate, the workmen can't overtake the entries in the order book. The excellency of the canoes produced in this factory accounts for the wide popularity their crafts enjoy, the demand coming from many places on three continents. A walk through the factory reveals scores of beautiful canoes ready for shipment and others in various stages of manufacture.

The eye is first attracted by a splendid vertical cedar rib canoe, manufactured for the United States Government, to the order of the Assistant State geologist in Wisconsin, to which point the canoe is to be shipped for use on the United States Geological Survey. This canoe is eighteen and a half feet in length, forty one inches beam, and seventeen inches in depth. Its tonnage is one and a half tons, and it

IS THE LARGEST CEDAR RIB CANOE

ever turned out of the factory. It is beautifully finished, and will be sure to give perfect satisfaction.

Close at hand is another huge canoe made for His Honour Governor Schultz, of Manitoba. It is of basswood, painted, and equipped in first-class manner. It is nineteen feet in length, and will carry two tons. When this is shipped it will form the outside shell of a nest of seven canoes to be placed inside it, all for various persons in Winnipeg.

Another large canoe is addressed to Yarm, Yorkshire, England, and this will contain a nest of six smaller canoes, cedar rib, etc. Besides, the steamer will carry about a dozen other canoes to fill two orders from London, making a total of about a hundred canoes that have been shipped to England this year.

Awaiting shipment is another elegant cedar rib canoe, for the Canadian Geological Survey, to be sent to Lake St. John, Quebec. This craft, though it is eighteen feet long, weighs only eighty pounds, and can, therefore, be carried by one man over a short portage. It will, however, carry over a ton and a half.

The Ontario Canoe Company is great on war canoes, and they claim to be the pioneers in this sort of craft, and they have turned out a great many. They began with a big war canoe for Toronto, the " United three", and they have followed it with similar canoes; two for Montreal, one each for Washington, U.S., Albany, N. Y., and Trenton, N.J. The factory is now

AT WORK UPON ANOTHER LEVIATHAN

for an Ottawa club. This new craft was only begun on Wednesday, but on Thursday evening it had been put together and covered with one coat of paint. Special expedition was used, because a war canoe takes up too much room in the factory to be allowed to remain long on the stocks. This one is 30 feet long, fifty inches beam and twenty inches "depth of hold." There are eight thwarts, and sixteen canoeists can, at one time, find facilities for paddling their war canoe. Though so large, this canoe is so light (and at the same time stiff) that two men can carry it. On a rack one sees a cedar rib canoe addressed to Dubuque, Iowa, and further on a beauty built of longitudinal ribs, alternate, butternut and cedar. This is for a gentleman near Ottawa. Toe orders from East India arise from the fact that the cedar rib canoe from the nature of its construction is best adapted to stand the intense heat of that country thorough seasoning of the ribs and the thorough soaking in oil, and the peculiar and effective system of clamping used to bring the ribs together, make canoes constructed in this manner next to perfect as both resisters of water and heat.

There are few persons in Peterborough that have any idea of the extent of the canoe manufacturing industry as carried on at the factory of the Ontario Canoe Company. The general public have a generally hazy idea that canoes are made there, but few know that thirty hands are kept busily employed in the different departments, and that the canoes they build are in constant demand in almost every part of the world where canoes have come into use. The secret of this demand is not far to seek. The company turn out the best article that skill and experience combined with specially adapted machinery can produce, and besides they have made the merits of these products widely known, by the use of printers ink and by displays at large exhibitions.

—Dyspepsia's victims are numbered by thousands. So are the people who have been restored to health by Hood's Sarsaparilla.

Every Lady Uses It.

Dyer's Jelly of Cucumber and Roses for her chapped hands and lips, as it effectually cures in every instance. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. d63

The well known strengthening properties of Iron, combined with other tonics and a most perfect marvine, are found in Carter's Iron Pills, which strengthen the nerves and body, and improve the blood and complexion. dw

A Cure for Constipation and Headache.

Dr. Silas Lane while in the Rocky Mountains, discovered a root that when combined with other herbs, makes an easy and certain cure for constipation. It is in the form of dry roots and herbs, and is known as Lane's Family Medicine. It will cure sick headache, and is the best spring medicine. For the blood, liver and kidneys, and for clearing up the complexion it does wonders. Druggists sell it at 50c. and $1 a package. dw

Highlands of Haliburton.

The Delights and Attractions of this Summer Home.

Those who are familiar with the wonderful natural resources of the Highlands of Haliburton, the healthfulness of its climate, the beauty of its extensive chain of lakes, the grandeur of its scenery, and the abundance of its game, fish and fruit, are unanimous in the opinion that it will soon become the most popular summer retreat in Canada. To those unfamiliar with the geography of Northern Ontario this lovely district, with its Lakes, pasture fields and forests, would seem like a newly discovered fairyland, while all are surprised to find a place so beautiful on the borders of civilization.

The enterprising little village of Haliburton is located in the midst of this picturesque country, and has also the advantage of a central situation, being about fifty miles from Lindsay and a hundred miles from Toronto and Port Hope.

Mrs. Stewart was the first to take advantage of the great natural facilities Haliburton afforded as a site for summer resort, and several years ago opened her residence "Newnham" to the public during the summer months. Her venture proved such a gratifying success that year by year Newnham has been enlarged and improved, and is now a commodious and well managed establishment, offering more attractions to its guests than any other resort in Canada. "Newnham" is a large and handsome building crowning the summit of a gentle elevation situated amid an environment of rare beauty, and commanding a view of romantic and picturesque scenery. At the foot of the hill is a beautiful little lake whose rippling waters at once suggest the idea of boating, bathing, fishing, and all other sports which the pressure of pure, fresh water will facilitate. Boating indeed may be enjoyed with great pleasure and comfort, and picnic excursions are very popular with the guests at "Newnham." A person may leave Newnham wharf and row for hours through a magnificent chain of lakes unrivalled in natural grandeur and enjoy a magnificent scene, which on a bright day when the shadows of overhanging trees are reflected in the water presents an everchanging panorama.

In the narrows, or small rivers which connect the lakes, may be found the most exquisite white and pink waterlilies in untold numbers, the specimens of both classes being the best to be found in Canada. Amongst other wild flowers of the region the botanist will find many interesting and rare specimens.

Bathing is also a favorite amusement with the "Newnham" visitors. "Newnham's" bathing place is arranged with every accommodation for ladies and gentlemen, and their usefulness is always attested by the large number who annually learn to swim. A fact regarding the boating and bathing at Haliburton which is worthy of note is that it is quite safe. The lakes are surrounded by high hills and protected from even the fiercest gale.

Berry picking is fun which all city people thoroughly enjoy. To roam the woods and eat berries fresh from the bush is one of their ideas of rusticating in the country. Haliburton has more berry patches to the square yard than any other county to the square mile — strawberries, raspberries, huckleberries, gooseberries and blackberries all growing wild, and may be had for the picking.

The lawn in front of the house affords room for lawn tennis, cricket, or any game which takes the fancy. Lawn tennis was the favorite last season. A very successful tournament was played, which created much interest.

Mrs. Stewart has endeavoured to provide so that her guests will not spend a dull hour during their visit with her, and with this object in view she has a magnificent pavilion, in which the evening or an occasional wet day may be very pleasantly spent. The pavilion is also fitted up in a most complete manner as a private theatre, with stage, scenery and costumes, and affords every facility for impromptu charades or other amateur performances. In the past the Visitors' Dramatic Club has afforded great amusement and pleasure to the guests, and some excellent dramatic entertainments have been presented, the most notable being a selection from the "Merchant of Venice," the charming comedietta "The Little Sentinel," and several original charades.

"Newnham's" annual event—the regatta and fancy dress ball—are looked forward to with expectancy, especially the latter, which is always a very brilliant affair, the dramatic wardrobe furnishing many beautiful costumes.

It is not to be wondered at when all the foregoing attractions are considered, that "Newnham's" popularity is increasing every year. Owing to the large demands which the duties of hostess makes upon her time, Mrs. Stewart has deemed it advisable to associate with her in the management her son-in-law, Mr. Mathieu, who will superintend the business in the future. Mr. Mathieu is a gentleman whose courteous manner made him a general favourite with the guests last season, and we have no doubt that his directorship will be attended with success.

"Newnham" is situated only half a mile from the village of Haliburton, which affords all advantages of churches, post office, telegraph office, etc. It has its own station on the grounds and every possible convenience is afforded to its guests. Lastly the district is noted for its salubrity, being totally exempt from ague, malaria and hay fever. Owing to the latter circumstance many of our American visitors who are subject to hay fever annually pass through Port Hope on the way to or from Haliburton. The summer season is now at hand, the holidays are approaching, and therefore the notice of the Highlands of Haliburton is in proper season.

Helen de Rideau.

Success of an Ottawa Vocalist Before an Italian Audience.

The EXAMINER, being thoroughly Canadian in its sympathies, always chronicles with pleasure the success of Canadians, in the many spheres in which their natural abilities and intelligently directed industry bring so many of them to eminence and many of them to prominence. In the world of music, Canadians have taken a high place; and now that Albani has reached the zenith of her career and will naturally decline, it appears that another great vocalist is ready to take her place. The following, respecting the success of an Ottawa lady, will be read with pleasure:

The young and successful singer, Miss Helen O'Reilly, daughter of Mr. John O'Reilly, license inspector of this city, who is known in Italy as Helen de Rideau, has been singing in "Lucia," "Linda" and "Fra Diavolo." A leading Italian journal thus refers to her musical abilities: "Last evening the Theatre Livori was crowded to excess, being the serata (evening of honor) of Miss de Rideau. The opera given was "Lucia." She sang the brilliant polacca from Mignon, in which she surpassed all expectations, singing this difficult music with the greatest ease, and her high notes, especially the high E flat, ringing forth as clear as a bell. The public showed their appreciation by the frantic applause during the nine times she was recalled and the flowers which were showered on her." Among the many presents she received was a costly brooch, the gift of her friend Mrs. Nordica. She has signed a contract to sing in Turin during May and June.

Keep the Heifers.

The time has come when every farmer and feeder in Canada should turn his attention to cattle, and consider how he can thereby increase the trade of the Dominion. Not every one is so situated that he can take advantage of the present prospects; but every one can give the subject careful consideration, and in most cases it will be found that there is now an opportunity to help on a great and growing trade. Cattle feeding is acknowledged to be far better for the land than grain-growing, and the outlook is that it will prove far more profitable for the farmer. It has been so in the past, for proof of which one has only to look at sections of Ontario where good cattle are fed, and the financial condition of the farmers there is found to be much better than in the grain-growing parts. This has taken place when prices of cattle were at times only middling; and at other times, were particularly bad; and when prices for grain were fair to good. Now the tide seems to have turned, and prices for stock are going up with bright prospects for the future. Grain, too, is on the rise, especially coarse grains, carried up largely by the demand for well-fed stock and the increased consumption for stock-feeding. The shipments from Canada last year of cattle were quite fifty per cent. more than the previous year. Many of these were store cattle that would have paid well had they been fed more grain; others were poor cattle that did not pay the breeder here, and could only be fatted in a land where the value of the manure bears a very high proportion to the cost of the food consumed. We want to ship out the scrubbers, get rid of them, and raise more good cattle. Keep the heifers, breed them to good thoroughbred bulls of any of the beef breeds, and they will produce animals that will pay to be well kept. This is where there is a very large leak at present in the Canadian cattle trade. Poor scrub bulls are used; they will never pay. Only good thoroughbred bulls of a beef breed will give good profits. They are cheap, considering their value and abundant. In some good cattle sections there are hundreds of young heifers—well-bred ones—that are being got ready for the butcher at two and three years old. It may be too late now to keep many of these in the country for breeding purposes, but they are the kind we want to keep, the ones that it will pay best to keep, that we may have a strong foundation of well-bred cows to build up a trade in first-class export stock. Do not part with these heifers. Those who are buying stock let them get as well-bred animals as they can. Even pure-bred animals have been low in price. Now is the time to get them before the sun of high prices returns. Get good blood and keep the heifers.—*D. McCrae, in The Canadian Live Stock and Farm Journal for May.*

VALUABLE HOUSEHOLD Property For Sale BY TENDER.

TENDERS WILL BE RECEIVED for the purchase of the following properties:

Being Parts of Lot No. 2, North of Simcoe Street, and East of Water Street, in the Town of Peterborough.

At 8— per foot frontage, en bloc, or separately, to the Twentieth Day of May, Instant, At noon, addressed to the undersigned and marked "Tenders re *Albert Hall Estate.*"

Parcel No. 1.

Part of said lot, containing 2,247 square feet, more or less, and more particularly described as follows: Commencing where a post has been planted 119½ feet east from the south west angle of town lot, No. 1, east of Water street, and north of Simcoe street, thence east 23 feet on Simcoe street, thence north 80 feet, thence west 23 feet to a Lane 19½ feet wide, thence 80 feet to the place of beginning. This property is a corner lot in the centre of the town, and a very desirable property for a residence. There is situated on it a story-and-a half plaster house. It is immediately opposite the residence of George Dunsford, Esq.

Parcel No. 2.

Containing 3823 square feet, more or less, and having a frontage of 45 feet on Queen street, with a depth of 85 feet to said Lane. On this property is a two story double brick house, and being Nos. 15 and 17 Queen street, with rooms over brick kitchens, good cellars, hard and soft water and outbuildings. This street is opposite front of St. John's church.

Parcel No. 3.

Immediately south of and adjoining Parcel No. 2, having a frontage of 70 feet on Queen Street, by a depth of 85 feet to the said lane. On this property is a very desirable brick dwelling, two storeys, and brick kitchen, good cellar under the whole house, woodshed, hard and soft water, etc. There is also thereon one Brick Bake Shop, with cellar and ice house, with access thereto from the lane. From their proximity to the centre of the town these properties are always in demand.

TERMS.—The Vendors will prepare conveyances at their own expense, and will produce only the title deeds and evidences of title in their possession. Ten per cent. to be paid when notice given that tender is accepted. Balance within thirty days, without interest. Fifty per cent. of amount may remain secured on property at six per cent.

The highest or any tender not necessarily accepted. For further particulars apply to Messrs. A. COMSTOCK or H. LONG, Trustees, Or to

HATTON & WOOD, Solicitors for Executor A. Hall Estate.

Dated at Peterborough, this 4th day of May, 1891. 16d106-2w19

SORRY, TOO LATE.

I had several properties which I have been pressing upon the public during the past two or three months, at what I called low prices. A great many buyers examined them, and a few thought they would buy after a time, but while they were considering, with their money in the bank at four per cent., that very quiet and shrewd capitalist from Norwood, F. W. Reynolds, Esq., came along and bought the whole, and now those who were going to buy are sorry for losing such bargains. Mr. Reynolds is now the owner of FOURTEEN houses in town, all tenanted, and paying from seven to twelve per cent. interest on his investments. He has also a number of vacant lots, which he could readily resell at a big profit. Nine months ago I sold him his first purchase.

I have a few acres of land for sub-division, near the Edison Works, which any intelligent man can make big money out of. Call for particulars.

I am the house-seeker's true friend. If you want a house come to me and I will guide you right.

T. HURLEY

357 George Street.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable losses attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credits. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on these terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

DOMINION PARLIAMENT.

THE M'GREEVY SCANDAL BEFORE THE COMMITTEE.

The Modus Vivendi Will Be the First Bill To Become Law—Sir John Is Seriously Ill, But Refuses To Go On a Holiday Capital Chat.

OTTAWA, May 15.—The Tarte-McGreevy ball opened this morning in the Committee of Privileges and Elections, which met for organization, and immediately buckled down to business.

There was a very full attendance of the committee, amongst the prominent members present being Sir John Thompson, Hon. J. A. Chapleau, Hon. C. H. Tupper, Hon. John Costigan, Hon. David Mills, Messrs. Davies, Edgar, Langelier and Mulock.

Sir Hector Langevin was present but took no part in the proceedings. Mr. McGreevy was not present.

The reference from the House having been read the chairman asked if any of the persons interested desired to be represented on it, whereupon Mr. Tarte asked Mr. C. A. Geoffrion to act on his behalf.

A direction was moved for an order to the public works and other departments to be ready to produce the papers connected with the several contracts to be made the subject of the inquiry.

Sir John Thompson asked if in order to avoid delay Mr. Tarte would be prepared to go on with any part of the inquiry before the production of the papers.

Mr. Tarte replied that he feared it would be imprudent to summon any witnesses until an examination of the papers showed whether or not their attendance was necessary.

Sir John Thompson urged that some witnesses might be named in advance, but this Mr. Tarte declined to do until the papers were examined.

Sir John Thompson said it was evident the inquiry was going to be a lengthy one and in order that it might be completed before the end of the session he suggested that such witnesses as were summoned should be made to attend from day to day until their examination was finished. The suggestion was approved of. It was decided that the evidence and proceedings should be printed from day to day.

On motion of Mr. Langelier it was decided to order the chairman and secretary of the Quebec Harbor Commission to produce to the committee the papers in their possession relative to the graving dock at Quebec and Levis. Mr. Kirkpatrick suggested that Mr. Tarte should, after seeing the papers, give the chairman the names of some of the witnesses he proposed to call and that the committee should sit again as soon as the witnesses were present. This was agreed to.

Though Sir Hector named no counsel, it is altogether likely that Mr. Kirkpatrick, with whom he sat this morning, will watch the evidence on his behalf.

Chairmen of Committees

The other committees met and organized by electing chairmen as follows: Experting Laws, Mr. Cameron of Cape Breton; private bills, Mr. W. B. Ives, agriculture and colonization, Dr. Sproule, banking and commerce Mr. Josiah Wood of Westmoreland; railways, canals and telegraph lines, Sir Hector Langevin; public accounts, Mr. N. Clarke Wallace, privileges and elections, Mr. Girouard.

The Standing Orders Committee some days ago re-elected Mr. J. G. H. Bergeron chairman Several changes were necessary in the chairmanships, Dr Sproule losing the place of Mr. Peter White, now Speaker, Mr. Wood that of Mr. L. N. Hall, not now in the House, and Mr. Wallace that of Mr. J. C. Rykert, also not a member.

An hour and a half sufficed to clear off the greater portion of the order paper to-day and the House adjourned at 4.45 p.m. until Monday.

Mr. Kirkpatrick moved for an order of the House for copies of all letters, communications and reports in the possession of the Government relating to the filing of a standard time and the legalization thereof. He spoke of the importance of having time legally established. At present railways were run by standard time and a great many other things, such as the opening and closing of the polls an election day. The opening and closing of banks which involved the protesting of notes, were regulated by standard instead of solar time. He had read some very interesting articles on engineering on the subject and he would like to know whether any representation had been made to the Government. He would also suggest that the Government might state whether any legislation was proposed to make standard time legal time.

Mr. Tupper said there were some very interesting reports in Department of Marine, including one from the director of the Meteorological Survey and a circular from the Imperial Government. The papers would be brought down. The question of legislation was being considered by the Government.

Mr. Burdett introduced his bill to prevent frauds on farmers in the sale of seed grain and other articles. This is the same bill introduced last year.

Sir Hector Langevin informed Hargraft in answer to a question that a survey had been made in February this year at Lakeport on Lake Ontario, with a view to the construction of a harbor of refuge, but the Engineer's report declined to recommend the undertaking, which is now not part of the Government proposal to go on with the work.

Mr. Foster stated in reply to a question that the estimates would be down on Monday and that the budget speech would be delivered as soon as possible after next week.

Accelerating the Modus.

The bill for revising the modus vivendi for the year was read a second time, passed through committee without amendment, was reported and ordered for third reading on Monday, thus bidding fair to be the first bill of the session passed. It is most probable that it will be rushed through the Senate as soon as that venerable body resumes its arduous duties on the 26th after a two weeks rest and assented to by His Excellency so that it may come into operation at once.

The Minister of Marine said that there was no truth in the statement that the Government would not recognize licenses issued by the Government of Newfoundland. The bill is the same as the old bill and provides for the recognition of licenses issued by Newfoundland.

Mr. Kirkpatrick stated to-day that in view of the fact that reciprocity, sealing and wrecking would be one of the subjects discussed in Washington in October he would not press his bill on that question this session.

A deputation from Toronto, consistine of James L. Hughes, Public School Inspector, and School Trustees H. A. E. Kent, W. D. McPherson, H. J. Hill and Whitesides, waited on the Finance Minister this morning and requested a grant of $2500 to assist in defraying the expense connected with the meeting of the National Educational Association of the United States, to be held in that city in July next. They were promised that the request would be recommended to the favorable consideration of council. They also saw the Minister of Customs with reference to admission of exhibits, baggage, etc., and received his assurance that every facility would be afforded the visitors.

Sir John Macdonald spent a couple of hours in the Department of Railways and Canals this morning and afterwards attended council, but was not in the House. Some of his friends are getting a little anxious about his health and urging him to take a trip to salt water and rest a while, but he will not entertain the idea of leaving Ottawa while the House is in session.

THE FAIR TRADE MOVEMENT.

Sir Charles Tupper Delivers an Address at the London Club.

LONDON, May 14.—The Fair Trade Club held a dinner last night to promote the discussion of Imperial commercial union. The company included in addition to many distinguished English politicians Sir Charles Tupper, Canadian High Commissioner, also the four Newfoundland delegates, Sir William Whiteway and Messrs. Morine, Harvey and Bond, who are the latest members to give their adherence to the Imperial Federation League.

Sir Charles Tupper made a lengthy speech in the course of which he expressed the opinion that there was no subject of greater importance to the Empire than that of commercial union between Great Britain and her colonies. The empire covers such an enormous portion of the world that none of the component parts could possibly suffer for want of supplies, even if cut off from the rest of the world, while all sections would be materially benefited by such a policy as that suggested. Sir Charles said the could see no reason why this mose effective movement towards Imperial Federation should not be carried out through the united bond of self-interest and the already powerful tie of sentiment."

Beheaded By the Executioner

SIMLA, May 15.—Despatches from Manipur show that Chief Commissioner James W. Quinton and the officers who lost their lives at the same time as he did were not the victims of a massacre brought about by popular fury. Evidence given at the trials, which have recently been taking place, of several prominent Manipur insurgents who were captured by the British troops proves that the Chief Commissioner and his escort of Ghurkas were beheaded by the public executioner under the orders of a Manipur major and an ex-Sepoy who had deserted from the British ranks and joined the Manipuris. Both of these men were found guilty by the military tribunal.

A Child Hanged in Play.

LONDON, May 15. A sad occurrence is reported from Darwen, near Blackburn. A number of boys were playing in Potter's paper-staining factory when some of them placed a rope around the neck of little Frederick Riding and attached the end to some shafting. At this moment the machinery was unexpectedly started up, and the children were horrified to see their companion quickly hoisted to the roof, where he was crushed in a frightful manner. The little victim died after a brief period of suffering.

Nineteen Were Drowned.

ST. PETERSBURG, May 15.—An accident by which 19 workingmen lost their lives occurred in the Dneper River to-day. A flat boat containing a number of workingmen proceeding down the river came into collision with a steamer bound up the stream. The flat boat sank almost immediately, drowning 19 of its occupants.

The Flow of Gold.

LONDON, May 15.—The Times believes Russian Government will withdraw £3,000,000 from London within the next month or two, and that it is doubtful whether the Bank of England will be able to withdraw that amount from America. "Besides which," adds The Times, "there is strong probability of a partial failure of European crops, which would cause a drain of gold to America in the autumn."

A Farmer Blows a Hole in His Breast the Size of a Dollar.

ROSSLYN, Ont., May 15.—Robert Graham, near Uhland, accidentally shot his gun and went to the barn to get some rats. Not returning to breakfast as usual search was made and he was found sitting in a chair with his gun between his legs. Graham was lying about 12 feet from the door with his head and face torn and one boot off. The gun had been discharged and had entered his breast, which was discolored and burnt by the powder, while the shot took an upward course, leaving a hole about the size of a silver dollar. It would appear that he was sitting down and had let the gun lean against his breast, to take off his boot to shake out some lumps of clay, when it came in contact with the trigger of the gun, causing it to go off. On the other hand some incline to the belief that it was a case of suicide.

TENNY THE WINNER.

THE GREAT BROOKLYN HANDICAP RUN YESTERDAY.

Paloifer's Speedy Horse, the Faithful Son of Rayon d'Or, Lands His Colors in Front—Prince Royal Second and Ten Tray Third.

BROOKLYN, May 15.—The Brooklyn Jockey Club to-day threw open its gates for a 14-day meeting. A fine program was offered. Fully 30,000 persons were present, including all the officials of New York city and Brooklyn, many ladies and a host of men interested in sporting matters.

When the bugler called the horses to the post for the first race it was one of the grandest sights ever witnessed on an American race course. The spacious lawn was an unbroken mass of hats, while every seat in the grand stand was occupied and some did double duty. The overflow filled the paddock, lined the infield fence 50 deep and made a respectable showing in the betting ring.

There were 118 bookmakers doing business, the largest number ever seen on a race track in this country. The weather was treacherous. It would rain for a few minutes and then stop. It finally settled into a steady drizzle.

The betting ring was all pandemonium; men stumbled and trod over each other in their desperate endeavors to get the good odds before the bookmaker changed them. Great bundles of money were fairly hurled at the bookmakers and money floated about in a way that would drive a miser crazy.

Of course the great attraction was the Brooklyn Handicap with its 21 starters. Three of the eligibles failed to answer to bugle's sound. Of these Leighton ran in the second race and Reporter and Chatham were not considered sufficiently fit to greet the starters. But the people who came to see a great race did not care for these little things. Their appetite for the big event was hardly more than moderately sharpened by the three contests which preceded the big one of the day.

The Brooklyn Jockey Club Handicap for 3-year-olds and upwards, the club to add an amount necessary to make the gross value of the stake $30,000, of which the second shall receive $3700 and the third $1500, 1¼ miles.

D.T. Pulsifer's bh Tenny, 5, by Rayon D'Or—Belle of Maywood, 128 (Barnes), 1.

P. J. Dwyer and Sons' ch h Prince Royal, 6, by King Fisher—Princess, 117 (Garrison), 2.

W. Lakeland's ch h Ten Tray, 6, by Rayon D'Or—Ella T., 116 (Moore), 3.

Time 2.10.

Riley 120, Burlington 120, Judge Morrow, 118, Denuth 118, Castaway II. 115, Senorita 114, Lontaka 112, Banquet 108, Eon 108, Santiago 108, Cousin Jeems 106, Russell 105, Uncle Bob 100, Sauterer 100, Once Again 100, Carroll 97, King Thomas 95, Nellie Bly 95, also started.

Post Betting: 2 to 1 Tenny, 6 to 1 Judge Morrow, 7 to 1 Ten Tray, 8 to 1 Senorita, 12 to 1 Prince Royal, 10 to 1 Banquet and from 20 to 1 to 100 to 1 the others.

THE RACE: It had been the all-absorbing topic in turf circles for the past few weeks. Everyone was full of excitement and the crush in the betting ring was tremendous. The bookmakers could not begin to supply the speculative wants of the crowd. Men who had never bet $10 in their lives offered hundred dollar bills to the bookmakers, and for a time everyone seemed to have lost control of himself. After a half hour, however, the money of the heavy bettors commenced to tell, and it could be seen in what estimation the different horses were held.

The field that went to the post was the best that ever faced a starter in this country and consisted of 21 horses.

As they went to the post each was loudly cheered and they all looked in the best of shape. Mr. Caldwell cautioned the boys about bring on their good behavior and there were a few moments of intense anxiety and a silence that was almost painful. All of a sudden the whole lot moved up on a line, the red flag was dropped and 30,000 voices roared, "They're off."

As far as the start was concerned every horse received a fair chance. As they swept towards the stand the 3-year-old Russell took the lead, running under a strong pull and with Nelly Bly, Once Again, and Santiago lapped on him and Riley and King Thomas bringing up the rear. They ran in this order around the lower turn and those who bet on Tenny commenced to get anxious, for the little sawbuck was running in the ruck. As they started up the back stretch Santiago went up to Russell's head and the two ran locked for a quarter, while the white and red of Burlington commenced to occupy a prominent position and Tenny also moved up. As they struck the upper turn the pace commenced to quicken and Russell fell back beaten, leaving Santiago in front. He in turn gave way to Lontaka, who piloted the field into the stretch, and then the real struggle commenced. Lontaka soon gave up and Tenny showed in front, closely pressed by Judge Morrow, who had been in the ruck for a mile, Burlington, Prince Royal and Ten Tray. Horses and jockeys all seemed to think the crisis had arrived and gathered themselves together for a final effort.

Three-sixteenths from the finish Barnes went to the whip and for the fraction of a second the favorite faltered. A despairing cry went up, "Tenny is beaten!"

It did look like it, but the game little sawbuck responded nobly, and with heaving sides and dilated nostrils, he came on like a piece of perfect mechanism, rapidly devouring ground at every stride. The race was not his yet, however, for Garrison was working like a demon on Prince Royal, fairly lifting him over the ground and Ten Tray was rapidly moving up from the rear.

The excitement, enthusiasm, hats, bonnets, handkerchiefs, made flags and parasols were thrown into the air and cries of:

"Tenny, Tenny!" "Prince Royal wins!" "Come on, Ten Tray!" were heard on all sides.

It was a grand struggle, but Tenny held his antagonists safe and bounding like an Indin rubber ball passed the finish two good lengths in front of Prince Royal, who beat Ten Tray a short head for second money. The time, 2.10, was nothing out of the common, but it was a grand race, and men, women and children perfect strangers to each other shook hands with great enthusiasm. Barnes, who rode Tenny, was placed on a floral horseshoe after he had weighed out and carried to the dressing-room. He was in the Futurity, Junior Champion and Brooklyn and says his ambition now is to ride the winner of the Suburban.

Is This the Itala?

CITY OF MEXICO, May 15.—Acapulco advices state that the Chilian steamer Esmeralda is still off that port waiting to see if it is possible for her to obtain coal. Another strange steamer, which is outside, is supposed to be the Itala. There is no American steamer in sight.

An Anthropophoginian Fined.

WINDSOR, May 15.—In the case of Egan v. Wells, wherein the complainant asked $1000 damages because the defendant's dog chewed his leg, the Court of Assizes yesterday returned a verdict of $348 for complainant.

"Gaby Dick's" Case.

DETROIT, May 15.—Neville, alias "Gaby Dick" Richardson, was tried to-day on a charge of being connected with the Stinson counterfeit gang convicted at Sandwich yesterday. It was proved that Richardson showed some of the queer at a Sandwich cock-fight, and one witness swore that Dick told him he had brought over from Sandwich a handkerchief filled with the bogus coin.

Children Cry for Pitcher's Castoria.

ROBBED HIS GRAVE.

THE REMAINS OF P. PURCELL, EX-M.P. STOLEN.

It is Supposed the Robbers Intend Holding the Body of the Millionaire Contractor for a Heavy Ransom—The First Night it was Left Unguarded.

CORNWALL, May 15.—Intense excitement has been created throughout the united counties by the discovery that the body of the late P. Purcell, ex-M.P. for Glengarry and millionaire contractor, has been stolen from the burial ground at Flannigan's Point, a beautiful but lonely spot jutting out into the St. Lawrence near Summerstown.

As a man named Losey was passing the burying ground in a rowboat about noon to-day he noticed that the grave had been disturbed. He rowed to the shore and found the lid of the coffin on the ground beside the grave and the body gone. He immediately gave the alarm.

Word reached here about 2 o'clock, and Mr. John Purcell, brother of deceased, and your correspondent drove down to the Point and found that the ghouls had removed all the earth from the grave, tore the top off the round box and removed the lid from the coffin, which they threw to one side, and dragged the body from the grave to the river, where their boat was evidently anchored.

A narrow foot-print, about a No. 8, is the only clue left.

Carried Away in a Boat.

A boat was found floating down the river near the Point this morning, in which was printed the name "Ellen."

Detectives in Montreal were immediately wired for and will arrive to-night to work upon the case.

The body was interred May 5 and it is the general impression the snatchers expect a large reward for its return.

A strict watch had been kept on the grave until last night, when all fears of removing the corpse were dispelled.

Wednesday night two men entered the graveyard and were in the act of approaching the grave when the guard called a halt, saying: "Leave or I will shoot." They at once withdrew.

Mr. Purcell left an estate valued at over $1,000,000.

The Czarewitch's assailant is now said to be a Nihilist who escaped from Sachalien, an island off the East Coast of Asia belonging to Russia, and who succeeded in entering the Japanese public service.

A terrific coal gas explosion has taken place at the Moss colliery, near Ashton-Under-Lyne, Lancashire. One man was killed and many were seriously injured.

M. Ribot, Minister of Foreign Affairs, has presented a bill in the French Chamber of Deputies ratifying the Newfoundland arbitration convention made with Great Britain.

In order to end the difficulties and dissensions that have arisen between the bishops and priests of America consequent upon the divisions and delimitations of the dioceses, the propaganda has issued a decree announcing that priests affected by the said divisions shall belong to those dioceses wherein they were at the time the delimitations were made.

Senhor Bartisseol, chairman of the Portuguese Mozambique Company, says in reference to the East African agreement between England and Portugal that the British proposals will seat the definite annihilation of Portugal, which has already been killed by England financially. Under the new convention England will take the gold mines, which were the most valuable part of the Portuguese territory.

At Battoum, Russia, a man named Koupardez was on trial for robbing Prince Morshanya of a pocketbook filled with bank notes. He laughed scornfully at the prince and kicked the nobleman. In his rage at this insult Prince Morshanya drew a revolver and shot Koupardez dead. The prince has been arrested.

The police of Landres, France, have arrested an ex-officer of customs named Meunier, charged with murdering a priest, the latter's servant, his eldest boy and a man named Jactel, and with setting fire to the Jactel residence because the daughter of the house would not marry him.

On order was made by the master in chambers allowing the city of Toronto to pay into court the sum of $13,177 8, the amount of the street railway award. The time for payment ends to-day and the city, in case of any hitch and to be on the safe side, paid the money into court. A check will be given to Mr. Smith, or if he refuses to accept it the money will be left there to his credit.

By the collision of the British steamer Buccaneer with the Italian steamer Stura near the spot where the Utopia sank in Gibraltar Bay on March 10, the 850 Italian emigrants on board the Stura experienced a narrow escape from death. A scene of wild confusion followed the collision, men and women rushing hither and thither wildly crying for help. Neither vessel sank, but the only thing that prevented the Stura from sinking was the fact that her collision bulkheads were closed, thus keeping the water that entered her in the forward hold.

Shot in Toe.

ORANGEVILLE, May 15.—Mrs. Hollinger was struck by a yard engine on the C.P.R. here on July 7 last and a doctor found it necessary to amputate four toes. Yesterday at the assizes she recovered a verdict of $800 against the company.

A Toronto Crook's Break for Liberty.

BUFFALO, May 15.—William Patton, alias Joslyn, recently discharged from a Canadian prison, was arrested in a resort in Peacock street about 9 o'clock last evening by Special Jordan. The Toronto police had notified Superintendent Morgenstein to look out for him. Patton accompanied the officer as far as the stationhouse quietly, but on reaching the door made a sudden dash and sprinted down the Terrace at a rapid rate. A revolver shot failed to stop him, but he was finally overhauled.

His Train Killed Jumbo.

WINDSOR, May 15.—Conductor McAuliffe of the Grand Trunk was thrown from his train in Windsor yard last night. He had one rib broken and received a long gash on his skull. McAuliffe is 60 years old and the accident may result seriously. He was conductor of the train that killed Jumbo, the elephant, at St. Thomas.

The Spring Medicine.

The popularity which Hood's Sarsaparilla has gained as a spring medicine is wonderful. It possesses just those elements of health-giving, blood-purifying and appetite-restoring which everybody seems to need at this season. Do not continue in a dull, tired, unsatisfactory condition when you may be so much benefitted by Hood's Sarsaparilla. It purifies the blood and makes the weak strong.

SUN LIFE
ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355 92
Increase over previous year	3,421,372 84
New Applications received in 1890	6,371,599 15
Increase over 1889	2,268,888.60
Cash income for year ending 31st December, 1890	889,078 87
Increase over 1889	325 938 35
Assets at 31st December, 1890	2,473 514 19
Increase over 1889	687,691.47
Reserve for Security for Policy-Holders	2,109 222 68
Increase over 1889	567 732 71
Surplus over all Liabilities and Capital Stock	232,175.69
Increase over 1889	75,649.95
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec.,	1881, (five years)	$64,824 07
" " " "	1886, "	89,452 97
" " " "	1890, (four years)	232,175 69

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, TONIC and RESTORATIVE, as they supply in a condensed form the substances actually needed to enrich the Blood, curing all diseases coming from Poor and Watery Blood, or from VITIATED HUMORS in the BLOOD, and also Invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail sickness when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c per box), by addressing

SATURDAY, MAY 16, 1891.

AS DEAD AS A DOOR NAIL.

The Trent Valley Canal is as dead as the proverbial door nail—and will remain dead till within a few weeks of the next general election, or by election, in this district. We all remember the flood of cold water thrown over the project by the Minister of Railways and Canals on the recent visit of the deputation from this neighborhood. No wonder we have the hydraulic paradox of the Trent Valley Canal being destroyed by too much cold water. It's cold water from the official nozzle that hurts. Some Government sympathisers complain of the "cold water" thrown on the scheme by outsiders; but that does no harm—the scheme is so radiotat election times that it only blazes. In the House of Commons Thursday Mr. Barron did not get even a civil answer to his question regarding the Government's intentions toward the Trent Valley Canal. All the reply he got as to the Government's attitude was that the "*Government had come to no decision.*" This is simply disgusting, but only what was to be expected. The Trent Valley Canal is now in the dim distance, on the same lap as the coming millenium. But the canal—on paper—will bob up serenely as the elections draw nigh. How long will the long suffering and easily fooled electors of this county and district gulp down and pretend to like the bait which huckstering ministers and their political minions dangle before their watering mouths?

Dr. G. M. Dawson, of the Canadian Geological survey, has been made a member of the Royal Society, of England, a distinction enjoyed by only three other Canadians, Sir Daniel Wilson, Sir William Dawson and Dr. Selwyn.

The Situation at Ottawa.

Matters at Ottawa are in a painfully critical condition. Sir John is ill again, suffering, it is said, from a collapse similar to that which came upon him at Kingston during the elections. His oldest colleague, Sir Hector, is lying under indictment for fraud and malversation of public funds. Mr. Chapleau is demanding the French leadership in virtue of his greater services and cleaner reputation, while consolonance that the end of the long reign is near is eroding the allegiance of many private members elected to support the Government. Its humbler "workers" in the country are hurrying as fast as they can under the friendly roof of the customs house or post office. Everything is in confusion, everybody is alarmed. There is talk of sending for Tupper, but no one believes that his evil presence could avert the crash that is imminent. They might as well call in Rykert.

If the Tory party alone was in danger, the case would not be so grave. But it is notorious that the best men in public life are troubled and perplexed about the future, the immediate future, of the country. Mr Blake has recently given us his opinion, and some of these days he will no doubt carry his bold thesis to its logical conclusion. Mr. Laurier and Sir Richard Cartwright are more hopeful, but even they recognize the tremendous difficulties of the situation. We have had critical times before, but have tided them over by resorting to compromises. The union of 1841 was a compromise, and when it broke down, as all compromises do in the long run, we constructed another and embodied it in the Act of Confederation. It was agreed by both sides then, that, to avoid further risks, the new regime should be economical and sparing of taxation. A hundred years ago Lord St. Vincent in a note to Lord Shelburne predicted that the geographical position of Canada, lying alongside an English-speaking, public with vast possibilities, would render her government difficult at all times and more than difficult if she were foolish enough to incur "too many responsibilities." Similar warnings had been given by other Englishmen and Canadian politicians themselves were fully alive to the subject. It is not necessary to describe how under Sir John's auspices we left the paths of sound finance. We have acted with reckless want of thought for the future that the Federal debt is now over three times as large per head of population as that of the United States. It is true we have something to show for the money, but then our neighbors have not been backward by any means in developing their country. In 1867 their population was about 35,000,000 and ours 3,200,000. To-day they have 63,000,000, whilst we, who in the interval have annexed the Northwest, British Columbia and Prince Edward Island, have five. This shows that the material progress which they have made has been relatively quite as great to say the least as our own, notwithstanding that they have reduced their national debt from $70 per head in 1867 to $15 at the present time, whilst ours has grown from $23 to nearly $50. It is not easy to pull up a community that has one started upon a career of extravagance. One of the most arduous tasks before Sir John's successors will be to curb the mania for useless and unproductive expenditures, to persuade the people that while it is their duty to support the Government it is not the Government's duty to support them. There is no compromise possible in this case—we must face the facts and make the best of them. Sir John will leave other ugly legacies. All the Provinces with the single exception of Ontario are in deep water financially, and the process of unloading periodically upon the Federal taxpayer has been sanctified by custom. The first of his great political railroads, the Intercolonial, whose throat he cut with his own hand, runs away with $2,000,000 a year—$500,000 of a deficit and $1,500,000 lost on interest account. If, as is persistently reported, the Canadian Pacific should abandon the line between Sudbury and Port Arthur in favor of the route through Dakota, we shall have another white elephant to nurse. The racial and religious differences inherent in the peculiar structure of the community are just now in a state of active eruption. Quebec is greatly agitated over what is going on in Manitoba and the Territories, and it would not take much to communicate the fire to some of the other provinces. The most serious trouble, however, is the trade question. Sir John undertook to secure reciprocity of trade with the United States by means of reciprocity of tariffs. That was his platform, but it is tolerably clear that his real object from the first was protection. Which over it was he has simply succeeded in divorcing Canada commercially from the rest of the continent. The result is that our foreign trade is suffering from atrophy, and the development of the wealth of the country being prevented, people are leaving it in unprecedented numbers. A few manufacturers have grown rich, but in most lines the small home market is overcrowded, so that the competition, where it is not restricted by combines designed to extort the last farthing from the consumer, is murderous. Witness the wholesale extinction of implement firms. The pressure of the N. P. and the McKinley Bill upon the farmer is extremely severe, and his impoverishment reacts upon every branch of business. The Americans are ready to enter upon what they deem an equitable arrangement — free exchange in manufactures as well as in natural products — and this is the only way out of the crisis. It will involve a loss of revenue and will, therefore, necessitate the application of the knife to the public expenditure. But that would be a blessing in disguise if it should result in the forcible weaning of the people from a system of largess and subsidy which is destroying their individual self-reliance as well as impairing their moral fibre. Here again compromise is out of the question. We must accept closer trade relations in the shape of continental free trade pure and simple, or continue on the road that leads to disruption.

In contemplating the mystery of human suffering, Job observed that men who have failed in their duty, oftentimes depart in peace and prosperity. Their houses are safe from fear, neither is the rod of God upon them, the bull gendereth and faileth not, they rejoice with timbrel and harp. Sir John is taking leave of the scene amid less cheerful surroundings. It is said in his behalf that of all modern countries, Canada is, from her composition and geography, the most difficult to govern. But, making due allowance for the intractable nature of the material he has had to deal with, it cannot be denied that he has thrown away priceless opportunities and frequently done the wrong thing with his eyes wide open to the right. His worst enemy, however, must surely wish him a happier end than to depart leaving the country crippled and burdened to the last point of endurance, whilst the halls of Parliament are ringing with charges against the honor of his Cabinet, preferred not by an enemy, but by a Tory of Tories, grown sick of the eternal round of corruption. Great as his loss will be to his party in any event, it will be all the more disastrous if he should be succeeded by Tupper; but who else is there? The Liberals would not agree to a coalition with that man upon any consideration, nor with the better element of Toryism unless they had the entire ordering of things, which would mean the removal of the carcase of the N. P. and a general reconstruction based upon continental free trade, that is to say, the repeal of the entire Tory policy as it now exists. Even then it would be no easy job to extricate the country from its perilous situation. Sir John has governed for many years upon the maxim of "After me the deluge," and we fear the deluge is at hand.

Free to Ladies.

Every lady reader of this paper sending at once her address on a postal card will receive a free copy of the *Ladies'* (Pictorial) *Newspaper*, containing full particulars of their old fashioned English prize competition. Over $6,000.00 in prizes will be given away between now and June 1st, with special daily prizes of value for each locality. The *Ladies' Newspaper* is one of the largest and most profusely illustrated publications in Canada, and the competition offered by them is to be conducted in a strictly honorable manner, without partiality to persons or locality. Anyone can secure a good prize by a little work. No cheap premiums will be given. It costs you nothing for full information and a sample copy, if you send at once. Address: The *Ladies Newspaper Co.*, Canada Life Building, Toronto, Ontario. d73-w14

A Spring Medicine.

There are few who do not at this season feel the need of a spring medicine, and to all such we recommend Lane's Family Medicine as the best. This is a pleasant herb drink made by pouring boiling water on the dried roots and herbs. Druggists sell the packages at 50c. and $1. It is the best as well as the pleasantest cure for constipation and headache. dw

A True Bill.

Wm. Gillespie, Wolfe Island, Ont., says: I had indigestion and stomach cough for three years. Was treated by best physicians and used numerous patent medicines without success, when two bottles of Miller's Emulsion of Cod Liver Oil cured me. I have great pleasure in recommending it. For sale by all druggists. dw

Once Used, Always Used.

This is a fact as regards Dyer's Jelly of Cucumber and Roses, from its wonderful efficiency in curing chapped hands, and making the skin smooth and soft. Druggists keep it. W. A. Dyer & Co., Montreal 6d92

Worthy of Confidence.

Those who have used it praise it! Mrs. George Ward writes from Josephine, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2a203

From the Pacific Coast.

We quote from a letter recently received from Miss Eleanor Pope, Port Haney, B.C.: "For sore throat, coughs, croup, bruises, &c., Hagyard's Yellow Oil is the best thing I have ever used." 2a203

The Royal Rheumatic Remedy, taken internally, strikes directly at the foundation of the disease. At once relieves pain by removing the cause of disease. The cause removed, a cure is effected. For sale by W. R. Greatrex, druggist, Peterborough. dw

Everybody Admires Soft White Hands. And every lady ought to use Dyer's Jelly of Cucumber and Rose, as it makes the skin soft and smooth. Druggists keep it. W. A. Dyer & Co., Montreal. 6c92

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

AS AN AID to internal remedies for skin diseases, Dr. Low's Sulphur Soap proves very valuable dw

Sufferers

FROM Stomach and Liver derangements—Dyspepsia, Biliousness, Sick-Headache, and Constipation—find a safe and certain relief in **Ayer's Pills.** In all cases where a cathartic is needed, these Pills are recommended by leading physicians.

Dr. T. E. Hastings, of Baltimore, says: "Ayer's Pills are the best cathartic and aperient within the reach of my profession."

Dr. John W. Brown, of Oceana, W. Va., writes: "I have prescribed Ayer's Pills in my practice, and find them excellent. I urge their general use in families."

"For a number of years I was afflicted with biliousness which almost destroyed my health. I tried various remedies, but nothing afforded me any relief until I began to take Ayer's Pills."—G. S. Wanderlich, Scranton, Pa.

"I have used Ayer's Pills for the past thirty years, and am satisfied I should not be alive to-day if it had not been for them. They cured me of dyspepsia when all other remedies failed, and their occasional use has kept me in a healthy condition ever since."—T. P. Brown, Chester, Pa.

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills, and deem it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years past I have taken one of these Pills every night before retiring. I would not willingly be without them."—G. W. Bowman, 26 East Main st., Carlisle, Pa.

"Ayer's Pills have been used in my family upwards of twenty years, and have completely verified all that is claimed for them. In attacks of piles, from which I suffered many years, they afforded me greater relief than any medicine I ever tried."—Thomas F. Adams, Holly Springs, Texas.

VALUABLE HOUSEHOLD
Property For Sale
BY TENDER.

TENDERS WILL BE RECEIVED for the purchase of the following properties:

Being Parts of Lot No. 2, North of Simcoe Street, and East of Water Street, in the Town of Peterborough.

At $—— per foot frontage, en bloc, or separately, to the Twentieth Day of May, Instant, At noon, addressed to the undersigned and marked "Tenders re Albert Hall Estate."

Parcel No. 1.

Part of said lot, containing 7,247 square feet, more or less, and more particularly described as follows: Commencing where a post has been planted 119½ feet east from the south west angle of town lot, No. 1, east of Water street, and north of Simcoe street, thence east 25 feet on Simcoe street, thence north 80 feet, thence west 25 feet to a Lane 19½ feet wide, thence 80 feet to the place of beginning. This property is a corner lot in the centre of the town, and a very desirable property for a residence. There is situated on it a story-and-a half plaster house. It is immediately opposite the residence of George Dunsford, Esq.

Parcel No. 2.

Containing 3823 square feet, more or less, and having a frontage of 45 feet on Queen street, with a depth of 85 feet to said Lane. On this property is a two story double brick house, and being Nos. 15 and 17 Queen street, with rooms over brick kitchens, good cellars, hard and soft water and outbuildings. This street is opposite front of St. John's church.

Parcel No. 3.

Immediately south of and adjoining Parcel No. 2, having a frontage of 50 feet on Queen Street, by a depth of 85 feet to the said lane. On this property is a very desirable brick dwelling, two storeys, and brick kitchen, good cellar under the whole house, wooshed, hard and soft water, etc. There is also thereon one Brick Bake Shop, with cellar and ice house, with access thereto from the lane. From their proximity to the centre of the town these properties are always in demand.

TERMS.—The Vendors will prepare conveyances at their own expense, and will produce only the title deeds and evidences of title in their possession. Ten per cent. to be paid when notice given that tender is accepted. Balance within thirty days, without interest. Fifty per cent. of amount may remain secured on property at six per cent.

The highest or any tender not necessarily accepted. For further particulars apply to Messrs. A. COMSTOCK or R. LONG, Trustees, Or to

In 9 Cases Out of 10
B. B. B.
CURES DYSPEPSIA.

DEAR SIRS,—About a year ago I had a very bad attack of dyspepsia. For nearly four months I never ate a meal without suffering pain after. I kept getting worse and worse until I was obliged to give up my duties as a teacher. I had got so weak I could scarcely walk, when one day I saw an advertisement for B.B.B., and thought I would try a bottle; I did so, and before I had finished it I was able to teach again. Four bottles cured me completely. MISS JANET STUART, Muskoka Falls, Ont.

In 19 Cases Out of 20
B. B. B.
CURES BILIOUSNESS.

DEAR SIRS,—I was troubled for about 35 years with Bilious complaint, and after using about three bottles of your Burdock Blood Bitters, I feel entirely relieved, and have not had an attack for the last two years. JOSIAH GAMEY, Maxwell, Ont.

In 49 Cases Out of 50
B. B. B.
CURES BAD BLOOD.

GENTLEMEN.—Last fall I had boils very bad, and a friend advised me to try B.B.B., and so I got a bottle, *the effect was wonderful*, the boils began to disappear, and before the bottle was done I was totally cured. As an effectual and rapid cure for impure blood, Burdock Blood Bitters cannot be excelled. JESSE JOHNSON, Rockwood, Ont.

In 99 Cases Out of 100
B. B. B.
CURES CONSTIPATION.

DEAR SIRS,—I was troubled by costiveness and sick headache, and in fact felt very miserable until I tried B.B.B. I used seven bottles with Burdock Pills also, and they made me as well as ever I was. This was about two years ago and I still enjoy the best of health. MRS. A. MCCULLOCH, Digby, N. S.

Even in the Worst Cases
B. B. B.
CURES SCROFULA.

SIRS,—Two years ago I was troubled with an ulcer on my ankle; having used B. B. B. for bad blood I procured a bottle, and a box of Burdock Healing Ointment; after using three bottles and three boxes I was completely cured, and can recommend it everywhere. Yours truly, MRS. WM. V. BOYD, Brantford, Ont.

B. B. B.—$1 per Bottle, 6 for $5, or less than 1 Cent a Dose.

SORRY, TOO LATE.

I had several properties which I have been pressing upon the public during the past two or three months, at what I called low prices. A great many buyers examined them, and a few thought they would buy after a time, but while they were considering, with their money in the bank at four per cent., that very quiet and shrewd capitalist from Norwood, P. W. Reynolds, Esq., came along and bought the whole, and now those who were going to buy are sorry for losing such bargains. Mr. Reynolds is now the owner of FOURTEEN houses in town, all tenanted, and paying from seven to twelve per cent. interest on his investments. He has also a number of vacant lots, which he could readily resell at a big profit. Nine months ago I sold him his first purchase.

I have a few acres of land, for sub-division, near the Edison Works, which any intelligent man can make big money out of. Call for particulars.

I am the home-seeker's true friend. If you want a home come to me and I will guide you right.

391 GEORGE STREET.

THE SWORD WAS BLUNT.

The Mikado Says the Czarevitch's Wound Is of a Trifling Character.

BERLIN, May 14.—The Japanese Embassy here has received advices from Tokio stating that the Mikado's physician reports that the Czarevitch's wound is trifling. There is a complete absence of fever and the Czarevitch is in good spirits. The latest report concerning the affair is that the Czarevitch and Prince George were returning incognito from a place of amusement when they came in conflict with police officers, who asserted themselves too vigorously until the identity of the princes was revealed. The princes were without escort at the time. The slightness of the Czarevitch's wound is explained by the fact that the Japanese police use blunt swords.

ALL NOT GOLD THAT GLITTERS.

Greenhorns Still Biting at Sensational Mining Bait.

LONDON, May 14. In spite of repeated warning sent out from time to time exposing the fraudulent character of so-called English estate agents in America, a host of developments show the number of victims increasing. During the past few weeks more letters than ever before have been received from America inquiring after imaginary estates of fabulous sums awaiting the writers in the Bank of England. In the case of many estates such as the Jennings, Lawrence-Towdey or Chase-Townley, Hyde, Hyrne, Bradford, Hodges and other real circulars had to be printed to answer the numerous applicants. The fraudulent agents insert advertisements in newspapers regarding alleged estates and collect fees for pretended searches, etc., from the parties who are persuaded that they are heirs. The latter often pay money to these agents for several successive years.

A Budget of Horrors

BERLIN, May 14. Albert Ebner, until recently Mayor of Stuttgart, in Baden, was sentenced to death at Constance for the murder of his wife and her sister, Maria Benz, and setting fire to the house occupied by his mother-in-law, aged 80 years, thus causing her death by burning. There was also proved that Ebner had committed nine outrageous assaults upon women.

Herr Wilmes, manager of a savings bank at Olpe, Prussia, died recently, deeply lamented by his fellow-townsmen, who regarded him as a model of honesty. So great was the confidence reposed in the banker that a majority of the depositors in his institution allowed him to keep their books and adjust their accounts without supervision on their part. It has just been discovered, in settling up the affairs of the deceased, that nearly a million marks belonging to the confiding depositors is missing.

Herr Kraal, a well-known banker, has been robbed and murdered in broad daylight on the highway near Eisenach, Saxe-Weimar.

While a regatta of the Segler Club was in progress on the Muggel Lake, near this city, to-day the yachts Eintracht and Robert collided and the latter was sunk. Herr Mogk, owner of the ill-fated craft, was drowned.

AGED BUT WICKED.

A Septuagenarian Found Guilty of Firing His Barns for the Insurance.

ORANGEVILLE, May 14.—John Kirkland, aged 72, was found guilty at the Assizes to-day of setting fire to his barn near Mansonville, to secure an insurance of $110, much more than its value. He was recommended to mercy and was given three years in the penitentiary.

THE CAMPBELLS ARE GOING.

The Chief Bookkeeper of the Montreal Department is Missing.

MONTREAL, May 14. Mr. John E. Campbell, the head bookkeeper of the Montreal Customs Department, is missing. It is found his books are wrong. An investigation will be held. He is supposed to have fled to the United States.

The Care of the Eyes.

It is a poor master who does not look out for his servants. But what more faithful servants could be imagined than the eyes, yet see how they are abused by so many of us. Dr. Lincoln, in the "Annals of Hygiene," gives these rules for the care of the eyes in desk-work and other student occupations:—

1. A comfortable temperature, and especially let the feet be warm and dry.
2. Good ventilation.
3. Clothing at the neck loose, the same as regards the rest of the body.
4. Posture erect: never read lying down or stooping.
5. Little study before breakfast, or directly after a hearty meal; none at all at twilight or late at night.
6. Great caution about study after recovery from fevers.
7. Light abundant, but not dazzling.
8. Sun not shining on desk, or on objects in front of the scholar.
9. Light coming from the left hand, or left and rear, under some circumstances from in front.
10. The book held at right angles to the line of sight, or nearly so.
11. Frequently rest by looking up the [illegible] book from the eye about [illegible]

Burned in Their Beds.

OTTAWA, May 14. Early this morning a fire took place in the Chaudière road, three miles from the city in the private residence of William Hudson. Hudson and his wife were on the ground floor of the building and managed to escape, but their son James, 24 years of age, who was asleep upstairs, was burned to a crisp. His sister Maud also perished in the flames, while her sister, a girl of 15 years of age, escaped by leaping from a window to the ground. The cause of the fire is unknown.

Want Aid For Their Harbor.

MONTREAL, May 14. A deputation of harbor commissioners will shortly proceed to Ottawa to endeavor to obtain from the Government a loan to enable them to proceed with harbor improvements.

Smuggled Chinamen and Opium.

ROCHESTER, May 14.—W. S. Mather is on trial at the U.S. Court here for smuggling Chinamen from Canada into the United States at Sackett's Harbor last Christmas Eve. Yon Won and Wing Chiping are under indictment for smuggling opium from Montreal through Rouse's Point.

Took Leg Bail

WINNIPEG, May 14. One of the toughest cases in Manitoba Penitentiary, Convict Hall, sentenced to 10 years for safe blowing at Portage, escaped last night and has not yet been recaptured. He had only served three years.

The foreign merchants at Lisbon propose to appoint three delegates: one French, one English and one German, to take action in common with the Portuguese committee on the matter of the debt.

Children Cry for Pitcher's Castoria.

"HULLO."

W'en you see a man in woe,
Walk right up and say "hullo!"
Say "hullo," an' "how d'ye do?"
"How's the world a-usin' you?"
Slap the fellow on his back,
Bring yer han' down with a whack;
Waltz right up, an' don't go slow,
Grin' an' shake an' say "hullo!"

Is he clothed in rags? O shoo!
Walk right up an' say "hullo!"
Rags is but a cotton roll
Just for wrappin' up a soul;
An' a soul is worth a true,
Hale an' hearty "how d'ye do?"
Don't wait for the crowd to go,
Walk right up and say "hullo!"

W'en big vessels meet, they say,
They salloot an' sail away
Jest the same are you an' me,
Lonesome ships upon a sea:
Each one sailing his own jog
For a port beyond the fog,
Let yer speakin' trumpet blow,
Lift yer horn an' cry "hullo!"

Say "hullo," an' "how d'ye do?"
Other folks are good as you.
W'en yer leave yer house of clay,
Wanderin' in the far-away,
W'en you travel through the strange
Country that is safe the range,
Then the angels you've cheered will know
Who ye be, an' say "hullo!"

Woman—A Problem.

To the Editor:

It is difficult to understand why so many women suffer in silence from those diseases peculiar to their sex, when they have at their command a remedy guaranteed to put an end to their suffering and restore them to perfect health. Dr. Williams' Pink Pills never fail in cases of functional derangement, irregularities, suppressions, bearing-down pains, weakness, and the many other complaints with which womankind is afflicted. They restore the system, enrich the blood and bring the red and rosy glow of health to pale and sallow cheeks. They are equally efficacious from girlhood to old age, and are a boon and a blessing to suffering woman:

Mrs. S. Devine, Petawawa, Ont., writes:—My daughter has been ill for the last two years. She is pale, weak, short of breath, with ringing noises in the head, cold hands and feet, and not RIGHT. Doctoring all the time and of no benefit. The doctor says her blood has turned to water, and that she is run down very low. After taking four boxes of Pink Pills she again writes:—I enclose balance due on Pills. I am well satisfied with them, and I must say that I have got every satisfaction that any person could ask. I can recommend your Pink Pills to anyone that is out of health. The change in my daughter's health and appearance is so wonderful that a great many persons are continually asking me for some of the medicine that cured her, so I wish to take an agency for the sale of your pills in this place.

Mrs. M. M——, Brockville, Ont., says:—Gentlemen,—My daughter S——, was sick for about a year, crying all the time with the pains of her head and eyes. In the morning her eyes and face were all swelled. She was pale and short of breath, with great jumpings of her heart whenever she tried to do anything or walk. Appetite bad or else entirely gone, with a dirty tongue and a bad stomach. She was never properly regular. She took two boxes of Dr. Williams' Pink Pills and they cured her. She became regular within a month, and she remained so since, and is in the best of health. I can heartily recommend these Pills to all sufferers who are in the miserable condition my daughter was.

These pills are for sale by all dealers, or will be sent post paid, in sealed package, on receipt of price (50 cents a box), by addressing the Dr. Williams' Medical Co., Brockville, Ont. 2la-1w20

Ask Your Friends About It.

Your distressing cough can be cured. We know it, because Kemp's Balsam within the past few years has cured so many coughs and colds in this community. Its remarkable sale has been won entirely by its genuine merit. Ask some friend who has used it what he thinks of Kemp's Balsam. There is no medicine so pure, none so effective. Large bottles 50c. and $1 at all druggists. dw

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2w20

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She resolved to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS. KENNEDY, Hamilton, Ont. 2w20

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2w20

When Baby was sick, we gave her Castoria
When she was a Child, she cried for Castoria
When she became Miss, she clung to Castoria
When she had Children, she gave them Castoria.

Ahead of Koch's Lymph.

Charles Campion, Kingston, Ont., says:—Gained 7 lbs. with one bottle of Miller's Emulsion of Cod Liver Oil. Cured bad Bronchial Cough with a few doses and made me feel like a new man. I strongly recommend it. All druggists keep it. dw

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

SOME SYMPTOMS OF WORMS are:—Fever, colic, variable appetite, real tenacity, weakness and convulsions. The unfailing remedy is Dr. Low's Worm Syrup. dw

THE RED COLOR of the blood is caused by the Iron it contains. Supply the iron when lacking by using Milburn's Beef, Iron and Wine. dw

STEEBORN CHILDREN readily take Dr. Low's Worm Syrup. It pleases the child and destroys the worms. dw

"MANY MEN, MANY MINDS," but all men and all minds agree as to the merits of Burdock Pills, small and sugar coated. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick

ACHE

is the cause of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

Self Application of Electricity

FOR MEDICAL PURPOSES

BY THE

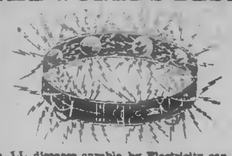
DORENWEND

ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto.

THE WORLD'S BEST.



ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

A Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eod-w

Business Ramifications.

Mr. A. Kingcote, tent and awning manufacturer, is pushing his business into wider channels than merely local. He has just filled an order from Winchester, Ont., for three awnings, a large tent and a curtain, and a letter of acknowledgement states that the goods have given every satisfaction. This morning Mr. Kingcote received an order for ten covers for cheese wagons.

A Mid-Day Alarm.

An alarm of fire was sounded from No. 3 Ward a few minutes after one o'clock to-day. Fire was observed in the roof of Mr. Alex Gibson's house on George street, which it is supposed was caused by a spark from the smoke-stack of Rainsford's planing mill. The brigade turned out but their services were not required, the flames being extinguished by some neighbors who quickly gathered. Very little damage was done.

Mr. Wood is Wanted.

The Chief of Police has received the following letter addressed to Wm. Wood:—

ROSENEATH, May 15th, 1891.

MR WOOD—DEAR SIR—I am sorry to inform you of your fathers death. He was found dead in his bed this morning. You must be here immediately

Yours, etc.,

JAS EDDINGTON.

Any person knowing Mr. Wood will kindly inform him of this letter.

Sam Small.

The Rev. Dr. Sam Small, who has been drawing immense audiences in Toronto, is likely to pay Peterborough a visit under the auspices of the Charlotte street Epworth League. This eloquent lecturer is one of the cleverest and most trenchant platform speakers and if he comes a big treat is in store for our citizens. We will be able to announce more definitely in our issue of Monday evening. 1d

Children Cry for Pitcher's Castoria.

The "Guards" at Church.

The Canadian *Military Gazette* says:—The Governor-General's Foot Guards had a parade to Christ Church, Ottawa, accompanied by the Dragoons, on Sunday. They made a splendid turnout, and the fine playing of the band was also generally commended. Major Colville, the Governor-General's secretary, took part in the parade. The Guards are in good shape for the Queen's Birthday trip to Peterborough, where they are to receive the hospitality of the 57th.

The Guards' and Rangers' Concert

The following is the programme that will be rendered by the band of the Governor-General's Body Guards and the band of the Peterborough Rangers, on the evening of May 25th:

1. Grand March—"Unity"..57th Band and G. G. B. G.
2. Overture—"Le Macon".....G. G. F. G.
3. Fantasia—"Pride of Scotland". 57th Band
4. Valse—"Ehren on the Rhine".....G. G. F. G.
5. Selection—"Maritana".....57th Band
6. Fantasia—"Ten Minutes with the Minstrels"
7. Overture—"Bohemian Girl".....57th Band
8. Lancers—"Madame Angot".....G. G. F. G.
9. Fantasia—"Brudder Gardender's Picnic" 57th Band
10. Galop—"Kassassan".....G. G. F. G.

GOD SAVE THE QUEEN.

A Catastrophe Averted.

The village of Hastings narrowly escaped a sweeping conflagration Friday afternoon. Some stables and sheds in rear of the residence of Mrs. John Peters took fire, and but for the united and strenuous efforts of the villagers, who turned out in large numbers and assisted the fire brigade, the wind would doubtless have carried the flames into the business blocks and immense damage would have resulted. The hand engine, manned by sturdy crews, did good service, and the fire was confined to the sheds. The loss will not be heavy.

We Mean Business.

The Bobcaygeon *Independent* says:—An engineering party of the Grand Trunk staff, under Mr. T. A. Hay, and Mr. G. F. Cairnie, have this week surveyed a line from Beat station on the Missing Link, to this village. The line is a trifle longer from Peterborough than via Chemong and length of road to be built a trifle longer than from Chemong, but as it avoids the lake it would probably be built as cheaply as the Chemong extension, and would be less expensive in repairs. The line is a good one and easy of construction. Whether there is any serious intention on the part of Peterborough is another question. If there is, so much the better. Come right along.

Open Temple.

A large gathering greeted the members of Carswell Lodge, I.O.G.T., at their open temple Friday night, the hall being crowded, many having to remain standing the entire programme, which was run off as follows, Mr. J. G. Early in the chair:—

Prayer.....Chaplain
Chorus.....Lodge choir
Reading.....Mr. Freeborne
Instrumental.....Mrs. Jinks
Address.....Mr. Chadwick, of Stratford
Dialogue—"Don't Marry a Man if he Drinks"
Instrumental—organ and flute...Mrs. Jinks and Mr. Jackson
Recitation.....Miss Pratt
Recitation.....Miss Kingdon
Dialogue.....Tower of the Family
Solo.....Mrs. J. Munro

A Society Drama.

The "Runaway Wife" was played before a discouraging audience at the opera house last night. In some respects the performance was satisfactory, in others disappointing. The "Runaway Wife" is a play of the usual sentimental society order, with no new features, nor the least originality of plot. The company playing it is very good, and comprises some dramatic artists of a high class. Perhaps the staring rows of empty seats had an enervating effect upon the stage people, at any rate it was only occasionally they rose to the requirements of the situation and put a proper amount of spirit into the acting. With a better play the company would have made a better impression. Little Lottie, "the child wonder," proved herself a most amusing midget in her specialties. She has a sweet strong voice for such a little mite, and sang comic songs with delightful abandon and mimicry. She was "cute" beyond expression. The company plays at Lindsay to-night.

What Birth of the Bike.

It may interest riders of the fiery untamed bicycle to know that the origin of their legless steed dates back to 1817, and is due to Baron K. von Drais, who in that year invented the first bicycle—two wheels connected by a frame, over which a saddle was mounted in such a way that a person riding it could touch the ground with his toes, and propel himself at a little greater speed than by walking. Four years later Michaux, a Frenchman, added cranks and gearings, but the machine was rude and cumbersome and never became popular. It would, probably, have been entirely forgotten, had not Mr. Drais distinguished himself by the invention of the handcar for use on railways, which to this day is known all over Continental Europe as the "Draisine." The credit of the development of the Michaux machine into the velocipede and of the latter into the bicycle of the present day belongs in the first place to English mechanics, and genius has added many valuable improvements and has done as much else to make cycling a popular sport.

Uncle Tom's Cabin.

The production of this familiar drama of Mrs. Stowe, by Harverly's Uncle Tom's Cabin Company, drew a large audience to our Opera House, on Friday night. The scenes as every one is aware, are laid in the South, and the characters typical of that section. The manifest design of the author was clearly set forth by this company, several other features of interest being added. Miss Amy Arlington, as Eliza, skilfully portrays the passion of love, anxiety, doubt and despair; her studied familiarity with them makes the audience for get that it is fiction and not truth they hear. Miss Dot DeGroat as Topsy at once conquers the mirth-loving. She is a clever actress, a good vocalist, and charmingly captivated her hearers with her jokes, her feigned sorrows, and her songs with banjo accompaniment. Little Florence Arlington personated Eva; her simple and instructive talks with Uncle Tom form impressions not soon forgotten. Miss Florence is a mere speck of humanity, but for all that carries a head that would fit larger shoulders. Mr. G. A. Baker, in the double role of Harris and St Clair sustains both well, meaning more than usual praise for his successful representation of both. In Simon Legree, the brute and slave-driver, the villian is correctly portrayed. The sympathies of the audience are not with him, but the artist is truly as conspicuous in Mr. Burns as Legree, as in any of the cast. "Marks," cowardly, irascible, nervous and fun-loving, yet unite a purpose in it all, is the life of the play. In this character, Billy Kibble can let loose the natural mirthfulness of his soul, and he does so with astonishing effect on all who hear him. Mr. H. Thorp is veritable Uncle Tom His portrayal of rigid adherance to right and resolve to "do just" before violating "de good book" form a riking contrast with his surroundings. In fact, every feature of the play was successfully brought out, and each of the players an artist in his or her line—Martinburg, (West Virginia) *Independent*, September 20 1890. Bradburn's Opera House Friday May 22. Seats at Greatrex's. 1d

Obituary.

The Late Michael Condon.

In the death of Mr. Michael Condon, who died at his residence 147 Aylmer street, this afternoon at the venerable age of 92 years, this county loses one of its oldest, and Douro its oldest settler. Mr. Condon was born at Marshalt wn, Cork County, Ireland, in the closing year of the last century—1799, and in 1825 came to Canada, settling in Douro, where he lived till within a few years when he came to live in Peterborough. Mr. Condon followed the occupation of farming and quietly discharged the duties of a faithful Catholic, a good citizen, kind father and good neighbour in a manner to win the respect and esteem of all. Mr. Condon leaves behind him a widow, aged 84 years, and ten children, living in different parts of the United States, the four daughters only living in Canada, three in Peterborough and one in Douro. The funeral takes place from the family residence at 9.30 on Tuesday morning, to St. Peter's Cathedral.

A Peterborough Citizen Honoured

Mr. John R. Reid, of Reid, Gilmour & Co., Signally Honoured—His Oddfellow Brethren Present Him a Gold Watch and an Address—Mr. Reid's Reply.

The Brockville *Times* thus refers to the circumstances under which Mr. Reid, of Gilmour, Reid & Co., biscuit makers and confectioners, was honoured by the citizens with whom he has been associated so long, and whom he is now leaving to become an equally respected citizen of, at least, an equally good town. From the Brockville *Times* of Friday we take the following:—

Apart from the regular business transacted at the meeting of St. Lawrence Lodge I. O. O. F. last night, a very pleasing occurrence took place being the presentation of a handsome gold watch and an address to Mr. John R. Reid, past grand master, who is about to leave Brockville to reside in Peterborough. The address was as follows:—

John R. Reid, Esq. P. G. St. Lawrence Lodge, No. 137 I.O.O F., P.G.M. Grand Lodge of Ontario.

DEAR SIR AND BRO.—It is with feelings of profound regret that the members of St. Lawrence Lodge have learned that you are about to remove from Brockville, to enter business in another part of our fair province.

During your long connection with St. Lawrence Lodge we have found you an Oddfellow indeed, ever ready, even at personal sacrifice, to promote the true interests of our beloved order and to spread abroad its benign of friendship, love and truth.

Always a wise counsellor, the active part you have taken in the cause of Oddfellowship has not only done much to promote the prosperity of your mother lodge, but has aided materially in building up new branches of the order in the eastern part of the jurisdiction, and we can assure you that your genial presence and kindly counsel will be greatly missed by the members of St. Lawrence Lodge.

We feel that we cannot permit you to depart from our midst without giving you some tangible token, however small, of the high esteem in which we all personally hold you, and while conveying to you our earnest wishes for the fullest measure of success in your new home, and in the undertaking you have embarked in, we would ask you to accept this watch as a remembrance of the warm friends you leave behind.

Signed on behalf of St. Lawrence Lodge,

W. J. MOORE, N. G.,
THOS. MCFARLANE, P. G., Sec'y.

The address was read by Chas. H. Frost, P.G., and the presentation made by W. W. Wood, P.D.D.G.M. The inscription on the watch read, "Presented to John R. Reid, P.G.M., by St. Lawrence Lodge, I.O.O.F., Brockville."

Mr. Reid, although entirely taken by surprise, made a very effective reply. He stated that it was not an easy thing to sever associations, that so far as the good town of Brockville was concerned, extended back over nearly a quarter of a century, and so far as St. Lawrence Lodge was concerned went back nearly a decade and a half. He fully appreciated all the kind sentiments contained in the address, because he knew enough of his good brethren to accept the expressions as heartfelt, and while he valued highly and would ever prize dearly the beautiful tangible evidence of esteem that had been handed him still he fancied he would always regard the address as possibly the most important souvenir that he had ever received during his connection with the order, representing as it did something what every man ought to value highly, viz., the appreciation of good and true men. He reviewed briefly his career in Oddfellowship, dealing especially with his labors in the eastern portion of his jurisdiction. He had to the best of his ability endeavored to farther the interests of the Order, and in leaving the scene of his fraternal labors for so many years, he felt that he might take a pardonable pride in what a retrospective glance glance revealed, viz., that he had been helpful in some degree in extending the borders of the organization that is so dear to every Oddfellow. He urged the members to faithful and harmonious work, and, above all to live consistent lives. It was only by so living and acting that they would be working out the true mission and destiny of Oddfellowship. He would not say an affectionate farewell. This is a word of parting, and ties are continually being severed, but what a grand consolation it is to know that after the partings of this life are over, we may all meet in a better and brighter meeting place above and spend an endless eternity in a holier, happier service. The knowledge that he was followed by their best wishes and prayers for success in mind, body and estate would prove a source of inspiration and strength to him, and his parting benediction was that they may be the recipients of Heaven's choicest blessings, not only as a body, but as individuals.

Bro. B. F. Steben, manager Brockville Water Company, stepped forward just as Mr. Reid was about to reply and presented him with a handsomely framed certificate of membership. Mr. Steben spoke in very complimentary terms of Mr. Reid. He always found him a gentleman and, although sorry to lose him as a member of St. Lawrence Lodge, he hoped the best of prosperity would attend his efforts in his new home.

Bro. W. W. Wood, P.D.D., P.G., expressed regret at Mr. Reid's departure. He thought St. Lawrence Lodge should be proud that Mr. Reid, one of its members, had attained to the highest honour that the Order could bestow. During Mr. Reid's fifteen years connection with Oddfellowship, he had, as it were, been a teacher to the other members of the lodge. Brockville will not only lose a good Oddfellow, but also a prominent citizen.

Remarks were made by Bros. W. J. Moore, N.G.; D. Clarke, P.G., and Bros. Saltman, P.G.; H. Rath, N.G., and W. J. Reynolds, P.G., of Brock Lodge, and Bro. Walsh, of Pembroke, and others.

Citizens generally will be sorry to learn that Mr. Reid is going from Brockville. He has always taken a deep interest in everything pertaining to the welfare of the town, and Brockville's loss is Peterborough's gain. He has filled a position on the public school trustee board with credit. Expressions of regret are expressed on all hands at his departure.

Range and Rifle.

Shooting in the Canadian Rifle League Match.

The first shooting in what promises to be a very interesting series of matches, took place at the ranges yesterday afternoon. The boys have not got their eye set yet, still some fair shooting was done. Following are the scores made by the first and second teams, that represent the 57th:—

FIRST TEAM.

	200 yds	400 yds	500 yds	Tl
Sergt. Belleghem	25	24	21	76
Sergt. Blade	22	23	25	70
Pte. Pentland	27	28	24	79

Police Court.

MAY, 16th, 1891.

There was little business done this morning at the mill of justice. John Fry's yielding to an old habit led to the magisterial formula of $2 or ten days.

Out Goes the Goods.

Prices does it. When we say things are to go, they go. We mean everything we say. Goods at first cost and less, to clear. No wild statements; absolute facts. $9,500.00 to be cleared in thirty days, and they are going—fast. KNOWLES & Co. d70w

The well known strengthening properties of Iron, combined with other tonics and a most perfect nervine, are found in Carter's Iron Pills, which strengthen the nerves and body, and improve the blood and complexion. dw

Going to Leave St. Catharines.

The following from the St. Catharines *Standard* should be read with amusing interest by members of the Board of Trad and town council:

A paragraph has been going the rounds that Patterson & Corbin, the St. Catharines street car manufacturers, are going to move away from here. A reporter asked Mr. Patterson if the firm had really made up their minds to leave St. Catharines.

"Most undoubtedly so," replied that gentleman.

"For what reason?" was asked.

"Oh, the citizens know pretty nearly why. One reason, however, is because we have no room here in which to turn around and we do not intend to invest in any real estate in St. Catharines. Another thing," he continued, "when we asked for a loan the city would not grant us one. We certainly are going where we can do the best for ourselves."

"How long will it be before you go?"

"In about three months; as soon as the contract we have on hand is finished."

"Have you decided upon where you will locate?"

"Not yet; but as soon as the present rush is over I intend to make a visit to two or three places and see what will be done for us."

"There is no possibility of your staying here," said the reporter.

"None whatever," was the reply.

Norwood "Registrations."

WOOLEN MILLS SOLD.—Mr. Jas. Cumming of this place, has sold his woollen mill at Hastings to Messrs. H. M. Fowlds & Son.

J. Davidson, M.A., Principal of the High School, passed his final examination in law, taking the degree of L.L.D. We extend congratulations.

SUGAR BEET SEED FOR DISTRIBUTION.—Mr. John Clark, secretary of the E. P. Farmers' Institute, has, for free distribution, 40 pounds of the above seed and will dispose of it in two pound lots to members of the E. P. F. I. as long as the supply lasts. The seed may be sown any time up to the first of June.

ACCIDENT AT FINLAY'S FACTORY.—Mr. Andrew McCoy, an employee in Finlay's factory, met with a severe accident on Tuesday. He was running a circular saw when, in some unaccountable manner, his right hand came in contact with the saw inflicting a number of ugly wounds. The hand was dressed by a medical man.

VESTRY MEETING.—At a vestry meeting held in Christ Church on Tuesday evening it was decided to build a chancel, operations to be begun at once. Plans have been prepared by Mr. E. W. Wilkins, D. T. S., of this village. These were submitted to the vestry and approved. Mr. T. M. Grover, Mr. Plant, and the Rev. Dean Gibson were appointed a building committee.

SATURATED WITH COAL OIL.—An old pensioner, who unfortunately gets on a "bender" once in a while, was shamefully treated the other night while intoxicated by some "smart Alecks." They saturated the old man's clothing with coal oil, completely ruining a good suit of clothes. The person in question, although he imbibes rather freely occasionally, is perfectly harmless when drinking, and "minds his own business" strictly. The parties guilty of this contemptibly mean trick should be punished.

Y. M. C. A. Notes.

Young men's rally to night. "Praise, prayer and promise meeting." Hearty singing. All young men welcome.

Mr. T. Dodds will lead the consecration meeting Sabbath morning at 9.15. Topic, "Sin the cause of sorrow." HOSEA X, 1-15.

Personal purity meeting Sabbath afternoon at 4.15. Straight talk to men only. Singing led by orchestra. Meeting will be addressed by Mr. T. S. Cole, Travelling Secretary.

Rev. A. C. Wilson, Asnburnham, will give the address at the Gospel and song service Sabbath evening at 8.30. Public invited.

Bible class for young men on Friday evening at 8 p.m. Topic, "Work plenty, workers few." All welcome.

More to be Desired Than Fine Gold.

Health is the only riches a man or woman ought set value on, for without it all men and women are poor, let their estates be what the will. What avail the riches of a Vanderbilt, a Gould or an Astor, if we continually suffer the tortures of nervousness, insomnia, headaches, brain worry and dyspepsia? In such a condition, the uneasy head and disease-racked body will fare as well in the humble cot, as in the gilded palace. The rich and poor are obliged to resort to the same life-giving fountain for relief and restoration. In Canada and the United States the favorite remedy for the wealthy and affluent is Paine's Celery Compound. Private letters received this year from several New York, Boston, Montreal and Toronto wealthy gentlemen, fully prove the value of this scientific compound in extremely complicated and dangerous cases. The middle classes, and working people, have in Paine's Celery Compound a friend for every ailment. The medical world look with surprise at its wonderful results, and use it daily as a great nerve and brain food, and life-giver for the sick everywhere.

News Nuggets.

—Mr. Wm. Cox, Sr., of Lakefield, is erecting a fine summer cottage on his island in Stony Lake.

—Dyspepsia's victims are numbered by thousands. So are the people who have been restored to health by Hood's Sarsaparilla.

—The West Peterborough census takers have completed their labors, and Commissioner Stapleton will forward the returns to Ottawa in the course of a day or two.

—The second entertainment to be given in St. John's South Ward Mission building will be held next Tuesday evening at 8 o'clock. A varied programme consisting of music, songs, recitations, and readings, will be given. Everyone will be cordially welcomed.

Personal.

Miss Balantyne, Peterborough, the *Guide* says, is the guest of Mrs. Charles A. Smith, Walton street, Port Hope.

Very Rev. Dean Condon, of Watertown, Wisconsin, is in town, being called hither by the sad duty of visiting his father, Mr. Michael Condon, Aylmer street, who we regret to say, died this afternoon.

Among the personal paragraphs in the Denver Hotel *Bulletin* is found the following: Mr. and Mrs. R. H. Green and Miss Green of Peterborough, Ontario, arrived in the city yesterday and took quarters at the Belvoir, one of Denver's fashionable family hotels. Mr Green is here to try Colorado's climate for his health.

DESAUTELS.—In Peterborough, on Friday, May 15th, 1891, Ida, infant daughter of Mr. Zotique Desautels, aged 10 months.

CONDON.—At 147 Aylmer street, on Saturday, May 16th 1891, Micheal Condon, aged 92 years. Funeral from the late residence on Tuesday morning at 9.30 to St. Peter's Cathedral.

On Fire with Eczema

Terrible Sufferings of Little Baby—Seven Doctors and Two Hospitals Fail—Cured by Cuticura.

My baby boy, 5 months old, broke out with eczema. The itching and burning was intense; the eczema spread to his limbs, breast, face and head, until he was nearly covered; his tortures attention were pitiable to behold; he had no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $3 per week for medicines, and was entirely discouraged. I purchased CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, blessed sleep were second, and rest as I never experienced. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and as nice a boy as any mother could wish home. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON, 35 W. Brookline street, Boston.

Cuticura Remedies.

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of eczema and psoriasis, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

Sold everywhere. Price, CUTICURA, 75c. SOAP, 35c.; RESOLVENT, $1.00. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testimonials.

PIMPLES, black-heads, red, rough, chapped, and oily skin cured by CUTICURA SOAP.

OLD FOLKS' PAINS.

Full of comfort for all Pains, Inflammation, and Weakness of the Aged is the Cuticura Anti-Pain Plaster, the first and only pain-killing strengthening plaster. New, instantaneous, and infallible. dw

Some women imagine that nothing will stand the peculiar breaking strain of their forms on corset "bones."

They don't know Kabo, which neither breaks or kinks.

If B. & C. corset boned with Kabo breaks or kinks in a year, go back to the store at which you bought your corset and get your money again, every cent of it.

If the corset doesn't suit you, after wearing a week or two or three, go back for your money.

There's a primer on Corsets for you at the store.

Purify the blood

The importance of securing the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is hereditted and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, or the water we drink. There is nothing more conclusively proven than the positive power of Hood's Sarsaparilla over all diseases of the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.

19dll5-w11

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable losses attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on these terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics' Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

THE OCEAN CATTLE TRADE

REPORT OF THE ENGLISH COMMITTEE INVESTIGATING IT

Plimsoll's Charges of Systematic Cruelty Not Substantiated—The Character of Vessels Which Should be Utilized in the Transatlantic Cattle Trade.

LONDON, May 18.—The Transatlantic Cattle Trade Committee to-day completed a voluminous report upon the subject which it has been investigating. According to the report, ocean steamships which are only occasionally chartered for the ocean cattle trade have in some instances an unsatisfactory class of officers, who are, generally speaking, without experience in this particular trade. The fittings and ventilation of such ships are also frequently unadapted to the uses to which they are put. In regard to the management of cattle in transit across the ocean, the report admits that the foremen engaged for the voyage are usually experienced and skilful men. On the other hand, it is added, the men who are employed under these foremen to feed, water and otherwise attend to the cattle while traveling across the Atlantic, are generally unskilled and; in many instances, totally unable physically to endure the exertion, privations and natural hardships of a rough voyage from America to England. The report also says that the men performing the difficult and dangerous duties of attending cattle in shipment to Europe are badly paid and fed, the "cattlemen," as they are termed, frequently being compelled to work for nothing. As a result of this state of affairs, the cattle are often left without food or water for considerable periods, especially in rough or cold weather when the cattlemen are suffering from seasickness or other troubles.

The accommodations and food provided for the cattlemen, the report continues, are often inadequate, and in numerous instances it is shown that the cattle on shipboard have been treated with great cruelty. But, the report adds, the allegations of Samuel Plimsoll (formerly a Member of Parliament, and well known as the originator of the "Plimsoll Line" on ships), to the effect that great and systematic cruelty is practised upon cattle on board the cattle ships, is not supported in the evidence taken by the committee. Among the witnesses examined by the committee was one who said, that he had seen men spitting tobacco juice into the eyes of exhausted cattle, and that he had also seen men pouring water into the ears and nostrils of cattle to make them rise to their feet.

The committee's report admits that it is difficult to arrive at the exact truth as to the cruelties to which it is alleged cattle on board ship are subjected, owing to the fact that it is in the interest of all concerned to conceal the real facts. The committee, however, is inclined to believe that cruelty is actually rarely practised except by the ignorant class of cattlemen already referred to.

Continuing, the report says that indirectly the conditions of the insurance of cattle shipped to Europe are such as to entail a certain amount of suffering. The certificates of insurance, it appears, generally state that no claim can be made for any animal landed alive, however much they have been injured during the voyage. It is the belief of cattle foremen that no insurance will be paid unless the animal dies a natural death. In contradiction of this, the representatives of the insurance companies say that do not make it a condition of payment of insurance that no beasts shall be slaughtered on the voyage. The evidence of cattlemen, however, proves that either the cattlemen do not know this or that they consider it more to their interest to land the cattle alive though injured. The insurance companies in order to encourage the cattlemen to handle their charges as carefully as possible give gratuities to these men. The committee, with the above and other facts, expresses the opinion that it is not surprising that cattlemen have mistaken views in slaughtering injured animals and that they have often kept cattle alive though the latter were suffering from broken legs.

In conclusion, the report says that cattle should not be carried on poop decks or under temporary shelters or upper decks. The report also says that the committee regards the comfort and safety of cattle on board ship as largely dependent upon the strength and efficiency of the pens and their fittings, which are often insecure, especially in the case of Canadian vessels.

The report recommends that, where ample ventilation for cattle is impossible, such vessels should be considered to be unfit for the transatlantic cattle trade. The committee is of the opinion that a foreman requires not less than four competent assistants for each 100 head of cattle. The foreman and his assistants should be required to sign the ship's articles, and the men should be thus placed under the authority of the captain.

She Swallowed a "Jack."

NEW YORK, May 17.—Elsa Schroeder, who lives at No. 109 South Fourth-street, Brooklyn, was playing "Jacks" in the kitchen of her home yesterday, and as she caught up the iron toys while the ball was bounding she stuffed them into her mouth. She accidently swallowed one of the "jacks" and lay down on a lounge. Her heaving breathing attracted her eldest sister's attention and she ran across to Dr. Roupe's surgery. The doctor ordered the child stood on her head and he began [illegible]. In a few minutes she threw up the "jack" and was then carried home.

Fell Dead in the Witness Box.

PROVIDENCE, R.I., May 17.—A sensation was caused in the Court House by a witness dropping dead in the witness box. During his testimony he warned the lawyers that he had heart disease and to not press him too closely upon his cross-examination.

[illegible] Death

[illegible] aged 10, accompanied [illegible] to get his shoes but [illegible] refused, persisting, set in from [illegible]

KEPT HIS BOOTS ON.

OFFICIAL ACCOUNT OF THE ASSAULT ON THE CZAREWITCH.

He Insulted the National Religion by Failing to Remove His Shoes and as a Result He Was Whacked Over the Head by a Policeman.

PARIS, May 18.—The French embassy at Tokio has telegraphed the official details of the attack upon the Czarewitch. From these it appears that the Czarewitch's assailant was a policeman named Thunda who had been eight years in the service. The Czarewitch and his suite were having Otsu in a jinrikshaw having just visited a buddhist temple. Both the Czarewitch and Prince George went to the shrines with their boots on and the chief bonzo on their entering complained to the Japanese guards about this offence against the national religion. The princes were entering the jinrikshaws, when Thunda, who was standing guard, dealt the Czarewitch a blow with his sword. Prince George returned the blow with his sword and threw Thunda several feet. The policeman rose to make another rush at the Czarewich; a Japanese closed the front of the carriage and another Japanese wrested the sword from Thunda and cut him down, inflicting a severe wound. The chief bonze, with several guards, arrested the man. The Czarewich's injury has already healed.

Snow At Whitesmtide.

LONDON, May 17.—Sharp frosts and storms of sleet and snow were experienced throughout the kingdom last night and much injury was done to fruit crops. The snow rapidly melts in the valleys but remains on hill tops in curious contrast with the bright vegetation. In London to-night the weather is warmer and rain is falling.

Snowstorms prevailed yesterday at Belfort and Vancy. The mountains of Alsace are covered with snow.

Will Settle in London.

LONDON, May 17.—Another large contingent of destitute Russian Hebrews has arrived here from Hamburg. The arrivals of Russian Hebrews are increasing in number. Each of the steamers of one line plying regularly three times a week between here and Hamburg is bringing a full complement of Russian Hebrew passengers. The Hebrews are also arriving here in large numbers by other lines, with the exception of a few who are going to the United States. All these new arrivals expect to settle in London or Manchester.

Out From Over the Sea.

It is stated that the Russian Government has ordered that immediate steps be taken in all provinces for the removal of Jews to the quarters in which they are permitted to reside.

Official details of the attack upon the Czarewitch show that the assault by the policeman was due to the fact that the Czarewitch insulted the national religion by entering a Buddhist temple with his boots on. The wound, which was trifling, has already healed.

The Paris Republique Francaise has a warlike article on England in Egypt. It contends that the French Government ought to resent the English preparations to destroy what is left of French influence; and says that the Chamber of Deputies as if the emergency are willing to grant whatever may be necessary to vindicate the rights of France.

Commercial telegrams have been received at Versailles from Tiflis and to the effect that a new volcano has appeared in Armenia at the summit of Mount Nameda in the district of Van, vomiting forth flames and lava. The villages at the base of the mountain have been destroyed and many persons are said to have been killed or injured.

Kanturk, in County Cork, was the scene of much disorder Sunday. While the McCarthyites were holding a meeting, the proceedings were interrupted by a band of Parnellites who invaded the place of meeting. A free fight followed in which many persons were seriously wounded. Numerous arrests have been made.

A duel growing out of a dispute originating in the stormy debate in the Chamber of Deputies on May 14th was fought to-day. The principals were Signor Barzini, a member of the Chamber of Deputies, who was wounded in the riots, and Capt. Bozzi. The former received wounds in the arm and head as the result of the duel.

The Quills Upon the Fretful Porcupine.

GALT, May 15.—One of the dogs belonging to Mr. Samuel McCormick discovered a porcupine in the woods and had a tussle with it, but was no doubt sorry for it afterwards, as he got stuck so full of quills that you could hardly tell the dog from the porcupine. The animal was at last beaten and finally killed. It was [illegible]

A Picnic of Parsons.

PARIS, May [illegible]
[illegible] Lavigne, Abbe [illegible]

days.

Poor Fanny Biggs' Fate

BOWMANVILLE, May 17.—The dead body of a poor old woman named Fanny Biggs was found lying beside the river bank, with one foot in the water and with a pail beside her. The floor of her house near by was found still damp from scrubbing, and it is supposed that she had been cleaning up and went for a pail of water, when in stooping she was taken with apoplexy or convulsions. The medical examiner stated that convulsions were the cause of death.

A Buffalo Clairvoyant Directs the Job

ST. CATHARINES, May 17.—The gold hunters are again at work digging out the Captain Kidd treasure some miles east of Port Colborne. The Reeb brothers and Messrs. Reeck and Baith are engaged in the search, and dynamite is used to loosen the rocks. A Buffalo clairvoyant is constantly consulted as to the success of the enterprise, and she is confident the gold will be found this time.

A NEW YORK MYSTERY.

SUPPOSED MURDER OF A WEALTHY WOMAN.

Her Body Found In the River Freighted Down With Heavy Stones—She Suddenly Disappeared a Few Weeks Ago.

NEW YORK, May 18.—The city has another murder mystery. Yesterday the body of a woman washed ashore at Newdorp, S.I. At 5 o'clock this evening two well-known young women visited police headquarters at Stapleton. They said they were daughters of Mrs. Mahler of 1056 Broadway, Brooklyn, who disappeared on Jan. 23 last. As soon as they were shown shoes worn by deceased they recognized them as having belonged to their mother. They also recognized a black cashmere waist found on the body of one of them having made the waist for her mother. They were surprised to learn there were suspicions that their mother had met with foul play. They said it was the opinion of the family that Mrs. Mahler, who had been in failing health had either fallen or jumped overboard while in a demented condition. They were informed by the chief of police that a Belgian pavement stone, weighing 19½ lbs., was found fastened to the body, the stone resting on her breast. It was secured by by a manilla rope of thickness of a clothes line tied about the body and fastened at the back in three or four knots. The right jawbone had been broken and also the bridge of the nose. Mrs. Mahler who was 56 years old was a dressmaker in Brooklyn where her four daughters and one son lived with her. In the latter part of November Mrs. Mahler, who was broken down in health, went to visit at the house of her son Joseph, in Jersey City. She was behaving strangely and it was feared she would become insane. She remained at her son's house till Jan. 23, when she disappeared. It is said her life was insured for $10,000. Mrs. Mahler, besides owning the dress making establishment had considerable means. She was a member of the ladies Knights of Honor and several other benevolent organizations. A searching investigation will be made. Its the general belief that the woman did not commit suicide.

Foreign Money Markets.

LONDON, May 17.—Discount was a shade easier yesterday, being quoted at 4⅞ for three months and 4¼ for short. High rates are certain to prevail for several weeks. Gold to the amount of £1,553,000, it is expected, will be drawn by the Russian Government during the present week, partly from here and partly from Paris, with a further drain of £2,500,000 during June. Remittances from the United States provide only a temporary supply of gold, as part of it will flow back to the United States in the autumn in payment of grain imports. The Reichs Bank raising its rate on Friday and the probability that the Bank of France will raise its rate are also among the factors for keeping money dear. The Stock Exchange has experienced an exciting week; recurrent rumors of failing firms threatening a bourse crisis and rapidly fluctuating values, keeping affairs lively.

LONDON, May 17.—Mr. Gladstone is reported by his physicians to have experienced a slight relapse to-day. Though his illness is reported to be not serious, his failure to rally under the careful treatment he is receiving causes increasing anxiety to his innumerable admirers and friends. Bulletins of the venerable statesman's condition are eagerly looked for in all the cities of the kingdom.

A Timid Bridegroom.

NIAGARA FALLS, May 17.—An anxious couple from Thorold, who put up at the Keating House on Tuesday, experienced considerable difficulty in getting married. The young man, who is said to be a blood relation of the great Van Horne of Canadian Pacific fame, shortly after arrival here, was taken sick and fainted in the hallway, and the blushing and expectant bride was almost frantic in anticipation of a postponement to such an extent that she threatened to throw herself over the river bank. Two physicians were called in who relieved the sufferings of the young swain. Finally, supported by the doctors, backed up by friends, encouraged by the minister, the ceremony was concluded and the presiding physician claimed the first kiss of congratulation.

Mr. Purcell Left Another Will.

CORNWALL, May 17.—It seems that Mr. Purcell left more than one will and the one read before the members of the family may be set aside. In this second will Mr. John Bergin is named as joint executor with Messrs. Leclair and McDonald. The will was drawn up by Mr. O'Gara, Q.C., of Ottawa, and was made prior to the will drawn by Mr. McLennan, to which effect was attached to the Mackay case. It is claimed that this is sufficient to cancel precedence over the other. A caveat has been filed, and the question as to which of the wills the estate will be distributed under will probably have to be decided by the courts. It is understood that the will drawn by Mr. O'Gara makes much larger bequests to religious and charitable institutions than the other one and would leave a comparatively small amount to be divided among the legal heirs.

Little Miss Fife.

LONDON, May 17.—The Duchess of Fife gave birth to a daughter Sunday morning at the Duke's residence. The Princess of Wales, the mother of the Duchess was present.

The Prince of Wales and the Duke of [illegible] this afternoon. The Queen sent [illegible] congratulations to the Duchess and issued [illegible] bulletins to the lying-in room.

Mr. Matthews, the Home Secretary, was in attendance at Sandringham House this morning in order to certify to the birth of the child.

The Times, referring to the birth of a daughter to the Duchess of Fife, who is a granddaughter of Queen Victoria, says: "When we recall some of the train of events that led to the succession of Queen Victoria we may be allowed to suppose that the new born may become queen. It is a matter for rejoicing that the succession is thus early provided for another generation."

Deserted Her Babe.

CHATHAM, May 17.—George Kuhn, who lives near the G.T.R. station, heard in the neighborhood of his house a plaintive wail, and investigating he found a baby whose residence in this inhospitable world could not have been more than two months. The police were acquainted with the circumstances and attention was at once turned to the station, where a young woman, who confessed to be the mother of the castaway, was found waiting to leave on the eastern train. She gave her name as Ellen Kohler and her home as Romney. In her pocket was found a ticket from Blenheim to Toronto. After keeping her in the cells all night the chief allowed her to go to her destination. She promised to stand by the child till she could get to a refuge of some sort in which to leave it.

His Last Sunday.

BELLEVILLE, May 17.—James Kane has only three days in which to prepare to meet his God. He is perfectly unconcerned as to his fate and seems over happy. He never offers a word of complaint and will go without anything rather than ask for it. He is on what is known as "sick diet." He is visited daily by one of the priests and is satisfied that he should be hanged for the crime. He sleeps soundly and talks but little. He says he is a thoroughly converted man and only wishes the day of execution was at hand. J. R. Radclive, the "P.E." will have his second job within a year in Belleville. The process will be the same as that used in the execution of Davis. The same gallows will also be utilized. It will be erected on Wednesday. The hour for the execution has been fixed at 8 o'clock Thursday morning.

Children Cry for Pitcher's Castoria.

TORONTO TOPICS.

TORONTO, May 18.—The city was to have taken possession of the street railway at 12 o'clock Saturday night, and the mayor and council repaired to the premises of the railway corporation and tendered Hon. Frank Smith, the president, the check for the amount of the arbitrators' award, but the latter declined to accept it and allow the city to assume possession of the road. The affair will now have to be fought out in the courts.

O'Connor and Hanlan on Saturday accepted the challenge of Gaudaur and McKay for a double scull race. The date and place of the race will be fixed inside of a few days and also the size of the stake. The Toronto men are willing to row for any amount between $5000 and $10,000. O'Connor and Hanlan are training carefully for the event and will step into their boat on the day of the race with every confidence of victory.

William Kyle, whose unfortunate connection with the defunct wholesale liquor firm of Kyle & Co. cost him the serving of a five years' sentence for forgery in Kingston Penitentiary, has just been released. He served exactly four years and two months, the extra ten months being his good conduct allowance. There are not a few who to-day, despite the result of his trial, believe that Mr. Kyle was made the scapegoat for the misdeeds of others. These men are standing by him to-day, and with their aid he intends to have his case reopened. He has retained Dr. McMichael, Q.C., to advocate his cause and is entering actions against Ex-Manager Cook of the Merchants' Bank for civil damages and also contemplates an action for perjury. He will also proceed against Colin Munro, his former partner, on the same lines. It will be recollected that it was on Munro's testimony that Kyle was convicted. Even while in Kingston Mr. Kyle made persistent efforts to have the case reopened, and now that he is a free man again is taking the opportunity thus afforded to if possible vindicate himself.

Chief Justice Galt set aside the order of the master in chambers ordering Dr. Wadsi-Ward to furnish security for costs in his action against The East Kent Plaindealer. It is understood the defendant will appeal to the Divisional Court.

Chief Justice Galt on Saturday granted a writ of habeas corpus in the matter of Ernest, Ethel, Walter and Maude Harris, infant children of Edward and Elizabeth Harris. The father in his petition says that the children are 6, 4 and 2 years and 2 months of age respectively, that having got out of work he went to London to get employment, that he was absent about ten days and on his return found his wife had sold the furniture, placed two of the children in the Infants' Home, two of them with one Owen Mead, and had herself taken a situation. Harris further says he could not gain admittance to any of his children, nor would his wife see him. The writ is directed to Mrs. Harris, Owen Mead and Mrs. Jackson, and is returnable before a judge in chambers on Tuesday next.

Before Mr. Justice Maclennan a motion was made in the matter of North Perth Ontario election petition to commit Dr. Ahrens for refusal to answer questions on his examination under the Election Act. The doctor ran against Mr. Magwood, M.P.P. (Con.), at the last election and was defeated, and now claims the seat. Judgment was reserved.

Before Mr. Justice Street the issue between the Young Women's Christian Association and the Young Women's Christian Guild, to ascertain who is entitled to the bequest of $10,000 under the will of the late William Gooderham, came up again on Saturday. His Lordship said that he could not decide the case in its present state, that the trustees should be before the court as parties before the matter could be decided. He directed the trustees of Mr. Gooderham's will to commence an action against the respective claimants for construction of the will. The effect of this is that the whole matter will have to be tried again.

A Fisherman Lands a Murdered Infant With His Line.

GANANOQUE, May 17.—While J. Carpenter, and W. C. Spray were fishing off the dock at the old woolen mill the former's hook caught on something very heavy, and on landing it it was found to be a parcel securely tied, attached to which was a large stone. The parcel had two wrappers of paper, and inside, wrapped in linen, was the body of an infant. The babe was wrapped in copies of The Toronto World of May 7 and Empire of May 6. A post mortem showed that the child was born alive and healthy, and had evidently been smothered. The manner in which the parcel was done up—first a covering of linen securely pinned, then newspapers and lastly a wrapper of course paper—pointed to it as the work of a woman.

OTTAWA NOTES.

Personal and Political Notes—Meeting of Labor Men—Sir John Improved.

OTTAWA, May 17.—Sir John Macdonald is greatly improved to-day.

Hon. Mr. Laurier drove out to-day, and is expected to be in his seat to-morrow.

Sir John and Lady Macdonald gave a dinner to a number of M.P.'s and their wives Saturday evening.

Speaker White gave his first official dinner Saturday night.

Mrs. Agnes Thomson of Toronto sang at a reception given by Lady Macdonald yesterday afternoon.

Mr. James Adamson, Clerk of the Senate, is very low and his death is hourly expected.

The Executive Committee of the Dominion Trades and Labor Council arrived here yesterday and held a meeting for the purpose of laying out the work they intended to press upon the Administration and Parliament during the session. Those present were N. Lecoutaine, Montreal, president; John Armstrong, G. W. Dower and R. Glockling, Toronto; J. T. Carey, St. Catharines; A. R. McDonald, Ottawa; G. S. Warren, Montreal; J. B. Gobin and Luc Rushier, Quebec. Among the most prominent questions which have come up for consideration, and to which all were of one mind, were that of prohibition of Chinese labor, withdrawal of assisted immigration, preventing importation of alien labor under contract, favoring the local fire law and inspection of gear and tackle in ships. Other matters of less importance than those mentioned were discussed. It was decided that J. T. Carey should remain here during the session and watch all matter of legislation which might come up in which supporters of labor are interested. Mr. Carey occupied this position for the past two years and did so very [illegible]

Crushed by a Log.

MIMICO, Ont., May 17.—William Losey, employed on the drive of Revell Bros., of Dobcoenk, was crushed by a log rolling over on him and his recovery is doubtful.

Six Deaths in One House.

GUELPH, May 17.—Mr. William H. Lee, Egremont, has undergone sore affliction, losing six of his children from diphtheria, and at one time four of them were lying corpses in the house. Two died a few days previous.

The Best Result.

Every ingredient employed in producing Hood's Sarsaparilla is strictly pure, and is the best of its kind it is possible to buy. All the roots and herbs are carefully selected, personally examined, and only the best retained. So that from the time of purchase until Hood's Sarsaparilla is prepared, everything is carefully watched with a view to obtaining the best result. Why don't you try it?

SUN LIFE
ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355 92
Increase over previous year	3,421,372 84
New Applications received in 1890	6,371 599 15
Increase over 1889	2 268 888 60
Cash income for year ending 31st December, 1890	889,078 87
Increase over 1889	325 938 35
Assets at 31st December, 1890	2,473 514 19
Increase over 1889	567 691 47
Reserve for Security for Policy Holders	2,109 222 68
Increase over 1889	567 732 71
Surplus over all Liabilities and Capital Stock	232,175 69
Increase over 1889	75 649 05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6 04 per c.nt. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec.,	1881, (five years)	$64 824 07
" " "	1886, "	89 452 97
" " "	1890, (four years)	232,175 69

PETERBORO' CHEESE BOARD

Annual Meeting to Prepare for the Season's Operations.

Some Amendments Made—A Token of Acknowledgement to the President—Meetings for Instruction of Dairymen.

The annual meeting of the Peterborough and Victoria Cheese Board was held in the market building Saturday afternoon. Mr. J. M. Drummond, President, occupied the chair. There were over thirty representatives of factories present.

The president in opening said he was pleased to see so many old faces present. The familiar faces of salesmen of past years showed that the patrons had confidence in their old representatives; and there were also present a number of new salesmen, who in the majority of cases represented new factories. The president also referred to the newspaper reports to the effect that the quality of Canadian cheese had deteriorated. If this was the case, an effort should be made to improve the quality of cheese made in Canada and bring it to a higher standard than ever before. The president thought the blame for the falling off in the quality of cheese was as much due to the patrons as the makers.

FINANCIAL STATEMENT.

The Treasurer, Mr. Samuel Edwards, of Dummer, read his financial statement, which showed a balance on hand of $51.63. The report was adopted.

The minutes of the secretary, Mr. Warren Taylor, were also adopted.

OFFICERS ELECTED.

The officers were then elected as follows:

PRESIDENT—J. M. Drummond, Keene, re-elected.

VICE-PRESIDENT—J. S. Cruess, Mariposa.

SECRETARY—M. E. Sanderson, North Smith.

TREASURER—S. Edwards, Dummer, re-elected.

INSPECTOR—W. H. Wrighton, re-elected.

A CUMBERSOME SURPLUS.

The large surplus in the Treasurer's hands gave rise to a discussion upon ways and means of reducing it to a more reasonable amount. The Treasurer proposed that the fee of $1 this year be remitted, except to the new factories. The reduction of the fee to all was also suggested.

The President and Inspector were mentioned as worthy objects upon whom to expend a portion of the surplus, by rewarding them in a substantial way for their faithful and valuable services in the past, but these gentlemen objected to financial remuneration.

Mr. WRIGHTON proposed engaging an instructor to visit the cheese factories in this district.

Mr. THOS. JOHNSTON thought some of the funds might be wisely appropriated to sending representatives to the Dairyman's Association meeting.

The majority appeared to be in favor of retaining the annual fee of $1, and when a sufficiently large surplus was accumulated, devote the money to assisting the dairying interests of the district. Reverting to the President's services, a motion was passed authorizing a committee comprising Messrs. Johnston, Moloney, Stewart and Sanderson, to select a suitable present for the President as a slight acknowledgment of his services.

AMENDING THE RULES.

The rules were then read over for the purpose of making amendments thereto, if any were thought necessary.

A letter was read from Mr. W. Cluxton, the veteran cheese buyer, whose opinions are always valuable and highly appreciated by the Board, making a few suggestions which he thought might be of some advantage to the salesmen. In the first place he was of opinion that no bid should be accepted in any case for a quantity less than 500 boxes. The rules at present were that *firsts* selections must be at least 500 boxes, but a resolution was passed making first and second selections 500 boxes.

Mr. Cluxton's second suggestion was that the time of meetings should be fixed for eleven o'clock, to begin at half-past eleven at the latest, which would give the people from the west time to have their dinner and get away on the train without hurrying the sale. However, as this rule would prevent the attendance of Victoria salesmen, who arrive on the noon train, no action was taken.

Mr. CLUXTON suggested that no buyer be allowed, while another buyer is naming his selections, to bid higher on a certain factory, and that any factory accepting such offer be expelled from the Board. Considerable annoyance was caused by this practice of "blocking" on the Board last year, but after a little discussion it was decided to take no action, as very few of the salesmen had accepted such offers and their sense of honor would like to prevent them from doing so.

Mr. CLUXTON thought further that advances on all selections should be fixed at the same rate, instead of making first selections 1c. and the second 1/16, as at present. The old system was adhered to by the Board.

THEY WANT ANNEXATION.

Mr. CRUESS on behalf of the Victoria factorymen, said they wished in future to be recognized as a part of the Peterborough Board, and not keep separate from it, because sometimes they were shoved out in the cold as a section by themselves. It was thought that as new names would have to be added to the Board this year the names of factories would be mixed up in any case and the difficulty would thus right itself. The President said that it had always been the rule that all cheese boards here was recognized as Peterborough cheese.

THE FIRST SALE.

The date of the first regular meeting was fixed for Tuesday, May 26th, at 12:30 o'clock.

MILK INSPECTION.

Mr. MOORE, President of the Cheesemakers' Association, said that at a late meeting of the Association a resolution had been passed asking the government to appoint Provincial Inspectors of milk. The government had not seen fit to do this, but had, instead, appointed Superintendents of Experimental Dairy Work to visit the different districts and hold meetings of instruction, to which all dairymen were invited. The meeting for this district was to be held at Lakefield on the afternoon of Tuesday, June 2nd, when Prof. Robertson would be present and address them. Mr. Moore distributed a number of circulars among those present, giving a list of dates for meetings throughout Ontario, and describing the objects of the meetings as follows:—

The object of these visits is to give instruction in the best methods of testing milk and manufacturing cheese of fancy quality, over as wide an area, in as short a time as is practicable. This itinerant work has been undertaken as preliminary to the experimental investigations which will be carried on at several factories during the latter parts of the manufacturing season.

Each of the Superintendents will be furnished with a Babcock milk-tester, and other new and useful apparatus, for enabling cheese-makers to discover both the quality and the condition of the milk which they handle.

All cheese-makers from other factories in the several districts are invited to meet one of the Superintendents at the place which is most convenient to them. A public meeting of the patrons and others may be called by the cheese-maker, or other representative, at these factories, for the afternoon of certain dates. At these meetings a demonstration of milk-testing will be given, and information on the best methods for the care and preparation of milk for cheese factories will be furnished.

Children Cry for Pitcher's Castoria.

THE MANIPUR MASSACRE.

Quinton's Party Mutilated and Then Executed—Comments of the London Press.

LONDON, May 17.—The Manipur despatches were presented to Parliament late yesterday the Government having held them back in order to prevent a discussion before the Whitsuntide recess. The despatches fail to establish clearly why such a small force was sent to Manipur. The Vicery's orders were to take a force sufficient to remove the Senaputty. It appears that Chief Commissioner Quinton had no orders as to how he was to remove the Senaputty, but was cognizant of the difficulty of the enterprise, and consulted the commander of Assam in regard to the course he should take. Quinton intended to summon the Senaputty as a rebel and to arrest him.

A native eye-witness deposes that after a half-hour's conference the hands and feet of each person of Quinton's party were cut off and then all were executed in the presence of 1000 Manipuris, including the Senaputty and the Jubraj, who stood only six paces distant.

The Times, in a carefully written article, blames Commissioner Quinton for the smallness of the force employed and the Indian Government for approving the plan to summon the Senaputty without first warning him that he would be held as a criminal.

All the papers call for the severe punishment of the Senaputty. It is certain that the Opposition will take the Government strongly to task for the disaster when the session of Parliament is resumed.

The National League of Great Britain Repudiates Him.

NEWCASTLE, May 17.—The annual convention of the National League of Great Britain opened here to-day. Delegates from 400 branches of the league were present. Mr. T. P. O'Connor was unable to be present, owing to the fact that he is suffering from an attack of influenza. Mr. O'Connor, however, sent a letter, which was read at the convention. In it he said that the leadership of Mr. Parnell was impossible alike in Ireland and England. Mr. O'Connor added that he hoped that no language would be used at the convention which would be likely to retard the reconciliation between the two sections of the Irish party and their reunion. A resolution was passed stating that Mr. Parnell was morally and politically unfit for a position of trust.

Since it is now a well-established fact that catarrh is a blood disease, medical men are quite generally prescribing Ayer's Sarsaparilla for that most loathsome complaint, and the result, in nearly every instance, proves the wisdom of their advice.

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. dw

Everybody Likes It.

Wm. Dredge, Ellen street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised. *Sold by all druggists.* dw

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure blood, removing all foul humors, from a common pimple to the worst scrofulous sore. 2w20

Worthy of Confidence.

Those who have used it praise it! Mrs. George Ward writes from Josephine, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2w22d

From the Pacific Coast.

We quote from a letter recently received from Miss Eleanor Pope, Port Haney, B.C.: "For sore throat, coughs, croup, bruises, &c., Hagyard's Yellow Oil is the best thing I have ever used." 2w20

Would not be Without It.

Dyer's Jelly of Cucumber and Roses for chapped hands and for making the skin smooth and soft. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 61116

W. A. Greatrex, Druggist, has for sale the Royal Rheumatic Remedy. It is no new formula, having been before the public for 12 years and effected wonderful cures. Write to R. R. R. Co. for testimonials. dw

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

THE RED COLOR of the blood is caused by the Iron it contains. Supply the iron when lacking by using Milburn's Beef, Iron and Wine. dw

"MANY MEN, MANY MINDS," but all men and all minds agree as to the merits of Burdock Pills, small and sugar-coated. dw

Sufferers

FROM Stomach and Liver derangements—Dyspepsia, Biliousness, Sick-Headache, and Constipation—find a safe and certain relief in **Ayer's Pills.** In all cases where a cathartic is needed, these Pills are recommended by leading physicians.

Dr. T. E. Hastings, of Baltimore, says: "Ayer's Pills are the best cathartic and aperient within the reach of my profession."

Dr. John W. Brown, of Oceana, W. Va., writes: "I have prescribed Ayer's Pills in my practice, and find them excellent. I urge their general use in families."

"For a number of years I was afflicted with biliousness which almost destroyed my health. I tried various remedies, but nothing afforded me any relief until I began to take Ayer's Pills."—G. S. Wanderlich, Scranton, Pa.

"I have used Ayer's Pills for the past thirty years, and am satisfied I should not be alive to-day if it had not been for them. They cured me of dyspepsia when all other remedies failed, and their occasional use has kept me in a healthy condition ever since."—T. P. Brown, Chester, Pa.

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills, and deem it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years past I have taken one of these Pills every night before retiring. I would not willingly be without them."—G. W. Bowman, 26 East Main st., Carlisle, Pa.

"Ayer's Pills have been used in my family upwards of twenty years, and have completely verified all that is claimed for them. In attacks of piles, from which I suffered many years, they afforded me greater relief than any medicine I ever tried."—Thomas F. Adams, Hollidaysprings, Texas.

Ayer's Pills,

SORRY, TOO LATE.

I had several properties which I have been pressing upon the public during the past two or three months, at what I called low prices. A great many buyers examined them, and a few thought they would buy after a time, but while they were considering, with their money in the bank at four per cent., that very quiet and shrewd capitalist from Norwood, P. V. Reynolds, Esq., came along and bought the whole, and now those who were going to buy are sorry for losing such bargains. Mr. Reynolds is now the owner of FOURTEEN houses in town, all tenanted, and paying from seven to twelve per cent. interest on his investments. He has also a number of vacant lots, which he could readily resell at a big profit. Nine months ago I sold him his first purchase.

I have a few acres of land, for sub-division, near the Edison Works, which any intelligent man can make big money out of. Call for particulars.

I am the home-seeker's true friend. If you want a home come to me and I will guide you right.

TO DIE FOR HIS CRIME.

NARCISSE LAROCQUE TO BE HANGED ON THE 4TH JUNE.

Review of the Cumberland Tragedy—How the Bodies of the McGonigle Girls Were Found—The Chain of Evidence—Portrait of the Murderer.

At the assizes for the united counties of Prescott and Russell, which opened at L'Original on April 27, the most important trial was that of Narcisse Larocque, charged with the murder of Mary and Eliza McGonigle in the woods near Cumberland on the afternoon of October 7th of last year. The murder was one of the most shocking in the records of crime. The victims were two school girls, daughters of James McGonigle, a farm laborer living about two miles from Cumberland, a village some 18 miles below the city of Ottawa, on the Ottawa river. The girls were 11 and 12 years, respectively, and attended the village school. On the afternoon of October 7th they left the school-house at the usual hour for home. At a certain point in the road they were in the habit of parting from their young companions and taking a short cut to their home through the bush.

The first part of their way lay over a steep road cut through Mr. Gamble's farm, leading in a more or less crude through a dense plantation of second growth trees. At the top of the hill they met a son of Mr. Gamble's driving a waggon, and they were likewise seen by one of Mr. Gamble's men, who was looking after cattle in an adjoining field. Their murderer is the only other person who is known to have seen them again in life.

NARCISSE LAROCQUE.

They did not get to their home that night, but as it was raining their parents concluded that they had remained at a friend's in the village, a course they had adopted on stormy nights more than once before. When, however, they did not reach home after school hours on the following day their mother became seriously alarmed. After supper the father started out to the village to make some enquiry. After diligent search he ascertained that the girls had started for home. The matter was canvassed among the simple villagers, and late at night it was determined to institute a search for them. Torches were procured, and the path along which they usually went through the bush examined. A little way off the regular way home the bodies of the two girls were found lying almost side by side. It was easy to see that a considerable struggle had taken place before the murderous brute who encompassed their death had finished his work. The leaves all about the spot were tossed, and the surrounding shrubbery had been beaten down and broken.

The most unpractised eye could guess the means of death. The protruding eyeballs and bruised throats showed that both had been strangled by the compression of strong and ruthless hands. The older girl had also been struck over the head so that her scalp was laid bare, and her face and hands bore other contusions and evidences of the brutality of the monster who had slain her. The bodies were tenderly put on a vehicle and conveyed to the house. It would be useless to attempt to pourtray what a terrible home-coming this was to the distracted mother. The medical autopsy showed the motive for the fiend's deed. The bodies of both the children had been violated. Naturally the first thought of the community was, Who had been guilty of this unspeakable crime? Several circumstances pointed to Narcisse Larocque, a farm laborer who lived in the vicinity. The circumstances were these. When the girls passed through the village Larocque was standing in the door of Windsor's hotel. They had gone but a little way down the road when the prisoner took the same direction. He was seen to enter Gamble's lands by the same gate that the girls had entered, and this he does not deny. Later he was seen about one hundred yards behind them by young Gamble, and to complete the connection Ben Barnard, Gamble's hired man, saw him overtake the children just before they entered the bush from which they were never to emerge alive.

The crime was brought home to the prisoner, the jury unanimously agreeing that he committed the diabolical murder and poor cause of wounding children.

On the 29th ult. the sentence of the law was pronounced upon him. It was extremely solemn, and the judge's censure of the crime terribly severe. He characterized it as the worst that had ever blackened the criminal annals of America. The prisoner, after the verdict was announced, turned deadly pale, his lips quivered, and it was thought he would break down, but near the close of the sentence he braced up, and finally left the court room with a firm step, though with a downcast head.

The accompanying portrait was taken the other day in the gaol. During his long incarceration nothing seems to have weighed on the prisoner's mind. He is rolling in fat, and brimful of good nature. In appearance he is a typical French-Canadian, short, healthy, stout, and swarthy. He evidently possesses remarkable strength. His neck is the neck of a bull. In speaking, an amused smile plays about his mouth.

Beauty, Not Brains.

A wife whose husband has a bulging brain and a homely face used to try to make things pleasant at home by expressing her admiration of his talents and giving him the pet name of "Brutus." Her delicate flattery did not seem to have much influence upon him, though she kept it up for a whole year after their marriage. One time, not long ago, when she was in a happy frame, or melting mood, or meditative state, she expressed her admiration of his comely countenance, and at last went so far as to say she would give him the pet name of "Beauty." He smiled as she repeated the word with a full consciousness that she had touched his weak point. And now, whatever be his mood of mind or the vicissitudes of life, that word dispels all other thought and the twain are happy.—Chicago Journal.

Children Cry for Pitcher's Castoria.

A HAMILTON FAILURE.

Collapse of Stove Manufacturing Firm of J. M. Williams & Co.

TORONTO, May 15.—Williams & Co., stove manufacturers of Hamilton, have assigned to E. R. C. Clarkson. It was the sensation of yesterday in business circles. To a select few the firm's shaky condition has been known for some time, but even to these the final collapse was a surprise. The last straw which brought about the failure was a judgment obtained on behalf of the Bank of Hamilton against the firm which was returnable in the Chancery Court yesterday, and as the amount involved was $30,000, they decided to place their estate in the hands of Mr. Clarkson. The Spectator Company of Hamilton secured an order of judgment yesterday morning for an account amounting to $154.50 and costs. The legal complications which have arisen since the death of Mr. J. M. Williams, who formerly represented Hamilton in the Provincial Assembly, have also been a factor in bringing about the downfall.

The liabilities and assets are unknown, and it is held by the Bank of Hamilton's solicitors that if the estate is properly managed it will yield a good dividend. Apart from the bank the creditors will include Crathern, Caverhill of Montreal, James Robertson and Samuels, Benjamin & Co. of Toronto.

Bradstreet's Reports Quiet Business with Slow Collections in Ontario.

NEW YORK, May 15.—The volume of general trade, as previously reported, has been fairly well maintained. Noteworthy exceptions are at New Orleans, where the dull season is almost at its height, and at New York, where drygoods, groceries and hardware have not been distributed with customary freedom, and labor troubles have interfered with building operations and metal industries. Lumber generally is not in as active demand as a year ago, and hides are dull. There has been a slight advance in tobacco. Sales of wool have increased, principally of foreign. Refined sugar is off ⅛c on slack demand and increasing stocks. Drygoods are in better demand, but low prices have aided the distribution. The tone of cotton goods prices is, as a rule, better than last week at first hands, and some bleached goods have been advanced. Print cloths are very much depressed and stocks are increasing. Grain crop reports continue of a promising nature and in some instances credits have been extended by western jobbers owing to the favorable outlook for the farmer and country storekeeper. Large wheat yields are reported on the Pacific Coast. Wheat crop reports are excellent throughout the country, but for years past have uniformly lost in condition between April and July from 2 to 8 per cent. The prospect, therefore, is for a harvest of not more than 500,000,000 bushels, although some have estimated the probable output at from 550,000,000 to 550,000,000 bushels.

General trade in the Dominion of Canada is quiet. There is only a fair demand for drygoods from Ontario. In the Provinces of Quebec trade is said to be dull, without immediate prospects of marked improvement. Collections are slow. The Dominion reports 30 business failures this week, against 31 last week and 16 this week last year. The total number Jan. 1 to date is 807, against 740 last year.

HIS LIFE IMPERILLED.

The Man Who Rules Germany Narrowly Escapes Death

BERLIN, May 15.—While Emperor William was out driving to-day in Potsdam his horses bolted and his carriage was hurled against a tree. An adjutant in attendance caught the falling Emperor in his arms. The Emperor was unhurt, but he had a very narrow escape from serious injury, or even death.

Never had a preparation a more appropriate name than Ayer's Hair Vigor. When the capillary glands become enfeebled by disease, age, or neglect, this dressing imparts renewed life to the scalp, so that the hair assumes much of its youthful fullness and beauty.

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2w20d

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She resolved to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS. KENNEDY, Hamilton, Ont. 2w20d

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2w20d

It Does Its Work.

Mrs. James Dix, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

Self Application of Electricity
FOR MEDICAL PURPOSES
BY THE
DORENWEND
ELECTRIC BELT
And Attachments.
HEAD OFFICE—168 Yonge St., Toronto.
THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.
Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.
Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.
Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eod-w

The Musical Prodigy Fraud.

Saturday Night exposes this week a fraud successfully "worked" throughout the Dominion by the management of the boy soloist, Master Williams, who it was affirmed was the boy soloist of Westminister Abbey. It seems from letters to the London *Musical Journal* that the boy has never been in any way connected with the Abbey.

IMPORTANT.

We will open a case of Sateens to-morrow which we have secured at a price that will be a surprise to our customers. We can give you a nice range of patterns at 10c. a yard, and 50 per cent. lower than goods have been sold at.

1d **H. S. GRIFFIN & CO.**

The B. W. & N. Railway.

The Brighton *Ensign* says:—It is a pleasure to announce that a straightforward course is being taken with respect to our railroad project. The council granted $200 to aid in procuring the charter for the proposed Brighton, Warkworth and Norwood Railroad. Our prospects are exceedingly favorable and should unanimity prevail, we will have the charter and we trust a subsidy. Every step taken thus far, is in the right lines and we say all honor to those who are in the front ranks. More to follow.

A Case for Charity.

By the death of John Groce, a laboring man living on Aylmer street, near Charlotte, a widow and eight children have been left in an utterly destitute condition. Deceased was sick only a week and died of congestion of the lungs Sunday. A number of charitably disposed neighbours have undertaken to supply the present needs of the widow and orphans, but they are in very straitened circumstances and quite deserving of help. Let charity begin at home.

A Runaway Street.

Simcoe street seems given to runaway horses. A day or two ago a team ran away at a great rate and were brought to a stand still by running astride a shade tree in front of Mr. Wm. Cowie's residence. On Saturday evening a team belonging to Mr. James Paterson of Emily, when being brought out of Snowden's yard on the Simcoe street side, ran away east down Simcoe street and were brought to a stand still by running astride the stand pipe at the corner of George street, considerably wrecking wagon and harness and shaking up the stand pipe. Skittish Simcoe street should be sobered.

Children Cry for Pitcher's Castoria.

Charged with Fraud.

This afternoon one George Taylor, who, is not, it is said, a resident of the town, was arrested on the charge of procuring the cashing of a cheque for $20 on the "Standard" bank, Toronto, for which, on presenting the cheque, there were no funds. Mr. J. B. McWilliams, who backed the cheque, laid an information this morning. Taylor was arrested and arraigned on a charge of fraud before Police Magistrate Dumble, but the case was enlarged till Saturday morning. Taylor was released on bail.

Evergreen "Uncle Tom."

Uncle Tom will never die, not while such crowds greet him wherever he goes. The Academy was well filled last night to see the Haverly Uncle Tom Company present this old familiar drama. No comment need be made on the play. *It is a story familiar in every household.* But of the performance—it was a clean, honest presentation, strictly legitimate and free of the vulgar variety that generally characterizes these companies. The simple story of Uncle Tom needs no comique embellishments. Several in the cast were really good and deserve mention. Little Eva is a precocious little midget and does her part excellently. Judging from the enthusiastic applause the play was well received, and will be well attended this evening.—Parkersburg, (West Virginia) *State Journal*, October 4, 1890. Beadbarn's Opera House, Friday May 22nd. Seats at Greatrix's.

Y. M. C. A. Notes.

The Saturday evening young men's meeting was well attended, and the praise, prayer and promise meeting was a time of encouragement to all present. The testimonies were to the point, and very helpful, as the after meeting showed.

The consecration service on Sabbath morning was led by Mr. T. Dodds. All present felt the power of the Holy Spirit in searching and sifting our hearts by the Word.

At the personal purity meeting yesterday afternoon Mr. T. S. Cole's earnest, practical and helpful address was just what was needed, and we regret that every young man in town did no hear it, for it would save them from untold trouble in their life. The orchestra rendered excellent service in leading the singing.

The gospel and song service last evening was addressed by Rev. Mr. Wilson, Ashburnham, who made a new and very helpful departure by giving a Bible reading on the work of the Holy Spirit. All present saw for themselves the benefit of searching the Scriptures and realizing their position in Christ Jesus. We thank Rev. Mr. Wilson for his help in leading our young men to search God's word.

At the close of the Saturday evening meeting a hearty vote of thanks was voted to Mr. Frank Peck, one of our members, for his assistance in our work, especially on the blackboard, and much regret was expressed at his departure from us; but our loss will be Rochester's gain. Mr. Peck by his earnestness and zeal, has won our hearts, being a stimulus to us all.

Special meeting of Reception Committee on Wednesday evening, after prayer meeting.

Young men's Bible class on Friday evening from 8 to 9 p.m.

Mr. Herbert Green has our sincere thanks for four potted plants for our rooms.

Police Court.

MONDAY, May 18th.

At the police court this morning Frederick Baker, a young man, was arraigned, charged with being drunk and disorderly on the streets on Sunday night. He was found lying drunk on the sidewalk on Brock street, and conveyed to the cells. This morning he appeared before the magistrate, who remarked that luxuries like Sunday drunkenness must be paid for, and imposed a fine of $5, or ten days in gaol.

Two charges were laid against persons for depositing night soil in the Otonabee river. Some evidence was taken, and the cases enlarged till Wednesday to secure further information, the magistrate saying that the offence was of such a grave character that he would enlarge the cases to any reasonable extent to sustain or disprove the charges. "A man," he said, "who would deposit such filth in the river would commit any crime."

Card of Thanks.

PETERBOROUGH, May 16th, 1891.

Mr. Edward O'Neil President of the Emerald, Beneficial Association.

DEAR SIR,—I beg leave to return you thanks, and though you, as President, to the members of the E. B. A., for your kind resolution of condolence on the death of my son, John J. Doherty, who was a member of your association, and for your kindness to my son during his sickness, and also to thank you for your cheque for seventy-five dollars to defray funeral expenses, being more than was expected from your association.

I remain,
Yours sincerely,
JOHN DOHERTY,

Personal.

The Port Hope *Guide* of Saturday says:—Mrs. (Hon.) Robb, Hamilton, Peterborough, and her daughter, Miss Daly, who have been the guests of Mrs. Shaw, Rideau street, leave on Monday for the old country. They sail on the Parisian on Wednesday next.

The *Globe* says that notwithstanding the denials of the Conservative press, Sir John Macdonald is very ill, and it is doubtful if he will be able to take any considerable part in the business of the session. It is to be hoped the Old Man will be able to fight out the battles of the session, though it is felt in some quarters that the difficulties in the inner camp are too much for his failing strength to overcome.

Church Chimes.

To-night Principal Grant lectures in St. Paul's church on the Subject of "The National Unity."

There will be a union meeting of the Y.P.S.C.E. in St. Andrews church Tuesday evening.

The annual district meeting of the Woman's Missionary Society of the Methodist church will be held in the George street church Thursday morning, afternoon and evening, to which the public are invited. Rev. Mr. Rutledge, of Toronto, will address the evening meeting, and Mrs. Sharon, of Lakefield, will read a paper during the day.

Decrease of Exports.

During the first four months of 1891 Canada's exports to the United Kingdom decreased over forty per cent compared with the same period of last year. This fact does not indicate that Great Britain is a profitable market for those Canadian products which have been excluded from the United States by the McKinley bill. If our merchants found it remunerative to send eggs, poultry, fish, etc., to Great Britain, under existing conditions, it is not at all likely that the exports to that country from Canada during January, February, March and April would show a decrease of forty per cent. The British trade returns for April show that our exports to Great Britain decreased eighty-three per cent. in that month, and over forty per cent. in the first four months of the year. The imports of Canadian cheese into Great Britain declined £25,000 sterling in value since of first of January, and the imports of Canadian fish show a decrease of £170,000 sterling in the same period. This is how our trade with the United Kingdom is being "developed" under the auspices of ultra loyal Canadian Tories.—*Ottawa Free Press.*

ST. PAUL'S ANNIVERSARY.

The Gifted Grant and the Granted Gifts.

Highly Successful Anniversary Services at St. Paul's—Large Congregations—Eloquent Sermons—Liberal Contributions of the Congregation—The Church Debt $1,500 Smaller.

The anniversary services in St. Paul's church on Sunday were of special significance and significantly successful in every respect. The two objects of celebrating the anniversary occasion by special services and of making a particular effort to reduce the indebtedness on the church were both kept well in mind. The great intellectual and spiritual enjoyment of participating in the services conducted by Rev. Principal Grant and of listening to his deeply scholarly and spiritual sermons was appreciated by large congregations at both services; and the response of the congregation to the appeal made for contributions towards the reduction of the indebtedness on the church building was a substantial tribute to the liberality of the congregation. The total amount of the contributions at the anniversary services was $1,600, the larger part is devoted to the building fund. This sum did not represent a few offerings of large amounts, but was the general gift of the people of the congregation, showing that all participated in the privilege of giving, and in the enjoyment that liberal giving to a worthy cause produces.

THE MORNING SERVICE.

There was a very large congregation at the morning services, which were conducted by Rev. Principal Grant. The reverend gentleman selected as the text of his discourse the "New Commandments." He introduced his subject by a pertinent anecdote regarding the meeting of Bishop Usher and Samuel Rutherford, in which the former was set down as ignorant because he stated to Samuel Rutherford's catechising that there were eleven commandments. Rev. Dr. Grant pointed out that the new command was really an old one insisted, on in the Old Testament Scriptures. Christ had called it a new commandment because He wanted to teach his disciples that it was not simply their every-day neighbour they were to love—the one they meet every day—but all mankind over all the world, no matter of what race or religion. He insisted upon the duty of all professing Christians not only to relieve the pressing bodily wants of the poor and the afflicted, as good Samaritans, but also to help on the moral welfare of all mankind. His whole eloquent discourse was a denunciation of selfishness and an inspiration to the practical exercises of liberality towards the promoter of good works and the magnificent response of the congregation showed how effectually the doctrine of self-sacrifice for the cause had been impressed upon the hearts of the congregation.

The musical portion of the services was specially good. The choir rendered the *Te Deum Landamus* in excellent style, and Master Arlidge sang with fine taste and expression, "Angels Ever Bright and Fair."

EVENING SERVICES.

In the evening another overflowing congregation gathered to listen to Rev. Principal Grant's second sermon.

The choir again rendered an excellent anthem at the close of the address, and Master Gussie Arlidge sang "Abide With Me" in sweet voice.

Without announcing a regular text, Principal Grant took for his subject the words, "All power is given unto me in Heaven and in earth. Go ye therefore and disciple all nations."

This claim of Christ that he had all power in heaven and in earth seemed very extraordinary to the Jews, but if we put ourselves in their places we will also see the strangeness of it. It was all the more extraordinary when we think by whom it was made, the class of people and nationality to which He belonged, and the circumstances in which He was. It must be remembered the Jews were very jealous of the honor of Jehovah, to whom alone they accredited omnipotence. The whole Bible was full of the claim that all power belonged to God, and to no man was ascribed such power. It belonged to God, and God alone, and the idea of a man claiming this power alarmed them. Then the apostles, even, considered Jesus was a prophet, and prophets were looked on by the Jews as mouthpieces of God. Then of all the prophets, who so meek and lowly as Jesus? These characteristics are always attributed to Christ. He was the true servant of God, never putting Himself to the front, but always trying to assist others. Then more extraordinary still is this claim when the circumstances were considered, for he had just given his disciples a proof of his powerlessness. They had seen him arrested and imprisoned and He had not even resisted. Just when He had shown His utter powerlessness, He puts forth

THIS EXTRAORDINARY CLAIM.

More extraordinary still was the vindication of this claim throughout the intervening ages until the present time. All the force, mental and physical, in the world to-day was in the hands of Christendom. Then the claim our Lord makes has been made good, and it has all come to pass in such natural ways, in lines of evolution or development, that we do not see anything miraculous or supernatural in it, yet the events are a wonderful proof that the man who had made this claim had spoken truly. There was a duty which the Lord connected with this claim, which was just the opposite of what we would naturally expect it to be. When Christ said, "all power is given to me in heaven and in earth, they might naturally say, "well, all power is His, therefore we have nothing to do; the victory is already gained; He has the power, and of course He will utilize it." But on the contrary He says, "Power is mine, go ye therefore and do my work." And what work did He give them? Go ye and disciple all nations. It meant misery, hardship, torture, shame, a bloody death for all. But strange as it may seem, in this connection between the duty and the claim there was something divine. It is in accordance with the great law we find operating in all the universe, that all power is God's, but all agency and instrumentality is man's. You can only get the true meaning of this when you apply it to material things. First, how does this apply to every triumph of man over nature? Every scientific discovery of man is a discovery of a force which has hitherto been lying dormant and going to waste. Steam is a divine power—that is, a power, which is in air and water by the will of God, and has always been there. Men knew that steam was produced by water when fire was applied to it, but they never thought of pushing the knowledge further until one thoughtful man discovered its

POWER AND ITS APPLICATION.

So with every other discovery. The river which rolls through this town has rolled just so for thousands of years. The Indians did not see anything beautiful in the rapids. They would have preferred a calmer current for paddling their canoes. But when white men came along they saw the power in it—the power of God—and they utilized it, and as a result factories and mills sprang up. So with electricity. Men are discovering that its power is simply limitless and that it will probably in the future be the great motor power in the world. From the refuse from our gas works the most beautiful analine dyes are made. It has been discovered that sawdust can be utilized, and there are other things we formerly thought useless until man discovered in them some use. The glory of man is that he is able to penetrate in to the secrets of nature and convert its forces to his use. Some may think that the discoveries have all been made, but that was foolish. We were yet babes in the matter of the discovery of the powers of nature and their application. And all this on a small planet, one of many which are encircling us. Should not these things fill us with a sense of the almighty power of God and justify the claim that Christ made? Just so it was with the Gospel. Every advance in the Gospel from the days of Abraham to the present, every extension of the Gospel was made through the agency of man. The first great step towards the evangelization of the world was begun by and through men, and the gospel has always gone as far as a man went with it, and no further. "Wherefore orient thou unto me," He replied to Moses in the wilderness, "speak to the children of Israel that they go forward." So it was to-day. The power is God's, but the agency is man's. Every true missionary must realize this. He must be

FILLED WITH THE SPIRIT OF GOD,

and advance to do His work. And in regard to our own physical growth, the same law held good. We must take exercise in order to grow physically, and by using our bodies we prove the wonderful laws of God and grow strong. So with mental development. These studies are the best for the young which most make the mind active and strong, not those which make the most brilliant showing. Our moral growth was also brought about by practing discipline, humility and the other virtues. And looking at God and utilizing every look, surely there was in this lesson a most pregnant and impressive teaching for us individually and as a congregation. The lesson was this, that God is willing to use us as we are willing to be used, and that we must let ourselves be used as He shall say. We must let God flood every avenue of our hearts and put all else out. We are serving One who is jealous of His own power, and His love will not be divided with anything else. And when filled with the power of God, what cannot men do and what are they not doing? This should inspire us with a lofty love and earnest determination to do all God gives us to do. To ask of the work God gives us to do in this new country, in that great North-West, which must be done in the next ten years. The United States are suffering to-day because they did not do God's work in their western country. Let us look to it, said the speaker, that our own work in laying the foundation of this country is well done. Let future generations get their inspiration from this generation. It is a noble work, for as it was with the disciples so it is with us. He loved them so much He appointed them to work and suffer and die. So it is a proof God loves us that He does not allow us to live in idleness, but gives us a work to do. Go ye, therefore, and do the work which He gives you to do.

Plant Corn for Ensilage.

As the time for planting corn is drawing near, permit me once more to impress on Canadian farmers the importance of securing an abundant supply of cheap cattle food for next winter by planting a few acres of silage corn. For over eight years I have been ever on the alert to learn whatever can be known about ensilage, and the more I examine the question the more thoroughly I am convinced that the silo will yet prove the "sheet anchor" of Canadian farming. Nearly every one who has tried it is well pleased with the results, and in almost every case they become better pleased as each year's experience enables them to secure better results, either in the kind of corn used, the mode of its cultivation, or the manner of putting it into the silo. I have heard farmers again and again say that the silo could not impart any superior feeding value to green corn-stalks over what they would possess if they were cut and stooked up in the old fashioned way; yet, while the ordinary observer, and even the chemist, can discern little or no difference in the feeding qualities of the corn saved by either mode, cattle do, and it might be prudent to let bossie decide the question. But there is one thing that should be remembered, viz., that immature corn stalks, or such as have been grown closely together, do not contain nearly the same amount of nutriment that they would in more favorable circumstances, with plenty of time and space to produce well-developed ears. In my journeyings through the country I have observed that most of the corn intended for cattle food has been sown broadcast and so thickly that it had a pale, sickly appearance, excepting a few of the top leaves. Now there is very little substantial food in a loud of such stuff, whether it be put in the silo or stooked up in the field, and although the owner may think that he has a large supply of cattle food, it is little better than the plan of the man who put magnifying glasses on his hogs in order to make them believe their rations were more liberal than they really were. In order to succeed corn should be sown in drills, with ample room for cultivation between them, and three corn stalks to a foot in length of drill is quite near enough, and in many cases it would be better to give more room so that strong stalks of a dark green color might be produced.

A little over a year ago I described in the *Witness* the plan I took of building a very cheap silo for a friend in Hull, and how we bought and old four-horse power and cutter for $40. But every poor farmer may not be in a position to get a horse power and cutter for himself, and in that case he might club with several of his neighbors and get one that would do the work for all. But if I was a poor farmer and could not afford to buy a cutting machine, and could not induce my neighbors to join with me for the purchase of one, I would still have my silo and cut the corn stalks into it with a broad-axe over a large block of wood. In a recent number of the *Witness* there was a cut of a new potato planting machine which has been highly commended wherever it has been tried. This machine will do the whole operation at one going over, including the cutting of the potatoes, but it would be much better for the farmer to cut the potatoes himself, for potatoes cut at random will not produce nearly as well as if they were carefully cut down the centre, lengthwise, which has been shown by numerous experiments to produce the best results, and if not cut in halves lengthwise, it would be better to plant the potatoes whole.

The Government's Northwest Policy.

What a tribute to Mr. Dewdney's management of our North West heritage is the statement of Dominion lands taken up by settlers last year. Mr. Davin has given notice of a resolution declaring the government's North-west policy a failure, and asking that a better policy be adopted. The last report of the minister of the interior contains quite sufficient evidence to warrant the House of Commons in passing Mr. Davin's resolution. The receipts from Dominion lands, which, we were assured by the Tory leaders would be sufficient to cover the entire cost of building the Canadian Pacific railway, do not nearly meet the outlay for surveying and management, to say nothing of the expenditure upon Indians, mounted police and other services properly chargeable to the North-West. And the receipts from Dominion lands are declining. The net revenue received by the government from that source last year was $454,362, compared with $588 862 in 1889, showing a decrease of $134,500, or over 20 per in the year. And there was also a heavy falling off in the area of lands taken as homesteads, or sold to settlers. Here is the minister's own statement of the lands disposed of to settlers last year:

	1890.	1889.
Homesteads (acres)	471,000	696,050
Pre-emptions (acres)	57,600	212,651
Sales (acres)	139,030	177,092

Under Mr. Dewdney's policy it seem impossible even to give away the fine agricultural lands of the Northwest to settlers. High taxation and restrictions upon trade are keeping settlers out of the country. By all means let Mr. Davin's resolution be adopted.—*Ottawa Free Press.*

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

BIRTH.

LLOYD—In Peterborough on May 16th, 1891, the wife of W. J. Lloyd, of a daughter.

Makes the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes

That Tired Feeling

creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength.

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an excellent appetite." ED. JENKINS, Mt. Savage, Md.

Fagged Out

"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." R. C. BEGOLE, Editor Enterprise, Belleville, Mich.

Worn Out

"Hood's Sarsaparilla restored me to good health. Indeed, I might say truthfully it saved my life. To one feeling tired and worn out I would earnestly recommend a trial of Hood's Sarsaparilla." MRS. PHEBE MOSHER, 90 Brooks Street, East Boston, Mass.

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy anything else instead. Insist upon having

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

CARD OF THANKS.

C. McGILL, Esq., Agent Phœnix Fire Insurance Co., of London, England.

PETERBOROUGH, May 15th, 1891.

DEAR SIR,—I was very agreeably surprised this morning when you advised me that you had received a cheque for $3,000 00, the amount in full of insurance which we held against the implements destroyed at the fire on the morning of the 8th, which we had stored in what was known as the "old mill," and would avail myself of this opportunity to thank the inspector for the fair and business-like manner that he adjusted the valuation, and I certainly think that your company has been extra prompt in so soon paying over the amount of loss.

I remain, yours truly,
21114-1w21 PETER HAMILTON.

OPERA-HOUSE

Wednesday, May 20th

America's Most Versatile Comedian,

MR. JOHN THOMPSON

In his original Protean drama

On Hand

Or the Comic Side of Life

Mr. Thompson will be supported by a competent and complete Dramatic and Musical Company.

Plan now open at Greatrex's drug store.

On Fire with Eczema

Terrible Sufferings of Little Baby—Seven Doctors and Two Mountain Pull—Cured by Cuticura.

My baby boy, 3 months old, broke out with eczema. The itching and burning was intense; the eczema spread to his limbs, breast, face and head, until he was nearly covered; his tortured agonies were pitiable to behold; he had no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $5 per week for medicines, and was entirely discouraged. I purchased CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, his sufferings were ceased, and rest and sleep permitted. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and is as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON,
85 W. Brookline street, Boston.

Cuticura Remedies.

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of eczema and psoriasis, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable losses attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on those terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

DOMINION PARLIAMENT.

THE ESTIMATES FOR THE PRESENT YEAR.

Some Increases and a Few Decreases Both the Leaders Resume Their Places in the House and Their Appearance is the Signal for Cheers

OTTAWA, May 18.—Another short and uneventful session of two hours and a half, the most marked feature of which was the reappearance in the House of the two leaders, both of whom were greeted with applause by both sides of the House. Mr. Laurier only stayed a short time, and in the absence of Sir Richard Cartwright Mr. Mills acted as leader. Sir John remained until the adjournment at 5.30. He looked better than he has for some time past. The Opposition greeted his appearance very warmly, amongst the most hearty applause being that of Hon. Alexander Mackenzie

Before the order of the day were called Mr. Davies asked if Mr. Tupper intended to introduce the bill which stands on the order paper in his name with reference to the safety of ships, and which relates to the load line adopted by the Imperial Act.

Mr. Tupper said that although the Imperial Act came into force on June 9 intimation had been given by Imperial authorities that it would not be put into operation against Canada until October.

In reply to Mr. Somerville Mr. Tupper stated that the Government had contracted with the Polson Iron Company for a new steel steamer for $40,000 for fishery protection on Georgian Bay. The company is to be paid $30,000 in cash and take the "Cruiser" at $8,000, which is about what she cost the Government

Sir Adolphe Caron stated in reply to Col. Denison that the Government was considering the question of establishing a cavalry school at Toronto.

A small discussion sprung up on Mr. Tupper's motion for the third reading of bill carrying the modus vivendi, and for a moment it looked as if there might be a discussion, but the bill was passed after a few remarks by Messrs. Davies, Tupper, Mills and Sir John Thompson

His Excellency provided the House with two messages to-day. One transmitting copy of the despatch from the home Government acknowledging the receipt of the loyal address passed by Parliament last year, and the other submitting the estimates Amongst the items in the latter interesting to Toronto are $40,000 for the Toronto Drill Hall and $75,000 for work at the eastern entrance to the harbor.

A London Military Question

The new member for London, Mr. Hyman, made his first effort in the House to-day in the form of a practical speech on a matter of considerable importance to the district of which he spoke fluently and confidently upon the subject of the camp of militia in the district, and was listened to with attention and respect as he discussed the Government's policy of rewards and punishments. He moved for an order for a copy of all correspondence papers and reports in possession of the Government relating to the locality for holding the camp of Militia District No. 1 for the years 1890 and 1891. He contended that the fact of a camp being held in any other place than London was an injustice to that city He told how in 1884 or 1885 he was a member of a deputation that came from the city of London and endeavored to make an arrangement by which a military school should be established in London. The result was an arrangement that the city should purchase certain property known as the Carling Farm, and that the Government should give in return certain ordnance lands which they had in the city, presumably of the same value as the Carling Farm During the negotiations a question came up in regard to the number of acres which should be acquired for military school purposes, and also for camping purposes, and it was agreed that the ground should be used for the two kinds of work for District No. 1. The officers in that district had had many conversations on the subject, and they had always felt that London was the proper place for the camp, and in addition to this there was a question of stores, which were all in the city of London, for the stores had to be transferred to whatever part of the district the camp might be held in. In 1890 the camp was taken to the city of Stratford as a political bribe, but unfortunately for the Government it was not successful. The House was tickled by this reference to Mr. Grieves' election for North Bruce and cheered Mr. Hyman heartily as he continued: "We have in the House at the present moment a gentleman who is not entirely in accord with the policy of the Government. I understand that the Government are changing their intentions somewhat this year, and instead of a politi bribe it is going to be a sort of punishment and a sort of reward." The camp, he went on, was going to be taken to St. Thomas, and this as a punishment to the City of London for returning a member who was not in accord with the Government. [Cheers.] His sole object in bringing this matter forward was that the Government might find that the representations that had been made by officers in high command were so strong that they would hesitate in doing that which while it might bring a certain small amount of political influence would be decidedly against the interests of district No. 1.

Sir Adolph Caron said he feared the hon. gentleman misapprehended the question completely. There was no doubt that the exchange referred was made. The Department of Militia required a certain quantity of land for drilling purposes, and he thought the history of the past sufficiently indicated that London was considered to be an important place and one where camps should be held. London, during the years at least since he had been head of the department, had had the camp off and on more frequently than any other locality in Ontario. There was no objection whatever to the papers being brought down, but when he looked the papers over the hon. gentleman would find that he was completely mistaken as to the condition upon which the exchange of property took place in the City of London.

The Tarte-McGreevy Papers.

Mr. Edgar asked Sir Hector Langevin when the papers orders by the Committee on Elections and Privileges might be expected. The order had been made that the documents required might be immediately brought in charge of an officer of the department to the committee room that they might there be examined by members of the committee. They had not yet been produced, and enquiry at the Public Works Department had been answered that it could not be estimated when they would be ready. He hoped the committee would not be delayed because the documents were not promptly brought down

Sir Hector replied that the papers called for extended over a long number of years, and the classification of them took considerable time. He had also given orders that a statement of the papers be made to prevent the loss or misplacement of any of them. The matter was being attended to as expeditiously as it was possible to proceed.

Mr. Edgar asked if the papers as they were ready could not be furnished, and the Minister repeated that they would be furnished as rapidly as possible.

The High Commissioner.

This question was asked by Mr. Broleur to-day: Whether it is the intention of the Government to dismiss those public employes who took an active part in politics during the last Dominion elections and who were guilty of insulting their political opponents?

The Premier's reply was that when complaint is made a strict investigation will be made.

Estimates amount to $224,708 and decreases $1,227,700

OTTAWA, May 18.—A deputation from the Dominion Trades and Labor Congress, consisting of Messrs. Lafontaine and John of Montreal, Armstrong and Dower of Toronto, and others had an interview with Sir John and the Ministers of Customs and Agriculture this afternoon. The deputation was introduced by Messrs. Ingram and Lepine and accompanied by Messrs. McKay, Ryckman, Sproule and other members. Mr Lafontaine acted as spokesman and asked for legislation on several questions, including Chinese immigration and the prevention of other undesirable immigration, and the abolition of all assistance to immigrants. He urged an examination of persons running stationary engines and wanted the license for cigar manufacture reduce l from $7.50 to $4 as a prevention of monopoly. He touched on the combines bill, and asked that care be taken that it did not interfere with trades unions.

Sir John received the deputation very kindly and made a pleasant little speech, in which he pointed out that most of the things asked for had been already granted or were incorporated in bills now before the House, and assured the deputation of the desire of the Government to meet the wishes of the workingmen as far as possible.

Laid His Head on Her Lap and Died.

ALMONTE, Ont., May 17.—A child between one and two years old, son of Alexander McLean of Ramsay, went and laid his head on his grandmother's knee. Mrs. McLean, thinking he was ill or tired, took him up in her arms, when he instantly breathed his last

Beer, Milkmaid, Pugnacious pig.

OWEN SOUND, May 17.—Mrs. Roger Lamont of the Lake Shore Line, Sydenham, had just finished milking and was standing with the pail of milk in her hand While in the act of driving a pig from the yard, she slipped, breaking her leg.

WASHINGTON, D C., May 18.—One of the first subjects to engage the attention of the President upon his return to Washington the Behring Sea dispute. It is probable that the sailing orders of the revenue cutters assigned to duty in Behring Sea will be made out and issued next week.

The illness of Secretary Blaine may necessitate a slight delay in the preparation of these instructions.

Children Cry for Pitcher's Castoria.

BRITISH AND FOREIGN.

SERVIAN STUDENTS DEFEND QUEEN NATALIE.

An Unsuccessful Attempt to Expel Her from Belgrade — Several Students Wounded—Emperor William's Foolish Remarks Bearing Fruit

BELGRADE, May 18.—The prefect of this city, who was charged by the regents with the duty of expelling ex-Queen Natalie from Servian territory, went to the latter's residence to-day and in spite of her protests compelled her to enter a carriage, which drove towards the quay on the Danube, where the royal yacht was moored.

The news that the ex-Queen was really to be expelled from Servia had in the meantime spread throughout Belgrade and had reached the students' quarters.

The students promptly turned out in force and the carriage containing the ex-Queen was soon surrounded by students, who seized the horses' heads, brought the vehicle to a standstill and loudly cheered the royal prisoner.

The students then detached the horses from the carriage and drew the ex-Queen, who remained seated in it, back to her residence, cheering loudly as they passed through the streets.

The prefect, assisted by gendarmes, tried to regain possession of the ex-Queen. Several collisions took place between the gendarmes and the students, but the latter came off victorious. Aware of the strong sympathy felt for Natalie by the opposition party in the Skuptschina and by the public in general, the Government had the streets in the vicinity of Natalie's residence cordoned early in the morning and the public was excluded from those streets

The Cabinet assembled immediately, and at 9 o'clock to-night the ministers were still in session.

The citizens and merchants generally side with the ex Queen. The residence of Natalie is defended by students. Intense excitement prevails

A conflict occurred this afternoon, the troops firing upon the Queen's supporters, killing two and wounding many others. The Premier this evening received a deputation of citizens, who asked him to intervene in the ex-Queen's behalf.

100 FRANCS FOR EACH CHILD.

Dr. Tanier Offers a Premium on French Babies

LONDON, May 18.—A great deal of interest has been created in the deliberations of the French Academy of Medicine, which has for some months past been discussing the question of population. France has for so long possessed the chief country in Europe in which the various methods employed for the limiting of the number of her children are in practice that the action of Dr. Tanier, president of the Academy of Medicine, has created a good deal of talk, especially in the higher circles of the medical profession. He has just published a promise that to the wife of every poor man in his native town of Burgundy he will give a present of 100 francs —say $20—for each child born to her during the year 1892. This beneficent offer will undoubtedly be hailed with great satisfaction by all the poorer classes, and will have the additional effect of making the worthy doctor more hugely popular in the town of his birth. He certainly sees our most Gracious Majesty, and goes her one better, for the doctor's benefit is bestowed on every woman alike who produces one child, while the Queen gives a holiday only to such women as have triplets.

STUDENTS DUELS PLENTIFUL.

The German Emperor's Remarkable Speech at Bonn Bearing Fruit

LONDON, May 18.—The Kaiser's speech at Bonn in favor of dueling has already borne fruit in the sentencing of two students named Mann and Leibutz to three months' imprisonment in a fortress for fighting a duel. Ever since the Kaiser astonished the faculty of Bonn and law-abiding Germans generally by speaking a favor of that which the chief condemns as a crime, there has been a marked increase of recklessness among the students, and other fighting cases, as to the position of the principals in the affairs. In several instances the usual precautions of face and arm protection have been discarded and blades fought with an earnestness that really meant blood. Mann and Leibutz had a quarrel over a trivial affair and made haste to settle it by a duel. The fight was more than usually sanguinary, the combatants not being satisfied with merely drawing blood, but continuing the combat until two parts after each had been seriously gashed. Under former circumstances the authorities would have regarded the wounds as sufficient punishment and pretended ignorance of the crime, but since the Kaiser's speech things have been getting to such a pass as to threaten demoralization, and it was thought necessary to administer a lesson.

The young men were arrested, much to the astonishment of themselves and their friends, and condemned to a penalty which means the loss of the summer season. The effect of the penalty is already said to be wholesome, and public opinion in Germany generally approves it

EATEN BY LOCUSTS.

Horrible Fate of a French Savant While Investigating the Locust Plague.

VIGORRE, May 18.—The French savant, Kunckel Herculais, president of the Entomological Society, who was employed by the Government on a mission of investigating the locust plague in this province, has met a horrible death. While examining a deposit of locusts' eggs at the village of Sidiral he was overcome with fatigue and heat, and fell asleep on the ground Whilst sleeping he was attacked by a swarm of locusts. On awaking he struggled desperately to escape. He set fire to the insects in the bushes near him, but all his efforts were of no avail, and when finally the locusts left the scene the corpse was found. His hair, beard and clothing had been entirely devoured. He remains was a member of the French Academy and the author of several valuable works on insects.

TORONTO TOPICS

First Drowning Accident of the Season—Sudden Deaths.

TORONTO, May 19.—William Whyte, one of the old-timers of the County of York, went to church at York Mills Sunday in apparently the best of health. He returned to his home on the Don Mills-road, ate a hearty dinner, and was about to do some chores about his premises when he fell to the floor dead. He leaves a family of nine children, five sons and four daughters. The deceased came to Canada in 1851.

The first bathing fatality of the season occurred in the Don River yesterday afternoon between 3 and 4 o'clock. The victim was Louis Howard, aged 12, pupil at the Wesley-street School, whose parents live at 15 St. Nicholas-street. With a couple of companions he went into baths at the Winchester-street bridge. Getting out of his depth his companions raised an alarm, and the employes of the brickyard near by ran to the scene, arriving there just in time to see the boy disappear for the last time. A pike-pole was obtained, but some time elapsed before the body was recovered.

Pending the issue of the present legal battle, street car affairs practically remain in the same position as they were on Saturday last. Senator Sanita has given his men a 10-hour day and 15 cents an hour. An anti-fare paying organization has been formed, but it is not likely to amount to much.

Catharine Bell, 110 Victoria-street, had been drinking very hard lately and at 11.30 yesterday her husband found her dead in bed. Coroner Powell was notified, but concluded that an inquest was unnecessary and said the deceased had probably died from heart disease, to which she was subject.

THE GHOULS CAPTURED.

THE MEN WHO ROBBED MR. PURCELL'S GRAVE CAUGHT.

They Prove to be Two Penitentiary Birds Who Recently Were Released—Strong Case Against the Accused—Where is the Body Secreted?

CORNWALL, May 18.—The excitement in connection with the stealing of the body of the late P. Purcell, M.P., from his grave in Flannigan's Point graveyard is in no way abated, and the developments of the last couple of days lead to the belief that the perpetrators of this ghoulish outrage will speedily be brought to justice. Detective Grosse of the Montreal service has the case in hand and this morning had two warrants issued for the arrest of Norman Derochie and John James Craig, two well-known characters recently released from the penitentiary.

On Saturday evening the watchers discovered a buoy and attempted to raise it, but failed. They went for assistance, but on their return found the buoy had disappeared. On Sunday morning Messrs. Milden and McDonald visited the Channel Island, where they found a shovel, which was covered with clay of the same nature of that of the graveyard. A quantity of lime and a lot of egg shells were also found, and it is supposed the body snatchers had breakfasted there. The lime was no doubt used to kill the stench of the decomposed body.

Derochie was taken into custody to-day, but Craig is missing. The officers claim to have strong evidence against the accused.

GREAT STRIKE PROMISED.

British Labor Leaders Preparing for a Gigantic Conflict.

LIVERPOOL, May 18.—It is said that movements have been concerted privately with labor leaders in different parts of the Kingdom for a gigantic labor conflict. The strikes are not to be confined to any particular locality, but all the great seaports and labor centres are to be the scenes of the uprising. The specific statement is made that the dock laborers unions are secretly making great efforts to bring about the proposed struggle, and that the men are acting in concert with their brethren in London, Hull and Glasgow.

The time fixed for the demonstration is the period when the full tide of summer emigration is at its height, the shipping trade in most active, and the call for labor most imperative. At the present time the shipping trade is fairly busy and labor is in good demand at the docks. While the strike has not yet taken place, meetings were held during the past week to consider the grievances under which the men still labor.

THE CAT-O'-NINE-TAILS.

Christening a New Post and Pillory at Newcastle.

NEWCASTLE, Del., May 18.—Four hundred people crowded into the Newcastle jail yard to-day and saw Sheriff Simmons apply the lash with unusual severity. So eager was the crowd to get a good view of the ten victims that a rope had to be stretched around the whipping-post and pillory. The post and pillory are entirely new, and to-day were used for the first time. The vagrant stone-breakers had a holiday.

An incident of the proceedings was the apparent misery of Andrew Jackson, an aged colored burglar of Delaware City, as the sheriff was applying twenty lashes. When the thirteenth lash had descended Andrew fell exhausted, and he was given a few moments to recover. He was all right after the punishment had been inflicted, but swore he would never return to the post. Samuel Sewell, a mulatto burglar, was painfully cut by the lash. He stood away from the post as the sheriff delivered the twenty lashes, and the long cat-o'-nine-tails wrapped around his body. His stomach as well as his back bore evidence of the whipping. The other victims stood the punishment heroically.

William H. Bradshaw, Alexander Wortenbury, Samuel Sewell and Andrew Jackson, all colored burglars, were given 20 lashes each and one hour in the pillory. For petty thefts Benjamin Caffin and James Williams were given 10 lashes each; George Cummings, Frank Grooms and Andrew Reed five lashes each, and George Harman four lashes. The latter will be given three lashes on June 13 and three on July 10. Reed was the only white man on the list.

TOUCHED HIS HEART.

Wonderful Surgery That Saved a Life In Chicago.

CHICAGO, May 18.—Surgeons West and Bouffler have performed a difficult operation on Lake Branick at the County Hospital. It consisted in sewing up a knife-wound that penetrated the outer covering of the heart. Branick was brought to the hospital in almost a dying condition. Dr. Bouffler made an incision five inches long extending in the median line through the peritoneum. A gush of dark blood from the previous internal hemorrhage flowed from the incision. Silken sponges were placed between the intestines and the liver was pulled down and tied.

The surgeon followed the course of the knife. His finger was passed upwards and found an opening in the diaphragm. This settled the question of life and death with the nurses and attendants. Too man may be dead. But Dr. West's finger passed on through the opening when he looked up in surprise and hastily withdrew his hand.

"This man is living. I touched his heart. I felt its pulsations," said he.

The opening into the diaphragm led into the pericardial cavity. The heart was fluttering and the patient was sinking rapidly. Hastily a suture was passed through the edges of the wound and the opening in the diaphragm was closed. An "M" shaped stitch was put into the liver and the upper part of the abdominal cavity was sponged out. The abdominal incision was then closed with iodoform gauze and collodion dressing. The man was still living and is still alive. The operation was performed a fortnight ago, and yesterday Branick was preparing to be removed to his home. He is 24 years old, unmarried, and an engineer by trade.

ALGOMA ELECTIONS.

The Returns Incomplete but McDonnell Probably Elected.

RAT PORTAGE, May 18.—McDonnell's (Conservative) majority, as far as heard from, is 287, with the Manitoulin Islands to report.

Coast Defences.

LONDON, May 18.—Extensive additions are to be made to the batteries at Inch Keith for the protection of Edinburgh and something will soon be done to improve the defences of Portsmouth.

Fortunate in Having Delinquent Subscribers.

ORILLIA, May 18.—An unknown desperado entered The Times office and robbed the till of its entire contents, 15 cents.

O'Brien's Bondsmen Must Pay.

LONDON, May 14.—Mr. Balfour, Chief Secretary for Ireland, in answer to a question put by Thomas Sexton, member for West Belfast, said that the government had no choice but levy on the bail, $8,750, forfeited by Messrs. Dillon and O'Brien when they escaped from Ireland in order to avoid standing trial for the share they took in inciting the tenants on the Smith-Barry estates not to pay rent. Mr. Balfour added that the defendants had entered into obligations to surrender themselves to the police when required to do so, and that they failed to carry out their obligations. If ever bail ought to be enforced it should be in their case.

What it Costs.

Must be carefully considered by the great majority of people, in buying even necessities of life. Hood's Sarsaparilla commends itself with special force to the great middle classes because it combines positive economy with great medicinal power. It is the only medicine of which can truly be said, "100 doses One Dollar," and a bottle taken according to directions will average to last a month.

SUN LIFE
ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,335 92
Increase over previous year	3,421,372 84
New Applications received in 1890	6,371 599 15
Increase over 1889	2 268 888 60
Cash income for year ending 31st December, 1890	889,078 87
Increase over 1889	325 938 35
Assets at 31st December, 1890	2,473 514 19
Increase over 1889	687,691 47
Reserve for Security for Policy-Holders	2,109 222 68
Increase over 1889	567 732 71
Surplus over all Liabilities and Capital Stock	232.175 69
Increase over 1889	75 649 05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$64 824 07
" " " " 1886, "	89,452 97
" " " " 1890, (four years)	232,175 69

CANADIANS, STAND FAST.

Rev. Principal Grant "Talks" in St Paul's Church

On the Subject of National Unity—Ours is a Great Country and Should be Preserved—A Patriotic and Inspiring Address.

An incidental remark passed by Rev. Principal Grant, that numbers are no indication of the importance or value of anything, received *prima facie* verification in the attendance at the lecture Monday evening. Though the number present cannot be said to have been large, yet the "talk" by Principal Grant was none the less important and valuable, as well as pleasing and instructive.

All true Canadians ought and probably do take a pride in their nationality, and any occasion on which the praises of our country are sounded and Canada's future greatness predicted with a clearness of vision which cannot be disputed, is full of attraction and importance for every loyal patriot. Principal Grant struck a responsive chord in every Canadian heart present when he spoke on the subject of "National Union" in St. Paul's church Monday evening.

The ladies of the church who brought their influence to bear upon the Principal and induced him to deliver the address, are deserving of the thanks of all who had the pleasure of attending the lecture.

The choir was present and assisted in the singing, and Master Arlidge sang a couple of solos most pleasingly.

After devotional exercises, Rev. Principal Grant was introduced by Rev. Mr. Torrance.

NATIONAL UNION.

PRINCIPAL GRANT in beginning good humoredly denied any intention of inflicting a lecture upon his audience. He had simply promised a "talk," and he would just talk to them as he had on a previous visit, when he told them of things he had seen in the British colonies of Australia and South Africa. This talk would be a sort of sequel to the first, for whereas on the former occasion he had spoken of the self-governing colonies of Australia, New Zealand and Cape Colony, he would now talk of a colony nearer and dearer to us, our own Canada, referring particularly to some features which had placed us a step in advance of the others, namely, the political unification of our country. Previous to 1867 Canada consisted of two Provinces, who were constantly at strife with each other, but in that year the troubles were solved by the confederation of these and other colonies and the political unification of the British possessions in North America brought about. In this respect we were ahead of the other colonies named. It would probably be a long time before New Zealand would ever be consolidated, for the people had great difficulties to encounter. Australia was already taking this step, but like Canada probably would not at first include all the Australian colonies. That step has, however, since been taken by us, and it was on the importance of preserving this union, which extends from the Atlantic to the Pacific, that he wished to speak. Because Canada was so big that Canadians were ignorant of their own country. People often wonder at the ignorance of Britishers regarding Canada, but they should not be so much surprised at this when they realize how ignorant they are of their own country. He did not intend to speak of Imperial federation, but for the sake of those who had expected an address on that subject he wished to explain that there was no inconsistency between Imperial Federation and a Canadian nationality. There was no incompatibility in our

BEING THOROUGH CANADIANS

and still cherishing our British connections. In fact the two were so blended together that he saw no other way of preserving our autonomy than by maintaing our British connection. For this reason he was an Imperial Federationist. And if our national independence could be maintained in no other way, the necessity for it was therefore proven. No nation was independent when it was obliged to submit to insult or spoliation from a stronger nation. Saint Domingo and Mexico were reasonably independent, yet they had to submit to the United States in everything; and so in the case of Portugal with Great Britain. No country is independent unless it is strong enough in itself, or by reason of some alliance, such as Canada maintains with Great Britain, to hold to its own course regardless of other nations. Take for instance the condition of affairs on the Atlantic coast with regard to our fisheries. American fishermen would have claimed the same privileges on the fishing grounds after they had broken the Fishery Treaty as before, and they would have forced their claim had Canada not been backed up by Great Britain. It may be said that it is a Christian virtue to turn the other cheek when one has been smitten, but his Christian courage would not permit him to bear in silence any outrageous advance on the part of the strong towards the weak. The independence of our country was a thing beyond price, something indispensable to the principles of true manhood. There are, of course, some individuals who imagine that if they are putting money in their pockets they are doing their country good. Some people would have said that Wallace was a fool when he undertook Scotland's cause, yet who cannot say which

DID THE MOST FOR HIS COUNTRY,

the patriot or the practical man? It may be said that Scotland eventually joined England. Of course, but it was the wisest thing, and we are ready for union with our neighbors on the same terms, that is, that our Queen shall be their Queen, they shall have the same constitution and shall be one country with us. Our object should be not so much to devise some scheme for advancing Imperial Federation, as for strengthening our Canadian nationality. That was our first great work. It was a platform on which all could stand. It could hold even those who claim our ultimate destiny is separation from the mother country and complete independence. He would say to them, very well, let us first make Canada strong enough to be truly independent. In dealing with the subject, Principal Grant said he would first speak on the importance of national unity. Some men are so wrapped up in their own affairs that they do not realize the love they have to their country. This sentiment of patriotism, however, lived in the breast of every man who pretended to be a man. We see it the world over in all classes of people. We do not know how intense is this love for our country until the national life is threatened. When civil war broke out in the United States the people forgot their dollars, and offered their husbands, fathers, brothers and sons by the million to save the national life. Shall Canadians be the only people in the world without patriotism? No, no, they have it, too. But they are not given to gush, and properly so, and do not make a display of their deepest feelings. But even in our short history we have seen how patriotic Canadians are. When the news of the North-West uprising was flashed over the wire, regiments were offered even by the far-away Maritime provinces who had objected to Confederation, and when the soldiers returned from the war

THE WHOLE COUNTRY WAS STIRRED.

But like other northern people, Canadians were not easily moved to give expression to their feelings; but if there was need of showing them, we would be as ready as were our neighbors between 1860 and 1865 to defend our national existence. And just in proportion to its importance are the difficulties to be overcome in bringing about national union. Nothing in the world is more precious than a great nation, and it takes time to make it. The obstacles to be overcome are in some cases almost insurmountable. Principal Grant said he remembered in his own life time the apparent hopelessness of uniting the thirty-nine pieces of the German empire, but to-day that empire is the strongest in the world. Italy, too, took centuries to accomplish its unification, and like Germany its has still its obstacles to overcome. Germany knew that yet it had to fear the forces of Russia and France, and Italy knows it bears in its heart a foe ready to summon enemies to split it up into fragments again. Austria was known to-day as an polyglot museum,

Children Cry for Pitcher's Castoria.

A MAD POET

rushed into a newspaper office recently, and threatened to clean out the establishment, because they printed his verses wrong. Said he: "I wrote, 'To dwell forever in a grot of peace,' and you idiots put it 'a pot of grease.'" The mortified editor presented him with a vial of Dr. Pierce's Pleasant Pellets, a year's subscription and an apology.

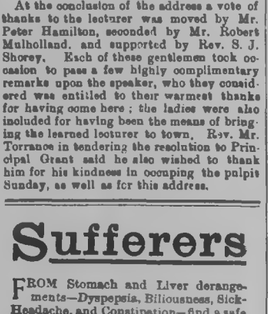
The little "Pellets" positively cure sick and nervous headache, biliousness, costiveness, and all derangements of the stomach, bowels and liver. It's a large contract, but the smallest things in the world do the business—Dr. Pierce's Pleasant Pellets. They're the smallest, but the most effective. They go to work in the right way. They cleanse and renovate the liver, stomach and bowels thoroughly—but they do it mildly and gently. You feel the good they do—but you don't feel them doing it.

As a Liver Pill, the "Pellets" are unequaled. Sugar-coated, easy to take, and put up in vials, and hermetically sealed, and thus always fresh and reliable. A perfect vest-pocket remedy, in small vials, and only *one* necessary for a laxative or *three* for a cathartic.

They're the *cheapest* pill you can buy, because they're *guaranteed* to give satisfaction, or your money is returned.

You only pay for *the good* you get.

That's the *peculiar* plan all Dr. Pierce's medicines are sold on, through druggists.



Always open

—the offer made by the proprietors of Doctor Sage's Catarrh Remedy. It's a reward of $500 cash for an incurable case of catarrh, no matter how bad, or of how long standing. They'll carry it out, too. It's one thing to make the offer. It's a very different thing to make it good. It couldn't be done, except with an extraordinary medicine. But that's what they have. By its mild, soothing and healing properties, Dr. Sage's Remedy cures the worst cases. It doesn't simply palliate for a time, or drive the disease to the lungs. It produces a perfect and permanent cure. Try it and see. If you can't be cured, you'll be paid.

it comprised so many people of different languages. And how long it took England to unify herself, and Scotland, and Ireland, too, though in the latter the union is none too perfect yet. Even in our own continent, look at the difficulties over which the United States triumphed in its efforts towards unification, and which culminated in the great war of 1860-6; and still there is the "solid south," voting as one man for its own interests. Yet the nationality is preserved and both north and south are ready to defend the country with their hearts' blood against a common foe. What are the difficulties we have to meet with in this country? Nothing as compared with some of these. We are already part of a great British people and

OUR NORTHERN POSITION

will prevent the influx of the southern people and the negro element, people who are not accustomed to self government. Our position secures to us the influx of people from northern lands, who do not grow so fast as those from the south, but that is no loss. We ought to grow a hardy, frugal, thrifty people, and be able to teach other nations lessons. Even now, so far as our marriage laws, Sabbath laws, parliamentary usage, judicial system and criminal procedure—on all these points we can do more good by following out our own system than by a cowardly subservience to the system of other nations. A great Christian nation was the most potent influence on earth for the diffusion of liberty, righteousness, justice towards men, and commercial, political and individual freedom. And the special features of Canada were such as to make us wish to preserve its unity, dignity and strength. Principal Grant said he knew every part of Canada well; he had traversed it as far as was possible in every direction, and had found there a country so great and vast, with such immense resources and illimitable possibilities, that he said to himself, "He is a coward who would not dare, to fight for such a land." With such a country as ours, a people who could not build up a great nation here are not worthy of the name. Principal Grant's peroration was eloquent and inspiring. He pointed out our educational and natural advantages, the extent and varied beauties of our country, our inexhaustible resources and the vast possibilities before us. And the underlying sentiment still was, we are all Britons, and in conclusion, he would say to all, and to the young men especially, "Stand fast to your country, let country be dearer than heart, dearer than locality, dearer than place and power. Stand fast! That is the motto of my own clan."

A HEARTY VOTE OF THANKS.

At the conclusion of the address a vote of thanks to the lecturer was moved by Mr. Peter Hamilton, seconded by Mr. Robert Mulholland, and supported by Rev. S. J. Shorey. Each of these gentlemen took occasion to pass a few highly complimentary remarks upon the speaker, who they considered was entitled to their warmest thanks for having come here; the ladies were also included for having been the means of bringing the learned lecturer to town. Rev. Mr. Torrance in tendering the resolution to Principal Grant said he also wished to thank him for his kindness in occupying the pulpit Sunday, as well as for this address.

Sufferers

FROM Stomach and Liver derangements—Dyspepsia, Biliousness, Sick-Headache, and Constipation—find a safe and certain relief in **Ayer's Pills.** In all cases where a cathartic is needed, these Pills are recommended by leading physicians.

Dr. T. E. Hastings, of Baltimore, says: "Ayer's Pills are the best cathartic and aperient within the reach of my profession."

Dr. John W. Brown, of Oceana, W. Va., writes: "I have prescribed Ayer's Pills in my practice, and find them excellent. I urge their general use in families."

"For a number of years I was afflicted with biliousness which almost destroyed my health. I tried various remedies, but nothing afforded me any relief until I began to take Ayer's Pills."—G. S. Wanderlich, Scranton, Pa.

"I have used Ayer's Pills for the past thirty years, and am satisfied I should not be alive to-day if it had not been for them. They cured me of dyspepsia when all other remedies failed, and their occasional use has kept me in a healthy condition ever since."—T. P. Brown, Chester, Pa.

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills, and deem it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years past I have taken one of these Pills every night before retiring. I would not willingly be without them."—G. W. Bowman, 26 East Main st., Carlisle, Pa.

"Ayer's Pills have been used in my family upwards of twenty years, and have completely verified all that is claimed for them. In attacks of piles, from which I suffered many years, they afforded me greater relief than any medicine I ever tried."—Thomas F. Adams, Holly Springs, Texas.

Ayer's Pills,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists and Dealers in Medicine.

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. dw

It Does Its Work.

Mrs. James Dix, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

Everybody Likes It.

Wm. Dredge, Ellen street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised. Sold by all druggists. dw

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure blood, removing all foul humors, from a common pimple to the worst scrofulous sore. 2w20d

From the Pacific Coast.

We quote from a letter recently received from Miss Eleanor Pope, Port Haney, B.C.: "For sore throat, coughs, croup, bruises, &c., Hagyard's Yellow Oil is the best thing I have ever used." 2w20d

Would not be Without It.

Dyer's Jelly of Cucumber and Roses for chapped hands and for making the skin smooth and soft. Try it. Druggists keep it, W. A. Dyer & Co., Montreal. 61116

W. A. Greatrex, Druggist, has for sale the Royal Rheumatic Remedy. It is no new formula, having been before the public for 12 years and effected wonderful cures. Write to R. R. R. Co. for testimonials. dw

THE RED COLOR of the blood is caused by the Iron it contains. Supply the iron when lacking by using Milburn's Beef, Iron and Wine. dw

Will be found an excellent remedy for sick headache Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

"MANY MEN, MANY MINDS," but all men and all minds agree as to the merits of Burdock Pills, small and sugar-coated. dw

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, NERVE and BRAIN RESTORER, as they supply in a condensed form the substances actually needed to enrich the Blood, curing such diseases coming from Poor and Watery Blood, or from VITIATED HUMORS in the BLOOD, and also Invigorate and Build up the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail sickness when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing

THE TIME AND THE MAN.

INDIA'S AUTHOR, RUDYARD KIPLING, AND HIS WORK.

A Prophet Who Has Honor In His Own Country The "Surplus" Man Who was "Allowed" to Do the Work—The Novelist's Age but 25 Years.

Rudyard Kipling was twenty-five years of age on the 30th of December. He was born in the magnificent old rock city of Bombay, the second city in the British Empire, on the 29th of December, 1865. He was sent "home" at an early age, and received his education at a famous school in England. In 1882, at the age of eighteen, but probably already a matured man, he returned to India, and began his vivid, active life as a reporter and sub-editor on an India newspaper. What this life was we can gather best by following the first person, the pervading "I" of his collected stories, in the "Plain Tales from the Hills," in "Soldiers Three," and in the volume of native stories called "In Black and White." The omnipresent, irrepressible, active reporter, who has always such infinite leisure for starvation or a story of universal sympathies, touching Indian life in every one of its complex variations, now swelling it with his "chals and ladies," as Mulvaney remarks, now the lesson crony of the same Mulvaney, but always a gentleman, and entering into native character with a penetrative depth of weight such as no other European has attained to—this is only the actual Rudyard Kipling. Those seven years, 1882-1889, were the seed time and the harvest of his work. It was then that the stories and the verses in his seven earlier volumes were written, for the most part, as a portion of his daily task work, and after their appearance in journalistic form were collected into quaint little Indian-printed books published by Thacker & Spink, of Calcutta, which would fetch their weight in gold at this day. They have gone, as Mr. Andrew Lang puts it, the way of most first editions, and this very fact shows that Kipling's work, from the first, was keenly appreciated on his own ground.

Never was there such an illustration of "time and the man." India is a great continent, with a population of five times that of the much boasted United States, of a hundred different languages and religions, with a history which concentrates all the wild romance of the East. At least from the days of Virgil the name of India has been synonymous with romance, or if, as Mr. Kipling says, the history of India only begins with the Company, it has anyhow, for 300 years, been the recorded theatre of such absolutely varied action as no other extant can rival. And yet, until but the other day, that fine old Colonel, Meadows Taylor, whom I knew in my childhood, and of whom I may sometime have occasion to speak, the author of "Tara," "Seeta," "Confessions of a Thug," and several other excellent novels, Colonel Taylor remained the one literary outcome of two centuries of British rule in India. It was certainly not an adequate product, and one reason for this fact was this, as Mr. Kipling puts it, the Government of India acts on the beautiful principle of working all its servants to death and leaving no "surplus" man around. Then, in 1882, appeared Mr. Kipling, who was most fortunately a surplus man as far as other of the services was concerned. India had been waiting for him, through the dumb centuries. When I told him, the other night, that he had been "able" to do this and that great thing for India, never done before, "No," he said, feeling that he was but the instrument, "Say, if you will, that I was allowed to do it." It was an easy task. "I was my place of banishment," he calls India in that bitter and beautiful "Envoi," at the close of "Soldiers Three," but he did his great work.

Sincerely Rudyard Kipling

In the summer of 1889, Mr. Kipling, aged twenty-three, and by achievement the greatest tale-teller living alive, not less greater certainly, than such veterans as Bret Harte and Alphonse Daudet, but probably knowing little of all this himself, left his gorgeous "place of banishment" to go "home," via China, Japan and America. He wrote constant letters back to India, describing his adventures and observations by the way. These letters will be collected, very shortly, into a most fascinating volume. And about fifteen months ago he reached London, and soon after he began to flame across the entire literary firmament. He is keenly aware of the start which he has got over his contemporaries, and he does not seem inclined to yield any portion of this start. He has probably never worked so hard as during this last year of glory; he leads the life of an oyster, never seeing a stranger, and one of his friends relates that he makes nothing of working four teen hours a day. I have repeatedly heard him called the hardest man in London to meet, and, indeed, he is quite right to protect his seclusion. The brilliant story of "The Light that Failed," now running in America, is but one of the recent results of his great labor. I ventured to ask Mr. Kipling a question that is doubtless in the hearts of 10,000, namely, whether he was engaged in fulfilling the half promise made to the reader in the last story of the "Plain Tales," "Filed for Reference." "No," he said, "no, indeed! I should have to be in India to do that." But going back to India he says he will some day take that weird and matchless plot of the file, and produce one of the novels of all time in tracing the fortunes of English scholar gentleman born, lost in drunkenness, in Hinduism, and in the slums of that picturesque bazar.

I ought to state that Mr. Kipling, who, it is possible, has no better ground of information on this point than an outsider would have, says: "Oh, he never said such a thing he couldn't have," in reference to Mr. Gladstone's universally reported pronunciamento to the effect that there are at this moment just four authors of any account in the English language—Tennyson, Ruskin, Kipling and Meredith. Certain it is that Mr. Kipling, in common with every old Indian, has such a scorn for Mr. Gladstone as to make him disposed to find little honor in any praise from him.—London Letter in Boston Advertiser.

THE NEW SPEAKER.

Sketch of the Career of Hon. Peter White with Portrait.

The Hon. Peter White, M. P. for Renfrew, is of Scottish descent, and is a son of the late Lieut.-Col. Peter White, who settled in Pembroke in 1826. He was born in Pembroke 30th August, 1838, and was educated there. Mr. White is an extensive lumber

HON. PETER WHITE, M. P.

merchant, and is well known throughout the entire district. He began his public career as Reeve of Pembroke, and was an unsuccessful candidate for present seat at the general election of 1872. He was, however, elected at the general election of 1874, and has occupied his present seat continuously since then. His election to the Speakership of the House of Commons on the 29th April was unanimous, and the eulogies upon his abilities then passed by Sir John Macdonald and his fairness by the Leader of the Opposition were well deserved.

Use of Asbestos.

Asbestos is a mineral fiber which is entirely indifferent not only to all the common chemicals used in the arts, but also to the action of fire. It resists a red heat perfectly, and may be said to be indestructible to all ordinary agencies. Combining so many valuable properties, its uses in the arts are, as might be expected, very numerous. It is woven into cloth, made into paper, and what might be called cardboard, a thick, soft sheet, which is useful for making washers and gaskets. It is used for packing for cylinders and pistons when pressures are high and the heat is great. It forms one of the ingredients of several fire-proof and other paints. The material has not been so long in general use that its properties are fully appreciated. New uses are being constantly found for it. There is one factory, and perhaps more, devoted entirely to the manufacture of the material. It bids fair within a few years to become one of those very necessary substances like India rubber, without which it seems as though the mechanical world would come to a standstill.

Napoleon VI.

Prince Victor Napoleon, eldest son of the late Prince Napoleon, has been already dubbed by his partisans Napoleon VI., his father being considered as Napoleon V., the poor young Prince Imperial having been styled Napoleon IV. He will be thirty years of age next July. He is a fine-looking man, with something of the grandiose cast of features of the great Emperor, though resembling far less the mighty founder of his race than did his father. He is by no means a promising pretender, having inherited the vices of the late Prince without his active and powerful intellect.

Since it is now a well established fact that catarrh is a blood disease, medical men are quite generally prescribing Ayer's Sarsaparilla for that most loathsome complaint, and the result, in nearly every instance, proves the wisdom of their advice.

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2w20

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She resolved to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS. KENNEDY, Hamilton, Ont. 2w20

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2w20

Worthy of Confidence

Those who have used it praise it! Mrs. George Ward writes from Josephice, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2w20

When Baby was sick, we gave her Castoria.

Self Application of Electricity

FOR MEDICAL PURPOSES

BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy them; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. sod-w

Daily Examiner.

TUESDAY, MAY 19, 1891.

THE Dominion Government has issued a new Order-in-Council governing the shipment of cattle. The order requires that all animals intended for shipment shall be in the stock-yards for rest and inspection during twelve hours of daylight before embarkation. The transportation companies are to provide chutes in which the animals are to be inspected. Each animal, after passing the chute, shall, if found to be healthy and suitable for inspection, be stamped, with the letters V.R, and no animal shall be allowed to embark unless so stamped.

SENSIBLE and to the point is the following comment from the Hamilton *Herald*: "A Toronto deputation has been down to Ottawa asking for money from the Militia Department to turn the boys at the public schools into young volunteers, and Sir Adolph Caron answered that arms and military instruction might be given them. If the Militia Department has any money to spend it will find a much better field to spend it among the volunteer regiments. There is where it is needed, not among the school boys."

EVERY Ontario member who votes against Mr. M. C. Cameron's bill to repeal the Dominion Franchise Act votes against giving manhood suffrage to Ontario. Our provincial franchise Act is based upon manhood suffrage, and the principle of one man one vote. Hence all we have to do to give this province manhood suffrage in Dominion elections is to repeal the Dominion Franchise Act and use the provincial voters' lists at the elections for the House of Commons. The repeal of the cumbrous and unnecessary Franchise Act would also save an immense amount of money. No excuse can be given for its existence. No Ontario man who believes in manhood suffrage can consistently vote to uphold the Dominion Franchise Act.

Grand Opera House.

Dr. Davies desires to announce that he will give an evening concert on Thursday 28th May on which occasion he will be assisted by his lady pupils, Mr. Churchill Aridge, Mr. T. Dunn and a choir of forty voices. Reserve seats 50cts. Plan at Greatrix's. 21116

A Warning to the Boys.

Monday night a lad began practising for a display of loyalty on the 24th, selecting the market square as a practice ground. At the crack of the first cracker Constable Stewart was down on the young patriot and dragged him to the adjacent cells. Here he was kept a short time as an example of the fate that awaits all boys guilty of firing fire crackers within the prohibited limits. Pyrotechnic loyalty must be discreet when everything is as dry as tinder and the danger of fire so great.

Two Tip-top Topseys.

Haverly's Uncle Tom's Cabin played to a large audience in the Utica Opera House last evening, and the presentation of the time-honored drama was very creditable, in fact the best ever presented in our city. The Topsys were very good, and the eccentric Marks created much laughter. A child actress who is not yet five years of age, assumes the role Eva, and sustains her part nicely. The other characters were well taken, and on the whole the performance gave great satisfaction.—Utica (New York) "Herald.", Bradburn's Opera House, Friday, May 22nd. Seats at Greatrex's.

Sam Small.

It is safe to say that there is no man outside of Talmage and Sam Jones that enjoys as great popularity in America to-day, as the eloquent and inimitable Sam Small. He has been engaged by the Epworth League of Charlotte street church to give his characteristic lecture on "Cranks and Mugwumps" in the Opera House, Wednesday evening, May 27th. There is little doubt but that every seat will be readily taken as the tickets are placed at popular prices so as to give all the rare privilege of hearing this man of world-wide fame. Plan of hall will be open at Greatrix's drug store to-morrow morning, 10 o'clock. d117

A DEPUTATION OF OUR DEFENDERS.

A deputation, consisting of Col. R. Z Rogers, and Capt. Miller, were present to ask a grant from the council to assist the battalion in entertaining the Governor-General's Foot Guards on May 24th and 25th.

COL. ROGERS and CAPT. MILLER pointed out the extra expense that would fall upon the local battalion. A large grant was not asked—only one that would assist in extending suitable hospitality to the visitors, as the 57th expected to receive when they visited Ottawa on July 1st.

On motion of Mr. DENNISTOUN, seconded by Mr. WINCH, a grant of $150 was made to assist the 57th Battalion in preparing the camp ground and meeting other necessary expenses in connection with the visit of the Governor-General's Foot Guards on May 24th and 25th.

Councillor DENNISTOUN said the grant moved was a reasonable one. It would fall short of paying anything like the necessary expenses of entertaining our guests.

Mr. MOORE thought Ashburnham should assist in the matter, and Mr. CAHILL held a similar opinion, and he seconded a motion moved by Mr. Moore, that the matter be referred to the Finance Committee.

Mr. KENDRY thought the council could deal with the matter as well as the Finance Committee.

Mr. LANGFORD opposed the reference of the matter to the committee.

Mr. DAWSON could not see why Ashburnham should not pay its share.

Mr. MELDRUM said he thought the 57th deserved well of the town, and were worthy of the same treatment as other towns extended to the volunteers, and he would certainly support the grant.

Several members thought that as the camp was in Ashburnham, that village should give at least $50 of the $150 proposed.

The amendment was withdrawn, and the original motion carried.

In respect of the communication of Mr. W. G. Morrow, the clerk was instructed to notify the School Board that the Town Council was ready to meet with the School Board at any convenient time they may appoint.

FINANCE.

Mr. DAVIDSON, chairman, presented the report of the Finance Committee, as below:

To the Mayor and Town Council:

GENTLEMEN,—Your Finance Committe beg leave to report, and recommend payment of the following accounts:

J. J. Lynch	$ 5 00
Thos. Brady	6 50
Peterborough Water Company	10 00
T. E. Boddy	7 20
P. Connal & Co	24 60
J. Armstrong	35 00
J. E. Bloher	95 00
Mrs. E. Dunsford	6 00
W. J. Mason	42 25
W. J. Morrow	34 00
Dickson Company	3 16
H. C. Stabler	25 00

The Fire Brigade and 57th Band.—Your committee would recommend that they be given $200 to be paid quarterly, with the conditions as to playing in the park, etc.

With reference to the petition from the secretary of the Mechanic's Institute. Your committee would recommend that they be granted $100, and that the grant cease at 1890.

All of which is respectfully submitted.

R. S. DAVIDSON, Chairman.

May 18, 1891.

The report was adopted.

STREET IMPROVEMENTS.

Mr. Langford, chairman, presented the following report of the Street and Bridge Committee:—

To the Mayor and Town Council:

GENTLEMEN,—Your Street and Bridge Committee beg leave to report and recommend,

1. That the Italian peanut stand at the corner of George and Hunter streets be permitted to occupy its present stand until the first day of October 1891, and no longer.

2. That the crib-work on Lock street be filled with earth to the height of the roadway.

3. That Lake and Lock streets be graded to the lake and the material taken from these street be used for filling the crib-work on Lock street.

4. That three fountains, similar to that in front of the police station, be purchased.

5. That 200 feet of sidewalk be laid on Cross street at a cost of about $40.

6. That a sidewalk be laid on the south side of Charlotte street street from Aylmer to Bethune.

7. That Murray street be graded from Donegal street to Park street.

All of which respectfully submitted.

WM. LANGFORD
Chairman.

The report was adopted.

REID, GILMOUR & CO.'S EXEMPTION.

A by-law was passed its several readings to exempt Reid, Gilmour & Co., biscuit manufacturers and confectioners, from taxation for the term of ten years, on condition of they employing on the average twenty hands the year round.

ELECTRIC LIGHTS AGAIN.

Mr. MELDRUM moved, seconded by Mr. DAWSON,—That the Fire, Water and Light Committee be instructed to carry out the resolution of the council in regard to the placing of additional electric lights.

Mr. MOORE said the company had not acted because, as he had been informed, some member of the council had informed the Electric Light and Power Company that the town council did not really want the lights, and he wished to show by the adoption of the motion that the council had not changed its mind on the subject.

Mr. CAHILL said the committee had no power to do anything in the matter. It rested alone with the Light and Power Company to carry out the instructions of the council received last January.

Mr. MOORE explained that the company required a contract, and the committee was the proper medium to effect the desired end.

Mr. ARTHUR STEVENSON for the Electric Light and Power Company was heard and said that the council could understand, the inaction of the company when so many changes had been made by the council in reference to the placing of lights. Another reason was that the company had about exhausted its dynamo capacity and before they incured further expense they would like to have a contract and some assurance that any arrangement made would be reasonably permanent.

Mr. CAHILL thought the resolution was too binding. Though we were under heavy expense for light, he favored light after 12 o'clock at night.

Mr. MELDRUM, after a good deal of discussion had occurred, said the motion had answered its purpose, and he was willing to withdraw it on condition that the chairman take action and report to the council.

MOTIONS MADE.

Mr. Cahill moved, seconded by Mr. Davidson, that the Fire, Water and Light Committee be instructed to advertise for tenders for excavating for water pipes to the Elliott Works, the work to be proceeded with at once.—Carried.

Mr. MOORE asked and Mr. Bradburn explained in reference to a meeting between a committee of the town council and the Nicholls Hospital Board, and the council adjourned.

A Brisk and Brief Fire.

A Row of Wooden Sheds Destroyed—A Fire Trap Disarranged—The Fire Service—The Hose Reel Arrives Late.

Monday afternoon about four o'clock a fire was discovered briskly burning in the lane that runs north and south in the rear of George street. It is probable that the alarm was promptly rung but it was a long time before the fire department responded. It is supposed that the fire alarm rang but very few heard its muffled tones. It was exactly eighteen minutes from the time Mr. John Craig, in the rear of whose shop the fire was burning, rushed into the street shouting "Fire!" till the water was playing. In the meantime the amateur and volunteer firemen were hard at work with pails, etc., and Mr. Craig says it is due solely to the heroic work of Messrs. W. H. Wrighton, Ernie Mason, and J. E Belcher that the fire did not get a grip on his shop proper. When the hose reels arrived,

THE WATER FROM SIX STREAMS

began to play on the seething mass of flames that represented the row of wooden sheds, under dry, that extended along the lane from Messrs. Foot & McWhinnie's to Newton's furniture shop, and though the water rapidly converted the flames into smoke and steam, the sheds were destroyed by the fire. But the brigade and the individual efforts prevented the fire from entering the buildings proper, though most of the windows were broken by the heat and water and the frames were charred so as to be useless. The checking of the fire at this point prevented it from doing more than nominal damage—in fact, in one sense the fire will be a blessing in disguise. If the fire inspector does his duty, good substantial fire-proof sheds will take the place of the veritable fire traps, which yesterday's blaze wiped out, and now persons who live adjacent to where these sheds were say they can retire to rest without

THE DREAD OF BEING ROASTED

in their beds. In this respect the fire cannot be accounted a calamity, still considerable loss and great inconvenience was suffered by some of the parties affected by the fire. Messrs. Foot & McWhinnie, who were the last in the line of destruction, were affected less by fire than smoke and water. The loss on the stock proper was not due to fire, but to water and rough handling. Their loss between damage and interruption of business was between two hundred and three hundred dollars, and is covered by policies in the City of London and Commercial Insurance Companies. Bates Bros. suffered some loss, chiefly in business derangement, protected in the Phœnix. Mr. John Craig suffered both from the flames and from smoke and water. His loss, with the National holiday coming on, for which preparation had been made, will be about $400, covered by a policy in the Royal Insurance Company. Mrs. Ross, fancy goods, had her goods badly tossed about, and many of her samples, etc., destroyed. She cannot place at present any exact estimation on the loss sustained. It is however, happily covered by an Atlas policy.

THE SHEDS WERE BURNED

in rear of Miss Sanderson's and Miss Jenkins', also fancy goods dealers, but their shops and stock were not injured. Mr. H. Newton had some $25 worth of goods stored in the sheds that were burned.

The buildings occupied by Mrs. Ross, Mr. Craig, Miss Jenkins, Miss Sanderson and Mr. Newton, belong to Mrs. Birdsall, and the block in which are the shops of Messrs. Bates Bros. and Messrs. Foot & McWhinnie belong to Mr. T. Bradburn. The actual loss sustained in both cases is not great.

There is no mystery as to the origin of the fire. About half an hour before the blaze broke out Mr. H. Newton passed up the lane from Mucklestone's hardware store. He saw a little heap of rubbish burning in the lane not far from the shed where the fire started. He thought that some carpenters who were working close at hand had their eye on the fire and he thought no more of the matter till he heard the fire alarm, when he at once thought of the little bonfire in the lane, and he has no doubt that that gave rise to the fire.

There is no little feeling among citizens and property owners on account of the tardy arrival of the hose wagon on the scene of the fire.

THERE IS SOMETHING WRONG

when it takes between eighteen and twenty minutes to get the water on the fire. It appears that the hose wagon team was working at a distance from the fire hall, and that the driver did not hear the alarm promptly, and when he did hear was too far away to be as promptly at the fire hall as if his horses were in the stables, as they should be. And there is also great complaint that the fire-alarm bell cannot be heard. It is muffled up in the tower and the sound is so smothered that persons writing in this office could look across the street and see the smoke rolling heavenward but could hear no sound of the bell. There is a strong and reasonable demand for a better fire-alarm bell and also for a team of horses to be kept in the fire hall on duty, ready for any emergency. It is poor economy to have the horses working on the streets so far away that before they could be on the spot more damage could be done by fire than would buy half a dozen teams of horses.

—"That tired feeling" is entirely overcome by Hood's Sarsaparilla, which gives a feeling of buoyancy and strength to the whole system.

Police Court.

TUESDAY May 19th.

A VICIOUS VAGRANT.

Frank Stevens, who gave his home as Connecticut, and said he was just passing through town, was charged with being a vagrant. It appears that last night Stevens and a companion called at Mr. John Eyper's residence, 274 Dalhousie street, about ten o'clock at night and demanded something to eat, and attempted to force their way into the house. The prisoner evidently was in no need of drink, for he pleaded in extenuation that he was drunk. The magistrate presented the New England vagrant with three months in gaol at hard labour.

Jean Boulanger of Lakefield, pleaded guilty of being drunk and disorderly, and pleaded for leniency on the ground of his wife and five children.

A BAD TRAP.

A brisk looking but very teary lad, Jos. Butler was arraigned, charged with assaulting the infant son of Mr. John Green, barrister. It appears from the lad's confession and other evidence that a week ago last Sunday Master Butler prepared a trap in Mr. Smith's hay loft by covering the opening loosely with hay and induced baby Green into the mow so that he dropped through the trap dislocating one of his ankles and sustaining other injuries from which he has not yet recovered. A larger lad named Choate seemed to be particeps criminis, and helped in the sport, and came in for a severe reprimand. The magistrate dilated on the cruelty of the act, young Choate not escaping a severe lecture, and allowed the accused to go on suspended sentence on the understanding that parental discipline was in the meantime to be vigorously applied.

The Street Railway Fight.

Toronto's Big Monopoly on Wheels Dies Hard—In Fact Declines to Die at all.

The Street Railway Company have refused peaceable possession of the road to the city, and the aid of the courts must be invoked to secure control. That the *feeling of disappointment* on the part of the citizens is keen goes without saying. With few exceptions the people of Toronto were on Saturday in favor of using force to obtain control of the railway and putting upon Mr. Smith the task of going to law over it. But one of the exceptions to this almost universal and somewhat eager desire to oust the company was the chief counsel for the city, Mr. S. H. Blake. His advice it was that prevented the use of force. Without doubt Mr. Blake, who has on many occasions during the arbitration done signal service to the city, knows best how to deal with the policy of obstruction now being pursued. The general impression is that the company has not acted quite fairly. It may have been good law at the last moment to drag the matter into court by seeking to set aside the order for the payment of the award, but it was hardly square fighting. The street railway people might at any time during the past month have plainly stated their dissatisfaction with the finding of the court and have given grounds for it, instead of seeking to hold on by an objection sprung at the eleventh hour. If the ground of refusing possession is that some allowance should have been made for the franchise, it may be that the case will drag on until it reaches the Privy Council. Should any such protracted litigation be within the region of possibility, the city must get possession either by moral suasion or by force. The franchise belongs to the people, and the technical right of the company to operate cars on the public streets during a long law suit will not be for a moment conceded.

Murderer Kane.

BELLEVILLE, May 18.—James Kane, the wife murderer, who will hang here at 8 o'clock Thursday morning, maintains the same cool demeanor that has characterized him since his sentence by Judge Rose. He does not seem to realize his position, and while those around him are moved by feelings of sympathy, he exhibits no concern whatever. He arose this morning at 8 o'clock after sleeping soundly for several hours, and ate a hearty breakfast, after which he was visited by his spiritual adviser, who remained with him some time in prayer. He is the most uncomplaining man in the gaol, and would forego anything rather than put the officials to any trouble. J. R. Radclive, the executioner of Birchall, will have the unpleasant duty of hanging the second man in Belleville within a year. The jerk will be used. The same gallows on which Peter Davis solved life's problem will be utilized and will be erected to-morrow.

Let the Aged Read and Rejoice

A Medical writer of note says: "When we advance in years, the bones harden, the muscles become stiff, the cartilages are converted into bones, the membranes into cartilages, the stomach and bowels lose their tone, and the whole fabric, instead of being soft, flexible, and obedient to the inclinations, or even the commands of the mind, becomes rigid, inactive and feeble."

Paine's Celery Compound has done much for the old. It has given them renewed feelings of activity, and taken away the rigidness and stiffness of old age, and lent great elasticity and flexibility to every muscle. It strengthens the nervous system, and is a reorganizer of the digestive organism, keeping it in perfect and harmonious working. We know of hundreds of aged men and women in Canada, who have renewed life, and have added years to it from the use of Paine's Celery Compound.

Personal.

Mr. Walter Paterson is convalescent.

Mrs. Nix, of Sunderland, is visiting at her father's, Mr. John Lockhart, Harvey street.

Mr. J. B. Hughes, of Waterloo, Inspector of the Ætna Insurance Company, is at the Oriental to-day.

Mr. Arthur Rutherford has returned from Toronto improved in health. Mr. Rutherford's many friends will earnestly hope for his complete recovery.

Mr. Geo. D. Dickson, Q. C., Belleville, died Monday morning after an illness which lasted three years. He was born in Toronto, and was about 52 years of age. Mr. Dickson was long one of the leaders of the local bar, and was prominent as a politician on the Conservative side. He leaves a widow, one son and three daughters.

The Dominion Estimates.

The estimates for the fiscal year were brought down in the House of Commons Monday. In the appropriations is the sum of $6,000 for a Peterborough Custom House. Among the items conspicuous by their absence is that promised grant for the Trent Valley Canal. Those who were ready to believe Sir John's telegram, sent on the eve of the last election, will now have to pin their faith to the supplementary estimates. Its the only thread of hope left them.

Never had a preparation a more appropriate name than Ayer's Hair Vigor. When the capillary glands become enfeebled by disease, age, or neglect, this dressing imparts renewed life to the scalp, so that the hair assumes much of its youthful fullness and beauty.

The Edison Siding Trouble Revived.

Just as everybody thought that this question was settled the trouble breaks out afresh. The real cause of the last deadlock is unknown, but this much is positively certain, that hawley bros. have the best teas and the choicest coffees in the district. dw

Out Goes the Goods.

Prices does it. When we say things are to go, they go. We mean everything we say. Goods at first cost and less, to clear. No wild statements; absolute facts. $9,500.00 to be cleared in thirty days, and they are going—fast. KNOWLES & Co. d70w

BORN WHITE: DIED BLACK.

Henry Welch Succumbs to a Peculiar and Rare Disease.

NEW YORK, May 18.—Henry Welch, a white man, whose skin had turned black, and whose case had been watched with the greatest interest by the physicians at the Presbyterian Hospital, where he has been since May 6, died at that institution yesterday.

About the first of the present year Welch began to have severe intermittent pains in his stomach, and several physicians to whom he applied could give him no relief. Then he commenced to feel constantly languid and to assume a bilious look. In January his skin turned yellow, as though from jaundice. This continued until Welch might easily have been mistaken for a quadroon. Six weeks later he had the appearance of a mulatto.

His case was diagnosed by doctors as hypertrophic cirrhosis, or liver disease. He entered the hospital May 6 and after that continued to grow darker in color. When he died yesterday his entire skin was black. His two little girls, who arrived at the hospital yesterday with their grandmother one hour after their father's death, are remarkably pretty children and as white as the offspring of any white people. The dead man's little sons are as white as their sisters.

The disease of which Welch died was seated in the gall duct, which connects the gall bladder with the liver, which in turn is supplied with the bile necessary for digestion. The gall duct is very small, and in passing through the duct the gall stone sometimes tears the walls of the duct, causing great pain. In Welch's case the physicians say the gall stone became lodged in the duct, and the bile not being able to flow through the duct, was forced through the system, producing jaundice and changing the color of the skin to yellow.

Miller's Emulsion of Cod Liver Oil is prepared by a new process and will keep in any climate. Be sure and ask your druggist for Miller's Emulsion and take no other. dw

King of Medicines

A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 6 years. In that time ten or eleven sores appeared and broke, causing me great pain and suffering. I feared I never should get well.

"Early in 1886 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Walling Mfg. Co., and since then

HAVE NOT LOST A SINGLE DAY

on account of sickness. I believe the disease is expelled from my system, I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEHR, 9 N. Railroad St., Kendallville, Ind.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

On Fire with Eczema

Terrible Sufferings of Little Baby—Seven Doctors and Two Hospitals Fail—Cured by Cuticura.

My baby boy, 5 months old, broke out with eczema. The itching and burning was intense; the eczema spread to his limbs, breast, face and head, until he was nearly covered. His screaming agonies were painful to behold; he had no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $3 per week for medicines, and was entirely discouraged. I purchased CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, his sufferings were stopped, and rest and sleep permitted. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON,
86 W. Brookline street, Boston.

Cuticura Remedies.

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of eczema and psoriasis, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

Sold everywhere. Price, CUTICURA, 75c. SOAP, 35c.; RESOLVENT, $1.00. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases." 64 pages, 50 illustrations, and 100 testimonials.

PIMPLES, black-heads, red, rough, chapped, and oily skin cured by CUTICURA SOAP.

OLD FOLKS' PAINS.

Full of comfort for all Pains, Inflammation, and Weakness of the Aged is the Cuticura Anti-Pain Plaster, the first and only pain-killing strengthening plaster. New, instantaneous, and infallible. dw

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable losses attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on those terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only, but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics', Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

DOMINION PARLIAMENT.

MR. TARTE AGAIN MAKES IT UNPLEASANT FOR MINISTERS.

In Connection With a Vote to Pay the Salary of Engineer Perley Little Business Transacted by the House—Capital Chat.

OTTAWA, May 19.—In House to-day Committee of Supply was reached with Mr. Clarke Wallace in the chair. When the item of the Department of Public Works was reached Mr. Tarte took the floor and laid out Chief Engineer Perley, the Minister and the whole department generally in great shape.

About Mr. Perley

Mr. Tarte rose, and, speaking in French, addressed to Sir Hector Some questions. The Minister's reply was in French, but the occurrence of the proper names in their remarks told the English-speaking members that they were talking about Chief Engineer Perley and his connection with the McGreevy charges, and they listened, wishing they understood the emphatic utterances of the member for Montmorency and the stolid replies of Sir Hector.

Mr. Langelier, member for Quebec Centre, brought the discussion into English. The member for Montmorency, he said, had told the Minister of Public Works that very serious charges had been made against Mr. Perley, and most damaging statements published regarding him. Mr. Tarte had asked if Mr. Perley had been warranted in saying he was directed by the Minister to write certain letters. No answer had been made him. Mr. Langelier said another question put by Mr. Tarte had been what the Government intended to do with Mr. Perley if the charges against him were sustained. Would he be returned? The Minister had said Mr. Perley resigned his position on the Quebec Harbor Trust, but the member for Montmorency declared that he had been dismissed because of the charges made against him. There might not, however, be very much between the gentlemen in this question, Mr. Langelier said, when it was remembered that resignations are as bad for us a way that was really a dismissal. It was extraordinary, Mr. Langelier said, that the Government had not formed any determination with regard to Mr. Perley. There could be no doubt he stood under a cloud. Mr. Perley declared in these letters that he was directed by the Minister of Public Works. Sir Hector's explanation was that there is a formula used by the officials and clerks in the department which reads: "I am directed by the Minister, etc." It did not mean that the Minister had directed him. It was not possible for a Minister to look over all the letters sent from his department. If the question of Mr. Tarte applied to other letters they would have to be shown him for him to answer. He did not think Mr Perley ought to be dismissed at that time. He had been accused before the House and the charges had been referred to the Privileges and Election Committee. The House had decided that the matter should go before a committee, and it was British fair play to "try a man first and kill him afterwards." If Mr Perley were found to be guilty of the things charged against him the Government would not shield him, and would know how to deal with him, but until he was proven guilty he must be considered innocent.

Mr. Tarte followed the Minister, this time speaking in English. "These are genuine letters I hold in my hand," he declared, holding aloft a bundle of letters. They were not forged, he continued, and he believed he was justified in saying that the House ought not to vote a salary to a man accused, not by him, Mr. Tarte put in, but by another hon. member of the House. There was no use saying the letters were forgeries. To say that he was in a conspiracy was unmitigated falsehood. He asked if it was not reasonable to suppose that when such an important officer let such an important office that the Minister should inform himself of the particulars. He said he did not wish to be unjust to any man. If Mr. Perley be not guilty, Mr. Tarte said, he would be the first to declare it in the House. "But if this letter be true," and he held up a folded paper with one hand while with the other he raised a bundle of other letters from his desk. There were cries of "Read, read." "If the Prime Minister says read," Mr. Tarte responded "I will, but otherwise I will not read it until I come before the committee." Sir John shook his head with a troubled look. Sir Hector's face was very red, and his eyes were fixed on the yellow pattern in the green carpet. "I believe I have almost 50 letters written by the member for Quebec West"—the voice of the member for Montmorency filled the chamber with its determined distinctness. "They were not forgeries, they were genuine." They proved that during the session nearly from day to day a member of the House had received private information from the Department of Public Works. "I tell the hon. Minister of Public Works that his name was dragged from day to day into contempt by the member for Quebec West. If I were going to believe that these letters are true we would be face to face with high crimes. I was justified in asking if it be not against the public interest that the item for the salary of Mr. Perley be allowed to stand until we know if he is guilty or not guilty."

Sir John Macdonald thought it strange that at this stage of the proceedings an attempt should be made to draw the House into a discussion upon a question entirely irrelevant to the matter under consideration. Such an officer as a chief engineer of public works would always be required, and the vote was to furnish a salary for whatever officer acted in that capacity between July 1, 1891, and June 30, 1892. The vote was not asked for the salary of Mr. Perley ominously, but for the person who shall fill the office between the period named.

The debate was continued by Messrs. Davies Mills, Ives and Fraser up to 6 o'clock. After recess the matter was not resumed as the House simply met and adjourned. The scrap was lively while it lasted.

Sir John Macdonald gives notice to-night that he will move on Thursday next that Joseph G. H. Bergeron, member for Beauharnois, be appointed chairman of committee of the whole House.

The Washington Negotiations

Before the orders of the day were called the Washington negotiation matter was brought up again by a question from Sir Richard Cartwright as to when the papers would be brought down.

Sir John Thompson said that he had already explained that the bringing down of the papers was delayed because it was necessary to obtain the consent of the Imperial Government with regard to some of them, but they would be brought down as soon as possible.

Mr. Mills thought the Government ought not to have the Governor-General say in the speech from the throne that the papers would be brought down if the Government did not have control of them. Sir John Thompson made a brief reply in which he denied that there was any unnecessary delay in bringing down the papers, and claimed that all the Speech from the throne had promised was that the papers would be brought down as soon as possible.

The Government Printing

On the item for the Department of Public Printing and Stationery Mr. Somerville brought up the question of printing being done outside of the Department. Mr. Chapleau said that no printing was now done outside of the Government Printing office. Three years ago some of the voters' lists had been done in outside offices, but now the department would do all its own work, even the geological survey report, which had been done in Montreal, being done in the bureau this year.

A slight passage of arms took place between Messrs. Ives and Amyot on the former's twitting the latter as to the manner in which the printing in the province of Quebec was done.

Dr. Bourne and Messrs. Marshall and Armstrong interviewed the Hon. Mr. Dewdney, Superintendent General of Indian Affairs this morning with reference to passing an act bringing Indian reservations under the jurisdiction of the drainage acts of the several provinces. Mr. Dewdney promised to give the matter his attention at an early date.

A Government caucus will be held to-morrow morning.

The regular annual meeting of the Dominion Rifle Association will be held to-morrow. It is most probable that Hon. G. A. Kirkpatrick will be re-elected president of the Association and Hon. J. A. Ouimet chairman of the council.

Dinner parties are being given to-night by Sir Adolphe Caron and Hon. G. E. Foster.

TORONTO TOPICS.

Ole Perriskey—A Little Lord Fauntleroy—North Perth.

TORONTO, May 20.—At Osgoode Hall yesterday Mr. Justice Maclennan gave judgment in the North Perth election case, dismissing with costs the motion to commit Dr. Ahrens for refusing to answer questions on his examination for discovery.

On Tuesday a motion will be made to the presiding judge in chambers for an order for the delivery to its mother, Jane Burnard, of a child which has for some time been living with its grandfather, who refuses to give it up.

Rovis v. Lewis is the title of a case in which a writ was issued yesterday. The action is for breach of promise and wages. On the former count the damages sought are $5000, and on the second $83.

The plaintiff is Mrs. Rebecca Rovis, who for the past 10 years has been housekeeper of George Lewis, the defendant, an old gentleman of 76 years of age, who resides at 321 Davenport Road. Mrs. Rovis is a black-haired buxom women of 45. She alleges in her statement of claim that Mr. Lewis is worth $40,000, that in 1886 he retained her as his housekeeper under promise of marriage, preventing her return to England to her home there. The pledge there given has never been fulfilled, and getting tired of procrastination she has brought the present action.

OTTAWA, May 19.—A few minutes after 5 o'clock this afternoon Joseph Pelletier, an employe of the Standard Electric Light Company, while working on the top of a 50-foot pole at the corner of Wilbrod and Nicholas-streets, missed his hold and fell to the sidewalk. He died while being conveyed to the hospital.

INTERESTING ITEMS BY WIRE.

Jacksonville, Fla., had a $300,000 fire yesterday.

Four Italians were killed in an Erie coal R.I. sewer by a cave-in yesterday.

The Viceroy of India wires that the Senapaty of Manipur has been arrested.

The village of Bourget, Savoy (population 1500), has been destroyed by fire.

There was a heavy fall of snow throughout Western Germany on Whitsunday.

Queen Natalie was yesterday expelled from Servia without further violence.

Andrew Lemon, an old Government official, formerly of Guelph, died at Winnipeg yesterday.

Mrs. Duncan, who was battered to her husband with a stone near the Snowdon Mountains, is dying.

Twenty-seven persons, including two policemen, have been imprisoned at Cork charged with being concerned in attacking [illegible].

At Elbing yesterday the German Emperor said he confidently hoped peace was assured for the present and even for next year.

By the collapse of a platform at a meeting of the Liberal Club at Kirkcaldy, Scotland, yesterday, two were killed and 50 injured, some fatally.

Billy Porter the noted American pugilist was sentenced to 22 years in the Sing Sing prison last year, has escaped and is in London.

Mount Vernon, the county seat of Franklin Co., Texas, was struck by a cyclone yesterday and the postoffice and several houses were completely demolished.

While a detachment of Uhlans were crossing he railway track at Llasa, Prussian Poland, yesterday, the Rawotsch express suddenly plunged among them, and two men and three horses were killed.

John McD. Campbell, for 30 years connected with the Inland Revenue Department, died at Guelph yesterday aged 70 years. He was a son of the late eminent Dr. Campbell of Toronto.

Children Cry for Pitcher's Castoria.

CORNWALL'S SENSATION.

IT WAS THE WATCHERS WHO STOLE MR. PURCELL'S BODY.

Full Particulars of the Circumstances Attending the Despoiling of the Cemetery on Flannigan's Point—The Right Parties Believed to be in Custody.

CORNWALL, May 19.—The half empty grave in the disordered country cemetery at Flannigan's Point, the scene of the Purcell grave robbery on Saturday, has been filled up and the coffin with its soiled white satin lining has been buried from the sight of the curious, but the trail made by the corpse as it was dragged along to the river is still plainly visible. The cemetery is about five miles below Cornwall, on the very edge of the river's bank, and the solemn effect of the simple tombstones that mark the graves is heightened by the ancient pine trees which are scattered over it in profusion and make the place noticeable for miles around. In this quiet resting place of the dead the late Mr. Purcell had secured a large piece of ground for his family lot, and it was here that eight of his family who preceded him to the grave have been buried. The Purcell burial plot is in the centre of the cemetery, on high ground overlooking the river, and is surrounded by a low iron railing. At the head, marking the grave of the millionaire contractor, stands a large monument cut into the form of a tall obelisk, the base of gray, and the needle part of red granite. On the one side, facing the graves, are the words: "Erected by P. Purcell in remembrance of the Purcell Family." On another are the names of those who were buried there at the time of its erection as follows: Michael Purcell, a native of Ireland, died 1873, aged 78 years, the father of the late member for Glengarry; his mother, Catherine Grant, died in 1852, aged 50 years; and his sister, Mary Purcell, wife of J. Jarvis, died in 1864, aged 37 years.

The Grave a Shallow One.

The grave from which the body was taken was a very shallow one, probably not more than four feet deep, and it could not have taken the robbers long to open it and reach the coffin. The clay and the broken pieces of the cover of the rough box which enclosed the coffin were scattered all over the other graves, when the mark of the body-snatchers was first discovered, and near the iron railing lay one of the instruments used in the work, a pick-axe, the handle of which was broken, and had been thrown some distance further on. The body must have been dragged out head foremost by main force, for only the small board over the head of the casket was torn off, leaving an opening barely large enough to allow the remains to pass through. Everything showed that the work was done by inexperienced men, as experienced body-snatchers would have made an attempt to try to fill up the grave, and thus for some time hide their crime. They dragged the corpse immediately by the shortest road to the water's edge, without lifting it over the pointed fence, near which a torn out piece of the grave clothing was found.

The Two Wills.

Mr. Michael Purcell, the youngest brother, lives in a large comfortable house about a quarter of a mile above the cemetery. His son Patrick was a great favorite of the deceased, and was by the first will left one of the largest shares of his uncle's money. There are, as stated the other day, two wills, and the last one, which bequeathes the greater part of the fortune left to charitable institutions, will be contested by the family. In connection with this it may be stated that another nephew was not equally fortunate with young Patrick, the old gentleman cutting him off with a shilling, which in this instance took the shape of a hundred dollars and the fastest horse in his stables; the latter intended, the deceased is said to have stated, to carry the young man out of the country as quickly as possible.

Mrs. Purcell, the wife of the deceased M.P., is still living in the Purcell homestead, named "Fairfield," a handsome structure erected on a high knoll in Summerstown about five miles from the cemetery and commanding a beautiful view over Stanley Island, the well-known summer resort, which has been the headquarters of the detectives and all those engaged in the search for the body. The death of her husband in itself and the news of the grave robbery have entirely unnerved Mrs. Purcell.

Where the Body was Taken.

From information gathered from various sources it is pretty certain that the body was not taken into a boat, but towed along behind it and taken over to a group of three small islands a little down the river known as the "Three Sisters," where it was probably anchored for the night, and some men who went on a searching party state that on Friday night they found a buoy in the river near the shore of one of these islands but could not lift it to the surface, whatever it might be that was attached to it. The next day it had disappeared. Mr. Joseph Duperelle, who keeps the Lansdowne House on Stanley Island, claims that as he was going up the river early on Friday morning he noticed two men on one of these islands, but not knowing at the time that anything unusual had occurred he took no trouble to find out who they were. A visit to this island, which can only be reached by rowboat, revealed the fact that some one had evidently made a meal there a short time previous, and a shovel and a quantity of lime gave the impression that the ghouls had put the body into a bag of lime and afterwards sunk it in one of the channels. In all probability they thought of a safer place to keep it afterwards, and to sail it thither on Friday night. A good many people are of the opinion, however, that the body is sunk in the river near there, and in support quote the fact that the men who were on watch on the island on Saturday night saw a boat with two men coming up the river in their direction. The occupants of the boat seemed to smell danger, however, and when quite near turned back. The "Ellen," the boat which was found floating on Friday and is supposed to have been used by the ghouls, belonged to a man named Smith, far down the river. He claims that it was left high and dry on land, and to come to the spot high up the river where it was found must necessarily have been taken away and rowed in that direction. The robbery of the grave took place on the night of the day when the water was taken off it. The body was buried on May 3, on arriving from the Maritime Provinces. The first night two young men, named John J. Craig and Norman Derouchie, watched, and after that, up till Thursday night, a Mr. Adams, who lives near the cemetery.

The Men Arrested.

As telegraphed yesterday, warrants were issued for the arrests of the three watchers and Derouchie was taken into custody Monday morning at his house in Glenwalter, not quite half a mile from the graveyard. Craig succeeded in evading the officers. When the body was interred it was thought best to have a guard over the grave, and the only men that could be found were Craig and Derouchie. They were given a dollar an advance, but as they are known all over the district as hard characters and had only just returned from Kingston, where they had done a term for shooting a neighbor's horse, it was thought better to discharge them, and Adams was put in their place. The next day they met Mr. Angus McDonald, brother-in-law of the deceased, and Mr. Milden, his business manager, and asked for the balance of their money, each claiming $3 for their night's work. They were told that their demand was exorbitant and were given a dollar, which they angrily threw at the giver's face, saying that if they did not get their money they would get something else. In addition it may be stated that they bore the late Mr. Purcell a grudge for furnishing money to the man whose horse they shot to prosecute them and send them to prison. On the night the body was taken both were absent from home and Derouchie returned to work very late the next morning. They were also noticed by Adams prowling around [illegible] he was watching.

There are no further developments in the Purcell grave robbery. Derouchie was remanded to-day for one week. Detectives are still after Craig, who has either skipped or is in hiding. Detective Grouse left for Montreal to-night and on his return further developments are expected. Derouchie protests his innocence and says he will take an action for false arrest.

DEATH'S AWFUL HARVEST

APPALLING DISASTER ON A RAILWAY TRAIN.

Spar... Ignite 500 lbs. of Powder—10 or 15 Men Killed in the Explosion Which Followed—The Shock Was Like That of an Earthquake.

POUGHKEEPSIE, N.Y., May 19.—At 11 o'clock this morning every building in Tarrytown was shaken to its foundations, windows were broken, fences prostrated and the ground trembled. The cause was an explosion of dynamite near Holmes Point, on the Hudson River Railroad a mile south of Tarrytown Station. Locomotive No. 343 was coming north on the up track near Holmes Point drawing a platform car with 24 cases (500 lbs.) of Ajax powder on it and the train was moving quite smartly. On the front part of the car was some rope in a coil. A spark from the engine struck the rope and it ignited. On the car with the powder were 20 or 30 Italian trainhands and as soon as the rope began to blaze up two or three of the men on the car jumped, one of them striking headlong on the rail and was killed. Before the others could alight the fire reached the powder and there was an instantaneous and appalling explosion. By this time the train had nearly reached a large number of workmen on the third track improvements at Holmes Point. The result of the explosion was terrible. Every part of the car was wiped out of existence and the men on the car were hurled in every direction, ten being killed outright, while several were blown into the river and their bodies are yet to be recovered. Both tracks were destroyed, telegraph lines were demolished and great holes were torn into the earth. Work cars on the side track were blown away and the tender of the engine was demolished.

Ten dead bodies were placed on a platform car with six of the injured and taken to Tarrytown. The dead were taken to Vanderbilt's undertaking establishment, and the wounded were laid on the floor in the passenger station and doctors from Tarrytown and Yonkers summoned. The leg of one of the victims was amputated, one had an arm taken off, others were fearfully cut about the head and the face. In two instances the clothes were nearly stripped from the victims.

In the middle of the afternoon two special trains were brought to the station and the six injured men were put in a car and taken to a New York hospital.

Some of the Victims.

John McCarty of Tarrytown, a timekeeper, was so badly injured that he died before he could be taken to the station. Frank Morrissey, a boy who was called the powder monkey, was instantly killed. John Smith, brakeman, was instantly killed. The others who were killed were all Italians and known only by their numbers.

The injured include George Herrick, the engineer, not fatally hurt. He said, when coming up with his engine and car near Holmes Point, he looked back and saw the men jump from the car and saw considerable smoke. He stopped the train as quickly as possible and ran back to pull the pin connecting his engine with the car, knowing the danger. While he was pulling the pin the explosion occurred and that was all he could tell. He thought the coil of rope took fire from a spark from his engine.

While the doctor was attending to Herrick another victim was brought into the hospital. He was Edward Flunegan, foreman in the rock cut near where the explosion occurred. He was not on the car, but he was terribly injured and will die.

Fireman Leo Pun was found lying on the footboard of the engine in a semi-conscious state. He was badly injured. Conductor Connors escaped with slight wounds about the head. Brakeman Fisher had a miraculous escape. He was blown into the river, but managed to get ashore and was able to walk up the track to the station. Blacksmith McCormick and helper Flunegan were cut about the face and head, but neither is injured fatally. These seven were properly cared for. The balance of the injured were Italians, and they were taken to New York.

The explosion was heard for a distance of 10 miles. Near by doors and windows were torn from houses. A great hole was torn into the earth and the debris thrown out into the river.

The railway authorities say gross carelessness was shown in placing the powder car next to the engine.

There is hardly any doubt that the killed will number 15 and three or four of those injured will die, making the total loss of life 18 or 19. In addition, there are 20 injured, more or less seriously.

TARRYTOWN, N.Y., May 20.—Early this morning Coroner Mitchell reported that 18 lives had been lost and five bodies were still missing. Further details may make the number of killed greater than this.

NEW YORK, May 19.—The six injured Italians injured at Tarrytown were brought to Bellevue Hospital to-day. Two of them will die.

THE HANGMAN ARRIVES.

The Son and Daughter for Kane Also Arrive from Toronto.

BELLEVILLE, May 19.—J. R. Radclive, the hangman, arrived to-night and the scaffold for Kane's execution will be erected to-morrow. The huge weight was brought in on the express last night from Toronto and was the centre of a curious crowd at the depot to-day. It is the same weight that has launched a score of men into eternity. Great interest is now being centered around the doomed man as his time on this earth draws near a close. The son and daughter arrived from Toronto to-day and will remain in the city until after the execution.

GROUND TO A PULP.

Tragic Death of an Employe of the Toronto Paper Mill Co.

CORNWALL, May 19.—Alfred Wood, an employe of the Toronto Paper Co.'s Mills, while cleaning the calendars used for finishing paper, had his hand caught between the rollers, which were making 400 revolutions per minute. His arm was drawn in to the shoulder and every particle of flesh torn from the bone. His arm remained fast between the rollers for 15 minutes until the calendars were taken apart. Wood died from his injuries this afternoon.

A BOY IN A BAG.

Mutilated Corpse Found Floating in Liverpool Harbor.

LONDON, May 19.—A sailor's bag painted black, decorated with the British and Norwegian ensigns, represented as flying from crossed staffs and bearing the initials "T.A.M." and the name "Girvan," was today found floating in the Handon dock at Liverpool. Upon being taken out of the water and opened the bag was found to contain the terribly mutilated corpse of a boy apparently about 15 years of age. His throat had been cut and both legs had been removed below the knees in order to make possible the packing of the body in the bag. There were also found in the bag a knife and a saw, both being new and both having fragments of flesh adhering to their blades.

What it Costs.

Must be carefully considered by the great majority of people, in buying even necessities of life. Hood's Sarsaparilla commends itself with special force to the great middle classes because it combines positive economy with great medicinal power. It is the only medicine of which can truly be said, "100 doses One Dollar," and a bottle taken according to direction will average to last a month.

J. C. Turnbull.

—AT—

TURNBULL'S

They are constantly opening out new goods. To-day we are showing a large lot of Wool and Union Carpets just turned out of the loom, all new patterns. House keepers will do well to remember us; 36 in. Union Carpet at 35c, the old price was 50c. Heavier grades at 45c, 50c, and 60c. The all-wools range from 75c up to $1.00.

Lace Curtains, Cream and White ranging in price from 60c. a pair up to $5.00. Curtains were never so cheap and handsome as they are this season. You will be surprised to see what we can give you at $1.25 a pair.

Art Muslins in single and double widths at 10c up to 20c a yard.

Double Fold Reversible Cretonnes for portieres, at 75c a yard.

Floor Oil Cloths, 36 in. wide at 30, 40, 50c. a yard.

Floor Oil Cloths, 72 in. wide at 60 and 75c. a yard.

In our Mantle Department we Show a choice range of Wool Mantle Cloths, Plain and Brocaded suitable for elderly Ladies' Wraps.

Also handsome Laces for trimmings.

Our Pue-de-Soie Silk we warrant not to cut. Price $1.25 and $1.50 a yd.

We show Jet Capes and Visites from $2 to $5, either all jet or jet and lace, also some very handsome ones for mourning. We have such quantities we can suit any size or style of make.

All-over Jet Lace at the surprising low figure of 75c.

Fish Nets at 60c.; we believe you will pay twice these figures elsewhere for these goods.

Quantities of Millinery to selec from, pretty as a picture.

SUN LIFE
ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355 92
Increase over previous year	3,421,372 84
New Applications received in 1890	6,371 599 15
Increase over 1889	2 268 888 60
Cash income for year ending 31st December, 1890	889,678 87
Increase over 1889	325 938 35
Assets at 31st December, 1890	2,473 514 19
Increase over 1889	687,691 47
Reserve for Security for Policy-Holders	2,109 222 68
Increase over 1889	587,732 71
Surplus over all Liabilities and Capital Stock	225,175 69
Increase over 1889	75,649 95
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec.,	1881, (five years)	$64 824 07
" " " "	1886, "	89,452 97
" " " "	1890, (four years)	232,175 69

OF INTEREST TO FARMERS

Annual Report From the Bureau of Industries.

Condition of Fall Wheat—Live Stock Reported in Fair Condition—Farm Supplies, Fruit and Vegetation—Progress of Spring Work.

The Ontario Bureau of Industries has issued the usual spring report on the crops and live stock of Ontario, which will be read with interest by the farming community and by all who are directly interested in the farmers progress and success.

The information as to the condition of the crops, live stock, fruit, the apairy ensilage, etc., the supply of farm laborers and rate of wages paid is summarised from returns received from over 600 of our regular staff of correspondents under date of May 1.

FALL WHEAT.

The reports from the western part of the Province, where most of the fall wheat is grown, are remarkably unanimous and are very cheerful in tone. Excepting on undrained and "springy" land little damage was done by ice, and only here and there along the fences was there anything in the shape of smothering out by snow. In the Lake Erie and Lake Huron districts especially a number of correspondents are positively enthusiastic in their expressions of admiration of the present condition of the crop, the most promising, is is claimed, observed for many a year. In the four western districts no mention is made by correspondents of fall wheat having been ploughed up. The reports from the eastern half of the Province are not so favorable. The crops was thinned considerably on heavy land, and low-lying fields suffered from ice. A considerable area is described as very "patchy" in Durham, Northumberland, Prince Edward, Frontenac, Leeds and Grenville, Dundas and Victoria, and in the three Lake Ontario counties named from 10 to 25 per cent. is reported by some correspondents as having been ploughed up in their immediate neighborhoods, Some of these writers, however, console themselves with the reflection that "a half crop of fall wheat is as good as a full crop of spring wheat.' Scattering mention only is made of injury by insect pests. A Kent correspondent reports the crop as having been thinned on old sod by the wire worm, and a Lambton correspondent also speaks of its presence. Odd mention is made of the Hessian fly in Elgin, Lambton, Huron and Simcoe, but the great majority of correspondents rejoice over the fact that the crop is free from injury by worm or fly. Taken all together, is may be said that so bright an outlook for the fall wheat crop of this Province has not been presented for many a spring.

CLOVER.

Correspondents are not agreed as to the condition of clover, although the opinion of the majority is that the new fields are doing splendidly, Low fields have been badly heaved in low and undrained places, and the crop in some of the eastern counties suffered much from ice. Many correspondents, especially in the west, speak hopefully of the prospects of clover, although it was rather too early for a very good start when the reports were sent in. The fact that the new fields are doing so well is very encouraging, as during the past few years old fields have been in a most unsatisfactory condition.

LIVE STOCK.

With the exception of horses, which suffered from various forms of distemper, live stock appear to have come through the winter in fair condition. Several cases of strangles are reported among horses, but the most complaint, and one which was reported in nearly every district, was an influenza which in a number of instances developed into inflammation, resulting fatally in some cases. A few correspondents in both the east and west state that the mortality among brood mares and foals was unusually large. Cattle began the season rather thin, for although there was an abundance of hay, more especially along the frontier counties, coarse grain and mill feed were scarce and expensive. In a few localities the cows were attacked with something like la grippe, and a single mention is made of a supposed case of tuberculosis, but the general health of horned cattle may be ranked as excellent. Odd cases of grub in the head are reported among sheep, but the general condition of this class of live stock is first class. Many correspondents remark upon the vigorous condition of the lambs dropped, notwithstanding the trying weather of March and April, when a few of the early lambs succumbed. Dogs are reported as doing much injury to sheep in various parts of the Province. Hogs are remarkably free from disease. One case of hog cholera, which was at once stamped out, is the only serious disease mentioned by correspondents. While there was an abundance of fodder, it lacked in variety and feeding quality. Hay was so plentiful in some sections that it was wastefully fed, but corn, oats and other grains used for feeding purposes were at a premium and had to be doled out sparingly. For this reason much of the farm stock while in good general health could not be termed in prime condition

FARM SUPPLIES.

With the exception of hay, it cannot be said that there is much in the way of supplies left in the hands of farmers. Whilst here and there a farmers have held on to their wheat for a prospective rise, in the vast majority of cases the pinch of the times compelled a sale, and in more than one locality correspondents report that farmers were buying their flour. Oats are very scarce, a number of farmers having barely enough for seed, and in the eastern counties prices are higher than for years. Other grains are also scarce. In fact hay is the only fodder of which there has been a sufficiency, many barns being still well filled and hay stacks being a more common sight than usual at this season. It is a drug in many counties, and the low prices prevailing during the winter have been discouraging to those agriculturists who had raised the crop for the market. Fat cattle are are few, nearly all having been bespoken for May shipment. The supply of store cattle is also one than usual. Notwithstanding the super-abundance of hay in most sections of the Province, the scarcity of coarse grains prevented the best results in the feeding of cattle, and lessened the number held by raisers when the grass came.

FRUIT AND VEGETATION.

A majority of correspondents report vegetation well advanced, and in many cases cattle are feeding on grass. Where the grass is backward, it is sometimes stated that it began well, but that growth was retarded by the dry and frosty weather of the latter part of April, and that rain is needed. The reports for orchards are decidedly favourable. The fine, somewhat mild winter was good for fruit, large and small, and the injury from frost was inconsiderable. The apple trees in every part of the Province are looking well, and give promise of a large crop; the reports vary mainly as to progress. In most cases the buds are swelling, and look large and strong. In some cases, chiefly in the west, the trees are in leaf, and one correspondent reports them in bloom. The reports as to plum and cherry trees would be also good were it not for the large number of correspondents who speak of the ravages of black-knot. There are reports of orchardists ceasing to look for cherries, and cutting down the trees. Peaches, plums, cherries and small fruits are well advanced. Many correspondents in Essex, Kent and the Niagara Peninsula report them in bloom, and some fear that they have blossomed too early and may be injured by spring frosts. Grape vines and small fruits have come through the winter well and look healthy and promising. Field mice did some damage to young trees, especially in Wellington, Grey, Dufferin, Muskoka and Parry Sound. Only one correspondent (in Lanark) speaks of bark lice.

PROGRESS OF SPRING WORK.

The early part of April was wet, and spring work for the most part was crowded into the last week or fortnight of the month, during which the weather was exceedingly fine and dry. The 15th of April is the date most frequently mentioned for the beginning of ploughing. Farmers are well satisfied with the progress of spring work. In the west seeding is nearly completed, in other parts not so well advanced. In the few cases where grain is above ground it looks well. Oats are sown very generally; there is seemingly an increase in the area of spring wheat, and several correspondents make special mention of goose wheat. Peas are also growing in favour, and some fancy varieties are being tried. In all the great barley growing districts, including Wellington, Halton, Peel, York, Durham, Northumberland, Prince Edward and Victoria, there is a great decline in the area of barley sown. In a few cases where figures are given the falling off is estimated at 22, 35 or 50 per cent.; the causes most generally assigned are the McKinley bill and the general uncertainty of the markets. Correspondents also refer to the lowness of the price in the past year, and the high price of other grains. Barley is sometimes said to have only a feeding value, and the practice of feeding it to stock will become even more general. Oats, peas and spring wheat, apparently in about equal proportions, have been sown as substitutes for barley. Two-rowed barley is being tried in Victoria and a few other counties.

ENSILAGE.

Notwithstanding the strong advocacy of ensilage by experienced men at the annual meetings of the Dairymen's and Creamerics' Associations and the issuing of several bulletins on the subject by this department, the silo is not being rapidly adopted in this province. Several new silos are reported in Grey and three or four other western counties, and in the stretch of counties between Northumberland and the Ottawa a trial is being given the new process by enterprising men, but, as one correspondent remarks, there is more talk than actual work done in the matter of building silos. While one is described as a "dead failure," in the majority of cases the silo has proved to be a success and a decided benefit. Corn is practically the only crop used in the modern silo.

THE MAY FROSTS.

The thermometer registered below freezing point on three or four days during the first week of May (after our regular correspondents had reported), causing much anxiety to agriculturists, more especially those engaged in fruit growing. A special request for information regarding this visitation was despatched from the bureau to leading horticulturists in representative sections of the province, the greater part of whom give the pleasing assurance that very little injury has resulted, as happily vegetation was not sufficiently far advanced when the frosts came. The only discouraging statement came from the county of Perth, where grape buds and pear and cherry blossoms were badly injured. In the Niagara district, however, blossom and bud were remarkably free from serious injury by frost, and that region is proverbially "the garden of Ontario.

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. dw

It Does Its Work.

Mrs. James Dix, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

Everybody Likes It.

Wm. Dredge, Ellen street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised Sold by all druggists. dw

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood, Burdock Blood Bitters is a natural foe to impure blood, removing all foul humors, from a common pimple to the worst scrofulous sore. 2w20d

Would not be Without It.

Dyer's Jelly of Cucumber and Roses for chapped hands and for making the skin smooth and soft. Try it. Druggists keep it, W. A. Dyer & Co., Montreal. 61116

W. A. Greatrex, Druggist, has for sale the Royal Rheumatic Remedy. It is no new formula, having been before the public for 12 years and effected wonderful cures. Write o R. R. R. Co. for testimonials. dw

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

THE RED COLOR of the blood is caused by the Iron it contains. Supply the iron when lacking by using Milburn's Beef, Iron and Wine. dw

Sufferers

FROM Stomach and Liver derangements—Dyspepsia, Biliousness, Sick-Headache, and Constipation—find a safe and certain relief in Ayer's Pills. In all cases where a cathartic is needed, these Pills are recommended by leading physicians.

Dr. T. E. Hastings, of Baltimore, says: "Ayer's Pills are the best cathartic and aperient within the reach of my profession."

Dr. John W. Brown, of Oceana, W. Va., writes: "I have prescribed Ayer's Pills in my practice, and find them excellent. I urge their general use in families."

"For a number of years I was afflicted with biliousness which almost destroyed my health. I tried various remedies, but nothing afforded me any relief until I began to take Ayer's Pills."—G. S. Wanderlich, Scranton, Pa.

"I have used Ayer's Pills for the past thirty years, and am satisfied I should not be alive to-day if it had not been for them. They cured me of dyspepsia when all other remedies failed, and their occasional use has kept me in a healthy condition ever since."—T. P. Brown, Chester, Pa.

"Having been subject, for years, to constipation, without being able to find much relief, I at last tried Ayer's Pills, and deem it both a duty and a pleasure to testify that I have derived great benefit from their use. For over two years past I have taken one of these Pills every night before retiring. I would not willingly be without them."—G. W. Bowman, 26 East Main st., Carlisle, Pa.

"Ayer's Pills have been used in my family upwards of twenty years, and have completely verified all that is claimed for them. In attacks of piles, from which I suffered many years, they afforded me greater relief than any medicine I ever tried."—Thomas F. Adams, Holly Springs, Texas.

B. B. B.

CURES DYSPEPSIA.

DEAR SIRS,—About a year ago I had a very bad attack of dyspepsia. For nearly four months I never ate a meal without suffering pain after. I kept getting worse and worse until I was obliged to give up my duties as a teacher. I had got so weak I could scarcely walk, when one day I saw an advertisement for B.B.B., and thought I would try a bottle; I did so, and before I had finished it I was able to teach again. Four bottles cured me completely. MISS JANET STUART, Muskoka Falls, Ont.

In 19 Cases Out of 20

B. B. B.

CURES BILIOUSNESS.

DEAR SIRS,—I was troubled for about 35 years with Bilious complaint, and after using about three bottles of your Burdock Blood Bitters, I feel entirely relieved, and have not had an attack for the last two years. JOSIAH GAMEY, Maxwell, Ont.

In 49 Cases Out of 50

B. B. B.

CURES BAD BLOOD.

GENTLEMEN,—Last fall I had boils very bad, and a friend advised me to try B.B.B., and so I got a bottle, *the effect was wonderful*, the boils began to disappear, and before the bottle was done I was totally cured. As an effectual and rapid cure for impure blood, Burdock Blood Bitters cannot be excelled. JESSE JOHNSON, Rockwood, Ont.

In 99 Cases Out of 100

B. B. B.

CURES CONSTIPATION.

DEAR SIRS,—I was troubled by costiveness and sick headache, and in fact felt very miserable until I tried B.B.B. I used seven bottles with Burdock Pills also, and they made me as well as ever I was. This was about two years ago and I still enjoy the best of health. MRS. A. MCCULLOUGH, Digby, N. S.

Even in the Worst Cases

B. B. B.

CURES SCROFULA.

SIRS,—Two years ago I was troubled with an ulcer on my ankle; having used B. B. B. for bad blood I procured a bottle, and a box of Burdock Healing Ointment; after using three bottles and three boxes I was completely cured, and can recommend it everywhere. Yours truly, MRS. WM. V. BOYD, Brantford, Ont.

* * * And after the seventy-eighth contestant had been plunged in the seething bouillon the merchant asked: "Are there more suitors for the hand of the fair Skirtzerando?"

"One, Sire," said the attendant.

"What is he—an artistic advertisement writer or a writer of artistic advertising matter?" asked the merchant.

"Neither," replied the attendant. "He says he knows nought of writing advertisements, but that he loves your daughter, the fair Skirtzerando, and insists on competing for the prize."

"Admit him," said the merchant.

"Know you, O you foolish one," asked the merchant, as the attendants admitted the young man, "the conditions of this advertising contest?"

"Yes, Sire," replied the young man, as he threw himself at the merchant's feet.

"Then if you fail to provide for my bazaar an 'ad.' of absolute originality and highest merit, know you, O verdant youth, the forfeit?" continued the merchant.

"My life," replied the young man.

"Then," said the merchant, "we will proceed with the obsequies. What is your name?"

"Twocuffs," replied the young man

"Twocuffs," demanded the merchant, "dost know that seventy-eight professional writers of artistic advertising matter have already striven to furnish me with an advertisement, and they have all failed to suit?"

"They generally do," murmured Twocuffs."

"By Allah! you speak the truth," exclaimed the merchant. "I have to prepare all my own 'ads' in spite of my great years and many cares, because I am the only man I ever met that could write a really first class advertisement. But to proceed, Twocuffs, I have a new lot of turbans. Behold the blackboard on your left. Write thereon an advertisement which shall rend the air of Bagdad, or you die."

Twocuffs approached the blackboard and, seizing the chalk, wrote:

WE WILL OFFER NEXT WEEK A NEW LOT OF TURBANS. THEY ARE POSITIVELY WORTH $15.00 $15.00 $15.00 AND WE WILL OFFER THEM AT—

The merchant sighed as he read the "ad" thus far. The executioner girded up his loins. But Twocuffs, with a firm hand, added the finishing line.

The merchant bounded forward, shouting: "You have conquered! O you Fourcuffs! You shall write my 'ads'!" The executioner dropped his sword into the bosphorus. A curtain was drawn aside, and the lovely Skirtzerando stood revealed. "Take her, O thou mighty Sixcuffs," said the merchant.

FINIS.

Twocuffs's advertisement as it appeared in the Bagdad Democrat:

WE WILL OFFER NEXT WEEK A NEW LOT OF TURBANS. THEY ARE POSITIVELY WORTH $15.00 $15.00 $15.00 AND WE WILL OFFER THEM AT $15.00 $15.00 $12.00.

A Mistap Cost a Life.

BRAMPTON, May 17.—Aaron Laidlaw of lot 14, 2nd line west, Toronto township, was getting into his wagon Thursday, when his foot slipped on the hub and he fell heavily on the wheel. The young horses, startled, began to run with Mr. Laidlaw hanging to the lines. He was dragged a long distance on the road before he let go and sustained such injuries that he died from the shock.

Frank Coombs, engineer, and a friend named Jarvis, who was riding in the cab with him, were killed at Grenville, N.Y., yesterday, in consequence of a horse derailing a locomotive on the Long Island Railroad, which plunged down an embankment.

At Parkersburg, W Va., Perry Thompson was captured by neighbors whom he had robbed. They placed a rope about his neck and were about to hang him. While disputing about the best methods Thompson escaped. He was caught yesterday and hanged.

Children Cry for Pitcher's Castoria.

AUSTRALIAN FEDERATION.

Outline of the Constitution to Be Submitted to the People for Ratification.

SAN FRANCISCO, May 18.—The steamship Alameda brought advices regarding the Australian federation convention, which concluded its sittings April 9, having prepared the draft of a constitution for the proposed federation, which will be submitted to the people of the colonies for their approval. As soon as three colonies have accepted the constitution as it stands, for they cannot amend it, the bill will be sent to England for the assent of the Imperial Parliament, and if ratified the Queen will by proclamation appoint a day when the commonwealth of Australia is to be established and will also appoint a Governor-General. On his arrival in the colonies the usual constitutional process of forming a ministry will be gone through and a Parliament will be elected. The salient points of the constitution are as follows: The federation shall be known as the Commonwealth of Australia, and the colonies are to be called states. The legislature is to consist of a Senate and House of Representatives to be called Parliament. The Governor-General is to be appointed by the Queen, and shall receive a salary of not less than £10,000. Members of Parliament, before taking their seats, are to take oath or affirmation of allegiance to the Queen. Parliaments are to be held as appointed by the Governor, but there is to be a session of Parliament at least once every year, so that 12 months shall not intervene between two sittings of Parliament.

Ciphering on Daniel.

ATLANTA, Ga., May 18.—Rev. E. R. Carswell, a noted Baptist evangelist, after a careful revision of the calculations of Cummins concerning the prophecies of Daniel relative to the world's coming to an end, has placed the final overthrow of all things in the year 1901. He makes an ingenious and interesting calculation, and there is a ring of certainty in his predictions that has taken hold of a number of persons.

Six Months in the Central.

HAMILTON, May 18.—William Murray, the defaulting waterworks clerk, came up before Judge Sinclair this morning. Murray looked very careworn as he sat beside his counsel eyeing the assemblage. His mother, sister and brother were present, and seemed weighed down with grief for the unfortunate young man. He was sentenced to six months in the Central.

Hail the Size of Hens' Eggs

SALINA, Kas., May 18.—A tremendous cloudburst of hail took place about four miles west of here Saturday evening. The district covered by the storm was two miles wide and 8 to 10 long. The hail was as large as hens' eggs and almost completely destroyed the wheat.

A Medin of Modern Days.

BERLIN, May 18.—A horrible tale comes from Mannheim. The wife of Fritz Hehler of that place killed her child, cut its body to pieces and pickled the fragments with a batch of sauerkraut, of which Hehler unsuspectingly partook.

Another Fight in Chili.

LIMA, May 18.—An engagement took place at Pisagua Sunday between the insurgent fleet and government torpedo vessels.

A Child Drops from a Train.

EGANSVILLE, Ont., May 17.—As the emigrant train for the west was passing between Cobden and Graham's Bridge a child about eight years old dropped off unnoticed by any one. It remained beside the track till the Atlantic Express No. 2, which was late that morning, came to the place where the child was noticed and taken back to Cobden. The child had sustained a severe scalp wound.

Since it is now a well-established fact that catarrh is a blood disease, medical men are quite generally prescribing Ayer's Sarsaparilla for that most loathsome complaint, and the result, in nearly every instance, proves the wisdom of their advice.

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung disease, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2a20d

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She resolved to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS. KENNEDY, Hamilton, Ont. 2a20d

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2a20d

Worthy of Confidence.

Those who have used it praise it! Mrs. George Ward writes from Josephine, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2a20d

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria
When she had Children, she gave them Castoria.

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

STUBBORN CHILDREN readily take Dr. Low's Worm Syrup. It pleases the child and destroys the worms. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eod-w

The Time Expires To-Morrow.

Investors and persons desiring to secure homes are reminded that the time for receiving tenders for the purchase of the Albert Hall property, Queen street, expires to-morrow. There are three fine parcels, which are very desirable properties. Tenders should be addressed to Messrs. Hatton & Wood, solicitors.

Died To-Day.

Dr. Brennan to day received a telephone message stating that his grandmother, Mrs. D. A. O'Brien, died at the residence of her daughter, Mrs. Breckon, Orillia, to day at 1.30, at the advanced age of 87 years. Dr. Brennan went to Orillia this evening. It is probable that the body of Mrs. O'Brien will be brought to Peterborough for interment—to be laid beside that of her husband in the R. C. cemetery.

A Painter to the Firemen.

Brockville will hold an International Firemen's Tournament on July 22-23, when $1,600 will be given in cash prizes to visiting Firemen. The programme includes prizes for "Finest Drilled Company;" for "Hose Reel Race;" for "Hook and Ladder Race;" for Hand Engine Contest; and for "Tug of War." Brockville is a beautiful town to visit especially in summer and Mr. J. R. Reid is authority for stating that the town has a specially fine fire department.

Sons of Scotland.

During the past few weeks the initial steps towards the formation of a Camp of the Sons of Scotland in Peterborough have been taken by a number of enthusiastic Scotchmen, and the preliminaries have been advanced so far that this morning Mr. W. J. Minore, the secretary *pro tem.*, forwarded to headquarters in Toronto an application for a charter, signed by twenty-two prospective members. As soon as the charter is obtained an organization meeting will be called. It is probable the meeting will be made public and all Scotchmen invited to attend.

The Band in the Park.

Many persons are complaining that the band has not yet begun its weekly park concerts. The park was only opened on Monday, and it is not yet in a condition for the purpose. None of the plots have been planted, and till to-day the weather has been too cold to admit of persons unprovided with heavy wraps being out at nights. Don't be uneasy; the band will play in the park when summer comes. It is probable that Mr. Mason will have the park in presentable shape by the 24th.

The Opera House To-Night.

The Thompson Comedy Company make their first appearance here at the Opera House to-night, producing the great musical comedy entitled, "On Hand, or the Comic Side of Life." Mr. Thompson is pronounced one of the most versatile and popular comedians now before the public. He is supported by a talented and musical company. Our exchanges speak highly of their entertainment, and we are sure all who attend will be highly entertained and gratified. Seats on sale at Greatrex's drug store. Curtain rises at 8.30.

Norwood's Annual Pic-nic.

The Queen's Birthday celebration at Norwood will consist principally of Rev. Father Conway's pic-nic, which will be held as usual in the grove near St. Mary's church. These annual pic-nics have in the past been thoroughly enjoyable and successful, and no pains will be spared to make this year's outing fully as pleasant. Rev. Father Conway and the ladies and gentlemen assisting him are doing their utmost to make the pic-nic ground a merry rendezvous for pleasure-seekers on that day, and from the well-known success of their past endeavors there can be no doubt they will succeed. A first-class table and wholesome amusement is promised to all who patronize the pic-nic.

South Ward Concert.

A most enjoyable evening was spent last night by a goodly number of the many friends of St. John's South Ward Mission; the occasion being the second entertainment of a series being given by the ladies. The object of these is to furnish money for the completion of the basement. Among those who helped in the programme of the concert were Miss Archer, Mr. F. Clark, Master Fred Benton with brilliant piano solos; Mr. Hayter, violin; Miss Hall, Miss Byrne and Mr. E. Knowles kindly sang, and Miss L. Gray and Mr. W. D. Parker gave readings which captivated and convulsed those present. The last of the pleasant concerts will be given on Tuesday evening, June 9th.

Cheapest Trip of the Season.

Lansdowne Lodge of the Sons of England is enterprising and active as ever. Its members are constantly offering the public some special attraction for the mutual benefit of all concerned. They usually hold an excursion during the summer, and this year promise the public a trip out of the usual route, and cheaper than ever. The excursion will be held about the 16th or 17th of June, and Kingston will probably be chosen as its destination, though that point is yet undecided. At any rate, the Sons of England promise a comfortable and pleasant excursion, and they promise further to make it the cheapest ever run from Peterborough. Further particulars will be announced later.

Fashionable Wedding at Port Hope.

Port Hope's social circles were deeply stirred by a fashionable wedding Tuesday morning. *Miss Mary Benson, daughter of* Judge Benson, was married to Mr. Edward Francis Blake, second son of Hon. Edward Blake, Q.C. The wedding took place in St. John's church, which edifice was filled with a large audience, comprising a number of people from Toronto and other places. The *Guide* says of the wedding:—"Appropriate music was rendered by Mrs. Shepherd and the choir. The bride accompanied by her father and the bridesmaids (her two sisters) entered the church and proceeded up the aisle to the chancel, where they were met by the groom, the groomsman and the officiating clergymen—Revs. Wm. Jones, Trinity College, Toronto, uncle of the bride, and E. Daniel, Rector. The bride was arrayed in a fawn colored travelling gown, and looked lovely. The bridesmaids were also arrayed becomingly and looked charming, especially the little maid of honor in pale green. Immediately after the ceremony, the newly-married couple repaired to Judge Benson's residence, where the wedding breakfast was partaken of, and the bride and groom received the congratulations and good wishes of all present. The bridal pair left by the G.T.R. fast express train at 11:10 a. m. for Montreal to go on board the Parisian on their way to the continent, where they intend to spend the next two or three months.

The Boys on Bikes.

Wheelmen Organize For the Season—Encouraging Prospects before the Club.

A well-attended meeting of the Bicycle Club was held in the Olympic Club rooms on Tuesday night, for the purpose of re-organization and the election of officers for the ensuing season. Mr. R. B. Rogers occupied the chair. The following members were elected to office:

R. B. Rogers.....President.
Alex. Gibson.....Vice-President.
J. F. Dolan.....Sec.-Treas.
F. J. Mighs.....Captain.
R. J. Fife.....1st Lieutenant.
Jas. A. McGill.....2nd
Wm. Fraser.....Whipper-in.
Colin Brown.....Standard bearer
H. Holland, Jas. McKim, C. Brown, H. Holland.....Gen'l Com.
H. Holland.....Bugler.

The prospects for a successful and lively season in bicycling are most favorable. There are about 70 wheels in town, and though all are not yet in the club, there will be very few left in the course of a few weeks when the club gets into working order. There is ample material in town for a large and prosperous club, and it is expected that all who ride wheels will join it and enjoy the privileges of membership.

Weekly runs are to be held this year as usual, the first of which takes place to-night, when the route will be via the locks to Ashburnham. The next trip in contemplation is to Nassau, and the third to Bridgenorth. For the present the Bicycle club will make headquarters at the Olympic club rooms.

As soon as the P.A.A.A. track is put in shape races will be held.

A number of wheelmen intend taking in the C.W.A. meet at Hamilton, July 1st, and the American League meet at Detroit, July 18th.

Personal.

The EXAMINER thanks Mr. R. H. Green for copies of Denver, Colorado, newspapers.

Mr. Jas. Hendry, of Montreal, has returned to town.

Rev. Messrs. S. J. Shorey and Jos. H. Locke went to Millbrook to-day to attend the Methodist district meeting.

Mr. Samuel Rowell, carpenter, Stewart street, has returned from Denver, Col., where he spent the winter for the benefit of his health.

Rev. C. B. Kenrick has left for England, where he will enjoy a few weeks of well-earned rest and recuperation. He sails on the "Parisian" to-day, accompanied by his mother and sister.

Mr. Harry Hapgood, representing the Thompson Comedy Company, which will be "On Hand" at the Opera House to night, is in town and favored the EXAMINER with a call.

The Brantford *Expositor* of May 16th, says: "Last evening in the drawing room of the Ladies College the Rev. St. Dalmas delivered an interesting conversational lecture to the students and a few friends who were present on "Petroleum." The lecture was illustrated with the different articles used in boring for oil, and also by specimens of all the various kinds of oil now in use for household, engineering and mechanical purposes. At the close a great many questions were put to the lecturer, and a large amount of instructive and useful information given in return. A hearty vote of thanks was given at the close on the motion of Dr. Cochrane, seconded by *Dr. Nichol.*" In reference to this lecture it gives the EXAMINER great pleasure to add that the very fine models of derricks, drilling tools, etc., that Rev. Mr. St. Dalmas has made to illustrate it, together with a large number of photographs, make it one of the most instructive and pleasing of entertainments.

Police Court.

WEDNESDAY May 20th.

This was a *dies non*, practically, at the police court. A drunk was discharged, and two cases of illicit disposition of night-soil were also dismissed.

—"That tired feeling" is entirely overcome by Hood's Sarsaparilla, which gives a feeling of buoyancy and strength to the whole system.

Military Matters.

The Gallant Rangers Make a Fine Turnout—Ready for the "24th"—Mark Time Memes.

Tuesday night the Fifty-seventh Battalion were out for a march about town. The battalion mustered 302 strong, officers and men, and for steadiness of marching and soldierly set-up and deportment received hearty encomiums on all sides. The regiment marched through the principal streets to the music of the band. At a little battalion drill on Central Park, after the return from the march-out, several movements were very creditably executed, the marching past being unusually good and steady. The *esprit de corps* of the battalion is excellent, there being great rivalry between the several companies, and both officers and men vieing with each other in their efforts to bring the force to the highest degree of efficiency. There is no doubt that the Fifty-seventh will do itself and the town ample credit in the coming military confraternization, and keep up their end with the crack *corps* from the capital, even though the latter has the advantage of vice-regal patronage.

MARK TIME.

The band turned out in their brand new caps last night. They are nobby head-gear of navy blue cloth, with patent leather peaks and crimson bands, and sported for lamps, which will soon be provided, so that the band will be able to see to perform a better class of music when other artificial light than their lamps is not available.

There will be a full dress parade of the battalion on Thursday night with helmets and leggings.

The officers have provided themselves with new mess jackets.

Preparations are complete or being completed for the reception of the Guards. Tents will be pitched by the (57th) on Saturday on Burnham's Point.

The promenade joint band concert in the new market building on the evening of the 25th will be a delightful musical treat. Our own band will be in fine shape and the band of the Guards will also give grand music

The church parade on Sunday will be a notable event. About 600 volunteers will parade to St. Johns church on Sunday afternoon when a special service will be conducted by the rector assisted by Rev. Canon Davidson and Ven. Archdeacon Lauder the Chaplain of the Foot Guards.

The uniforms of the 57th have received the necessary attention and they are now in good shape.

The drill shed and its surroundings are in a state of man-of-war neatness. Mr. Charles Beresford, caretaker, keeps things as neat as a ram rod and as clean as a review day rifle.

May 24th and 25th will mark an era in the history of local military matters.

GOD SAVE THE QUEEN.

Christian Endeavour Union League.

Successful Meeting at St. Andrew's Church.

On Tuesday evening the fourth meeting of the Christian Endeavour Union was held in St. Andrew's Church. There was a large attendance, and great interest was shown in the proceedings. Mr. A. E. Scott, who succeeds Dr. Scott as president, conducted the proceedings. The societies represented at the meeting, and they were largely represented, too, were the George Street Methodist, St. Paul's, Presbyterian, St. Andrew's, Presbyterian, Baptists, Murray street, town, Baptists, Gilmour Memorial Church, Smith, Charlotte Street Methodist (Epworth League), Coldstream Methodist, Otonabee. Rev. Mr. Torrance was present and conducted the opening and closing devotional exercises. The choir of St. Andrew's Church, strengthened by other choirs, furnished anthems, hymns, etc., and during the evening a quartette was rendered by Messrs. Ketchum, Ross, Miss Henbeck and Master King, boy contralto; and Miss Sophie Cameron gave a solo in her invariably excellent manner. Miss Wrighton, secretary of the union, presided at the piano. The general object of this meeting of the union was to advance the cause of home and foreign missions and to this end a series of papers was read by representatives of the several societies as follows:—George street Methodist, Mr. G. S. Bean, B.A. B.Sc.; St. Paul's, Mr. A. McCollum, whose essay took the form of a very fluent and telling address; St. Andrew's, Mr. Dodds; Charlotte street Methodist, Mrs. A. M. Price; Gilmour Memorial Baptist church Smith, Miss Baker; Coldstream Methodist church, Otonabee, Miss Kennedy. A collection was made for the benefit of the funds of the union, and the matter of appointing a delegate to attend the general convention at Minneapolis was referred to the executive. The meeting was a very successful one and indicates the growing strength and importance of the Christian Endeavour movement.

A New Citizen's Credentials

Address and Presentation to Mr. Albert A. Smeaton—Send off to a New Citizen for Peterborough.

The Woodstock *Sentinel-Review* of May 13th contains the following:

Quite a number of friends, composed principally of the brethren of Jubilee Lodge, No. 289, A.O.U.W., East End, assembled at the residence of Bro. W. J. Brunskill, No. 832 James St., Monday night for the purpose of bidding farewell to Bro. Albert A. Smeaton, who is leaving town for a more lucrative position in Peterborough. The following address, read by P. M. W. Havens, was suitably replied to by Bro. Smeaton and was followed by songs, musical selections, etc., by Miss Gifford, Miss Brunskill, Mr. Fred Hyde and others:

WOODSTOCK, May 11th, 1891.

To Albert A. Smeaton:

DEAR SIR AND BROTHER—We desire on behalf of the brethren of Jubilee Lodge A.O.U.W., to express to you our sincere regret at your departure from amongst us.

Although but comparatively a new member of our Lodge and a new associate with us in Workmen's duties and obligations, still our acquaintance with you has been quite long enough for us to form a high opinion of your character both as a citizen and as a fellow Workman.

It is also gratifying to us to know that it is your intention to join with a sister Lodge of our noble Order as soon as convenient, thereby committing yourself to active work in the practice of charity, that abounding virtue of our Order without which life would be a void.

In conclusion, Bro. Smeaton, we ask you to accept our kindest wishes for your future welfare and prosperity, and as we shall always hope and think kindly of you we believe you will reciprocate that feeling, and reserve in your memory a warm spot for the brothers of Jubilee Lodge, No. 289, A.O.U.W.

Signed, JOHN M. WHITEHEAD, M. W., A. L. HAVENS, P. M. W., A. J. WATFORD, Recorder.

South Monaghan.

(From Our Own Correspondent.)

CENTERVILLE.—Business is booming here now. Our progressive village beautifully decorated with fine brick and frame buildings, etc., has added another improvement. Mr. John Byers, general merchant, has lately erected a fine new frame storehouse, this will be very convenient in connection with his now well-equipped shop.

Mr. Samuel Rody lately lost a valuable brood mare.

Mr. Frank Doyell has been recently removed to the hospital for treatment. He has the deep sympathy of all his neighbours, and we hope to see recovery soon take place.

We noticed Mr. James Baptie's Boxer passing through here on Monday. He is a very fine looking horse and should make a valuable sire.

CORRECTIONS—In last week's issue Mr. Robert Byers instead of Mr. Robert Rogers.

On Friday evening, May 15th, a number of the energetic farmers gathered at S.S. No. 5 school house to hear a lecture with a view of organizing an association of the "Patrons of Industry." After the points to be gained were duly considered, the association was organized.

We learn Mr. William Heaslip has lost a valuable brood mare.

Never had a preparation a more appropriate name than Ayer's Hair Vigor. When the capillary glands become enfeebled by disease, age, or neglect, this dressing imparts renewed life to the scalp, so that the hair assumes much of its youthful fullness and beauty.

No Lady's Toilet is Complete

Matters at Ottawa.

The Troubles Which Beset the Government—Anxiety and Worry—The Franchise Act—The Budget Not Yet Ready.

The Ottawa correspondent of the *Mail* writes as follows:—

OTTAWA, May 17.—Parliament has now well entered upon the third week of the session. The House of Commons has adjourned daily before six o'clock, and the Senate is in a chronic state of holiday, for it will not reassemble until the Queen's birthday has been duly observed. The want of work is having a dismal effect upon members. It makes them feel that their time is unnecessarily wasted. But provision is now being made for their amusement during the impending hot spell. The magnificent lawns fronting the Parliament buildings have been rolled and watered and mowed. On the eastern half a tennis court is marked out, and on the west there is a tennis crease, with a baseball appendix. Practice in the various games is to commence at once, and the legislators are to attempt outside as well as inside the buildings the task of bowling or catching each other out. Mr. Hyman, the new member from London, will unite with Mr. Barron and Mr. Dewdney in the management of the lawn tennis machinery, while Mr. Davies, of Prince Edward Island, and Mr. Dickey will take charge of the cricketing department. The baseball branch of the outdoor sports will fall to the French members. The games really seem to be divided according to provinces. Ontario goes in for tennis, Quebec for baseball, and the Maritime Provinces for cricket. All the Maritime Province members are cricketers of various degrees of excellence. During the long session of 1885, Mr. Foster and Mr. Tupper, then private members, distinguished themselves at the bat. They are Ministers now, and it is a question whether white trousers and the other paraphernalia of the cricket field will exactly comport with their dignity. Sir John Thompson is said to have been a cricketer once, but he is now so portly that his appearance at the wicket would be rather suggestive of the excellent Mr. Pickwick.

THE SITUATION.

But while members are directing their attention to sport in its various phases, their minds are more firmly set upon the outlook for the next few weeks. Though the session has been well started from the Ministerial point of view, it is felt that there are serious troubles ahead. In the first place, Sir John's continued absence gives anxiety; for it sometimes happens that when the master hand is not at the helm, the ship gets among the rocks. Once or twice in former sessions the party has narrowly escaped the breakers owing to the want of guidance. The questions that are calling for solution are also grave. To begin with, the Franchise Act is to be brought up for discussion during the coming week. Here is a measure towards which the attitude of the new members is doubtful. All of them may not know that this is Sir John's pet statute, and some may be inclined to give it the treatment which their personal, as distinguished from their political, opinions suggest. Among the older members, too, the Act is not unanimously viewed with affection. The budget will not be brought down for ten days or two weeks. Here again snags present themselves. There is a strong feeling in favour of a reduction of the sugar duties to the American standard, but the Government fears to act on the ground that the loss of revenue will be too large. Mr. Mulock has a motion on the paper calling for a reduction. This motion alone will create an awkward feeling, for those who would like to see its principle adopted may have to oppose it. Coal also threatens trouble. The Maritime Province members want the duties increased, but we the members object. Then there is a difficulty with regard to crude petroleum. The manufacturers want this article free, while the petroleum men demand that the duty remain in conformity with the National Policy idea. Mr. Foster has his work cut out for him. It is obvious that he cannot please everybody.

A Selwyn Church Corner Stone

An Interesting Historical Sketch of the Baptist Church in That Place.

The memorial stone of a new Baptist chapel at Selwyn, was laid on the 13th inst, when the following epitome of a historical record of the church at that place, was read, and deposited therein:

"Ye are the lights of the world," said Christ to his disciples, and He commanded them to "go into all the world and preach the Gospel to every creature." In compliance with this Divine character and commission, the Rev. John Gilmour, missionary to the Indians of Chemong Lake, in addition to the duties of that office, preached the Gospel to the early settlers of the district, and in course of time, several individuals received the Word of God with joy, professed repentance for sin, and faith in the Lord Jesus Christ for salvation; and in obedience to His command were immersed on a public profession of faith in Him, and united with the Baptist church on the Communication Line. But finding regular attendance at religious services in that locality inconvenient and often impracticable, owing to the distance and the state of the roads at that period, they decided upon building a place of worship in their own immediate neighbourhood. The situation fixed upon for that object was on a farm belonging, at that time, to Mr. Nathaniel Pearson. There the present chapel was built and made ready for occupation in the month of September, 1846, but which is to be superseded by a new one now in course of erection by Mr. G. J. Jopling, contractor, which is to cost two thousand dollars (including gratuitous labour by friends in the neighborhood) to be defrayed by free will offerings.

On the 2nd of August, 1846, a letter was read to the Baptist Church, meeting on the Communication Line, from sixteen members, residing in the neighbourhood of the chapel erected on the 11th concession of the township of Smith, desiring to be set off as a branch church for the purpose of Divine worship and observing the ordinances of Believers, baptism and the Lord's Supper, which request was unanimously granted.

No creed or code of laws of religious faith, practice, and discipline as the distinctive doctrines and principles of the Christian church thus formed, was adopted, other than those which are contained in the inspired scriptures, which were regarded as of exclusive divine authority and absolute sufficiency. The right and duty of private judgement in the interpretation of the infallible oracles being recognized, and all persons giving scriptural evidence of "being new creatures in Christ Jesus," would be eligible for membership with the church.

The following ministerial brethren have held the pastoral office in connection with the Selwyn Baptist church in succession, viz., Rev. John Edwards, Rev. Peter Wilson, Rev. Edward A. Roberts, Rev. Thomas Stock, Rev. Thomas Dial, Rev. Fredrick Radcliffe, Rev. A. E. St. Dalmas, Rev. J. B. Huff, and Rev. W. S. Barker, the present pastor.

Selwyn, 13th May, 1891.

Memorial Church Lawn Social.

A Delightful Entertainment in Smith.

Persons who wish to enjoy an exceedingly pleasant entertainment should make arrangements to attend the lawn social on the lawn of the parsonage of the Baptist Memorial Church, Smith, on Thursday, May 21st. Tea served on the lawn from 4 till 8 p. m., or if the weather be unfavorable, in the church. Addresses will be delivered, and also a choice programme of musical selections, some of them by the Y. M. C. A. band, town, will be presented. Tickets, 25c. To accommodate town people busses will leave the old post office corner at 6 and 7 p. m. Fare for the round trip, 25c.

Hawking and spitting, foul breath, loss of senses of taste and smell, oppressive headache, etc., are the results of catarrh. Nasal Balm offers a certain and speedy relief and permanent cures for these miseries. Thousands of testimonials speak of its wonderful merit. Try it; sold by all dealers. 6d116w

Young's Point.

(From Our Own Correspondent.)

BOATING.—Last Thursday, Mr. Young, of the steamer "Mary Ellen," invited the owners of islands and cottages in Stony Lake to join him on a free trip around the lakes that they might see how their lodges had passed the winter. About a score of friends from Peterborough accepted his kind invitations, and driving to Lakefield Thursday morning, they went aboard the "Mary Ellen", which was in waiting at the dock. After a pleasant sail up the river and lakes, all were landed at their respective islands, where it was found that the wharves had been considerably damaged by the ice and high water, many of the landings being left high and dry on the rocks. But with the assistance of the steamer and her obliging crew, these were soon placed in position again, and then the party were collected together and the return trip to Lakefield was made in excellent time. All were highly pleased with their day's outing, and no doubt during the coming season the "Mary Ellen" will be largely patronized by all those who wish to enjoy the pleasures of fast sailing, as well as comfort and convenience.

EGGS.—Mr. W. J. Doughty, of Warsaw, is doing a thriving business in the egg trade in this neighborhood, and the farmers find it a great convenience to leave their eggs at the stores here to be packed, instead of taking them to the Peterborough market as they formerly had to do before this enterprising merchant from Warsaw introduced this system of collecting them.

THE BRIDGE.—As has been intimated before in these columns, the flooring of the bridge across the river here is in a very dangerous condition, several accidents having already occurred. While two gentlemen were crossing the bridge on Saturday evening their horse fell through the flooring, receiving several severe cuts and bruises, damaging the buggy and throwing the occupants to the ground. If the bridge is not re-floored at once some serious accident will certainly happen, and when the county has a large bill for damages to meet, the County Council will feel the truth of the old adage, "A stitch in time," etc.

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

The well known strengthening properties of Iron, combined with other tonics and a most perfect nervine, are found in Carter's Iron Pills, which strengthen the nerves and body, and improve the blood and complexion. dw

BIRTH.

DELONG.—At 87 Albert street, Peterborough, on Tuesday, the 19th May, 1891, the wife of Mr. Samuel Stanley Delong of a son.

DIED.

O'BRIEN.—At Orillia, on Wednesday, May 20th 1891, Mrs O'Brien, relict of D. A. O'Brien, formerly of Peterborough, aged 87 years.

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Sarsaparilla had wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

Intense Suffering Hood's rilla, as cured his 8 Years

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

On Fire with Eczema

Terrible Sufferings of Little Baby—Seven Doctors and Two Hospitals Fail—Cured by Cuticura.

My baby boy, 5 months old, broke out with eczema. The itching and burning was intense; the eczema spread to his limbs, breast, face and head, until he was nearly covered; his tortures equalled were pitiable to behold; he had no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $5 per week for medicines, and was entirely discouraged. I purchased CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, his sufferings were ceased, and rest and sleep permitted. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and is as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON, 33 W. Brookline street, Boston.

Cuticura Remedies.

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of eczema and psoriasis, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

Sold everywhere. Price, CUTICURA, 75c. SOAP, 35c.; RESOLVENT, $1.25. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testimonials.

PIMPLES, black-heads, red, rough, chapped, and oily skin cured by CUTICURA SOAP.

OLD FOLKS' PAINS.

CASH HARDWARE STORE.

On and after 1st April we shall do business on a **Cash Basis.**

To cover the inevitable losses attendant upon a credit business, which accrue from amount of time spent in keeping accounts, collecting, bad debts, interest account, and in numerous other ways, larger margins of profit must be asked.

In these times cash buyers ask, expect, and are entitled to close prices. A careful consideration of the subject convinces us that the time has come for a cash business done on smaller profits.

The only customers who may possibly be put to inconvenience are those who have had long credit. In more ways than one it will be to their advantage to pay cash.

For convenience of our old customers who consider their accounts due when presented, we will call 30 days cash and render all accounts the first of each month, and we wish to say that will be happy to do business with them on these terms.

As the new departure is something of an experiment, what would be considered a close cash price will be made all through the stock. Not a few leaders only; but a general reduction in everything from the fourth flat to the cellar.

Our idea is to perform more than promised rather than promise more than can be fulfilled.

Our stock is large and varied, consisting of **Builders', Contractors', Household, Mechanics'. Painters', Shoemakers', Farm, Mill, Factory, Lumbermen's, Sporting, Threshers', Cabinet-makers', and other lines of Hardware.**

An old saying:—"You should go to Kingan's where you can get anything from a Needle to an Anchor."

DOMINION PARLIAMENT.

DEBATE ON THE ELECTORAL FRANCHISE ACT.

The First Division List Mr Jamieson's Prohibition Motion Taken Up Contractors Said to be Favored by the Department—Several Questions for Ministers to Answer.

OTTAWA, May 20.—In the House to-day Dr. Landerkin and Mr. Lister asked some questions of the Minister of Public Works with regard to letting the contracts and the construction of the public buildings at Walkerton and Strathroy. They were along the line of the questions asked by Mr. Barron on Monday. The replies went to show, as did the Minister's answers on Monday, that the contractor in the ring puts in a low tender and lines his pocket out of the "extras" and "additionals." In connection with the Strathroy buildings the contract price was $14,475, but already $25,028 had been paid, and there was a claim of $3116 remaining. The contractor is W. H. Lewis, auctioneer, of Ottawa. The tenders for the Walkerton building ranged from $14,500 to $18,700. *The $14,500 was the tender of Tighe Bros.*, Toronto, and was the amount of the contract. The local contractors have no chance for these buildings. In Walkerton H. Clerk, who probably figured the cost down closely, put in a tender—unacquainted as he was with the peculiar methods of the "ring" for $18,517, while J. Bowers' (of Paisley) tender was $18,500. Dr. Landerkin asked who the clerk of works was, and was told it was J. J. Tolton. Mr. Tolton, Sir Hector said, was not inspector, only clerk.

Prohibition.

There was a long list of notices of motions to be gone through, but the impression of the House was that they would by rapidly disposed of and the debate on Mr. M. C. Cameron's bill be taken up. However, when Mr. Jamieson's resolution was reached the hon. member stood up and surprised the House by proceeding to debate it.

Mr. Jamieson addressed the House under very discouraging circumstances. Not from the very start to the conclusion of his remarks could he secure attention. All over the benches there was a persistent hum of conversation, which at times almost drowned his voice. He began by telling the House that he did not think any apology was necessary for again bringing this question to the attention of the House. The resolution was the logical outcome of the position the House had taken in connection with the abolition of the liquor traffic. During the present session there had been a great number of petitions sent from all parts of the country. These, he contended, were entitled to be received with respect, and should be given their due weight. It was clear in his opening that the people were ready for a prohibitory liquor law. He kept the question would not become a party question. He reviewed the course in the interest of the movement. On several occasions the Commons had passed resolutions declaring for the abolition of the liquor traffic. Some people might think that the time had not yet arrived when a prohibitory liquor law should be passed, but on the other hand there were a large number who thought the people would under the measure be educated up not only to temperance but to the enforcement of the law. He referred to the act which had been introduced embodying the principle of a prohibitory liquor law, which was not acceptable to the Premier, and to the compromise agreed upon by which the Canada Temperance Act, popularly known as the Scott Act, became law. It had been claimed that repeal of that act by the general desire of the people indicated a retrograde movement in regard to this question. The hon. member denied this, and claimed that the repeal of the Canadian Temperance Act indicated that the people were dissatisfied with local option and that peculiar kind of prohibition embodied in the act. He produced statistics showing how drunkenness had decreased during the years that the Scott Act was in force as compared with the years before and after the act became law. In eighteen counties of Ontario when they were under license in 1881 there were 932 convictions for drunkenness. In 1888, when the Scott Act was in force, the convictions decreased to 185, and in 1890, when they were under license again, the same cause of conviction rose to 560. This question, he argued, had narrowed itself down to this, whether the people were ready for this change of the law, which would be highly beneficial in its operation. After dealing with the Province of Ontario he turned to Prince Edward Island, where the whole of the island was under prohibition except the city of Charlottetown, and the results had been most satisfactory. In Nova Scotia more than half of the territory was under the act, and that the people were satisfied with the result was shown in the fact that they had no desire to return to the license system. In New Brunswick nine counties out of fourteen were under the operation of the prohibitory act. In Quebec the law was not generally adopted, but the results were gratifying where it was in operation. In Manitoba four fifths of the Province was under the influence of the prohibitory act. Some temperance men, he went on to say, had proposed that they should regulate the traffic, and asserted that this was the proper way to deal with it, but the result of regulation in the past had been such as to give little encouragement for hope in regulation. The only remedy for the evils of the liquor traffic was prohibition.

Messrs. O'Brien and Coatsworth delivered short addresses.

The Franchise Act.

Mr M. C. Cameron moved the second reading of his bill to repeal the Dominion Franchise Act and all its amendments. The speech in which he supported his motion was marked by the terseness and vigor with which six years ago he opposed the bill from the same place from which he spoke to-night. Mr. Cameron said no act affecting the representation of the people in Parliament in Canada during the last quarter of a century had been received with such wide opposition had the Franchise Act. It had been wholly uncalled for; there were no demands for it, no petitions. Five or six years had shown it harsh, difficult to work out, unsatisfactory in details. It had been introduced by the First Minister for political ends, and has been pushed through against stern opposition solely for political ends. It was intended to damage one political party and benefit another; its effect had been to damage both. He believed that the honest sentiment of a majority of the people of the country and of a majority of the House was against it now. The experience of the last six years, during which it had been in operation in part of the time and in part of the time suspended showed that it opened wide the doors to all kinds of political fraud. (Hear, hear). He had made the statement, he went on, that the act opened the door to all sorts of frauds in elections, and he gave some examples of how good voters are cut of the lists and bad ones put on by the revising officers or someone else. In an electoral division he knew of there were on the voters' lists on which the last election was conducted 125 names on twice, 15 names on three times and 50 names on as income voters of men who were not living in the riding on the county for a year before the application was made. Could gentlemen on either side of the House, he asked, be content to conduct elections on voters' lists such as these? In another county 119 names were added to the lists at the revision, and yet when the electors came to the polls to vote only 12 of them were on the list. In the same list 12 names were put on who were minors. This showed that the electors had no protection or assurance that when their names were put on at the revision they would be there on polling day. In another county, he said 150 names were struck off, erased from the voters' lists at the revision, and yet every name was on the lists upon which the elections were held. He would not say where the fraud was, but it was extraordinary that all these names should have been left on the list. He gave other examples of the shameful manipulation of the voters' lists in other counties. There were other powerful arguments in favor of its repeal. He remembered that the First Minister when he force it it through Parliament promised there would be no difficulty in getting names on or off the lists, and that it would be an economical act. The whole country knew the contrary had been proved, and that it had entailed enormous burdens on the candidates and parties. He found in the report of the Auditor-General that the Government in 1887 expended $409,517 on account of the act; in 1888, $86,570; in 1887, $17,030, and in 1890, $235,078, a total of $749,000. That had been the cost according to the Auditor-General of an act which had given trouble to every one and satisfied no person. This was the cost of it, although it had been suspended the greater part of the six years since it had been passed, with the result that the last elections had been fought on a list two years old. The Liberals, he remarked, in the constituencies to which he referred spent $750, and the Conservatives, it might be assumed, spent about the same amount. But this did not represent the whole. For a week or two scores of men in a riding devoted their attention to collecting votes and gathering information as to who should be on the voters' lists, and the expense of this came out of the pockets of the people. Altogether he was content to put the sum spent in every constituency at $1500, and when they multiplied $1500 by 210 they got a very nice sum of money. The two revisions of the Electoral Franchise Act that had taken place could not have cost less than a million and a quarter. Mr. Cameron adverted to the fact that the last election took place on

An Obsolete Voters' List.

The Liberals were handicapped in the race, but they were often handicapped in the race. It was generally with the Conservatives "tails I win, heads you lose." (Cheers.) It was generally a battle contested with baded ldicaand for the last two elections the Government had had everything in their hands. If they were an honest voters' list, fairly scrutinised and carefully printed, one would have nothing to say, nothing to complain of, but with a voters' list so imperfect surely there was room for grave objections. This was not all. For two years before the election there was no revision of the voters' list, but two months after the election arrangements were being made for a revision, and $150,000 appeared on the estimates covering part of the expenditure. Of course the Government, as everybody would admit, did not know how long it might live—"it may," added the member for Huron, "be on the brink of a precipice now. I hope they are." (Great laughter.) If the voters' lists were revised this year the Government would have to pay, according to the cost of the two former revisions, $350,000, and the candidates would have to pay at least an equal sum. In conclusion, Mr Cameron appealed to hon. gentlemen opposite whether it was not a fact that the Dominion Franchise Act had proved unsatisfactory to themselves. Did they not find it complicated and expensive, and did they not find when they came to the poling day an enormous number of mistakes that had crept into the lists? Was it not time that the act was repealed? He suggested in the place of the present another franchise—one based on the Local Legislature franchise of each Province. Then they would have one not costing a million and a half of money, but one without money and without price. It was one prescribed by the people among whom we lived and it was given to us not costing a farthing. He contended that those who had any experience of the Provincial franchise would agree with him that it would be far better, less complicated, less expensive than the one we had now for the Dominion. He had heard as pronounced a Conservative as he was a Liberal declare that of all the measures passed in the last 12 years the Electoral Franchise Act was the most defective, the worst in principle and the most difficult to understand. [Loud cheers.]

The Government's Reply.

Sir John Thompson was the Minister who rose to reply, and by way of preface he told the House that Mr. Cameron had just followed the course that he expected he would. He reminded the House of the discussions that had taken place, and remarked that notwithstanding the fact that there were so many new faces, every member of the House must be familiar with the subject. In 1882 there had been a most elaborate discussion of every principle involved. In 1886, when he had occasion to introduce some amendments to the Franchise Act, they had a very full discussion, and again in 1887, in 1888 and last year every argument was reviewed which the committee of the whole House had dealt with at such great length in 1885. Sir John then claimed for the existing act that it secured the most complete uniformity in the principle of representation, and argued that if it were repealed it would be necessary to revert to a system which gave less security for uniformity. He criticised the Provincial franchise and the various kinds of officials by whom it was administered in the different Provinces. He remarked that reference had been made to the fact that considerable expense had attended the carrying out of the revisions of the lists in the past, but declared that this would not always be the case. The first revision involved the preparation of electoral lists from the original lists and necessarily entailed an expense which could not be expected in subsequent revisions. The cost of the second revision was enormously increased in order to provide for the permanent setting up of the lists, so that the cost of subsequent revisions might be lessened. They now came to the third revision with the full expectation that the cost would be largely decreased—reduced almost to a minimum. The bill now before the House, Sir John went on to say, asked the House to adopt a different franchise for each province of the Dominion and to make that franchise for all time. The result would be inevitable confusion and an injustice to voters now on the Dominion list who in some of the provinces would be deprived of their right to exercise the franchise, although they might be as capable of doing so as he himself. Another argument advanced by Sir John against the adoption of the bill was that it would necessitate another general election. He took up in a good-humored way Mr. Cameron's remark about the Government being on the brink of precipice. He concluded by moving that the bill be read this day six months.

Mr David Mills made a very able reply to the Minister's speech. It was a matter which the member for Bothwell was peculiarly well qualified to discuss. He thought Mr. Thompson would rather see the bill become law than have the motion be proposed prevail.

After remarks from Messrs. Daly, Desjardines and others a vote was taken with this result:

Notes.

Mr. Barron, in introducing his bill to amend the act respecting the election of members of the House of Commons, said that the amendments he proposed were two: the first allowed the deposit of $200 to be made other than in cash as at present required, and the second made it compulsory on the judge to hold a recount if asked to do so.

In answer to a question by Mr. Lepine Hon Mr. Chapleau said that the typesetting machines in the government printing office cost $4500 each, that they would set 3700 ems an hour and that at the rate of wages paid in the bureau the cost would be 6.2-7 cents per 1000 ems.

Dr. Macdagan, a Scot, Succeeds the Late Dr Magee, an Irishman.

LONDON, May 20.—Scotchmen are delighted at the appointment of Right Rev. William Dalrymple Macdagan, Bishop of Lichfield, as Archbishop of York. Dr. Macdagan, though less brilliant than his predecessor, Archbishop Magee, is notably pious and energetic and a man of deep learning and much astuteness.

The Right Rev. William Dalrymple Macdagan, son of the late Dr. H. Macdagan, M.D., Physician to the Forces, was born in 1826, and was educated at Rugby and College Cambridge. In early life he served as a cavalry officer in India, and retired as a lieutenant in 1852. He was successively Honorary Chaplain to Queen Victoria, a Rural Dean and Chaplain to the Bishop of London and subsequently Rector of Kensington and Vicar of Kensington. He was consecrated Ninety-first Bishop of Lichfield in 1878.

Wants a Duty on Nickel.

OTTAWA, May 21.—Mr. P. Iurie of Glasgow, Scotland, is here. He will propose to establish extensive nickel steel works in Canada if the Dominion Parliament will impose an export duty on crude nickel or matte. He thinks the duty on matte should be $100 per ton. Mr. Iurie says the world cannot do without our ore and he sees in an export duty a chance to establish refining works in Canada employing thousands of our own people.

Rough on the Canadian Hog.

WASHINGTON, May 20.—Secretary Rusk has issued an order requiring that all sheep and swine intended to be imported from Canada shall be quarantined for 15 days. Contagious diseases exist in other countries, and as Canada does not quarantine against them the order was issued to prevent the introduction in this country of diseases of swine and sheep by importation through Canada.

Struck by Lightning.

CONGEON, Ont., May 20.—This afternoon during the thunderstorm the barn and stables belonging to Charles A. Chase, who lives about two miles from this place, were struck by lightning and with their contents, which consisted of one horse, several cattle, hay grain and farming implements, were totally consumed.

HALIFAX, May 20.—Rats attacked two children, twins, who were sleeping in their mother's bedroom in a house in Brunswick-lane last night. Large pieces of flesh were bitten from both. Poisoning set in and it was with difficulty that the danger of fatal results was avoided.

Killed By a Colt.

WARDSVILLE, May 20.—While playing with a young colt this afternoon the 5-year-old son of Duncan Purcell of the third concession of Aldborough was kicked in the stomach and died in 15 minutes.

Children Cry for Pitcher's Castoria.

A MISSOURI TORNADO

SPREADS DEATH AND DESOLATION ON EVERY SIDE.

A Score or More Persons Killed or Fatally Injured—Houses Blown Down and Their Inmates Buried in the Debris—A Shocking Story of Death and Desolation.

MEXICO, Missouri, May 20.—A terrific tornado passed three miles northeast of this place at 3 o'clock this afternoon near Bear Creek. Fifteen houses in that vicinity were destroyed, ten or twelve persons were killed and an equal number fatally injured and large numbers badly. At the house of Farmer Duffy John Dorger and family were living. James Dorger, aged six, was killed outright. Lizzie Dorger's skull was crushed and a large piece of timber penetrated her side. She soon died. Mrs. Dorger was crushed to death by falling timbers and Mr. Dorger was fatally injured. The house was swept away. Nothing has been heard of Mr Duffy and it is supposed his body was carried away by the cyclone. The barn was blown down and two horses killed. At William Stransberry's house William Yostranger and family were visiting. The house was swept bodily away. William Yostranger was killed, his wife was badly injured and his little girl fatally hurt. William Stranberg was also fatally injured at the house of Ed Norris. Gertrude Fletcher was instantly killed, E. B. Norris was fatally injured, Cable Norris was badly and his wife seriously hurt. Willie Fletcher and his sister Kate were killed and their bodies terribly mangled. At the same place Mrs. Emily Saad, aged 60, was fatally hurt and Mrs. Norris, mother of E. B. Norris, was killed. F. S. Norris was badly hurt.

Joseph Kendalls house and barn were blown down. Kendall narrowly escaped. James Dillards house was blown down. A mowing machine was carried 100 yards and torn to shreds. A large iron boiler, weighing 1200 pounds, was broken to pieces. A calf was carried over a quarter of a mile. Several horses were killed and 25 chickens were plucked clean. The cyclone passed on to the east, passing Rush Hill one mile north, carrying destruction everywhere. There is no doubt great destruction of property and life further east. Great trees are torn up or blown down. The scene at the places is horrible. E. B. Merry was holding his baby in his arms when the cyclone struck Merry was dashed against the house and the baby was carried many yards and dashed against a tree.

The house of Valentino Erdle caught fire and was destroyed. The inmates had vacated the house and nobody was hurt.

The house of T. B. Hall was blown down, but the family escaped. A horse at that place was carried a half mile and dashed dead on the ground.

Boston Kunkel's house was swept away and Mr. Kunkel was killed. Farmers Rogers and Crane were also killed there.

Several farm hands near the Kunkel and Rogers farms are also believed to have been killed.

JUMPED TO HER DEATH.

Sarah Little's Attempt to Escape from the Mercer.

TORONTO, May 21.—Sarah Little on April 15 was brought up from Belleville to serve a term of one year for receiving chickens knowing them to have been stolen. At the Mercer she gave her place of birth as Toronto, but could not give any address where friends might be found. On admission she was detailed to work in the laundry, and her dormitory was located in the fourth story of the western wing of the building. To all appearance the girl was tractable and worked hard. She had very little to say to anyone and quickly gave the impression to those in charge that she was only too willing to accept the rules of the reformatory and be guided by them.

About 4.30 o'clock on Monday morning the night guard, who makes the round of the dormitories every two hours, was startled by hearing piercing screams coming from the dormitory in the third story. Hurrying there she found that the women had been alarmed at seeing a dark body slide quickly down from above, immediately in front of one of the windows. Whatever it was looked in for a moment and disappeared with a shriek. They persisted in their story, and it gained confirmation when the guard, on going to the window, saw a rope swaying in the wind, proving conclusively that the prisoners had some ground for alarm.

While this was going on inside, an outside watchman was attracted by cries for help which came from the sidewalk fronting the west wing. Hurrying to the spot he found a woman lying on the brick pathway uttering ejaculations of pain and feebly calling for assistance. The alarm once given the woman was speedily carried into the building and medical assistance summoned. It was discovered that the unfortunate was 17-year-old Sarah Little. Her spine was found to be broken her right knee fractured and an ankle sprained. She was conveyed to the hospital ward, where she now lies between life and death.

Her story as told Miss O'Reilly, the superintendent of the Mercer, is as follows: On Sunday night after retiring to her bed, which is separated from the others by a wooden partition, she took the rung of a chair and pried apart two of the bars, making an opening sufficiently large through which she could squeeze through to the outside. This accomplished she took her blanket and cut it into strips. This she tied together and twisted it into a rope of sufficient strength to bear her weight. This was fastened to one of the bars, and getting outside on the window edge she began to let herself down to the ground below. Everything went all right until she got opposite a window in the third story. There she was noticed by some of the women, who began to scream. This frightened her as badly as her appearance did them, and she let go her hold in her terror and fell to the earth. Had it not been for the other women she would have undoubtedly succeeded in getting clear away. As it is it is probable she will never be able to work again, even if it is possible for her to recover.

The Wadsworth Mystery Again.

WALLACEBURG, May 20.—The Wadsworth mystery is likely to again claim the attention of the public. Wallaceburg parties have received a letter from people named Wadsworth in New Jersey making enquiries about Wadsworth, who they say is their father. James Hezekiah Hardy, whose name was mixed up with the mystery, is again residing in Sarnia. It is rumored that Pinkerton's men have the case in hand.

Everybody Knows

That at this season the blood is filled with impurities, the accumulation of months of close confinement in poorly ventilated stores, workshops and tenements. All these impurities and every trace of scrofula, salt rheum, or other diseases may be expelled by taking Hood's Sarsaparilla, the best blood purifier ever produced. It is the only medicine of which "100 doses one dollar," is true.

SUN LIFE
ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355.92
Increase over previous year	3,421,372 84
New Applications received in 1890	6,371,599 15
Increase over 1889	2,268,888 60
Cash income for year ending 31st December, 1890	889,078 87
Increase over 1889	325,938 35
Assets at 31st December, 1890	2,473,514 19
Increase over 1889	687,691.47
Reserve for Security for Policy Holders	2,109,222 68
Increase over 1889	567,732.71
Surplus over all Liabilities and Capital Stock	232,175.69
Increase over 1889	75,649.05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$64,824 07
" " " " 1886, "	89,452 97
" " " " 1890, (four years)	232,175 69

Daily Examiner.

THURSDAY, MAY 21, 1891.

ANOTHER of the few surviving Confederation Senators is gone. Sir Edward Kenny was one of the seventy-two called to the Upper Chamber in 1867, and at the same time he was made a member of the Government. He held the portfolio of Receiver-General from July 4, 1867, to Nov. 16, 1869, and from the latter day until May 13, 1870, was President of the Privy Council, which office he left to become Administrator of the Province of Nova Scotia.

THE delay in producing the documents asked for by the committee on privileges and elections in connection with the Langevin-McGreevy case is exciting suspicion. There is no excuse for delay. It is the original papers, not copies, that are wanted, and it was agreed at the last meeting of the committee that the documents should be produced at once for examination by members of the committee but they are still in Sir Hector's pigeon holes. There are rumors abroad that steps have been taken to see that some of the witnesses likely to be called by Mr. Tarte are out of the country when the enquiry begins.

IN moving for particulars respecting the employment of workmen on the Welland canal during election times, in the House of Commons on Monday, Mr. German of Welland made a neat speech pointing out how votes are secured for Tory candidates in that county. The Welland canal, like the Intercolonial railway and every other public institution controlled by the federal government is used as a political engine to help the Tory party. It is the custom to give employment to dozens of men on the Welland canal during each election campaign, when there is really no work to be done, and as soon as polling is over the men are dismissed—their votes having been in the meantime secured for the ministerial candidate. Mr. German intends to expose this systematic corruption and robbery. The new member for Welland is a gentleman of fine presence, an able speaker, and will make his mark as a parliamenterian.

THE rapid voyage made around the world by the Canadian Pacific steamer, "Empress of India" on her first trip, is not only a notable achievement *per se* but has been the means of calling English attention to the advantages of the Canadian route. The London *Spectator* thus adverts to the subject:—"How fast the world shrinks! It is positively affirmed that there are passengers now in London who, leaving Yokohama by the new route for Europe across the Canadian Dominion, have reached England in twenty-one days. The announcement means that we may consider the distance between London and the Far East practically halved, at all events for passengers. The effect of such a change on intercourse with China and Japan must ultimately be a great increase of European influence there, and some increase of Mongol influence over Europe."

The Sunshine of the Heart.

Cheerfulness is an excellent wearing quality. It has been called the bright weather of the heart. Without it home is dark and desolate, and society becomes a nuisance—a something to be avoided. Unfortunately, we too often meet the miserable, low spirited man and woman. They are continually tortured with a feeling of ennui, a sense of goneness, lifelessness and melancholy. Many complain of their nervousness, short breath, a drowsiness after meals, unrest and disquietude at nights, dyspepsia and indigestion. Enough all will readily admit to make life endurable. Hundreds indeed has a desire to end life at once, and thus get rid of their sufferings. Reader are you earnest in your desire to secure a natural, healthy cheerful character and disposition? Are you actuated by a desire to make the world pleasanter for yourself and others? This desire may be attained by the use of that infallible remedy, Paine's Celery Compound. The history of medicine cannot point to its equal as a cure for the troubles with afflict and torment you. Do as thousands of others have done; use without delay this great restorer of the nerve system, this grand builder of muscle and flesh, and you will live in peace and joy to bless its great discoverer.

An Unwise Policy.

The Montreal *Witness* calls attention to the unwise policy of the Dominion Government in regard to the carrying trade of the Great Lakes and the St. Lawrence routes as well illustrated by a case which has just arisen this spring. A Montreal firm has a quantity of Canadian grain at Duluth, which they wished to ship to Europe via Montreal. They chartered an American vessel to carry the grain from Duluth to Kingston, and then they were confronted by the Government with some absurd provision of our precious coasting laws which makes it illegal for Canadian grain to be shipped from an American port to a Canadian port in an American bottom; it must, according to law, be carried in a Canadian vessel. Unless the order to ship by the vessel chartered is cancelled, the grain will probably have to be carried to Ogdensburg and shipped thence via Boston. Thus, not only the Canadian St. Lawrence route is deprived of the trade, but if there is any advantage in having Manitoba and North-West Territories' grain shipped via Duluth, as there probably is under certain circumstances or this grain would not have been sent to the head of Lake Superior, the grain dealers of Canada and the farmers and people of Manitoba generally are deprived of that advantage. This game of retaliation, which is being played between Canada and the United States, is one that the people of both countries suffer by, and only the politicians and certain monopolists on both sides of the line gain anything by it. To cut off our noses to spite our face is a bad policy. The utmost freedom of trade and commerce is what will best serve the great natural route from the Great Lakes to the sea, and the Dominion Government is only playing into the hands of the enemies of Canadian trade and shipping, and of the enemies of Montreal, when it hampers the carrying trade as it does by its absurd regulations, of which there are so many that it is impossible to keep track of them.

The Prize Farm Contest.

The EXAMINER some time ago called attention to the fact that the time for taking entries for the Provincial Prize Farm Contest would expire May 15th, but Mr. Wm. Collins, Secretary of the Agricultural Society, has been notified that the time has been extended till June 15th. Any farmers from this riding who wish to compete and have not yet entered their names, are given another opportunity. It is to be hoped more of the farmers of Peterborough county will enter than have already done so.

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. dw

It Does Its Work.

Mrs. James Dix, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

Everybody Likes It.

Wm. Dredge, Ellen street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised. Sold by all druggists. dw

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure blood, removing all foul humors, from a common pimple to the worst scrofulous sore. 2w20d

Would not be Without It.

Dyer's Jelly of Cucumber and Rose for chapped hands and for making the skin smooth and soft. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 61116

W. A. Greatrex, Druggist, has for sale the Royal Rheumatic Remedy. It is no new formula, having been before the public for 12 years and effected wonderful cures. Write o R. R. R. Co. for testimonials. dw

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

THE RED COLOR of the blood is caused by the Iron it contains. Supply the iron when lacking by using Milburn's Beef, Iron and Wine. dw

"MANY MEN, MANY MINDS," but all men and all minds agree as to the merits of Burdock Pills, small and sugar-coated. dw

People Wonder

WHEN they find how rapidly health is restored by taking Ayer's Sarsaparilla. The reason is that this preparation contains only the purest and most powerful alteratives and tonics. To thousands yearly it proves a veritable elixir of life.

Mrs. Jos. Lake, Brockway Centre, Mich., writes: "Liver complaint and indigestion made my life a burden and came near ending my existence. For more than four years I suffered untold agony. I was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digested at all. Within the time mentioned several physicians treated me without giving relief. Nothing that I took seemed to do any permanent good until I began the use of Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I could see an

Improvement

in my condition, my appetite began to return and with it came the ability to digest all the food taken, my strength improved each day, and after a few months of faithful attention to your directions, I found myself a well woman, able to attend to all household duties. The medicine has given me a new lease of life, and I cannot thank you too much."

"We, the undersigned, citizens of Brockway Centre, Mich., hereby certify that the above statement, made by Mrs. Lake, is true in every particular and entitled to full credence."—O. P. Chamberlain, G. W. Waring, C. A. Wells, Druggist.

"My brother, in England, was, for a long time, unable to attend to his occupation, by reason of sores on his foot. I sent him Ayer's Almanac and the testimonials it contained induced him to try Ayer's Sarsaparilla. After using it a little while, he was cured, and is now a well man, working in a sugar mill at Brisbane, Queensland, Australia."—A. Attewell, Sharbot Lake, Ontario.

Ayer's Sarsaparilla,

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Price $1; six bottles, $5. Worth $5 a bottle.

WRECK ON THE C.P.R.

Engineer and Fireman Killed—Two Brakemen Injured.

TORONTO, May 20.—A cow on the track caused the derailment of a freight train at eight o'clock last night at Churchville near Streetsville Junction on the C.P.R. Two fatalities resulted, a farmer named James Ferguson and the engineer of the train, Robert Johnson, being killed on the spot. Two men were also seriously injured and were brought on to Toronto, and taken to the General Hospital. They are both young men, one, William Little, being 21 years of age and his companion, W. G. White, 25. The former, who lives at Chatsworth, county of Grey, was in a car laden with stone, a large block of which, falling on him, crushed his right foot to a pulp. The fingers of his right hand, too, were badly jammed. White, who resides in the west end of Toronto, was in a box car near the engine. He was thrown forward between the tender and the engine, but succeeded in extricating himself from the scalding steam which surrounded him. He received a severe wound on the left leg, besides numerous cuts and bruises on different parts of the body. White was in the Hospital six months ago with a fractured leg. It was the opinion of the doctors early this morning that Little's foot would have to be amputated.

Fireman Badly Crushed.

HAMILTON, May 19.—James Burns, a Grand Trunk fireman, was working about his engine in the roundhouse and got caught between the tender and a post. He was badly crushed, several ribs being broken. He was taken home in the ambulance.

A Brakeman Disemboweled.

WINDSOR, May 19.—Joseph Emerson, a Michigan Central employe, was run over in the cut near Michigan Central Depot, Windsor, to-day and literally disemboweled. He was taken to Emergency Hospital, Detroit, and will die.

QUEER BIGAMY CASE.

Not Proved That There Was a First "Wife" Or That the Second Wife's First Husband Was Dead.

BRANTFORD, May 19.—William H. Temple was tried before Judge Jones to-day on a charge of bigamy. Several witnesses swore that prisoner under the name of Temple went through a marriage ceremony with a Laura Slide at Goodwin, Mich., 10 years ago, and was the father of four children that called the Slide woman mother. The latter, however, is missing and there was no marriage certificate or any other evidence to show that a legal ceremony was performed.

Rev. Mr. Kelly of Onondaga testified that he married prisoner in November, 1880, under the name of William Schell to a woman named Nancy Brasley. Thos. George Bradley, father of Nancy, took the stand and said he did not know whether his daughter's first husband was dead when she married Temple, alias Schell. The case was laid over a month, meantime an effort will be made to disentangle the net.

FROM THE CONFESSIONAL.

A Diamond Ring Alleged to Have Been Given to a Policeman Returned Through a Priest.

MONTREAL, May 19.—Thursday afternoon a lady residing in the western part of the city took a handkerchief from her pocket to wipe her baby's face, who was sitting in a baby carriage opposite her residence. While doing so she pulled out a diamond ring and it rolled to the pavement unobserved. The ring was worth about $300. One of the little girls residing next door had picked up the ring and gave it to a policeman who was just then passing. The little girl picked out the constable, but he denied that he got the ring and the girls were just as confident he did. However, he was let go on along his beat but was impressed with the idea that the matter was not to be allowed to drop. Last evening the sergeant came to the lady's residence, opened a little parcel containing the missing ring and handed it to its owner. "Do you know how I got it?" he asked. "Well, then, I will tell you. Father Donnelly brought it to our station this evening." The ring had evidently been handed to the priest in the confessional.

POISONED BY TOADSTOOLS.

Eaten in Mistake for Mushrooms—One Death, the Other Victim Will Recover.

TILSONBURG, May 14. The family of Mr. John Cope of Tilsonburg were poisoned by eating toadstools. The poisonous fungi, which had been gathered as mushrooms, were cooked and served. Shortly after eating them every member of the family was taken ill with symptoms of poisoning. Physicians were summoned, but notwithstanding their efforts Maggie, the 6-year-old daughter, died. The other members of the family are now out of danger.

CHOKED TO DEATH.

He Ate Too Rapidly While Enjoying a Square Meal.

KINGSTON, May 19. Louis Cleaver, an old landmark of the city, secured a little money yesterday and early this morning determined to have a good meal, and dropped into the dining room of the Stanley House. He had not been there long before the waitress noticed him making unintelligible noises suggestive of something clogged in his throat, and five minutes after he died. Dr. Henderson said death had resulted from choking caused by the old man eating too fast.

The Mayor Was Rash.

PARIS, May 19.—The Mayor of Montmartre, the northern suburb of Paris, to-day visited the offices of a small Paris newspaper, La Lutte, and quarreled with the editor. The editor drew a pistol and fired two shots at his visitor. The mayor was only slightly wounded, but he fled so hastily that he fell headlong downstairs and was seriously injured.

A Well That Flows Gold.

There is a wonderful well down in Del Norte. It is an artesian well, with an abundant flow of pure water, sufficient to irrigate a considerable body of land. That would be enough for any one but a San Luis man, but this is mineral water. It is effervescent, very palatable and extremely healthful. Nor is this all. The force of the water brings up from the depths an occasional lump of native silver or a gold nugget. The frugal farmer has placed a sack of wire netting over the mouth of the well to catch the metal and prevent it from choking the cows. Local scientists claim that at the great distance down and under an enormous pressure the water is washing away a ledge of rock, whose softer parts go into solution and give the water its mineral qualities, but whose gold and silver, not being dissolved are brought to the surface in a metallic state.—Pike's Peak Herald.

Children Cry for Pitcher's Castoria.

WHERE HIS INTERESTS WERE.

There Was His Heart Also, and He Gave Abundant Proof of It.

One day last week a long, lean, solemn-looking man went into a Dearborn street eating house and took a seat at one of the tables.

"Have you any pork scrap?" he asked.

"Pork scrap!" echoed the white-aproned young man. "No, sir. I never heard of pork scrap. We have some excellent consomme, some very fine vegetable soup, and some first-class bouillion."

"No broth a la young pig?"

"Nothing of the kind."

"Bring pork and beans—mostly pork."

"All right, sir."

"Got any butterine?"

"I—I think we have."

"Bring me some bread and butterine."

"Yes, sir."

"Got any ham and eggs?"

"Yes, sir."

"Bring me some ham and eggs. Don't care much for the eggs. Bring plenty of ham."

"Anything else?"

"Yes. I want a good-sized chunk of roast pork. No gravy. All pork. Understand?"

"Yes, sir."

"That will do for a while."

The comestibles were brought, and disposed of in short order.

"Anything else?" inquired the waiter.

"Yes. Got any pork sausages?"

"Yes, sir."

"Bring me some pork sausages."

The sausages were brought and devoured without loss of time.

"Got any fried pie?"

"No, sir. This isn't exactly a fried-pie kind of eating——"

"You can fry a pie to order, can't you?"

"Yes, sir."

"Well, fry half an apple pie. Plenty of lard. Understand?"

"Yes, sir. Anything else?"

"Got any doughnuts?"

"Yes."

"Bring me a plate of doughnuts. Hot and greasy. Understand?"

In due time the fried pie and the hot doughnuts made their appearance. The waiter stood by until the last fragments of greasy pastry had vanished, and then ventured to ask:

"Is that all, sir?"

"No. Bring me another plate of doughnuts."

"My friend," said an elderly gentleman who for some time had been watching the hungry individual from the opposite side of the table with undisguised astonishment, "pardon me for asking. I am a physician. Have you an abnormal appetite for pork, or are you eating this kind of a meal on a wager?"

"Neither," answered the lean, solemn-looking man, breaking another doughnut. "I own a few shares of stock in a packing and provision company. It's down a few points in the market to-day, and I am doing all that one man can do to boom the stock, sir—that is all."—Chicago Tribune.

A Billiard Point by Champion Schaefer.

The cue ball (No. 1) is struck just above the centre, with a reverse English; it hits the first object ball (No. 2) on the right side and then taking the left, right, lower and left cushions carroms upon the second object ball (No. 3). The first object ball is forced to take the upper and right cushions, meeting the cue ball (No. 1) and second object ball near the left rail, forming position. The movement of the first object ball (No. 2) is indicated by the dotted lines.

From the Pacific Coast.

We quote from a letter recently received from Miss Eleanor Pope, Port Haney, B C: "For sore throat, coughs, croup, bruises, &c., Hagyard's Yellow Oil is the best thing I have ever used." 2w20

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

A Minute a Day.

A minute a day devoted to taking a dose of BurJock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2w20

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She resolved to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS. KENNEDY, Hamilton, Ont. 2w20

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2w20

Worthy of Confidence

Those who have used it praise it! Mrs. George Ward writes from Josephine, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2w20

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

AS AN AID to internal remedies for skin diseases, Dr. Low's Sulphur Soap proves very valuable dw

STUBBORN CHILDREN readily take Dr. Low's Worm Syrup. It pleases the child and destroys the worms. dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

FLAX-SEED EMULSION COMPOUND

BRONCHITIS

136 Lexington Ave., New York City, Sept. 19, 1889.

I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results.
JAMES K. CROOK, M.D.

CONSUMPTION

Brooklyn, N. Y., Feb. 14th, 1889.

I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where patient could not use Cod Liver Oil in any form.
J. H. DROGE, M. D.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 20th, 1888.

I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.
JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 10th, 1888.

I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use.
D. A. GORTON, M. D.

WASTING DISEASES

127 West 84th St., New York, Aug. 6, 1888.

I have used your Flax-Seed Emulsion Compound in a severe case of Malnutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large. M. H. GILBERT, M.D.

RHEUMATISM

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—168 Yonge St., Toronto.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eod-w

Children Cry for Pitcher's Castoria.

The Canadian Samson.

Louis Cyr, the Hercules of this age, will give an exhibition of his strength in the market hall, on the 27th of May. The programme will include club swinging and other athletic features. In England and the U. S. he was welcomed by ladies and gentlemen. The band will be present and will play a series of selections. Everything will be done to make the evening one of profit and enjoyment. It is for the benefit of local organizations, and should be patronized by all.

A Wedding in Smith.

About sixty guests gathered at the home of Mr. Thos. Young, in the 5th concession of Smith, last night to witness the marriage of his daughter to Mr. Alexander Scott, of the same township. Among those present were a number from town. Rev. Mr. Ewing, of Mount Pleasant performed the ceremony, in which the brother of the bride was groomsman and the sister of the groom bridesmaid. The young couple will live in Smith. The groom is a brother of Dr. Scott, town.

The Minne-Wa-Wa.

The war canoe, Minne-Wa-Wa, built by the Wm English Canoe Company, for a Montreal Canoe Club, was experimentally launched yesterday afternoon, into the raging Otonabee. Seventeen well fed men boarded the craft, and with this weight, the water did not come within a foot of her gunwales. Though she rode the water like a duck, steady and true, the Minne-Wa-Wa, did not stand the test as a war canoe. She succumbed after only three shots. Mr. G.B. Sproule levelled his camera at her and after three shots he captured her—that is, took her, photographically speaking. The Minne-Wa-Wa was shipped to her destination to-day.

SAM SMALL'S PREECH

N.B.—Reserved Seats at W. E. Greatrex's Drugstore.

Is easy, fluent, and rippling with laughter as a mountain brook. Sam is 35 years of age. He was converted under Sam Jones. He is a bright man. His words are words of soberness and truth, and as the picture, with its dark back-ground, but lighted all over with the golden beams of a regenerated heart, and heroic life, was drawn in the presence of 6,000 people one night in Chicago, its intense realism, its vivid contrasts, its shadows, and its glorious lights, held them spell-bound from the first word until long after the echo of the last word had died away amid the arches of the roof of the big Casino Rink."

Sam Small has made a national reputation in six months.

His first and only appearance in Peterborough will be on Wednesday evening, May 27th.

The proceeds of this lecture are for the building of the new school room of Charlotte street church.

The Late Wm. Thomas.

Mr. William Thomas died this morning at the residence of his brother-in-law, Mr. Adam Hall, 300 London street, after a very brief illness. His death will be learned with surprise and regret by his many friends and acquaintances. The first symptoms of illness were observed on Saturday night, and on Sunday Mr. Thomas was unable to leave his bed. He grew gradually worse, and despite the best efforts of the medical men died this forenoon of abdominal inflammation. Deceased was 50 years of age, and has lived for the past fourteen years in Peterborough. He was clerk for some time with Mr. Thos. Bradburn, and subsequently with Mr. Robt. Fair. About a year and a half ago he retired from active business. Mr. Thomas was unmarried, and, though of a retiring disposition and quiet habits, won the esteem and respect of all with whom he met. His sister, Mrs. Hall, is the only surviving member of the family, deceased's brother David having died on the 24th of March last at St. Catherines. The funeral takes place Saturday afternoon at three o'clock. The deep sympathy of everyone will go out to Mrs. Hall, who has been called on to bear the loss of her two brothers within the past two months. She is now the last remaining member of her family, but the sense of loneliness which she must feel in this position will be alleviated by the tender compassion and affectionate remembrance of her many friends and those who are attached to her by nearer and dearer ties.

Women's Foreign Missionary Auxiliary.

The District Convention now in Session—The Convention Organized—To-night's Programme.

The district convention of the Women's Foreign Missionary Auxiliary of the Methodist church, met at the George street Methodist church this morning at 10 o'clock. There were in attendance twenty-three lady workers, and delegates were present—two from the George street church, one from the Charlotte street church, one from Millbrook, one from Lakefield and one from Keene.

The session opened with devotional exercises conducted by Mrs. Jos. Locke, Mrs. (Dr.) Harrison, Keene, presiding at the organ. The business meeting was presided over by Mrs. Kendry, the business consisting chiefly of organizing for the present session, the appointment of officers, etc.

There was a large attendance at the afternoon session.

The evening session will be of a more public character. Rev. W. L Rutledge will give an address on the subject of "Woman's Work," Mrs. Sherin, of Lakefield, will read a paper on mission work, Miss L. Sanderson will give a reading, and vocal music will be provided by the choir.

News Nuggets.

—The Millbrook firemen have a concert to-night.

—The East Durham Rifle Association shoot for the medal on the 25th.

Norwood's team of cricketers will come to Campbellford to match themselves against their eleven on Monday next, 25th inst.

—There is danger in impure blood. There is safety in taking Hood's Sarsaparilla, the great blood purifier. 100 doses one dollar."

—There was a blank at the police court this morning and the nocturnal cops report a very quiet night.

—The town council of Napanee pays a little boy to keep cows off the streets while the wandering creatures are allowed to graze in the outskirts of the corporation.

—A Millbrook correspondent of the *Guide* says:—Mr. and Mrs. George Berry, near Centerville, were visiting with Mr. and Mrs. George Beattie, Cobourg, last week.

—The Citizen's Band, Millbrook, have commenced giving open air concerts on Thursday evenings. It is probable that they will continue doing so during the summer.

—It would seem that the street authorities are getting nearer the mark when they break the stones on the street instead of raking them up and carting them away leaving only the mud.

—An owner is wanted at the police station for a mending bag of white flannel containing several pairs of clean socks and baby's clothing, found on Court House park a week ago last Friday.

—The bicycle club held the first "run" of the season last night. There were about 20 wheels in line, and the route via the Locks and Ashburnham was traversed without accident.

—A George street merchant has a card in his store window which reads, "umbrellas re-covered." We would be deeply grateful if he would recover the umbrella we lost last summer. We would be willing to offset his commission against the price of this "puff." Go to the Golden Lion when you want a parasol or umbrella recovered.

Personal.

Capt. Nicholson, of the steamer Norseman, was in town to-day.

Mr. John F. Orde, of Ottawa, is in town to-day. He has just succeeded in passing his trial examination at law.

Rev. Dr. Dewart, editor of the *Christian Guardian*, Toronto, is in town to-day to attend the funeral of his brother-in-law, the late Lewis P. Lewis of Smith.

Miss Bertha Wright, of Ottawa, the evangelist who received such a rough handling at Hull, Que., will be in Port Hope on Wednesday, June 3rd. She will address a mass meeting especially for children at 4:30 p.m. and also a meeting at 8 o'clock in the opera house.

Beecham's Pills act like magic on a Weak Stomach

Military Memoranda.

Preparing for the Coming Royal Anniversary—Notes of What is Being and What is to be Done—A Grand Military Spectacle on May 24th and 25th.

It is probable that the coming celebration of Her Majesty's birthday will, in the military aspect of its observance, at least, excel anything of its kind that has taken place in town for years. The local military authorities are on the "who goes there?" and are perfecting their part of the programme in the coming festivities. Considering the nature of the display that will be afforded, and the great public interest in it, a few memoranda respecting the incidents of the programme and the preparations for it will be of interest.

There will be a full dress parade of the battalion to-night at the drill shed. Men will wear helmets and leggings.

There will be an Inspection of commanding officers.

The band will be in attendance and will participate in the battalion drill and marching past exercises.

Every volunteer on the duty roster of the Fifty-seventh is expected to be on hand to answer to his name at 7.30 o'clock. This will be the last parade before church parade on Sunday.

General orders respecting the 24th and 25th will be read.

On Sunday the 24th the Fifty-seventh and band will parade in review order at two o'clock p.m. at the drill shed; they will then march to the Hunter bridge where they will meet the Guards when the brigade, which will number about 600, will march to St. John's church where a special service will be conducted by the Rector assisted by the Ven. Archdeacon Lauder Chaplain, of the Guards and Rev. Canon Davidson of Colborne. The united bands will perform the National Anthem on the church grounds immediately before or after the service.

THE DAY ITSELF.

On Monday, May 25th, the Fifty seventh Batallion will parade in review order at the drill shed at 9:30 o'clock, and march to the camp of the Guards at Barnham's Point. The brigade will then perform a route march through the principal streets and return to the camp. The Governor-General's Foot Guards will then troop their colors, and at 12 o'clock the brigade will fire a *feu de joie*. This will be followed by a march past of the brigade. The brigadier on this occasion will be Lt.-Col. J. Z. Rogers, of the Fifty-seventh, who is rapidly becoming, if not at present, the senior officer of city battalions in Canada. Lt.-Col. Todd, who commands the Guards, is the junior Lt.-Col. of the city battalions.

Here it may be mentioned that the Dominion Government in a fit of temporary generosity, or partial justice, towards the Fifty-seventh, has authorized the expenditure of a sum of between three hundred and four hundred dollars for repairs to the drill shed. The officers and non-commissioned officers' rooms are to be fitted up at once, and improvements are to be made to the armories. The roof of the drill shed will take the larger part of the sum available. It will absorb money as fast as it lets rain water through.

THE GUARDS AT OTTAWA.

Information received from Ottawa shows that the Governor-General's Foot Guards are looking ahead to the Peterborough trip with a good deal of pleasurable anticipation, which both the Fifty-seventh and the citizens generally will do their best to make realization. Tuesday night the Guards paraded in Ottawa, and trooped the colors on Parliament Square, went through a few movements, and then returned to the hall, when the full arrangements for the Peterborough trip were made known. It is a co-incidence that almost the same programme was carried out on the same evening by the Fifty-seventh in Peterborough. Both forces are evidently making their best efforts to appear to the best advantage, and our citizens and the public may count on a very interesting series of military displays on the 24th-25th.

Taken altogether the 24th and the 25th of May will be big days in Peterborough.

Read this if You Intend to Insure Your Life.

The following article from the *Insurance Times* of New York, will give our readers some idea of the reputation this well known company has among the leading insurance journals across the border:

"The Canada Life Assurance Company has an enviable reputation, and if it were possible for every life insurance company to reach the same high plane of management life underwriting would cease to have unfriendly critics. This model organization has recently completed the forty-fourth year of its existence. The annual general meeting was held at Hamilton, the company's head office, on April 7th, at which time the statistics for the year 1890 were presented. They showed the usual good progress and the usual good works well performed. The directors in their report devoted some attention to the branch lately opened in Michigan, and also gave some details regarding the handsome building which the company is erecting in Toronto.

"At the beginning of the present year the Canada Life Assurance Company had assets aggregating $11,032,440.09. Without going into particulars it will be safe for the reader of this paragraph to assume that this company is fully able to protect all its obligations. Mr. A. G. Ramsay, occupies the position of President, R. Hills that of Secretary, and W. T. Ramsay is Superintendent. The Canada Life is one of the few companies of whose perpetuity there can be no doubt. Its history is an indication of a highly successful future."

Obituary.

The Late Lewis Palmer Lewis.

The EXAMINER records with regret the death of Mr. L. P. Lewis, who died at his residence, third concession of Smith, on Monday, May 18th, at the age of 72 years. The deceased gentlemen was a native of Wales and came to Canada in 1841. After his arrival in this county he lived the greater part of his time in the township of Dummer, living, however, about 12 years in Peterborough, where he was united in marriage to Miss Mary A. Dewart, sister of Rev. Dr. Dewart, editor of the *Christian Guardian* newspaper. To this union were born a large family of children, of which seven are left, together with a widow, to mourn a kind father's and affectionate husband's death. The deceased gentleman though living the latter years of his life in Smith, passed the most active part of his life in East Peterborough, where he was known as a progressive farmer having been especially interested and successful in stock raising. His record at various agricultural exhibitions would afford evidence of the leading position he held in this branch of farming. He was of modest retiring disposition but of great breadth and depth of character. He was a consistent member of the Methodist church and was held in high respect and esteem. (Two of his sons, the Rev. E. D. and J. G. Lewis, are regularly ordained ministers of communion.)

Two Beautiful Young Girls

Who Will Create a Furore in Newport This Summer.

Newport is to have a sensation this summer.

It is authentically stated that the beautiful and celebrated daughters of Lord Dufferin, Beatrice and Adelaide, are to grace this famous resort with their presence this coming season.

It will be remembered that Beatrice's beautiful dark eyes have played havoc lately with the heart of Albert, the eldest son of the Prince of Wales. What it will amount to is as yet a matter of conjecture in England. The young ladies are acknowledged to be the most beautiful in all Europe, and there will be not a little excitement in the hearts of our American belles over their coming. They are exquisite dressers, and their costumes will be marvels of curiosity. Unlike most ladies, they know exactly what is suited to them. Some time ago they sent for the chief designer of the Paris house of THE NEW YORK AND PARIS YOUNG LADIES' FASHION BAZAR, and selected forty costumes each, the cost of which will amount to thousands of pounds. Through the courtesy of these young ladies we have been permitted to copy for THE NEW YORK AND PARIS YOUNG LADIES' FASHION BAZAR two of their most exquisite costumes, which appear as figures 3 and 4 on the colored plates of the June number of this magazine, just out, and for which the publisher has issued, in the name of the American ladies, a card of thanks. It is rumored that the prince may follow the young ladies to Newport this summer. THE NEW YORK AND PARIS YOUNG LADIES' FASHION BAZAR has the exclusive right to publish each month at least one or more of the costumes in which the ladies Beatrice and Adelaide will appear.

DIED WITHOUT SPEAKING.

Kane's Death Sentence Executed.

The Belleville Wife Slayer, Meets the Penalty of the Law—Radcliffe, Barnabe's Executioner, Does the Job Neatly—Only Three Minutes from Dungeon to Drop—What the Crime was.

(Special Telegram to the Examiner.)

BELLEVILLE, Ont., May 21.—James Kane was this morning executed here for the murder of his wife, Elizabeth. Prisoner took breakfast, eating a good meal and engaged in his last preparations for eternity at 7.45. The executioner entered the prison and within a few minutes completed his preparations. It was not until 8.16 however that the procession for the scaffold left the condemned man's cell. Two minutes later the rope was adjusted and around Kane's neck and at 8 19 the drop fell. The prisoner died without speaking. He was pale and composed but seemed to die hard his groans being painful to hear.

[The circumstances of the crime for which Kane suffered death will be fresh in the minds of our readers. On the 23rd of March last, in an altercation with his wife, he stabbed her with a butcher knife, which he had taken from the Queen's Hotel, where he was an hostler. When arrested, he gloried in his crime, and when sentenced to death he took his fate stolidly, and maintained this demeanour to the last.]

Meeting of Cheesemen.

Their First Business of the Season.

The dairymen of Seymour, reports the Campbellford *Herald*, met in Campbellford on Wednesday last and went through the routine of business. The accounts having been audited and accepted, the election of officers was proceeded with, as follows:—

PRESIDENT—Robert White.
VICE-PRESIDENT—P. Kelleher.
SEC.-TREAS.—John Givns.
AUDITORS — Robt. Rutherford and F. Macoun.

It was moved by F. Macoun and seconded by P. Kelleher, that in regard to the question of the appointment of a government weigher of cheese for the city of Belleville, that this cheese board approve of the scheme and that members of the board be requested to sign the petition for such appointment on condition that all cheese tested by such weigher be tested within twenty-four hours after delivery in Belleville.—Carried.

There were three hundred boxes boarded, of which Mr. Whitton purchased 250 at 9⅜ cents.

ANOTHER MEETING.

At the last meeting of the Board there were 297 boxes boarded, but no sales. The factories represented were as follows:—

	White.	Col'd.
Empire	35	
Stanwood	28	
Valley	20	
Star	22	
Meyersburg	24	
Prince of Wales	28

	272	25

Y. M. C. A. Notes.

At a special meeting of the Reception Committee held last evening, arrangements were made to welcome to our town the employees of the Edison Company. A reception will be tendered them on Tuesday evening, June 9th, when a social time will be held to enable us to get acquainted and make them at home among us. Special musical programme will be rendered by the Y.M.C.A. band and others. The Ladies' Auxiliary will provide refreshments, and every effort will be made to make the meeting pleasant and profitable.

We thank a lady friend for fourteen valuable volumes for our library, which will add much thereto, and make our library more attractive.

Out Goes the Goods.

Prices does it. When we say things are to go, they go. We mean everything we say. Goods at first cost and less, to clear. No wild statements; absolute facts. $9,500 00 to be cleared in thirty days, and they are going—fast. KNOWLES & Co. d70w

Use Your Feet,

To guide you to the store of Gough Bros. the wonderful cheap men where you will find the cheapest, best and most varied stock of boots and shoes for all ages and both sexes. Good as gold and cheap as good advice. dw

The Cash Store Takes.

Our sales are immense.
Customers better satisfied.
They prefer paying cash,
Getting goods at reduced figures.
Call and price everything.

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

Hawking and spitting, foul breath, loss of senses of taste and smell, oppressive headache, etc., are the results of catarrh. Nasal Balm offers a certain and and speedy relief and permanent cures for these miseries. Thousands of testimonials speak of its wonderful merit. Try it; sold by all dealers. 6d116w

The well known strengthening properties of Iron, combined with other tonics and a most perfect nervine, are found in Carter's Iron Pills, which strengthen the nerves and body, and improve the blood and complexion. dw

No Lady's Toilet is Complete

Without a tube of Dyer's Jelly of Cucumber and Roses for making the skin smooth and soft. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 6d116

Miller's Emulsion of Cod Liver Oil is prepared by a new process and will keep in any climate. Be sure and ask your druggist for Miller's Emulsion and take no other. dw

Perfect tranquility prevails throughout Portugal. The industrial situation is improving and the ministerial crisis has not been attended with any public excitement.

A despatch from St. Petersburg says: The Czarowitz's suite is composed of reckless youths, who indulge in boxing and fighting, and conduct likely to lead the Prince into trouble.

Denton & Dodge, dealers in musical instruments, etc., were burned out yesterday at Buffalo. About 50 pianos were destroyed and 100 more or less damaged. Loss estimated at $30,000.

Rev. H. J. Hamilton of Homestead, Pa., a delegate to the Baptist Convention at Cincinnati, was killed yesterday by a falling brick from a building in course of construction.

Col. Taylor, commandant of the Winnipeg School of Infantry, was seized with a fit of apoplexy while on parade yesterday morning and is in a critical condition.

By the premature explosion of a dynamite cartridge which they had intended throwing into the river to raise fish at Hat Portage, yesterday, Michael Morrissey was fatally and W Ogden Hill and Henry Fritz seriously injured.

In an address at Glasgow, Lord Salisbury speaking of the political situation said: "We are justified in believing that the peace of Europe will be maintained though the decisions of great wars are not final and appeals can be made from them. Sometimes these appeals are efforts to reverse such decisions. As every year passes and as the terrible results of war become more evident the danger of an outbreak recedes."

The excitement caused by the expulsion of ex-Queen Natalie from Servia has not subsided at Belgrade. Copies of newspapers denouncing the government have been suppressed and the government has ordered that all trains coming into Servia shall be searched at the frontier, as the government fears Queen Natalie may attempt to return and place herself at the head of her supporters. The garrison of Belgrade is being hurriedly reinforced for fear of possible troubles. Twelve persons wounded Monday have since died.

$500 REWARD OFFERED.

FOR THE RECOVERY OF THE BODY OF MR. PURCELL.

Meantime a Vigorous Search is Being Made for the Corpse—A Weird Scene Along the Islands of the St. Lawrence—Craig Not Yet Caught.

CORNWALL, May 21.—John James Craig, one of the supposed murderers of Contractor Purcell's remains, is still at large, though the officers pretend to know of his whereabouts. It is generally supposed that he is hiding in some friend's house, and as he is known to be well armed a peaceable surrender is out of the question. An attempt is being made to-night to capture him.

The evidence against the men is purely circumstantial. A farmer named Murchison is prepared to swear that Craig drove down with him from Cornwall on Thursday evening, and when reaching a clump of trees not far from the graveyard got off the wagon on the pretence of going to visit his cousin, he one whose horse he shot about a year ago. He did not show up at the latter's house, however, that evening, and early the next morning was seen by several people running away from the direction of the cemetery through the fields behind the farm, as if he did not want to be seen. Both men were seen in a boat near the cemetery several times previous to the night on which the robbery took place, and Derouche was out all the night in question. A young farmer named Tighe states that he did not go to his work till about 8 o'clock that morning, which for him was very late. As to the third man who was under suspicion a thorough investigation into the evidence, which certain people claimed was conclusive of his guilt, convinced the detectives he had nothing to do whatever with the work. It is understood, however, that Craig and Derouchie are not the only ones implicated in the affair, and new developments may be expected, several people being under surveillance. In the meantime the search for the body has not by any means been abandoned and last night men explored all the shoal waters near Stanley.

The search among the islands for the body last night was an event of unusual interest. Boats were provided with flaming pine torches. One boat was in charge of Barnard, the Indian pilot, who stood, spear in hand, watching in the bow for anything dead or alive that might be worth picking up, another man in the rear doing the paddling and steering. It was a pretty sight, the light of the pine torches composed of a kind of small wire basket, in which the pieces of pine are lit, shining far over the water. Though the storm had made the river very muddy, they were able to look down a distance of at least 10 feet into the water. The tour made was a lengthy one, but nothing to denote the missing corpse or the place where it might be concealed was found, and the only things brought back were a couple of big fish.

Craig is closely connected with many very excellent families in the county, whom he has disgraced by being sent to the penitentiary.

Craig came to the "Branch" on Sunday last and is armed with a rifle and two revolvers. He is a daring and nervy fellow and will in all probability make a desperate fight before he is taken. The place where he is known to be is a thick swamp, and on account of the large amount of underbrush he could keep in hiding until the frost drove him out, as he could easily enter the cellars at night and secure rations enough to keep him for some time.

Posters have been issued by the executors of the estate offering $500 reward for the recovery of the body within ten days.

DIED.

THOMAS—In Peterborough, on Thursday, May 21st, 1891, Mr. William Thomas aged 50 years.

Funeral from the residence of Mr. A Hall, 306 London street, Saturday afternoon at three o'clock to Little Lake Cemetery.

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla. It had cured his wife of dyspepsia. I did so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

Intense Suffering 8 Years

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

On Fire with Eczema

Terrible Sufferings of Little Baby—Seven Doctors and Two Hospitals Fail—Cured by Cuticura.

My baby boy, 5 months old, broke out with eczema. The itching and burning were intense the greater part of the time. He would scratch his head, until he was nearly covered with scratches and sores pitiable to behold; he had no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $3 per week for medicines, and was entirely discouraged. I purchased CUTICURA REMEDIES, and before the directions in the latter. Relief was immediate, his sufferings were ceased, and rest and sleep permitted. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and as nice hair as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON,
86 W. Brookline street, Boston.

Cuticura Remedies.

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of eczema and psoriasis, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

THE FIGHT WAS A FIZZLE.

They Fought 61 Rounds Without any Result.

Corbett and Jackson, the Heavyweight Prize Fighters, Battle at San Francisco —They Were Afraid of Each Other—"No Contest" Declared by the Referee and all Wagers and Stakes off.

SAN FRANCISCO, May 21.—No pugilistic event ever occurred on the Pacific coast that created more interest or excitement than the great heavyweight battle between Jim Corbett of San Francisco, and Peter Jackson of Australia, which was fought at the gymnasium of the California Athletic Club tonight. The purse was $10,000, $4,500 of which went to the loser. Jackson was a favorite in the betting during the week before the fight, the odds ranging from 6 to 10 to 8 to 10. A large amount of money was wagered on the Coast during the last two days. The California Club appointed Hiram Cook referee. Jackson was seconded by Sam Fitzpatrick and Billy Smith. Corbett's seconds were John Donaldson, Billy Delaney and Harry Corbett. The flooring within the ring was covered with padding, over which heavy dark colored felt was stretched. A new feature at this contest was the 10 second clock, which was called into use whenever a knock-down occurred. Every one of the 1200 seats was occupied, and in the street outside the crowd was almost as great.

It was some minutes after 9 o'clock when Jackson and Corbett, with their seconds, entered the ring. Both principles were received with cheering.

The weights as far as could be obtained were Jackson 197, Corbett 185. After the gloves were adjusted the men advanced and shook hands. Time was called for the first round at 9.30.

During the first dozen rounds the men fought at close quarters, neither landing any heavy blows. Jackson repeatedly assumed the aggressive, but Corbett cleverly dodged every time. In the eighth round Corbett landed the first hard blow on Jackson's ear. In the ninth Jackson landed on Corbett's chin, followed up with a hard rap on Corbett's wind. In the tenth round Jackson struck Corbett a terrific blow on the neck. For the succeeding four or five rounds Corbett fought for Jackson's stomach, but the latter warded him off, although Corbett landed twice on his adversary's dumping depot and jumped away from a swift drive at his jaw. In the 16th Corbett caught his man heavily on the jaw twice, which elicited great applause.

In the 17th round Jackson repeatedly struck Corbett. Corbett had the best of the 20th round, giving Jackson several hard right and lefts in the jaw.

From the 20th to the 28th the rounds were tame, but in the 29th Corbett forced the fighting amidst cheering and landed repeatedly, staggering Jackson. Jackson rallied in the 32nd round and took the aggressive. The next four rounds were tame, the contestants trying to gain wind.

31st round.—Corbett was still forcing, though he made no very vigorous attacks, both men being too tired to do much.

32nd round.—Jackson rallied and took the aggressive in this round, though he did little beyond giving Corbett a sharp rap in the side.

33rd round.—Both men acting cautiously.

34th round.—Both still cautious and trying to gain strength. Spectators becoming impatient.

35th, 36, 37 and 38th rounds.—Both men acting carefully and to recover wind. No advantage to either in these rounds. Corbett appears a trifle the fresher of the two up to the forty eighth round. There was little hard fighting in that round, both men punched vigorously and each landed hard. The round was not decisive, however.

The fight has continued up to the 57th round, both men giving and taking punishment. It now seems to have developed into a contest of endurance, both fighting wearily, neither anxious to force the fighting. Jackson is evidently the fresher of the two, but is manifestly afraid of his hard hitting opponent. The crowd is becoming sleepy and impatient. Spectators are calling, "Finish," "Peter, do him." Just before time was called for the 60th round, the referee called the men up and told them if they wanted the money hung up they must fight for it. In the 60th neither showed inclination to accept this offer. The 61st round produced no result, and it is likely now the fight will be declared a draw.

At the end of 61st round Referee Cook obtained the men were unable to fight any longer and decided fight "No contest."

Do You Cough?

Don't delay. Take Kemp's Balsam, the best cough cure. It will cure coughs and colds. It will cure sore throat, or a tickling in the throat. It will cure pains in the chest. It will cure influenza and bronchitis and all diseases pertaining to the lungs, because it is a pure balsam. Hold it to the light and see how clear and thick it is. You see the excellent effect after taking the first dose. Large bottles 50c and $1. dw

The Dear Boys.

For children's clothing, there is nothing so cheap, except their skins, as the new, spicy and stylish suits to be found at Gough Bros. Their special line of confirmation suits will be found the finest ever put on sale, and the cheapest ever offered. Call and see. wd

Hawking and spitting, foul breath, loss of senses of taste and smell, oppressive headache, etc., are the results of catarrh. Nasal Balm offers a certain and sad speedy relief and permanent cures for these miseries. Thousands of testimonials speak of its wonderful merit. Try it; sold by all dealers. 6d116w

The well known strengthening properties of Iron, combined with other tonics and a most perfect nervine, are found in Carter's Iron Pills, which strengthen the nerves and body, and improve the blood and complexion. dw

No Lady's Toilet is Complete

Without a tube of Dyer's Jelly of Cucumber and Roses for making the skin smooth and soft. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 6d116

A POLISH CENTENNIAL.

REMINISCENCES OF THE POLISH PATRIOT KOSCIUSZKO.

His Skill and Bravery in Defending the Constitution Adopted May 3, 1791—The American Celebration of the 100th Anniversary of Its Adoption.

There is nothing in history more pathetic than the record of the brave deeds done for Poland by her patriot sons in the dim and almost forgotten past, and when it became known that her scattered children on this continent would unite in celebrating the hundredth anniversary of the adoption of the constitution on May 3, 1791, a thrill of pleasure-pain coursed through all freedom-loving veins. The event celebrated was the last great effort of a number of noble patriots, who were trying to stay the downfall of their country. In 1787 a remarkable Diet was convened which lasted for four years, and the constitution was the result of the deliberations of that body. The effort was made too late to be effective, and every schoolboy knows that "Freedom shrieked when Kosciuszko fell." That patriot made heroic efforts in behalf of his country. At the battle of Dubienka (July 17, 1792), with 4,000 men he kept 15,000 Russians at bay, and finally retreated without great loss. After the second partition of Poland, after a short retirement, a rising of Poles was secretly planned, and Kosciuszko was elected dictator and generalin-chief. Suddenly he appeared at Cracow, March 24, 1794, and issued a manifesto against the Russians. At Raclawice, April 4, 1794, he, with 5,000 men, routed a Russian force doubly strong, and returned in triumph to Cracow. Prussia joined forces with the Rus-

KOSCIUSZKO.

sians, and at Maciejowice (Oct. 10) the 60,000 allied troops defeated the patriot army of 13,000 Kosciuszko falling covered with wounds. He was captured and conveyed to a prison in St. Petersburg, where he was rigorously confined during the two years of life which remained to Catharine. The emperor Paul gave him liberty, and on releasing him the Czar presented him with his own sword, but, said Kosciuszko, "I have no need of a sword; I have no country to defend." As soon as he crossed the border, he sent back to the Czar the patent of his pension and every testimonial of Russian favor. When the allied army against the great Napoleon approached Paris in 1814, Kosciuszko made his last appearance in connection with military glory, and who shall say that the accident was not the greatest of his life. He observed on this occasion some Polish regiments committing acts of pillage. Rushing forward, he upbraided the officers for their conduct. "Who is he who dares to speak this?" they exclaimed. "I am Kosciuszko," he replied. The effect upon the soldiers was electric. Throwing down their arms they prostrated themselves at his feet, and supplicated his pardon. He fell from his horse, and died from his injuries at Solothurn, Switzerland, October 15, 1817.

He Couldn't Fool the Baby.

"No, I can't stay any longer," he said with determination.

"What difference does an hour or so make now?" asked a member of the party. "Your wife will be in bed and asleep, and if she wakes up she won't know what time it is."

"Quite right. Quite right," he returned, "I can fool my wife most any time as long as I get home before breakfast. Why, I've gone home when the sun was up, kept the blinds shut, lit the gas, and made her think that it was only a little after 12.

"But gentlemen, I can't fool the baby. I can make the room as dark as I please, but it won't make the baby sleep a minute later than usual, and when she wakes up hungry it comes pretty close to being morning and my wife knows it.

"Gentlemen," he added as he hoisted himself out, "I make it a rule to get home before the baby wakes. It's the only safe way."

Blew a Knife Blade From His Nose.

George Maulden, who lives in Reynoldstown, has been for sixteen or seventeen years afflicted with a terrible cough and what was believed to be catarrh. While bathing his face yesterday morning he blew out of his left nostril a piece of knife blade about an inch long. It looked like a piece of bone. When the outer covering was removed, however, it proved to be a piece of a steel knife blade. When but a boy of ten years a negro boy stabbed him in the left cheek, in a boyish scrimmage. He did not know that a portion of the blade was left in his cheek.—Atlanta Constitution.

A Thing to be Avoided.

Women who sit with their legs crossed to sew or read, or to hold the baby, are not aware that they are inviting serious physical ailments, but it is true nevertheless, for the entire weight of one limb rests on the upper part of the other, and this pressure upon the sensitive nerves and chords, if indulged in for a continued length of time, as is often done by ladies who sew or embroider, will produce disease.

Sciatica, neuralgia, and other serious troubles frequently result from this simple cause.

A Bubble Reputation.

Snodgrass—Do you know, sir, that man tried to steal my reputation?

Snively—He can't have known you very well.

THEIR SHOP-LIKE HOME.

A FACTORY IN WHICH NEW JERSEY GIRLS FIND JOY IN WORK.

How This Newark Firm Provides for the Comfort of Its Employees—Almost Without Restraint, and Yet the System Works Like a Charm.

The nearest approach to the Dressmaking Association that Walter Besant, in fancy, established in Stepney Green, one of the darkest spots in the east end of London, has been realized by Messrs. Ferris Bros. in their new factory in Newark. The novelist was careful to label his industrial scheme "An Impossible Story," which may account for some of the differences between the ideal and the actual. "In All Sorts and Conditions of Men" there was a Miss Messenger, who unfortunately is not connected with any labor organization in Newark or elsewhere. But for all that the Ferris Bros.' factory is the most remarkable institution in the industrial world. Nothing like it has ever existed in this or any other country. There are 350 employees in the factory, 300 of whom are young women, and they are treated not only like human beings but like civilized people.

There are bath-tubs in the factory, with an abundance of hot and cold water, linen towels and toilet soap.

Did any one ever hear of such luxuries in a factory of any sort?

In the girls' bathroom there are rugs under foot, the finishing is done in oak, the trimmings are nickel-plated, the sanitary arrangements are perfect and everything is as bright and clean as it is possible to make it. Each employee is allowed thirty minutes for a bath, and if one is so fastidious as to need three quarters of an hour no comments are made.

The "Model Factory," as it is called in trade, was erected about a year ago. The building is a four-story red-brick structure, located in Shipman street, and to all outward appearances is more suggestive of a nunnery than a factory. There are white curtains on every window in the house, and the only approach to a sign is a small silver door-plate simply inscribed with the name of the firm.

The structure is commodious and convenient, substantially built, and heated, lighted and ventilated throughout according to the most approved system. The stairways are in the annex separated from the main building by brick walls, so that in case of a fire this exit would be safe. The walls throughout the building are of brick, painted white or terra cotta. The cellar is attractive in its completeness, from the steam engine that operates the machinery of the building to the culinary department, where those who desire can purchase a noonday lunch at actual cost of material.

The cook in charge of the kitchen devotes her entire time to the work. Every day tea with milk and sugar and crackers, is supplied by the firm free of charge; oaten meal is furnished three days in the week at the same rate, and every other day soup is served at three cents a bowl. The entire floor is carefully cemented; it is light, warm and clean, and there are tables and benches for those who lunch in the building. An hour is allowed at noon, and, while all are expected to be on hand promptly at 1 o'clock, the girls living at a distance from the factory are permitted to leave before 12 o'clock.

On the main floor goods are stored in the centre of the room, the remaining space being reserved for the pleasure and convenience of the force. It has an open timber roof, the walls are a warm terra cotta, the floor is laid in hardwood, and with a little waxing would tempt the sole of a Ward McAllister.

At one end of this spacious floor there is an improvised music-room, with a piano and window garden, where the girls sing, dance and sun themselves every noon. Opposite is an inclosed sanctum, divided into a reading and reception room. Bright, soft rugs are scattered about; there are tufted tete-a-tete and willow rockers for visitors, and school seats encircle the reading table, which is as well stocked with current literature as a club man's library table. While not intended for circulation, the papers and periodicals are reserved for the exclusive use of the girls. An open fireplace is one of the attractive features of the reception-room, and there is a mantel mirror, too—that means of grace so dear to the sex.

Along the landings of the stairway there are umbrella stands, which are filled with umbrellas by the firm when the weather is bad or threatening. As the girls leave the building they are at liberty to help themselves. It must be said to the credit of these girls that not one umbrella has ever been lost, stolen or permanently borrowed. The two upper floors contain the work tables and machines. On entering these work-rooms one is struck by the neatness of the place. Everything seems to have a white lining—packing boxes, sack baskets, stock hampers and even machine drawers. The atmosphere is not only clean but fresh and sweet; there are no rags, no dust, no fluff, no smell of dripping grease from overhanging machinery. A special staff of men is constantly employed to look after the premises, and their vigilance is such as to anticipate the wear and tear. The abundance of light and sunshine would astonish and delight not only business people, but School Commissioners as well. Each workshop is the size of an entire floor, so that the light is admitted from four sides of the building, the windows almost adjoining one another. The white curtains which soften the life give the place a homelike appearance which is very pleasing. Another charm is the love of flowers. There are potted plants on every floor belonging to the girls and bachelor manager, and they are as green and lovely as if nourished by a practical florist.

So far as can be learned, there are no rules and regulations for the government of the help, no fines are imposed, and the tardy or absentees are neither docked nor "docked." Nearly all the work is done on the piece plan, and if a girl is ill or indisposed she is at liberty to quit work for a rest or leave the building.

The hours of labor are from 7:30 a. m. to 5:45 p. m., with an hour at noon for rest. Every week the factory closes at 4 o'clock Saturday afternoons, and during the Summer months at noontime.

Friday is pay-day, and indirectly much good results from this system. Not only does it give the dressmaking families the benefit of the Saturday markets, but in a great measure does away with the corner-lot-book, and best of all is instrumental in keeping the girls off the streets Saturday night.

No charges are imposed upon the operators. They do not have to buy thread, pay machine rent or replace broken needles. If an attachment is misplaced it is restored by the firm, and even the girls' scissors are kept sharpened at the expense of capital. Hot and cold water, mirrors, towels and soap are among some conveniences. Posted over each of the sanitary wash-basins is this request:

"In order that your forethought to keep things clean and nice. Any attention will oblige.

FERRIS BROS.

At 10 o'clock in the morning and again at 3 in the afternoon a basket of crackers is passed round "for a bite to tide till meal time."

Care is taken in the selection of help, and the girl who applies for work must be able to read and write, be at least fourteen years of age and furnish satisfactory references. Beginners are placed in charge of competent instructors and are taught all branches of the work before being admitted to the operating room. The work is so systematized and the training is so thorough that the tyrannical forewoman and domineering foreman has no place in the establishment. Each girl has a number by which her work identifies her and if mistakes are the result of carelessness the operator must correct them. The manager is the only boss to whom the hands are accountable.

Adjoining the factory is a very pretty garden containing a small but by no means insignificant pear orchard, arbors and seats, where the girls lunch al fresco in season. Fruit from these factory trees last year won the county fair blue ribbon. Women, as a class, show the effects of good keeping, and these workers are not an exception. There are a great many pretty faces among the three hundred, and not one that betrayed "boss-fright" or time-terror. As a class they looked more like Normal College students than factory hands. Compared with the overworked, round-shouldered, nerve-strained, sallow-faced girls in the New York factories, these trim, tidy-looking, cheerful and contented little Jersey women are the very noblesse of the industrial world. Not only are they better dressed and better treated, but they look better fed and better kept than their Manhattan sisters. The girls are fairly intelligent although somewhat cranky upon the terms "lady" and "gentleman," and among their number there are several amateur musicians.

There were seventeen resignations "on account of marriage" last year, which argues the charm of the maids and the appreciation of the men in Newark.

The reception given by the firm last month for the entertainment of the girls and their friends was such a pronounced success that in all probability it will be made a semi-annual institution. Each operator had one card which admitted bearer and friend. Some of the friends were other girls, some were little brothers, a few were somebody else's brothers, and the great majority were delighted parents who looked the admiration and satisfaction they could not express in words. There were music and literary selections and a programme of ten dances.

Aside from the beauty of philanthropy the enterprise has been entirely satisfactory from a commercial standpoint, the firm agreeing that not only have their employees done more, but better work than ever before. The outlay has not been large and the results are certainly most gratifying.

A few more organizations of this sort would not only prove that the theory cherished by Walter Besant is not impossible but break down the barrier that separates capital and labor. This kind ministration to the creature comforts of the bread winners and a gentle consideration of the money makers will do more for the solution of the labor problem than an army of knights or an era of strikes and lockouts.—Nell Nelson in New York World.

A Lost River.

The Southern Pacific Railroad Company has lost a river, and in consequence has a bridge whose occupation is gone.

The Whitewater River has flowed from the Sierre Madre Mountains across the sands of the region just this side of Seven Palms as long as any one can remember. The station of Whitewater was located where the river crosses the railway and was supplied with water from its current.

During the last heavy rains the Whitewater rose in force and devastated the whole country round about, washing out the bridge and the roadbed and playing the mischief generally. Soon the rains and the river stopped simultaneously, and the river has not been found since. It appeared to become ashamed of itself for doing so much harm, and has apparently slung away in disgust and sorrow. It is entirely gone. At no point does it cross the railroad, as it would have to do were it still in existence in some new course. The railroad company, in order to secure water for its station at Whitewater, has been obliged to build a pipe line way up to the mountains at considerable expense.

All last summer, during the hottest, driest weather, the river ran placidly along—in fact, it has never failed until after its "jag" of this winter. Now it forms one of the mysteries of that mysterious region, the Colorado River desert, and perhaps is flowing by the Pegleg mine, and possibly rippling beside the treasure-laden Spanish galleon, which lies somewhere in that region, buried in sand.—Los Angeles Herald.

A Knowing Dog.

Here is a true story of a Vermont sheep-dog which Scotchmen will find it hard to match: Capt. C——, of Bradford, Vt., has a shepherd dog which was accustomed to bring home the cows at night, always separating them from the other cattle, and never allowing any but milch cows to come up. One day Capt. C—— accompanied the dog in driving the cows to pasture. At one place he was surprised to see the dog desert the herd and take to the woods by the side of the road. The captain went on with the cattle, which were walking briskly in advance. Within a quarter of a mile they came to a break in the fence, of which the captain had no knowledge, leading into a field; and there, in the gap of the fence, sat the dog in a matter-of-fact way, guarding it against the entrance of the cattle. What else could his master suppose than that the dog was aware of the gap in the fence, and knowing that the man would bring up the cattle, made a detour through the woods to the place, to prevent the cattle from going into the field?—Boston Transcript.

A Specific for Hiccough.

Dr. Henry Tucker recommends in the Southern Medical Record, the use of the following very simple remedy in the treatment of hiccough, namely: "Moisten granulated sugar with good vinegar. Of this give to an infant from a few grains to a teaspoonful. The effect, he says is almost instantaneous, and the dose seldom needs to be repeated. He has used it for all ages—from infants of a few months old to those on the downhill side of life, and has never been known to fail. The remedy is certainly a very simple one, and although no theory is advanced to account for its wonderful action, it merits trial.

The Domestic Doctor.

For nose bleeding bathe the face and neck with cold water.

A gargle of salt and water used before retiring at night will strengthen the throat and keep off bronchial attacks.

If the throat is inflamed and there are no white spots to be seen, use the following: One ounce each of chloride of potass, borax and sugar. Dissolve one-third of this in one quart of water and gargle the throat frequently.

Barnum's Kindness of Heart.

Once in New Haven a little boy whose father was a friend of Barnum was too sick to go to the show, so Mr. Barnum had the parade pass the house and then sent two performing elephants around to do their tricks in the front yard for the little fellow's benefit.—Chicago News.

Eugenie's Limited Education.

The Empress Eugenie, though naturally intelligent, was in some respects extremely ignorant. Educated as were the high-born young Spanish girls of her generation—that is to say, not educated at all—she was forced all through her palmy days to struggle against this great disadvantage. She never could learn the art of spelling, and all her private notes and letters were thickly peppered with faults of orthography. She ascended the throne at the age of twenty-six—a period in life rather late for the commencement of one's education. But to her credit be it said, she did her best, by incessant reading, to supplement the defects in her early mental training. She spoke English to perfection, and the Emperor and she were wont to converse in that language when they did not want their attendants to know what they were talking about. She was an elegant and fearless horsewoman, and her skill in equitation was among the first of her accomplishments that attracted the notice of Napoleon III., himself an accomplished rider. But her principal talent was for art, and she drew in crayon exceedingly well.—Cor. of Philadelphia Telegraph.

Good for Gas Globes.

The gas globes often have a dusty, smoky look, even after washing in the ordinary way, but if soaked in hot soda and water and then plunged into ammonia and hot water and scrubbed with a stiff brush, they look like new again and only require rinsing and wiping dry with a soft cloth. The chimneys used for kerosene lamps can be best cleaned by holding them over the steam from a kettle, drying with a soft rag and then polishing them with old newspaper.

Pearl's Mother.

Bowles—I must introduce you to Pearl Jingleby; you'll find her charming.

Knowles—I know her mother. I don't like mother of Pearl.

Don't Feel Well.

And yet you are not sick enough to consult a doctor, or you refrain from so doing for fear you will alarm yourself and friends—we will tell you just what you need. It is Hood's Sarsaparilla, which will lift you out of that uncertain, uncomfortable, dangerous condition, into a state of good health, confidence and cheerfulness. You've no idea how potent this peerless medicine is in cases like yours.

Children Cry for Pitcher's Castoria.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355.92
Increase over previous year	3,421,372 84
New Applications received in 1890	6,371,599 15
Increase over 1889	2,268,888 60
Cash income for year ending 31st December, 1890	889,078 87
Increase over 1889	325,938 35
Assets at 31st December, 1890	2,473,514 19
Increase over 1889	687,691 47
Reserve for Security for Policy-Holders	2,109,222 68
Increase over 1889	567,732 71
Surplus over all Liabilities and Capital Stock	232,175.69
Increase over 1889	75,649 05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS so calculated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)		$64 824 07
" " " "	1886, "	89,452 97
" " " "	1890, (four years)	232,175 69

FRIDAY, MAY 22, 1891.

The First Division

The Government Majority About 37.

The long-talked of and much looked for first division in the Dominion Parliament took place on Wednesday night. There has been so much speculation over the result, and so many estimates made, and so many wagers laid, that more minute particulars will be of interest to readers of the EXAMINER The following, from the *Mail*, may be considered a pretty fair estimate of the situation from an assumed independent standpoint. The vote was yes or nay to the six months' hoist amendment of Mr. M. C. Cameron's motion to repeal the Franchise Act, and is what is styled a straight party vote :

When the debate closed and the division was called, much excitement prevailed. The whips abstened through the lobbies to gather in their party men from the utmost recesses of the House. In the chamber the usual call for songs were made, but the members were in little humour for music. The thought of treason, to say nothing of stratagems and spoils, too fully occupied their minds. It was a very full House while the division was being taken, but the two leaders, Sir John Macdonald and Mr. Laurier were absent, the one being too tired and the other too recently recovered from his illness to brave the night air. Both, however, were in their seats this afternoon, Mr. Laurier for the purpose of cheering his supporters and of presenting a petition from a Methodist church in favor either of prohibition or Sunday observance. The other absentees will be found in the list of pairs, which is given hereafter. There were two divisions taken. The first was upon the six months' hoist and the second upon the motion as amended. *It is not usual to call for* a division upon the second question, but the importance of the vote and the circumstance that Mr. Robillard, a Ministerialist, had not been able to record his vote, owing to his absence from the chamber when the question was put, rendered this necessary this time. While the members who are understood to be doubtful were declaring themselves, the interest was very marked. For example, no one knew how Mr. Tarte would vote, and there was some doubt touching the position of both Mr. Joncas and Mr. Vaillancourt. Mr. Tarte is apparently out with the Government, owing to the McGreevy difficulty, but he registered his vote with the Ministerialists amid cheers. Mr. Joncas was elected by acclamation, and the Liberals claimed some months ago that he was pledged to them to support the Opposition. He, however, also voted for the Government. Mr. Vaillancourt, it will be remembered, prepared some months ago a non-committal manifesto, and both parties claimed him. He went with the Liberals. Mr. Savard, from Colonization, another doubtful man, left the House when the division was called. The first report of the vote made the standing of parties 110 to 85, but two members sitting in the back benches, Mr. Hodgins, of Carleton, and Mr. Gillies, of Richmond, N. S., failed to rise at the proper time and were missed. A wordy dispute arose as to whether they were in the House and were entitled to be counted. The Ministerialists vehemently maintained that they were, while Messrs. Landerkin, Trow, and Lister disputed the point. Finally the Speaker put the question to them directly, "Did you hear the question put?" Affirmative replies enabled them to vote, and they were recorded with the Government supporters. Mr. Robillard, of Ottawa, came into the House just as the question was put on the Government side. The addition of his name to the list would have been acceptable, but as he did not hear the question he was ruled out. This it was that precipitated the second division. With Messrs. Gilles and Hodgins added, the result was, Ministerial, 112; Opposition, 85; Ministerial majority, 27. This is the official return of the first vote of this Parliament. Immediately that it was made the Ministerialists break out into loud cheers, which were followed by jeers from the Opposition, and by a vain demand that the names of Messrs. Hodgins and Gillies be struck out. In the midst of the confusion Mr. Lister rose excitedly from his seat and declared with much vehemence that a majority of 27 was considerable of a come down for the Government.

ANALYSIS OF THE VOTE.

An analysis of this vote gives the following result :—

	Min.	Opp.	Min. Maj.	Opp. Maj.
Ontario	43	42	1	..
Quebec	26	31	..	5
New Brunswick	12	3	9	..
Nova Scotia	16	4	12	..
Prince Edward Island	2	4	..	2
Manitoba	4	1	3	..
N. W. T.	4	..	4	..
British Columbia	5	..	5	..
	112	85		

Ministerial majority, 27.

The pairs—for after all, pairs were given, though not with the liberality usual under such circumstance—were as follows :—

Ministerialists.	*Opposition.*
Sir John Macdonald,	Laurier,
Sir Donald Smith,	Mackenzie,
Corbould,	Casey,
Kenny,	Livingstone,
Ferguson (Leeds),	Borden,
Grandbois,	Scriver.

There were two other absentees, namely, Mr. Langelier, Opposition, and Mr. Savard, of Chicoutimi, who bolted from the Chamber and are not yet subject to classification.

In consequence of the absence of Mr. Robillard from the division, the question from the chair, "Shall the motion as amended be now carried?" was met by a furious demand on the part of the Ministerialists from all sides of the House for another vote. The members were thereupon promptly called in. During the usual quarter of an hour interval the Conservative whips hastened across to the back bench members who had failed to record their votes on the first division, and had given all the trouble, to instruct them in their duties. The result was that when the second division was being taken Messrs. Gillies and Hodgins were bobbing up feverishly until their names were called. These members, it should be explained, are quite new to Parliamentary procedure. The second division was taken. Mr. Robillard was recorded as was designed, but the list left out Mr. German, of Welland, who did not happen to squeeze into the chamber in time. It would also have ruled out two French Opposition members who came in just after the question had been put had not Mr. Landerkin hit upon the happy expedient of demanding that the question be repeated in the French language. The result of the vote was 113 for the Government and 84 for the Opposition, giving the Ministry a majority of 29. There is a difference of two between the first and second divisions, produced by the absence of Mr. German, Oppositionist, and the presence of Mr. Robillard Ministerialist.

DECIDING BETS.

Many bets hang upon the result of the first division. It is a question seriously debated here whether the first or the second figure recorded is the division which should decide. It is argued on one hand that the first division was really the first, but on the other hand it is contended that the second was really the vote which settled the question at issue and that it should therefore govern, but a very good authority declares that the terms in which the bet was made should rule. If the bet meant the exact strength of the Government neither vote showed that; whereas if the first vote was plainly indicated, the first vote was necessarily that which was first taken. To reach the exact strength of the Government in the present House the absentees from to-night's division have to be considered. These were the gentlemen who paired, the Speaker, Mr. MacDonnell, the new member for Algoma, Mr. Langelier and Mr. Savard. The figures, including all but Mr. Savard and the vacant seats, as for example Sir Hector Langevin's second seat, are :—

	Ministerial.	*Opposition.*
Ontario	48	46
Quebec	28	33
New Brunswick	13	3
Nova Scotia	17	5
Prince Edward	2	4
Manitoba	4	1
N.W.Territories	4	0
British Columbia	6	0
	121	92

This gives the Government a majority of 29, with Mr. Savard to hear from. It may be interesting in this connection to look back to the position in last Parliament. The first real test divisions in the first session of the last Parliament were the divisions in May, 1887, on the resolution respecting Mr. Baird's right to sit in Parliament and on the resolution for the appointment of a Deputy Speaker. In the first the Government had 109, the Opposition 77, several Conservatives, notably Mr. Patterson, of Essex, having bolted, leaving the Government majority on the first showing at 32. On the second, which was on straight party lines, the Government majority was 43, the vote being 109 to 66. There were, however, many absentees. At the end of the Parliament the Ministerial majority ranged from 42 to 45.

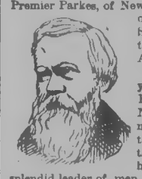
TWO NATION-BUILDERS.

Rhodes, of South Africa, and Parkes, of Australia.

According to the Review of Reviews, Hon. Cecil J. Rhodes, of Cape Colony, and Sir Henry Parkes, of New South Wales, are two men who have won lasting fame as nation-builders.

"Mr. Rhodes," says the Review of Reviews, "has the face of a Cæsar, the ambition of a Loyola, and the wealth of a Croesus. He is the *Diamond King*, the Cape Premier, the President of the Chartered Company, which has added the land of Ophir to the British Empire, and he is only 38 years old. Is it, then, surprising that he should be generally recognized by those who have eyes to see as the coming man?"

PREMIER PARKES.



Premier Parkes, of New South Wales, was once a toy-maker at Sydney. Now he is the greatest man in Australia.

For upward of fifty years Sir Henry Parkes has been a New South Welshman, and for half that time he has been the dominant man in his colony. He is a splendid leader of men, reveling in Parliamentary warfare and the heat of debate, but does not shine in departmental administration

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. dw

It Does Its Work.

Mrs. James Dix, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

Everybody Likes It.

Wm. Dredge, Eilen street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised. Sold by all druggists. dw

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure blood, removing all foul humors, from a common pimple to the worst scrofulous sore. 2w20d

Would not be Without It.

Dyer's Jelly of Cucumber and Roses for chapped hands and for making the skin smooth and soft. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 52116

W. A. Greatrex, Druggist, has for sale the Royal Rheumatic Remedy. It is no new formula, having been before the public for 12 years and effected wonderful cures. Write R. R. R. Co. for testimonials. dw

Will be found an excellent remedy for sick headache Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

THE RED COLOR of the blood is caused by the Iron it contains. Supply the iron when lacking by using Milburn's Beef, Iron and Wine. dw

"MANY MEN, MANY MINDS," but all men and all minds agree as to the merits of Burdock Pills, small and sugar-coated. dw

People Wonder

WHEN they find how rapidly health is restored by taking Ayer's Sarsaparilla. The reason is that this preparation contains only the purest and most powerful alteratives and tonics. To thousands yearly it proves a veritable elixir of life.

Mrs. Jos. Lake, Brockway Centre, Mich., writes: "Liver complaint and indigestion made my life a burden and came near ending my existence. For more than four years I suffered untold agony. I was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digested at all. Within the time mentioned several physicians treated me without giving relief. Nothing that I took seemed to do any permanent good until I began the use of Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I could see an

Improvement

in my condition, my appetite began to return and with it came the ability to digest all the food taken, my strength improved each day, and after a few months of faithful attention to your directions, I found myself a well woman, able to attend to all household duties. The medicine has given me a new lease of life, and I cannot thank you too much."

"We, the undersigned, citizens of Brockway Centre, Mich., hereby certify that the above statement, made by Mrs. Lake, is true in every particular and entitled to full credence."—O. P. Chamberlain, G. W. Waring, C. A. Wells, Druggist.

"My brother, in England, was, for a long time, unable to attend to his occupation, by reason of sores on his foot. I sent him Ayer's Almanac and the testimonials it contained induced him to try Ayer's Sarsaparilla. After using it a little while, he was cured, and is now a well man, working in a sugar mill at Brisbane, Queensland, Australia."—A. Attewell, Sharbot Lake, Ontario.

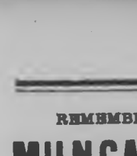
391 GEORGE STREET.

PARNELL'S ENVOYS.

They Arrive in New York and are Greeted by Irish Nationalists.

The steamship Etruria, having on board the Irish members of Parliament who are to represent the Parnell cause in this country and endeavor to raise money for Parnell, arrived last week in New York and were greeted by the Irish Nationalists of that city. The Irish envoys, Messrs. O'Kelly, Redmond, O'Connor, and Harrison, were taken aboard the John E. Moore and landed at the Barge Office, whence they went to the Hoffman House.

The best known of the envoys if James J. O'Kelly, a restless newspaper man at home, in the Soudan, or in the Spanish Americas, as he is in Dublin, London, or New York. He was born in Dublin in 1845. He went to France in 1867 and joined the Foreign Legion, with which he served in Algiers and in Mexico. When Maximilian was defeated at



J. J. O'KELLY.

Mien in June, 1867, O'Kelly was taken prisoner, but he escaped to Texas and made his way to New York. There he went into the Fenian ranks and returned to Ireland, where he was one of the Irish Republican Brotherhood until that movement was suppressed. Then he went back to France and served in the Prussian war. When Paris surrendered he once more found his way to New York and joined the staff of the Herald. In 1873 he went to Chicago to write the Cespedes revolution in Cuba, was arrested there and sent to Spain as a prisoner. Gen. Daniel E. Sickles was U. S. Minister at Madrid, and through his good offices O'Kelly was released. He went to Brazil afterward, and during his stay there he saved the life of the Empress at the time of a collision in the Bay of Rio Janeiro. He came back to New York with Dom Pedro and accompanied that monarch during his tour of the United States. His next journalistic effort was to tell of Sitting Bull's Sioux war. After that he started to find the Mahdi for the syndicate of the London Daily News, but did not succeed. In 1870 he was in Ireland and present at the birth of the Home Rule party under Isaac Butt. In the general election of 1880 he was persuaded to go actively into the contest, and was elected a member of Parliament for Roscommon, beating, to everybody's surprise, The O'Conor Don. Ever since Mr. O'Kelly has been one of Mr. Parnell's most active lieutenants.

John O'Connor is from Cork. He started in life as a commercial traveller, but of late years has devoted all his time to politics. He is one of the members of Parliament from Tipperary, where he was elected first in January, 1885, to succeed the late P. J. Smyth. He has been prominent as a local leader in the south of Ireland, and was twice arrested but, until the present row, never had any transatlantic reputation. He considered himself under personal obligations to Mr. Parnell, and headed the Blackthorn brigade that captured the United Ireland office in Dublin. He accompanied Mr. Parnell during the Kilkenny campaign, and has since been one of his most zealous advocates. He is a tall, strapping warrior, and is known as "Long John" among his colleagues.

Henry Harrison is a young Protestant, born in London. His mother was Irish, and his family are landlords near Belfast. He was at school at Oxford two years ago, and he went to Ireland with Mr. Conybeare to visit the distressed districts in Donegal. At Gweedore during severe evictions they distributed food to the wretched tenants, and were arrested for intimidating the landlords thereby. When Thos. P. Mayne resigned his seat in Parliament for Tipperary about nine months ago, Mr. Parnell put Mr Harrison up to fill the vacancy, and he was elected without opposition. He is only 24 years old, and it is said that he is one of the best football players and amateur sprinters in England. He boasts that his great-grandmother was the famous United Irishman, Henry Joy McCracken, who was hanged for treason in 1798.

W. H. K. REDMOND.

William H. K. Redmond and his brother John are two of the fiery young orators of the parliamentary party. Both have been here twice on patriotic missions. The first time they came direct, the second while on route home from a similar trip to Australia. The father of these two young men, the late William Redmond, was for a number of years member of Parliament for Wexford Borough long before Parnell was heard of. They have been active members of the Irish party ever since the famous general election of 1880.

Spencer—The Poet's Poet.
Chaucer—The Well of English Undefiled, or the Morning Star of English Poetry.
Cædmon—The Milton of the Forefathers.

The Travels of Venus.

The astronomers tell us in their stellar predictions for April that Venus is making her way toward the sun, and rises less than two hours before the sun appears above the eastern horizon. As she travels toward superior conjunction she at the same time recedes from the earth, her semi-diameter naturally decreases, and with it her brilliancy. She has been fair to see for many weeks, and although she will not lay aside her starry crown for some little time to come, her rival, Jupiter, is gaining rapidly upon her and will fairly outshine her before her present course as a morning star has been fully run.

Lots of Mafias.

A New York Italian says there is no considerable number of Italians in any locality in America without its Mafia society, and if there are no murders on this account it is because the edicts of the society are submitted to. He adds that no Italian is ever killed or wounded but the affair traces back to the Mafias.

Children Cry for Pitcher's Castoria.

What is an Aristocrat?

What is an aristocrat? The question is not easy to answer. But the following conversation between two London street arabs is suggestive of a solution:

Scene—The outside of a grocer's window.

First Boy—What's them green things in a bottle?

Second Boy—Olives. Can't you see it's wrote on the label!

First Boy—Well, what's olives?

Second Boy—Oh! things what the aristocracy eat.

First Boy—And what's the aristocracy?

Second Boy—Why! Them folks what eats anything.

Whether it be true that your true-bred lord, like your true-bred pig, will eat "anything," is a question that cannot be decided without careful cross examination of both parties. But it is certainly a fact that relatively to the diet of the poor the diet of the well-to-do is enormously varied. Nine-tenths of the cheap and wholesome side-foods that appetize the bill of fare of the middle-class household would be looked on by the poor as foreign and unholy inventions.—Pall Mall Budget.

A Well-Matched Couple.

A convict at a French penal settlement, who was undergoing a life sentence, desired to marry a female convict, such marriages being of common occurrence. The Governor of the colony offered no objections, but the priest proceeded to cross-examine the prisoner.

"Did you not marry in France?" he asked.

"Yes."

"And your wife is dead?"

"She is."

"Have you any document to show that she is dead?"

"No."

"Then I must decline to marry you. You must produce some proof that your wife is dead."

There was a pause, and the bride prospective looked anxiously at the would-be groom. Finally he said:

"I can prove that my former wife is dead"

"How will you do so?"

"I was sent here for killing her."

And the bride accepted him notwithstanding.—Texas Siftings.

Afraid of the Punishment.

"Now, mamma, I—"

Thus the child began, and was stopped short by her mother.

"Lottie, how many times I've told you not to begin with 'Now.' It is 'Now, mamma,' 'Now I can't,' 'Now, I will,' 'Now, something or other' continually. Don't say it again! The very first time you do I will send you to stand fifteen minutes in the corner."

Little Lottie knew full well the terrors of that punishment. What an eternity it seemed to her to stand that length of time with her face to the wall, not allowed to turn around or speak, till told that the time was out! For always after ah ut three minutes she felt sure the fifteen minutes must be passed, and that she forgotten, must stand there always. So, cautious Lottie retreated with her doll out of mamma's hearing, and, it being already late in the day, escaped condemnation.

When the little nightgown had been donned, and mamma said tenderly: "Now, darling, say your little prayer," Lottie failed to notice how the catcher had been caught on the "now," but answered.

"I can't. I mustn't."

"Lottie! Why not?"

"Because I only say"—I lay me I must stay I in the corner."

From the Pacific Coast.

We quote from a letter recently received from Miss Eleanor Pope, Port Haney, B C: "For sore throat, coughs, croup, bruises, &c., Hagyard's Yellow Oil is the best thing I have ever used." 2w20

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2w20

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She resolved to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS. KENNEDY, Hamilton, Ont. 2w20

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2w20

Worthy of Confidence

Those who have used it praise it! Mrs. George Ward writes from Josephine, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2w20

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Self Application of Electricity

FOR MEDICAL PURPOSES

BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT OF QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you want to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical Treatment and mention this paper. J. D. TULLY, Agent, Peterborough. cod-w

G.F.R Excursion.

Travellers and pleasure-seekers should give particular attention to the fact that by the round trip excursion to Toronto on June 4th over the Canadian Pacific Railway, persons leaving Peterborough by the No. 5 express at 4 45 a.m. will reach Toronto at 7.40 a.m., and those leaving by the local express at 7.10 a.m. will reach Toronto at 10.10 a.m. This arrangement leaves business men a long day in the city to transact business. See advertisement for further particulars. Tickets good to return June 5th.

An Important New Book.

Rev. Edward Hartley Dewart, the editor of the *Christian Guardian*, has ready for publication, and it is now in the binder's hands, a book of 231 pages, entitled, "Jesus, the Messiah in Prophecy and Fulfilment—a Review and Refutation of the Negative Theory of Messianic Prophecy." The occasion which called forth this book was the delivery and publication of a lecture on Messianic Prophecy, by Prof. G. C. Workman, Ph. D., of Victoria University, and which has created so much commotion in Methodist circles. This work, when issued, may be had at the Peterborough Bookstore.

Evergreen Uncle Tom.

If the perennially popular play of Uncle Tom is put on by the Haverleys at the Opera House to-night in any way corresponding to the excellence of the street parade at noon to-day, it will be the best that has ever been produced in town. The parade was an imposing one. The band played splendid music, as they must needs do when led by a lightning drum major like him who wielded the baton so dexterously. Then the charming little Eva on her little pony about the size of the cut-throat looking blood-hounds that followed, made a very imposing parade, and spoke highly of the resources of the company and of their ability to give a first-class performance to-night.

Opening a New Organ.

Dr. Davies spent Wednesday and Thursday in Kingston, where he gave two organ recitals with great success. On Wednesday he performed in Ontario Hall, now used by the congregation of St. George's cathedral, and on Thursday evening he opened the splendid new organ in the Sydenham Methodist church. Here he received an enthusiastic reception. The new organ, Dr. Davies pronounces superb. It has three banks of keys, and is provided with the tubular pneumatic action, which makes its touch as light as a grand pianoforte. The Methodists of this church have a musical treasure house in this organ, which was made by Messrs. Ed. Wadsworth & Bros., Montreal, Manchester, Aberdeen and London.

WHO IS SAM SMALL?

Everybody knows, or ought to know. You might as well ask who is Talmage, or who is Spurgeon, or who is Sam Jones? We believe Sam Small has not favored any place in Canada outside of the largest cities with his presence on the public platform such is the demand for Sam Small that he has already been engaged for a month in September, by a Toronto agent. Crowded houses greeted him on his recent visit to Toronto and we mistake the good judgment of the people of Peterborough, if the Opera House is not packed on Wednesday evening next. Secure your tickets at once at Greatrex's drug store.

Fine Row of Tenement Residences.

Messrs. Metherall Bros. intend to retire from the carriage making business which they have so long conducted in the brick building, corner George and Murray streets. Mr. John P. Metherall, the proprietor of the property, intends converting the building into six elegant tenement residences. The 125 feet of building fronting on Murray street will be broken by three recessed porches, five feet deep and fourteen feet wide, each one divided in the middle to form entrances to each of the three pairs of residences. Each residence will contain a wide hall and three ground floor rooms, including the kitchen, for which the foundation walls are at present being laid, this wing being the same height as the main structure. The upper stories, including the mansard, will contain fine roomy bed chambers and bath rooms. The buildings will be supplied with city water, baths and all the modern improvements. Over each of the recessed porches will be placed balconies opening from the upper hall. Persons sitting on these can hear the band in the park when it is playing quite distinctly. The row facing the south, and being almost midway between and within stone's cast of two parks, and convenient to the heart of the town, will make very desirable residences.

Promenade

Grand Concert.

Don't forget to be on hand for the grand Promenade Concert to be given by the united Bands of the Governor-General's Foot Guards and the Fifty-seventh Battalion, in the new Market Hall, on Monday evening, May 25th. The following excellent programme will be presented and played with splendid artistic effect:

1 Grand March—"Unity"..... G.G.F.G. and 57th Batt Bands
2 Overture—"Le Macon"..... G.G.F.G
3 Fantasia—"Pride of Scotland"..... 57th
4 Valse—"Rhren on the Rhine"..... G. G F.G
5 Selection—"Maritana"..... 57th
6 Fantasia—"Ten Minutes with the Minstrels" [G.G.F.G
7 Overture—"Bohemian Girl"..... 57th
8 Lancers—"Madame Angot"..... G.G.F.G.
9 Fantasia—"Brudder Gardener's Picnic" 57th
10 Galop—"Kassassan"..... G.G.F.G.
"GOD SAVE THE QUEEN."

The opening number, a magnificent heroic march, will be performed by sixty instruments, and will be something in the line of martial music to which few in town have had the pleasure of listening. It is to be hoped that this concert will be well patronized. Its object is to increase the efficiency of the home band—to raise funds to purchase a better class of clarionets for the use of the band. The public will receive a direct return in the more effective music the band will be able to present in the park, where they perform so liberally during the summer months. The band is a public benefactor, and should be liberally supported—especially when the support is more than compensated for by a splendid programme like that printed above for the concert in the Market Hall Monday night next.

The Last Parade

of the Rangers Before the 24th—General Orders Issued.

There was a good turnout of the 57th rank and file at the drill shed last night. The men presented a splendid appearance, their uniforms and equipment were in fine shape, the men looking as trim and clean as the deck of a man of war. A very satisfactory drill was held. The men are entering heartily into the spirit of their work and will make a creditable turn out on the 24th and 25th. Several battalion movements were executed with praiseworthy precision and the colonel especially complemented the men on their marching.

The following.

GENERAL ORDERS

were read:—

HEADQUARTERS,
Peterborough, May 21, 1891.

Orders by Lieut.-Col. J. Z. Rogers, commanding the 57th Batt. of infantry, Peterborough Rangers:—

No. 1. Leave of absence from parade granted Major Edwards, Capt. Brennan and Capt. Miller.

No. 2. The Battalion will parade on Sunday afternoon next at two o'clock in review order and accompany the Governor-General's Foot Guards to St. John's Church for divine services.

No 3. The Battalion will parade on Monday next, May 25th, at 9 30 a.m. in review order.

No. 4. The officer commanding has been pleased to make the following promotions:—

Wm. J. Lloyd, "C" Company, to be sergeant provisionally, vice W. E. McManus, resigned.

Pte. Alfred Goshens to be corpl., (prov.) vice Lloyd promoted; Corpl. D. Harvey, "A" Co., to be sergeant, (prov.) vice Tebb resigned.

Corpl. Corkery, "A" Co., to be sergeant, (prov.) vice Bellingham resigned.

Pte. W. Weatherhead, "A" Co., to be corporal, (prov.) vice Harvey promoted.

Pte. Wm. Crosby, "A" Co., to be corpl. (prov.) vice Corkery promoted.

R. MAX DENNISTOUN, Capt.,
Adjutant.

Women's Foreign Missionary Auxiliary.

THURSDAY, May 21.

At the afternoon session of the district convention of the Women's Foreign Mission Auxiliary there was a fuller attendance of delegates than at the morning session. There were present besides a large number of sympathisers in the work the following delegates: George street church, Mrs. Locke and Mrs. W. Fitzgerald; Charlotte street church, Mrs. Brooks and Miss Kennedy; Bailieboro, Mrs. Hutchinson; Beaufort, Mesdames Wood, Kerr and Emberson; Lakefield, Mrs. Montgomery; George street Methodist Church Mission Band, Miss Griffis.

The devotional exercises, including a brief testimony meeting, were conducted by Mrs. Locke, and as usual Mrs. Kendry, the district organizer, presided over the business proceedings. Reports were presented by Mrs. W. Fitzgerald for George street church, by Mrs. A. M. Price for Charlotte street church; for Lakefield, by Mrs. Montgomery, for the George street church Mission Band, by Miss Griffis, for Millbrook by Mrs. Stanton, for Bailieboro by Mrs. Hutchinson. Miss Butcher varied the proceedings by a vocal solo after which Mrs. Wood of Beaufort presented her report and Mrs. Locke read a leaflet upon the subject, "Why no time for the Master's Work?"

Miss KENNEDY, of the Charlotte Street Methodist Church, read an interesting, original essay upon the subject of the "Lord of the Harvest."

Miss STEWART, of the George Street Mission Band, gave a recitation, followed by a vocal duet by Misses Smart and Rutherford.

Mrs. (Dr.) HARRISON, of Keene, read a very interesting paper on "Juvenile Mission Work," for which, on subsequent motion of Mrs Locke, seconded by Mrs. Sherin, of Lakefield, the thanks of the convension were cordially voted coupled with a request for the publication of the paper, which will accordingly appear in the EXAMINER of Saturday.

Mrs. BROOKS read a letter from a missionary in Turkey, dealing with the condition of woman in that country.

After the question drawer had been dealt with, the convention adjourned and partook of refreshments provided by the young ladies of the Mission Band.

THE EVENING SESSION.

The evening meeting was of a public character, and the school room was well filled, Rev. Jos. H. Lake presided and after devotional exercises, made a few opening remarks.

Then a paper was read by Mrs. Sherin, of Lakefield, which was well received. It dwelt upon the benefit of such conventions to individual auxiliaries and upon the many openings for usefulness that women must find on all sides, at the present time in the work of missions. The next a solo entitled "Free as a bird" was given by Mrs. Dr. Harrison of Keene.

Rev. Mr. Rutledge, of Cobourg, was called upon to give an address. In his opening remarks he said he was glad to be in Peterborough again, and glad to have the subject of missions for his first address. In his mind missions were God's most favored and welcome work. He was especially glad to be here, as it was a Women's Missionary meeting. He then proceeded to give a pleasant account of his work in Manitoba.

Labour and Capital.

To the Editor of the Examiner:

DEAR SIR.—In the interests of the workingmen of Peterborough, I would like, through the medium of your valuable paper, to offer a few remarks in reference to the abominable state of affairs relative to the low wages now paid to the workingmen of this over-rated town. Where, I would ask, are the labour organizations which at this same period of last year were so active in their meetings for the purpose of arranging matters for their mutual benefit, such as the hours of labour, and the proper adjustment of wages, which would be fair both for the workingmen to receive and the employer to pay? Have the circumstances of all classes of workingmen become so prosperous that such organizations are utterly rendered unnecessary, or is it a case of complete demoralization among the members who formerly took such an active part in the interests of their respective associations? I fear it is the latter. We have now to our sorrow a practical evidence that this unfortunate state of affairs is caused by the ascendancy which capital has attained over labour in this town. The little combination of money grabbers who have hitherto controlled the labour market of Peterborough are now powerfully reinforced by the long-looked-for Edison Company, the advent of which has for some time been looked forward to with such pleasurable anticipations, more especially by that portion of the ratepayers who represent the workingmen of this town, who of course as per representations at the time the vote was taken, anticipated very much increased facilities for obtaining employment. This far famed Edison company commenced operations last fall under very auspicious circumstances. Labourers were the first class of working men called into requisition and to them were offered at the first start a fair amount of wages, everything in fact bore promising aspects for the sons of toil. But this state of things lasted apparently just so long and no longer than was necessary for the Edison company to complete their arrangements for advertising their advent into Peterborough, and the immense amount of both skilled and common labour they would require to put up their buildings. This together with the assistance of that officious body of speculators who are pleased to call themselves the Board of Trade, has resulted in the congregation into Peterborough of a very large surplus of working men of all classes, in proportion to the amount of work which is really to be obtained in this town. And where are we workingmen to-day, in comparison with the partial prosperity which we have enjoyed at this same season in other years. There are not one in every fifty of us who can say that we are earning one half of the amount *necessary* to support our families. The mechanic is working for wages, which last year were considered little enough for the labourer; and the labourer must be content with starvation wages, and very desultory occupation at that. The Edison Company is in fact established as a precedent for low wages, in every place where we look for employment. I understand that the employees of the Edison company sent in a written intimation that an increase of wages would be acceptable, but by the supercilious contempt and silence with which the said intimation was received, the workmen were given to understand that they would receive no sympathy in that quarter, but were entirely in the power of the company as to the wages that would be paid them. I think that in the face of this disastrous turn of affairs, the workingmen instead of abandoning the several organizations to which they belonged to, should make fresh efforts on their own behalf, and by strongly uniting themselves, not only resist the increasing oppression, which capitalists are assuming over workingmen, but imitate the example of similar organizations in other cities, by taking care of all scabs who enter our town for the purpose of underworking us and thereby depriving us of our just means of support. Thanking you Mr. Editor for your valuable space. We remain,

Yours truly
VOX POPULI.

News Nuggets.

—For bracing up the nerves, purifying the blood and curing sick headache and dyspepsia, there is nothing equal to Hood's Sarsaparilla.

—Mrs. H. B. Dean and children, of Lindsay, the *Post* says, left Thursday for Peterborough on a visit to her father, Judge Weller.

THE GOVERNMENT SNUBBED.

An Adverse Vote in the House of Commons.

The Prohibition Debate—Size of the Government Majority in the House.

OTTAWA, May 21.—The Government were severely snubbed out to-night on a motion by Dr. Sproule to adjourn the debate on the prohibition resolution. The debate was resumed early in the day and maintained until 6 o'clock. At that hour Hon. David Mills closed a speech full of fine argument and rare humor—and, by the way, it is a subject of common remark that Mr. Mills is speaking this session with a fluency and strength that he has never shown in any other Parliament, and he was always one of the leaders of the Commons. At the close of Mr. Mill's speech, to the great surprise of the Opposition, Dr. Sproule moved the adjournment of the debate, and the Ministerialists shouted "carried" with great unanimity, as though the doctor's motion were quite well understood. The Liberals as unanimously dissented and demanded a division, and in the midst of the confusion the Speaker left the chair. On re-assembling after dinner the Liberals called for a vote on the motion for adjournment, and the Speaker had no alternative but to call in the members, notwithstanding that there were many vacant seats to his right. As the roll call proceeded, it became very evident that Dr. Sproule's action was inspired by the Government, and that the object was to shelve the prohibition question for the session. The Premier and every member of the Government present, including Mr. Foster, who was made by the temperance people, voted for adjournment. Mr. Costsworth, who had preached undiluted prohibition to the House for nearly two hours, also voted to shelve the question, and the Liberals almost lifted him from his feet with a great volley of ironical cheers as he stood up to be counted. So voted all the other Tory prohibitionists except Mr. Jamieson, who knew that his resolution was in danger and refused to consent to the scheme to accomplish its slaughter. With Mr. Jamieson voted the Liberals as one man, and Mr. Tarte was with them. The clerk of the House counted the vote again and again while every one waited with absorbed interest, and when he at length rose, bowed to the speaker and read, "Yeas 65, nays 74," the Liberals broke in with a whirlwind of cheering and laughter, while a score or so of voices shouted, "Resign," "Resign," and the Conservatives sat dumb and rather sorrowful over the result.

A SECOND VOTE.

But the Government were not whipped. They were determined that the House should not vote squarely on prohibition, and towards 11 o'clock they put up Mr. Gillies, of Nova Scotia, to move a second motion for adjournment. They had broken up a couple of Ministerial dinner parties and dragged the diners and winers to the House to force an adjournment. As before, the Conservatives voted solid, with the exception of Mr. Jamieson, and the Liberals were not less united in their resistance to the motion. To this division Mr. Savard gave his first vote, and just it with the Opposition. The result was 98 to 80 in favour of adjournment. The Liberals cheered the announcement loudly and the Conservatives responded with counter-cheers, but they were much chagrined over the reduced figures as compared with last night's divisions. Just as quiet was restored Dr. Landerkin remarked with delicious irony:—"Could not you sing God Save the Queen?" And Mr. Casgrette added as the laugh or subsided:—"you had better sing God save the Government." Mr. Davis forgot the cast-iron pledge which led to the organization of the Davin temperance lodge at Regina, and voted with the majority. So of course did Mr. Costsworth, and no one thumped his desk more vigorously and enthusiastically than did the member for East Toronto when the announcement of the result showed that prohibition was shunted. Mr. Costsworth is a very singular young legislator. It may be added that the Tories did not repeat the stale campaign tactics of last night, and do the national anthem, as Dr. Landerkin suggested. The Conservatives trifled with the question throughout. They first put up Mr. Mackintosh, who has not an eminent reputation as a prohibitionist, to move an amendment for a select committee to consider the effect on the revenue of the adoption of national prohibition, or in other words to relieve the Government of their constitutional responsibilities, and Mr. Taylor, of Leeds, chief Tory whip, and prohibitionist for party purposes only, moved a second amendment for a plebiscite so vague and indefinite that Mr. Mills, who favors a plebiscite, could not support the proposition. The whole day's proceedings ought to be an effective lesson to the prohibitionists of Canada as to the Government's attitude toward their movement. The Government of Sir John Macdonald in all its history has never made one honest effort to advance the cause of prohibition. Of course the effect of to-night's vote is that Mr. Jamieson's resolution is not likely to be reached again this session. But there may be another way of reaching the question. Mr. Charlton to night gives notice of motion declaring that the state of public opinion upon the question of prohibition of the manufacture, importation and sale of intoxicating liquors for beverage purposes should be ascertained by a reference of the question to the electors of Canada at the polls.

The A. O. A. Meet.

Will be Held on Pigeon Lake This Year—From July 17th to 31st.

On Monday last, the executive committee of the northern division, comprising Messrs. J. G. Edwards and A. F. D. Mogridge, Lindsay; W. J. Reid and W. T. C. Boyd, Bobcaygeon; Lieut.-Col J. Z. Rogers and G. Hatton, Peterborough; and D. B Jaques, Toronto, came together at Bridgenorth, the Lindsay *Post* says, for the purpose of locating a site for the annual camp. The members of the committee, with a number of friends, boarded the steamer Maple Leaf, and the run to Big Island, near Bobcaygeon, was made in fast time. A delightful site for the camp was located at the southern end, and the Bobcaygeon and Lindsay men strongly favored its selection. Jacob's island at the mouth of the narrows was next visited, and all agreed that it was a delightful spot, and admirably adapted for the purpose, though none too large. The Peterborough and Toronto men favored this site, and after the matter had been discussed at some length a vote was taken, and the Big Island was selected by a majority of one. In the absence of Col. Cotton, the commodore, and Dr. Powell of Toronto, the vote was later on reconsidered, and it is probable that Jacob's island will eventually be the camp ground. Messrs. Read, Edwards, Hatton, Boyd, Mimms and Capt. Bottum were then appointed a camp committee, and it was arranged that a map of the lake and tributary waters should appear in the year book to be issued shortly. The committee on transportation are Messrs. Frazer of Toronto; Rogers, Elmitis and Fairweather of Peterborough; and W. Boyd of Bobcaygeon. Cheap rates will be allowed on all steamers, and no doubt the railway lines will make the usual reduction to the campers. The commissariat committee comprises Messrs. Rogers Elliott, Hatton and Fairweather, and these gentlemen fully realize the importance of their office. The camp will last from July 17th to 31st.

News of the Day.

There were 266 deaths from influenza in London last week.

The Hessian fly has appeared among wheat in the vicinity of Jacksonville, Ill., and is causing great alarm among farmers.

The shops of the New York Central Railway at West Albany were burned yesterday morning, causing a loss of $150,000 and throwing 1,000 men out of work.

The 68th General Synod of the Reformed Presbyterian church of North America is in session in Philadelphia. Rev. W. H. Galley of that city was elected moderator.

President Harrison yesterday issued a proclamation opening to public settlement about 1,600,000 acres of the land of the Fort Berthold Indian reservation in North Dakota.

"Hebrew Invasion of England."

LONDON, May 20.—England is becoming alarmed at the exodus of destitute Hebrews from Russia, as large numbers of them are seeking refuge in Great Britain. This movement has assumed such proportions that is is termed "Hebrew Invasion of England." It is estimated that 500 appeals are made each week to the different newspapers by individuals urging that the authorities should introduce legislation to exclude destitute aliens similar to the immigration law recently adopted by the United States.

The *Evening News* warns the authorities that if "the Hebrew invasion" is not checked there will grow up anti-Hebrew movement in England, in comparison with which the New Orleans feud would be a small affair. The manager of the Shelter, an institution established for the reception of Hebrews arriving here, asserts that almost every destitute arrival is entrusted to his care, and that the number does not exceed 20 per week, fully nine-tenths of which number are reshipped to Chicago, New York, Boston, or the English colonies.

When questioned as to how these destitute Hebrews succeeded in gaining admission into the United States, the manager said: "Oh, we take care to provide for them before they are shipped, so that on landing they can show that they are capable of earning a living. There is no reason that any country should object to this."

Careful investigation tends to prove that about 500 weekly is the correct number of destitute Hebrews captured by the "sweaters" upon their arrival in this country. The "captured" Hebrews are then lodged in dives in the vicinity of the docks and worked for "sweating" tailors at the lowest possible wages. *It is also* shown that systematic procuration exists in regard to the young Hebrew girls, and a society has been formed, composed of Hebrew ladies, to prevent this system of procuration. The ladies composing the society have arranged to send an inspector to each ship arriving here with Hebrew emigrants on board. These inspectors will warn the Hebrew girls against the dangers awaiting them and will see that they are not enticed into the dens which abound in certain sections of London.

Free to Ladies.

Every lady reader of this paper sending at once her address on a postal card will receive a free copy of the *Ladies'* (Pictorial) *Newspaper*, containing full particulars of their old fashioned English prize competition. Over $6,000.00 in prizes will be given away between now and June 1st, with special daily prizes of value for each locality. The *Ladies' Newspaper* is one of the largest and most profusely illustrated publications in Canada, and the competition offered by them is to be conducted in a strictly honourable manner, without partiality to persons or locality. Anyone can secure a good prize by a little work. No cheap presents will be given. It costs you nothing for full information and a sample copy, if you send at once. Address: The *Ladies Newspaper Co.*, Canada Life Building, Toronto, Ontario. d73e-w14

On Fire with Eczema

Terrible Sufferings of Little Baby—Seven Doctors and Two Hospitals Fail—Cured by Cuticura.

My baby boy, 5 months old, broke out with eczema. The itching and burning was intense; the eczema spread to his limbs, breast, face and head, until he was nearly covered. His tortured condition were pitiable to behold; he had no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $3 per week for medicines, and was entirely discouraged. I purchased CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, his sufferings were ceased, and rest and sleep permitted. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and is as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON,
25 W. Brookline street, Boston.

Cuticura Remedies.

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of eczema and psoriasis, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

Sold everywhere. Price, CUTICURA, 75c. SOAP, 35c.; RESOLVENT, $1.00. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testimonials.

PIMPLES, black-heads, red, rough, chapped, and oily skin cured by CUTICURA SOAP.

OLD FOLKS' PAINS.

Full of comfort for all Pains, Inflammation, and Weakness of the Aged is the Cuticura Anti-Pain Plaster, the first and only pain-killing strengthening plaster. New, instantaneous, and infallible. dw

DOMINION PARLIAMENT.

THE HOUSE ADJOURNS OVER THE QUEEN'S BIRTHDAY.

The Bill Extending the Time for the Completion of the St. Clair Railway Passed — A Fruit Growers Deputation Mr. Perley Again.

OTTAWA, May 22.—The House today has done too much "talking" to make much real progress, as although it has been in committee of supply since half past four o'clock it has passed less than half a dozen items, the Tarte matter, the High Commissioner and other matters taking up a good deal of time.

A large number of private bills were introduced, including one by Col. Denison to amend the act respecting the Lake Erie, Essex and Detroit River Railway Company.

In the absence of Sir John Sir Hector Langevin moved, seconded by Mr. Chapleau, that Mr. Bergeron be appointed chairman of committee of the whole House with the official title of Deputy Speaker.

Mr. Laurier made a pleasant little speech in which he offered his personal congratulations to the honorable gentleman, and twitted the Government in a good-natured way on appointing another Rielite. He supposed that it was a tribute to his independence on that question, and was another instance of virtue being its own reward.

On orders of the day being called Sir Richard called attention to a letter on page 14 of Auditor-General's report with reference to promotions in his department and pointed out that some change had been made in the law at the time of the consolidation of the statutes. He thought the law gave the auditor the right to make promotions in his own department.

Sir John Thompson said he could not state positively from memory what the original act was, but the consolidated statutes certainly did not give the auditor that power now. The matter referred to in the letter had however been settled by the promotions being made by order in council.

Mr. Edgar brought up the Tarte matter by complaining of delay in bringing down the papers.

Sir Hector Langevin read a statement from the Deputy Minister of Public Works that the papers went back in 1887 and were very voluminous, but would be ready in a day or two.

Mr. Davies thought it outrageous that the Minister of Public Works, who was accused of high crimes and misdemeanors, should treat this matter so slightly, and complained of great delay in bringing it on the papers.

The matter then dropped and the House went into Committee of Supply, Clarke Wallace in the chair.

On the item for Public Works salaries a long discussion took place on the question of the salary of Mr. Perley, and for nearly an hour was consumed in threshing out the question of the propriety of his retaining his position while the charges were being investigated.

Sir John explained again that the vote was not for Mr. Perley but for the chief engineer of the department whoever he might be. As to the question of suspending Mr. Perley he (Sir John) would never allow any man to be punished merely on suspicion and without any trial or investigation.

After recess a number of private bills were read a second time and referred to their several committees, and the House again went into committee of supply. The new deputy speaker occupied the chair for the first time.

The items for High Commissioner were taken up. The Opposition criticised at some length the part taken by Sir Charles Tupper in recent elections. The House was very thin, a good many members having left this afternoon and a great many more leaving to-night. Sir John Macdonald acknowledged that he had sent for the High Commissioner.

In the Railway Committee this morning the bill extending the time for the commencement and completion of the St Clair Railway bridge was passed, as was also the bill extending the time for finishing the Canada & Michigan tunnel.

A deputation of the Ontario Fruit Growers' Association had an interview with the Minister of Agriculture this morning and urged the appointment of an inspector of fruit, and especially the grading and branding of apples for export. They also urged the establishment of an experimental fruit farm in the Niagara peninsula.

Mr. Carling said that he had always been of the opinion that Canadian products should be marked so that they could be distinguished, and he would bring the subject as well as that of an experimental fruit farm to the attention of his colleagues.

J. T. Middleton of Hamilton had an interview with Mr Bowell to-day and urged that the present duty on granite be not increased. The Minister promised to consider the matter.

Sir Donald Smith gives notice to-night that he will ask on Tuesday if the Government intends introducing a measure this session to increase salaries of judges.

The House remained in committee until 11 o'clock, passing all items in Civil Government and Civil Government contingencies. Mr. Mills asked whether it was true that the Government had suffered loss through the defalcation of a Crown timber agent at Calgary and what was the amount.

Mr. Dewdney said it was. The amount was about $3000.

ELECTRICITY AWAKENED HER.

The Girl Who Had Lain in a Trance Fifty-six Days.

KANSAS CITY, Mo., May 22.—The 12-year-old daughter of Asa Meadows of Independence has been ill nearly a year. About two months ago she lay down, closed her eyes, and was perfectly helpless, the only evidence of life being a gentle respiration. For 56 days she neither moved nor took nourishment of any kind. Four days ago a powerful electric battery was applied, and applications have been made regularly ever since. This morning she was able to eat a light breakfast.

BRITISH AND FOREIGN.

FRIGHTFUL COLLISION ON A GERMAN RAILROAD.

A Passenger Train Runs into a Circus Train. Many Persons Are Killed Including the Wife and Daughter of the Proprietor of the Show.

BERLIN, May 22.—In a collision to-day between a passenger train and a special train conveying Carre's circus troupe at Kirchlinger, near Osnabruck, a number of persons were killed, including Madame Carre, the wife of the proprietor, and her daughter. The engineer and fireman of the circus train and two guards were also killed and 30 persons were seriously injured. The two trains came together with a frightful shock and three carriages were telescoped and smashed into fragments.

A SIGNIFICANT VICTORY.

The Great Political Strike in Belgium Ended.

LONDON, May 22.—The working classes of Belgium have won a signal victory in compelling the central section of the Chamber of Representatives to declare in favor of a revision of the constitution. The great strike started in the early part of the month was unprecedented in its motive, which has nothing to do directly with wages or hours, but was intended as the only protest the disfranchised workingmen could make against the denial of the suffrage. They determined that if they could not vote they would not work and that the constitution must be revised in the interest of liberal suffrage. The People, organ of the workingmen, called on the Ministry to make a frank declaration regarding the revision of the constitution, which the workmen believe to be destined to oblivion by calculated delays. The strike spread throughout the four great coal basins of Belgium and one after another the various industries fell into line with the movement, and trade and commerce were threatened with paralysis.

The leading mine owners and metallurgists became alarmed. They exposed to the king the immense injury already done and the greater injury threatened to Belgium industry by the delay in voting for revision. The traders of Seraug petitioned the Chamber in the same sense. The wildest rumors got about and almost created a panic. It was said and even published that German troops would enter Belgium to re-establish order. This report aroused patriotic indignation, but did not put an end to the strife.

Numerous arrests were made with a view to coercing the strikers; but the men remained firm, and at length the majority of the Chamber formally signified willingness to support the proposed revision and aid in effecting a substantial reform. To-day the strike ended, and the Belgian workingmen are everywhere jubilant over their victory. Should there be any faltering on the part of the Ministry or the Chamber the workingmen stand ready to come out again at the call of their leaders.

A Parisian Storm.

PARIS, May 22.—A terrific storm passed over this city last evening, causing considerable damage and creating much alarm. A huge waterspout formed on the Champs Elysee, traversed the Place de la Concorde and burst in the Jardin des Tuileries, uprooting trees, destroying lawns and flower beds and washing away pathways. A thunderbolt fell in the Esplanade des Invalides, but there was no loss of life. Consternation prevailed in the neighborhood attacked by the storm.

Adrift at Sea.

LONDON, May 22. The Dutch steamer Noordland, belonging to the Netherland line, is disabled at sea with 788 passengers on board. She was sighted off Newfoundland with a strange steamer alongside, evidently rendering assistance.

Cholera in Arabia.

LONDON, May 22.—Cholera has appeared among Indian pilgrims on the Island of Kamaran off the west coast of Arabia.

Fattening on the Jews

ODESSA, May 22.—The police here are fattening hugely by blackmail on wealthy Jews. Prominent Jews think the time is not ripe to form a Jewish nation in Palestine, as wealthy Jews would not invest capital in such a hopeless enterprise.

The Baron's Jewish Colony.

LONDON, May 22.—Baron Hirsch has completed the purchase of an immense tract of land in Uruguay, upon which he will form a Jewish colony.

10,000 Exiles for Siberia.

LONDON, May 22.—There are 5000 prisoners in Russia awaiting suitable weather for their transportation to Siberia. The prisoners will be voluntarily accompanied by their wives and families, numbering 10,000 persons

Chat from Over the Sea.

The Queen arrived at Balmoral Castle yesterday.

It is proposed to colonize the Arabian shore of the Red Sea with exiled Russian Jews.

Mr. Gladstone has recovered from his attack of influenza and yesterday he left London for Hawarden.

The Italian Government has ordered the tomb in the church of La Superga in which Prince Napoleon's body lies to be closed.

The Liberals are organizing meetings throughout Servia for the purpose of protesting against the expulsion of ex-Queen Natalie.

Previous to the Czar's visit to the exhibition at Moscow a French squadron is expected at Kronstadt with 20,000 rifles for the Russian army and the French officers will accompany the Czar to Moscow

His Foot Cut Off.

EGANVILLE, May 22.—Matthew Foley, employed in the saw mill of Mr. Alexander McLaren at Ossoela, was removing some dirt from around the saw when his left foot came in contact with it and was completely severed close to the heel.

DESERTED HIS BRIDE.

Although the Wedding Feast Was Spread and the Guests Were Present.

OTTAWA, May 22.—E. Robert, son of M. Robert, butcher, was to have been married last night to a daughter of W. R. Deming of New Edinburgh. The preparations were completed even to the wedding dinner being spread at the house of the bride's parents, and many of the guests had assembled but the bridegroom failed to appear. It is said the parents of the groom, who is a Roman Catholic, objected to the marriage and he left the city.

CONDITION OF TRADE.

Business Moving Forward About as Reported for Several Weeks Past.

NEW YORK, May 22.—Bradstreet's reports business generally has gone forward about as reported for several weeks past. Toronto advices report no improvement in general trade with the fruit business very active and collections poor. Dispatches from Montreal report trade quiet with a moderate sorting demand in dry goods and hardware. The Dominion reports 45 business failures this week against 30 last week and 28 this week last year. The total number January 1 to date is 852 against 766 last year.

OCEAN MAIL SERVICE.

The Prospects of Success are Said to Be Not of the Brightest.

LONDON, May 22.—Despite the confidence of the Dominion Government in the success of their efforts to secure the establishment of a new fast Atlantic steamship service, as shown by the official announcements in the Canadian House of Commons, the prospects of success are not of the brightest. It is understood the Allans have formally withdrawn from the negotiations with the Barrow-in-Furness Company, the Allans being unwilling to undertake the financial responsibility the others deemed necessary. The only remaining step is to form a new outside company, but nothing has yet been done owing to the depressed state of the money market. Should the general financial outlook brighten, negotiations may progress, and if they do it is thought possible that when the Allans see the force of the new movement self-interest will induce them to take part in it.

MONTREAL BANK RUMORS.

Report That Sir Donald Smith is About to Resign the Presidency.

MONTREAL, May 22.—There is a rumor current here that Sir Donald Smith will shortly resign the presidency of Bank of Montreal and be succeeded by Senator Drummond. The bank officials refuse to give any information before the annual meeting, which will take place on June 1.

MOVEMENT OF WHEAT.

The Alleged Corner in France—Heavy Purchases of Russian Wheat.

PARIS, May 22.—The Eclair, a newspaper of this city, publishes to-day interviews with the officials of the Ministry of Agriculture in reference to the projected wheat "corner." These officials said that they did not believe that the people who were engineering the "corner" would succeed in attaining the object in view, as the French farmers had refused to co-operate with the manipulators of the wheat deal. The French farmers, the officials of the Ministry of Agriculture said, always sold their produce on the spot and would not enter into contracts with any large syndicate, especially a foreign one. The French crops were in a very critical condition. The home supply, they said, would fall short of 20,000,000 hectolitres. If the present rainy weather continues the result would be disastrous to farmers.

ODESSA, May 22.—An English-German-Italian syndicate has bought 30,000,000 roubles' worth of Russian wheat.

The Harvest Outlook

NEW YORK, May 23.—To-day's Herald says editorially: The solution of the all-important crop problem is very much simplified by the weather changes of the last three days. Not only have the thirsty grain fields of the country been supplied with water enough to tide over the present exigencies of the drought, but in large areas rain enough to last the soil a week has fallen. Unless some unforeseen and very extraordinary injury overtakes the growing cereal and cotton crops there can be little doubt the yield in most districts will be near, and possibly somewhat above, the average.

With this improvement in the American harvest outlook the skies are brightening for transatlantic farmers. The London Meteorological Office weather reports yesterday showed that moderate rain was falling in England and a cyclonic depression in the English Channel gave promise of refreshing rains on the Continent. It is highly probable that Europe will soon benefit by the northward movement of the tropical vapor currents which have this week put a new and brighter face upon our Western wheat fields.

TORONTO TOPICS.

TORONTO, May 23.—The representatives of the different Scotch societies of the city last night discussed the question of erecting in Toronto a memorial to the poet Burns, at a cost not exceeding $25,000. It was decided to procure information as to the cost, etc.

Adam Brown, ex-M.P., addressed a large meeting of members of the Board of Trade to-day at 1 o'clock (President Davidson in the chair) on the importance of trade with Jamaica and the West Indies, and on the commercial results of an exhibition recently held at Kingston, from which place he has just returned. The mayor of Kingston, Jamaica, was present and spoke.

Fell Between the Cars.

PARIS, May 22.—Robert McKeown, G.T.R. brakeman on the wayfreight running between Stratford and Brantford, was making coupling here, when he fell under the cars between the rails and received serious injuries.

Death Came While He Was Conversing

CHESLEY, Ont., May 22.—Samuel Caldwell of the second concession of Enderslie got up as about the usual time, but complained of not feeling well. While engaged in conversation, he suddenly closed his eyes and in a few moments afterwards was dead. The doctor pronounced the cause of death to have been a paralytic stroke. He was in his 76th year.

Shot Himself Instead of the Cat.

HAMILTON, May 22.—Henry J. Lawry, butcher in the market, after driving home from the city last evening, went over to the slaughter-house to kill a cat that had been killing the young chickens about the place. The revolver and missed fire and he turned the muzzle back to look into the cylinder, when the weapon went off. The bullet struck him in the centre of the forehead, crushing in the skull upon the brain. Mr. Lawry fell back on the steps. He may recover.

Carelessness Caused It.

BRANTFORD, May 22.—The driver of Mr. John Moore's express between Ayr and Paris accidentally shot himself last evening. He carried a revolver in a belt, and threw the latter over the seat. In moving the seat the revolver was discharged and the ball entered his leg. He was severely wounded.

Dying From a Peculiar Accident.

ORANGEVILLE, May 22.—Thomas Robinson of Bellwood, who had only been in the Forks a few days, was turning a stone, when he got a twist or wrench which ruptured his kidney. His recovery is doubtful.

Found Dead In Bed.

FERGUS, May 22.—Robert Milne, aged 71, of the Halfway House, Fergus-road, was found dead in bed. His wife and daughter were absent on a visit to Hamilton.

Petition Dismissed.

WINNIPEG, May 23.—The petition to unseat A. W. Ross, M.P. for Lisgar, was dismissed to-day by a full court on preliminary objections, which proved fatal.

Children Cry for Pitcher's Castoria.

MANY ENGAGE IN THE SEARCH.

For the Corpse of the Late P. Purcell At Summerstown.

CORNWALL, Ont., May 23.—The defiance which young Craig shows the officers charged with his arrest in assuming all the appearance of a kind of second Donald Morrison affair. As in the latter case Craig's friends claim his innocence, and many of them uphold his determination to keep out of the road of the officers if possible. Like Morrison, he has sworn to defend himself if an attempt is made to arrest him, and it is stated by reliable people who have met him within the last few days that, like the outlaw of Magnatic, he is fully armed for any emergency. The effect of the offer of $500 reward has been miraculous and a small flotilla of various crafts started out this morning to gain the reward. The Indians of the surrounding islands have turned out in large numbers and last evening the boats, provided with pine torches, flitted up and down the river like a swarm of gigantic fireflies.

"I would have shot them like dogs, if it had been me," said Mrs. Derochie to me this morning, when referring to Detective Gross and Malo, who arrested her husband. "He was very foolish indeed," she continued, "to have gone with them when he knew he wasn't guilty." She is a young woman, rather good-looking and showing considerable spirit in her trouble. She is left with three small children and has the sympathy of a good many. "I know he isn't guilty," she continued, "and I can swear that he was at home the night the body was taken. He never was with Craig either, for Craig came to eat supper with us after he drove from Cornwall, and my husband saw him at the door when he left, about 1 o'clock. I suppose, though, that there will be lots of his enemies to swear against him and try to show that he was guilty." She then launched out into several uncomplimentary remarks about the Purcell family. When asked if she had any suspicions as to those that were implicated in the matter, she replied in the negative, and in answer to the question, "Do you think Craig had anything to do with it?" she said: "I don't know, don't see what Johnny Craig would want with the dirty body." She has great hopes that her husband will be able to prove his innocence.

The interview with Mrs. Derochie at her home in Glen Walter gives some information that has heretofore been unknown about the whereabouts of Craig. It was only known previously that Craig had gone down in Murchison's wagon and left him near the graveyard on the pretence of going to see his cousin, which he never did. About half an hour afterwards he was on the island and bought some things, after which he left again in his boat in the direction of Purcell's place. This looks very much as if he were the man whom the nuns saw row away from the Purcell boat-house while they were praying and whom they mistook for some one else who was suspected at the time. When in court Derochie showed himself very independent and pleaded not guilty. When asked if he had anyone to defend him he would defend himself, and when he was remanded at the request of Mr. MacLennan, Q.C., he said he should like to know what there was against him and to have his case done at once. The only remark of interest he has made since he went to jail was to the effect that he would make it hot for those that got him "picked up."

THE DUNKARDS AND THE SPORTS.

All Signs Forbidding Sporting To Be At Once Taken Down.

DAYTON, O., May 23.—After a long discussion the Dunkard conference has resolved that members of the church should at once destroy all signs on their farms that forbid hunting. The Dunkards are religiously opposed to legal controversy, and as hunting cannot be prevented by the tedious process of law the conference determined to take down the caution signs and allow hunters to roam at will over their farms. This will open fully one-fourth of this country to sportsmen this fall.

Oppose an Export Duty on Nickel.

STRAIGHT LAKE, May 21.—The proposition to impose an export duty on nickel, advocated by Mr. Imrie of Nova Scotia, is universally condemned here. Such a duty would be a death-blow to the nickel industry, from which much is expected in this district, and would be disastrous to the interests of the Province of Ontario.

It is indignantly asked why should such a duty so detrimental to the interests of Ontario be imposed for the special benefit of a few coal men in Nova Scotia.

As the results of the recent experiments of the American Government have settled the future of nickel actual mining operations are being rapidly pushed forward, and a number of nickel properties in this district, especially in the Townships of Moncrief and Craig, are being developed and giving employment to a large number of men. The ore deposits which are in the Huronian formation are in proximity to extensive dikes of diorite.

The ore itself is a mixture of chalcopyrite and pyntrotite, carrying large proportions of nickel and resembles the ores being worked at Sudbury with the exception that it is considerably richer.

A gang of men under the direction of Captain La Roche are operating a diamond drill recently received from the Diamond Prospecting Company of Chicago with very satisfactory results. The nickel veins or deposits in this vicinity are unusually wide, and assays show that the ore increases greatly in richness as depth is reached. This immense deposit, according to analysis, contains over 2½ per cent. of nickel as sulphuret of nickel and sulphuret of iron.

Marquette capitalists are negotiating to acquire a large tract some three miles from here, and it is said that the location in Craig owned by a Toronto gentleman named Fairclough will shortly change hands at a big figure, the buyers being a wealthy syndicate of English capitalists.

Remarkable Condition.

ORILLIA, May 22.—Ruth Marshall, a domestic in the house of Mr. James B. Tudhope, fell into a trance, from which she has not yet recovered. Means have been taken to bring her to, but when spoken to or shaken she merely opens her eyes with a dazed expression. The cause given for her condition is that some of the tissues of the brain are clogged up. One of her sides has become paralyzed and she is very low. What makes the case more peculiar is that Miss Marshall is a big strong girl who has not heretofore known what sickness was.

May Lose His Life in Vain.

QUEBEC, May 22.—A little child of Mr. Charles Demeules of St. Raymond, while at play on the Lake St. John Railway track at Freuette's crossing yesterday, was struck by a passing train and instantly killed. The coroner left this morning to hold an inquest. The father in trying to save the child was also struck by the train and badly injured.

AMHERSTBURG, May 22.—Alexander Scott was assisting to unload the coal barge Black Diamond at Shipman's dock. As the loaded bucket was being raised the guy rope slipped and the bucket came down, pinning Scott to the deck. His shoulder and breast bones and internal organs were badly crushed and his backbone was dislocated. He cannot recover.

Major Buchan Mentioned.

WINNIPEG, May 22.—Col. Villiers, D.A.G., will temporarily succeed Col. Taylor, commandant of Infantry School, who died yesterday. Efforts are being made by citizens to secure the appointment of Major Buchan, formerly of the Queen's Own and 90th, to the position.

A Circus Train Wrecked.

St. Jo, Mo., May 22.—A circus train of Lenan Brothers was wrecked in the yards of the Santa Fe yesterday. Three showmen were fatally injured, two cars demolished and a pair of lions killed.

Stand Your Ground.

When you make up your mind to take Hood's Sarsaparilla, do not be induced to buy some other preparation instead. Clerks may claim that "ours is as good as Hood's" and all that, but the peculiar merit of Hood's Sarsaparilla cannot be equalled. Therefore have nothing to do with substitutes and insist upon having Hood's Sarsaparilla, the best blood purifier and building up medicine.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355.92
Increase over previous year	3,421,372 84
New Applications received in 1890	6,371,599 15
Increase over 1889	2,268,888.60
Cash income for year ending 31st December, 1890	889,078 87
Increase over 1889	325,938 35
Assets at 31st December, 1890	2,473,514 19
Increase over 1889	637,691 47
Reserve for Security for Policy Holders	2,109,222 68
Increase over 1889	567,732 71
Surplus over all Liabilities and Capital Stock	232,175.69
Increase over 1889	75,649 05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS so unrivalled during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)		$64 824 07
" " " "	1886, "	80 452 97
" " " "	1890, (four years)	232,175 69

Juvenile Mission Bands.

A Paper Read Before the Late District Convention of the Methodist Women's Foreign Missionary Auxiliary, by Mrs. (Dr.) Harrison, Keene, and Published by Request.

JUVENILE MISSION BANDS.

Mrs. President and co-laborers in this, one of the noblest fields of Christian work, that is, the development of the missionary spirit, at the formative period of life, which we all know to be the golden age for educational purposes. For has it not been said, "Give me the child and I will form the man," and again, "Let me teach a child and mould his character until twelve and none who follow can seriously shake, or undo, what I have done."

It is with a feeling of pleasure, shadowed by one of diffidence, that I am present with you this afternoon, to present the subject assigned to me, that of Juvenile Mission Bands.

A Mission Band is composed of those of our homes, and our neighbours' homes, who are our joy—the light of our eyes—and sad to say often the triers of our sometimes scanty stock of patience. They are that younger element of our homes and the church not workable as members in the adult societies of the church.

The object is to cultivate a missionary spirit, to develop sympathy for the ignorant and suffering, and an earnest wish that "I could do something to help it," — yea more, "I'll try."

Then a practical side is the raising of money for missionary purposes, also the lesson of consecration, by work — in making of garments or collecting the same to be sent to the destitute and needy of our mission fields. Jesus commands this and they need our help. Our hearty response to the Macedonian calls for a help less hand is one way to fulfil that application of the law of love—"Bear ye one another's burdens, and so fulfil the law of Christ." The question arises,

HOW TO KEEP UP THE INTEREST

in the Band work. There are many ways by which interest may be created and maintained. Let each member feel that "it is my Band; and unless I do my share, it will not be a success; in fact if I do not look after it, it may go to pieces. Cultivate the *esprit du corps*.

Sessions should not be too lengthy nor be wearisome, and the exercises should be very bright, sparkling and varied. Always have something new and fresh; quite taking with the little ones, you know.

The conductor should be the very nicest, most willing and lovable, most level-headed; the one best able to interest, instruct and develop the material at hand; especially able to rule perfectly, without letting the children feel the guiding hand. In fine, the very best person available for Band work, as well as for all children's work.

Socials and public entertainments are good in their places, not with the sole view of raising money, but also with a view to the cultivation of the sociable side of the nature God has given us, for, unless we arouse the realization of the brotherhood of man, and bring it out in children's lives we cannot light the true missionary flame which when lighted must be continually fanned, or it may die.

The little ones are the hope of the church, who, if won for the Master will take our places and play their part in the drama of life when we have passed away. Then let us try and prepare them for the carrying on of this blessed missionary work. If we do our duty by them they in turn will do better and larger work than we, for the spirit of Christ is ever onward and upward.

The meetings of the band should partake of a devotional character; they, the little ones should be asked to remember the objects of the band in their prayers. Ask them to find out something each week about some of the countries or places where missionary work is being done, especially to look for information about the place that the last bag of contributed articles of clothing, books or toys went to, with the thought always before them that

THEY ARE HELPING IN THIS GOD-LIKE WORK

and in the bettering of the world they can be some of the instruments used by the great Father of all.

A great deal of singing helps the interest. Children, like birds, are in their element when trilling forth songs of joy and praise. Use good and judicious children's songs, hymns, and especially motion songs. Occasionally tell a story. Better have them tell one, or recite if but a few lines. Better still, have some member write a story or an essay about some phase of the *missionary work*. As much as is possible and prudent, let them do the work. Avoid one person doing all, the motto being, let every one do something. Judiciously help the diffident and suppress the too forward and insuppressible ones. These are a few of the general principles underlying the conduct and management of bands.

All of us cannot work in the same way, any more than all needles can do the same work. Yet, we can adapt and make use of generalized principles; for, to work earnestly, prayerfully, and wisely, especially with the wisdom born of prayer, is always on the line of successful work.

We may now take up some of the effects upon the members. Though, generally, in band work we see few direct results, yet let faint hearts take fresh courage and keep the thoughts before them that they are the sowers —"that in due season they shall reap if they faint not." Not only are the children benefitted and blessed, but the leader, too, sometimes receives a Benjaminite portion—"Forasmuch as ye have done it unto one of the least of these, ye have done it unto Me." Woo, then, to-day, would not say:—"Here am I; use me as a leader, a guide, a moulder in the Master's great work-house of life?" Then, ofsentimes,

THE BAND WORK REACHES THE HOME.

While the little prayer for God to bless the poor and needy, and the missionaries in their good work is repeated at the mother's knee, perchance the Spirit moves and inspires her as she lays her hand in heavenly benediction upon the little head to drop a seed thought that may germinate and bring forth much fruit for the Master.

The work belongs to and is auxiliary to the church, to the Woman's Missionary Society and, in a broader sense, to the whole human race, in its wide-reaching influences, because of the Fatherhood of our God and the Brotherhood of our Christ. Now, if a Mission Band is a benefit to each member, to the leader, the home, the church, the Woman's Missionary Society, and the world in which we move and live, let us each ask ourselves the question: "What can I do to help this cause?" And don't let us stop here, but become a helper, aye, a consecrated helper. The development of the cause in our beautiful Province of Ontario, the fairest gem in our Federation, has resulted in the organization of upwards of ninety reported bands, with a membership of over three thousand, and an income of about $5,000. Let our watchword be "Onward and Forward," inscribing on our banner, "For Christ and Humanity," and let none think they have lack of opportunities or abilities for work, ever remembering the beautiful centre thought in the child's sweet dream—

And in my dream I saw you there,
And heard you say, "No hands can bear
A gift that are so filled with care."

"What care?" the King said, and he smiled
"To hear you so sweet, willing, wild,
"I only toil to help a child."

And then, with such a look divine—
"'Twas that awoke me with its shine,"
He whispered, But the child is mine.

The Christian Alliance.

Objects and Aims of the Alliance—General Features of the Work.

The programme of the Convention of the Canadian Auxiliary Branch of the Christian Alliance, to be held in Peterborough, in Bradburn's opera house, on Tuesday, Wednesday and Thursday, June 9th, 10th and 11th, has been received. There will be three meetings daily, beginning at 9 a. m., 2 p. m. and 7:30 p.m.

The printed programme states:

The Rev. A. B. Simpson, of the Gospel Tabernacle, New York; Rev. Dr. Wilcox, late of St. George's Episcopal church; Rev. F. L. Farr, Milford, Mass; Rev. C. W. Ryder, of Providence, R I.; Rev. J. Salmon, Toronto; Mrs. E M. Whittemore, Mrs. Simpson, Miss Lindemberger and Miss F. L. Shepard, of New York, and Mrs. Beck, of Philadelphia, Pa., are expected to take part in these meetings.

Careful Bible Readings will be given, especially on such subjects as true Christians are most likely to be seriously exercised about, on account of honest diversity of judgment, where there is at the same time the sincere desire to know and obey the truth, as God has revealed it in His word.

The principles of the Christian Alliance are now so well known that it is almost needless to say, as on former occasions, that it is not in any sense an ecclesiastical organization, but it is a fraternal union of believers in the Lord Jesus Christ, in cordial harmony with all evangelical Christians, and its chief object is to bear a united testimony to the fullness of Christ as presented in the four great truths of the gospel:

1 Salvation through Christ for all who believe in Him.

2 Sanctification of life and walk, through Christ's indwelling, for all who fully yield themselves to Him

3 Divine Healing through the name of Jesus, by the power of the Holy Spirit, for those who believe and obey Him.

4 The Personal and Pre-Millennial Coming of the Lord Jesus Christ.

Another great object of the Christian Alliance is, so to unite Christians, irrespective of all denominational distinctions, in a common bond of mutual sympathy and prayer, for the speedy manifestation of the fullness of Christ in His people, and for His personal coming, that they will be stimulated to greater zeal in the work of missions at home and abroad.

The following programme will be generally adhered to in the coming convention, varied of course by circumstances:—

First day.—Subjects,—Christ our Saviour and Sanctifier; second day.—subjects, Christ our Sanctifier and Healer; third day,—subjects, Christ our coming Lord, and the obligation to evangelize the nations in view of His coming.

On each day the order of exercises will be as follows:—

9 a.m. prayer meeting, 10 to 12, two Bible readings; 2 to 3, questions; 3 to 5, Bible reading; 7:30 p.m., addresses by Revs. A. B. Simpson, Dr. Wilcox, F. W. Farr, Mrs. Whittemore and others. The singing will be led by Miss Shepard, of New York. A special collection of hymns will be used at the meetings. All Christians are cordially invited to attend.

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c, and $1 a package, and is called Lane's Family Medicine. dw

It Does Its Work.

Mrs. James Dix, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

Everybody Likes It.

Wm. Dredge, Eilen street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised. Sold by all druggists. dw

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure blood, removing all foul humors, from a common pimple to the worst scrofulous sore. 2w20d

Would not be Without It.

Dyer's Jelly of Cucumber and Roses for chapped hands and for making the skin smooth and soft. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 61116

W. A. Greatrex, Druggist, has for sale the Royal Rheumatic Remedy. It is no new formula, having been before the public for 12 years and effected wonderful cures. Write to R. R. R. Co. for testimonials. dw

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

THE RED COLOR of the blood is caused by the Iron it contains. Supply the iron when lacking by using Milburn's Beef, Iron and Wine. dw

"MANY MEN, MANY MINDS," but all men and all minds agree as to the merits of Burdock Pills, small and sugar-coated. dw

People Wonder

WHEN they find how rapidly health is restored by taking Ayer's Sarsaparilla. The reason is that this preparation contains only the purest and most powerful alteratives and tonics. To thousands yearly it proves a veritable elixir of life.

Mrs. Jos. Lake, Brockway Centre, Mich., writes: "Liver complaint and indigestion made my life a burden and came near ending my existence. For more than four years I suffered untold agony. I was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digested at all. Within the time mentioned several physicians treated me without giving relief. Nothing that I took seemed to do any permanent good until I began the use of Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I could see an

Improvement

in my condition, my appetite began to return and with it came the ability to digest all the food taken, my strength improved each day, and after a few months of faithful attention to your directions, I found myself a well woman, able to attend to all household duties. The medicine has given me a new lease of life, and I cannot thank you too much."

"We, the undersigned, citizens of Brockway Centre, Mich., hereby certify that the above statement, made by Mrs. Lake, is true in every particular and entitled to full credence."—O. P. Chamberlain, G. W. Waring, C. A. Wells, Druggist.

"My brother, in England, was, for a long time, unable to attend to his occupation, by reason of sores on his foot. I sent him Ayer's Almanac and the testimonials it contained induced him to try Ayer's Sarsaparilla. After using it a little while, he was cured, and is now a well man, working in a sugar mill at Brisbane, Queensland, Australia."—A. Attewell, Sharbot Lake, Ontario.

B. B. B.

CURES DYSPEPSIA.

DEAR SIRS,—About a year ago I had a very bad attack of dyspepsia. For nearly four months I never ate a meal without suffering pain after. I kept getting worse and worse until I was obliged to give up my duties as a teacher. I had got so weak I could scarcely walk, when one day I saw an advertisement for B.B.B., and thought I would try a bottle; I did so, and before I had finished it I was able to teach again. Four bottles cured me completely. MISS JANET STUART, Muskoka Falls, Ont.

In 19 Cases Out of 20

B. B. B.

CURES BILIOUSNESS.

DEAR SIRS,—I was troubled for about 35 years with Bilious complaint, and after using about three bottles of your Burdock Blood Bitters, I feel entirely relieved, and have not had an attack for the last two years. JOSIAH GAMEY, Maxwell, Ont.

In 49 Cases Out of 50

B. B. B.

CURES BAD BLOOD.

GENTLEMEN,—Last fall I had boils very bad, and a friend advised me to try B.B.B., and so I got a bottle, *the effect was wonderful*, the boils began to disappear, and before the bottle was done I was totally cured. As an effectual and rapid cure for impure blood, Burdock Blood Bitters cannot be excelled. JESSE JOHNSON, Rockwood, Ont.

In 99 Cases Out of 100

B. B. B.

CURES CONSTIPATION.

DEAR SIRS,—I was troubled by costiveness and sick headache, and in fact felt very miserable until I tried B.B.B. I used seven bottles with Burdock Pills also, and they made me as well as ever I was. This was about two years ago and I still enjoy the best of health. MRS. A. MCCULLOCH, Digby, N. S.

Even in the Worst Cases

B. B. B.

CURES SCROFULA.

SIRS,—Two years ago I was troubled with an ulcer on my ankle; having used B. B. B. for bad blood I procured a bottle, and a box of Burdock Healing Ointment; after using three bottles and three boxes I was completely cured, and can recommend it everywhere. Yours truly, MRS. WM. V. BOYD, Brantford, Ont.

B. B. B.—$1 per Bottle, 6 for $5, or less than 1 Cent a Dose.

Maple Syrup.

JUST RECEIVED

A very Superior Grade of Maple Syrup from eastern townships, which is both light in color and heavy in weight, and of the finest flavor. THEY'RE IN THE SWIM.

ACQUATIC SPORTS BECOMING MORE AND MORE POPULAR YEARLY.

How Beginners Are Taught to Swim by Experts and How Boys Learn Wherever There is Water—Swimming as a Means to Graceful Figures.

TO KNOW how to swim is a knowledge that should be possessed by every man or woman; and, as it isn't always easy or convenient to learn in adult life, it follows, as the night the day, that it's a good plan to begin swimming as boys and girls, and to begin right.

"What is the right way?" was asked an expert on physical training. "If you had a boy or girl to teach swimming how would you go to work to do it?"

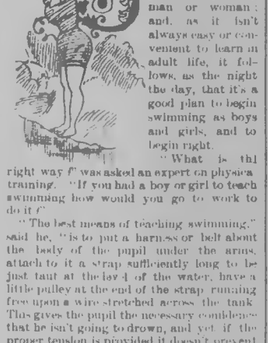
"The best means of teaching swimming," said he, "is to put a harness or belt about the body of the pupil under the arms, attach to it a strap sufficiently long to be just taut at the level of the water, have a little pulley at the end of the strap running free upon a wire stretched across the tank. This gives the pupil the necessary confidence that he isn't going to drown, and yet if the proper tension is provided it doesn't prevent him from working. It's better to have the top and a portion of the strap of rubber, to allow for stretching. The pulley follows him back and forth about the tank and —"

"Yes, but it isn't everybody who has a tank. How would you work it out of doors?"

"Oh, in that case I would attach a similar loop to a short, stout pole, and go out upon a float in a heavy boat and encourage the pupil to swim round and round it, gradually easing away the tension upon the loop as he became proficient, or tightening it as he floundered—just like playing a big fish, you know. Or, if I lived near a river, and the bank was sufficiently steep, I could walk along by the side of the water, while the pupil in his harness swam alongside. As soon as possible I could dispense with the harness altogether and go into the water with the child. The old-fashioned way of supporting the young swimmer with the hand under his chin is not so good, because the support thus placed at one extremity of the body, is not as available the feet tend to sink and the pupil clutches instinctively his instructor's arm."

The old paddle-stroke sometimes used in swimming—the boys call it "dog-fashion"—is never employed by fast swimmers except possibly for a few strokes to rest some tired muscle. The square breast-stroke, which is what most people first learn, is not a very fast one either, though for long distances it is the easiest. Most of the tide-water racers use the English stroke, in which one side of the body, usually the right, alternating with the left for shorter periods, is kept well in advance, one arm ever reaching out toward the goal, the other underneath never showing above the water. The body seems to meet with less resistance when it thus cuts the water edgewise, as it were. When a swimmer has mastered this stroke and can dive forward, backward or sideways, he is ready for water polo, swimming races, diving for small stones or for saving lives if he is strong enough.

And that reminds us—since warm weather is coming on and since, upon an average, a boy a day will be drowned until snow flies in ordinary bathing, to say nothing of vaulting accidents and tumbles overboard—that a good way to rescue a person who is drowning is to swim behind him, clasp him about the body under the arms, turn upon the back, and swim toward shore in that attitude. Another way is to clasp his head



JOHNNY LEARNING TO SWIM

from behind before assuming the same position. The reason for turning upon the back is that the rescuer's buoyancy is much greater in that position, as only his nose need then be out of the water. The drowning person being approached from behind is less able to clutch at his rescuer and impede his work. This is the method almost universally employed by the famous life-savers at the big swimming beaches. The rescuer is justified in using any amount of brutality to prevent the drowning person from seizing him, as that may result in the death of both. A sharp pull at the hair of the subject frequently brings him to his senses and induces a proper meekness and submission.

To resuscitate a person who has been nearly drowned and is unconscious the body is laid upon the face, with the head well down, to allow the water to run well out of the mouth and nose. The respiration may then need to be artificially restored. This requires hard work by two persons. The air can be partly driven from the lungs by direct and heavy pressure on the chest. Then—the body lying now on its back—grasp the hands and turn them forward and up until they are in a line with the body over the head. Then pull them forcibly in that direction, as if stretching them. This pulling will cause the lower ribs to start and a small quantity of air will be drawn in. Place the arms again at the side and press the air out, then repeat the stretching process. Continue the stretching and the pressure alternately until breathing is resumed.

The assistant who holds the feet of the subject is meanwhile busy, chafing, slapping and rubbing them to restore the circulation.

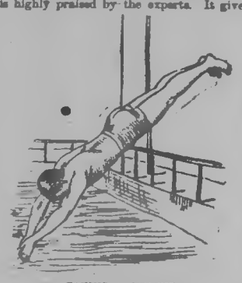
To be effective this treatment must sometime be long continued. Cases are known where natural respiration has been restored after half an hour's work upon the subject. It is a good plan not to give up a doubtful case until all doubt has vanished.

There are other more elaborate methods of resuscitation, but this is easily remembered and applied, and will work in a majority of cases.

"Probably you do not approve the old heroic method of throwing the pleading, crying lad at once into deep water?"

"Certainly not. There is, to begin with, a very considerable danger of drowning. Even if no such result terminates the experiment the pupil is apt to get such a terror of deep water that he will never willingly go into it again. Of course, though, some boys would learn to swim that way and many have. The plan would probably succeed best in the case of some street arabs who have never been accustomed to anything but abuse from their birth up, and who can stand anything and then wait to pay off upon the next fellow. But I wouldn't let a child of mine be so treated."

The increased attention paid to water sports by gymnasts is an encouraging thing, because the example is sure to be followed. Considered purely as an exercise swimming is highly praised by the experts. It gives



TAKING A HEADER.

a variety exercise, calling into play many muscles not ordinarily used, but it is its effect upon the lungs and muscles of the rear of the neck which most commands it. The exertion of breathing while immersed in the heavier fluid is excellent for reasonably healthy lungs, affecting them like mountain climbing, while the necessity of holding the head well up induces an exact carriage. Wry-necked expert swimmers are not often seen. They are, as a rule, splendid, deep-chested fellows with erect heads and fine carriage. This applies to women, too. No more magnificent specimen of physical development was ever seen than Agnes Beckwith, the English swimmer who was with Barnum a few years ago, and whose statuesque pose before the plunge set puny dudedom crazy with delight. A woman who swims much is apt to have a figure which causes envy in others of her sex.

A Double Liability.

She—"You never hear of women cashiers embezzling or running off with their employer's money."

He—"Not often; but when it does happen they take the employer, too."

Rev. Plink-Plank on Financiering.

"Ef a man fails in bizness fru his own fault, an' settles wif his creditors for ten cents on de dollah, an' makes a fawchun on dat way, deah breddern, he mus' expeck ter have his accounts balanced on de same plan when he passes in his checks at de Golden Gate. An' I tell ya, deah frens, wen he has ninety per cent knocked off his good deeds, de remains will entitle him to go down below an' take a front seat wif a short poker in his hand close up to de fire."

Perfect Food Rations.

It may be possible to give a nearly perfect ration for an animal, but it is not always advisible to use such a ration. It is possible that in some seasons or in some sections the cost of an element in that ration would make it unadvisable to feed. We must feed, to some extent, according to circumstances, always keeping in mind that it never pays to feed what will absolutely injure the animal, however cheap it may be.

From the Pacific Coast.

We quote from a letter recently received from Miss Eleanor Pope, Port Haney, B C: "For sore throat, coughs, croup, bruises, &c., Hagyard's Yellow Oil is the best thing I have ever used." 2w20i

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2w20i

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She resolved to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS. KENNEDY, Hamilton, Ont. 2w20i

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2w20i

Worthy of Confidence

Those who have used it praise it: Mrs. George Ward writes from Josephine, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2w20d

When Baby was sick, we gave her Castoria.
When she was a Child she cried for Castoria.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 20th, 1888.
I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.
JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 10th, 1883.
I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use.
D. A. GORTON, M. D.

WASTING DISEASES

127 West 34th St., New York, Aug. 6, 1888.
I have used your Flax-Seed Emulsion Compound in a severe case of Mal-nutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large. M. H. GILBERT, M.D.

RHEUMATISM

Sold by Druggists, Price $1.00.

FLAX-SEED EMULSION CO. 35 Liberty St., New York.

The D & L Emulsion OF Cod Liver Oil AND THE Hypophosphites of Lime and Soda.

No other Emulsion is so easy to take.
It does not separate nor spoil.
It is always sweet as cream.
The most sensitive stomach can retain it.

CURES

Scrofulous and Wasting Diseases.
Chronic Cough. Loss of Appetite.
Mental and Nervous Prostration.
General Debility, &c.

Beware of all imitations. Ask for "the D. & L." Emulsion, and refuse all others.

PRICE 50C. AND $1 PER BOTTLE.

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit, get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eod-w

Thursday, June 4th

The Edison Sizing Trouble Revived.

Just as everybody thought that this question was settled the trouble breaks out afresh. The real cause of the last deadlock is unknown, but this much is positively certain, that hawley bros. have the best teas and the choicest coffees in the district. dw

Summer Suits.

The fact is as solid as the rock of Gibraltar that the finest, best, cheapest, nobbiest and most complete stock of clothing in Peterborough or any where else is at the store of Gough Bros. the wonderful cheap men. Rock bottom prices and the best of clothing; no end to the stock. wd

Return Fare $1 85

Punishment Enough.

Justice is justice, but there can be too much of a good thing. Any man that spends a night in the police cells, has had punishment enough, without two dollars or ten days. The smell is simply villainous, pestiferous in every way. If this smell pervading the cells is meant as a deterrent to crime, it should keep a decent man out of them at any other risk.

A Good Offer.

I will double your salary for you if you will call at my office and be guided by me in the purchase of a piece of Real Estate. No risk, no loss of time from your business and a certain return of from 10 to 100 dollars per month in proportion to the amount you invest. Call and I will satisfy you as to the correctness of above statement.

3d121 T. HURLEY.

Two Days

Sunday in Rochester.

No. 4 Company. Attention.

Members of No. 4 Company who have not been served with clothing will find the armoury open at 7.30 sharp this evening evening. LIEUT. LEECH.

The Dear Boys.

For children's clothing, there is nothing so cheap, except their skins, as the new, spicy and stylish suits to be found at Gough Bros. Their special line of confirmation suits will be found the finest ever put on sale, and the cheapest ever offered. Call and see. wd

Telfordian Temperature Topics.

SATURDAY, May 23rd.—At sunrise this morning the thermometer stood at 34°, only 2° above freezing, but no doubt in low situations and on some vegetables, the white frost will make itself felt, as I have seen places white at 36°. It will probably bring rain soon.

Young Women's Work.

Will those interested please note that the Young Women's rooms, 426½ George street, will not be open, as heretofore, until such time as the damages done by the fire of the 18th inst shall have been repaired. Due notice will be given of the re-opening.

The First Military Excursion.

The first military excursion will be run from Peterborough on June 5th, under the auspices of Capt. Johnson, of the 46th Battalion, the members of whose company reside principally in Cavan. The excursion will run to Jubilee Point.

Worth Remembering.

That you can get a good Hardwood Bedroom Suite at A. CLEGG'S for $12 50.

A good woven wire Spring Bed for $3 00.

A good Hardwood Bedstead for $2 00.

A good Mixed Mattress for $3 50.

Remember the place—A. CLEGG'S, 427 George street. 3d121-1w22

New Bell Telephone Instruments.

The Bell Telephone company has placed the following new telephones in circuit:—Conroy's butcher shop, 235; Mrs. Mercer's residence, 240; Harry Allen's residence, 237; Dr. Carmichael, office, 238; H. Calcutt's house, 233; Geo. L. Schaffer, 232; F. Mason Seed Store, 129; McF. Wilson, 234; Geo. Matthews, 224; J. W. Brisbin's residence, 230.

Queen's Birthday Celebration.

Bates Bros. are making active preparations to accommodate the big crowd on Monday, May 25th. Dinner will be served all day long in the rooms over their store at 422 George street, while their dining room down stairs will be reserved for soft drinks, ice cream, lunches, etc. An abundant supply of fruit and confectionery on hand. BATES BROS., 422 George street (late Mrs. Harvey's). 1d

Pitching the Tents.

A squad of volunteers of the 57th has been engaged to-day, under the command of Adjutant Dennistoun, pitching tents on Burnham's Point for the use of the Governor-General's Foot Guards. There are over 50 tents provided with waterproof blankets, etc. The squad will remain on guard to-night, and be on hand to receive the Guards when the arrive. They will reach town about six o'clock Sunday morning and march to their camp.

Two Bears Killed.

Owing to the extensive forest fires raging in the northern part of the county bears, says the Norwood *Register*, are unusually plentiful in that neighborhood. Last week Mr. John Drain, who resides in the vicinity of Stony Lake, had the good fortune to capture two of these troublesome animals. They were caught in traps and despatched with a rifle. Sheep are suffering severely from brute's ravages in different parts of the country.

A Serious Accident.

About noon to-day, when the alarm of fire was ringing, Mr. Wm. Currens, of Smith, a gentleman of agout 60 years of age, was passing a horse that had been stopped on the crossing, corner of George and Simcoe streets; the animal kicked viciously, and striking Mr. Currens on the leg, broke both bones about midway between the knee and the ankle. The gentleman was carried into Fairweather & Co's hat store, and Dr. Bell summoned, and under his direction the patient was removed to the residence of his stepson, Mr. James Haggart, 573 George street, where his injuries received attention.

High Class Harness.

This afternoon Mr. Harry Drake's hack team was paraded in front of Devlin's harness shop, 137 Hunter street, to be fitted with what the maker declares are the finest set of harness ever turned out in Peterborough—the best material, the best mountings, (English silver plate), the best make and the best style. The maker is a first class mechanic such as Devlin always employs, and the job he has done is a credit to him, altogether this set is the finest $150 worth of leather ever put on a horse's back in this town. Devlin always puts the best of work upon the best material and that accounts for the large trade both local and outside he has worked up. Those who want good and stylish harness always go to Devlin's.

Our Lacrosse Team.

The following team will represent Peterborough on Monday in the lacrosse team in the P. A. A. grounds:—

Goal	F. Larone
Point	F. Packenham
Cover	T. Cronin
First Defence	J. McCabe
Second Defence	T. Maher
Third Defence	E. Hickey
Centre	W. Hendren
Third Home	F. White
Second Home	J. Begley
First Home	J. Daly
Outside Home	J. McDonagh
Inside Home	W. Phelan
Field Captain	W. Rudkins

The team may be expected to give a good account of itself and to give the spectators a lively exhibition of the national game.

The Hair and Hair of Samson

In former days great reverence was paid to extraordinary strength. We yet admire the massive proportions of a Hercules. Cpr, our Canadian Samson, is the undisputed champion weight-lifter of the world. He is a thousand pounds over the record. He comes to assist a local athletic organization and most good-naturedly makes his charge a reasonable one. He was the lion of London and Paris where vast crowds gather at his nightly performances. He will be assisted by a picked detachment of the 57th Rangers under Sergt Hall by special permission of the Lt.-Colonel commanding. This squad will give the bayonet and manual exercises. Mr. Thos. Dann our admirable baritone will sing "The Gay Hussar." It is to be hope that the entertainment will be largely patronized by the ladies. The Fire Brigade Band will play some special selections Reserved seats at Thompson's. Remember the 27th. 1d

WHO IS SAM SMALL?

Everybody knows, or ought to know. You might as well ask who is Talmage, or who is Spurgeon, or who is Sam Jones? We believe Sam Small has not favored any place in Canada outside of the largest cities with his presence on the public platform such is the demand for Sam Small that he has already been engaged for a month in September, by a Toronto agent. Crowded houses greeted him on his recent visit to Toronto and we mistake the good judgment of the people of Peterborough, if the Opera House is not packed on Wednesday evening next Secure your tickets at once at Greatrex's drug store.

Use Your Feet.

To guide you to the store of Gough Bros. the wonderful cheap men where you will find the cheapest, best and most varied stock of boots and shoes for all ages and both sexes. Good as gold and cheap as good advice. dw

Piano Tuning.

Mr. G. Gumpricht is in town. Orders may be left at Messrs. Taylor & Macdonald's or at the Peterborough Bookstore. d

The Holiday Programme.

Ways and Means for Celebrating the Queen's Birthday Pleasantly and Profitably.

This year, the 72nd anniversary of Her Majesty Queen Victoria—long may she reign—falls on Sunday and there must be a little adjustment of the calendar to admit of the secular celebration of so auspicious an anniversary.

The *chief events* will be

THE MILITARY CELEBRATION.

The arrangements made for Sunday are:

On Sunday, the 24th, the Fifty-seventh and band will parade in review order at two o'clock p.m. at the drill shed; they will then march to the Hunter street bridge, where they will meet the Guards, when the brigade, which will number about 600, will march to St. John's Church, where a special service will be conducted by the Rector, assisted by the Ven. Archdeacon Lauder, chaplain of the Guards, and Rev. Canon Davidson, of Colborne. The united bands will perform the National Anthem on the church grounds immediately before or after the service.

The usual arrangements at St. John's will be modified owing to the military service in the afternoon. The Venerable Archdeacon Lauder, Rector of Ottawa, will be present, and has kindly consented to preach in the evening. The two Bible classes will necessarily be postponed, but the Sunday school will be held as usual. The parade service will begin at 3 p.m. and conclude at 4.15. As the seating accommodation of the church will be completely occupied by volunteers, it is impossible for the authorities to give any general invitation to the public, which they much regret. At the conclusion of the service, however, (if the weather be favorable) the National Anthem will be sung on the church grounds, led by the combined military bands, in which it is requested all present will join.

On Monday, May 25th, the Fifty-seventh Battalion will parade in review order at the drill shed at 9.30 o'clock and march to the camp of the Guards at Burnham's Point. The brigade will then perform a route march through the principal streets and return to the camp. The Governor-General's Foot Guards will then troop their colors, and at 12 o'clock the brigade will fire a *feu de joie*. This will be followed by a march-past of the brigade.

There are, besides, several other events, giving chance for enjoyment, in the many excursions, etc.

The steamer "Golden-City," connecting with the G. T. R. Lakefield train, will take tourists around the lakes on Monday to connect with the Tuesday morning train.

The steamer "Golden-Eye" will take a trip to Idyl Wild, when the formal opening will be held on Monday with great jubilation, the "Daisy" and "Pearl" bringing excursionists from different points.

The Grand Trunk will take passengers to Port Hope for an excursion to Rochester.

The lacrosse match and races will engage the attention of sporting persons at the Ashburnham P. A. A. grounds in the afternoon.

The annual spring meeting of the Peterborough Driving Park Association will be held on the 25th.

The Rev. Father Conway's annual pic-nic at Norwood will probably take a large quota of his friends from town on the 25th.

There will also be a cheap excursion by Grand Junction to Campbellford under Oddfellow auspices. Train leaves at 8:20, return at 6 p.m. Round trip fare 60 cents.

Major Heron, of the Governor-General's Foot Guards, is in town to-day, completing arrangements for the visit of his men on Sunday and Monday.

Police Court.

SATURDAY May 23th.

The first business was the *formality* of asking "Lobscring" John Sullivan if he was guilty of being drunk and obstructing pedestrians. Of course the answer was guilty, and the usual sequence was equally of course, $2 00 or ten days in jail. "Guess I'll have to take the ten days," and he went up to the home on the hill.

George Taylor was arraigned on the adjourned charge of obtaining money under false pretences by procuring the cashing of a cheque for which, on presentation, there were no funds, and he elected to be tried summarily, and pleaded not guilty, Mr. R. E. Wood, C.C.A., appeared for the Crown and Mr. E. B. Edwards, appeared for the accused.

From the testimony given by Mr. J. B. McWilliams it appeared that George Taylor came to the latter on the 6th of February and wished to get him to cash a cheque, filled out exactly as cheque produced in court which was for $20 to the order of J. B. McWilliams. Accused said that Mr. McWilliams could get the cheque cashed in Toronto. He gave Taylor cash for the face of cheque.

Mr. McWilliams failed to get the cheque cashed. He addressed a letter to the manager of the Standard bank, and got a letter from the manager in reference to the matter. Mr. Taylor had introduced himself as a person interested in mining. There was some talk respecting a mine in Seymour, and Mr. McWilliams was willing to furnish money to test it if the accused could furnish a proper "option". He and the accused visited the alleged mine, and an instrument, claimed to have been invented by Taylor, was tried, and it indicated silver at a depth of nine feet. The accused spoke as a man of means, and presented the cheque as though he had an account in the Standard Bank in Toronto. The accused had borrowed $5 from Mr. McWilliams a day or two before, and subsequently the accused got $10 on the 23rd. Mr. McWilliams had not presented the cheque, but had written to the manager of the Standard Bank, who had replied that the accused had no account at that bank. Mr. McWilliams had not asked Taylor to pay back what had been borrowed, because the latter had avoided him.

Mr. J. L. Brodie, manager of the Standard Bank, Toronto, testified to the effect that George Taylor had no money in the Standard Bank on Feb. 6th last nor at the present time, nor at any time since 1887.

In addressing the court Mr. Edwards offered to pay the $20 cheque. Mr. Wood objected, unless the costs to which the county had been put were also paid. This Mr. Edwards declined.

The Magistrate then said he would reserve judgment, and the accused could take his chances, and he added to Mr. Edwards, "Hand me that $20." The Magistrate put the money on the table where Mr. Wood was sitting, and said that he would prefer not to make a conviction, restitution having been made. Mr. Wood said the accused was either innocent or guilty—if innocent, the question of restitution did not arise, if guilty, there should be a conviction, and the restitution can only affect the punishment.

The magistrate then said "I will not make a conviction."

Mr. McWilliams declined to take the money and demanded a copy of the evidence to submit, he says, the whole case to the Attorney General.

Promenade

Don't forget to be on hand for the grand Promenade Concert to be given by the united Bands of the Governor-General's Foot Guards and the Fifty-seventh Battalion, in the new Market Hall, on Monday evening, May 25th. The following excellent programme will be presented and played with splendid artistic effect:

Grand Concert

1 Grand March—"Unity" ..... G.G.F.G. and 57th [Batt Bands
2 Overture—"La Macon" ..... G.G.F.G
3 Fantasia—"Pride of Scotland" 57th
4 Valse—"Ehren on the Rhine" ..... G.G.F.G
5 Selection—"Maritana" 57th
6 Fantasia—"Ten Minutes with the Minstrels" [G.G.F.G
7 Overture—"Bohemian Girl" 57th
8 Lancers—"Madame Angot" ..... G.G.F.G.
9 Fantasia—"Brudder Gardener's Picnic" 57th
10 Galop—"Kanassan" ..... G.G.F.G.
"GOD SAVE THE QUEEN."

The opening number, a magnificent heroic march, will be performed by sixty instruments, and will be something in the line of martial music to which few in town have had the pleasure of listening. It is to be hoped that this concert will be well patronized. Its object is to increase the efficiency of the home band—to raise funds to purchase a better class of clarionets for the use of the band. The public will receive a direct return in the more effective music the band will be able to present in the park, where they perform so liberally during the summer months. The band is a public benefactor, and should be liberally supported—especially when the support is more than compensated for by a splendid programme like that printed above for the concert in the Market Hall Monday night next.

Out Goes the Goods.

Prices does it. When we say things are to go, they go. We mean everything we say. Goods at first cost and less, to clear. No wild statements; absolute facts. $9,500.00 to be cleared in thirty days, and they are going—fast. KNOWLAN & Co. 27ow

"There's No Place Like Home."

A Montana Letter From a Peterborough Boy—Interesting Advice to Unsettled Young Men—Canada Better than Montana—"The Maple Leaf Forever!"

Mr. G. A. Howson some time ago went to the "wild and woolly west" in search of fortune, and in a letter to a friend he gives his impressions of the country called Montana. From a letter dated at Missoula, Montana, May 15th, which Mr. Howson sends to Mr. John Haggart, the EXAMINER is permitted to make the following extracts:

I promised you before leaving Peterborough that I would write you, and tell you what I thought of the prospects this country affords for a man who wishes to better his condition in life, and who contemplates a change. I have often thought of my promise to you, and have as often decided to write to morrow, but upon reflection I concluded it were better to wait until I saw more of the country, and could form a better idea of its true merits or demerits. You will say it took a long time to reach a conclusion, but remember that it is a difficult thing to do; so hard for me to do that I am undecided yet.

Every old timer, every real estate agent, every land owner, and every newspaper, *is a boomer*, and according to them Montana is the hub of the universe, the great, the rich the golden, in fact a place in which is found a panacea for all earthly woes — a veritable Paradise. But the unemployed who listlessly walk the streets from day to day (and they number thousands) vainly seeking work, who find their little pile fast diminishing, and who have not money enough to take them home, tell a different tale, and I often hear them cursing the men who induced them to come here.

I have concluded that if a man has some money and is in a position to go into some business that he understands, he can do better than in the east; for, although rents and freights are fearfully high, yet prices are not cut and profits are good. A shop like Dolan & Co.'s, and as well situated, would rent for $300 to $350 per month; but a suit of clothes such as sells for $12 to $14 there, will bring from $40 to $60 here. I am also of opinion that a man who has no money, and who must labour for a living, can do better in Canada than he can here. It is true, wages are high, but everything else is high in proportion, and I doubt if a man saves any more here than he would in Canada, even if he gets employment, and thousands can't get it. Clerks and professional men are out in the cold here and should not come. There is really only three vocations here, viz., mining, railroading and shop-keeping, and the two latter industries are fully filled; and as to mining, it is at best uncertain, and men are roughly handled. To-night the Northern Pacific, with a special train, carried 800 negroes, picked up at St. Louis and Virginia, over into Washington, a few miles west of where I am now, to take the place of some coal miners who had struck for better terms. I saw the crowd, and a rum one it was. I mention it to show that miners are not satisfied. I have seen a great deal of this country; I have been in nearly every city and town in the State. The scenery is romantic and grand; the air is light and pure. I believe it is a healthy place, and if a man once gets a footing, he may do well here if he minds himself. If he *has any* bad habits he should not come, or, at least, he must leave them behind. The saloon and gambling house are the curse of this land, and woe to the man that patronizes them. I am writing this letter in a pretty little town called Missoula, on the western boundary of Montana, about 175 miles from Helena. I have been here ten days. I like the little town; it has a population of about 5 000. It is about 120 miles west of the main divide, and is ab n 3 500 feet above sea level. Fruits, such as grow about Peterborough, flourish here. The water is good and the weather simply delightful. It is situated at the head of a beautiful valley, just where the Northern Pacific Railway emerges from the Hell Gate Canyon. At my elbow roses are blooming, and flowers of all shades and colors abound, while off in the distance on every side I can see the snow capped hills, it is a pretty picture, but the most endearing sight of all to me, was a maple tree, the first I saw in this country. Trees will not grow in many of the towns here.

I have crossed the main divide of the Rocky Mountains ten times, gone through flannels for miles long, passed through deep ravines and dark canyons, hemmed in by mountains of bare rock of fantastic shape, whose snow capped summits pierce the clouds, climbed over mountains 8000 feet high, seen many a beautiful cascade as it leaped and tumbled, in its impetuous and headlong rush to sea, but I never saw any thing that so thrilled me with delight, as did that little maple tree, I did not hug the tree for fear of attracting attention, but I took a seat near it, and inwardly, with all the unction of *my soul*, I sang "The Maple Leaf Forever."

As for myself, I am well in health, I do a good busin-ss but am not making as much as I would like to. Railway fare is 5c to 7c per mile. Hotel fare $3 00 per day. A cigar costs 15c or 2 for 25c. Beer and other drinks 15c for a thimbleful. It does not affect me however as I never taste it, and if ever I live to get to Peterborough, I will show you one man who ran the gauntlet of the wild Northwest and never tasted liquor. I met James and Wm. Kemp here, nephews of Mr. E. Kemp, foreman at Adam Hall's. They are fine young fellows and doing well.

My address is
G. H. HOWSON,
Room 6, Atlas Building,
Helena, Montana.

Personal.

Mr. F. E. Perry formerly of Peterborough, now of Lambton Mills, is in town on a visit.

Mr. Dowd, the Provincial Organizer of the Independent Order of Good Templars, is in town again for the purpose of carrying on a vigorous temperance campaign till the meeting of the Grand Lodge, June 23rd.

W. A. Whitney, late of the U. S. Signal Service, Savannah, Ga., who came north last fall on account of poor health and has spent some months in Peterborough, will leave Peterborough on Tuesday next, for a summer's outing among the northern lake country of this province. Mr. Whitney who is a contributor to the *Detroit Free Press, Forest and Stream* and *Outing*, will devote a portion of his time in camp, to the preparation of a series of sketches and short stories, illustrative of Canadian backwoods life. Mr. Whitney has a high opinion of the sanitary value of the invigorating climate of Canada. Since his stay in Canada he has enjoyed the first good health he has known for years.

Y. M. C. A. Notes.

Young men's rally to-night, topic, "A clean start in life," Mr. Albert Hamilton, leader. lively singing. Hearty welcome to all young men, especially strangers.

Consecration service Sabbath morning, topic "Captivity of Israel," Kings 17, 7-18, Mr. Herbert Fife, leader.

Personal Purity meeting Sabbath afternoon at 4.15, for men only. Straight talk to men, hearty singing led by orchestra.

Mr. Isaac Richardson will address the Gospel and song service Sabbath evening at 8 30. Public invited.

Special invitation is extended to the Governor General's Foot Guards to visit our rooms and enjoy our privileges, also to attend our meetings during their stay in town. Any strangers will receive a warm welcome.

Young mens Bible class on Tuesday evening at 8 p.m.

DIED.

HIGGINSON.—At Rock Ferry, Cheshire, England, Martha J., wife of H. B. Higginson, and daughter of late Jas. Hall, Peterborough.

Purify Your Blood

The importance of keeping the blood in a pure condition is universally known, and yet there are very few people who have perfectly pure blood. The taint of scrofula, salt rheum, or other foul humor is heredited and transmitted for generations, causing untold suffering, and we also accumulate poison and germs of disease from the air we breathe, the food we eat, or the water we drink. There is nothing more conclusively proven than the positive power of Hood's Sarsaparilla over all diseases of the blood. This medicine, when fairly tried, does expel every trace of scrofula or salt rheum, removes the taint which causes catarrh, neutralizes the acidity and cures rheumatism, drives out the germs of malaria, blood poisoning, etc. It also vitalizes and enriches the blood, thus overcoming that tired feeling, and building up the whole system. Thousands testify to the superiority of Hood's Sarsaparilla as a blood purifier. Full information and statements of cures sent free.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

On Fire with Eczema

Terrible Sufferings of Little Baby—Seven Doctors and Two Hospitals Fail—Cured by Cuticura.

My baby boy, 5 months old, broke out with eczema. The itching and burning was fearful, the eczema spread to his limbs, chest, face and head, until he was nearly covered. His tortures seemed were pitiable to behold; he had no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in the city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $3 per week for medicines, and was entirely discouraged. I purchased CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, his sufferings were ended, and rest and sleep restored. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON,
36 W. Brookline street, Boston.

Cuticura Remedies.

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of eczema and psoriasis, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

Sold everywhere. Price, CUTICURA, 75c. SOAP, 35c.; RESOLVENT, $1. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testimonials.

PIMPLES, black-heads, red, rough, chapped, and oily skin cured by CUTICURA SOAP.

OLD FOLKS' PAINS.

Full of comfort for all Pains, Inflammation, and Weakness of the Aged is the Cuticura Anti-Pain Plaster, the first and only pain-killing strengthening plaster. Now, instantaneous, and infallible. dw

A BANK TELLER'S HAUL.

A MOLSONS EMPLOYE AT HAMILTON RAKES IN $5000.

The Friends of the Defaulter Have Promised to Make Restitution—The Books Said to Have Been Falsified to Cover up the Dishonesty The Name of the Defaulter is Said to be Stewart.

HAMILTON, May 25.—It has just leaked out that a clerk employed in one of the branch banks here is short in his accounts to the extent of about $5000. The bank people have endeavored to keep the matter as quiet as possible so as not to make depositors feel uneasy. The friends of the dishonest clerk have *promised to make full restitution* to the bank. If this be done, the culprit will not be prosecuted. The clerk in question was considered very reliable, had no extravagant tendencies and was considered thoroughly honest. He was a first-class financier and was tendered a promotion a short time since, but rather than leave his old position here he preferred to work for the smaller salary. Provincial Detective Greer has been here for some days and is engaged to keep the bank clerk under surveillance until the managers of the bank have been satisfied, and if this is not done to the satisfaction of the latter very soon a full expose and prosecution will follow.

The teller referred to is said to be named Stewart and he has been employed in the Molsons Bank for some time. His honesty was never questioned. Being a clever financier the officials recently promoted him to a more responsible position in another branch, but, strange to say, he preferred to remain here, accepting a smaller salary than he would have received had he accepted the appointment offered him. Perhaps he thought that if he remained here he would have a chance of covering up his tracks, so that his dishonesty would not be discovered, and an examination of the books showed that they had been falsified and that there was a shortage in the neighborhood of $5000. This amount may be in excess of the actual shortage, but it is impossible to get the exact amount at the present time. At first there was some talk of prosecuting the clerk, but his friends came to the rescue and made good a portion of the shortage, and it is believed that full restitution will be made. If the bank gets its money it is doubtful if anything more will be said about the affair.

The defaulter is the last person who would be suspected of crookedness, because he is not regarded as a high-flyer. Apparently he lived quietly, certainly not extravagantly and not beyond his means. He was never known to dabble in stocks or speculate in a large way. Naturally the question is asked, What did he do with the money?

SIR ROBERT FOWLER DEAD

A Member of Parliament and One of London's Ex Lord Mayors.

LONDON, May 23.—Sir Robert Nicholas Fowler, Bart., member of Parliament for London, died to-day from heart disease. The death of Sir Robert Fowler was primarily due to influenza.

Sir Robert Fowler was born in Middlesex in 1828, and was educated at University College, London. He was one of the partners in the banking firm of Dimsdale, Fowler & Co., London, and served as Alderman and sheriff of the city in 1878 and 1880 respectively. He was twice elected Lord Mayor, and during his second term, in 1885, was created a baronet by the Queen. He sat for Penrhyn from Dec., 1868, to Jan., 1874, and since 1880 has been one of the three Conservative members for the city of London.

OLIVE'S OLIVE BRANCH.

Its Father Had Already Married a Canadian and He is in Jail.

WATERTOWN, N.Y., May 24.—Mrs. S. T. Cummings has secured a warrant for the arrest of her husband on the charge of bigamy but he seems to have escaped out of the immediate reach of the law. Cummings is a Canadian. He came to Watertown with a wife and baby in 1880. His wife and child afterwards returned to Canada. Then Cummings changed his boarding place and fell in love with Emma Olive, the 16-year old daughter of his landlady. The girl learned that he was married and his love-making was interrupted for a time. He went to to Canada and returned, reporting that his wife was dead. He was then married to Emma, who is now the mother of a child two weeks old. The first wife has discovered the situation and is here to prosecute.

WITH HER DOLL IN HER ARMS.

A Tot of a Child Meets Death in a Pathetic Way

NEW YORK, May 25.—Joseph Hartl, who keeps a human hair store at No. 409 Broadway, Williamsburg, reported to the police at midnight last night that his little daughter Carrie, 3 years old, was missing from home and requested them to assist in finding her.

No trace of her was found until 9 this morning, when the unfortunate child was found drowned in a cask of water, head downward, in the cellar. Clasped tightly in her little arms was an old chinaware doll, which was little Carrie's inseparable companion. It is supposed that the child took the doll down into the cellar to wash it, and, leaning over the barrel lost her balance and fell head foremost into the water.

VANCOUVER, B.C., May 25.—E. D. McGregor, master painter, who has been in the city for about three years, was drowned on the Canadian Pacific Wharf this morning on business. When passing in front of the freight offices he fell sudly. Those near by rushed up to him, and found him dead. His death was undoubtedly due to heart failure. Deceased was 28 years of age. He has a sister living in the city, and is a son of the late Dr. McGregor of Ripley and Kincardine, Ontario.

BARON BURNED TO DEATH

STRANGE DEATH OF LORD ROMILLY FROM SUFFOCATION.

The Coercion Bill Passed in the Newfoundland Legislature—The Battle Between the British South Africa Co. and the Portuguese—Several Foreign News Over Night.

LONDON, May 24.—At midnight on Saturday Lord Romilly upset a paraffine lamp in the drawing-room of his London residence. He was alone at the time and vainly attempted to extinguish the fire unassisted. Shortly after the butler smelled smoke, and on making a hurried investigation found Lord Romilly lying senseless in the burning drawing-room, the nobleman having been overcome by smoke and the fumes arising from the burning contents of the lamp. Lord Romilly was subsequently removed to St. George's Hospital, where he died. Fire engines, in response to alarms sent out, hastened to Lord Romilly's house. The firemen on entering found Blanche Griffin, a housemaid, and Emma Lovell, the cook, in the same state of insensibility in which their employer was discovered. They were also removed to the hospital, where it was found that both were already dead. Another female servant and the butler had succeeded in escaping from the house. The fire, which was not extensive, was soon extinguished.

PORTUGUESE THE AGGRESSORS.

Further Details of the Battle With the South African Company's Police.

LONDON, May 25.—Lord Randolph Churchill cables from Capetown a graphic account of the recent conflict between the Portuguese and British on the Pungwe River. The collision occurred near Massikessi on May 12 between the Portuguese force and the British South Africa Company's police. The Portuguese force numbered about 250 Europeans and 500 natives, with four guns. The South Africa Company's police numbered 60 and they had only one gun. The Portuguese were repulsed, seven of them being killed and a larger number wounded. It is believed that the Portuguese, having occupied Massikessi, which they found duly evacuated, were marching on Urntassa when the conflict occurred.

A despatch from Lourenzo Marquez, a Portuguese town of Africa on the north side of Delagoa Bay, says the British torpedo cruiser Brick has arrived there and reports that a serious conflict has taken place between the British and Portuguese colonists. Commander Winsloe says the troops stationed at the Portuguese military post on the River Pungwe attacked the British South Africa Company's expedition commanded by Commissioner H. H. Johnston. Seven Portuguese were killed. The British loss is unknown.

LONDON, May 25.—The British Admiral at Delagoa Bay, referring to the recent encounter between the British South African Company's police and the Portuguese, reports that the Portuguese first assumed the offensive. The Admiral adds that the Portuguese were massed near Umtassakral, whence they marched on to Fort Salisbury in order to make an attempt to capture that place.

LISBON, May 25.—The Portuguese at the time of the fight were within their own lines at Massikisse and several hundred yards of the Mozambique Co. The newspapers here concur in denouncing the persistent efforts of the British South African Company to prevent an understanding between Great Britain and Portugal.

NEWFOUNDLAND

The Legislature Passes the Coercion Bill With Closed Doors.

ST. JOHN'S, Nfld., May 25.—The legislature passed the Local Coercion bill Saturday night with closed doors. There is public indignation in consequence.

The Governor's proclamation asking the observance of the holiday in honor of the Queen's birthday was disregarded, all business places being open. Last night the bonfires of the flag-staff on the Colonial building were cut and an attempt was made to burn down the royal stand and flagstaff on the House.

The Delegates Disappointed.

LONDON, May 25.—In the lobby of the House of Commons to-day the Newfoundland delegates expressed their disappointment at the hostile attitude of the Government in preparing to proceed with Lord Knutsford's bill in regard to Newfoundland on Tuesday, also in withholding definite assurance that the Newfoundland Legislature will would be regarded as a purely temporary settlement of the questions in dispute.

No Cause for Alarm

PARIS, May 25.—M. De Freycinet, President of the Council and Minister of War, in the Chamber of Deputies to-day referring to the arrest of Emil Tripon, an officer of the French territorial army and agent for the Armstrong gun works, on a charge of high treason, denied that any documents had been abstracted from the Ministry of War. M. De Freycinet added that no accurate plans had been published in connection with the manufacture of rudnite, and that the mechanism for exploding it still remained in possession of the War Office.

A Lost M.P. Found Dead.

PARIS, May 25.—A fortnight ago Herr Bela von Gruenwald, one of the most distinguished members of the Hungarian Parliament, being on a visit to Paris, suddenly disappeared. There has been great anxiety on his account, and all the enquiries of the police as to his whereabouts have been in vain. But yesterday Herr Pataki of The Pester-Lloyd happened to enter the morgue, and there he saw among the dead the corpse of his fellow-countryman. It had just been taken from the Seine where it was found

DISGUISED AS A NEGRESS

WORE BANGS, A TIGHT-FITTING JERSEY AND A SHAWL.

A Negro Who Escaped to Canada After Beating His Wife Captured at Chatham—Arrested For Murder But a Post-mortem Proves His Wife Died from Natural Causes.

CHATHAM, May 24.—A colored man, who gave his name as Swift, was arrested on an eastbound Grand Trunk train near here yesterday morning. He was disguised in woman's clothing and was arrested on a telegram from Chicago for murder. It appears that he ill-treated his wife and kicked and beat her in a brutal manner. She subsequently died, but at the inquest held Friday the jury returned a verdict of death from natural causes, and Swift will probably be released again.

Some years ago he married in Chatham a colored girl named Mary Goings. Two years ago, when in Detroit, his wife left him and, coming to Chatham, stopped with a family named Talbot. Shortly afterwards Swift ascertained her whereabouts and one night came on the scene, broke open the door and, with a revolver in his hand, cleaned out the house and carried away his wife. Several years ago he worked as cook at the Rankin House. He is not a prepossessing bird in appearance and his native beauty is not improved by a scar extending from his temple to his nose, the result of a slash by a razor.

When caught he made an attempt to keep up his assumed character, imitating a female voice. His disguise was complete even to the back hair, his costume including a tight-fitting jersey and a shawl.

FIRE IN MONTREAL.

A Large Stone Block of Warehouses the Property of the Grey Nuns Completely Destroyed.

MONTREAL, May 24.—The most disastrous fire that has occurred in Montreal for a long time broke out shortly after 6 o'clock tonight. The fire started in Friedman's liquor warehouse in Debresoles-street and extended to the large stone block of warehouses extending from Debresoles to Notre Dame-street near the French Church, and occupied by the New England Paper Company, Young & Sons, dye manufacturers; the Metropolitan Manufacturing Company; R. Beullac, church ornaments; Pratt, pianos and organs.

The losses will be very heavy. Friedman's establishment was almost totally destroyed. The top flats of Beullac's establishment was completely ruined. Pratt's warehouses, which were stored with several hundred valuable pianos, were badly gutted and the other premises suffered more or less. The building, which is owned by the Grey Nuns, was badly wrecked. The total loss is estimated at over $100,000, which is probably covered by insurance.

Upwards of Half a Million Dollars Loss Occasioned.

DETROIT, May 24.—Fire broke out yesterday noon on the second floor of James E. Davis's wholesale drug house in Larned-street. The flames completely gutted the building and communicated to Fechheimer & Hart's wholesale liquor store, which was also burned out. Shortly afterwards the top floor of the Campau building adjoining Davis's was seen to be in flames. The fire was confined to the two top floors and only a number of lawyers were burned out. The loss is estimated at $250,000, partially covered by insurance. The works of the Detroit Screen Company were also partially destroyed by fire this afternoon. Loss $25,000.

MAY KISS YOUR WIFE.

Moreover, the Action May with Impunity be Performed on the Street.

BOSTON, Mass., May 25.—A Boston judge has to-day decided that it is quite lawful for a man to kiss his wife very affectionately on a public street. The case is peculiar, and has its funny as well as serious aspect. According to the testimony of the court, it appeared that Mr. Hall, a respectable young man engaged in the boot and shoe business in East Boston, was seen by an austere and sensitively virtuous policeman named Maguire, standing in a doorway in Hanover-street late last night, engaged in the delightful occupation of kissing Mrs. Hall. Patrolman Maguire, in vigorous Celto-Saxon, interrupted the osculatory proceedings, and insisted that the couple should move on. They demurred, whereupon the austere policeman took them to the station-house, and this morning brought them into court. Mr. Hall's counsel vigorously denounced the conduct of the policeman as an outrage on the rights of honest virtuous citizens. Judge Burke said that he did not think the arrest an outrage, as the fact of their kissing each other on the street was certainly an unusual action to the officer, who did not know the couple's relation to each other. He thought it would have been better for them to have deferred their martial affections until they had reached their home, but that it certainly was not a criminal act for them to kiss on the street. He ordered their discharge, and they left the court-room both happier and wiser.

A GOOD BEAR STORY.

How Bruin Got Away with a Sheep.

FERGUS, Ont., May 24.—A farmer named Billings, living on the 10th con. of West Luther had an adventure with a bear the other evening which he will not forget for many days. Hearing a noise in his stable, the occupants of which at that time were scarce enough, he lit his lantern and proceeded to investigate. Going to the door, which was divided into two sections, the lower part of which was shut, he looked into the stable and found the cause of the disturbance to be a large bear which was proceeding to dispose of the sheep as lawful prey. About the same time that Mr. Billings saw the bear the bear saw Mr. Billings. The man tried to scare off the intruder, but the bear paid very little attention for a time, and then he proceeded to make hostile demonstrations. As soon as Mr. Billings saw the bear coming towards him he swung himself up into the loft in great haste. As there was no ladder the bear could not follow and therefore had to content himself with watching beneath. Feeling secure in his lofty position Mr. Billings did everything in his power to scare the bear, but without success. He rattled sticks, yelled, howled, shouted until he was hoarse, but the bear did not scare worth a cent. It proceeded quietly to carry off a sheep and, thinking that discretion was the better part of valor, Mr. Billings stayed in the loft until the rising sun showed him that the coast was clear.

Grimwood Avenged.

CALCUTTA, May 25.—The murderer of Mr. Grimwood, the British political agent, has been hanged at Manipur.

The Original Package Law.

WASHINGTON, May 25.—The United States Supreme Court to-day upheld the constitutionality of the Original Package law passed by Congress and also held that it was not necessary for the State of Kansas to re-enact its prohibitory law after the passage of the Congressional act in order to shut out liquors in original packages.

Dashed by an Elephant.

LONDON, May 25.—Mr. Maclure, Secretary to the British Legation at Belgrade, was feeding an elephant in a wild beast show; and the report is that the brute suddenly seized him by the middle of the body, and dashed him against the wall. Mr. Maclure is seriously injured.

Russia to Abolish the Jury System.

ST. PETERSBURG, May 25.—The ministers are preparing a scheme to replace the jury system by judges appointed by the judicial administration. They also propose to abolish the elective character in the appointment of a justice of the peace.

Children Cry for Pitcher's Castoria.

OTTAWA GOSSIP.

The Reported Early Prorogation of Parliament—General Notes.

OTTAWA, May 25.—The rumor which was floating about the lobby a couple of weeks ago that the Government proposed to rush through the estimates and such private legislation as was urged and either prorogue the House about the twentieth of June or adjourn it until November is revived but I cannot get any authority for it. Some of the Opposition members who are here and with whom I have spoken say that the Opposition would fight against an adjournment but might entertain a proposal for an extra session provided the Tarte-McGreevy case can be pushed to a conclusion speedily.

The Senate meets to-morrow night after its two weeks' holidays. About the heaviest duty it will have to perform to-morrow will be to receive the two newly appointed Senators, Snowball of New Brunswick and MacDonald of Prince Edward Island, both of whom are here and who will be introduced by Senator Abbott.

The balance of the papers in the Tarte case asked for from the Public Works Department were handed to the clerk of the committee to-day. The committee meets to-morrow morning and will be ready to proceed to business.

Hon. Mackenzie Bowell laid the corner stone of the new Methodist church at Pakenham, Lanark County, on Sat urday.

Col. Lay, American Consul here, to-day made application to the Department of Justice for extradition of Plageat, now in jail in Halifax on the charge of embezzling $40,000 in Texas.

William Smith, Deputy Minister of Marine, returned to-day from Montreal. He inspected there on Saturday the steamer *Synthinia*, one of the new cattle boats, and says he found her excellently fitted up for cattle, very comfortable and lighted by electricity.

Sir John Macdonald caught a slight cold yesterday and was not very well to-day, but is expected to be in the House to-morrow.

REFORMED EPISCOPALIANS.

Rev. L. W. Campbell of Toronto Elected to the Bishopric.

TORONTO, May 26.—The Canadian Synod of the Reformed Episcopal Church elected a new bishop yesterday, the choice falling on Rev. T. W. Campbell of Christ Reformed Episcopal Church of this city.

The Synod commenced and closed its very important session yesterday. Six years ago Bishop Wilson retired from the Episcopate overwhelmed with years and broken up by hard work. Until yesterday no election of a new bishop had been made, the affairs of the Canadian church being under the charge of Bishop Fallows of the United States Church, assisted by the Synod, which met annually. Finally, however, the Synod resolved that Canada should again have a bishop of its own and yesterday saw the appointment made. The Synod met in Christ Church Reformed Episcopal, College-street, proceedings commencing with divine service at 10 a. m. and closing after a short evening session. Bishop Fallows of Chicago presided.

Rev. T. W. Campbell, pastor of Christ Church in this city, was the unanimous choice for bishop by the Synod. He will have control of all the churches in the Dominion, and in all probability will have to give up his present pastorate. Bishop-elect Campbell is a native Canadian, having been born in Three Rivers, Quebec, some 34 years ago. His father was the Rev. Thomas Campbell, attached to the Wesleyan Methodist Church of Canada. In 1879 the Bishop-elect graduated in divinity from Victoria University, Cobourg. For the next two years he was associate editor of The Christian Guardian, leaving this position to become pastor of Woodgreen Methodist Church. Later he was transferred to Parkdale Methodist Church and while there, after a severe course of study, separated himself from the Methodists and joined the Reformed Episcopal denomination. He at once took charge of Christ Church, then at the head of Simcoe-street, and remained its pastor when it secured new quarters in College-street. Under his care the communicants, who at first numbered 30, now number 160. The Mayor is a member of Mr. Campbell's congregation and he is one of its most fervid supporters. Bishop-elect Campbell is a good speaker and a close reasoner. His sermons have the good quality of brevity and common sense and he possesses the happy faculty of keeping his congregation free from dissensions, and has been popular with it since first assuming charge. Like his distinguished parishioner, the Mayor, the bishop is inclined to be florid in the color of his hair.

The first business was the reception of the report of Bishop Fallows' Episcopal work for the year. It made a satisfactory showing and was adopted without discussion. Rev. John Dennis, M.D., of Newark, N.J., was introduced to the Synod and made a corresponding member. The Synod after some discussion resolved to divide the Dominion into the following districts: District of Ontario, all territory west of the westerly boundary of Frontenac county; district of Quebec, all territory east of Frontenac county in Ontario and westerly boundary of New Brunswick to include New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland.

KILLED IN CHICAGO.

A Young Canadian Meets His Death in the Western Metropolis.

TORONTO, May 26.—Mr. Thomas Long, 512 Jarvis-street, received a telegram Sunday at midnight announcing that his son, John Joseph Long, had been killed in a railway accident at Chicago. No further particulars were given. Mr. Charles J. Long left yesterday morning to bring home the body of his brother. The deceased was 24 years of age and was employed in the Armour packing establishment. He had intended coming to Toronto to spend the Queen's Birthday, and it is supposed he was about starting when the accident occurred. A peculiar and sad incident in connection with the unfortunate accident was that about half an hour after the receipt of the first telegram, a second was received from himself saying he would spend the day at home. The deceased was in Toronto about two weeks ago spending a few days with his parents. The body will probably arrive here Wednesday. The funeral will take place in Collingwood.

The Defaulting Teller.

HAMILTON, May 25.—There are no new developments in the case of P. H. Stuart, the defaulting Molsons Bank teller. It is understood his friends have agreed to make full restitution. Meantime Stuart is under police surveillance.

Shot the Professional Beauty.

NEW YORK, May 22.—Twenty-year-old Carry Hemming, professional beauty at Dore's Museum, was shot by John Dunn, jr., the drunken and jealous son of Police Sergeant Dunn, at the museum to-day. The girl was hit in the fleshy part of the arm and not seriously injured.

Religion and Politics Too Much.

GODERICH, May 23.—Thomas Flynn, a well-known resident of Wawanosh, has been taken to London Asylum for treatment. His mind had become unbalanced on the question of religion and politics, although he was apparently sane on other topics.

Liabilities $40,000.

MONTREAL, May 23.—G. Lewis & Co., manufacturing agents, have suspended with liabilities of $40,000, of which $20,000 are direct. The Bank of British North America is the chief creditor.

The Spring Medicine.

The popularity which Hood's Sarsaparilla has gained as a spring medicine is wonderful. It possesses just those elements of health-giving, blood-purifying and appetite restoring which everybody seems to need at this season. Do not continue in a dull, tired, unsatisfactory condition when you may be so much benefited by Hood's Sarsaparilla. It purifies the blood and makes the well strong.

SUN LIFE

ASSURANCE COMPANY OF CANADA.

The attention of our Policy-Holders is directed to the following summary of the leading items of the present report, which speaks for itself as to the progress and prosperity of the Company:—

Life Assurances in force, 1st January, 1891	$16,759,355.92
Increase over previous year	3,421,372 84
New Applications received in 1890	6 371,599 15
Increase over 1889	2 268 888.60
Cash income for year ending 31st December, 1890	889,978 87
Increase over 1889	325 938 35
Assets at 31st December, 1890	2,473 514 19
Increase over 1889	687,691 47
Reserve for Security for Policy Holders	2,109 222 68
Increase over 1889	567 732 71
Surplus over all Liabilities and Capital Stock	232.175.69
Increase over 1889	75 649.05
Death claims fallen in during 1890	143,961 65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.04 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec.,	1881, (five years)	$64 824 07
" " " "	1886, "	89.452 97
" " " "	1890, (four years)	232,175 69

Sons of England Sermon.

A Patriotic Address by Rev. S. J. Shorey—Be Sons of England but Sons of God as Well.

Among all patriotic associations, in the Sons of England Benevolent Society is observed the very essence of loyalty and love for the land of his birth on the part of every member of the order. No occasion, therefore, could be more appropriate for a patriotic demonstration than the anniversary of the birthday of our beloved Sovereign, Queen Victoria. Whatever personal differences the brethren may possibly have, there is one common ground upon which all stand firmly and unitedly, and that is their loyalty for the mother country, from which they have been forced by circumstances to separate themselves. The church parade on Sunday evening was consequently a large and representative one. Over a hundred members of the two lodges, with a few visiting brethren, marched from the hall on Hunter street to the Charlotte street church in a body, where Rev. S. J. Shorey preached the annual sermon to the order. The ring little sanctuary was crowded to the doors with a thoroughly interested audience. Rev. Mr. Shorey's address was highly appropriate, and patriotic in the truest sense of the term, and he threw all the earnestness of his own warm loyalty into his sermon.

Before the sermon began the choir rendered a new and pleasing anthem, in which solo parts were taken by Mr. Davis and Miss Mein.

On this day, the 72nd anniversary of the birthday of our beloved Queen, the most beloved and honored sovereign who ever sat on the throne, said Rev. Mr. Shorey in opening, I have thought fit to show you how the beloved brethren of this order ought to seek to fit themselves for citizenship in that more heavenly country and to strive for the blessedness. He then announced as his theme the words in Psa. cxxxvii, 5 6:—

"If I forget thee, O Jerusalem, let my right hand forget her cunning.

"If I do not remember thee, let my tongue cleave to the roof of mouth; if I prefer not Jerusalem above my chief joy."

And Hebrews xi, 6. "But now they desire a better country, that is, an heavenly."

When the Jews were in captivity they longed for their native city of Jerusalem; but later at the time of the second writing they had a yearning for the heavenly Jerusalem. The love for the land of his birth did credit to every man, and this sentiment of loyalty to the mother country helped make a man a good citizen of any country in which he lived. It was a noticeable fact that the social disturbers and agitators in the world to-day were men who had neither regard for the country of their birth nor their adoption. Britons proudly boasted of their nationality, and justly so; but how much more important it was to be, as well as a son of England, a son of God, joint heir with Christ, a child of heaven. We adore our Queen, who is Queen *Dei gratia*, by the grace of God, and whose face is not seen, whose voice is not heard by more than one hundred thousandth part of her subjects. How much the more ought we to live and reverence the great King of Kings, who will listen to our smallest petition, with whom we may have communion every day, and of whom Queen Victoria is but the earthly representative to administer government and rule the nations. Again, however we may pride ourselves upon our nationality, we have no control over our place of birth. We are Britons born, and could not help ourselves if we would. But it is in every man's power to become a citizen of that heavenly country, to go forward and partake of the everlasting joy of being Sons of God and joint heirs with Christ Sons of England would best show their patriotism by doing all in their power to advance their country and help their countrymen; and they would do this by living Christian lives and seeking for the evangelization of the whole nation. I ask you, said the preacher, in the name of your own souls to see to it that you shall be at all events Sons of God.

Upon returning to the lodge room the brethren were called to order by D. D. G. M. Sonerville, who presided. A vote of thanks to Rev. Mr. Shorey for his admirable sermon, and the trustees of the church for their kindness in placing the church at the disposal of the brethren, was moved by Bro. R. Warran, President of Lansdowne lodge, and seconded by F. Brownscombe, P.P. of Peterborough lodge; also to Bro. R. Tivey, for his able fulfilment of the duties of marshal. Short addresses were delivered by a number of others among them Bro. Martin, President of Cannington lodge; Bro. A. Clegg, F. L. Somerville and others.

Our Fire Protection.

To the Editor of the Examiner:

DEAR SIR,—I would like to make a few remarks on our fire department. Just as I was leaving the market to-day the stillness of the air was broken by the fire alarm bell and as I had just taken out my watch to see the time, I was driven by curiosity to the fire hall to see them get out the rigs, and just as I got there the black team came rushing up hitched to a water cart. As this was the wrong team for the hose waggon there was some delay in getting the harness changed and hitched on, and by this time there was quite a number of firemen on hand and in just four minutes, the hose waggon was away on the full run. Now came the trouble, no team to take the hook and ladder waggon, and you should have heard the talk of the boys about how things were run. Presently up came the grey team at full speed. Now, what is to be done? the harness they have on wouldn't do for the waggon as the traces are too short so the harness had to be changed and in just 5½ minutes they were away. Now, readers of this paper make progress of this town. This should not be so, we should have at least one team and two men at the fire hall all the time ready to respond at any moment that the bell rings, both rigs should be away from the hall inside of three minutes time after the alarm. A town of our protension should have things a little more handy. We came near it the other day, on George street of having what might have been a large conflagration and which might have been put out without so much loss if things had been as they should be. Now the boys did well to-day, and deserve the credit for the way they got there for they were ready before the teams were there. Where the great fault lies is not having the teams kept in the stables ready at all times. Now a little about the fire bell. I have been talking to some parties just a few doors north of Hunter street on George street and they never heard the bell. I think our fire bell ought to be in a more open place where every one in the town could hear it. Now I don't want to be termed a grumbler, but I would just like to see this made right as all other things are in good order, namely, our hose and hook and ladder waggons, and the water works are good and our city council deserve credit for the way that they have run our town. Thanking you Mr. Editor for the space in your valuable paper, I am

Yours truly,
JAY. W. DOXSEE.

Peterborough, May 23rd, 1891.

Why his Wife is "Fidgety."

I have the best cook in the town,
Whose bread is delicious and white;
Her coffee is fragrant and brown,
Her pastry a perfect delight.

But she daily complains of the worry they bring
She's my own darling wife,but a fidgety thing!

Your wife is worn out, and needs Dr. Pierce's Favorite Prescription, the only medicine *guaranteed* to cure debilitated women. How many over-worked American ladies we see with lack-lustre eyes and haggard faces, growing old before their time, from those exhausting ailments that men know nothing of. They can be permanently cured by this remedy, as numberless grateful women will attest. Price refunded, if it fails to give satisfaction in every case. See *guarantee* printed on bottle wrapper. b

Miller's Emulsion of Cod Liver Oil is prepared by a new process and will keep in any climate. Be sure and ask your druggist for Miller's Emulsion and take no other. dw

Children Cry for Pitcher's Castoria.

The picture of the Pied Piper of Hamelin, playing upon his magic pipe, while the entranced rats of the town leave their holes and flock after him into the sea, reminds one of the speed with which the diseases and impurities of the blood leave the system when Dr. Pierce's Golden Medical Discovery is taken.

It removes all humors, poisons, or taints, from the system, whether manifested in the common pimple, or eruption, or in boils, carbuncles, eczema, salt-rheum, fever-sores, white swellings, hip-joint disease, and kindred affections — in fact anything and *everything* resulting from impure blood.

For scrofula of the lung tissues (consumption) it has no equal, and often cures cases which physicians have given up. It is a *guaranteed* liver, blood and lung remedy, and the *only one sold*. Your money returned if the medicine fails to accomplish what its manufacturers claim, when taken in time and given a fair trial.

All the year round, you may rely upon Dr. Pierce's Golden Medical Discovery to purify the blood and invigorate the system. It's not like the sarsaparillas, that are said to be good for the blood in March, April and May. The "Golden Medical Discovery" works equally well at all times, and in all cases of blood-taints, or humors, no matter what their name or nature.

It's the *cheapest* blood-purifier, sold through druggists, no matter how many doses are offered for a dollar, because you only pay for *the good* you get.

Your money is returned if it doesn't benefit or cure you.

Can you ask more?

"Golden Medical Discovery" contains no alcohol to inebriate, and no syrup or sugar to derange digestion.

It's a concentrated vegetable extract; put up in large bottles at $1.00; pleasant to the taste, and equally good for adults or children.

Idolatry.

Ephraim was joined to his idols and suffered in consequence. So to-day many persons are joined to the various idols, and all must suffer. There are a great number fixed in their opinion that the old fashioned, hard-to-take cathartic pills are still the remedy par excellence for dyspepsia, sour stomach, biliousness, constipation, sick headache, etc., and will use no other. Hence they suffer on from month to month, when they might find instant relief by resorting to Beecham's Pills. Sold by druggists generally. B. F. Allen & Co., 365 and 367 Canal street, New York, Sole Agents for the United States, will mail a box of Beecham's Pills on receipt of the price, 25 cents, if your druggist does not keep them. w22d

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. dw

It Does Its Work.

Mrs. James Dix, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

Everybody Likes It.

Wm. Dredge, Ellen street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised. Sold by all druggists. dw

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure blood, removing all foul humors, from a common pimple to the worst scrofulous sore. 2w20d

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

W. A. Greatrex, Druggist, has for sale the Royal Rheumatic Remedy. It is no new formula, having been before the public for 12 years and effected wonderful cures. Write to R. R. R. Co. for testimonials. dw

THE RED COLOR of the blood is caused by the iron it contains. Supply the iron when lacking by using Milburn's Beef, Iron and Wine. dw

"MANY MEN, MANY MINDS," but all men and all minds agree as to the merits of Burdock Pills, small and sugar-coated. dw

People Wonder

WHEN they find how rapidly health is restored by taking Ayer's Sarsaparilla. The reason is that this preparation contains only the purest and most powerful alteratives and tonics. To thousands yearly it proves a veritable elixir of life.

Mrs. Jos. Lake, Brockway Centre, Mich., writes: "Liver complaint and indigestion made my life a burden and came near ending my existence. For more than four years I suffered untold agony. I was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digested at all. Within the time mentioned several physicians treated me without giving relief. Nothing that I took seemed to do any permanent good until I began the use of Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I could see an

Improvement

in my condition, my appetite began to return and with it came the ability to digest all the food taken, my strength improved each day, and after a few months of faithful attention to your directions, I found myself a well woman, able to attend to all household duties. The medicine has given me a new lease of life, and I cannot thank you too much."

"We, the undersigned, citizens of Brockway Centre, Mich., hereby certify that the above statement, made by Mrs. Lake, is true in every particular and entitled to full credence."—O. F. Chamberlain, G. W. Waring, C. A. Wells, Druggist.

"My brother, in England, was, for a long time, unable to attend to his occupation, by reason of sores on his foot. I sent him Ayer's Almanac and the testimonials it contained induced him to try Ayer's Sarsaparilla. After using it a little while, he was cured, and is now a well man, working in a sugar mill at Brisbane, Queensland, Australia."—A. Attewell, Sharbot Lake, Ontario.

Ayer's Sarsaparilla,

MORTGAGE SALE
OF VALUABLE
Household Property

Under and by virtue of the power of sale contained in a certain mortgage, which will be produced at the time and place hereinafter mentioned, there will be sold by public auction, at the MORGAN HOUSE, in the Town of Peterborough, on

Monday, June 1st, A.D. 1891

At the hour of 2.30 o'clock in the afternoon.

That Valuable Household Property, being Lot No. 67, on Plan No. 73, for the Town of Peterborough.

This lot has a frontage of 50 feet on Charlotte Street and a depth of about 105 feet, to a lane, and on it has been erected a large Two Storey White Brick Roughcasted, Residence, now occupied by William Crowley.

Property in this neighbourhood is fast advancing in price, and this sale offers a fine opportunity for an investment, or for the purchase of a good comfortable family residence in a most desirable part of the town.

TERMS.—Ten per cent. of the purchase money to be paid at the time of sale, and sufficient to make one-half of the purchase money within ten days thereafter; and the balance may remain secured by mortgage on the above mentioned premises, or be paid in cash, at the option of the purchaser.

For further particulars apply to the Vendor's Solicitors.

HATTON & WOOD, Vendor's Solicitors. | Or to CHAS. STAPLETON, Auctioneer.

Dated at Peterborough, this 22nd of May, 1891. 4ed121

SCAVENGING.

THE undersigned is prepared to do scavenger work promptly and on most reasonable terms. Lots of all sizes estimated before done. Holes dug and boxes put in. Orders may be left at 139 Aylmer street or by Ontario Telephone No. 177.

391 GEORGE STREET.

QUEEN VICTORIA.

The 72nd Anniversary of Her Majesty's Birthday.

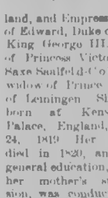
A QUEEN FOR 54 YEARS.

How the Queen Looked When She Was a Baby, as She Was at 8 Years and How She Looks To-day—Sketch of Her Life and Reign.

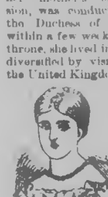
LOYALTY will incite British subjects everywhere to do honor to Her Majesty Queen Victoria on the seventy-second anniversary of her birthday. In Canada the 25th May has been proclaimed a holiday for celebrating the auspicious event—which really occurs on the 24th May.

Victoria, Queen of Great Britain and Ireland, and Empress of India, is the daughter of Edward, Duke of Kent, the fourth son of King George III., and of Princess Victoria of Saxe-Saalfeld-Coburg, widow of Prince Emich of Leiningen. She was born at Kensington Palace, England, May 24, 1819. Her father died in 1820, and her general education, under her mother's supervision, was conducted by the Duchess of Northumberland. Until within a few weeks before she ascended the throne, she lived in comparative retirement, diversified by visits to various portions of the United Kingdom. The death of William IV. took place on June 20, 1837, and Victoria became Queen. She was crowned at Westminster Abbey with great pomp on June 28, 1838. On February 10, 1840, she was married to Prince Albert of Saxe-Coburg-Gotha, who died December 14, 1861. The Queen has remained a widow. Her husband was born in the same year as she, in Germany. He was a man of studious habits and refined taste, whose pursuits were of an exalted, benevolent and useful character; and he was a competent and active participator in such public measures as tended to increase the happiness and prosperity of the people. Nine children were born to the couple, of whom seven survive. The youngest, the Princess Beatrice, married in 1885. Queen Victoria's descendants are exceedingly numerous and she wears the dignity of great-grandmother.

QUEEN VICTORIA AT 8.



QUEEN VICTORIA AS A BABY.



QUEEN VICTORIA

From Her Latest Photograph.

Since the death of her consort she has lived for the greater part in retirement. She is generally admired and loved by her subjects, as being a model wife and mother, a woman of culture and good sense, and industrious and sagacious in affairs of state. As a sovereign she ranks higher than any in the history of the world, in the number of subjects and the extent of territory over which she holds sway, but her power is controlled by constitutional provisions which virtually place her at the head of a popular government.

Our portraits of Our Gracious Queen herewith given are from excellent sources. The first showing Her Majesty as a baby is from a drawing made by Sir Thomas Lawrence, President of the Royal Academy, who stole with soft foot upon little Victoria as she lay one day asleep and made the drawing of her plump, ringlet-framed baby face and pudgy baby hand. And Victoria Mary Louisa, her duchess mother, must have been hard to please if she did not smile upon the veteran portrait painter and tell him it was so like the dear child. And Sir Thomas, at 59, was certainly old enough to be wise; so he probably said he had never seen so lovely a baby.

The second picture is a miniature of Victoria at the age of 8. It couldn't have been long after this time that the Queen to be, having been apprised of the honors certainly in store for her if she lived, made that memorable remark: "I will be good." And nobly has she redeemed her resolve.

GOD SAVE THE QUEEN.

PERSONAL PARAGRAPHS.

Goethe presented about thirty volumes of his works to Harvard College, and they are in the library, with the author's autograph in each volume.

Mme. Bernhardt left San Francisco Friday for Australia. Her receipts in that city reached $40,045, the largest business she ever played to in one week.

Gen. Butler's forthcoming book, it is said, will contain certain disclosures that will create sensation such as have been produced by no previous war history.

The appointment of Lieut. Clarke, of the United States cavalry, to serve with the Dusseldorf Hussars, has evoked approving comments from the German press.

The late James Redpath believed himself to have been the first person to put the verb "to boycott" in print. One night, during one of his visits to Ireland, he sat writing a dispatch to a New York paper, when suddenly he found himself at a loss for a word to express what was then happening to Capt. Boycott. "The Boycott's nameless a verb," said a priest at his elbow, and Redpath accepted the suggestion.

The King and Queen of Denmark gave their granddaughter, the Princess Louise, when she was confirmed, white enamel furniture with pale blue Persian rugs and hangings for her bedroom. Her mother, the crown princess, gave her a gold-mounted Bible; her father, a watch set with diamonds, the Empress and Empress of Russia, ermine and sable muffs, and the Princess of Wales a diamond studded fan and a ruby-mounted bouquet holder.

Children Cry for Pitcher's Castoria.

The Great Consummation

Edward Everett once said: "I never contemplate the history of navigation of the ocean by steam, but it seems to illustrate to me in the most striking manner the slow steps by which a great movement advances for generations for ages, from the first germ, —then when the hour is come, the rapidity with which it rushes to a final consummation."

As far back as the introduction of steam navigation of the ocean, mighty efforts were made to produce a remedy which would benefit man and woman in certain ailments, more common to-day than they were fifty years ago. The troubles we refer to are nervous debility, sleeplessness, headaches, nervousness, melancholia, tired brain, together with their dreaded followers, dyspepsia and indigestion. Remedies without number have been introduced under various names, each one trumpeted forth as the best. Suffering humanity however was never permanently benefitted until that great discovery of Prof. Phelps—Paine's Celery Compound was given to the world. It is true that for a time its use was somewhat restricted and slow; but as soon as its advantages, its power, its great efficacy became known to all thinking and intelligent people, it at once rushed to the front; and by its use, the great desire of all sufferers has been more than realized. It has in every case raised the weak and nervous sufferer to health and strength. It has given an assurance of new life to the despondent and morose sufferer; and spread joy, peace, and pleasure in its train. Paine's Celery Compound is in very truth the consummation and completion of medical skill, and must ever prove mankind's great benefactor

HAGERSVILLE, May 22.—A very successful convention of the Haldimand Teachers Association was held here yesterday and today, under the presidency of Mr. S. Morgan, B.A. Mr. Richard Lewis of Toronto addressed the convention on voice culture and articulation, methods of conducting reading and [illegible] primary principles. Last evening Mr. Lewis gave an elocutionary entertainment in the Methodist church, with Mr. S. Phillips, B.A., principal of the new Hall School, in the chair. The entertainment was very largely attended and the varied program given by the well-known Toronto elocutionist was heartily applauded throughout.

The Rope Broke at Broken Bow.

BROKEN BOW, Neb., May 22.—When the trap had been sprung at the execution of Albert Havenstine to-day, the body shot down six feet, when there was a snap and the body fell to the ground. The rope had broken. The man was hanged a second time successfully.

A Child Almost Suffocated in a Box Stove.

WOLSELEY, N.W.T., May 22.—A child about 3 years old belonging to Mr. T. S. Rutherford was reported missing. A thorough search was made and the missing youngster was discovered in a box-stove almost suffocated.

The Pugilists Will Not Get Paid.

SAN FRANCISCO, May 22.—Referee Cook's decision that the Jackson-Corbett fight was no contest does not mean technically that the fight was a draw. It is in effect that the club has seen no battle and will pay no price.

Died in New Zealand.

NEWMARKET, May 22.—Charles A. Thompson has received word of the death of his brother, Mr. Francis James Thompson, who was found dead in the surf on the Waikanae

The entering wedge of a complaint that may prove fatal is often a slight cold, which a dose or two of Ayer's Cherry Pectoral might have cured at the commencement. It would be well, therefore, to keep the remedy within reach at all times.

From the Pacific Coast.

We quote from a letter recently received from Miss Eleanor Pope, Port Haney, B C: "For sore throat, coughs, croup, bruises, &c., Hagyard's Yellow Oil is the best thing I have ever used." 2w204

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2w203

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She resolved to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS. KENNEDY, Hamilton, Ont. 2w203

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2w203

Worthy of Confidence.

Those who have used it praise it! Mrs. George Ward writes from Josephine, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2w203

Would not be Without It.

Dyer's Jelly of Cucumber and Roses for chapped hands and for making the skin smooth and soft. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 6d116

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

AN AID to internal remedies for skin diseases, Dr. Low's Sulphur Soap proves very valuable dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

COUGHS, COLDS, CROUP, CONSUMPTION, &c.

FOR FLAX-SEED EMULSION COMPOUND

BRONCHITIS

136 Lexington Ave., New York City, Sept. 19, 1889.

I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results.
JAMES K. CROOK, M.D.

CONSUMPTION

Brooklyn, N. Y., Feb. 14th, 1890.

I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where patient could not use Cod Liver Oil in any form.
J. H. DROGE, M. D.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 20th, 1888.

I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.
JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 10th, 1888.

I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use.
D. A. GORTON, M. D.

WASTING DISEASES

127 West 84th St., New York, Aug. 6, 1888.

I have used your Flax-Seed Emulsion Compound in a severe case of Malnutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it cheerfully to the profession and humanity at large.
M. H. GILBERT, M.D.

RHEUMATISM

Sold by Druggists, Price $1.00.

Self Application of Electricity

FOR MEDICAL PURPOSES

BY THE

DORENWEND

ELECTRIC BELT

And Attachments.

HEAD OFFICE—103 Yonge St., Toronto.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you want to experiment with cheap articles, buy THEM; but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. sod-w

TUESDAY, MAY 26, 1891.

LONG MAY SHE REIGN!

Celebrating Her Majesty's Glorious Seventy-Second.

The Gallant Guards Capture the Town and the Rangers Join in the Assault—The Sunday Celebration—Monday's Military Demonstration—The Civic Branch of the Jubilation—How the Day was spent.

Thoroughly genuine "Queen's weather" greeted the 72nd anniversary of her Majesty's Birthday—bright, clear and warm, a fitting type of the purity of her Majesty's life, and the brilliance and benignity of her reign. The popular spontaneity of enthusiastic loyalty that always marks Canadians in the observance of this holiday and places them pre-eminent in this respect above the people of any other part of the Empire—even the mother land itself—was shown by the people of Peterborough. From the fact that the day fell on Sunday this year, there was to some extent a double celebration—a sacred and a civic. Sunday was equally queen's weather with Monday. The day opened in Peterborough with the arrival of the military guests of the 57th—the Governor-General's Foot Guards. The Guards left Ottawa by special train on Saturday night, and they received a most hearty and enthusiastic send-off. Thousands of the citizens, though the hour was the late one of 11.30, not only assembled at the station, but lined the route of march from the drill shed to the station, greeting their departing defenders with hearty plaudits. The journey to Peterborough was made without any particular events. The reveille was sounded on board shortly before six o'clock and at that hour the train steamed into the station. The volunteers disembarked, but there being some misunderstanding as to the route to the grounds, they boarded the train again, which was backed over to Ashburnham, and the Guards marched gaily up to the site of the camp, through the deep grass white and wet with frost, and took peaceable possession of the tents that had been pitched by the 57th for the occupancy of their vice-regal guests. The men were delighted with the site of their camp.

THE CHURCH PARADE.

At 2.30 o'clock the 57th Battalion and band mustered at the drill shed 250 strong and forming into columns of fours marched to Hunter street, where they joined the Guards as they passed up to St. John's church, and the total of 600 volunteers entered and almost completely monopolized the seating capacity of the church. A special form of service had been prepared for the occasion on printed sheets, the title page bearing the arms of the two battalions of the brigade, and bearing also this preface:

"The Rector and Wardens desire on behalf of St. John's congregation to offer their warm greeting to the officers and men of the Governor-General's Foot Guards, as well as their fellow citizens of the 57th. They feel it both an honour and a pleasure to welcome to St. John's church Canadian volunteers as comrades in the cause of religion and patriotism."

The special service, which was most heartily joined in by the volunteers and the few citizens that could get admission, was conducted by Ven. Archdeacon Lander, Rector of Ottawa, and Chaplain of the Guards, Rev. Mr. Davidson taking the lesson and preaching the sermon. The choir was present in full force, and was re-inforced by a detachment from the choir of St. Alban's, Ottawa, also members of the Guards—Sergeant C. D. Tripp and Lance Corporal C. C. Rogers. During the offertory the choir sang in excellent style the anthem, "O, the Lord is Great in Zion," besides leading the singing of the hymns which, as well as the service generally, was very heartily joined in by the volunteers.

The sermon preached by the Rector of St. John's was exceedingly appropriate to the occasion, but the demands on our space permit anything more than a summarized reference to its chief points. As they day demanded "Fear God and honour the King"—Queen—was the basis of his remarks, which began with insistence upon the duty of reverence to superiors in authority and an implicit obedience to such authorities. The impudent self assertion and arrogant assumption of individual action were characteristics to be deplored. The Canadian volunteers, however, afforded an example of obedience to military and civil authority, and the speaker felt sure that

THE SPIRIT OF OBEDIENCE

shown by the presence and deportment of the volunteers in the town would stimulate the general public to a renewed spirit of obedience to constituted authority. The text brought us not only in relation to our great earthly sovereign, Queen Victoria, be whom a high compliment was paid, but also in relation to the heavenly King, and taught respect for the authority under Him. This dual relationship was all summed up in the words "Fear God," and there was nothing derogatory in a soldier fearing God—it often required great courage to take such a stand. And the duty of obedience and respect to the ruling sovereign was not only enjoined by the text, but by many others besides in Holy Scripture. The occasion that had brought the volunteers together was a double festival—it brought forward not only the duty of celebrating the natal day of Queen Victoria but it also imposed the duty of prayer, homage and worship to the King of Kings and the lesson of this service was the emphasizing our duty to God and to our country. The service was significant in that it implied a welcome to the citizen soldiers of the capital, to a town of which we were justly proud. Though the time for fraternization was short, that time could be looked back upon on two grounds, that of patriotic homage to our sovereign and that of religion; we could kneel on common holy ground, and it was prayed that we might thus meet on the common ground of heaven where allegence to earthly sovereigns would give place to the allegiance to the King of Kings and the service of earth be merged into the eternal service of heaven.

At the conclusion of the service the brigade filed out of church and took up position on the grounds in column of companies facing the church. The united bands then led in the singing of God Save the Queen which was done with great fervour—never equalled in Peterborough before—by six hundred volunteers and by the thousands of citizen spectators who filled every part of the extensive church grounds and over flowed upon the adjacent streets, all eager to see, to greet, to welcome the gallant Guards and their own highly regarded Rangers. The Guards proceeding, then marched to their camp escorted by the Fifty-seventh, the Guards band playing the "Gloria" from Mozart's Twelfth Mass.

A detachment of the Guards numbering about fifty marched to St. Peter's Cathedral at 3 o'clock for instruction. Rev. Father Nevin gave a splendid address on the subject of the duty of the soldier to his God and his country. The address pointed out that the first duty, service and obedience was to God who was the

FOUNTAIN AND SOURCE OF ALL AUTHORITY,

and the second duty of bearing faithful allegiance and giving faithful service and implicit obedience to the constituted authority of the country under whose protection we were. He also emphasized the duty of the volunteers to defend the country from all invaders. This was a duty sacred and binding upon them all. But war and carnage for the mere gratification of the passion of anger or slaughter or glory, lust of territory or power, was a sin. The address altogether was full of instruction and eloquence. His Lordship Bishop O'Connor was present, and at the conclusion of the service of Benediction which followed the address, pronounced the episcopal benediction.

And so the militia-ecclesiastical aspect of the observance of the Queen's birthday ended. The members of the Guards *left camp for their evening meal* at the several hotels where they were billeted, and then *spent the evening* in various ways—some went to the churches, others strolled about the town or went driving or boating, and some sought social recreation amongst those whom they chanced to know or got acquainted with.

OUR MILITANT MONDAY.

MONDAY'S rising sun brought another glorious instalment of "Queens weather" and the whole town was early astir, and the surrounding country too. On every incoming train, from south and south-east, north and north west, from east and from west visitors arrived. The largest contingent of all was from Lindsay, though Norwood brought a big contribution to the great crowd that filled the town during the day. Our country cousins also came to see us in vehicles from every point of the compass and the day's programme of enjoyment must have satisfied the thousands that came to see and—the pretty girls at least—be seen.

The shrill note of the assembly bugle call and the roll of the drums, indicated that the military pageant was at hand. About ten o'clock a detachment of cavalry defiled down George street from the drill shed to form a guard of honour to escort the Guards from the camp to town. Shortly after the 57th came marching down street and proceeded to cross the river, halting at the head of Lake street, and facing it, and drawing up in line to receive the visiting volunteers. These came down the slope of Lake street escorted by the cavalry, and as the troops marched past, the 57th stood at the present and then fell in behind the Guards, and the brigade marched a route in column of fours up Hunter street to Water, up Water to Murray, up George a block or two. The brigade then countermarched down George street as far as Charlotte, and returned by way of George and Hunter to Riverside Park, where the trooping of colours was to take place and the *feu de joie* to be fired.

The streets of Ashburnham and those of Peterborough along the line of march of the troops were lined with spectators, who were greatly charmed with the splendid marching of the gallant volunteers. At times, however, a little unsteadiness in the march of the Fifty-seventh was due to the fact that they were out of reach of the music. When the Guards' band was playing, out of courtesy, the Fifty-seventh band was silent, and the Rangers had to march without the inspiriting strains of martial music. The route march was a brilliant military spectacle worth much sacrifice to see. The people who enjoyed the sight so greatly, would not complain of the length of the march, though it tried the endurance of the soldiers to a very great degree.

IN THE PARK.

Several hundred people crowded into the Park to witness the military manœuvres. The troops formed up as three sides of a square. On the right was "C" Troop of Cavalry, numbering about 25 troopers, under command of Lt.-Col. H. C. Rogers, with Lieut. Strickland, Quarmaster Stapleton and Veterinary Surgeon Stephenson. Next stood the Guards, who paraded 330 strong, as follows, the staff officers being mounted: Col. Todd, in command, Maj. Toller, Maj. Hodgins, Capt. Bowie, Adjt., Capt. Powell, Pay Master, Maj. Heron, Quartermaster, Surgeon Horsey, Asst. Surgeon Grant; Maj. Wickstead, attached; Capt. Aumond, in command of color party.

No. 1 Company — Capt. Jarvis, Lieut. Brummell.
No. 2—Capt. P. B. Taylor.
No. 3—Lieut. McPherson, Lieut. Galway.
No. 4—Capt. Roper.
No. 5—Capt. Walters, Lieut. Taylor.
No. 6—Capt. Hodgins, Lieut. Fairweather.

The fine band of the regiment was stationed alongside. It comprised 35 pieces under command of Bandmaster Carter. The bugle band of 24 pieces was in charge of Bugle Major Taylor. The pioneer corps was commanded by Staff-Sergt. Armstrong, and the ambulance corps (which by the way was but recently established, and made its first public appearance here) by Corporal Mullen. The ambulance corps did not have a sinecure, for several of the Guards' men were overcome by the heat and fatigue and had to be taken out of the ranks and attended to.

The 57th Battalion, our own red-coated Rangers, occupied the left wing of the brigade. There were about 225 men on parade, as follows, the staff officers being also mounted:—

Lt.-Col. J. Z. Rogers, commanding the brigade; Major Ball, commanding the 57th; Major Edwards, Capt. Dennistoun, Adjt.; Quartermaster Forbes, Surgeon Halliday.
A Co.—Capt. Mason.
B Co.—Lieut. Schofield, Lieut. Hault ain.
C Co.—Capt. Hill, Lieut. Stevenson.
D Co.—Capt. Lee, Lieut. Loch.
E Co.—Capt. Miller, Lieut. Matthews.
F Co.—Capt. Brennan.

The color party was in charge of Lieut. Hayes, D Co., and Lieut. Tebb, A Co.

The band numbered about 24 pieces, under Bandmaster Miller.

Very few military manœuvres were performed, some time being taken up by the trooping of the colors by the Guards. This was a very pretty movement and quite new to Peterborough people, and the Guards went through with it most creditably. A few minutes after twelve o'clock a feu de joie was fired, and after the band played the national anthem the troops left the ground and marched to their respective headquarters

THE LACROSSE MATCH.

The afternoon sports on the P. A. A. A. grounds attracted a crowd of six or seven hundred people. The principal attraction was the lacrosse match. A Toronto team was advertised to appear, but a short time before the day of the game the Toronto's wired that they would be unable to get a team together. Hurried efforts were then made to get another club to fill the breach, and Hastings consented to play. The visiting team was composed of men from both Hastings and Norwood, and though the fifteen comprised some good individual players, the team as a whole showed lack of practice. However, they put up a strong game, and it was only the Peterborough's superior team play and staying power that won the game for them. Monday's match was a good exhibition of the national game. It was characterized by clean, fast play and very little roughness. The home team is composed almost entirely of young men who have already shown that they can play lacrosse and in a few years more, if they stick together, they ought to be one of the first-class teams of the province. They outplayed their opponents at every point. Though much smaller in size, they more than made up the difference by their agility and sharp work, and the good practice they have been receiving of late was evidenced in the team play and good staying powers. The club ought and doubtless will in a short time win the victories which in days gone by made Peterborough's lacrosse club known far and wide. For their clever work with the stick special praise must be given to Pakenham and Begley, the old reliables of the team, and to Hendren. Pakenham and Begley scarcely ever failed in getting the ball when they went after it. They played coolly but quickly; while Hendren's sharp dodging and tireless play helped the home team wonderfully. The younger players also showed up well, McCabe, Walter Phelan and others distinguishing themselves. It is almost invidious to select these names when all did so well. The teams lined up about half past two as follows:

Hastings		*Peterborough*
S. Hendren	goal	F. Larmee
F. Stephenson	point	F. Fairbairn
J. Jary	cover point	T. Cronin
T. Fraser	1st defence	E. McCabe
W. Lansdowne	2nd "	T. Meagher
H. Howard	3rd "	R. Hickey
E. Delaney	centre	W. Hendren
H. Lambard	1st home	F. White
D. Frantz	2nd "	J. Begley
R. Morrison	3rd "	J. Daly
G. Hill	outside home	J. McDonough
W. Anderson	inside "	W. Phelan
T. Howard	field captain	W. Redkins
W. Fowlds	umpire	W. J. Green

Dr. Brennan acted as referee.

The first game was a hard struggle. The Peterboroughs had the best of it all through and the ball hovered constantly near the Hastings' goal, with occasional visits to the other end of the field, but Peterborough's defence never had any difficulty in relieving the pressure. The visitors had a good defence in Stephenson and Jary, who played a rattling game, but their home was weak. Some beautiful team play was shown by the Peterboroughs, who seemed always to be on hand wherever the rubber went and passed to each other nicely. Hickey and Cronin showed up well at times, in addition to the other mentioned players. Shot after shot was raised upon the visitor's flags, and finally Begley scored by a cool, steady throw from close in goal. Time, 32 minutes.

In the second game the visitors started in at a lively pace. Hitherto they had appeared to lack determination and confidence, but now they sparted and for a time it looked as though they would score during one of their repeated attacks on Peterborough's goal. But the home team again took the game in hand, and finally, after a lively scrimmage near the flags, Daly got the ball and made a neat shot through. Time, 15 minutes.

Play was resumed, but without further result when time was called.

The Peterborough boys were warmly congratulated on their victory, over which they have every reason to feel proud. May they win many more such during the coming season.

Following the match some foot races were run for medals. The hundred yard dash, run in heats, best two in three, was won by W. Hendren, the mile race by T. Cronin, and the half mile by L. O. Carisimann.

RACES AT THE DRIVING PARK.

In the afternoon the opening races of the Peterborough Driving Park Association were held at the Park. Considering the numerous counter attractions there was a fair attendance of visitors, including a large number of the fair sex. The track was in as good condition as could be expected from the dry weather of the past month. The track was level and smooth, but inclined to be dusty.

The following entries were for the respective events: For the free-for-all trot—George Curtis' (Lindsay) bay gelding "Little Jim," J. J. Daly's (Lindsay) brown mare "Minnie Bell," and A. B. Appleby's bay mare "Mollie Clarke." Curtis handled the ribbons over his own horse, Ed. Brown drove Minnie Bell and Mr. Chadburn Mollie Clark.

THE FIRST HEAT.—After considerable scoring the horses got off, Little Jim on the pole, Mollie Clark next and Minnie Bell on the outside. For the first half the race was between Little Jim and Minnie Bell, with the advantage to the gelding, but at the half the mare broke and was practically out of the race. Mollie Clark, who had been saving herself, forged ahead and collared Little Jim on the home turn, and came first under the wire a winner, Little Jim second, and Minnie Bell third. Time 2 39½.

SECOND HEAT.—The three horses were well bunched the first half of the race, the second half being between Mollie and Minnie. At the home turn the three horses were neck and neck, but Minnie Bell lost her feet on the home stretch, leaving the race between Mollie C. and Little Jim, the former being the winner handily. Time 2 39½.

THIRD HEAT.—Mollie Clark led from the first, Minnie Bell pushing her hard on the last quarter, but not hard enough to prevent Mollie C. from winning by half a length, the heat and the first money, Little Jim second. Time 2.37.

SUMMARY.

Little Jim	2 2 3
Minnie Bell	3 3 2
Mollie Clarke	1 1 1

Time, 2:39½, 2:39½, and 2:37.

THE NAMED RACE,

for purse of $100. For this event the following entries were made:—A. B. Appleby's chestnut gelding "Col. T."; J. J. Daly's bay gelding, "Jimmy D"; J. E. Molntyre's bay gelding, "Clan Alpine"; and E. Bezard's bay mare. Only two horses started however, "Jimmy D," who drew the pole and "Col. T." The pole horse broke in the first quarter and gave his opponent a gain and behaved very badly for the first of the half, picking up a little in the second, but having "Col. T" an easy winner. Time 3:24.

SECOND HEAT.—The first half was a pretty race, the horses crossing the wire neck and neck, but in the last half Jimmy D. resented being crowded and left his feet, leaving Col. T. an easy winner. Time, 3.21.

THIRD HEAT.—Col. T. lead easily to the finish, winning the heat and first money.

SUMMARY.

Col. T	1 1 1
Jimmy D	2 2 2

Time, 3.21, 3.21, 3.17.

The judges were C. D. Eak, Toronto, and Wm. Crofs, town, the former also acting as starter. J. A. Kelly, Brighton, acted as time-keeper.

THE PROMENADE CONCERT.

There was a large attendance at the market hall in the evening, and they were richly rewarded by the splendid musical treat provided by the rendition of the following programme:

1 Grand March—"Unity"..... G.G.F.G. and 57th [Batt Bands
2 Overture—"Le Macon".....G.G.F.G
3 Fantasia—"Pride of Stotland".....57th
4 Valse—"Khren on the Rhine".....G. G.F.G
5 Selection—"Mariana".....57th
6 Fantasia—"Ten Minutes with the Minstrels" [G.G.F.G
7 Grand Earch—"Unity" (repeated).....
8 Lancers—"Madame Angot".....G.G.F.G.
9 Fantasia—"Brudder Gardener's Picnic".57th
10 Galop—"Kamaazan".....G.G.F.G.
"GOD SAVE THE QUEEN."

The performance of the first number, the "Unity" March, was a splendid presentation, full of grand harmonies and soul-stirring strains. So highly was it admired, that by special request, it was repeated in substitution for the "Bohemian Girl" on the original programme. A pleasing feature of the evening was the presentation of a beautiful bouquet of flowers to the bandmaster of the Guards' band. The presentation was made by Miss Brown.

THE ODDFELLOWS' OUTING.

An excursion party of Oddfellows of about 100, of whom twenty five were members of the *Canton Militant*, boarded the 8.20 G.J.R train for Campbellford, where the day was delightfully spent in the recreation which the people of that thriving town had set on foot.

THE NORWOOD PICNIC.

The mid day C.P.R. train took a large number of Rev. Father Conway's old Peterborough friends to his picnic at Norwood. There was a large attendance of visitors at the picnic, which was held in the agricultural grounds, the refreshments, of an abundant and substantial nature, being supplied in the agricultural hall. The dancing platform which was provided was kept in constant commission by the young people, dancing being kept up almost uninterruptedly to the excellent music of Butcher's Orchestra, and under the direction of Mr. Jas. Coughlin, town. The clergy was represented by Rev. Father Radkins and Rev. Father Scollard, town, and of course the genial and popular pastor, who makes friends wherever he goes, was on hand, cheering, encouraging and looking after all. Rev. Father Conway's annual pic-nic was a great success. The amount of receipts is not at present known.

OUT ON THE LAKES.

A considerable number of persons spent Sunday on Stony and connecting lakes and others went up on Monday and spent the day in looking after their cottages, planting flowers and otherwise preparing for their summer tenancy. The water is very low at present though it never was so high as last spring. There is hardly a wharf large or small that has not been swept away.

The excursion to Jubilee Point, per steamer Golden Eye, was quite successful. There were a couple of hundred aboard, and the Daisy brought in a load from lake points. A pleasant time was spent at the Point, the excursionists amusing themselves throughout the day by dancing and drawing for the prizes. Mr. Calcutt's excursions are always pleasant affairs, and Monday's was quite as successful as was anticipated.

OTHER WAYS OF PLEASURE.

Besides, there was a large number spent the day according to their bent. Some began the day by digging angle worms and passed the rest of it fishing, and then there were hundreds driving and otherwise enjoying themselves.

NOTES.

Ven Archdeacon Lander marched as chaplain of the Guards to church on Sunday afternoon, and his figure both on parade and in the sacred desk, was one that attracted notice and showed great stately and energy. He is very popular with the whole regiment, and it has been arranged that he will appear next year in chaplain's uniform. In addition to his military duties Archdeacon Lander preached at St. Luke's in the morning, and at St. John's in the evening. During his stay in town he was the guest of Mr. A. P. Peacocke, Q.C.

During the military review on Riverside Park Mr. R. M. Roy was on hand with his camera and took several views of the field.

Several Ottawa newspaper men accompanied the Guards on their trip. These were Mr. Taylor, representing the *Evening Journal*; Mr. Gorham, the *Free Press* and Mr. F. Journeaux, the *Citizen*.

Capt. Aumond who was in charge of the colour party of the Guards was the officer with Col. Denison in charge the Nile party of Canadian Voyageurs. Capt. Aumond had forty men from Peterborough in that expedition, and he had many pleasant encounters during his stay here with the men who shared with him the perils of the Nile expedition. Capt. Aumond, spoke very highly of the Peterborough party and with special commendation of Foremen W. H. Anderson who had charge of a party.

The spirit of fraternization especially between the men of the Guards and 57th was highly shown, and as the boys of the 57th could not do enough to entertain their visitors, their "sisters and their cousins and their aunts" came nobly to the rescue. There was a epidemic of scarlet fever among the girls of town on Sunday and Monday.

In the afternoon there was a little informal crooking at clay pigeons at Riverside Park. Two innings were fired with the following results:—E. Tivey scored 9 out of 12 in the first innings and 12 out of 15 in the second; J. D. Collins cracked 9 mud pies in the first and 8 in the second; W. H. Roberts scored 6 and 8 respectively; and —, Goulais, 4 and 4 respectively. It was only a friendly shoot, and the records will not be used against the shots.

The officers of the 57th arranged a smoking concert in honor of the visiting officers in the Olympic club rooms Monday night, but the latter were unable to attend. However, the 57th officers and a few prominent citizens spent a pleasant evening.

A sergeants' mess was tendered the sergeants of the Guards at the Snowden House Monday afternoon by the sergeants of the 57th. A jolly time was had.

Some disappointment was caused the officers of the Guards by the fact that there was no one at the station Sunday morning to officially receive them. This was purely an oversight on the part of those officers of the 57th who had arranged to meet the train, but did not awake in time. Ample apology was afterwards tendered the Guards' officers, and it is hoped they will not retain any feelings of resentment towards the 57th on account of this little inadvertency.

AU REVOIR.

At midnight the Guards marched to the station where the officers and a large number of the 57th had assembled and they gave the departing visitors three rousing cheers and a tiger. And thus ended a two day's fraternization which will be repeated on July first, so that the farewell greeting was not "good-bye" but *au revoir*.

One More "Vacant Cheer."

To the Editor of the Examiner:

SIR,—While yesterday's brilliant celebration is fresh in our minds wouldn't it be well if some movement could be got under way to stir up Peterborough people to a little warmer expression of their feelings? There can be no doubt what these feelings were yesterday, and those of us who are accustomed to the "ways of the place" never thought of its being necessary to express our admiration. But, when one comes to think of it, public visitors should receive public attentions, and we *might* have given those Ottawa men a heartier reception than we did. Perhaps our own boys of the 57th, too, would have liked a little more open encouragement; but, after all, we've got to live with them, so it may not be well to run the risk of making them conceited. And we would like our 57th men to feel that they have a good deal to do between this and the first of July, so that they may be in good shape by that date, and do the town credit at Ottawa. If they can manage this, perhaps we shall all go down to the station to meet them and give our boys a cheer then—that is to say, if we can brace ourselves up enough in the meanwhile to do the deed, and, somehow, I think we can.

Yours, &c.,
ONE OF THE CROWD.

Peterborough's Prime Cheese.

First Sale of the Season—Good Offer and Fair Prices.

The first sale of 1891 of the Peterborough Cheese Board was held to-day in the market building. The Board comprised 1282 boxes of the first half of May make, over 400 boxes more than the corresponding board last year. Victoria section was not represented at this sale, as the cheese making season begins late in that county. The product of nine new factories was offered, some being recently established factories and others new to the Board. There was a good attendance of salesmen, and the buyers present were Messrs. Cook, Wrighton, Hodgson and Spence.

Liverpool quotations were 57s.

The board was as follows:—

Keene	100	Ormonde	100
Warminster	98	Brickley	60
Shearer	84	Fraserville	25
Central Smith	26	Rosmeata	40
North Smith	90	North Dummer	26
Cherry Grove	26	Lakeview	25
Warsaw	35	Trevera	20
Westwood	70	Lang	11
South Dummer	52	Beaufort	24
Norwood	90	Melrose Abbey	30
Lakefield	60	Pine Grove	75
Peterborough	99	Maple Leaf	23
Total			1 282

Bidding was slow, but fair prices were got. Mr. Cook started off with an offer of 8½c. for the board, Mr. Hodgson advancing 8¾ for a carload. There being no further offers Mr. Hodgson named Keene, Lakeview, Trewern, Warminster, Shearer and North Smith. All these factories accepted. Mr. Hodgson then offered 8¾ for the balance, Mr. Cook 8¾. Mr. Wrighton 8¾ for a carload and Mr. Cook a sixteenth more for selections. Mr. Wrighton then knocked out all competition by raising to 9c., at which figure he took Westwood, Norwood, Melrose Abbey, Peterborough, Pine Grove and Warsaw. Mr. Cook again offered 8¾ for the balance of the Board; Mr. Wrighton advanced to 9c. for selections, and Mr. Cook ¾ for the same. He took Ormond, South Dammer, Brickley, Rosencath, Lakefield, Maple Leaf, Cherry Grove and Central Smith.

Toin left only three factories undisposed of. Mr. Hodgson offered 8¾ for North Dammer, which was accepted. Mr. Cook offered 8¾ for Fraserville and Bonafort, subject to inspection at Peterborough station, which was also accepted.

There was an apparent infraction of the rules in the selling of less quantities than "about" 500 boxes, but the President put an elastic construction on the phraseology, and the Board was a small one, it being the first sale, the buyers were not held down closely to the rules.

Personal.

Mr. T. S. Quinsey, of Chicago, who is engaged in the insurance business, and is one of the pushing business men of the western metropolis, is in town to renew old associations. It is seventeen years since he was in the town, and he notes a wonderful improvement in his old home. He is heartily greeted by his old friends, who have very pleasant memories of old times. Mr. Quinsey is a thorough Liberal and steadily loyal to Canada and to Canadian interests, though he is a good citizen of Uncle Sam at the same time. He cannot do too much for a Peterborough citizen whom he may meet in Chicago. He says when the coming World's Exposition comes on he is going to lay his business on the shelf and organize a committee to look after Peterborough visitors to Chicago, and provide homes for them during their stay at the Exhibition. Mr. Quinsey is genuine—so german silver style of friendship and good will will do with him.

Dyspepsia has driven to an early and even suicidal grave many a man who, if he had tried the virtues of Ayer's Sarsaparilla, would be alive to-day and in the enjoyment of health and competence. Sufferer, be warned in season, and don't allow the system to run down.

STUBBORN CHILDREN readily take Dr. Low's Worm Syrup. It pleases the child and destroys the worms. dw

W. C. T. U.

At the regular meeting of the W. C. T. U. yesterday a committee was appointed to canvas the business part of the town for signatures to the following: "Believing that the keeping open of business until late on Saturday evening tends to the desecration of the Sabbath and keeps many of our employees and others from the House of God, besides furnishing a pretext for late hours on the streets, which we believe productive of harm to our young people, we, the undersigned merchants and shopkeepers of Peterborough, hereby express ourselves willing to enter into an agreement, and that a bylaw be passed by the town council to close all places of business in this town at nine o'clock every Saturday evening." The ladies also expressed their sorrow at seeing so much laxity in the enforcement of the liquor license law, several cases of Sunday selling and drinking having come under their immediate notice. The Union contemplates offering prizes to candidates obtaining highest number of marks in temperance papers at Midsummer exam.

Pastor Wilkinson of the Auditorium, Toronto, writes as follows regarding Sam Small's greatest effort: "By all means take the 'Story of his Life.' Your people will like it. It has been given to crowded houses three times in Toronto." "It is the most powerful, most beautiful and most convincing argument ever made in the cause of temperance and the Christian religion." To morrow evening the crowds from town and country will hear the inimitable Small in his greatest effort, "The Story of his Life"—repeated five times during the great Jones-Small Boston Revival by special request. Given three times to packed audiences in the Auditorium, Toronto. Get your seats marked at once at Greatrex's drug store. Reserved seats only 35 cents

Police Court.

TUESDAY, May 26

At the court this morning Mr. E. M. Wylie, real estate and collecting agent, was arraigned on a technical charge of larceny. A young man named George Pearson was boarding at a house where Wylie had a landlord's warrant to execute, and he took possession of Pearson's trunks which a carter was about to convey to the railway station, and held them, hence the charge. Mr. Stone appeared for the plaintiff. The case was enlarged on the understanding that the trunks would be restored.

Several shopkeepers were in court in reference to improper closets. The cases were enlarged in order to define the relations between the landlords and tenants.

Poor old Adam Dobbin appeared in court with his request to be committed to gaol for six months. The commitment was made out, and Adam, apparently anticipating his end, (he has failed greatly in health and strength within a few months) begged the magistrate to ensure him that he would at death receive a decent burial, and not be sent to Toronto to "be cut up like a pig." The magistrate assured Mr. Dobbin that he would see that he had a respectable burial when his death should take place. The poor old man then shook hands with the magistrate bade him good by and invoked good luck upon him and his family and taking his commitment paper, marched up to jail. It was a pathetic sight to see the old man with his white bowed head going sadly to jail, to die, as he thinks, a man whom fortune's reverses, has brought to this pass, from being a well to do and well respected citizen.

Pale and sallow girls and prematurely aged women should use Dr. Williams' Pink Pills; they come as a boon for all those ills which affect the female system. Build up the blood, restore shattered nerves and convert sallow complexions into rosy cheeks. Sold by dealers, or sent post paid on receipt of price—50c per box, or five boxes for $2—by addressing Dr. Williams Med. Co., Brockville, Ont. 6d1w

DIED.

PETHICK—In Smith, on Tuesday, May 19th, 1891, Frances E. Pethick, aged 57 years.

Makes the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes

That Tired Feeling

creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength.

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an excellent appetite." ED. JENKINS, Mt. Savage, Md.

Fagged Out

"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." E. C. BEGOLE, Editor Enterprise, Belleville, Mich.

Worn Out

"Hood's Sarsaparilla restored me to good health. Indeed, I might say truthfully it saved my life. To one feeling tired and worn out I would earnestly recommend a trial of Hood's Sarsaparilla." MRS. PHEBE MOSHER, 90 Brooks Street, East Boston, Mass.

N. B. If you decide to take Hood's Sarsaparilla do not be induced to buy anything else instead. Insist upon having

DOMINION PARLIAMENT.

THE ALLEGED FRAUDS IN CHEESE EXPORTS.

A Dull Day in the House—The Tarte Charges Before the Privileges and Election Committee—The House in Committee of Supply.

OTTAWA, May 26.—To-day the House met at 3.10 after its Queen's birthday adjournment, and apparently a large number of members had not yet recovered from their celebration, as barely one-fourth of the House was present.

Only about 75 petitions were presented and the flow of this nuisance seems to be checked now. It has been wholly unprecedented this year, the number so far exceeding 3500, while the number for a whole session seldom exceeds five or six hundred. In fact, one day this session more petitions were presented than are usually received in any average session.

Three private bills were introduced and Mr. Foster gave notice that he would move the House into committee of the whole to-morrow on his resolution respecting the Chignecto Marine Railway, which is to extend the time or abolish the penalty clause.

The House then went into committee of supply, Mr. Wood (Westmoreland) in the chair in the absence of the deputy speaker.

Sir Charles' Salary.

Mr. Somerville drew attention to the details of expenditure in the High Commissioner's office at London, including the payment of Sir Charles Tupper's income tax (rent) and so on, and asked if these were not the sums intended to be covered by a special grant of $3000 voted the High Commissioner in addition to his $10,000 salary.

Mr. Foster said the published contingencies affected the office, and the $2000 affected specially the High Commissioner as bearing incidentally on his being there in his capacity as High Commissioner.

Mr. Somerville pointed out various items which should come out of the $3000 allowance, but which were all charged up to the contingent fund. One item, gratuity to Mrs. Wilkinson, $98.30, was a sample of what Mr. Somerville said should properly come out of the $3000 allowed for contingencies. If the High Commissioner was being paid $12,000 instead of $10,000 the people ought to know it.

Dr. Landerkin enquired whether, in the event of the High Commissioner's income being increased by reason of his connection with the gas company, if the people of Canada would pay the increased tax on his income.

Dr. Macdonald thought the Opposition were entitled to know just where this $2000 went. If it was required to entertain Sir Charles Tupper's friends let that be frankly stated.

Mr. Foster said the Government did not ask what Sir Charles Tupper did with this $3000 any more than what he did with his salary. There was a similar allowance to Sir A. T. Galt when he was High Commissioner.

Hon. David Mills reminded Mr. Foster of what Mr. Foster should know, namely, that Sir A. T. Galt paid out of his allowance house rent, income tax and many things Sir Charles Tupper does not now pay.

Mr. Hyman took it that Mr. Foster practically admitted that the $3000 was really an addition to the salary. If $12,000 was needed let the Government put it in that way and ask the House to vote it.

Mr. Foster—What's the difference between that and the way it's done now? [Hear, hear.]

Sir Donald Smith agreed with Mr. Hyman that it would be better to add the $3000 directly to the salary, but he believed the salary should be at least $20,000.

Mr. Davies objected to increasing the salary of a sinecure like the office of High Commissioner. Mr. Foster taking exception to the term sinecure, Mr. Davies insisted that it would be difficult to state what services Sir Charles Tupper performed within the last eight or ten years, except bestowing some attention on the scheduling of cattle. It was time he came to this country occasionally and did great service for his party and great harm to his country. To his mind it was absurd to pay the High Commissioner more than the Prime Minister of Canada, a position at least as honorable and ten times more onerous. Any head of a department in Canada was entitled to better pay than our representative in England.

Sir Donald Smith retorted that England paid her ambassadors in foreign countries greater salaries than the Premier of England.

Mr. Mulock said he thought the whole House would agree with the hon. member for Montreal West in the abstract, but the difficulty is to find out what portion of the salary of the High Commissioner had been earned. [Hear, hear.] The Finance Minister said the Government were carrying out in a partial way the arrangement made when Sir A. T. Galt was appointed. The fact was that for one year Sir A. T. Galt had received $4000 for rent, taxes, fire, light, etc. After that the amount was $3500. In 1884 Canada bought a residence for Sir Charles Tupper in London and furnished it at a cost of $42,000. The House was told at that time that the amount for contingencies would be reduced. But they were asked to continue the $3000, give him the house and pay the incidentals besides. If the $2000 was an increase of the High Commissioner's salary to $12,000, why not say so? Mr. Mulock asked.

Mr. Somerville hoped the Finance Minister would see the force of the arguments brought against the continued voting of this blind $3000. If Sir Charles was paid a salary of $12,000 he should be paid it honestly and above board.

After recess, Mr. Mulock called upon the Government to declare its position with regard to the attack of Sir Charles Tupper upon the Grand Trunk Railway Company. It was due to the people of Canada, he said, that it be repudiated or that it be known that Sir Charles was speaking in his official capacity as High Commissioner. It should be known if the Government, as they seemed to do, intended to give their countenance to attacks upon the value of the investments of English shareholders of the Grand Trunk. The item on which the present discussion had arisen was small, but the occasion was an important one.

The discussion was continued up to six o'clock.

After recess the House again went into committee of supply, and passed a greater part of the evening discussing some items for the Printing Bureau. Afterwards the items for the administration of justice were taken up, and the usual annual discussion on judges' salaries took place.

Sir John gives notice of a Committee of the Whole on Friday to consider a resolution that it is expedient, in order to enable the Winnipeg & Hudson Bay Railway to construct a railway from the city of Winnipeg to some point on the Saskatchewan River, to enter into a contract with such company for the transport of men, supplies, materials and mails for 20 years and to pay for the same $80,000 per annum.

Mr. White (Cardwell) gives notice of motion for copies of all memorials presented to His Excellency on the subject of a refund to municipalities in Ontario for subsidies to railway companies.

The House adjourned at 12.30.

OTTAWA, May 26.—Mr. Bowell laid on the table to-day a return to the order of the House on Mr. Marshall's motion for copies of correspondence, etc., respecting steps taken by the Government to prevent American cheese being shipped through or from Canadian ports as Canadian, also copies of instructions on the subject. From the return it appears that last summer the High Commissioner received from the secretary of the Liverpool Provision Trade Association and Exchange a letter stating that it had come to the knowledge of the Cheese Committee of the association that Wisconsin cheese full creams and partly skimmed was being sold in Montreal as Canadian cheese and shipped from there and other ports as Canadian produce. The acting collector at Montreal to whom the matter was referred reported that he was informed that American cheese had been branded "Canadian," but no proof of it had been furnished. He further stated that he had allowed a firm in Montreal to put on its cheese the words "American produce." In reply to this the Commissioner of Customs, under date Oct. 20, 1890, says: "While the action in relation to the shipping mark placed on the cheese in transit is all right in most respects, it has been decidedly wrong in the use of the words "American produce," and instead of these words the marks should always be "Produce of the United States." The former marks are liable to misrepresentation in the English markets. The people of the United States have no more right to the term American than parties of other countries on this continent. On the matter being referred to the Department of Justice, the Deputy Minister under date 12th January, 1891, points out that the merchandise marks officers act creates the offence of false marning and prescribes the penalty. It must, however, be proved to the satisfaction of a jury that there was intention to defraud. In the present case he did not see how there could be any other intent than that of fraud.

THE PRIVILEGES COMMITTEE.

Preliminary Investigation Into the Langevin McGreevy Scandal.

OTTAWA, May 26.—The privileges and Elections Committee met to-day at 10.30. There was a large attendance. Hon. Mr. Kirkpatrick presiding. Hon. Sir Hector Langevin, Q.C., Montreal, appeared for Mr. Tarte, and Messrs. G. G. Stewart, Quebec, H. McN. Henry, Halifax, and Charles Fitzpatrick, Quebec, represented Sir Hector and Hon. Thomas McGreevy. Mr. James Woods, acting Secretary Treasurer of the Quebec Harbor Commission, submitted documentary evidence called for by Mr. Tarte to prove the various contracts which it is alleged were fraudulently obtained. One important point came out in evidence. Mr. Woods testified that an unaccepted check for $25,000, signed by O. E. Murphy and endorsed by M. K. Connolly, was substituted in Oct., 1887, for a bank certificate for the same amount. Later on Mr. Connolly and Mr. Murphy asked for the return of the check. At the same time Hon. Thomas McGreevy personally wrote the secretary of the board stating that he saw an objection to the acceptance of Mr. O. E. Murphy's check in place of the one held on deposit. The commissioners, however, refused to return the unaccepted check given by Murphy and Connolly. They offered to destroy the check, but Mr. Murphy objected.

The committee will meet to-morrow.

Rebate on Sugar for Export.

OTTAWA, May 27.—It is understood that the Government have decided to grant a rebate on all sugars manufactured in Canada for export, which will place the Canadian refiner in the same position as the American refiner to trade in foreign markets. The Canadian refiners are now pressing for a rebate on sugar manufactured for domestic purposes.

Deep Sea Fishing.

OTTAWA, May 26.—The Dominion Government has decided to take steps to encourage the development of Canada's deep sea fisheries, with this object in view Hon. Mr. Tupper, Minister of Marine, will ask Parliament Friday to consider a resolution to grant $100,000 annually towards their development and to improve the condition of the fishermen.

The Senate.

OTTAWA, May 26.—The Senate resumed its labors to-night, when the three new senators, Snowball, Howlan and McDonald, were introduced. The report of the committee on the vacancy of Senator Alexander's seat was laid on the table, and Mr. Abbott gave notice that he would move its consideration to-morrow.

A BRUSH WITH BANDITS.

A "FAR WEST" TALE FROM NEW BRUNSWICK.

A Gang of Road Agents Board An Express Train Between Bangor, Maine and St John, N.B., But After Firing a Number of Shots Are Successfully Beaten Off.

ST. JOHN, N.B., May 26.—There are four bullet holes in the postal car of the mail and passenger train which arrived here from Bangor at 5 o'clock this morning, and a story of a daring attempt to rob the mail is told by the officials. The train was running out from Enfield, 25 miles east of Bangor, Me., when three men jumped aboard. It was then 8.30 in the evening and it was impossible to tell whether they were masked or not. Shortly after the bell cord was pulled, which signalled the engineer to stop the train. The engineer obeyed the signal and firing was heard in the vicinity of the postal car. Both the engineer and firemen were in a moment covered by a rifle in the hands of a man standing on the end of the baggage car, while two comrades of the train robbers tried to force an entrance into the postal car. In this apartment were the unarmed clerks, Messrs. Woodbury and Hickley and the United States officials, and the robbers finding it impossible to get in owing to the large quantity of mail piled up against the door fired through the car. Fortunately no one was injured and the men jumped off the train and dashed into the woods.

AFTER 18 YEARS.

A Long-Lost Husband Turns Up Under the Usual Circumstances.

WILKESBARRE, May 26.—An Enoch Arden case has just come to light here. Forty-six years ago George Thorn came to this country from England. In 1865 he married a Miss Dorrey A. Scranton, a miss of 16. Four children were born to them. Then one morning Thorn had a quarrel with his wife and he left home. Nothing was heard of him until five years later, when a copy of The New Orleans Picayune was received by his wife containing her husband's death notice.

Eight months later Mrs. Thorn married a William Jones. They are now living happily together. On Friday morning last who should knock at Mrs. Jones' front door but her long-lost husband. The wife recognized him at once and then fainted. Thorn, after remaining two days as the guest of Jones and wife, left for his home in Knoxville, Tenn., last night. He now says that he is sorry for what he did, but will not disturb his wife's present happiness.

Several Canadian Fires.

NORWICH, May 26.—Early this morning the agricultural buildings at the fair grounds were destroyed by fire. Cause of fire unknown. Insurance $400. Loss about $1200.

Fire at Simcoe.

SIMCOE, May 26.—The Williamson Block, Norfolk-street, occupied by Charles Marlatt, grocer, and by William Johnson as a billiard saloon, was destroyed by fire this morning. The building was owned by B. Cammell and was insured for $3000. Marlatt had $2000 insurance. The fire originated from a lamp in the billiard hall.

At Winnipeg.

WINNIPEG, May 26.—A boy playing with firecrackers set Finkelstein's tenament building on Hudson Bay Flats on fire this afternoon and rendered eight families, chiefly Icelanders, homeless. The loss on building about $1000, insured.

Robert Scott was arrested last night for setting fire to his brother's livery stables here, fortunately the flames were discovered before any damage was done.

No Hearse Big Enough to Hold the 650 Pound Corpse.

NEW YORK, May 26.—When Margaret Mulhaney used to wobble through the East-Side streets everybody stopped and stared at her. Margaret was fifty-five years old and weighed 650 pounds. Her husband was dead and she at one time lived with an only daughter. Heart disease set in and on Saturday morning Mrs. Mulhaney died. Charles McCollum, the undertaker, found it impossible to put the huge body on ice. So it was embalmed. The funeral took place at 2 o'clock yesterday afternoon.

An ordinary coffin is 16 inches wide and 13 inches high. A plain cloth-covered box, 37 inches wide and 20 inches high, enclosed the corpse. The hallway of the house being only 35 inches wide, the box had to be tipped sideways, while 12 brawny men strained every muscle to carry it through the hallway. The task lasted 20 minutes. No hearse was big enough to accommodate the coffin, and an undertakers' wagon carried the body to Calvary Cemetery, followed by five carriages of mourners.

A grave is ordinarily dug 24 inches wide. Ground had been bought for two graves, giving a width of 48 inches. Sixteen of the cemetery employes lowered the coffin into the double grave.

He Swallowed a Clay Pipe Stem.

PITTSBURG, Pa., May 26.—Dr. James McCann, at the West Penn Hospital this evening, made the fourth attempt to remove a piece of clay pipe stem from the left bronchial tube of David Williams, a 4-year-old boy. The lad had swallowed it a week ago. All efforts to grasp it with a probe, of which several kinds were used, proved futile, as it was impossible to secure a hold upon the hard substance. About two hours after the operation the boy died of exhaustion.

Deroche Discharged.

CORNWALL, May 26.—Norman Deroachie, who was arrested May 18 on a charge of being implicated in the robbing of the grave of the late P. Purcell, appeared for trial this morning and was discharged.

An Immense Tannery Destroyed.

LONDON, May 26.—Martin & Miller's tannery at Glasgow, the largest in the kingdom has been destroyed by fire. The loss is £50,000.

Crushed His Skull.

PORT HOPE, May 26.—Bartley Doyle, a sailor on the schooner Bullock, was hauling up the centreboard on the schooner when the handle slipped from the haul. The sudden release caused the weight of the centreboard to throw back the winch handle with great force and it struck Doyle a clip over the right eye that crushed his skull. He may recover.

Ate Wild Parsnip.

WINDSOR, May 24.—Madiger Lejeunesse of the Tilbury North and Rochester town line a short time ago, while digging, overturned a wild parsnip root. A short time afterward a 6-year-old son of the latter part of the root and two hours afterward died in great agony.

Grief Made Her Dumb.

PORT ARTHUR, May 26.—Two or three weeks ago a young Finn couple were married, and from the first the husband showed a desire to escape from the bonds. A few days ago he went away, and since then the wife has been rambling around apparently demented. Mary Ann Erik was up at the Police Court yesterday and committed to the jail for safe-keeping. She will not speak at all no matter who questions her.

MADE A TARGET OF HIM.

An Obstreperous Lodger Shot by His Landlady's Son

NIAGARA FALLS, Ont., May 26.—Camero Bowen, 19 years of age, came home last night about 11 o'clock and found his mother, Emily Bowen, aged 45, and a lodger by the name of William Harris both drunk. Young Bowen ordered Harris to leave the house. He refused and abused young Bowen, who drew a small revolver and fired two shots in rapid succession at Harris. The first grazed the skin on the back part of the neck, the second took effect, entering the flesh about half an inch above the nape of the neck, passing out, inflicting only a flesh wound. Young Bowen then left the house and handed himself over to the Ontario police.

Children Cry for Pitcher's Castoria.

LIEUT. GRANT PROMOTED TO THE RANK OF MAJOR.

The Young Scotch Officer Also Given the Victoria Cross—The Newfoundland Question—Parnell Delivers a Couple of Addresses.

CALCUTTA, May 26.—Lieut. Grant, who showed such skill and bravery in defeating an intrenched position near Thobal, with 30 Sepoys and 40 Ghoorkas, against almost the entire Manipuri army, has been decorated with the Victoria Cross, and has been promoted to the rank of major.

Lieut. Grant is a relative of the Grants of Grant, in the Highlands of Scotland, who "raised the Black Watch." His father is Lieut.-General D. S. S. St. J. Grant. The chance that came to the young lieutenant, for he is only 30 years of age, and the way he rose to it, became a brilliant spot in the, gloomy tale of treachery, butchery and blundering of the Manipuri massacre. Lieut. Grant held Fort Thobal for three days, and then repulsed the Manipuri again at Alongtaing in a fight that lasted three long hot hours, during which the Senaputty prince and his two commanders were killed, and the Manipuri were driven off into the jungle by Lieut. Grant's men of the Second Burmahs.

A Proposal to the Delegates.

LONDON, May 26.—The Government has made a private proposal to the Newfoundland delegates which will obviate the passing of the Knutsford bill. The delegates are now considering the proposal.

LONDON, May 26.—Alexander Staveley Hill, M.P. for Staffordshire, in the House of Commons to-day presented a petition from the Newfoundland Legislature praying that one of the Newfoundland delegates now in this country may be heard at the bar of the House of Commons in protest against the passage of the Knutsford bill which is to come up again Thursday.

Mr. Hill gave notice that he would on the second reading of the Newfoundland bill move that the Newfoundland delegate be heard at the bar of the House.

The Fife Baby Not to Rank as a Princess of the Blood Royal.

LONDON, May 26.—The Queen has decided that the Duke of Fife's daughter, the recently born granddaughter of the Prince of Wales, is to have only the rank and title to which she is entitled as the daughter of a duke. The Queen came to this decision in spite of the fact that the legal advisers of the crown concurred in the opinion that the Prince of Wales' granddaughter should rank as a princess of the blood royal. The Queen's decision is final.

Blue Jackets Take Possession.

CAPETOWN, May 26.—It is rumored here that H.M.S. Magicienne, Capt. J. P. Ripon, which vessel on May 23 was announced to have arrived at Beira, Mashonaland, a Portuguese settlement in South Africa, in company with the British gunboat Pigeon, has landed a force of marines and blue jackets and has occupied the port on behalf of the British Government.

LONDON, May 26.—Lord Randolph Churchill telegraphs from South Africa as follows: The Portuguese have reclosed the Pungwe route and have enforced exorbitant passport and customs duties for a short period. The open position of the South African Company's victorious force at Unitheli is now serious owing to their inability to secure supplies.

Portuguese soldiers have brutally assaulted two British subjects named Somershield and Dangerfield at Lorenzo Marques, inflicting serious bayonet wounds. The immediate British occupation of the coast seems imperative.

PARNELL TO HIS FLOCK.

He Outlines His Policy in Speeches at New Castle and Limerick.

DUBLIN, May 26.—Mr. Parnell went to New Castle West and Limerick this morning and was warmly received. In Limerick he referred to the Boulogne negotiations, reminding his hearers that if Mr. O'Brien had then obtained the Home Rule assurances from Mr. Gladstone that he sought for, he, Mr. Parnell, would have been enabled to retire from public life, and he would renew the offer he then made.

If driven from the leadership of the Irish nation at the general election he would still persevere as a private citizen to struggle independently of all opposition for perfect freedom in Irish politics.

Marital Woe in England.

LONDON, May 26. During the ensuing session of Sir James Hannen's court 189 suits for divorce and separation will be tried. Among the cases for the special jury will be that of Russell v. Russell. The petitioner is the Countess Russell and the respondent Earl Russell, a grandson of Lord John Russell, the English "Little Giant" of former days. There are several separation and cruelty cases of interest in theatrical circles

Burning of the Uhlan Barracks.

BERLIN, May 26.—The barracks occupied by the 2nd regiment of Uhlans was burned to-day. The exhibition of fine arts opposite the barracks was saved with difficulty.

Chinamen Beheaded.

HONG KONG, May 26.—Nineteen Chinese were beheaded by order of the authorities at Kowwon City. Nine of them are known to have participated in the Naoma Piercy tragedy.

A Prelate's Life Threatened.

LONDON, May 26.—The Bishop of London, the Right Hon. and Right Rev. Frederick Temple, received a mysterious letter last week warning him that an attempt would be made to assassinate him at the ordinance service held in St. Paul's Cathedral on Sunday last. Detectives carefully watched the Cathedral, but with no result.

Outrages in China.

SHANGHAI, May 26.—The Christian missions at Nankia have been attacked and pillaged by natives. The inmates narrowly escaped with their lives. The anti-foreigner movement, which is fomented by secret societies, has caused alarm at the treaty ports.

Chat From Over the Sea.

The strike of omnibus drivers in Paris is concluded. Minister Constans yesterday gave audience to delegates of the strikers and the companies' directors. As a result of this audience and the mediation of the municipal authorities the directors of the company met the union leaders and drafted an agreement which virtually ends the strike on the men's terms.

Killed at a Crossing.

QUEBEC, May 26.—Mrs. Louis Gerard of Larette, a washerwoman, was driving over the St. Valier street crossing of the C.P.R. with her son, when the vehicle was struck by the locomotive and smashed to pieces. The woman was instantly killed and her son, who was with her, seriously injured.

Didn't Know, Etc.

QUEBEC, May 26.—Two brothers-in-law named J. B. Dompierre and Genois were examining a revolver at St. Rodis, when it accidentally went off in the hands of Genois, the bullet entering the abdomen of his brother-in-law. He will die.

64 Earthquakes in 24 Days.

YOKOHOMA, May 26.—Sixty-four earthquakes were felt in different parts of the empire in 24 days in March last. The greatest number occurring on one day was nine shocks on the 21st of that month.

The Best Results.

Every ingredient employed in producing Hood's Sarsaparilla is strictly pure, and is the best of its kind it is possible to buy. All the roots and herbs are carefully selected, personally examined, and only the best retained. So that from the time of purchase until Hood's Sarsaparilla is prepared, everything is carefully watched with a view to obtaining the best result. Why don't you try it?

Daily Examiner.

WEDNESDAY, MAY 27, 1891.

Norwood.

(From Our Own Correspondent.)

The grounds surrounding the Presbyterian manse presented a brilliant appearance on Friday evening last. The occasion was another successful effort of the ladies to entertain the public. The village band was in attendance, and under the leadership of Mr. Freeman conducted itself in a manner worthy of every praise from a musical people. The lawn made a delightful promenade for the young people, the older people amused themselves in the house, and everything combined to give everybody a most enjoyable evening.

The 25th of May passed off very quietly in the village. The Roman Catholic picnic in the park was about the only festivity. A dancing stand had been erected, and an orchestra from Peterborough supplied the music for those who delight in that kind of amusement. Although the picnic was perhaps not so successful as in former years, yet Father Conway is to be congratulated, as he had many difficulties to contend with.

In the evening a first class entertainment was given in the town hall by the ladies of the Methodist church. The concert consisted of readings, solos, duets and instrumental music, and although the performers were all home talent, the performance was everything that could be desired.

The majority of our citizens celebrated Her Majesty's 72nd birthday out of town. The Oddfellows and the cricket club went to Campbellford, a part of the lacrosse team and a large number of pleasure seekers took train for Peterborough, and a load of young people spent the day on Stony Lake.

South Monaghan.

(From Our Own Correspondent.)

We are sorry to announce to the readers of the EXAMINER the death of Mr. David Truscott, who died in Manitoba on Sunday, May 10th. He was formerly a resident of South Monaghan, and was highly esteemed by all who knew him. He was at one time a prominent member of the Centreville Agricultural Society. His numerous friends will regret to hear of his demise.

We learn that Mr. Thompson Huggins is very sick with inflammation of the lungs. We wish him speedy recovery.

Mr. Walter Bryor, teacher at S. S. No. 5, left for the teachers' convention at Bowmanville on Friday, May 22.

Mr. John Mcuncey had a narrow escape lately. While working on the farm his horses made efforts to run away, and succeeded in dragging Mr. Mouncey within a hair's breadth of a harrow reared up against the fence, with the sharp ends of the teeth outward. We are glad he escaped what might have been a dreadful affair.

Mr. Fred Laskey employed at Mr. Samuel Blight's, Cavan, has left.

Mr. Sidney Pickop, employed by Mr. W. T. Donaldson, left for London, Eng., on Friday last.

Mr. W. T. Donaldson, Cavan, had a rather strange accident lately. He was in Millbrook on business, and some way the horse escaped and ran away, upturned the buggy five or six times, and damaged the harness so badly Mr. Donaldson had to procure a new set. We learn the buggy, which was a top one, was none the worse for its numerous somersaults.

Mr. Robert Stewart, of Frazerville, has a horse very sick with erysipelas. It is under the care of Dr. Fisher, Baillieboro. Mr. Stewart removed the animal here to Mr. W. T. Donaldson's for treatment.

A Soul-Stirring Song.

Rouget de Lisle, the composer of La Marseillaise, was a young officer of Engineers of the French Army. In this patriotic song he carried his feelings to the souls of the people. The new song flew from town to town, and its stirring melody was heard on every street. "La Marseillaise" was the liquid fire of the French revolution in 1782, and still possesses a soul-inspiring influence for the loyal and patriotic Frenchman of the present day who loves true liberty.

As the patriotic and loyal citizen's heart is stirred and made glad by the music of his country; so do the overworked, nervous tired and broken-down sufferers hail with true joy, the name of Paine's Celery Compound. They have seen and heard of its great and wonderful power in the cure of all nervous ailments, headaches, weakness and general prostration. Its reputation as Nature's great health restorer has spread from town to town not only on this Continent, but in Europe as well; and thousands now living owe their very existence to this great preparation. People talk of it at home, on the street, and in the market place, and it is no idle boast to assert that Paine's Celery Compound is pre-eminently the great family remedy for old and young.

Stewart's, Otonabee.

(From Our Own Correspondent.)

SOCIAL AT BETHEL CHURCH.—On Tuesday evening, May 19th, the members of Bethel Epworth League had a social and entertainment, to which they had previously invited several of their friends. The business affairs of the League were hastily attended to, after which an interesting programme of music, recitations and readings was given. The social was next on the programme, and after every one had done justice to the ample supply of good things supplied by the ladies, Miss Susie Matchett was called upon to give a reading, and responded by reading an address to the Rev. Mr. Wilson, thanking him for his earnest efforts for their spiritual welfare during his three years' stay in their midst, and asking him and Mrs. Wilson to accept the gifts which accompanied the address as slight tokens of their appreciation of his services. The presents were a handsome sugar bowl, with spoons attached, and an elegant brass piano lamp. Mr. Wilson, who was completely taken by surprise, made a suitable and pleasing reply, assuring them of the pleasure the past three years had given him, and expressing the hope that their parting would be only temporary, and that they would all meet again where separation would be no more. Another well-rendered selection by the choir and the benediction brought a pleasant evening's gathering to a close. The League is in a flourishing condition, having more than fifty members on the roll. In leaving this circuit, Mr. Wilson certainly carries with him the best wishes of every one connected in any way with the congregation.

The entering wedge of a complaint that may prove fatal is often a slight cold, which a dose or two of Ayer's Cherry Pectoral might have cured at the commencement. It would be well, therefore, to keep the remedy within reach at all times.

Children Cry for Pitcher's Castoria.

In Memoriam.

Lines written on the death of John D. Tully, who died suddenly at the residence of his father, Andrew R. Tully, in Smith, May 9th, 1891, aged 20 years.

A much-loved one from us is gone,
His gentle voice is stilled,
A place is vacant in our home
Which never can be filled.

Almost attained were manhood's years
By him whom Death did call;—
But manhood's load of sin and cares
On him shall never fall.

The earth was clothed in bright array
When on it he closed his eyes;
We trust they opened in a brighter world,
That world—blest Paradise.

In life he was beloved by all,
Parents, brother, sisters, friends;
His stay was short, he was recalled,
For God, who gives, He only lends.

We miss him sadly in our our home,
And in our walks abroad;
'Tis God afflicts—we must submit,
And bless the chast'ning rod.

These afflictions seem hard to bear,
But God in mercy sends
A balm to heal the wounded hearts
Of all bereave'd friends.

Therefore, with submission meek,
And child-like trust we'll wait
Till we all shall meet around the throne,
Inside the pearly gate.

—*M. W.*

Cold Springs, Otonabee

(From Our Own Correspondent.)

SUNDAY SCHOOL ANNIVERSARY SOCIAL AND ENTERTAINMENT—The Cold Springs Sabbath School will hold its third anniversary on Sunday, May 31. Rev. Mr. Shorey has kindly consented to be present and give an address at 2:45 in the afternoon. On Monday evening there will be a social and entertainment. Refreshments will be served by the ladies from 5 to 8. An eight o'clock there will be an entertainment and an address by Mr. H. S. Griffin. There will be instrumental music and singing by Mr. Ketchum and others from Peterborough. The friends of the school are cordially invited to be present both on Sunday and Monday. The committee in charge are sparing no pains to make it a success.

THE WEATHER.—On account of the combined dry weather, the crops are making slow progress. However, its an ill wind that blows nobody good, as this is just the weather for brick making, and working low land.

PERSONAL.—Mr. Thomas Holden, who has recently become a resident of this neighborhood is going into market gardening on a very extensive scale, and by his business enterprise, and a practical knowledge of the business, will no doubt make it a success.

BRICK MAKING NOTES.—In each of the three yards, active preparations are being made to burn the first kiln of the season. Mr. T. Welch has improved his facilities for work by the erection of a windmill to pump the water necessary for the clay. This will effect a great saving in labor, and, ere long, in expense as well.

Pale and sallow girls and prematurely aged women should use Dr. Williams' Pink Pills; they come as a boon for all those ills which afflict the female system. Build up the blood, restore shattered nerves and convert sallow complexions into rosy cheeks. Sold by dealers, or sent post paid on receipt of price—50c per box, or five boxes for $2—by addressing Dr. Williams Med. Co., Brockville, Ont. 6dlw

A Pleasant Herb Drink—A Spring Medicine.

The druggists tell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c, and $1 a package, and is called Lane's Family Medicine. dw

It Does Its Work.

Mrs. James Dix, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2w20d

Worthy of Confidence.

Those who have used it praise it! Mrs. George Ward writes from Josephine, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2w20d

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure blood, removing all foul humors, from a common pimple to the worst scrofulous sore. 2w20d

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

W. A. Greatrex, Druggist, has for sale the Royal Rheumatic Remedy. It is no new formula, having been before the public for 12 years and effected wonderful cures. Write to R. R. R. Co. for testimonials. dw

Miller's Emulsion of Cod Liver Oil is prepared by a new process and will keep in any climate. Be sure and ask your druggist for Miller's Emulsion and take no other. dw

THE RED COLOR of the blood is caused by the Iron it contains. Supply the iron when lacking by using Milburn's Beef, Iron and Wine. dw

People Wonder

WHEN they find how rapidly health is restored by taking Ayer's Sarsaparilla. The reason is that this preparation contains only the purest and most powerful alteratives and tonics. To thousands yearly it proves a veritable elixir of life.

Mrs. Jos. Lake, Brockway Centre, Mich., writes: "Liver complaint and indigestion made my life a burden and came near ending my existence. For more than four years I suffered untold agony. I was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digested at all. Within the time mentioned several physicians treated me without giving relief. Nothing that I took seemed to do any permanent good until I began the use of Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I could see an

Improvement

in my condition, my appetite began to return and with it came the ability to digest all the food taken, my strength improved each day, and after a few months of faithful attention to your directions, I found myself a well woman, able to attend to all household duties. The medicine has given me a new lease of life, and I cannot thank you too much."

"We, the undersigned, citizens of Brockway Centre, Mich., hereby certify that the above statement, made by Mrs. Lake, is true in every particular and entitled to full credence."—O. P. Chamberlain, G. W. Waring, C. A. Wells, Druggist.

"My brother, in England, was, for a long time, unable to attend to his occupation, by reason of sores on his foot. I sent him Ayer's Almanac and the testimonials it contained induced him to try Ayer's Sarsaparilla. After using it a little while, he was cured, and is now a well man, working in a sugar mill at Brisbane, Queensland, Australia."—A. Attewell, Sharbot Lake, Ontario.

FOR

FLAX-SEED EMULSION COMPOUND

BRONCHITIS

136 Lexington Ave., New York City, Sept. 10, 1888.

I have used the Flax-Seed Emulsion in several cases of Chronic Bronchitis, and the early stages of Phthisis, and have been well pleased with the results.

JAMES K. CROOK, M.D.

CONSUMPTION

Brooklyn, N. Y., Feb. 14th, 1889.

I have used your Emulsion in a case of Phthisis (consumption) with beneficial results, where patient could not use Cod Liver Oil in any form.

J. H. DROGE, M. D.

NERVOUS PROSTRATION

Brooklyn, N. Y., Dec. 20th, 1888.

I can strongly recommend Flax Seed Emulsion as helpful to the relief and possibly the cure of all Lung, Bronchial and Nervous Affections, and a good general tonic in physical debility.

JOHN F. TALMAGE, M. D.

GENERAL DEBILITY

Brooklyn, N. Y., Oct. 10th, 1888.

I regard Flax Seed Emulsion as greatly superior to the Cod Liver Oil Emulsions so generally in use.

D. A. GORTON, M. D.

WASTING DISEASES

137 West 34th St., New York, Aug. 6, 1888.

I have used your Flax-Seed Emulsion Compound in a severe case of Mal-nutrition and the result was more than hoped for—it was marvelous, and continuous. I recommend it confidently to the profession and humanity at large. M. H. GILBERT, M.D.

RHEUMATISM

Twenty-five persons were killed in the Curdoba revolt.

A small lot of golden-tip Ceylon tea found a purchaser in London on the 6th inst. at £25 10s. per pound.

The Czar and family start for Moscow exhibition to-morrow. He will remain four days.

Santiago advices report continuel successes of the Government party on land and sea.

£25,000 is said to be the haul made by Mr. H. M Stanley as the result of his recent lecturing tour in the United States.

To celebrate the visit of the Czarewitch to Siberia the sentences of worthy convicts will be partially remitted.

An attempt made by the Cincinnatis and Athletics to play baseball Sunday resulted in the arrest of all the players.

The bark Lansdowne with a crew of 14 men is missing. She sailed from Japan Oct. 12 for New York.

The present London (Eng.) season of social, dramatic and musical entertainment has been the dullest on record.

The deputies indicted at Pittsburg, Pa., for the murder of the strikers shot down in the coke riots were all acquitted yesterday.

Lucy McKeegan, daughter of Judge F. McKeegan, one of the foremost lawyers in St Louis, died last Tuesday, a victim of Christian Science.

Corbett has accepted the $2500 offered him by the California Athletic Club for his prize-fight exhibition, and it is thought Jackson will do likewise.

There were numerous reports of pockets having been picked on the Woodbine race-course Saturday and yesterday, but the detectives have heard so far of no complaints.

The Oxford University income amounted to £65,000 last year, of which £30,000 came from fees and other internal services, the degree fees alone coming to just £10,000.

J. G. Pennefather, collector of customs in Chatham, dropped dead Saturday. He was over 70 years of age and had been collector for a number of years.

Joseph, Pettigrew, last year warden of the county of Oxford, died at his home near Chesterfield on Friday. He was 51 years of age.

Incendiaries kindled a fire in a basement at No. 38 Ludlow-street, New York, in which 15 families were residing, but the flames were discovered and extinguished.

The treaty between Portugal and the Congo Free State has been signed. Most of the Congo's African claims are allowed, but Portugal receives fresh territory on the west coast of Africa.

A lockout of the London carpenters began yesterday. Fifteen thousand men are idle. The employers threaten to lock out the masons, plasterers and the men employed in the other branches of the building trades.

General Booth is to build a great Salvationist temple in London with the legacy of £60,000 or £70,000 which has been left him by the late Mrs. Elizabeth Bell of Glasgow.

The death is recorded, in her 102nd year of Mrs. Williams, familiarly known as "Nanny Nantglas," at her cottage in the Aman an Valley, Carmarthenshire, England.

Baron Hirsch says the Argentine Republic, not Uruguay, will be the site of the proposed Jewish colony. The baron will buy 5,000,000 acres of land for the purpose.

The Bureaus of the Paris Chamber of Deputies have appointed a committee to examine into the terms of the Newfounland Convention. All the members of the committee favor the measure.

Fever is raging among the officers and sailors belonging to the British fleet in the waters at Malta. There is an average of forty officers and men ill on board each vessel. The naval hospital at this place is overcrowded.

Although the Prince of Wales has been subpœnaed on behalf of the plaintiff in the Sir William Gordon Cumming case, otherwise the "baccarat scandal," he will not appear in the witness-box, as his evidence is not required.

Mr. Henry Brown of the drygoods firm of Brown & White of Vancouver and Victoria, B.C., died a few days ago, leaving a boy and a girl behind him. He was a Past Grand Master of the Grand Lodge of British Columbia, A. F. & A.M., and Grand Secretary at the time of his death.

Discount was easy in London during the past week. The influx of gold into the Bank of England amounted to 1½ millions, with three millions coming from Australia and America. The Bank of England yesterday made further purchases of gold eagles at a premium. On the stock exchange there was a general recovery of prices.

The election of M. Pierre Loti to Octave Feuillet's chair in the French Academy was expected, and the defeat of M. Zola was expected. Both events are gratifying. M. Loti is a writer with a style, with power of telling a story, with a gift of observation and a gift of description. Of hundreds of books which have been written about Japan, his "Madame Chrysanthème" is the most Japanese.

The Nancy court has sentenced to death an extraordinary criminal named Mercier. For years he bore a high character, but at the trial it was shown he murdered Abbe Cir. court and the abbe's housekeeper, robbed the presbytery and then set fire to the place to conceal his crime. Afterwards he wooed a wealthy widow named Jacketal. Thinking his only son—a boy of 8 years—an obstacle to his suit, Mercier killed the lad by bending his back until the spine was broken at the nape of the neck. He then tried to kill the brother of the widow Jacktals because he objected to his suit. Many other crimes were also proven against him.

Ives and Carter Matched.

MILWAUKEE, Wis., May 23.—A match game of billiards for $500 aside was arranged for last night between Frank Ives and Eugene Carter of Chicago. The game will be 600 points, 14 inch balk line, and is to be played in Milwaukee within 30 days

Fire.

According to Pliny, fire was a long time unknown to some of the ancient Egyptian tribes, and when a celebrated astronomer made me acquainted with that element and how to produce it they were wild with delight. The Persians, Phoenicians, Greeks and several other nations acknowledge that their ancestors were once without the comforts which fire bestows; the Chinese confess the same of their progenitors. Pompanion, Mola, Plutarch and other ancient writers speak of nations which, at the time when they wrote, knew not of the use of fire, or had just recently learned it. The inhabitants of the Marian Islands, which were discovered in 1501, had no idea of fire or its uses. Their astonishment knew no bounds when they saw it applied to wood, most of them taking it to be some kind of an animal which the sailors had brought with them, and which must be fed on wood.

Children Cry for Pitcher's Castoria.

A HOME ECONOMIST.

Prof. Edward Atkinson and His New Alladin Oven.

For the past six years Edward Atkinson, the Boston professor and economist, has been studying the economics of the household. He believes, and practices what he preaches, that the ordinary householder spends double the amount for food that is actually required, and which can actually be procured for half the cost. He says that the improper methods of cooking contribute greatly to this waste, both in the food used and in the fuel required to cook it. He has invented, as a great means of overcoming this unnecessary outlay, a simple oven which, in a trial made by the New York World a few Sundays ago, demonstrated that his contentions were correct and proved successful in overcoming them. The oven, which is called Alladin, is as wonderful as

EDWARD ATKINSON

its name, and is a very simple affair, being lined with a non-conducting heat material and being heated by a single oil lamp of 400 degree power at a cost of 1 cent per hour for fuel. It not only saves the food, but the kind of cooking it does renders all portions of an animal equal in value, and saves the housewife more than half the time she now has to spend in the kitchen. The World's test of the oven was complete, and a dinner of four courses and as palatable as any eaten by New York's four hundred) for ten persons cost only $1.30 or 13 cents each.

Mr. Atkinson makes nothing from his invention, all the profits being devoted by him to establish cooking schools for the poorer classes of the cities, in which work he has already interested New York and other philanthropists. His researches into the mysteries of kitchen waste and the food improvidences of mankind entitle him to the grateful consideration of humanity and it is to be hoped that the published results of his investigations will lead to universally better cooking methods by the people.

How to Live Cheap.

Great Scientist—Don't bother me now.

Wife—But I must; there is not a thing in this house to eat.

Great Scientist—That reminds me. I've just finished an elaborate article 'What Primitive Man Ate' and—

Wife—What I want to know is what a certain cultured man and his wife are to eat!

Great Scientist—Humph! Well, let me see. Oh! just sit down and read this article. It will take away your appetite, my dear.

A Love Song in M Flat.

"My modest, matchless Madeline
Mark my melodious midnight moans:
Much may my melting music mean—
My modulated monotones.

This young man stayed out too late, serenading his lady love. He caught a cold, which developed into catarrh, but he cured it with Dr. Sage's Catarrh Remedy, a sovereign specific for chronic cases, "Cold in the Head," Catarrhal Headache. It corrects the tainted breath, stops the offensive discharges, heals the irritated throat and nose, leaving the head clear, and smell and taste unimpaired. It costs but 50 cents, and the proprietors offer in good faith $500 for a case they cannot cure. c

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

Everybody Likes It.

Wm. Dredge, Eilen street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised. Sold by all druggists. dw

From the Pacific Coast.

We quote from a letter recently received from Miss Eleanor Pope, Port Haney, B C: "For sore throat, coughs, croup, bruises, &c., Hagyard's Yellow Oil is the best thing I have ever used." 2s204

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She received to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS. KENNEDY, Hamilton, Ont. 2s203

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2s203

Would not be Without It.

Dyer's Jelly of Cucumber and Roses for chapped hands and for making the skin smooth and soft. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 61116

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

"MANY MEN, MANY MINDS," but all men and all minds agree as to the merits of Burdock Pills, small and sugar coated. dw

AS AN AID to internal remedies for skin diseases, Dr. Low's Sulphur Soap proves very valuable dw

CARTER'S LITTLE LIVER PILLS.

CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. While others do not, CARTER'S LITTLE LIVER PILLS cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents five for $1. Sold everywhere, or sent by mail

Self Application of Electricity

FOR MEDICAL PURPOSES BY THE

DORENWEND ELECTRIC BELT And Attachments.

HEAD OFFICE—193 Yonge St., Toronto.

THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, VERTIGO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.

Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as the best in the world; we defy anyone to bring proof to the contrary.

Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.

Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eod-w

WEDNESDAY, MAY 27, 1891.

OUR MILITARY GUESTS.

It is a pleasure, now that the royal holiday season is over, to look back upon its features, because the several events passed off so successfully, agreeably and amicably. We know that the town gave the Governor-General's Foot Guards a hearty welcome, and that the Fifty-seventh Battalion, whose guests the Guards were, did their best to make the visit pleasant, and we have the assurance of many members of the Guards that their efforts were appreciated, and will be as heartily reciprocated upon the occasion of the visit of the Rangers to Ottawa on July 1st. There is, doubtless, great benefit to be derived from thus bringing different volunteer *corps* together. The monotony of routine drill is broken, a friendly rivalry is created, and an opportunity presented of mutual learning in many minor military matters not prescribed in the regulations. Acquaintanceships, and in some cases friendships, are formed that may possibly be renewed on the stern parade ground of actual strife. Each *corps* gathers new inspiration and ambition from the holiday co-mingling, and each gathers a new interest in the volunteer force as a whole. Each learns that it is not perfect, and that it may learn much from its friendly rival. The public also learns to place a more intelligent value upon the defenders of the country — to appreciate how much time, money and exertion are necessary, and are put forth, to make the volunteers as efficient as they are brave and willing, defenders of their hearths and homes. We have reason to know that both the citizens and the volunteers of Peterborough were delighted with their holiday guests. Taken collectively the Guards were as fine body of soldiers as one would be able to meet in any volunteer district anywhere in any country. They were soldierly in their bearing and set-up, and they have evidently learned that hardest of lessons to the volunteer soldier—*submission* to discipline. Not only were the Guards all that could be desired under arms, but, as becomes their dual relations as citizen-soldiers, their conduct out of the ranks showed that they were as good citizens as they are soldiers. Though the whole of Monday afternoon and evening was given to the members of the of the Guards, none of them, with a rare exception or two, forgot that being soldiers did not relieve them form the duty of being gentlemen and good citizens. The behaviour of the men of the Guards was, on the whole, highly creditable to them, and afforded the citizens of Peterborough no occasion to regret that they had given the Ottawa soldier boys the freedom of the town. In this respect the members of the Guards established a precedent, which forms a good example to both those volunteers who in the past have visited or in the future, may visit the town. The members of the Fifty-seventh are looking forward to the visit to Ottawa on Dominion Day, with pleasurable anticipations, which we trust will be more than realized, and we are sure they will equal the lesson in the matter of both military and civil deportment, they received from the visit of the Governor General's Foot Guards.

Tellordian Temperature Topics.

PETERBOROUGH, May 25th. — After our gentle dip on Saturday, we had a regular bull dog from the north yesterday morning, at sunrise the thermometer standing at 28°, being 4° below the freezing point, with a good thick ice, and doing considerable damage to garden vegetables.

PETERBOROUGH, May 27th, 1891.—Yet another. The thermometer at sunrise this morning stood at 29°, being 3° below the freezing point with sharp frost and some ice.

Telephone Extension on the Coast.

The Vancouver *News-Advertiser* of a recent issue says:—Yesterday the extension of the telephone service to Steveston was completed. At present the line is only connected with the central office at Steveston, which is in J. A. Furlong's store, on Second avenue. A messenger is kept there to fetch people who are called up to the telephone, or else the message will be taken down and delivered by the messenger, and the answer sent back. For this only the moderate sum of 25 cents will be charged, 15 cents being the toll for a conversation and 10 cents the charge for the messenger. The line was all laid inside of three weeks, and, considering the bad weather, this speaks well for Mr. H. W. Kent and *his assistants*.

Something New.

Unprecedented success! The world-famous and justly celebrated Adjustable Shoe, now worn by one million delighted ladies in the United States, and now being introduced in Canada. Artistic, elegant, not expensive. Every shoe guaranteed. Be sure and see them before purchasing others. They are a marvel of comfort and a boon to humanity. Our agent will call on the ladies of Peterborough immediately with samples of goods. Sold only by general agents and their assistants. Emma Crumb, agent for Peterborough, is now at the Grand Central Hotel, and can be seen any evening there. She carries a stock of these elegant shoes. 6d123-1w

Court of Revision.

The first meeting of the Court of Revision was held last night. Present, W. H. Moore, chairman, R. S. Davidson, E. H. D. Hall and K. M. Dennistoun. The appeals entered totalled fifty-three, none of them of great importance. The majority were for slight reductions or changes. There were thirty-two disposed of.

The total reductions made amounted to $3,300.

There was a quiet, good-natured conference over the various items. About half of the appellants were present in person. There were four cases withdrawn. The Court adjourned to meet on Wednesday, June 3rd, at 7:30.

A Musical and Social Evening.

The Charlotte street Methodist Auxiliary of the Woman's Foreign Missionary Society held a very pleasant recreative meeting in Charlotte street Methodist school room last night. There was a large attendance. The following programme was very successfully presented:—

Pianoforte Solo	Miss Rose Clarke
Vocal Solo	Miss Annie Brundette
Reading	Miss Kennedy
Vocal Solo	Mrs. S. J. Shorey
Mrs. Taylor	Original Paper
Address	Mrs. Jas. Locke
Address	Rev. S. J. Shorey

Mrs. Taylor's paper was on the subject of Women's work. Miss Locke's address dealt with mission work and Rev. Mr. Shorey showed which work had been done by women. A very pleasant evening was closed with a luncheon served by some of the ladies.

Pastor Wilkinson of the Auditorium, Toronto, writes as follows regarding Sam Small's greatest effort: "By all means take the 'Story of his Life.' Your people will like it. It has been given to crowded houses three times in Toronto." "It is the most powerful, most beautiful and most convincing argument ever made in the cause of temperance and the Christian religion." To-morrow evening the crowds from town and country will hear the inimitable Small in his greatest effort, "The Story of his Life"—repeated five times during the great Jones-Small Boston Revival by special request. Given three times to packed audiences in the Auditorium. Toronto. Get your seats marked at once at Greatrex's drug store. Reserved seats only 35 cents

News Nuggets.

—Thin and impure blood is made rich and healthful by taking Hood's Sarsaparilla. It cures scrofula, salt rheum, and all blood disorders.

—The Bicycle Club will have a "run" this evening to Nassau.

Dyspepsia has driven to an early and even suicidal grave many a man who, if he had tried the virtues of Ayer's Sarsaparilla, would be alive to-day and in the enjoyment of health and competence. Sufferer, be warned in season, and don't allow the system to run down.

A Visitor's Version.

To the Editor of the Examiner:

SIR,—Permit me as a visitor to your enterprising town on the occasion of the last two anniversaries of our Queen's birthday to congratulate you on getting first-class volunteer regiments to join your local corps on such occasions.

What impressed an outsider most, however, (judging from my own experience), was the utter lack of enthusiasm manifested by the thousands who witnessed the grand military display. And it was a sight well calculated to inspire those fortunate enough to behold it. But how much pleasanter and easier for the volunteers (to whom we were indebted for the whole of our enjoyment), and how much more livelier for the spectators themselves it would have been had a few more good ringing British—aye, Canadian—cheers rent the air to testify to the appreciation felt by the onlookers. Our own regiments in Toronto never even parade our streets without exciting a large measure of enthusiasm, and this is one of the chief factors in keeping them up to their state of efficiency and discipline. Why should it not be the same with you? I venture to say that you would be surprised at the effect it would have on your regiment.

Let loyalty and patriotism flourish, and don't be afraid to give expression to them or your children will grow up almost unaware of their existence and so feel that they are sentiments rather to be ashamed of than to be gloried in. Applause should not be limited to election meetings and "nigger" minstrel shows.

May 25, 1891. VISITOR.

Unequal Competition.

To the Editor of the Examiner:

DEAR SIR,—Peterborough Lodge No. 64, Sons of England Benevolent Society, in conjunction with the lodges at Campbellford, Lakefield and Lindsay, have arranged for an excursion via the Grand Trunk Railway to Toronto on June 4th next, the proceeds (if any) of such excursion to be divided amongst the lodges named and to be used for such purposes as are consistent with the objects of benevolent societies. The Canadian Pacific Railway Company has, however, seen fit to enter into competition with a benevolent society. They first tried, as there is reason to believe, to arrange with another society in Peterborough to run excursion in opposition to the above, but failing in that they are now advertising an excursion on their own account, on the same date. So far as we can ascertain, we are the first to suffer by this policy of the C.P.R. Railway by competing with benevolent societies, but it is to be presumed that the Company will continue this policy with the result that no society will go to the trouble and expense of running excursions to competitive points.

If this were a matter of competition between the two railway companies, we would have nothing to say, but when a wealthy corporation like the Canadian Pacific Railway competes with a local society lodge, we think we are justified in appealing to the members of all other societies in town who are liable to similar treatment at any time, to assist us on June 4th, and also to join us in this protest against the action of the Canadian Pacific Railway, and at the same time to ask the citizens of Peterborough on the same date to show their appreciation of the conduct of that company by assisting us in this most unequal contest that has been forced on us by our big competitor.

Yours truly,
A. E. DIXON,
Rec. Sec. Peterborough Lodge No. 64.

The Visit of the Guards.

The EXAMINER yesterday and to-day contained letters complaining of lack of enthusiasm shown by the multitude on May 25th in applauding the volunteers. It is true that Peterborough citizens are not of the gushing sort, and the deep interest they feel in the volunteers and their appreciation are more apt to be shown in deeds than by empty handed plaudits. But if a charge of coldness will lie against Peterborough citizens, what is to be said of the Ottawa press, when the account of the visit of a crack regiment to a crack town on the crack holiday of the year is dismissed with a letter paragraph like the following taken from the Ottawa *Free Press* of Tuesday:—

"The trip of the G. G. F. G. to Peterborough proved to be one of the most enjoyable the regiment has ever undertaken. They turned out on Saturday evening to the strength of 33, rank and file and accompanied by the two bands, ambulance corps, and the colors, left by the C. P. R. Major Wicksteed, Capt. Aumond, Sergt.-Major Conroy and other veterans accompanied the regiment, Col. Todd being in command. Arriving at Peterborough at 6 a.m. on Sunday, a pleasant time was spent, the men parading for church service in the afternoon. A general review took place on Monday the united bands of the guards and the 57th giving a grand concert in the evening. On the return trip this morning an accident happened the engine but after considerable delay they proceeded on their journey arriving home about 9 a.m. The men looked exceedingly well and were highly praised by the citizens of Peterborough.

WHAT THE CITIZEN THINKS.

The Ottawa *Citizen* has this reference, in its fairly full report of the proceedings, to the 57th:—

The 57th are an infantry regiment, red coated and wear the regulation infantry white helmet. Their uniforms are new, and the men being of good proportions and well drilled presented a fine appearance. * * * The church service attended by the two regiments together was bright and interesting. It was conducted by Ven. Archdeacon Lander, and Rev. J. C. Davidson, M.A., the rector, preached the sermon, his text being "Fear God; Honour the King." In the course of his remarks he said the 57th Battalion welcomed their brethren in arms from Ottawa, and hoped they would have nothing but pleasing recollections of the place. During the offertory the choir of the church sang very creditably the anthem, "The Lord is great in Zion," Dr. Davies, formerly of Ottawa, presiding at the organ.

Afterwards the National Anthem was played by the two bands and sung by those assembled.

The Roman Catholic members of the Guards, headed by Major Heron, and accompanied by some members of the 57th, attended service at the Roman Catholic Chapel, where the parish priest preached on patriotism from the text, "Lives there a man with soul so dead," etc.

ADDENDUM.

In the hurry of preparation for our edition of yesterday a paragraph was omitted with reference to the band serenading Mr. A. A. Cox: In the evening (Monday) the Guards band invaded the beautiful grounds of Mr. A. A. Cox's residence, at the head of Simcoe street, and after playing several beautiful selections, were entertained at lunch.

Police Court.

WEDNESDAY, May 27th.

At the court this morning A. M. Price was charged with keeping a vicious dog; the defendant was given a month in which to dispose of the dog.

M. Carton was charged on the information of T. Bradburn with having on the 26th day of May feloniously and by unlawful violence, and restraint upon the person of complainant compelled the latter to affix his name to a receipt for money in order that the said receipt might be used or dealt with as a valuable security with intent to defraud the said Thomas Bradburn. Mr. E. E. Wood appeared for complainant and Mr. Edwards for defendant. Mr. Edwards objected to the information on the grounds of its being too comprehensive and that the receipt was not a "valuable security." After a little argument over these matters the magistrate held that the information was bad and it was accordingly discharged.

Mr. B. M. Wylie appeared again on the technical charge of larceny and on his assuring the magistrate that the goods placed under seizure had been returned to the owner, the charge was dismissed.

A Former Resident's Opinion of Sam Small.

To the Editor of the Examiner:

DEAR SIR,—During my stay in your city my friends have made enquiry regarding Sam Small. Permit me to state that I have had the pleasure of his acquaintance, and have listened to him many times during his stay in Chicago. Those who hear him this evening will be repaid a thousand times. Every boy, young man and parent should hear Mr. Small. If you desire to hear the history of rapid life in the great cities, and how soon a brilliant mind can be led astray, go to-night.

Respectfully,
T. S. QUINCEY.

Municipal Amendment Act, 1891.

Summary of Amendments Made in the Last Legislature.

The following are the principal changes made by the Municipal Law of last session, which go into effect on the first of July next:

Section 1 provides that the 100 petitioners required for a village incorporation must all be over 21 years of age.

Section 2 requires that petitioners for a village incorporation must state whether they are freeholders or householders, with the numbers of their lots where there is a registered plan; that no by-law for a village incorporation shall be passed unless the petition therefor shall have been lodged with the clerk of the county at least one month before the meeting of the council at which the same is to be considered, nor unless public notice shall have, within two month previous to the meeting of the council at which the same shall be considered, been published at least once a week for two successive weeks in some newspaper at or nearest to the locality sought to be incorporated, and such notice shall set forth a description of the area intended to be embraced in the village.

Sections 3, 4, 5, 6 and 7 make the necessary changes in Sections 132, 136, 143, 145, 148 and 149, so as to provide for the clerk furnishing a blank poll book to a deputy returning officer and a corrected printed copy of the voters' list for use at municipal elections, instead of writing out a copy of all the voters' list for use at the poll.

Section 8 substitutes a new section for section 210 as follows:

(1) Every person, who directly or indirectly, by himself or any other person on his behalf, makes use of or threatens to make use of any force, violence or restraint, or inflicts or threatens the infliction by himself, or by or through any other person of any injury, damage, harm or loss, or in any manner practices intimidation upon or against any person, in order to induce or compel such person to vote or refrain from voting at any municipal election, or on account of such person having voted or refrained from voting thereat, or who by abduction, duress or any fraudulent device or contrivance, impedes, prevents or otherwise interferes with the free exercise of the franchise of a voter, or thereby compels, induces or prevails upon a voter either to give or to refrain from giving his vote at any municipal election, shall be deemed to have committed the offence of personation, and shall incur a penalty of $200, and in default of the payment of the penalty and costs, the offender shall be imprisoned in the common gaol for a period of sixty days unless the fine and costs are sooner paid.

Section 9 provides for taking the proceeding section out of the limitations of Section 214.

Section 10 authorizes the issue of thirty-years debentures for harbor works or improvements.

Section 11 provides for the validating of all local improvement by-laws and debentures issued thereunder and assessments made therefor unless an application or action to quash or set aside has been made within one month of registration, and such application or action must be registered in the form of a certificate under seal of the Clerk of the Court within five weeks of the by-law's registration.

Section 12 prohibits the diversion of sinking funds to current or other expenditures and makes councillors personally liable for all such moneys diverted, and disqualifies them for municipal office for two years.

Section 13 give police commissioners in cities and councils in towns power to prohibit or regulate bands or musical instruments on streets, parks or public places.

Section 14 gives power to all municipal councils to regulate the construction and width of stairways in churches, theatres, halls, or other places used for public worship, public meetings or places of amusement and in factories, warehouses, hotels, boarding and lodging houses.

Section 15 reduces the notice from one month to ten days required to be given to owners of adjoining property when it is deemed necessary to remove shade or other trees for purposes of public improvement.

Section 16 provides in regard to claims for compensation for damage for lands taken or injured by a council, that such claims shall be made within one year from date when the alleged damage were sustained or became known to the claimant, or, in case of a continuance of damage, then within one year from the time when the cause of action arose or became known to the claimant.

Section 17 provides that township clerks may exercise the powers conferred on those of cities, towns and villages, of selecting another polling place for municipal elections when the one fixed upon cannot be obtained or is unsuitable.

Section 18 gives power to councils of townships, cities, towns and incorporated villages to pass bylaws for inspecting and regulating the construction and erection of hoists, scaffolding and other constructions used in the erecting, repairing, altering or improving buildings, chimneys or other structures; and for making all necessary regulations for the protection and safety of workmen and other persons employed thereon, and for appointing inspectors of scaffolding.

Section 19 gives power to councils of counties, cities and separated towns to establish schools for the training and education of artizans, mechanics and workingmen in such subjects as may promote a knowledge of mechanical and manufacturing arts; to buy land and erect buildings therefor; to appoint trustees for their management, and to make grants in aid thereof.

Section 20 provides that every bylaw changing the name of a street in a city or town, shall state the reason for the change, and shall not be finally passed until the same has been approved by the County Judge.

Section 21 gives power to councils of cities, towns and villages to regulate the erection of electric light poles and wires, as well as telephone and telegraph poles and wires.

Section 22 authorizes the councils of cities and towns to grant money to assist in erecting public bathing houses within the municipality.

Section 23 authorizes city and town councils to expend money in constructing street railways into adjoining municipalities with the consent of the latter given by by-law and upon terms to be approved by the Lieut.-Governor-in-Council.

Section 24 provides a more extended and effective "remedy over," for a municipal corporation against an individual or other corporation in actions for damages brought against the first-named corporation, but which actions for damages arose wholly or partly through the negligence of the individual or other corporation. A right of subsequent action is also given to the first-named corporation against an individual or other corporation that may be found to be liable.

Section 25 gives power to any municipality, either alone or jointly with another, to buy stone or gravel beds in such municipality or in an adjoining municipality for use in road repairs.

Section 26 makes a correction in section 38 of the Municipal Amendment Act of 1890, by inserting "sub-section 4 of section 618" in place of "section 623" in the first line on page 119 of 1890.

Section 27 gives councils power to put in water mains and necessary alterations of service pipes and stop-cocks before renewing or constructing a pavement and to levy the same as part of the cost of the local improvement.

Section 28 substitutes the word "assessable" for the word "answerable" in the 2nd and 5th lines of sub-section 7 of section 620 as amended by section 33 of 1890.

Section 29 gives power to councils to levy on the assessed value (as well as frontage) for watering, sweeping or lighting.

Sections 30 and 31 provide for the levy of a rate on any township area for the maintenance of a fire engine and appliances purchased therefor, and for the election of three trustees to care for the same.

Section 32 gives power to the Council of Toronto to pay for certain extensions for gas and waterworks out of the general rate and to raise money on the credit of the corporation for this purpose, under certain conditions.

Sections 33 and 34 give the same power to towns that cities now have to construct plank sidewalks as local improvements and assess properties abutting thereon for their construction, if two-thirds of the Council so vote.

Section 35 is passed to meet a decision of the Courts that local improvements, debentures were practically a mortgage on the property assessed. It provides that "where local improvements benefiting real property have heretofore or shall hereafter be made under the provisions of the local improvement clauses of this Act the costs whereof, in whole or in part, have been charged upon or against the real property, the petitioning for or procuring to be made, or the making of any such local improvements, or the charging the costs thereof upon or against the real property, or the fact that they are a charge upon or against such real property, shall not be deemed to be a breach of the covenant by by a vendor or person agreeing to sell that he has done no act to encumber the real property, except to the extent that the annual or other payments in respect of such charge are in arrear, and unpaid, but this shall not affect or apply to any case already adjudicated upon or now pending in litigation." (It was intended to give this section immediate effect, but by change in the numbering of the sections, while going through committee, this does not go into effect until July 1st while the next section is given immediate effect.)

Section 36 provides that the majority of the owners in any section of a municipality, representing one half the assessed value, may petition for a by-law for a street railway to be given by said section, which shall be given after a majority of those interested have voted therefor. This section also provides that in any and every case in which street railway lines are built by different duly incorporated street railway companies in the same or adjoining municipalities along different routes to the same terminal points, then in case an agreement cannot be arrived at between two such companies providing for the exchange and transfer [illegible] for a continuous trip over both such lines or portion thereof, the matters in difference in respect thereof shall be referred to arbitration under the provisions of the Municipal Act. (This section is one that is given immediate effect.)

Section 37 gives power to cities, but not to any other municipalities, to levy and expend certain fixed sums to be expended in the reception and entertainment of distinguished guests, and for any travelling expenses necessarily incurred in and about the business of the corporation.

Sections 38, 39 and 40 provide for the construction of roads by local assessment, when all parties interested petition therefor. (This is known as Judge Woods' system.)

Section 41 provides that any owner of real property, notwithstanding that his name does not appear on the last revised assessment roll of the municipality, may petition for or against local improvements upon satisfying the clerk of the municipality, by a statutory declaration or otherwise, that he is the owner of the property instead of the person assessed therefor upon such last revised assessment roll.

Section 42 provides that every person who is required to lodge with the registrar a plan or map of any survey or sub-division of land in any city or town shall, at the same time, deposit with said registrar a duplicate of such plan or map, and the registrar shall endorse thereon a certificate, showing the number of such plan or map and the date when the duplicate original thereof was filed with him, and the same shall be delivered by the registrar to the treasurer or assessment commissioner of the municipality upon request, and without any fee being chargeable in respect thereof. The provisions of section 88 of The Registry Act 114 shall not apply to any plan or map, a duplicate of which has been deposited as required by this section; but, in case of neglect or refusal to comply with the provisions hereof, the penalty mentioned in the said section shall become payable.

STUBBORN CHILDREN readily take Dr. Low's Worm Syrup. It pleases the child and destroys the worms. dw

King of Medicines

A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 6 years. In that time ten or eleven sores appeared and broke, causing me great pain and suffering. I feared I never should get well.

"Early in 1886 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Walling Mfg. Co., and since then

HAVE NOT LOST A SINGLE DAY

on account of sickness. I believe the disease is expelled from my system, I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEES, 9 N. Railroad St., Kendallville, Ind.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

100 Doses One Dollar

$50.00 REWARD.

THE Municipal Council of the Township of Ennismore will pay the above reward of FIFTY DOLLARS to any person who will furnish such evidence as will lead to the conviction of the party or parties who burned the premises of Mr. J. E. Belcher, County Engineer, which was situated on Gannon's Narrows, in Ennismore Township, on the night of April 21st, 1891.
Per order of Council.
J. F. SULLIVAN,
6d123-3w22 Clerk of Ennismore.

Children Cry for Pitcher's Castoria.

On Fire with Eczema

Terrible Sufferings of Little Baby—Seven Doctors and Two Hospitals Fail—Cured by Cuticura.

My baby boy, 5 months old, broke out with eczema. The disease first appeared behind the ear, and spread to his head, breast, face and head, until he was nearly covered. His torments were simply pitiable to behold. Almost no peace and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $3 per week for medicines, and was entirely discouraged. I purchased CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, his sufferings were ceased, and rest and sleep permitted. He steadily improved and in nine weeks was entirely cured, and has now as clear a skin and is as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON,
34 W. Brookline street, Boston.

Cuticura Remedies.

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of eczema and psoriasis, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

Sold everywhere. Price, CUTICURA, 75c. SOAP, 35c.; RESOLVENT, $1.00. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

DOMINION PARLIAMENT.

THE M'GREEVY-LANGEVIN SCANDAL BEFORE COMMITTEE.

The House Adjourns Until Saturday After a Four Hours' Session—Questions Respecting Election Promises to the City of Quebec A Prohibition Delegation.

OTTAWA, May 27.—The House adjourned at 5.50 to-night until Friday (to-morrow being a holiday) after a quiet session at which a fair amount of pro priva work was done.

Mr. Tupper introduced an act to further amend the steamboat inspection act, and in doing so explained that it was for the purpose of exempting steamboats from re-inspection under certain circumstances.

A number of questions of more or less local interest were asked and answered, and some of general interest, amongst the latter being two with regard to alleged election promises that the Government would guarantee that a bridge should be built across the St. Lawrence at Quebec, and that the $1,000,000 debt of that city, on account of the North Shore Railway, would be cancelled.

Sir Hector Langevin, in reply, said that a survey for a bridge at Quebec had been made, but he could not say when the report would be brought down. With regard to the $1,000,000 loan, he said that the telegram purporting to have been sent by Sir John Macdonald was not complete as published, but he said a measure would be brought down with reference to North Shore bonds.

Mr. Tarte wished to know whether A. F. Ferrey was still Chief Engineer of the Quebec Harbor Commission, if not when he had resigned, etc., and was informed by Sir Hector Langevin that Mr. Ferley had resigned on Jan. 15, 1891. He had held the position since 1884 and his successor was Mr. Boswell.

Three private bills respecting the River St. Clair Railway, Bridge & Tunnel Company, respecting the Canada and Michigan Tunnel Company, and respecting the Lake, Temiscamingue Colonization Railway Company, passed through committee without amendment, were read a third time and passed. These are the first private bills sent to the Senate this session.

A number of motions for papers were passed and 16 private bills read a second time and referred to their several committees. The part of the day's proceedings was performed with great quickness. Speaker White getting through with 14 of them in 8½ minutes.

The Senate passed its first bill this session to-day. It was the Government measure reviving the modus vivendi this season. As already stated there is every reason to believe that His Excellency will assent to this bill shortly so that it might come into effect at once.

WANT PROHIBITION

A Delegation of Clergymen Interview the Ministers.

OTTAWA, May 27.—A deputation representing the various Protestant denominations and temperance organizations waited on Hon. Mackenzie Bowell and Hon. George E. Foster to-day to urge the Government to support Mr. Jamieson's resolution in favor of prohibition and to prohibit the liquor-permit system in the Northwest. The visitors included Rev. Dr. Potts, Rev. Dr. Ryckman, Rev. Mr. Morrison and Mr. Ormston. The visitors did not receive much encouragement. Hon. Mr. Bowell saw difficulties in the way of enforcing a prohibitory law. If the people wanted the liquor traffic suppressed both parties would unite in carrying out the general expression of the people. Hon. Mr. Foster dealt with the matter from the financial standpoint. How could the country, he asked, make up the deficit of seven and a half millions in revenue if the liquor traffic were suppressed? Although a prohibitionist he differed from others as to time and methods in carrying out such a policy. Prohibition, he added, would never be adopted unless it was generally desired by the people.

THE M'GREEVY SCANDAL.

A Batch of Letters Read Before the Privileges Committee.

OTTAWA, May 27.—The Privileges and Elections Committee met again to-day, there being a good attendance and Mr. Girouard in the chair. Mr. Roy, Secretary of the Department of Public Works and until recently Sir Hector Langevin's private secretary, was under examination. In reply to the first question put him he said that he knew nothing of the papers, as he was only secretary of the department since January last. "Then in whose custody are they?" asked Mr. Geoffroin, Mr. Tarte's counsel. "They are in mine," was the reply. Mr. Roy admitted that he was in charge of the papers, but took no part in getting them ready for the committee. Finally it was ascertained that the papers were really in the custody of the Deputy Minister, Mr. Gobeil, whom it was decided to call.

Robert McGreevy was next called and read the famous letters written by him to his brother, Hon. Thomas McGreevy, and which have already been published by Mr. Tarte. Some of the remarks caused quite a sensation—such as that warning his brother against a "pack of cut-throats." One dated May 30 implied influence enough with the Minister of Public Works to get any engineer for Esquimalt Harbor that they might desire. Another letter stated that "Sir Hector and myself will decide what is to be done in the future. He will adopt my views." This and several other letters were written on Public Works paper. In one of the letters Thomas McGreevy told of "getting the Minister" to give a contract to a firm who had not been the lowest tenderer, adding the names of the lowest tenderers. At this point a dispute arose as to the relevancy of a certain letter before it was read, and finally it was proposed to clear the room of strangers and first submit the letter to the committee. Mr. Tarte was satisfied if the "P.S." was only read, but many of the committee desired that it should all be read. Another letter was laid aside, despite the protest of Mr. Laurier, who declared that it was relevant to the investigation. Mr. Mulock held that to pursue such a course was to burk the inquiry. Sir John Thompson objected to the remark and said that it was only intended to postpone for the time being the reading of these letters and afterwards to decide whether or not they should be read.

The following are samples of how "Uncle Thomas" professed to be able to run things:

OTTAWA, May 15, 1885.

DEAR ROBERT,—I enclose you letter from Rousseau. You ought to sell him the store cheap. We don't want it. Telegraph him to Montreal on receipt of my letter price. Tell Kerrigan & Co., plumbers, that they have contract for marine hospital. They were not the lowest. Vandery was. I got the Minister to give it to them.

Your extensive account has not reached Railway Department yet. Will look after it to-day. I wish you could get $400 for a week by check or otherwise to pay $300 to Stanley Smith and Lindsey at once. They have both written for it. I am afraid they will insist on the capital.

Tell me to-morrow if you can do so at once, and if not I will have to go down and look to it. Bradley told me he has sent to Larkin Connolly & Co. what they asked for by telegraph. Riopel will be in Quebec Friday morning and will give the necessary authority required to make a beginning on the Baie Des Chaleur Railway in order to save the charter.

Yours truly, THOMAS McGREEVY.

DEPARTMENT OF PUBLIC WORKS CANADA, OTTAWA, March 17, 1886.

DEAR ROBERT, Nothing new since I wrote last. I hope Lortie will receive his letter authorizing him to go on with his grading around the hall. The total amount is $7800 levelling and grading. The matter is all settled, but he will have to wait until the money is voted for payment. I have had a long interview with Perley on harbor works and graving dock at British Columbia. Fleming was to have signed his report to-day on harbor works. It will be shown to me as soon as signed. I will see it to-morrow and Sir Hector and myself will decide what is to be done, for the future. He will adopt my views. I will see you and Murphy about it before doing anything. It is a big thing for the future. I think the graving dock at British Columbia will be lengthened. They are now making estimation of it. I think he is going to put another $150,000 in estimates for it. Weather very cold. Yours truly,

THOMAS McGREEVY.

DEPARTMENT OF PUBLIC WORKS, CANADA, OTTAWA, March 17, 1886.

MY DEAR ROBERT, Larkin and Murphy are here. Larkin has learned a good deal of what has been done. The estimate for February is through and amounts to over $20,000. That makes nearly $75,000 gone out within a month. They ought to be flush out there now. I send you to-day the votes and proceedings about what Edgar said about Baie Des Chaleurs. R. W. Pope sent for me to ask what answer he would give. I agreed that he should give the required information, but will state that I have notified him of my withdrawal from the directorate and severed my connection with the company. Other questions will follow. Pope told me that they had put in some answer which he has sent to the Minister of Justice. I will go and examine them to see what they have put in. Your letter received. I will attend to what you ask. THOMAS McGREEVY.

P.S. Murphy will not leave before to-morrow evening.

There was a little tilt between the lawyers as to the admission of some of the letters, and the committee had a short session with closed doors, and it is understood that it is decided that the letters should be admitted. The committee then adjourned until Friday, when Mr. Gobeil, Deputy Minister of Public Works, will be examined and also Pat Larkin and the two Connollys. The former is to be asked about some papers which are not amongst those laid before the committee by the Public Works Department, and the three letters to produce letters from Mr. McGreevy which they are supposed to hold. I understand that the intention is, if possible, to get all the documentary evidence before the committee on Friday and begin the taking of oral evidence next week.

THE MANITOBA SCHOOL ACT.

Is Constitutionality Under Discussion Before the Supreme Court.

OTTAWA, May 27.—In the Supreme Court to-day the appeal of Barrett vs. City of Winnipeg was taken up, S. H. Blake opening on behalf of appellants. This is a case to test the constitutionality of the School Acts passed by the Province of Manitoba and which abolishes Separate Schools there. Mr. Blake commenced by pointing out that the legislation which was proposed by the Manitoba School Acts was to eliminate from the schools all Roman Catholic books and teachers and to make them exclusively Protestant schools. If Roman Catholics were to have schools they would require to maintain them at their own expense. To educate Roman Catholics under such circumstances was, to use the words of a certain judge, to make them skilled villains instead of educating them to take the part they ought in the country. For forty-five years Separate Schools existed in Manitoba and now it was intended to abolish them. Dealing with the constitutional aspect of the question, he claimed that by the Manitoba Act it was insisted that denominational schools should be preserved to the province, and that whatever law or practice existed prior to Confederation was to be continued afterwards. It was a dangerous thing to give knowledge without religion, as understood by this Church. Although the power to maintain these schools or tax Roman Catholics for their support was good, it was wholly unjust that people should be compelled to contribute funds for what their religious conviction to them was wrong and which they were never called on to pay before.

Mr. Ewart of Winnipeg followed for appellants, stating that it was quite right that the Legislature might have power to compel all parties to attend school, but it was wrong to compel anyone to attend a school which he conscientiously opposed. He contended that by the school acts the rights of a section of the people were prejudiced and accordingly were entitled to a remedy.

HAMILTON, May 27.—This morning George Botton, who works at Gartshore's foundry, fell down the hoist, a distance of 15 feet, and the contents of the car fell on top of him. He broke his spine and was seriously injured about the ch...k. He was taken to the hospital.

IMPERIAL PARLIAMENT

MEASURES TO CHECK FOREIGN IMMIGRATION.

Sir William Vernon Harcourt Criticises the Government—Chancellor Goschen States that the Harings Received No Assistance From His Department.

LONDON, May 27.—*In the House of Commons* this evening Sir William Harcourt, on the second reading of the budget, severely scored Mr. Goschen's policy as subversive of the recognized principles of English finance. The House had been told that free education would absorb over £1,000,000, but not how the money would be applied. Borrowing from future revenues for naval expenditures was destructive of sound finance and in violation of the principle that the year's expenditures should be met from the year's revenue.

Mr. Harcourt inquired as to the Government's intents regarding the coinage of gold and what part the Government took in the Baring guaranty.

Mr. Goschen replied that the Govern ment had a precedent as to its course as to naval expenditure in the course of the Liberals when in power regarding army localisation. The Admiralty dealt with a vast amount of ship building, extending over years, and although the work had been and was being arranged for this year, it was necessary to treat the estimates as extending beyond the year. The Government, although much pressed, had undertaken no part in the Baring guaranty, directly or indirectly. The pre-Victoria gold coin, with light gold withdrawn from circulation, was less than the estimated issue of gold coinage, and therefore not a burden to the treasury.

Octavius Morgan, member of Parliament for Battersea, gave notice that on Thursday he will ask the government whether it is not advisable to adopt measures to check foreign immigration. He will suggest the adoption of legislation on the lines of that which has been found necessary in the United States, Canada and Australia.

NEWFOUNDLAND PETITIONS.

Mr. Goschen Consents To Hear a Deputation At the Bar of the House.

LONDON, May 27.—Alexander Staveley Hill, M.P. for Staffordshire, in the House of Commons to-day presented a petition from the Newfoundland Legislature praying that one of the Newfoundland delegates now in this country may be heard at the bar of the House of Commons in protest against the passage of the Knutsford bill, which is to come up again on Thursday. Mr. Hill gave notice that he would move to this effect on the second reading of the bill.

Mr. Goschen, Chancellor of the Exchequer, said the Government would assent to hear the Newfoundland delegates at the bar of the House. The Newfoundland bill will be heard on Friday. Mr. Goschen added that the bill before the Newfoundland Legislature was limited in its operations to one year, which the Imperial Government could not accept in view of its engagements with France.

France is Evidently Expecting that Long Announced War.

PARIS, May 27.—The Chamber of Deputies to-day passed a bill providing for storing sufficient grain in every fortified town in France to feed all the civilians of such a town in time of war for two months.

King Charles Is Ill.

STUTTGART, May 27.—King Charles of Wurtemburg is suffering from an internal disorder and has been in a feverish condition since yesterday.

Taps from the Telegraph.

James Allanson, first clerk assistant of the Senate, died yesterday, aged 55.

Owing to the intervention of the Government the strike of Paris stage drivers is at an end.

A Russian municipal reform bill as completed practically abolishes municipal government.

Count Mercier has been further honored by being created a Commander of the Order of King Leopold.

At Topeka, Kansas, yesterday Mrs. W. A. Updegraff murdered her three children, and then set her house on fire and was burned to death.

The deaths are announced of Prof. Charles William Naegeli, the German botanist, and Joseph Roumanville, the Provencal poet.

The House of Commons last night, by a vote of 75 to 54, rejected a proposal to legalize the election of women as members of County Councils.

At a meeting held at Vienna yesterday resolutions were passed declaring that the striking printers of that city would continue their fight. Three thousand printers are now out on strike.

During a fight with the canvassmen of a circus at Mahonoy City, Pa., last night, two men were shot, another had his skull broken by a stone, and a number of others were more or less injured.

When a New York jury yesterday returned a verdict of not guilty in the case of Pasqualena Robertello, an Italian girl who killed her brother, Nicolo Pierro, the applause of the spectators was deafening and the prisoner was kissed by her counsel.

William Gilmour, Charles Lockwood and William Stitt of Smith's Falls started up the river in a sailing skiff on Sunday to spend the holiday. Their boat has been found bottom up and their coats were found floating in the water. There is little doubt of their fate, but no trace of the bodies has been discovered.

The thirteenth general council of the Reformed Episcopal Church of America began at Cleveland yesterday with delegates present from all parts of the United States and Canada. The opening sermon was delivered by Rev. W. H. Barnes of Belleville, Ont.

The revenue cutter Richard Rush sailed from San Francisco for the Seal Islands, in the Behring Sea, yesterday. She had on board Special Commissioner J. Stanley Brown and Special Agents Major Williams, Col. Barnes and Mr. Nettleton, who are to supervise the seal hunting. The special commission will make a study of the sealing question.

COMMO WINS THE DERBY.

England's Greatest Turf Event Captured by the Favorite.

LONDON, May 27. The Derby was won to-day by the b c Common, the favorite, with Gouverneur second and Martenhurst third. There was an immense crowd present notwithstanding the recent bad weather. Common, the winner, won the two thousand guineas for his joint owners, Lord Arlington and Sir Frederick Johnstone. There were 13 starters, the unplaced horses being: Cuttlestone, Dorcas, Peter Flower, Deemster, Simonian, Old Boots, Orion, Fitzsimons.

The Derby Stakes is worth 3000 sovereigns for the winner, 500 sovereigns for the nominator of the winner, 300 sovereigns for the owner of the second and 200 sovereigns for the owner of the third; for 3-year-old colts, 9 st.; fillies, 8 st. 9 lb.

The latest betting was: Common, 11 to 10; Dorcas, 8 to 1; Peter Flower, 6 to 1; Simonian, 12 to 1; The Deemster, 8 to 1; Orion, 13 to 1; Gouverneur, 12 to 1; Old Boots, 30 to 1; the rest, 100 to 1.

The Derby was first run on May 4, 1780; it was then a dash of a mile and was won by Sir Charles Banbury's Diomed, by Florizel. In 1709 he was imported into the United States, and to him can be traced nearly all the best of the American racing families. In 1784 the distance was increased to a mile and a half and the weights raised to 115 pounds for colts and 112 pounds for fillies. The present course was first used in 1872. In 1884 the weights were raised to 126 pounds for colts and 121 pounds for fillies.

The winners for the past decade were: 1880, Duke of Westminster's Bend Or; 1881, Mr. P. Lorillard's Iroquois; 1882, Duke of Westminster's Shotover; 1883, Sir F. Johnstone's St. Blaise, 1884, Mr. J. Hammond's St. Gatien, Sir J. Willoughby's Harvester, dead heat; 1885, Lord Hastings' Melton; 1886, Duke of Westminster's Ormonde; 1887, Mr. Abington's Merry Hampton; 1888, Duke of Portland's Ayrshire, 1889, Duke of Portland's Donovan. 1890, Sir James Miller's Sainfoin, with Le Nord second.

A MONTREAL MYSTERY

PARTLY SOLVED BY THE RECOVERY OF THE VICTIM'S BODY.

It is Now Believed That he was Decoyed to the River Bank, Murdered and Robbed and Thrown Into the River—The Police Investigating all the Circumstances.

MONTREAL, May 27.—The mystery surrounding the disappearance of Daniel McClanaghan, the well-known Montreal hotel man, has been cleared up by the finding of his body in the Lachine Canal this afternoon. The body was much decomposed. On being searched there was found in the pockets a gold watch and part of a chain, 35 cents in silver, a bunch of keys, one of the deceased's business cards and an invoice. There was a bruise on the back of the head, evidently made with a blunt instrument. It is believed that the man was brought there, murdered, robbed and his body thrown into the water, where it has remained ever since. The deceased man disappeared on the evening of May 8, when he told his brother that he was going out on a little business. He had sold a horse during the day and it was known that he had at least $150 in his pocket. He was last seen on the Friday evening near the Canadian Pacific Railway station with two strangers by a policeman, who heard McClanaghan tell the two men that he would meet them at 7.30 that evening, to which the taller of the two men replied that they would rely on him. They then parted company, McClanaghan taking a car for the west end, while the others entered the C.P.R. station. That evening McClanaghan disappeared and so did the strangers, leaving a number of people they promised to buy horses from to hunt for them. The matter will be investigated.

EDMUND YATES' GOSSIP.

Lord Lansdowne's Resignation — Lord Stanley or Lord Lorne will Succeed Him.

NEW YORK, May 27.—In his cablegram to The Tribune from London Edmund Yates says: For some time there have been persistent rumors that Lord Lansdowne will soon retire from the post of Viceroy of India. I have inquired into the matter and find that at present there is no official sanction for the report. I gather, however, from what I have heard, that his withdrawal, probably as soon as the Manipur and Mizanzi troubles are over, is far from improbable. It has been an open secret that ever since his appointment in 1888 he has found that the climate does not agree with his health. If he desires to resign, this and this only will be the reason. The two most probable successors to the office, worth, by the way, some £4000 a year, are said to be Lord Lorne and Lord Stanley of Preston. I fancy that in case of a vacancy the latter has the better chance.

SIR CHARLES WILL GO.

To the International Postal Convention at Vienna—Tupper Banqueted.

LONDON, May 27.—Sir Charles Tupper leaves to-morrow for Vienna to attend the International Postal Congress as Canadian delegate. He has received full instructions from Ottawa. To-night a complimentary banquet will be tendered to Sir Charles in acknowledgment of his services during the elections in Canada.

The adhesion of Australia to the postal union put another obstacle in the way of Imperial penny postage.

The Tupper Banquet.

LONDON, May 27.—At the banquet to Sir Charles Tupper to-night the company numbered about 70. Lord Brabourne, the chairman, was supported by the Lord Mayor, Lord Norton, Osborne Morgan, M.P., Baden-Powell, M.P., Edward Watkin, M.P., Staveley Hill, M.P., and several other members of Parliament. Mr. Harvey of Newfoundland and some other colonial notabilities were also present. The Duke of Fyfe, Lord Rosbery and the Marquis of Hartington were among those who apologised for their absence. The chairman, in giving the toast of the Canadian Government, coupled with Sir Charles Tupper's health, combatted the criticism that the affair was a party gathering by declaring that men of all parties were present, whose creed was "to maintain English supremacy, to unite English hearts all over the world, and to hand down their glorious heritage an undivided empire."

Sir Charles Tupper in reply spoke for over an hour. He sketched his own political career, dealing specially with Confederation, the National Policy and the construction of the Canadian Pacific Railway, following for the most part very familiar lines. He urged strongly the need for a fast Atlantic service. Referring to the recent election at great length, he said the dissolution was due to Sir John Macdonald's desire to test Canadian feeling on the issue of no discrimination against England in promoting reciprocity with the United States. Annexation, he claimed, would be the inevitable result of the Liberal policy. Hence the question was of vital importance to this country and the empire generally. It was the duty of men of all parties here to support the Government of the Dominion. He again renewed his attack on the Grand Trunk Railway, repeating many of the points brought out in the recent controversy.

Died of Yellow Fever.

ST. JOHN, N.B., May 27.—The Norwegian bark Cupello, arrived at quarantine here to-day. When the medical officer boarded her the vessel was found in charge of the second mate, who reported, on March 27 Captain Thorvss was taken ill with yellow fever and died on April 6. The first mate died of the same disease three days after. Both were married and belonged to Christiania.

Goodwin is Missing.

OTTAWA, May 27.—George Goodwin, who was to have been tried to-day for horse-stealing, did not put in an appearance. A warrant was issued for his arrest. Goodwin recently figured prominently in connection with the murder of Richard Langford at the Carp.

Killed by "Leap Frog."

ASBURY PARK, N.J., May 27.—Bert Heulett, aged 15 years, died this afternoon from injuries received while playing "leap frog" at school here yesterday. He was a son of Thomas Heulitt of New York.

Frowning on Bigge's Appointment.

DETROIT, May 27.—In the Presbyterian General Assembly the Committee on Theological Seminaries recommended that the Assembly disapprove the appointment of Prof. Briggs to the chair of Biblical theology of the Union Theological Seminary, and that a committee be appointed to confer with the trustees of the seminary, and to report at the next Assembly.

Deliberate Suicide of a Little Girl.

WORCESTER, May 27.—An inquest was held to-day on the body of Kate Hughes, aged 12. The child went under a railway bridge, where she was hidden from view, carefully removed her clothing, which she put in a tidy heap, climbed up the embankment to the railway track and, watching till the express came along, laid down deliberately with her head on one side of the rail and her body on the other. The train cut through her thin little neck and completely severed her head from the trunk.

Another Preacher Who Made Money.

DUQUOIN, Ill., May 27.—United States Marshal Bacon last night arrested Rev. George W. Vancil at his home, three miles south of this town, on the charge of making counterfeit money. The arrest is a sequel to the arrest of Rev. Jerry Holmes last Saturday near here.

What It Costs

Must be carefully considered by the great majority of people, in buying over-sensibles of life. Hood's Sarsaparilla commands itself with special force to the great middle classes because it combines positive economy with great medicinal power. It is the only medicine of which can truly be said, "100 doses One Dollar," and a bottle taken according to directions will average to last a month.

Races at the Woodbine

TORONTO, May 27.—The third day of the Ontario Jockey Club's meeting showed no diminution in the popular interest.

Children Cry for Pitcher's Castoria.

3 PRACTICAL POINTS.

One of the most successful German physicians gave as the secret of his wonderful success these three important points:—

1. Keep the Head Cool.
2. Keep the Bowels Open.
3. Keep the Feet Warm.

These conditions are not so easily obtained as one would think. Why? Because without pure and healthy blood a vigorous circulation cannot be kept up, and because the food and occupation of most people tends to clog up the bowels and produce constipation. The success of B. B. B., like that of the German physician, lies in so purifying the blood and regulating the bowels, liver and stomach, that these three conditions are fulfilled easily, and disease can find no lodgment in the body.

THE BEST SPRING MEDICINE.

BBB

This medicine does purify the blood and cure all diseases arising from impure or unhealthy blood. It does regulate the entire system and cure constipation, dyspepsia, biliousness, sick headache, scrofula, skin diseases, rheumatism, and all disorders of the stomach, liver and bowels. During the past ten years over one million bottles have been sold in Canada, and, although we guarantee every bottle to do all we claim, we have not received a single complaint.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Purgative Medicine. They are a BLOOD BUILDER, and RESTORATIVE, as they supply in a condensed form the substances actually needed to enrich the blood, curing all diseases coming from POOR and WATERY BLOOD, or from VITIATED CONDITION of the BLOOD, and also invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail disease when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing

Daily Examiner.

THURSDAY, MAY 28, 1891.

Northward from Victoria, B. C.

To the Editor of the Examiner:

Your correspondent left Victoria on the 7th of March last. On the morning of that day the steady old "Barbara Boscowitz" steamed away from Janion's wharf with about 50 passengers on board, the greater number of them being Chinese bound for the salmon canneries on the Nass and Skiena rivers. Being only a small vessel we were very much crowded for room, but the kind-heartedness of Captain Williams and the desire to please shown by the ship's crew amply supplied the deficiency. Besides when one is on a vessel with Capt. Williams in command, he may rest secure on the fact that he is a steady reliable man, and one who has the best knowledge of any about the rocky coast of British Columbia.

Sailing along the east shore of Vancouver Island we touched at Chemanus and Nanaimo, the latter a thriving town situated on the Island Railway. A little farming is done around this town but the main feeder of its resources is the extensive coal mine under operation not far off.

Called in at Departure Bay and took on coal and fuel, also a supply for the northern district. Sunday morning, the 8th, we were well out on the wide extent of the Gulf of Georgia, and with the mainsail set we were flying along before a steady breeze from the south west. In the afternoon the Rev. Mr. Hall, (Anglican missionary stationed at Alert Bay and who was on board) held a profitable divine service in the cabin.

We rounded Cape Mudge in a pretty rough sea, caused by the meeting of the tide and wind. But it was really enjoyable, save for an inclination on the part of one's stomach rebelling against such action, or, rather, desiring to pitch as well as our craft. Here an Indian village presented itself to our view for the first time. The totem-poles were quite visible in the distance, as also was the quaint burying ground, studded with numerous small houses set over the graves of the dead. Many of these poor people allow their superstition to lead them so far as to bury their dead very near the water's edge, erect a small hut or pitch a tent, and simply place the body under it, while, at the shore, they leave his canoe ready for him to take his departure. The ideas and

BELIEFS OF THE COAST INDIANS

are very different from that of the red men on the east side of the Rockies. In fact, your correspondent is led almost to believe that they are not the North American Indian, but tribes who have wandered from the east coast of Asia, as they resemble very strongly the Japanese in color of skin and in feature. But I am wandering from the main and must return.

Monday morning we snubbed our vessel to the wharf at Alert Bay. The most striking and pleasing feature of this lone port is that no drunkenness is tolerated here. Talk about prohibition in Canada—they have it at Alert Bay. A temperance colony has been formed here, and on no condition is a man, who is given to strong drink, allowed to remain within its limits. We remained at Alert Bay nearly the whole day unloading some of the cargo, and taking on lumber for Fort Simpson.

Queen Charlotte Sound, a stretch of 60 miles or thereabouts, where the rolling wave of the ocean sweeps in uninterrupted, was reached just before retiring on Tuesday night. A brisk breeze was blowing and the vessel began to pitch. Again that strange feeling in the abdominal region began to assert itself, but the passengers all made for their berths, and as for myself, I was soon lost in sleep. But with others it was not so, and ever and anon with the heaving and the swelling of the ocean, there was mingled a sound as of other heavings, accompanied with a sighing, rather than a swelling. However morning found us all on deck none the worse, and some of us a great deal better, for our night's experience.

The British Columbia coast abounds with many deep inlets. These inlets are lined on both sides with steep, rugged cliffs, in the clefts of which the winter's snow accumulates. In spring these avalanches are melted by the warm sun, and the clear snow water descends the mountain sides in beautiful cascades, increasing in volume and velocity till they plunge madly into the sea depths. Up one of these inlets the "Boscowitz" sailed noiselessly, and as she is not the fastest steamer in the world—although she always "gets there"—your correspondent had full time to take in the scenery on both sides. There was a certain weirdness about the place, and all it needed to complete it would have been the noisy puff of an inland steamer, the sound of which would have echoed and re-echoed from the tall cliffs.

Having sailed to the head of the inlet, (River's Inlet) only to be disappointed in procuring more cargo, our captain ordered an immediate return. We retraced our way for a short distance, then took another and a narrower passage to the main channel,

REACHING BELLA BELLA

at midnight. Here the vessel unloaded more of her cargo and lay to for the night. Next morning, before we were awake, the crew had our vessel well on her way to the mouth of the Skeena river, which we reached on Thursday morning. During the interim we sailed through a succession of channels and straits, experiencing a rough sea only when crossing Millbank Sound. The first place called at on the Skeena river was the wharf of the Inverness Canning Co. Here they were all busy making ready for the canning season. The Indian women (klootchmen) were busy mending or making salmon nets, others were getting their boats in proper condition for the coming season. All were busy with their respective work. The tide had been going out rapidly, and before we could get away the ship had grounded. Still the tide lowered and soon the vessel began to lean over, causing no little discomfort to all of us. Those of us sitting at breakfast were compelled to leave while the steward hurriedly removed the dishes, which were sliding off the table to the floor. In such condition we remained until the re-flow of the tide, when the boat righted, and cutting loose she made her way up the Skeena, calling on her way at the North Pacific, the Balmoral and the Aberdeen canneries to dispose of the freight shipped for said places.

The next port of importance we touched was Essington, a large village inhabited by three or four hundred Indians and a few whites. Essington is a pretty place, nestled at the bases of several mountains which surround it. There are two mission churches established here, the Anglican and the Methodist. The Methodist missionary is one of Ontario's teachers, Mr. Jennings, who formerly acted as principal of the Uxbridge Public school. Rev. Mr. Jennings feels quite at home with his work. At present he has much to do, but he will be nobly assisted by Rev. Mr. Spencer, from near Oakwood, Victoria county, and Dr. Bolton, another of the Ontario stock who came out here to do medical work among the poor diseased Indians. Dr. Bolton's residence is really in Fort Simpson, but he follows the Indians to the Skeena to attend to their needs during the fishing season.

Having discharged her freight, the Boscowitz sailed down the river, calling again at Inverness, where she remained over night.

Saturday morning found us on our way northward again. Reached Metlakatla about ten a.m. This village was once a thriving place, being the result of missionary enterprise carried on by Wm. Duncan, the first missionary of this northern district. Mr. Duncan

PERSUADED THE NEW CONVERTS

to separate from their heathen fellows entirely, and led them away to found a separate colony. A fine site was chosen and called Metlakatla. There Mr. Duncan taught them the several trades, at least what he knew of them—which was not a little, and soon thriving industries were commenced, such as lumbering, canning fish, etc. A regular village council was instituted and everything progressed favorably, when, through some misunderstanding between the C.M.S. (Church Missionary Society) and Mr. Duncan, the interests of the two began to clash and soon Mr. D. was forced to resign his seat. He did so and left for Alaska, but was followed by his faithful and devoted people, who showed fully their appreciation of the services he had rendered them by leaving all and going with him. Now Metlakatla is simply a relic. It looks sad to see such enterprise fast going to ruin through neglect, or rather inefficiency to sustain, on account of the very few who remained.

Leaving Metlakatla at noon, we proceeded on our way until Fort Simpson was reached at 4 p.m. Gladly we stepped from the deck into the wharf to meet those whom we should join hads with in helping on the cause of Christ among the red brethren of the Pacific. But, Mr. Editor, I will have tried your readers with such a lengthy description, so I close with requesting pleasure as to my sending an historical account of Fort Simpson in a coming issue of your paper.

W. S.

Mother of 32 Children at the Age of 52.

BAINBRIDGE, Ga., May 12.—A. M. Thomas, a native of Decatur county, who now lives just across the State line in Gadsden county, Fla., is 35 years old, and is the father of thirty-two children, all of whom are alive. Mr. Thomas's wife, a native of Decatur, is three years younger than himself. Fifteen years ago they were married. Twenty months later they found themselves the parents of four beautiful children. With almost unvarying regularity ever since the family has been increased by the addition sometimes of twins, sometimes of triplets until the number has reach thirty-two. Mr. and Mrs. Thomas are a thrifty, happy, and contented couple.

The entering wedge of a complaint that may prove fatal is often a slight cold, which a dose or two of Ayer's Cherry Pectoral might have cured at the commencement. It would be well, therefore, to keep the remedy within reach at all times.

Pale and sallow girls and prematurely aged women should use Dr. Williams' Pink Pills; they come as a boon for all those ills which afflict the female system. Build up the blood, restore shattered nerves and convert sallow complexions into rosy cheeks. Sold by dealers, or sent post paid on receipt of price—50c per box, or five boxes for $2—by addressing Dr. Williams Med. Co., Brockville, Ont. 6d1w

A Pleasant Herb Drink—A Spring Medicine.

The druggists sell us that people call daily for the new cure for constipation and sick headache discovered by Dr. Silas Lane. It is said to be Oregon grape root (a great remedy in the far west for those complaints) combined with simple herbs, and is made for use by pouring on boiling water to draw out the strength. It sells for 50c. and $1 a package, and is called Lane's Family Medicine. dw

---

It Does Its Work.

Mrs. James Dix, Brock street, Kingston, Ont., says: I suffered with an inflamed throat and bad cough for seven months. Was treated by physicians without success, when six doses of Miller's Emulsion of Cod Liver Oil cured me. It's as palatable as cream. For sale by all druggists. dw

---

A Minute a Day.

A minute a day devoted to taking a dose of Burdock Blood Bitters will cure any case of constipation, dyspepsia, biliousness, or bad blood, and may save weeks of sickness and dollars of loss. There is nothing better than B. B. B. 2w20d

---

Worthy of Confidence.

Those who have used it praise it! Mrs. George Ward writes from Josephine, Ont., concerning Hagyard's Yellow Oil: "As a sure cure for chapped hands, swellings, sore throat, etc., I recommend Hagyard's Yellow Oil to all." 2w20d

---

A Common Origin.

All skin diseases of whatever name or nature are caused by impure blood. Burdock Blood Bitters is a natural foe to impure blood, removing all foul humors, from a common pimple to the worst scrofulous sore. 2w20d

---

Will positively cure sick headache and prevent its return. Carter's Little Liver Pills. This is not talk, but truth. One pill a dose. See advertisement. Small pill. Small dose. Small price. dw

---

W. A. Greatrex, Druggist, has for sale the Royal Rheumatic Remedy. It is no new formula, having been before the public for 12 years and effected wonderful cures. Write to R. R. R. Co. for testimonials. dw

---

Miller's Emulsion of Cod Liver Oil is prepared by a new process and will keep in any climate. Be sure and ask your druggist for Miller's Emulsion and take no other. dw

---

THE RED COLOR of the blood is caused by the Iron it contains. Supply the iron when lacking by using Milburn's Beef, Iron and Wine. dw

MANY A LIFE

HAS been saved by the prompt use of Ayer's Pills. Travelers by land or sea are liable to constipation or other derangements of the stomach and bowels which, if neglected, lead to serious and often fatal consequences. The most sure means of correcting these evils is the use of **Ayer's Cathartic Pills.** The prudent sailing-master would as soon go to sea without his chronometer as without a supply of these Pills. Though prompt and energetic in operation, Ayer's Pills leave no ill effects; they are purely vegetable and sugar-coated; the safest medicine for old and young, at home or abroad.

"For eight years I was afflicted with constipation, which at last became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the bowels recovered their natural and regular action so that now I am in

Excellent

health."—Mrs. C. E. Clark, Tewksbury, Massachusetts.

"I regard Ayer's Pills as one of the most reliable general remedies of our times. They have been in use in my family for affections requiring a purgative, and have given unvarying satisfaction. We have found them an excellent remedy for colds and light fevers."—W. R. Woodson, Fort Worth, Texas.

"For several years I have relied more upon Ayer's Pills than upon anything else in the medicine chest, to regulate my bowels and those of the ship's crew. These Pills are not severe in their action, but do their work thoroughly. I have used them with good effect for the cure of rheumatism, kidney troubles, and dyspepsia."—Capt. Mueller, Steamship Felicia, New York City.

"I have found Ayer's Cathartic Pills to be a better family medicine for common use than any other pills within my knowledge. They are not only very effective, but safe and pleasant to take—qualities which must make them valued by the public."—Jules Hauel, Perfumer, Philadelphia, Pa.

Increase over 1889	547,723.71
Surplus over all Liabilities and Capital Stock	238,175.69
Increase over 1889	75,649.05
Death claims fallen in during 1890	143,961.65

The progress made by the SUN LIFE during 1890 was remarkable. The new business was the largest in the Company's history, and was equalled by but one other Canadian Life Company. The income for the year exceeds $2,000 for each day in the year, Sundays included. The Assets are large and rapidly increasing. They are, moreover, of the highest character, yielding an average interest of 6.06 per cent. The overdue interest is small, and the Real Estate owned under foreclosure is only four per cent. of the amount of mortgages. This is a remarkable showing. The SURPLUS accumulated during the FOUR years of the current quinquennium is nearly THREE TIMES as much as the amount earned during any previous FIVE years, and the profits to Policy-holders cannot fail thus to be highly satisfactory. The following are the figures:—

Net Surplus, 31st Dec., 1881, (five years)	$64,824 07
" " " " 1886, "	80,452 07
" " " " 1890, (four years)	232,175 69

FELL TO DEATH.

A Hamilton Man Killed While at Work Yesterday.

HAMILTON, May 28.—A terrible and fatal accident occurred at the West-avenue school this morning. John Silk, a plumber, and his assistant, Thomas Conklin, were at work repairing the bell. The belfry is at the front of the building over the main entrance. Silk was working at the bell and missed his hold and fell backwards. He alighted on his head and shoulders on the grass, falling a distance of 35 or 40 feet. His head was crushed in and his skull fractured. A large pool of blood marked the spot where he fell. The ambulance was sent for, and the wounded man was conveyed to the hospital, but he lived only ten minutes. Silk was a married man about 25 years old.

CATTLE EXPORTERS EXCITED.

Many Toronto Shippers Who are Interested in the Matter.

MONTREAL, May 28.—No further tidings have been received here regarding the seizure of the Lake Huron's cattle at Liverpool and cattle exporters are anxiously waiting details. It seems that 300 head of cattle by the Mongolian, which arrived at Liverpool yesterday, were also seized. The following are the shippers interested: Aikens & Flanagan, E. Watson, J. Elliott, T. Crawford and M. Goldsmith. The shippers on the Mongolian were: J. Dunn, Gordon, R. Ironsides. About 576 head are cattle from Manitoba. Dr. McEachran, the Government Inspector, ridicules the idea that there is any pleuro pneumonia in Canada and that the cattle are infected with the dread disease.

The deputation representing the steamship agents and cattle shippers will go to Ottawa to-morrow to urge the Government to intercede with the Imperial authorities to prevent the proposed legislation prohibiting the carrying of cattle on the spar decks of steamers.

DEATH IN THE PLAYTHING.

An Exploding Celluloid Ball Sets Fire to a Girl's Clothing.

BORDENTOWN, N.J., May 28.—Annie, the 17-year-old daughter of Nathan Atkins of Tuckerton, was so badly burned by a peculiar accident yesterday that her life is despaired of. While standing near the kitchen range drying her hands a celluloid ball—such as is made for children to play with—suddenly exploded and set fire to her clothing. In an instant she was enveloped in flames. Her screams brought her mother to her assistance, and she put out the flames by wrapping a rug carpet about her.

OPENED FIRE ON HIM.

An Ex-Convict Tackles the Wrong Man and Will Lose an Arm.

WINDSOR, May 28.—About a year ago James Pillon, of McGregor got drunk and assaulted a neighbor, John Donnelly, with a loaded whipstock. He was sent to the Central Prison for six months. One of the witnesses against him at the trial was Michael Connolly, station agent at McGregor. Yesterday Pillon meeting Connolly charged him with sending him to Toronto. Hot words followed which ended in Pillon attacking Connolly with a club. Connolly was getting considerably the worst of the deal when he pulled his revolver and shot Pillon, the charge taking effect in his right forearm. It is thought he will lose the arm. Connolly was not arrested, nor is it likely he will be.

Escaped from Jail.

OTTAWA, May 28.—Two prisoners named Edward Johnson, aged 40, waiting trial for embezzlement, and James McGinnis, aged 28, charged with a criminal assault at Aylmer, Que., yesterday climbed over the corner wall in the jail yard and escaped.

Fell From a 3-Story Window

ST. CATHARINES, May 28.—At 12.30 to-day a girl named McInerney, employed at the Welland House, while engaged in cleaning windows, fell from the third story of the building. Dr. McMahon was called and found a compound fracture of one leg and injuries to her back. The fall was fully 35 to 40 feet and her escape from instant death was marvelous.

Historian Fyffe Committed For Trial.

LONDON, May 28.—C. E. F. Fyffe, the historian, was again charged at Croydon Police Court to-day with indecent assault upon a lad. Fyffe, it will be remembered, was so overwhelmed with the charge brought against him that he attempted suicide by cutting his throat. Fyffe was brought to court to-day in an ambulance. Many prominent people were present during his examination. He was committed for trial.

Cannot Even Observe Their Sabbath.

ST. PETERSBURG, May 28.—M. de Pobiedonostzeff, chief of the Holy Synod, has submitted to the council of the empire an ordinance forbidding Hebrews to observe the Hebrew Sabbath by closing their business places or by refraining from work, and compelling the Hebrews instead to close their places of business Sundays and upon other days which are observed by the orthodox Greek church.

Forced to Return.

BERLIN, May 28.—The military at Spandau have just forced 150 penniless Russian emigrants, who were journeying to the coast with the intention of embarking for Brazil to return to Russia.

Kitty is Free Now

LONDON, May 28.—The decree of divorce obtained by Captain O'Shea from his wife, Mrs. Kitty O'Shea, on account of alleged adultery with Mr. Parnell was to-day made absolute.

Struck by the Pilot.

ST. CATHARINES, May 28.—R. Hunniford and his brother-in-law, Joseph Fleming of Toronto, were crossing the track of the N.C.R. at the gravel pit, when Fleming was struck with the cow-catcher of a train and thrown about ten feet off the track. Miraculous to state, he escaped with some severe injuries to his back.

A Matter of Necessity.

"I don't see how you make your patients obey you, doctor. A man who is fond of high living will never diet."

"He can't help himself, madame. When he has paid my bill he has to reduce his living."—Harper's Bazar.

All Personal.

"Have you read Gen. Bronson's autobiography?"

"Yes. Frightful exhibition of conceit!"

"How so?"

"Why, it's all about himself."—Harper's Bazar.

He Could Stand It

Ethel—Is Jack wealthy?"

Maud—He must be. We have been engaged two months, and he seems still to have plenty of money.—Harper's Bazar.

Children Cry for Pitcher's Castoria.

A Character.

Everything pleased my neighbor Jim;
When it rained
He never complained,
But said wet weather suited him;
"There never was too much rain for me,
And this is something like," said he.

When earth was dry as a powder mill
He did not sigh
Because it was dry,
But said if he could have his will
It would be his chief, supreme delight
To live where the sun shone day and night.

When winter came with its snow and ice
He did not scold
Because it was cold,
But said, "Now, this is real nice;
If ever from home I'm forced to go
I'll move up north with the Esquimaux."

A cyclone whirled along its track
And did him harm—
It broke his arm
And stripped the coat from off his back:
"And I would give another limb
To see such a blow again," said Jim.

And when at length his years were told,
And his body bent
And his strength all spent,
And Jim was very weak and old:
"I long have wanted to know," he said,
"How it feels to die"—and Jim was dead.

The angel of death had summoned him
To heaven or—well,
I cannot tell;
But I know that the climate suited Jim;
And cold or hot, it mattered not—
It was to him the long-sought spot.

O. F. Fearre, in the Bloomington Pantagraph.

A Short Talker.

Frederick William III., King of Prussia, and great-grandpater of the present Emperor, was extremely averse to long speeches and talked, whenever it was possible, in infinitives only. While taking the waters of Teplitz he heard of a Hungarian magnate who never made long speeches. "Must be decent fellow. Like to know him," muttered the King, and when a day or two afterward the Hungarian met him on his walk the King stepped up to him, and the laconic following conversation took place: "Bathe?" "Take waters." "Soldier?" "Magnate." "Indeed?" "Policeman?" "King." "Congratulate.' And they each went on their way well satisfied.—Pall Mall Gazette.

A Model Girl Buys a Stamp.

"One 3-cent stamp, please."

It was a young and pretty woman who said this in the postoffice the other day. She was at the head of a long line of men waiting to be served, and every man expected there would be one of those long and exasperating delays that usually occur when a woman steps up to the stamp window.

But nothing of the kind happened, and everybody was pleasantly disappointed. In the first place she had the exact change, and, again, when she got the stamp she did not stop to ask questions or wait to affix it to her letter. She simply took her purchase and went away unmindful of the broadside of admiring glances she received.

She was a model young woman.

Some Strange Misnomers.

Much of the Russian leather comes from Connecticut, Bordeaux wine from California, Italian marble from Kentucky, French lace from New York, and Spanish mackerel from the New Jersey coast. Dr. Pierce's Golden Medical Discovery comes from Buffalo, N.Y., but there is nothing in its name to criticise for it is truly golden in value, as thousands gladly testify. Consumption is averted by its use, and it has wrought many positive cures. It corrects torpid liver and kidneys, purifies the blood, banishes dyspepsia and scrofula, renews the lease of life and tones up the system as nothing else will do. What is more, it is *guaranteed* to do all this, or the price is refunded. a

A Welcome Announcement.

Those who have tested it say that for the grippe, and especially for the cough that hangs on after the disease itself seems cured, there is nothing equal to Kemp's Balsam, the specific for all throat and lung diseases, and the best cure for coughs and colds. The first dose will convince you of its excellent effect. All druggists sell it at 50c. and $1 a bottle. dw

Everybody Likes It.

Wm. Dredge, Ellen street, Barrie, Ont., says: One bottle of Miller's Emulsion of Cod Liver Oil brought back appetite which other Emulsions took away; removed cough entirely, and gained five pounds. It tastes just like cream, the oil being perfectly disguised. Sold by all druggists. dw

From the Pacific Coast.

We quote from a letter recently received from Miss Eleanor Pope, Port Haney, B.C.: "For sore throat, coughs, croup, bruises, &c., Hagyard's Yellow Oil is the best thing I have ever used." 2w204

Severe Cold Cured.

DEAR SIRS,—My mother was attacked with a very severe cold and cough. She resolved to try Hagyard's Pectoral Balsam, and, on so doing, found it did her more good than any other medicine she ever tried. MRS. KENNEDY, Hamilton, Ont. 2w204

Directly and Indirectly.

Kidney complaint, dropsy and similar troubles depend directly on wrong action of the kidneys and indirectly on bad blood. Burdock Blood Bitters regulates the action of the kidneys and cleanses the blood from all impurities, in this way curing kidney complaint, dropsy, etc. 2w204

Would not be Without It.

Dyer's Jelly of Cucumber and Roses for chapped hands and for making the skin smooth and soft. Try it. Druggists keep it. W. A. Dyer & Co., Montreal. 6d116

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Will be found an excellent remedy for sick headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them. dw

"MANY MEN, MANY MINDS," but all men and all minds agree as to the merits of Burdock Pills, small and sugar-coated. dw

AS AN AID to internal remedies for skin diseases, Dr. Low's Sulphur Soap proves very valuable dw

CARTER'S LITTLE LIVER PILLS.

CURE
Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing
SICK
Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured
HEAD
Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head
ACHE
is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents five for $1. Sold everywhere or sent by mail

Self Application of Electricity
FOR MEDICAL PURPOSES
BY THE
DORENWEND
ELECTRIC BELT
And Attachments.
HEAD OFFICE—189 Yonge St., Toronto.
THE WORLD'S BEST.

ALL diseases curable by Electricity can be treated at home by the Dorenwend Appliance. The Dorenwend is the only legitimate Electric Belt made which fulfils the requirements of Electro-medical science. It is a complete BODY BATTERY. It has an independent Battery, which generates a mild, continuous current of Electricity (without shocks) and can be regulated to suit the strongest man or the weakest child. It is a CURRENT of QUANTITY, not merely a sensation current, and the quantity current is the greatest curative. It is a successful treatment for INDIGESTION, RHEUMATISM, NEURALGIA, SCIATICA, LUMBAGO, LIVER AND KIDNEY TROUBLES, WEAK BACK, SPINAL DISEASE, HEART DISEASE, NERVOUS DEBILITY, PARALYSIS, WEETOO, FEMALE COMPLAINTS, IMPOTENCE, SEXUAL DECLINE and all diseases of the Nervous and Muscular Systems.
Remember that the DORENWEND BELT is the very latest invention in this line, and was invented by a competent electrician, and ranks as *the best in the world; we defy anyone to bring* proof to the contrary.
Do not class this Belt with the humbug combinations of leather and metal with which the country is being flooded. If you wish to experiment with cheap articles, buy THEM but, if you want to procure a genuine Electric Belt and one that will be a benefit get a Dorenwend Belt.
Send name and address for Illustrated Book on Home Electro-medical treatment and mention this paper. J. D. TULLY, Agent, Peterborough. eod-w

THURSDAY, MAY 28, 1891.

THE RELATION OF ABSTINENT HABITS TO HEALTHY STRENGTH.

Two entertainments, held side and side last night—one in the Opera House, the other in the Market Hall—Sam Small and Louis Cyr—were, at first thought, as opposite as possible in character, but there was a peculiar similarity in the lessons taught. Sam Small's lecture was an example of the heroic exertion of moral strength to acquire abstinent habits, and Louis Cyr's exhibition showed how abstinent habits begot and maintained physical strength—both instances showing the great benefits, in a moral and physical sense, of temperate practices. Louis Cyr, like Sampson, whose strength he possesses, has been, in a sense, "a Nazarite from his mother's womb." He does not, and has not during his life, used strong drink or stimulants, even avoiding tobacco, and keeps regular hours and habits. The result is marvellous strength, kept up continually, perfect health and a perfect equipoise between the muscular and nervous forces—one enabling him to lift over a ton and-a half, and the other enabling him to balance, with equal ease on his chin, a ship's spar or a timothy straw. No one who saw the wonderful feats of strength, steadiness of nerve and agility displayed by Cyr last night but must be impressed with the paying quality of abstinent habits. No man can hope to excel in athletics who tampers in the slightest degree, as a habit, with stimulants. Through the inducement thus held out of a reward being given for fighting shy of stimulants, though the motive is not of the highest, the result will be of good effect. It is therefore worth while for parents, guardians, trustees, teachers, etc., to encourage boys to practice athletic exercises. A lad will be encouraged to excel, and knowing that he must avoid strong drink and tobacco, the foundation of temperance habits will be laid in youth, and no better subject for the moral aspect of temperance work being successful, can be found. "A sound mind in a sound body" is a proverb old enough and true enough to warrant the deduction that a sound conscience, representing good moral tone—is not unconnected with the most perfect possible physical condition and development.

LOCAL NEWS

Summer Resort Sites.

Mr. J. B. McWilliams has laid out a number of building lots on his property near Burleigh Falls, which he now offers for sale at reasonable figures. The lots are beautifully situated on Stony Lake and within sight of post office and telephone office. Plan may be seen at his office, Water street. d122

New Telephones.

The following new subscribers have been recently added by the Bell Telephone Co.:—239, Albion Hotel; 241, Mechanic's Institute; 242, J. English residence.

Town Teachers' Association.

The town teachers' association will hold its next meeting at the Collegiate Institute at 9.30 a.m., sharp, on Saturday, 30th May, instead of on the first Saturday of June, as at first arranged.

Remember To-Night.

Dr. Davies' concert to-night in the Opera House will include contributions from the most prominent vocalists in town, two flute solos by Mr. Artidge and part songs by a thoroughly trained chorus of 40 voices, Dr. Davies, conductor. This will be a most enjoyable concert. 1d

Temperance May Queen.

The Band of Hope will give an entertainment in the W. C. T. U. hall, to-morrow, (Friday) evening, beginning at half-past seven. The principal feature of the programme will be the crowning of the Temperance Queen of May, and the new temple song with motions. Admission — children 5 cents, adults 10 cents. 1d

The Hub of the District.

The Bobcaygeon *Independent* makes the following suggestion: "Peterborough has become such a popular place for holding conventions and conferences, and lodge assemblies, it is a wonder that the Masonic fraternity does not hold its annual meeting there. The opera house is plenty large enough, and the hotel accommodation is ample and good."

Remember Dr. Davies' Concert, Opera House, To-Night at 8. Admission, 25 cents; Reserved Seats, 50 cents. Plan at Greatrex's.

A Tremendous Trout.

There arrived at the Canadian express office Cox's Block, Wednesday afternoon one of the largest brook trout ever caught—in this part of the world at least. The "speckled beauty," which weighed three and a half pounds, was caught in Haliburton, in the Madawaska river. It is uncertain whether it was "played" by Mr. Smiff, of the Bobcaygeon *Independent*, with a tow line or whether it was landed by Mr. Fitzgerald—Peterborough's piscatorial prodigy. It was seen in the latter's possession, at any rate.

Forage Cap Lost.

While marching from camp to the train or while marching through town, Mr. W. H. Pearce, of the Guards band, lost from his belt where it was hung, his forage cap. This cap being of no use to any other person and costing $2 to replace, the finder will confer a great favor by returning the cap, if found, to Mr. F. W. Miller, band master, or at the EXAMINER office.

Remember Dr. Davies' Concert, Opera House, To-Night at 8. Admission 25 cents; Reserved Seats, 50 cents. Plan at Greatrex's.

Wilson's Advertising Agency.

Newspaper Advertising Agencies are not in the habit of giving away much, but the Wilson Advertising Agency is sending out a very pretty newspaper rule, a most useful article to publisher and advertiser. This agency has only been in existence a few years and has all ready worked up a good connection in controlling advertising for some of the largest houses in the United States and Canada. Intending advertisers who are not decided regarding the placing of their announcements, can be saved both time and money by placing their business in their hands.

Something New.

Unprecedented success! The world-famous and justly celebrated Adjustable Shoe, now worn by one million delighted ladies in the United States, and now being introduced in Canada. Artistic, elegant, not expensive. Every shoe guaranteed. Be sure and see them before purchasing others. They are a marvel of comfort and a boon to humanity. Our agent will call on the ladies of Peterborough immediately with samples of goods. Sold only by general agents and their assistants. Emma Crumb, agent for Peterborough, is now at the Grand Central Hotel, and can be seen any evening there. She carries a stock of these elegant shoes. 6d123-1w

Our New Industries.

A Porcelain Works for Peterborough—The Edison Company Getting Settled but Still Building.

Tenders are asked in another column for the construction of a brick building for a porcelain works, by the Brooks Manufacturing Company. This enterprising firm is always on the alert for a good speculation, and in the porcelain industry they will have the first and only factory of the kind in Canada. They propose to manufacture porcelain door knobs and electric insulators. Mr. C. H. Kimble, *an experienced man from Trenton*, N. J., has been engaged as superintendent, The Brooks Company propose to erect a two story brick building, 88x60 feet on the south east corner of their property, and adjoining the Carbon Works building. Plans prepared by Mr. W. Blackwell, architect, have been approved of. Mr. Brooks expects fifty or more men will be employed in the new industry. The work of construction will be carried on as fast as possible, and by the fall the porcelain works will be in operation.

THE EDISON WORKS.

The scene at the Edison General Electric Company's works is an animated one. The huge main building is filled with masses of machinery which are being quickly put in place by scores of workmen briskly engaged at their different tasks, while outside another staff of men is working on the two new buildings, supplies for which are being brought in daily on the railway sidings. As the work progresses the immensity of the company's operations become more strikingly apparent. There are about two hundred men at present employed about the premises and more are being taken on every day.

The plant has been nearly all brought in from the Sherbrooke works, but there are still a number of cars awaiting transportation. One department of the works, however, will not be removed just yet, that is, the manufacture of electric underground cable. The company has a contract for the manufacture of seven miles of this line for Toronto, and the time that would be lost in removal of the plant here and the erection of temporary buildings, would prevent the company completing the contract by the specified time.

The work of removal has been carried on with great rapidity. A week ago last Saturday the tearing-up process began, and on Thursday Mr. Madgett, superintendent of works, came on to Peterborough with the first load of machinery.

Everything appears to be in a state of confusion, but a master mind is at the helm and order will be produced from chaos; and it is confidently expected that by the middle of next week work will be begun and the men will settle down to regular employment. At present the seventy-five men brought up from Sherbrooke are engaged in placing the machinery. The officers of the company (in addition to Mr. Martin, superintendent of construction), are Mr. John Langton, manager; Col. Francis, Canadian General Auditor, and Mr. J. F. Madgett, superintendent of works. These gentlemen have their offices in the building.

When the machine shop is settled and in running order the sight will be an interesting one. There will be four departments, supplied with electric power, and each with a motor of its own. The interior will resemble a network of shafting and machinery, and Mr. Madgett says there will be no finer machine shop in the Dominion. In addition to the plant brought up from Sherbrooke, some $35,000 worth of new machinery has been purchased and is being brought in every day. A boiler has been temporarily erected alongside the machine shop to supply the power, but the regular power house will be built further west. By the end of next week citizens will have the opportunity of seeing this immense industry in operation. The Edison Company's officers are very obliging as well as capable men, and appreciate the deep interest taken in their affairs by the citizens in general. They are very busy just now, but when thoroughly settled will be pleased to give the public a chance to inspect the works. Mr. Madgett says he expects to have about three hundred hands employed before very long.

Outside, the same activity reigns. Under Mr. Martin's superintendence two new buildings are being pushed rapidly forward—the wire house and the compound house. These are both the same length as the machine shop, and about half the width. The foundations of the compound shop are about completed.

These and probably one or two more buildings will be finished this year. As the business grows more will be added, until in a short time it is confidently expected the fifteen buildings provided for in the original plan will all be erected.

AN OUTSIDE VIEW.

The Ottawa *Free Press* says:—During the presence of a representative of the *Free Press* with the G.G.F.G. at Peterborough a visit of inspection was paid to the new Edison General Electric company's work now in course of erection in that city. The head quarters of this company are in New York—the American works at Schnectady and the Canadian works, which have hitherto been at Sherbrooke, Quebec, are now in process of removal to Peterborough. Thirty acres of land have been taken up by this company, half of which will for the present be covered with fifteen immense buildings. The one at present almost completed is 272 feet long, 100 feet wide, with gables over 60 feet in neight. The main part of the building will be one story, and on each side a gallery for the accomodation of a lighter class of work. The smallest fireproof shed will not be less than 50 feet square and no other under 250 feet in length.

There will be a broad street up the centre of the ground with four railroad tracks in between the two central of which will be a store house 500 feet in length. In addition to the main lines there will be a complete system of railroad tracks through the buildings. The present enormous construction is a machine shop and was opened on April 20th last in the presence of over three thousand people. The work is being done by the company itself under the direction of Mr. John Langton, general manager, and Mr. A. J. Martin, representative of the company. The only contract given out is to the Canada Galvanizing and Steel Roofing Company.

Dyspepsia has driven to an early and even suicidal grave many a man who, if he had tried the virtues of Ayer's Sarsaparilla, would be alive to-day and in the enjoyment of health and competence. Sufferer, be warned in season, and don't allow the system to run down.

Charge and Counter Charge.

Mr. Thos. Bradburn and Mr. H. Carton Charge Each Other With Assault.

At the police court to-day the difficulty between Mr. Thos. Bradburn and Mr. H. Carton was ventilated. A charge of "assault occasioning bodily harm," was preferred against Mr. Carton by Mr. Bradburn; and the former retaliated with a charge of common assault against Mr. Bradburn. Police Magistrate Dumble occupied the bench, Mr. R. E. Wood represented Mr. Bradburn and Mr. E. B. Edwards conducted the case for Mr. Carton.

The case of Bradburn vs. Carton was first gone into.

Mr. BRADBURN testified.—Defendant has been a tenant of mine, occupying the north store of the Opera House block, and has given notice that he will leave the premises. I went into the premises a few days ago to see if they were in a proper state of repair, and found them in a bad state. I had some talk with Mr. Carton about what repairs he should do before vacating. Mr. Graham was with me, and it was agreed that Mr. Graham was to make out a list of repairs, and if Mr. Carton could do them cheaper than I, he was at liberty to do so. I was to let Mr. Carton know on the 26th about it. On the morning of the 26th, I went into the store to let him know I would not be able to have estimate made till afternoon. As I stepped into the door, Mr. Carton walked past me and locked the door. I asked him what he was locking the door for. The reply was that he wanted to see me inside, and we walked together into a backroom. As soon as we got inside Mr. Carton caught me by the collar and said, "—— —— you, I have got you just where I have been trying to get you for some time." Now, he says, "a settlement you have got to make me before you leave here, or I'll take your life." I asked, "what settlement do you want?" He says, "I want a settlement and clear receipt for everything — you to accept the key on Saturday." I asked him to come to my office. He replied, "If you go out of this place I'll knock your d—— brains out." All this time he had hold of my collar, and shoved me up against the wall. He shoved his fist up in my face and told me not to move or he would knock my d—— brains out. He then let go his hold and got a pen and ink out of the front shop, and he says, "Come out here and sit down at that seat, and don't get up either." He pointed to a shop seat, and says, "If you get up out of that chair you know what will take place; I'd as lief knock out your brains as not." I thought I could write better by standing up and writing on a packing case, but he ordered me not to move. I asked, "What kind of a receipt do you want?" He replied, "I'll tell you what to write." He dictated and I wrote. He says, "Sign that now," and I signed it. The receipt was written on foolscap paper. He read it over, then wrote some lines himself, and told me to sign that too, which I did. I think it had reference to my acceptance of the key. He pressed me back against the wall, and either kicked or shoved me over the boxes, at any rate he left a bruise on my leg. I signed the last memo. he added. I tried to copy the receipt, but he said, "D—— you, if you put another word on that paper I'll knock your brains out." He opened the shop door and went out, stepped into my buggy and drove direct to Mr. Wood's office, and laid information against him. This was about 11 o'clock. I am over 70 years of age, and he is a young man. I expected to be bodly injured, if not murdered, and I knew it was useless to struggle. I could not get out, for the back door was boarded up and apparently barricaded, and the front door locked, and he put the key in his pocket.

Cross-examined by Mr. Edwards, witness said:—While we were yet inside, and I was sitting down, after I had signed the receipts, Mr. Carton said, "Now, I want you to take a cheque." I said, "I want no cheque." He said, "I will give you a cheque for $25, and I want you to take it." He wrote the cheque. This was after I had signed the receipts. I took the cheque under compulsion; he threatened me if I didn't. I gave it to Mr. Wood. (Mr. Edwards asked that the cheque be produced, but the magistrate held it was not material evidence.) He then took the key from his pocket and unlocked the door. I am positive that when I went in Mr. Carton locked the door and put the key in his pocket, and when he let me out he took the key out of his pocket again. Then, when he went out into the front room to look for the pen and ink, he took me with him by the coat collar, and told me to sit down or he would knock my brains out. I should say I was inside the shop fifteen or twenty minutes. I don't know whether the back door was locked or not, but it appeared to be barricaded. I had not an opportunity to get to it. I did not go into the shop expecting to get any money. The rent was all paid, and this $25 I understood was for damages to the building. His month ends 30th May. The question of repairs was the only thing between us, and to settle that I got Mr. Graham to assess the damages. He did not make any statement whatever at any time as to what sum he would give me, nor had I ever fixed any amount. I signed the receipts before any mention was made of the check. I swear positively I was afraid of my life, and was glad to get out on any terms. When I took the check I did not know what it was for. I was perfectly sober at the time this happened. I did not take up a board and threaten to knock his brains out if he did not give up the receipts. Mr. Edwards pressed the witness pretty hard upon the point as to whether any definite sum was mentioned, whether in the receipt or not, and witness was positive it was not. Mr. Edwards then read the first receipt, which Mr. Bradburn had written from Mr. Carton's dictation, as follows:—

I hereby agree to take $25 in full for all demands to date for rent and damages to shop now occupied by Mr. Carton. Peterborough, May 26th, 1891. Also I agree to take the key off his hands and consider this a full settlement to this date.

T. BRADBURN.

And this was in Mr. Carton's hand writing, with Mr. Bradburn's signature:—

I also further agree that his tenancy of the store he occupies, No. 342 George street, Peterborough, shall end on the 30th day of this month, May 30th, 1891.

THOS. BRADBURN.

The check tendered by Mr. Carton was then produced. It was check on the Bank of Toronto for $25.00, dated May 25th, in full for all demands and settlement of accounts. The check was marked good, and Mr. Bradburn said he would give Mr. Carton credit for it on the repairs.

W. J. MINORE testified to meeting Mr. Bradburn, when the latter came out of Mr. Carton's store, and rode up street with him as far as far as Mr. Wood's office. He appeared to be in deep thought.

Mr. GRAHAM, carpenter, gave evidence corroborating Mr. Bradburn's statements concerning the repairs to be made, and said he did not make a careful examination, or estimate, but did not think $25 would cover the repairs. When they were leaving the shop they went to go out the back door, but Mr. Carton could not open it and they left by the front door.

This closed the case for the prosecution.

GEORGE STEVENS was first called for the defence. He testified that he had frequently been in Mr. Carton's store lately since he had given up selling, and Mr. Carton usually locked the door to prevent people coming in and bothering him while working at his books.

Mr. GEO. CARTON gave evidence of an unimportant nature, and Hector Baker, a boy employed by Mr. Giles, testified concerning Mr. Carton's habit of looking the door, but did not see him remove the key. He was outside the store on Tuesday and saw Mr. Bradburn go into the store, and heard Mr. Carton turn the key in the lock. The back door was not locked and was open all the time. It was not fastened that day, and was only closed at night by rolling a hogshead against it. The lock of the back door was broken. He had rolled the hogshead away that morning.

JOHN GILES, who purchased Mr. Carton's stock, also gave evidence concerning the frequent locking of the store door. He passed by the store last Tuesday morning just before noon, and stopped and tried the door, but finding it locked passed on. He took a glance through the glass door and saw Mr. Carton standing by the counter, and another man whom he did not recognize sitting on a chair. He did not observe anything unusual inside. Mr. Carton saw him at the door and nodded with his head, and witness inferred by the motion that Mr. Carton wanted him to go away. He then left the door.

The examination of Mr. Carton, the defendant, was adjourned till three o'clock.

News Nuggets.

—In advanced age the declining powers are wonderfully refreshed by Hood's Sarsaparilla. It really does "make the weak strong."

Children Cry for PITCHER'S Castoria.

Cyr's Superb Strength Seance.

The Modern Hiller's Marvellous Manifestation of "Muscle."

There was a fair audience, but not nearly as large as was was deserved, by the splendid entertainment provided by Louis Cyr, who is called with equal fitness the Canadian Samson, the Modern Milo, the Latter Day Hercules, or the champion strong man of the world. The Fire Brigade Band was present, and provided music during and in the interval of the several acts. To see Wrestling Cyr's marvellous feats of strength one can hardly conceive that human bone and muscle and sinew could accomplish such things. Without referring in detail to the several performances, it may be mentioned that the feats are performed with the greatest facility and apparent ease, such as raising a 220 lb. dumb bell with each hand, holding a 100 lb. ball at right angle to the shoulder, and toeing with a 45 lb. cannon ball, tossing it about like a strong man would a cricket ball, and tracking a 100 lb. ball in a somewhat similar manner. Mr. Cyr is also

RESPONSIBLE FOR A RISE IN FLOUR

lifting as he did and placing on his shoulder with one hand a 200-lb barrel of Muldrau & Davidson's "Milkado" flour. To show that one set of muscles was not alone developed Cyr tied together two dumb bells, weighing 340 lbs, letting an 80 lb boy stand on them and then putting his middle finger through a loop in the rope and lifting the mass of 420 lbs with ease. Mr. Cyr's final feat of strength was the placing of a heavy bolted platform, that looked like one of the gates of Gaza that Samson purloined, upon trestles and having 17 heavy men. Mr. Cyr then placed his mighty back under it, and after luxuriously poising the weight till he got the balance, raised the platform several inches from the trestle, the combined weight exceeding the platform was 2,343 lbs. Mr. Walter Stocker is no feather weight—175 lbs. He mounted the stage, Cyr seized him by the waist, raised him up at arm's length, and held him there, while he (Cyr) lay down on the stage and rose again to his feet, handling the stalwart Lancashire lad as lightly as he would a kitten. Cyr says he was born in St. John's, P. Q., in 1864—he is therefore 27 years of age, and the champion strong man of the world. To show that his weight, 318 lbs., does not make him clumsy, he made a standing jump over a broom handle held waist high to himself

WITH THE EASE OF A GREYHOUND,

and to show that his wondrous strength was accompanied by healthy nervous force Cyr did some wonderful feats of balancing—on his chin a common chair in several positions, a whip by the limber end, the edge of a plate, a cone of burning paper which he held until the flames came within an inch of his nose, and, most delicate of all, balancing a timothy straw on the end of his nose.

Cyr is a wonderful man. He beams on his audience with a smile that is child-like and bland, while behind it lies the strength of a Clydesdale. His flesh feels like the skin of an infant drawn over muscles of rawhide. His wondrous strength and wondrous delicacy of manipulation remind one of the steam hammer that can be used to crack an egg shell or crush a common ball. He gives a splendid entertainment, free from any objectionable feature. Last night's gave every satisfaction. All the professions were well represented in the audience. During the evening, in the unavoidable absence of Mr. T. Dunn, Mr. W. H. Burdick gave a mouth organ solo, showing great dexterity and winning hearty applause. The Athletic Association is to be congratulated on bringing to town an attraction like Louis Cyr, who will command a full house whenever he returns.

The Story of a Life.

From Bar-room to Pulpit—Sam Small's Interesting Address in the Opera House.

Rev. Sam Small's lecture in the Opera House Wednesday night brought out a fair-sized audience. Sam Small, as he is familiarly known, has made a reputation as a platform orator, and very little comment is required concerning his address Wednesday evening. He amused and interested his audience by turns, at times creating laughter by his witticisms, and again holding his audience spell-bound with his vivid word-pictures and flights of rhetoric. He lectured under the auspices of the Charlotte Street Methodist Church. He gave a straight temperance address, but in a racy, entertaining way that proved interesting to all.

Rev. D. S. Houck occupied the chair and briefly introduced the speaker.

It was originally advertised that he would speak on the subject of "Cranks and Mugwumps," but the topic was afterwards changed to the story of his life, or, "From Bar-room to Pulpit." Sam Small's career does not comprise a series of surprising adventures, such as reformed drunkards often make the theme of their addresses. His life was begun in a comfortable home, and he was reared by a loving, Christian mother, amidst all the luxuries that wealth could produce. He went to college, graduated, and finally became a barrister-at-law. With ample means, a devoted wife, and surrounded by a large circle of influential friends, he had every prospect before him of a brilliant and successful career. But at the very outset of his business life he saw men in high positions following practices which were contrary to his youthful teachings; but he thought surely if these prominent men were able to indulge their passions he could not be greatly harmed if he followed their example. He went into the drinking habit timidly at first, then boldly, fully believing in his own strength of will power to control appetite and passion, and heedless of the fate which befell others who had come under his observation. Now, after seventeen years experience and observation, he is firm'y convinced that if a man once sinks to the *depths of dissipation*, no human will power on earth can save him. Finally he made the humiliating discovery that he was controlled by his appetite, then he made efforts to regain his freedom, assisted by his wife and friends. He tried physicians, patent antidotes, change of scene, etc., but all failed. Incidentally the speaker took occasion to remark that no physician had ever succeeded in curing an inebriate's appetite, and anyone who said he could do so told a falsehood. The appetite was only suppressed for the time, ready to burst forth with fiercer power than ever. Physicians, too, were coming to recognize that alcohol was not necessary to be used in the practice of their profession, nor a necessity in any way for man. Finally in September, 1885, when his case appeared incurable and he himself had given up hope of ever being a man again and had thought of suicide, one Sunday morning he went with his children for a walk in the town of Atlanta, their home, and they went to Rev. Sam Jones' revival meeting. There he was struck by the earnestness of the speaker, and the arrows of conviction were shot into his soul. He tried to drown his thoughts in dissipation, but God worked in His mysterious way, and after a hard struggle he felt the power of forgiveness and new strength in his heart. From that day to this, by the grace of God, he had not touched liquor, and he rejoiced in his new found liberty. That same evening he preached upon the street. The next morning he had another severe struggle, but again experienced the feeling of peace, and he then made a vow that he would spend his life in preaching gospel temperance and helping along the cause of religion, believing that it was the drunkard's only salvation. He was now president of Utah College. He hoped the story of *his life* might be the means of preventing some young men from following a similar course. Rev. Mr. Small was very earnest in his denunciation of the liquor traffic.

At the close of the address a vote of thanks was tendered the lecturer, and the audience dispersed after singing the National Anthem.

Personal.

Mr. H. J. Kearney, of Young's Point, is at the Peterborough Business College completing a course in book-keeping.

Mr. John Forsythe, Inspector "Canada Fire Underwriters' Association," is in town to-day.

A Big Lumber Limit Deal.

The old Guelph Lumber Company's limits at Parry Sound have been sold by the present owners for $250,000. This is exclusive of the mill or the mill property. When the property was put up by auction it was sold for $90,000, and 13 years' cutting. Probably over 100,000,000 feet have been taken off. As a quarter of a million has been got for the leavings, it must have been a property of enormous value, more than the most imagine, of the parties at one time interested anticipated or estimated.

A Business-Like Conversation.

"Good morning (shaking hands) Mr. Rose; I did not expect to meet you quite so soon, as I was informed your illness was very severe." "So it was Mr. Palmer, but my wife acted as my physician, and that I have no doubt accounts for my quick restoration to health." "This is perfectly astonishing, Mr. Rose; only three weeks ago you were used-up looking, pale and nervous, and a fit subject for a six month's leave of a sick bed. How has this been accomplished?"

"Simply, Mr. Palmer, owing to my common sense, or rather good luck in having taking my wife's advice. She insisted upon my taking a time of rest, and using Paine's Celery Compound and nothing else. I have been a willing and obedient subject, and you see the result. I feel as strong as ever before, and can now indulge in hard work, to make up for lost time. I am now a strong advocate of this great scientific preparation, and honestly feel that I can always recommend it."

The gentlemen parted, and each went his way, Mr. Palmer feeling that he had learned something that might possibly be of used in the future.

Dyspepsia

Intense Suffering for 8 years—Restored to Perfect Health.

Few people have suffered more severely from dyspepsia than Mr. E. A. McMahon, a well known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an ailment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the stomach, palpitation of the heart, nausea, and indigestion. I could not sleep, lost all heart in my work, had fits of melancholia, and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Sarsaparilla. It had wrought wonders in the case of his wife and I decided to do so, and before taking the whole of a bottle I began to feel like a new man. The terrible pains to which I had been subjected, ceased, the palpitation of the heart subsided, my stomach became easier, nausea disappeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and natural condition. I am today well and I ascribe it to taking Hood's Sarsaparilla."

Intense Suffering Hood's Sarsaparilla cured his wife of dyspepsia. **8 Years**

N.B. If you decide to take Hood's Sarsaparilla do not be induced to buy any other.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

On Fire with Eczema

Terrible Sufferings of Little Baby—Given Doctors and Two Hospitals Fail!

—Cured by Cuticura.

My baby boy, 5 months old, broke out with eczema. The humor came to his cheek, then to his head, until he was nearly covered. His tortures were pitiable to witness. He had no rest night and but little rest night or day. He was under treatment at different times at two hospitals and by seven doctors in this city without the least benefit; every prescription of the doctors was faithfully tried, but he grew worse all the time. For months I expended about $5 per week for medicines, and was entirely discouraged. I purchased CUTICURA, CUTICURA SOAP and CUTICURA RESOLVENT and followed the directions to the letter. Relief was immediate, his sufferings were ceased, and rest and sleep permitted. He steadily improved, and in nine weeks was entirely cured, and has now as clear a skin and is as fair a boy as any mother could wish to see. I recommend every mother to use it for every Baby Humor.

MRS. M. FERGUSON,
18 W. Brookline street, Boston.

Cuticura Remedies.

The greatest skin cures, blood purifiers, and humor remedies of modern times, instantly relieve the most agonizing forms of eczema and psoriasis, and speedily, permanently, economically, and infallibly cure every species of torturing, disfiguring, itching, burning, bleeding, scaly, crusted, and pimply diseases and humors of the skin, scalp and blood, with loss of hair, from infancy to age, whether simple, scrofulous, or hereditary, when all other methods and best physicians fail.

Sold everywhere. Price, CUTICURA, 75c. SOAP, 35c.; RESOLVENT, $1.00. Prepared by the POTTER DRUG AND CHEMICAL CORPORATION, Boston.

Send for "How to Cure Skin Diseases," 64 pages, 50 illustrations, and 100 testimonials.

PIMPLES, black-heads, red, rough, chapped, and oily skin cured by CUTICURA SOAP.

OLD FOLKS' PAINS.

Full of comfort for all Pains, Inflammation, and Weakness of the Aged is the Cuticura Anti-Pain Plaster, the first and only pain-killing strengthening plaster. New, instantaneous, and infallible. dw

B. & C. corsets boned with Kabo never works up or down or breaks. If it does in a year, you shall have your money back from the store where you bought your corset.

The steels may break—the best of steels have their limits of strength. But Kabo has no breaking-limit; it doesn't break at all.

And the B. & C. corset is perfect in form.

SIR JOHN IS VERY ILL.

WILL NOT LEAD HIS PARTY IN THE HOUSE THIS SESSION.

Consultation of Physicians at Ernscliffe They Enjoin Positive and Complete Rest and Entire Freedom from Public Business A Trip to England.

OTTAWA, May 28.—Very exaggerated and alarming accounts of Sir John's health were sent to American papers last night and cabled to England. The result has been that to-day there has been a constant stream of telegrams asking for information about the Premier. Fortunately the state of Sir John's health is by no means as alarming as has been represented and there is no truth whatever in the stories that he has been stricken with paralysis or that he is suffering from congestion of the lungs. The state of the case is simply this: Ever since Sir John overworked himself during the elections he has been subject to attacks of exhaustion, which have made his friends feel that he was over-exerting himself, and made them anxious that he should refrain from departmental and other work for awhile. These attacks have been slight, and he has quickly recovered from them and appeared today in his usual health. On Friday he was in the House and appeared in exceptionally good spirits, and on Saturday night he had a dinner party at Ernscliffe, at which he seemed quite well. On Monday he was suffering slightly from a cold and remained in the House Tuesday and Wednesday, feeling a little weak, but able to attend to business. Yesterday his weakness increased somewhat and his attending physician, Dr. R. W. Powell, advised that a consultation be held with two specialists. Sir John agreed to this and in consequence Doctors Ross and Stewart of Montreal were telegraphed for and came up this morning. This afternoon the consultation was held and after a long and careful examination this bulletin was issued:

ERNSCLIFFE, May 28.

Sir John Macdonald has had a return of his attack of physical and nervous exhaustion and we have enjoined positively complete rest for the present and entire freedom from public business.

(Signed) R. W. POWELL, M.D.
GEORGE ROSS, M.D.
JAMES STEWART, M.D.

In view of this medical opinion it may be taken for granted that Sir John will not again attempt to conduct the business of the House this session, although he may pay it an occasional visit, but will leave the affairs of the Government in the able hands of the Ministers of Justice and Finance.

There is absolutely no truth whatever in the story that Sir Charles Tupper has been cabled to come over nor in the story that Sir John will resign the premiership. He will simply abstain from work and let his lieutenants act for him. So soon as he has recovered his strength sufficiently it is most probable that he will take a trip to England, as a sea voyage always greatly benefits him, and with this and absolute rest and freedom from worry for a while it is hoped that he will become thoroughly recuperated and be enabled to resume his old place in the House when Parliament meets for next session.

MIDNIGHT—Dr. Powell has just returned from Ernscliffe and reports the patient's condition as fairly satisfactory.

SUDDENLY CALLED.

An Elder Drops Dead at the Session of the Presbyterian Assembly.

DETROIT, May 28.—At this afternoon's session of the Presbyterian General Assembly, just as Judge S. M. Breckenridge of St. Louis, Mo., an elder, finished speaking on the Briggs case he turned towards the clerk's desk, gasped and fell to the floor insensible. He was carried to the ante-room and Doctor Yemans attended him but in a few moments he was dead. The assembly at once adjourned and instead of the banquet in the evening a prayer meeting was held in the church. The judge was in his usual health a few moments before the end.

WENT DOWN THE FLUE.

A Youth's Ingenious But Unsuccessful Attempt To Break Jail.

GALT, May 28.—A young lad named Mierah, in Berlin jail waiting transference to Mimico Industrial School, whither he had been sentenced for four years, made a determined attempt to escape. The room in which he was confined is heated by a hot air register from a furnace in the basement. The youthful prisoner pulled up the register and began a descent into the regions below. The first stage of the journey was accomplished by a straight drop of 15 feet through the hot-air pipe, after which he crawled through a couple of elbows, and then dropped the remainder of the trip—but not to the hoped-for liberty. He simply landed on top of the furnace, but still inside of the pipe. No doubt finding his quarters somewhat uncomfortable, he raised a racket sufficient to attract attention, and in order to release him from his "narrow cell" a large hole had to be cut in the pipe.

Piaget Gets off Easily

SAN ANTONIO, May 28.—The case against L. Piaget, manager of Banker Sullivan's ranch, who skipped to Canada with $40,000 of his employer's money, has been compromised. Piaget has sent $15,000 to Sullivan and will not be further prosecuted. Louise Labrouche, who fled with Piaget, is still in jail here.

Death Preferred to Poverty.

NEW YORK, May 28.—William Breitkoff, aged 69, and his wife Mary, aged 71, committed suicide at their home here by taking oxalic acid. The faces of the suicides were horribly contorted. Poverty drove them to suicide. They were about to be dispossessed for nonpayment of rent.

Currants Killed Him.

BRACEBRIDGE, Ont., May 28.—James Hargart, aged 23, of Loring P.O., died at Mr. Hoffields lumber camp, Restoule. His death was caused by eating too freely of currants, which brought on inflammation of the bowels. He only lived three days.

SIGHT WEDDED TO SOUND.

THE LATEST INVENTION OF THE WIZARD EDISON.

The Phonograph and the Camera United to Produce a Living Picture—Over 30,000 Photographs May be Taken Each Hour.

NEW YORK, May 28.—From the laboratory of the Wizard of Menlo Park there is coming an invention which out-Edisons Edison. It is the marriage of the phonograph with the camera—the union in one instrument of sound and sight. With it the opera can be carried into the parlor and the artists can not only be heard, but seen. The popular preacher, the eminent public speaker, with it can all be brought to the home. The new wonder will be called the "kinetograph," a strange sounding title to the ear to-day, but destined perhaps soon to become as familiar as locomotive or telephone, both strange words in their infancy. Mr. Edison has been at work on this newest conception of his genius for three years. Now he knows that its base principle is right, all that remains to be done is to perfect the details. The new invention is a combination machine, in which the phonograph and the photographic camera work together. It will reproduce not only sound, but also a picture of what passes before it. Not a mere instantaneous impression of objects, but a continuous representation of them for a considerable space of time.

Mr. Edison claims it will reproduce an opera. The phonograph will render the music and the photographic apparatus will reproduce the performers so that their presence on the stage will be depicted, every muscle of their faces will be seen to work, strides, movements, all will be true to nature. In other words, the camera will give a continuous picture of the singer on the stage for say thirty minutes, all his motions and gestures, while its ally, the phonograph, will record every note he utters.

To produce this result it was necessary for the inventor to be able to take a series of instantaneous photographs, following each other in such quick succession that no lapse of time can be detected between the impressions recorded, and the series of pictures become in effect but one continuous picture.

And this Mr. Edison has succeeded in doing. Operated by an electric motor, his camera will take forty-six impressions in each second of time, and in this way the impressions are recorded so rapidly that the motions become resolved into pure motion, instead of a series of jerks. The impressions are recorded on a long roll of gelatine paper fastened to a spindle, which passes over a photographic lens.

This is how Mr. Edison himself describes the wonder:—"The machine starts, moves, uncloses, stops, takes a photograph, closes, starts, uncloses, stops, takes another and so on, and forty-six of theses are recorded every second."

And this process can be kept up for 30 minutes without a pause. So 2760 photographs can be taken each minute and 82,800 every half hour. Thus the full representation of say an opera, the movement on the stage, and music can be recorded by this novel machine.

As Large As Life.

Mr. Edison has no doubt that he will live to see an opera recorded and reproduced by the Kinetograph. Said he:

"I take, for example, a dress rehearsal of 'Erminie.'

I will place my machine on a table in front of the stage. The two agencies, the phonograph and the Kinetograph, will work together in harmony and with a continuous capacity of 30 minutes. Both will start as the curtain rises. The phonograph will record the music, while the Kinetograph will record the motion of the performers at the rate of 46 impressions per second. This will give a continuous picture of what is going on on the stage. Afterward the photographic slips will be developed, replaced in the machine and a projecting lens will be substituted for the photograph lens. Then the reproducing part of the phonograph will be adjusted, and by means of a calcium light the whole effect can be reproduced at life-size on a white curtain in front of an audience. The original scene will appear to their eyes as true as life. They will see the singers before them and all their movements and gestures will appear as if they were actually on the stage. The colors will not appear, but otherwise you will see and hear the opera as you see it at the Casino. The machine is, in fact, merely a mechanical eye."

Mr. Edison has not yet a perfected machine at work. He does not expect to have a perfect one for some time yet. He has an experimental one rigged up in his workshop, covered by a wooden box. It is a regular photographic machine propelled by an electric motor. In the top of the box was a hole about the size of a silver dollar. The machine was started and I looked through the orifice. What I saw was the form of a man about an inch in size bowing and raising his hat. The motions were natural and continuous and no break could be detected between them. The picture I saw was only a negative, photographed on an endless slip. At the greatest rate of speed no gap could be noticed between the bows. They came along smoothly and naturally. But when the speed was decreased to twenty and thirty pictures per second the difference was at once noticeable. The motions became jerky and irregular.

They Can Be Duplicated.

Once set going by any power the camera works automatically. It is the great speed attained and the great number of impressions obtained in a limited space of time which, Mr. Edison says, enables him to get the perfection of continuous photograph depicting everything that occurs.

The vibrations of light and motion are got ten rid of. The two machines, the phonograph and kinetograph, must work simultaneously and exactly together or the result would not be a success.

After the impressions are recorded any number of duplicates can be struck off, and when perfected this machine could be operated in any household. The time will come when they may be erected in hotels, and a nickel dropped in a slot will enable one to hear and see Patti sing one of her gems. Nor need it be confined to operas. It will reproduce anything that can be photographed and the phonograph will attend to the sound. It can be applied to the ring and a whole prize fight or sparring exhibition, with the motions, blows and talk, can be reproduced before an audience.

The Wizard says it is very simple. "I wrote an article some years ago," he said, 'hinting at this very invention. The papers made fun of me—said I had better stop talking. This made me mad, and I determined to carry the conception to a successful issue. I felt confident that I could do it. The only trouble about it was to take the impression fast enough, so as to secure pure motion. This I have done. I intend to have it ready and in practical working shape for the Chicago Exposition.

"Do I expect to make money out of it? Well, I have never thought of that. I have worked it out for amusement; it has been a pet hobby of mine."

And the greatest inventor of his age looked quite content with the result of his labor

HIS FATHER PRAISED.

The Governor-General Hears a Tribute to His Sire's Worth.

MONTREAL, May 28.—At the meeting of the Royal Society to-day an interesting incident took place. On the occasion of the visit of the Governor-General to the French section Mr. Benjamin Suite, the well-known historian, was expressing the joy this section of the Royal Society felt at the visit of His Excellency, when he related the following fact, recently discovered by him: In the year 1840, a number of French-Canadian exiles to Australia, patriots of 1837-38, who had been reprieved, were on their way home, and in their haste to reach Canada, as they had not waited for the funds voted and provided for their voyage, they found themselves friendless and penniless in the London docks. In their bereavement great was their joy when an unknown gentleman approached them and, after ascertaining the facts and the circumstances in which they were placed, at once gave his own check for the amount necessary to take them safely home. This stranger, added Mr. Suite, was none other than the father of Lord Stanley, the present Governor-General of Canada.

The Governor-General was deeply interested in the incident. Lord Stanley returned to Ottawa to-day.

TORONTO TOPICS.

A Carpenter Killed—The Local Option Law.

TORONTO, May 29.—A number of men were engaged on the third story of a hardware house in Adelaide-street yesterday in hoisting a heavy timber beam 14 inches square and 12 feet long, when one of the jacks slipped, letting the beam fall some eight or ten feet. John Thurst, one of the carpenters on the job, seeing the jack moving, jumped to get clear, but stumbled and fell, the beam striking him on the side of the head, crushing it terribly and killing him on the spot.

Argument was commenced yesterday before the Court of Appeal on the questions referred by the Lieutenant-Governor in council regarding the constitutionality of the local option law passed by the Ontario Legislature in April, 1890. It was decided to conduct the case as an appeal by the Attorney-General from the decisions of Chief Justice Galt quashing the bylaws passed under the act by the municipalities of London West, South Norwich and Oakland. E. Irving for the Government addressed the court in support of the validity of the Provincial Act. He cited a number of decisions in support of the validity of the act, and reviewed a long list of legal technicalities to show that a bylaw would not be inoperative through the omission of a penalty for its infraction, that being one of the counts on which the bylaws had been quashed by Chief Justice Galt.

THE BEHRING SEA.

An Announcement in the British House of Commons.

WASHINGTON, May 28.—The President this afternoon received a cipher despatch from Minister Lincoln at London saying that official notice had been given in the House of Commons that a bill would be introduced Monday to authorize the Queen to prohibit British subjects from taking seal in Behring Sea.

The question engaged the President's principal attention to-day and he had conferences on its various phases with Secretary Foster, Tracy, Proctor and acting Secretary Wharton. One point considered was the advisability of sending war vessels to Behring Sea to reinforce the revenue cutters in preventing the taking of seals in case a closed season is decided upon. This fleet would co-operate with the English warships now in those waters. It is understood the Secretary of the Navy reported that there are three naval vessels that could be prepared for this service without much delay.

The news was received with satisfaction at the State Department. Generally it is taken as an indication that the British Government is preparing to accept the condition imposed by the President as a preliminary to arbitration and cause the British vessels to refrain from sealing meantime. The fixed period for the cessation of sealing referred to by Mr. Goschen probably relates to the remainder of this season. During this time the arbitrators—for it is presumed the British Government's action carries with it an acceptance of the terms of arbitration laid out by the President during the correspondence—will have an opportunity to reach an agreement.

LONDON, May 28.—Mr. Goschen, Chancellor of the Exchequer, in the House of Commons this afternoon gave notice that the Government would introduce a bill on Monday which would enable the Queen to prohibit British subjects from catching seals in Behring Sea for a period, the extent of which will be stated when the bill is brought forward.

To be Prohibited for One Year

LONDON, May 28.—It is understood the Behring Sea bill to be introduced in the House of Commons will totally prohibit the fishing for seals for a year.

No More Bait for Americans.

ST. JOHN'S, Nfld., May 28.—The reports of a French commander stopping the sale of bait to Americans are confirmed to-day. Steam launches from the French warships drove the boats from the sides of the American schooners. They also took up the nets of Newfoundland fishermen, pulling them ashore. The outrage is a great loss to the inhabitants and to American fishermen.

Last Year's Seal Catch.

OTTAWA, May 28.—The report on the fisheries of the Dominion has just been issued. The total value of the fisheries for the year 1890 is given as $17,714,302.33, as against $17,655,256.66 in 1889, showing an increase of $59,046.33. This is exclusive of the quantity consumed by the Indian population of British Columbia, Manitoba and the Northwest Territories, of which no accurate data are at hand, but which it is believed would increase the total value to fully $21,000,000. The total value of the marine fur fishery in Behring Sea and adjoining waters was $510,111, showing a total catch of 54,855 seals. The number of fur seals caught by foreign vessels and disposal of in Victoria was 3174, of which all but 294 were caught in Behring Sea. The total value of the Canadian seal catch has increased $177,961, owing to advance of $1 per skin and an increase of 11,151 skins in the catch.

The Knutsford Bill Will Not Pass.

LONDON, May 28.—The House of Commons having been informed of the passage by the Newfoundland Legislature of the Act to carry out treaty obligations, the Government to-day consented not to proceed with the second reading of the Nutsford bill.

Children Cry for Pitcher's Castoria.

EARLDOM OF BERKELEY.

A LEGAL FIGHT AS TO WHO IS HEIR.

Did the Fifth Earl Marry His Domestic?—The Czar's Visit to Moscow Postponed—Berlin Journalists and Executions.—An Atrocious Young Scoundrel.

LONDON, May 28.—The committee for privileges of the House of Lords to-day heard evidence in the claim made by Randal Mowbray Thomas Berkeley, commonly known as Viscount Dursley, to the earldom of Berkeley in opposition to Baron Fitzhardinge, Francis William Fitzhardinge Berkeley. Counsel on behalf of Baron Fitzhardinge said the fifth Earl of Berkeley tried to seduce a servant girl named Mary Cole and that failing in this attempt he secretly married her and then conspired with the Chaplain who performed the ceremony to destroy the proof of the marriage. The claim depends upon whether the fifth Earl of Berkeley did or did not marry Mary Cole previous to the birth of her eldest son. Great interest is taken in the case, all the available space in the hall where the hearing took place being occupied by people curious to hear the evidence. Among those present were a number of peeresses.

Archbishop Croke Says Recent Developments Have Killed the Cause.

DUBLIN, May 28.—Archbishop Croke said to-day: "I am greatly afraid the cause of Home Rule is lost. Within the last four months I have heard several staunch intelligent Irishmen say that, considering all that has occurred since the revelations were made in the O'Shea divorce case and the strange turn some of the Irish party and a certain section of our people have taken, preferring the interest of one man to the cause of their country, we have given both friends and foes to believe that we are at present utterly unfit for Home Rule."

The French Visit a Fiasco.

MOSCOW, May 28.—The French expedition here has proved to be a complete fiasco. French priests intending to visit the exposition are not allowed to cross the frontier without first obtaining a special permit to secure which two months time are required. Novels by Monpassant, Lemoncier and Sylvestre have been confiscated and all the visitors to the show are narrowly watched by police.

A Shocking Telephone Experience.

LONDON, May 28.—Mr. Weller, an employe of the London telephone office, while conversing over the telephone yesterday received such a shock on placing one of the receivers to his ear that he was thrown out of the telephone box. The officials state that there have been a number of similar cases recently. Experts are enquiring into the cause.

Another British Victory.

LISBON, May 28.—A despatch from Lourenzo Marques, South Africa, says: Another fight has taken place between the British and the Portuguese. The scene of the encounter was on the banks of the Bembe River. The Portuguese were defeated.

Berlin Journalists and Executions.

BERLIN, May 28.—Berlin journalists are complaining that the authorities do not give an equal opportunity to all newspapers to be represented at public executions, and that the notices sent to the press are deliberately inaccurate, some favored papers, however, getting timely notice. It is also alleged that while the headsman does his work with neatness and dispatch, there is a good deal of useless severity in the preliminaries. The present Kaiser is not using the pardoning power with much liberality, having signed nearly a score of warrants since the beginning of the year. He gives, however, personal attention to petitions, which his predecessors did not, usually leaving such matters to the Minister of Justice.

Chat From Over the Sea.

A student arrested at Warsaw on the occasion of the Polish celebration, has committed suicide in prison.

Emperor William will shortly hold a council to consider a reduction of the corn tariff to 2¼ marks.

The city of Rome is building a circular railway which will have great strategic and defensive importance.

Templars' congress at Edinburgh yesterday decided to hold a celebration March 17 each year in memory of J. B. Finch.

The Czarina being indisposed, the Imperial family have postponed their departure for Moscow until Friday. The visit may be abandoned.

M. Bergier, counsellor in the Bordeaux Appeal Court, has committed suicide owing to losses amounting to $200,000 in bourse speculations.

The evicted tradesmen of Tipperary have accepted the landlord's terms and have been reinstated in their shops. Yesterday was observed as a general holiday in Tipperary in celebration of the settlement of the dispute.

The populace of the Commune of Misterbiauco, Sicily, rose in revolt yesterday against a local tax and invading the town set fire to several buildings. The revolt was suppressed and the leaders arrested.

The Paris Chamber of Deputies continued the debate on the tariff bill, adopting the following duties recommended by the committee: Mutton 32 f., pork 12 f., beef 25 f., salted pork, bam and bacon 20 f. maximum, 15 f. minimum, salted beef 30 f. maximum, 27 f. minimum.

$30,000 BLAZE.

Destructive Conflagration at a Small Village in Essex.

MCGREGOR, Ont., May 28.—Fire broke out in Reaumes' barn about 4 p.m. to-day. Reaumes' store, dwelling and contents and outbuildings were destroyed. Loss $6500, insurance $4100. Aubin hotel was burned, furniture saved. Loss $2500, insurance $1400. Higgins' grist and sawmill and outbuildings burned also, with some lumber and flour. Total loss $20,000, insurance $6000. Lovett's (lumber dealer) barn, two grainaries, wood and bolts. Total loss $1500, no insurance. Three Michigan Central cars were also burned. The fire is supposed to have originated through some boys setting off firecrackers.

Fire in Adelaide.

STRATHROY, May 28.—The house of J. L. Yokes, north of the town in Adelaide, was destroyed by fire to-day. Loss about $2 00, insurance $1400.

Ontario's Next Lieutenant-Governor.

OTTAWA, May 28.—It is reported that Senator Allan, ex-Speaker of the Senate, will be the next Lieutenant-Governor of Ontario.

NONE LEFT TO TELL THE TALE.

Loss of the Schooner Hume on Lake Michigan—No Trace of Her.

CHICAGO, May 28.—The schooner Thomas Hume is believed to have gone down in Lake Michigan with all on board, involving a loss of seven lives. Nothing has been seen of the craft since she left Chicago a week ago today. A terrific squall came up shortly after the Hume sailed. It is thought the catastrophe occurred within 20 miles of Chicago. The schooner was commanded by Capt. Albright's son.

Accidentally Drowned.

BRACEBRIDGE, Ont., May 28.—Mac. Rogers, a young Frenchman in the employ of Mr. Balance, was standing on a log when he was seen to fall backward into the river. The water being about nine feet deep and rolling near but logs, rescue was impossible.

Everybody Knows

That at this season the blood is filled with impurities, the accumulation of months of close confinement in poorly ventilated stores, workshops and tenements. All these impurities and every trace of scrofula, salt rheum, or other diseases may be expelled by taking Hood's Sarsaparilla, the best blood purifier ever produced. It is the only medicine of which "100 doses one dollar," is true.

Constant Advertising in the Examiner Pays

COX & DAVIS, Agents, Peterborough.

3 PRACTICAL POINTS.

One of the most successful German physicians gave as the secret of his wonderful success these three important points:—

1. Keep the Head Cool.
2. Keep the Bowels Open.
3. Keep the Feet Warm.

These conditions are not so easily obtained as one would think. Why? Because without pure and healthy blood a vigorous circulation cannot be kept up, and because the food and occupation of most people tends to clog up the bowels and produce constipation. The success of B. B. B., like that of the German physician, lies so purifying the blood and regulating the bowels, liver and stomach, that these three conditions are fulfilled easily, and disease can find no lodgment in the body.

THE BEST SPRING MEDICINE.

B B B

This medicine does purify the blood and cure all diseases arising from impure or unhealthy blood. It does regulate the entire system and cure constipation, dyspepsia, biliousness, sick headache, scrofula, skin diseases, rheumatism, and all disorders of the stomach, liver and bowels. During the past ten years over one million bottles have been sold in Canada, and, although we guarantee every bottle to do all we claim, we have not received a single complaint.

R. Fair.

Local Showers.

Moderate winds, generally fair, some local showers in the southern portion, stationary or a little higher temperature.

ROBERT FAIR
